Hailstorm Late Saturday Smashes Roofs, Window at Farm Homes in Mattson Area

Considerable property damage resulted from a hailstorm which struck an area in the Mattson community Saturday afternoon, when hailstones reportedly ranging from the "size of turkey eggs to as large as baseballs" fell for a period of 15 or 20 minutes. The

large hailstones had the ground fairly well covered when the brief flurry was over, according to Elbert Mapes, farmer living in the area. A damaging hailstorm also struck in the Paint Creek section. Roy Overton had considerable damage, including broken shingles on the slate roof of his home. Hail almost as large as baseballs dented cars of several residents in the community. Others in that section who had hail damage included Wayne Perry, Durward Livengood, Mrs. M. L. Middlebrook, Louie Kuenstler, Paul Fischer, and possibly others.

The worst hail damage was in a strip extending roughly for several miles northeast from the Brannan grocery and station east of town on Highway 24. Roofs were damaged and windows and screens smashed by the large hailstones on the Bill Holt farm, at the Tom Mapes place, the Jess Leonard farm, at the Elbert Mapes home, and at other places in the vicinity. Elbert Mapes said three window panes were crashed and six new screens ripped through by the hail. Also, he said that siding on his garage was shattered by the impact of the large hailstones. The hail also broke the windshield in a pickup truck belonging to Bill Holt, Mapes said.

Rainfall accompanying the hail was measured at three-tenths of an inch, Mapes reported. However, a much heavier downpour fell in a small area along the highway about four miles east of Haskell. The downpour filled a small creek in the vicinity almost bankfull. Further east the run-off resulted in the large Humphreys tank overflowing and flooding across Farm Road 618 for a distance of 75 to 100 feet for more than an hour. Lighter hail and varying rainfall covered a wide belt ranging from Haskell east and south. However, crop damage from the hail was negligible, even in the Mattson area, farmers reported. Large hail which caused property damage, was scattered and did not batter crops too badly, farmers in that area explained.

Rev. Gene Louder Is New Weinert Methodist Pastor

The Rev. Gene B. Louder, former pastor for the McCaulley circuit, assumed the pastorate of the Weinert Methodist Church Sunday, June 5. He succeeds Rev. C. C. Lamb, whose appointment as pastor of the Thalia Methodist Church was announced by the Northwest Texas Methodist Conference. The new Weinert pastor is a graduate of McMurry College, where he received his bachelor of science degree in secondary education and religion on May 23. While a ministerial student at McMurry, Rev. Louder had been serving the McCaulley circuit as pastor.

A graduate of Sundeen High School near Corpus Christi, he later moved with his parents to Seagraves. He surrendered to preach while living there, and entered McMurry College in 1949. Rev. Mr. Louder's mother, Mrs. Earl Louder of Seagraves, has been visiting him in Weinert since he arrived to take his pastorate there.

Lions Reminded Of Facilities for Crippled Kiddies

Haskell Lions have the opportunity of sending two or possibly three crippled children to the Crippled Children's Home at Kerrville, Dr. T. W. Williams told members at the weekly meeting and luncheon Tuesday at noon at the Texas Cafe. He suggested that the Club take advantage of this opportunity if there are any children eligible in the community.

Club members were reminded of the program to be presented Tuesday evening at the elementary school auditorium, when Lion-sponsored Boy Scout Troop 35 has booked the Starlight Sisters of Abilene and the Gatlin Trio for a concert in Haskell. Lions were urged to attend the program, and push ticket sales for the event.

Plans are progressing for the annual Lions Club baseball game between the Fats & Leans, scheduled Friday, June 17, at Fair Park field. Interest in the coming contest is building up fast, judging from activities of the leaders of the opposing teams, Olen Dotson of the Overweights and Brooks Middleton of the Lightweights. Both have contacted numerous prospective players and have assembled large rosters of reserves for the contest.

TORNADO WARNING SENDS HASKELLITES TO CELLARS

A threatening storm cloud and high winds which hit at mid-afternoon Wednesday resulted in fire department sirens being sounded as a warning, sending most Haskell people to cellars. The threat passed over quickly, after a hard rain had dumped .70 inch of moisture.

EAGLE SCOUTS WILLIAM AND WALLAR OVERTON

Eagle Awards in Scouting Presented Twins William and Wallar Overton

William and Wallar Overton, 16, twin sons of Mr. and Mrs. Gene Overton of the Paint Creek community, have received Eagle Scout awards after a seven year quest that began in the cub scouts.

Presentation was made at a Court of Honor of Scout Troop 48 at the Paint Creek school auditorium.

