Haskell County History

20 Years Ago—April 4, 1932
Rev. C. Jones and son Jesse, owners of Jones & Son sheet metal works, are in Dallas this week attending the annual meeting of the Texas Cotton Ginners Association. The local firm manufactures gin supplies and equipment.

Work will be started Friday morning on a seven mile stretch of Highway 120 east from Haskell, according to County Judge Charles M. Conner and T. L. Donohoo, local relief administrator. About 66 laborers will be furnished from the rolls in Donohoo's office. The project will be started at the W. V. railway tracks and extend east.

Up to April 1, licenses for 2109 passenger cars had been applied for at the assessor-collector's office, in comparison with 2819 in 1934 at the same time. There are 3235 cars in Haskell County, according to last year's registration figures.

A majority of Haskell's qualified voters stayed away from the polls Tuesday, and only 192 votes were cast in the annual city election compared with slightly more than 900 votes in the 1934 election. Roy A. Sanders, Ed F. Fouts and Anton Theis led the ticket for the three vacancies on the Council. Three other candidates, Hollis Atkinson, R. C. Lowe and Clyde Raley, finished in that order. Eugene Tonn and J. L. Tubbs are hold-over members of the Council.

The shortest cotton crop in 15

years was harvested last year, according to W. P. Trice, special agent for the bureau of census. Only 11,932 bales were ginned from last year's crop, compared with 55,367 bales ginned in 1933, he reported.

Dr. and Mrs. Paul Wood and family of Cisco, and the latter's mother, Mrs. Harlan of Bartlett spent Sunday in the home of Mr. and Mrs. N. I. McCollum in this city.

Mr. and Mrs. M. G. Jenkins and sons Marshall and Theron, and Miss Ima Groves of Tuscola spent the week end in the home of Mr. and Mrs. T. J. Arbuckle. Elbert Mapes and Ed Mapes of the Roberts community went to Caddo, Texas Wednesday for a load of cedar posts.

30 Years Ago—April 3, 1922
Spring showers were reported over most of the county Tuesday night, with precipitation ranging from light sprinkles to an estimated one-half inch in places. Some hail also was reported in the north part of the county, but no damage was caused.

Four ricks of feed belonging to W. L. Fraley in the Ballew

community were destroyed by fire Friday afternoon, March 29. A little boy playing with matches caused the fire. None of the feed was saved.

A \$50,000 Memorial Hospital was given to the City of Haskell by Mrs. Kate F. Morton, who died on March 10, according to her will filed for probate in County Court March 25. The hospital is to be erected in memory of her husband, F. M. Morton, who died about 18 months ago.

Wallace Cox and Reynolds Wilson visited friends in Abilene last week end.

Mayor Hardy Grissom and J. U. Fields, president of the Board of City Development, accompanied by Mrs. Grissom, attended a banquet in Abilene Monday night.

Mr. and Mrs. W. A. Duncan spent last week in Bellevue, visiting his mother, who has been ill.

A small four room house and small barn in the Howard community, belonging to Date Anderson, was destroyed by fire last week. A family by the name of Allied was living in the house, and all members of the family were away from home at the time. They lost all their household effects and clothing.

Mrs. C. V. Payne and Miss Mary Long have been chosen to represent Haskell as this city's sponsors at the West Texas Chamber of Commerce convention to be held in Mineral Wells May 4-6.

Mr. and Mrs. Roy Shook, Mr. and Mrs. R. E. Lee and Mrs. Bertha Mays left Friday for Dallas. Mr. and Mrs. Lee will stop in Arlington to visit her mother. The party made the trip in an automobile.

50 Years Ago—April 8, 1902
J. L. Jones returned Wednesday night from Corpus Christi, where he visited his parents. He was much pleased with the Coast country and says big cabbage and onion fields look like prosperity. At San Antonio he saw President Roosevelt, who was there for a big pow-wow. Ed B. Williams of Denton, who owns some valuable land in this country was here looking after his interests this week.

Mack Thomas, who has been living in the Indian Territory for several months, is here visiting his father and other relatives.

I. N. Furrh and Alex Jones were doing business in Haskell the first of the week.

C. D. Long has moved to the Ritter residence, which he re-

cently purchased from J. S. Menefee.

G. R. Couch, J. E. Hubbard, J. W. Collins, Porter Smith and Dick Williams returned Wednesday from Abilene, where they attended Federal district court.

Joe Irby is having a new residence erected in the northeast part of town.

A. F. Smith of the Sagerton neighborhood was here Monday. He says farm work is in good shape in that section, and says that farmers are planting more grain and feedstuffs than ever

before, and less corn. J. W. Cone of Corsicana Tuesday and says that the city is having good weather. One business house is under construction, and another is being hauled to other.