Explorers of the troop gave the opening ceremony, explaining the

parts of the Scout emblem. District Scout executive Ray Davis was master of ceremonies.

Ben Sellers, camp ranger of Camp Tonkawa at Buffalo Gap, awarded the second class badge to Scout Mike Shaw. The star badge was awarded to explorer Dan Griffith and merit badge went to Johnny McRae, William Haynes and Dan Griffith.

Claude Willis of Abilene, principal of Abilene College Heights elementary school, awarded the Eagle Scout Badge to the Overton brothers. Willis has charge of the water front at Camp Tonkawa every summer.

The Overton twins have participated in scout activities including camp at Camp Tonkawa and a national meeting in Santa Ana, Calif.

The brothers joined Dan 5 of Haskell Cub Pack 36 in 1948. They have been den chiefs for Den 6, Pack 41, of Stamford for several years and have organized dens in Rule, Rochester and Paint Creek.

Each boy has 25 merit badges. Both have served as patrol leaders of Troop 48 and Wallar was quartermaster and William was patrol leader of Troop 22 at the National Jamboree in California.

Allred Radiator Shop Damaged By Fire Friday

The Ark Allred radiator shop, located in the Roy Pitman Building, two blocks south of the courthouse square on Highway 277, was heavily damaged by fire early Friday.

The blaze was discovered about 3:30 a. m. by an attendant at a nearby service station. Ceiling and some of the roof joists of the large frame structure were burning when firemen arrived. Outside walls, front and roof were covered with sheet iron, making the blaze difficult to bring under control. Early morning traffic on the highway was re-routed for 45 minutes while firemen were extinguishing the blaze.

Allred lost a large part of his shop equipment, and a number of radiators were damaged. He estimated his loss at between \$1,200 and \$1,500. Loss on the building, owned by Roy Pitman, was estimated at \$1,000 or more.

Allred said he believed the fire started from defective wiring in the ceiling of the building.

Band Director Merlin Jenkins Resigns; Will Take Position in Abilene Schools

Merlin Jenkins director of the Haskell High School Band since early in 1953, tendered his resignation to the school board Wednesday. The resignation is effective immediately, it was understood.

Mr. Jenkins stated he had accepted a position as assistant band director of Abilene High School, and will be on the Hardin-Simmons University staff as instructor of bass instruments. Both positions will start Sept. 1.

During the summer Jenkins will be playing professionally in pit orchestras and dance bands in Detroit, Mich. He left this morning (Thursday) for Toledo, O., and Detroit to begin his band and orchestra work.

Jenkins came to Haskell in February 1953, as director of the HHS Band, succeeding former instructor Bill Dean.

The retiring director has been singularly successful in develop-

ing the Haskell High School Band into one of the highest rating school bands in this section, and the organization has won numerous awards in district and regional contests.

Under Jenkins, the HHS Band won first place in sight reading and second place in concert playing in Interscholastic League contests for Region 2.

In 1954 and again this year, the HHS Band swept to first place in all three events in Region 2 contests, winning first in concert playing both years.

This is the only time in the history of the band that the organization has won the sweepstakes award two years in succession. Only other time in which the Haskell school band won region sweepstakes was in 1948.

In addition to the regional awards, the HHS Band has won nine trophies since September, 1953, all under the tutelage of Director Jenkins.

Everything is in readiness for Haskell's second annual Palomino and Quarter Horse Show, to be held Friday and Saturday at Rice Spring Rodeo Arena, sponsors of the two-day event announced today.

A number of advance entries have been received, but the bulk of entries is expected to be listed today and Friday morning. Most owners and exhibitors prefer to make their entries when they arrive, show officials said. Many exhibitors will bring their animals from a considerable distance, it was pointed out.

All events will be held at Rice Spring Rodeo Arena, and admission will be free to the public, both afternoon and night.

Judging in the halter classes of the Quarter Horse division will get under way at 2 p. m. Friday. Performance classes in this division will start at 8 p. m.

Halter classes in the Quarter Horse division will include four classes each for mares and stallions; gelding, any age; a champion and reserve champion to be named in each classification.

Performance classes include junior and senior reining, and a championship reining class; senior and junior cutting horse classes.

Palomino Division

The Palomino division of the show will be held Saturday, and all classes will be judged under rules of the Texas Palomino Exhibitors Association.

Judging will start at 2 p. m. Saturday, and the performance classes at 8 p. m.

Halter classes will include two divisions, stock horse and pleasure horse, in addition to performance classes.

Four champions and reserve champions will be selected in halter classes, and champion and reserve champion in the reining and pleasure type performance classes.

Local business men have sponsored each class in both shows, and will give trophies to first place winners in each class.

Two trophies for the grand champions in the quarter horse show will be furnished by the American Quarter Horse Association.

Entry Fees

In the quarter horse division, the entry fee will be \$5.00 per horse in halter and reining classes. In the cutting horse contest the entry fee will be \$15, with \$2.00 deducted for office fees, and the balance will be jack-potted.

In the Palomino division, entrance fee will be \$5.00 per horse for all classes except cutting horse class. In this class an entry fee of \$15 will be charged, of which \$2.00 will be retained as office charge and the remainder will be jackpotted.

Dr. T. W. Williams is general chairman of the two-day show, and Jetty V. Clare is in charge of entries. Other members of the show committee are Gene Hunter, Myron Biard, Buster Shelton, Fred Gilliam.

Rousetts Slate Practice Session Monday, June 13

Rain and threatening weather Wednesday afternoon cancelled a scheduled practice session for the Rousetts, Haskell's girl softball team.

A game between the Rousetts and Childress Girl Softballers has been tentatively scheduled for Thursday or Friday to open the season, Anderson said. "That makes it important that we practice Monday and be ready for Childress," he added.

Plan Outlined for Aiding Low-Income Farm Families

Local initiative, interest and enterprise form the foundation for a proposed plan aimed at helping low-income farm families find ways to improve their level of living. The plan has been presented to Congress by President Eisenhower. The President's long-range plan is based upon the concept that a permanent solution must begin with the goals set by the people themselves, and be attained through cooperative efforts of all segments of the community and all levels of government concerned with the problem. Recommendations included in the plan call for an expansion of Federal and State services in technical assistance and extension work in areas of low development; additional credit and technical assistance from the Farmers Home Administration; a

Federal-State research aimed at solving problems common to the low-income group; improved credit from private and cooperative lending agencies for farm sources; more intermediate-term state employment services and encouragement of industrial expansion in regions of underemployed rural labor.

Also to begin pilot programs within the next school year to develop more educational and vocational training opportunities in rural areas; improve health service and medical facilities in areas of need and trade area and community development program to increase incomes and raise living standards.

A U.S. Department of Agriculture report, upon which the plan is based, shows that 1.5 million farm families have a total cash income of less than \$1,000 a year. Under Secretary of Agriculture True D. Morse has been named the major USDA official responsible for directing and coordinating the USDA's part in the program.

Don't argue with this baby!

All Chevrolet's competitors and most of the high-priced cars tried it recently in official NASCAR* trials—and took a licking!

Meet the champ! The new Chevrolet "Turbo-Fire V8"—the most modern V8 on the road today. Here's what happened—

Daytona Beach, NASCAR Acceleration Tests Over Measured Mile From Standing Start. Chevrolet captured the 4 top positions in its class! 8 of the first 11! And on a time basis Chevrolet beat every high-priced car, too—but one! But wait!—this is just the beginning!

Daytona Beach, NASCAR Straightaway Running. Open to cars delivered in Florida for \$2,500 or less. Chevrolet captured the first two places, 7 out of the first 11 places!

Daytona Beach, NASCAR 2-Way Straightaway Running Over Measured Mile. Open to cars from 250 to 299 cu. in. displacement. Chevrolet captured 3 of the first 5 places!

Columbia, S. C. NASCAR 100-Mile Race on half-mile track. Very tight turns. Chevrolet finished first!

Fayetteville, N. C. NASCAR Late Model Event. Chevrolet again finished first. Because of even tighter turns the driver chose to run the entire 150 laps in second gear! Yet no overheating or pit stops!

These facts you can't laugh off. Sales leader. Road leader. A crowning achievement of Chevrolet and General Motors. Try a Chevrolet... and live in a land of going-away where you win all the arguments! Soon, maybe?

It's wonderful what Variable Pitch Propellers do for getaway AND gas savings!

ANY airline pilot will tell you that one big reason for the modern plane's greatly increased cruising range aloft is the variable pitch propeller.

To get off the ground, of course, the pilot needs plenty of acceleration, for take-off and climb. So his propellers must "bite" into air at a certain angle for utmost performance.

But once the plane is at cruising altitude, great power acceleration is no longer needed — fuel efficiency is. So the pilot switches the pitch of his propeller blades to high-economy angle — and gets a lot more mileage from the fuel in his tanks.