Complete and official figures show that again in 1954—for the 19th straight year—**MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR**

No other low-priced car even comes close to matching these important Chevrolet advantages . . .

If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet—for 19 straight years America's best-selling car. The Motorama Chevrolet offers you so much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet offers you.

The beauty's built in—not bolted on! And that makes a big difference—not only in how your car looks today, but in how it will look tomorrow, too. Chevrolet's good looks spring from fine, clean, uncluttered design. The beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.

The Body's by Fisher! No other low-priced car has a Body by Fisher—but many of the high-priced cars do. That fact alone tells you there must be something extra special about the style, quality and construction of Body by Fisher. And there is! You can see it, feel it and even hear it when you slam the door.

Today's most modern engines! That goes for Chevrolet's new V8 and two new sixes as well. For example, all Chevrolet engines bring you a modern 12-volt electrical system—double the voltage of other low-priced cars. This means quicker cold weather starting and a greater electrical reserve. Then Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry,

and develops the highest power per pound of any V8 in the low-price field. It takes valve-in-head leadership like Chevrolet's to bring you truly modern engines like these!

A drive to suit your driving! You can take your choice of three different drives—and every one's as modern as this minute. There's silky, peppery Powerglide, new Overdrive (both extra-cost options), and a new Synchro-Mesh transmission that's as smooth as they come.

All the power helpers you want! Windows, seat, steering, brakes—all are available with built-in "muscles" to make driving as effortless as you wish.

And you can even have air conditioning if you like. These things are options, of course, but they mean extra pleasure with extra pleasure.

Fun is "standard equipment"! You find that out the first time you take the wheel of a new Chevrolet. Here, you discover, is a car that takes the curves like it's on rails, that like it's reading your mind, simply ignores bumps—and doesn't stop suddenly, either. This is never been such a difference in priced cars as there is today. Many good reasons why you should drive a new Chevrolet. Come take the key.

Paint Creek . . . Community News

Members gathered in session sets Monday morning. One part of "Education Under the School" was the first, second and third grades which are for boys and girls. It was an interesting and made us realize that we should be proud of our school, and let the world know there is a Paint Creek.

Friday, April 1st was a dusty day, but Play Day was a huge success, and I'm sure there never was such a display of beautiful and delicious foods anywhere. Henry Smith, Bill Baker, Chas. Petrich, Roy Faulk, Alfred Roach and Thomas Byrd came with the Mattson pupils, and there may have been more adults. Paint Creek patrons attended in surprising numbers and everyone enjoyed the bounteous lunch.

Hoyt Perry has been in the Stamford Sanitarium several days with his back hurting him again. It's a shame he has to be sick now because his son Don is at home on two weeks pre-sailing leave. Don is going to Germany the middle of this month. The Perry's daughter and her husband, Mr. and Mrs. Wayne Blacklock and little daughter Pam were here from Lubbock last week end.

Mr. and Mrs. Allen Morris spent Sunday with her parents, Mr. and Mrs. Eric Bergstrom and Arvie and Joy.

J. M. Mickler, about 80 years old, had an accident last week. He fainted while driving home from Stamford. Mrs. Mickler was in the car with him, but the car was going slowly and it ran off the highway and into a sign post before it came to a stop. Mr. Mickler was taken to the hospital in an ambulance where he remained over night. He is getting along nicely now.

The school annuals came this past week. They have white leather covers and we think the Senior Class is to be complimented on the annual and its originality. It was dedicated to Miss Bess Smithy, and was presented to her in a surprise chapel program last week. Haskell merchants were very generous in giving the Seniors advertising for the annuals, and we could not have one if it were not for these merchants. Let's patronize the businesses that advertise in our annual.

Harold Warren of San Antonio spent the week end with the Gene Overton's. He is the owner of the Perfection Potato Chip factory there. He and his mother, Mrs. Ada Warren of Cleburne, own several farms in the community, and he was here to complete the sale of a farm to Allen Overton.

Mrs. H. E. McQuarie and children, and Mr. and Mrs. Edward Goss and children of Oklahoma visited Mrs. T. C. McLennan and Tom Paul several days last week. It took four hours for Mrs. McLennan to drive to O'Brien to take them to catch the train because of the mud between her house and the highway. (Mud is most newsworthy in Paint Creek.) Mrs. McLennan lives east of the lake and those red hills.

Coach Ray Overton, Jr., and his wife visited last week end with their parents Mr. and Mrs. Ray Overton and Mr. and Mrs. George Free.

Speaker Stresses Early Teaching of Citizenship

"The Golden Age of citizenship teaching is through the fourth, fifth and sixth grades in school," stated Miss Mary Swain, reading consultant of Scott Foresman Book Company, Dallas, to the Elementary Parent-Teacher meeting April 6 in the Elementary School auditorium in this city.

In a demonstration on fifth grade reading level she showed, whenever possible, the teacher should note leads for carrying the discussion of a story beyond mere accounts of activities. At opportune moments invite consideration of how such aspects of social behavior as cooperation, persistence, unselfishness, guide thinking and make the successful or enjoyable.

Concluding, she said, "Have confidence in the school and the teacher. They are here to help, not thwart your child's progress. If you feel too much uncertainty, make an appointment for talking to the teacher about it. Work together for the good of the most precious thing in the world—a child and his mind."

Mrs. Artie Mae Burkett, school supervisor, introduced Miss Swain, by saying she loved teaching and what could be done for children, and after seeing the demonstration everyone present believed it, too.

Acting as fifth grade pupils were Mrs. R. C. Couch, Jr., Mrs. Vivian Roberson, Mrs. Alice Johnson, Mrs. Mary Guinn, Mrs. Brucille Nellums, Mrs. Edna Branch, Mrs. Iva Palmer, Mrs. Edd Hester, Mrs. James Ferguson, and Mrs. O. J. Curry.

Mrs. Ina Dell Fitzgerald, vice president, acted as president in the absence of Mrs. Bill Flournoy.

The program was opened with the Parent-Teacher prayer given by Mrs. Anna Beth Perkins.

The Kindergarten boys and girls gave several musical numbers with the rhythm band and sang songs, under the direction of Mrs. Snow. Everyone enjoyed them so, that when the room count was taken it looked as if nearly everyone stood up for them. Of course they won, with 17 parents present.

"May Day Festival in Shades of Pink" was one of the round-the-calendar table settings presented for Homemaking Classes of Haskell County as a courtesy of Lyles Jewelry. The setting picture featured a mirrored May pole with ribbons and roses, turning on a table covered with fuschia lace and ribbon trimmed cloth over a pale pink. At left is Miss Virginia Frierson, State FHA sponsor, and at right, Miss Jane Cagle, State FHA president, both of Comanche. Miss Frierson, Homemaking teacher in Comanche High School, is the daughter of Mrs. E. M. Frierson of Haskell.

"Pink Fantasy in Table Setting" Theme of Program Presented By Lyles Jewelry Store as Courtesy to Future Homemakers

"Pink Fantasy in Table Setting" was presented to all Homemaking classes in Haskell County and from several neighboring towns, at the Magazine Club building March 28-31 by Lyles Jewelry Store of this city.

The four-day demonstration was attended by more than 500 guests.

Shades of pink were used in all table covers, centerpieces and accessories. A table arrangement for each month of the year carried out the pink color scheme. Featured were table settings adaptable to different modes of entertaining, from the formal wedding reception to backyard entertaining or TV viewing.

Arrangement for each month included the following:

January, "New Year's Resolution for a Rosy Future." The table was laid for a very festive affair with an arrangement featuring a clock with hands heralding the New Year, pink champagne and confetti.

February, "Pink Romance for Valentine," displayed an arrangement of roses in black wrought iron baskets with figurines.

March, "Even the Irish Go Pink for TV," featuring pink grape arrangement on scales, and pink shamrocks.

April, "It's a Pink Spring," was exemplified in a lovely Easter arrangement with Springtime featured in china on organdy cover.

May, "May Day Festival in Shades of Pink," showed a mirrored May pole with ribbons and roses, turning on fuschia lace and ribbon trimmed cloth over a pale pink.

June, "The Bride Chooses Pink," was a showing of bouffant organdy floor length table cover with net draped and caught with pink rosebuds. Table appointments were all in silver, from tea service to tiered centerpiece. A pink bridal veil and Bible and a string of pearls were used with pink and white flowings to form a centerpiece.

July, "Texas Hospitality and Independence Day," Centerpiece was a massive candle, with pink grapes and the six flags under which Texas has been governed. The table was laid complete to dessert course.

August, "Even in the Yard It's Pink," featured a table laid for barbecue, a coffee pot with warmer and lazy Susan, all in pink, along with an arrangement of pink berries and sailfish.

September, "Back to the Little Pink Schoolhouse." The table was laid with a rose and black diamond checked cloth with a glittering pink schoolhouse forming background for a centerpiece of pink slate, pink apples, school bell and text book.

October, "The Witching Hour in Pink" featured a breakfast table on pink striped denim with sugar-white china and a centerpiece of black witches riding pink broomsticks, jack o' lanterns and cats with pink bows.

November, "Let Us Give Thanks," was a formal setting of china on Oriental cloth, with pink cornucopia, pink grain and pink turkeys.