That's why Buick's new Variable Pitch Dynaflo* is such a sensation everywhere. For the same aviation principle that brings

RETURN FROM VISIT IN FORT WORTH

Mrs. J. W. Medley and Mrs. Edd Hester spent the week end in Fort Worth visiting Mrs. Medley's sister Mrs. Frank Ford who is seriously ill at the home of her son Mr. and Mrs. Arthur Ford. Other visitors on Sunday were Mrs. Ford's daughter, Mr. and Mrs. Edwin Dale and daughters of Waco, another sister, Mr. and Mrs. Noah Bewley, Mr. and Mrs. Clifton Bewley and children of Forestburg and nephew Mr. and Mrs. Arnold Edwards and daughter of Dallas. Davis, pastor, reading the ceremony.

Musicians were Annelton Livingston, pianist, and Kenneth Lane, vocalist.

The bride, given in marriage by her father, was attired in a ballerina length dress of white eyelet nylon over white satin. Her jeweled fingertip veil was white nylon tulle. She carried a white Bible, a gift from the groom. The bridal flowers were white orchids.

Miss Mathilda Ejem of Weinert served as maid of honor. Best man was Tom Crane, and Art Rawn acted as usher.

Following the ceremony, a reception was held in the home of

the groom's parents. Music for the affair was played by Miss Livingston.

a leaf from Fashion's Note Book

\$159⁵⁰

Here is the newest furniture fashion idea for your home... the popular "leaf" dinette set... acclaimed and pictured in magazines almost everywhere.

For this beautiful creation combines lacy wrought iron with modern plastics to bring new color, new life, new interest, and new loveliness to your home.

And it's versatile, too! With its two center leaves in place, you have a full-sized 36" x 60" dinette table... with ample room for six, even eight. Remove one leaf and its 36" x 48" top is just right

for average families. And when both leaves are removed, you have decorative circular table, 36" in diameter, for bridge games... tea for two... or even four!

Sets like this usually cost far, far more than the modest price shown above, and our supply is very limited. That's why we urge you to see the "leaf" set now... see the lovely pastel colors... try the comfortable chairs... and, if you like it as well as we're sure you will, place your order at once before our supply is exhausted.

Haskell and Paint Creek Explorer Scouts Will Make Trip to North Woods of Canada

Two Explorer Scouts from Haskell and two from Paint Creek will be among 30 Explorers of the Chisholm Trail Council planning to leave on June 30 for the North Woods of Minnesota and Canada.

The group will leave from the Abilene office of the Council, and 25 young men have already made reservations for the trip. Ray Davis, district Scout executive, said Monday.

Five reservations are still available for the trip, and any explorer interested can contact his local leader or Ray Davis, Scout executive, at Stamford.

Explorers digging out their camp gear right now getting ready for the trip, in the northern district of the Chisholm Trail Council, are:

Dan Griffith and Eddie Earles of Paint Creek, Jerry Fancher and Rodney Brown of Haskell, Jerry Price and Don Szazama of Albany, Max Moudy and Wendell Russell of Stamford, Red Fowler, Joe Stephens, Don Adair and Dee Prewitt of Hamlin.

This highest of scouting adventures will take these young men into the Superior National Forest on the United States side and Quetico Provincial Park on the Canadian side. They will scuff the stones of the same portages and skim swiftly along the same chains of lakes that the early Indians proudly stalked. Use routes that the first pioneers used, and pitch their tents on campsites they used, and see rugged cliffs and virgin forests that still remain as always. Among aspens and pines that tower overhead they will sit at night before their campfire listening to the voices of the forest as the dancing flames point to the brilliant stars above. Hear the haunting cry of the loon. They will go by canoe and portage from lake to lake, carrying all food and gear they will need for eight days in the wilderness by their backs and canoes. Fish in a sportsman's paradise. The lakes teem with northern pike, walleyed pike, bass and lake trout. Most of the area is accessible only by canoe and relatively few fish these lakes. That's just a little picture of the Canadian Canoe Trip.

Seymour to Cover Parking Meters For Trial Period

Beginning June 15, parking meters in the business section of Seymour will be covered for an indefinite trial period to see if they could be the cause of a business slump in that city.

Action came about when three Seymour businessmen, Claud Harrison, W. B. Flewherty and D. M. Willett met with the city council of Seymour and presented a petition of business firms asking that the meters be covered for a trial period. The council set June 15 as the date for the meters to become inoperative. No date was established for using the meters again, pending a decision during the trial period.