December, "Christmas Fantasy in Pink." The table featured a centerpiece of milk glass epergne, with an arrangement of balls, pine cones and metallic flowers in shades of pink, and twinkling lights. Santa and reindeer scenes were on the Christmas table, which was laid in authentic milk glass.

Homemaking classes visiting the displays Monday were greeted and invited to attend the State FHA meeting in Galveston by the State FHA president, Jane Cagle, and State sponsor Virginia Frierson, both of Comanche.

Monday evening, seniors of Haskell High School were entertained. Friday and Saturday, seniors from other high schools in the county were special guests.

TEL Class Meets For Business and Social Session

Members of the TEL Class of the First Baptist Church met in the church annex Tuesday afternoon for business and a social hour. The meeting was opened by singing The Wonderful Story of Love and When They Ring Those Golden Bells, the latter song being sung as we recalled a number of loved and faithful members who have gone before us to that better land.

Mrs. Akins presided for the business meeting and reports were heard from all officers and group captains present and the monthly report for March was given by the secretary, Mrs. Perrin. Forty-six 100 per cent records were made during the month and \$134.57 given in Sunday morning collections. The class made the highest attendance record each week day morning service, in the recent revival with twenty-seven members present on Sunday morning.

Mrs. D. B. Masey brought, for the devotional, the resurrection story from Luke's Gospel. Mrs. Rosa Glenn led in prayer. Mrs. J. W. Martin read a lovely poem, "You Must Meet God In The Morning If You Want Him Through The Day." Mrs. Masey read Hope and Mrs. Whiteker gave Weaving, the two being taken from Mrs. Whiteker's book of poems, We Sing in Texas.

Mrs. S. A. Roberts group served delicious spice cake, a mound of party-mix centered with colorful Easter eggs and punch to the following members: Messrs D. B. Masey, O. O. Akins, J. W. Martin, Annie Lane, Rosa Glenn, J. M. Littlefield, C. A. Merchant, Joe Maples, B. M. Whiteker, Julia Perrin, S. A. Roberts and K. D. Simmons.

Local Camp Fire Council Praises Public Support

The local Camp Fire Council, which sponsors activities of Camp Fire groups, expressed appreciation this week for the splendid cooperation being given the program by Haskell people.

Approximately 90 girls are enrolled in Blue Bird and Camp Fire groups under the program sponsored by the Council. Clay Hattox is president and Mrs. Bob Graham secretary and treasurer of the Council.

In a special activity recently, Camp Fire girls and Blue Birds sold 1,000 boxes of candy. This netted a profit of \$400 which will help defray expenses of their summer camp.

Other activities included the Father-Daughter banquet held March 30, which was an outstanding success. Also recently, Camp Fire girls wore their uniforms and attended Sunday services in a body at the First Methodist Church.

Representatives of the local Council met recently with the Commissioners Court, and were granted the use of a room on the second floor of the remodeled jail building to be used as a club room. Camp Fire girls and their sponsors plan to do considerable work in converting the room into an attractive meeting place.

RURAL TELEPHONE EXPANSION—The map above shows the area in which Haskell rural citizens may get telephone service as a result of a proposed \$69,000 General Telephone Company of the Southwest rural expansion project. Approximately 150 to 200 prospective subscribers to whom telephone service is not now available live within this area. If the Haskell City

Council approves a new set of local rates to be presented them by the Company, a house-to-house canvass of prospective rural telephone subscribers within the above boundary will begin as the first step toward making telephone service become a reality to the entire area.

White Auto Store In New Location On East Side

White Auto Store opened Tuesday morning in their new location on the east side of the square, in the Cahill Building formerly occupied by the Texas Cafe.

Jay Weaver, owner and operator of the establishment, said the new location would provide additional room needed for enlarging merchandise stocks carried by the store.

Interior of the building has been attractively refinished in keeping with store fixtures. Arrangement of merchandise has been planned for convenience in selection of items in all departments.

Mr. Weaver opened his store last fall, in the Cahill Building on North First, across from the Post Office Building.

He says the establishment has enjoyed a steadily increasing patronage which has necessitated larger quarters for the store.

Windstorm —

(Continued from Page 1) north. The Bunkley Ranch in south Haskell County lost barns and sheds in the storm, and the high winds unroofed part of a tenant house and another barn on the ranch.

Barns, a granary and a garage at the Bill Patterson farm in that area were unroofed and partly demolished.

In the Cobb community, winds demolished a granary at the Sam Cobb place, and further north unroofed a garage and poultry houses on the Lewis Cox farm.

The incipient tornado next struck in the Irby community east of Haskell, where part of the roof of the Dick Tracy service station was blown off and a small shed demolished.

Sheds, barns and outbuildings on a number of farms in the Irby community suffered extensive damage from the twisting winds.

In the Paint Creek community, some property damage from the storm was reported. Electric power, furnished by REA, was disrupted in that area. As a result, many farm families were compelled to transfer contents of their deep freeze units to locker plants in Haskell and Stamford.

A 27-year-old Dodge sedan, still in perfect operating condition, attracted considerable attention and comment Saturday when the vehicle was on display at Pitman Motor Co., local Dodge dealers. The 1928 model was being shown beside a new 1955 Royal Lancer which was presented to Dewayne Lancaster, 14-year-old Junior High School student who won the automobile in a jingle contest. The 1928 Dodge is owned by its original purchaser, Adolph Johnson, retired Stamford miller. Johnson has driven the car more than 100,000 miles and the motor has had only one overhaul job, he said. In a brief letter received by The Free Press of Japan from Chaplain James R. Barnett, he relates that in the mining area where he is stationed, many are unemployed and families so hungry. During Christmas a program was set up whereby aid was given to these families. The American Consulate, through the welfare agencies, secured the names of the most needy families. Money for food, and used clothing came from dozens of churches in the States. Since Christmas the program continues. Hundreds of people have been fed, and with each food basket goes a portion of the Word of God, and a Gospel tract. Chaplain Barnett is a former pastor of the Pinkerton Baptist Church, midway between Haskell and Rule and has served overseas in Europe, Korea, and Japan. He is the son of Mrs. J. R. Barnett of this city, and his younger brother Tom P. Barnett, is Night Police Officer here.

Got Those '55 Tags? Now You Need That Safety Sticker!

"Motor Vehicle Inspection deadline is drawing near," said Captain G. L. Morahan of the Abilene, Texas Highway Patrol district office today.

The last day that a motor vehicle can be operated on the gold safety inspection sticker is April 15, 1955. The new safety inspection stickers are green and must be displayed on all vehicles by April 16, 1955.

Captain Morahan stated that enforcement by Highway Patrolmen will start on April 16, 1955. Anyone operating a vehicle without the new Safety Inspection Sticker displayed will be subject to a fine of \$1.00 to \$200 plus court costs.

Inspection of vehicles has been moving at a rapid pace the last few weeks, but there are still a number to be inspected stated Captain Morahan. He urged the owners of these vehicles that have not been inspected to secure their safety inspection stickers before the deadline to avoid the possibility of having to pay a fine.

Inspection stickers may be obtained at any authorized inspection station.

Couples securing license during March were:
Clinton Kimbrough and Anna Faye Threlkeld.
Kenneth Baker Williams and Lillie Delores Roberts.

Cattle Trade Easy On Most Kinds At Ft. Worth

By TED GOULDY
Fort Worth—Cattle and calf prices were inclined to be on the low side of steady in most cases Monday at Fort Worth. Buyers point to a number of factors as influencing the trend, despite the fact that runs reported around the nation were somewhat below a week earlier.

Most important factor in the weakness of fat cattle and fat calves is the expected domination of the Easter dinner tables by ham and turkey. Nationwide promotion of Easter hams as handled by the National Livestock and Meat Board has all the purveyors of red meat certain that ham will dominate the holiday meal.

The Texas Turkey Federation and the National Turkey Federation are also pushing turkey as an Easter dinner specialty and between this drive and the ham promotion the Easter lamb trade took a bad tumble last week. Eastern seaboard wholesale meat dealers, the No. 1 handlers of lamb, openly expressed fears for the lamb market last week in the face of the all-out ham drive.

Another factor that weakens the immediate cattle trade is the continuation of sub-normal moisture in much of the Southwest and the accompanying blowing of the soil. Even the most optimistic cattle buyers are wary of going into Summer without a season in the ground, and much of the Southwest needs rain right now.

Fed steers and yearlings and cows opened steady to 50 cents lower. Stockers and feeders were mostly 50 cents lower. Fat calves and bulls sold steady at Ft. Worth Monday. Top fat cattle were club steers sold at \$26.50, and some commercially fed cattle sold at \$23 and \$24. Fat cows drew \$12 to \$14.50, and canners and cutters sold from \$8 to \$12. Bulls \$10 to \$15. Fat calves \$21.50 down. Stocker calves and yearlings \$16 to \$22.

Fly-Borne Diseases Cause Many Deaths

AUSTIN—Many Texas children and adults die each year from fly-borne diseases. Typhoid fever, tuberculosis, summer complaint, cholera, and intestinal diseases frequently resulting in death follow closely in the trail of the common house fly.

"The control of the fly menace comes at the top of the list of necessary public health measures which should be applied by every city and community in the State," said Dr. Harry A. Holle, State Health Officer. "The most effective measure for control is to prevent breeding, and about eight days are required to complete a life cycle. During her lifetime of several months, one housefly lays from 600 to 1,000 eggs. Thus, it can easily be seen that in a season which usually begins in the spring of the year, the descendants from one fly number countless of thousands."