MABLE OVERTON

Hail fell in the community Saturday afternoon. The heaviest hail was along the Farm to Market Road from the Haskell-Stamford highway east about two miles. Roy Overton had quite a bit of damage including broken shingles on the slate roof of his home, and several big dents on his car, his pickup and his son-in-law, James Raughton's new car. Wayne Perry, Durward Livengood, Mrs. M. L. Middlebrooks, Louie Kuenstler, Mr. Wood and Paul Fischer also had hail. Some of the stones were said to be as large as baseballs. Louie Kuenstler was hurrying to the cellar when a large hailstone hit him on the back and raised a huge knot. He says it was the size of a baseball, and we believe him. Of course there weren't too many stones that large or the damage would have been terrific to roofs as well as cars outside of garages. Most of the community had 1-4 to 1-2 inch of rain which was welcome.

NEW YORKER DELUXE NEWPORT
"Where are you going with my Chrysler?"
He's like any normal husband with a new Chrysler in the family. He's learning why more wives "borrow" it than any other car!
It seems that once a wife or husband gets to know the ease and control of Chrysler's Full-time Power steering, any semi-power steering feels clumsy and heavy-handed. They both prefer Chrysler's smoother-acting Power Brakes . . . and the alive feeling of unlimited power in Chrysler's great new V8 engine! They like the utter smoothness and silence of PowerFlite Automatic Drive . . . and most of all they enjoy being seen and admired in America's most smartly different car!
Now two Chryslers would really keep a family like this happy. Nevertheless, they'd be the first to tell you that one is a thousand times better than none at all. That's why we urge you to come in for a personal look-see, and a drive.
It's a truly wonderful experience. And . . . Sir or Madam . . . we suggest you bring your spouse!

County Agent Advises Poisoning 'Hoppers As Insects Show Up in Increasing Numbers

Grasshoppers have increased rapidly in the last ten days in some spots in the county. In these areas there are more grasshoppers than there were in 1948, the last peak year, according to F. W. Martin, county agent. He advises immediate control measures against the pests.

Martin states that there will be no government poison for use in poison baits as this program has been out of operation for the past three years. He recommends the control of grasshoppers with spray. Probably the best spraying material and the cheapest per acre is aldrin. Use one pint to 5 gallons of water and try to cover as much as an acre of ground.

Toxaphene can be used at the rate of one quart of toxaphene to 5 gallons of water. Chlordane is also a good grasshopper poison. Farmers are advised to check the label on this and use enough to make from 1-2 to one pound of pure chlordane with 5 gallons of water, Martin explained.

The grasshopper is much easier to control when small. If an effective job of spraying is done along the fencerows and creek banks it will help control grasshoppers. All of this material may be sprayed into the pastures where livestock are grazing without any harm to the livestock, Martin said.

Lease on Present P. O. Quarters Is Extended

Postmaster Harold Spain has been advised that a one year lease extension agreement has been executed by the Post Office Department on the present quarters of the post office, the Barnes Building on the northeast corner of the courthouse square.

The extension on the contract provides that the lease can be terminated without notice at the end of any calendar month during the one year period from Sept. 1, 1955.

A five year lease held by the Post Office Department on the Barnes Building expires Aug. 31, 1955.

Earlier this year, the department asked for bids on new quarters for the post office, and it was generally understood that larger quarters, preferably located off State or U. S. highway, was wanted.

The date of May 29 was set for receipt of offers of a post office site, and between 12 and 14 were submitted, including the present quarters, it was reliably reported.

Several offers were submitted. It was understood, on new build-

ings to be erected at various sites. Others were on existing buildings which would be remodeled.

Although the department gave no explanation for extending the lease on the present quarters, it was believed by some that possibly additional time would be required in evaluating the various offers submitted to the department, particularly on new or remodeled structures.

C-C Directors Discuss Dial Phone Project, Hear Report on Road to WTU Plant, Lake

Officers and directors of the chamber of commerce met at 7 a. m. Tuesday in the banquet room of the Texas Cafe with president, Wallace Cox, Jr., presiding for the business session of the civic organization.

Chief topic for discussion was the proposed dial telephone system for Haskell as proposed by the General Telephone Co. of the Southwest resulting from a recent grant of rate increases by the City Council. Director and Councilman Chas. E. Smith explained that the new project would possibly be the cause of loss of a payroll to Haskell unless the dial system was an attended one rather than unattended.

The directors of the chamber of commerce voted to go on record as favoring the rural project proposed by the company and also the dial system of telephones provided they were attended and resulted in no great loss of employment.

A committee composed of Myron Biard, chairman; Bill Holden, Charles E. Smith and Wallace Cox, Jr., was appointed to meet with Council members at the next regular meeting for a discussion

of the project. Myron Biard, chairman of the roads committee, reported that arrangements were nearing completion for the building of a one-half mile stretch of road which would shorten by 3 1-2 miles the distance which WTU power plant employees would have to drive commuting from Haskell to the power plant.