To eliminate flies, Dr. Holle said the breeding places must be destroyed. As flies breed in filth, manure piles, garbage, and other organic filth furnish the requirements of warmth, moisture and food necessary for the propagation of the fly. Flies should be kept from contact with food or drink or utensils in which such food and drink are prepared and served. Likewise they should be kept from access to privy vaults where they pick up the infections, which they later spread to humans by contact with the food and drink, and by unwashed hands and utensils.

Taxpayers Waiting For Deadline in Filing Returns

Marvin Rudd, Administrative Officer in charge of the Wichita Falls office released the following figures comparing income tax filing for 1955 with 1954. In 1955 Internal Revenue has received 1,192,905 pieces of mail during the first 45 working days. During 1954 Internal Revenue received during the same period 1,324,574 pieces of mail. A very large part of the mail received is income tax returns. During January of 1955 more taxpayers filed than during January of 1954. The number of taxpayers filing dropped slightly during February but is dropping rapidly at the present time because of the change in the filing deadline. Last year March 15 was the deadline, whereas April 15 is the deadline for this year. Based on last year's mail receipts, more than million pieces are yet to be received in a little over the month remaining. Rudd felt that those taxpayers who have not filed had better sharpen their pencils and start figuring because there is not much time left.

The Dallas Internal Revenue District deposited \$236,596,966.75 during January and February of 1955. Even though this is a respectable amount, it was \$3,338,194.32 less than the \$239,935,181.07 deposited during January and February of 1954. Internal Revenue expects the March 1955 deposits to drop below those of last year since many taxpayers will wait until April 15 to pay their tax.

North Texans to the number of 129,962 have been refunded \$10,094,311.45, or an average of \$77.67 per refund check. Internal Revenue is mailing out refunds at the rate of 10,000 per day. They will be required to maintain the 10,000 per day rate to get out the more than 700,000 refund checks by the May 31 deadline. Internal Revenue has 30,000 refunds being processed at the present time. It requires six weeks to two months to process a refund. They have six weeks' work on hand at the present time. In spite of the 430,000 tax returns due a refund that have been filed to date more than 300,000 Texans that the government owes money have not filed their tax return.

Rudd urged taxpayers who have a tax refund due to file immediately so that Internal Revenue can begin the necessary processing work. He stated that tax refunds amounted to over \$72,000,000 in 1954. Internal Revenue would expect \$72,000,000 or more to be paid out in refunds during 1955. Rudd requested that taxpayers do not write Internal Revenue concerning their refund. Internal Revenue can send them answer one letter. The large volume of refunds to be processed prevents the Internal Revenue Service from giving a taxpayer individual attention concerning his refund regardless of circumstances. Many things can prevent the Internal Revenue Service from getting the taxpayer his refund check within six weeks after he files his return. It is obvious that a very large majority of North Texans will receive their refunds within two months after filing. Taxpayers who make errors in their tax returns will not receive their refund checks until after correct refund returns have been processed.

Rudd concluded by urging that every taxpayer that has not yet filed, no matter whether he is due a refund or owes tax, sit down immediately, prepare his return and mail the return with a check for any tax owed today.

New Spring Fabrics Inspire Hobbyists To Start Sewing

Home sewing is more popular today than ever. It heads the list of women's "do it yourself" endeavors.

For centuries women have fashioned articles of wearing apparel for themselves and families from the first primitive garments right up to the present day hand-made couture fashions. Home sewing now stands at its peak in this country with 96 per cent of the U. S. female population over 12 years old engaged in some type of sewing. In a survey made recently by a leading thread company, sewing was listed by 88 per cent of the women as their number one hobby. The average age at which girls learn to sew today is 12 years, while their mothers on the average learned at 14.

Other forms of do-it-yourself project may come and go, but the age-old craft and hobby of sewing continues to flourish among all age and income groups. With the approach of spring, every woman who sews will be busy getting her wardrobe in order for the change of seasons. The fashion picture for spring looks particularly exciting for those who are planning to stitch up some cotton originals this year, the National Cotton Council reports.

There are many flattering pattern styles for all types of clothes and an array of exquisite, colorful fabrics to tempt the woman who sews. Cotton will be a favorite sewing material—this year women browsing through piece goods departments will see cottons that look like silks and linens. Stripes in varying widths combined with solid color cottons will be especially effective for spring and summer ensembles. Other favorites will include printed and plain versions of pima cottons. Sheers will be much in evidence for late spring and summer, and cotton novelties in twills, tweeds, and patterned chambrays are appealing in both color and design.

The woman who is sewing for her vacation wardrobe will be particularly interested in the wrinkle-resistant tweeds, suitings and other cottons that are ideal for spring and summer travel. Pattern styles for spring are many and varied. The National Needlecraft Bureau reports that there will be many slim sheath-type lines; however, the fuller

look, as evidenced by the wide skirt, will be especially good for after-dark wear. Characteristic of spring, 1955, is the long look. This silhouette is achieved in narrow sheaths with dropped waistlines, in longer jacket suits and overblouses.

The slim silhouettes do not look plastered, especially around the waist and midriff. "Ease" seems to be the by-word for spring fashions. Pleats are prominent in both dresses and suits. They follow the slim silhouette but provide plenty of ease.

HIGHLIGHTS AND SIDELIGHTS From Your State Capitol

By VERN SANFORD
Texas Press Association

AUSTIN, Texas—Two big proposals for the state's water conservation program won in the Senate.

One is Sen. Dorsey Hardeman's \$100 million state bond issue for aid to local projects. It calls for a constitutional amendment vote in September. The other is an enabling bill to start operations if and when the amendment is passed.

House sponsors on this, and on the Parish \$200 million bond bill to aid local projects have delayed calling for final action. They don't think they have enough votes.

Tax Blank

An openly hostile revenue taxation committee, headed by Rep. Jerry Sadler's \$160 billion a year gas processing tax bill to subcommittee.

It would levy a 1-cent tax on all Texas gasoline and repeal the 4-cent gas sales tax. Opponents and it would bring a 19-cent cut in crude oil prices, costing Texas \$190 million a year.

The committee left buried the two bills embodying Gov. Shivers' original tax program. It included a 2-cent hike in the 4-cent gas tax and a 1-cent boost in the 4-cent cigarette tax.

This confirmed last week's report that administration forces had abandoned the two single-shot revenue bills and pinned new hopes on Revenue Chairman Stone's omnibus bill. It would permit increases in any of the 100-odd present taxes.

The billion and a half dollar House general appropriation bill (for two years) was passed by the Senate which substituted its own version.

When the House refused to concur in Senate changes, the way was opened for a joint conference committee to resolve the differences. Lt. Governor Ramsey has named five Senators to the committee and House Speaker Jim Lindsey five.

Delayed Action

Special session speculation again comes up.

Sen. Jimmy Phillips saw his filibuster record fall this week to Sen. Wayne Wagonseller.

Like Phillips, however, Wagonseller lost his battle. As soon as he stopped talking, the Senate approved the bus registration fee measure he was fighting.

When it was all over, weary Senators suddenly discovered the marathon talks had killed two full "House bill" periods in the Senate, with only one House bill passed in two weeks.

Observers saw that, with Shivers' entire program still hanging fire, and four more Wednesday filibusters in the Senate capable of killing all of it, a new switch in administration strategy might be possible.

Thought was that Governor Shivers might ask the Legislature to lay aside the tax bill and the appropriation whopper, and pass other legislation before theoretical adjournment May 11.

That would mean his calling a special session on taxes and the appropriation bill. Appropriations must be in effect Sept. 1 to keep the wheels of the government turning. He would have control in a special session, lacking now.

Point Won

At any rate, the Governor won his point on the bill regulating securities.

As the legislature headed for what looked like its worst jam in the final month of session, he made a firm request that the House adopt a Senate bill regulating securities, particularly bringing certain trust company stocks under state supervision.

"I hope the House will disregard frantic efforts of certain

speculators, promoters and others . . . and vote final passage . . . he said.

Land Case

Bascom Giles' legal troubles mounted when a group of San Antonio GIs filed a civil recovery suit in 53rd District Court.

Asking \$33,000 judgment against Giles, the veterans charged that he made that much in "personal profit" out of a veterans land deal.

At the last count, Giles faced two criminal indictments, charging conspiracy to commit theft of state funds and accepting a bribe; four felony theft charges, and four civil recovery suits.

Twice Giles has refused to testify in court about the veterans land scandals and charges against him.

"Open Door" Bills

Attorney General Shepperd has expressed "deep hope that action will be taken on the Open Door to Good Government bills during this session of the Legislature."

Most of the bills have been reported favorably by House committees, he pointed out, but some still are being held for further study.

"They are sound, logical proposals to aid better government in Texas, to give the people a bigger voice and to more quickly reveal official wrong-doing," he said.

Shepperd referred to 13 bills dealing with full public disclosure of public records and funds. All are pending in the House of representatives.

Most of the 13 bills have been introduced and are backed by the Texas Press Association and other groups interested in good government.

Cross Filing

Cross filing in political races is out as the result of a bill passed by both houses and signed by the governor.

This bill by Representative Maury Maverick of San Antonio, removes from the law a sentence allowing candidates to run "as the nominee of two political parties for the same office."

Controversy arose over cross filing when Gov. Shivers and other state candidates were listed in 1952 as the nominees of both Democratic and Republican parties.

Proper Treatment Insures Purity of Water Supply

AUSTIN—Meet the Man of the Hour.

He's the man who runs the water treatment plant in your home town. Does the task sound prosaic? Well, listen . . .

Without the commodity he handles men and cities would slowly die.

You use his handiwork with confidence, yet without thought, each time you turn the faucet and drink the cool, clean water.

Each time you fill the basin to wash your face, or brush your teeth or shave. Or water the garden. Or fill the bird bath. Or on any one of a hundred other occasions during the course of a single feeting day.

Boiled down to its simplest terms his job is one of collecting water at a central point for processing, making it safe for human consumption and transporting it to our homes and places of business. It goes on 24 hours a day, 7 days a week, 365 days a year.

Today—April 7—is really his day. It's World Health Day, the theme of which is "clean water means better health."

The Man of the Hour retails clean water. Is that important? So important that no tyrant

has ever dared deny it to his people. Wars have been fought over water. Once mighty nations have collapsed because their supplies had been cut off.

The wandering children of Israel faltered in the desert and threatened rebellion until Moses smote a rock and brought forth a spring.

How does he do it? By knowing how to operate and maintain the equipment of his trade. By knowing the proper use of chemicals of purification. Therefore he is part engineer, part chemist, prosaic? Hardly.

His badge of merit is his cherished operator's license, bestowed only on those who have demonstrated ability to handle vital assignments in the treatment plant.

The use of water so pervades human life that it sometimes loses its significance. Thus does the Man of the Hour get slighted when the public hands out its accolades for vital service.

Big news about Buick's 4-Door Riviera

THIS brand-new kind of automobile—the sensation of all the Auto Shows this year—is now rolling off the Buick assembly lines in volume numbers. That's the first news.

And the second is just as wonderful—this dramatic new model is very definitely everything that eager buyers hoped it would be.

For the 4-Door Riviera is the first "hardtop" ever available with separate doors for rear-seat passengers—plus rear-compartment room big as a Buick-size family sedan.

It comes breezing in with all the low-lined sweep and wide open visibility of Buick's original 2-Door Riviera—and with luxurious new spaciousness in its sizeable and full-length 4-door body.

With windows down, no posts appear for the rear doors, and you get a completely unobstructed view at both sides.

You find rear doors are hinged at their front edges to swing wide and free, and assure easy entrance and exit.

And you'll find legroom, headroom and hiproom extra-generous both front and rear—with interiors tailored in fabrics and patterns specially reserved for the 4-Door Riviera.

Best of all, this new Buick beauty comes off the line in both the low-price SPECIAL Series and the high-powered CENTURY Series.

So you can pick your 4-Door Riviera with the potent performance of a 188-hp or 236-hp Buick V8 engine—the swift get-away and gas saving of Variable Pitch Dynaflo®—the velvet stride of the Million Dollar Ride—the long list of Buick bonus features at no extra cost—and all at "great buy" prices that have helped move Buick into America's "Big Three" of best sellers.

But—better come see us about the 4-Door Riviera now.

With all-out production—and a prompt order—this newest excitement in cars will be yours that much sooner.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Weinert News

The Weinert Bulldogs warmed up for the district track meet by winning the Brazos River Relays at Lueders this past week end. The Bulldogs were not expected to give the Baird Bears much competition, but with Freddy Wiggins picking up a 1st in the 440 yard dash, C. W. Drinnon winning the discus, and Jimmy Reeves running off from the field in the mile run, the Bulldogs were not to be denied. Scoring the other points for Weinert were as follows: Freddy Wiggins won third in the broad jump and Harley Reeves won fourth in the same event. C. W. Drinnon won third in the shot put, Eddie Swanner won fourth in the 100 yard dash, and the sprint relay foursome, composed of Harley Reeves, Freddy Wiggins, Jimmy Reeves and Eddie Swanner won third to round out the scoring and give the Bulldogs a total of 25 points compared to runner-up Hobbs with 17 1-2 points.

Two of the three first picked up by Weinert were records. C. W. Drinnon's throw of 132 feet in the discus broke the record of 125 feet, 6 inches set last year by Glenn Cavitt of Hobbs. Jimmy Reeves broke his own record in the mile run by coming in with the good time of 4:40.9 compared with last year's time of 4:42.2.

Freddy Wiggins didn't set a record in his favorite event, the 440 yard dash but he provided the meet with one of its greatest thrills by coming from 20 yards behind with a great finish to win by a stride over favored Bobby Drivers of Knox City.

Following Weinert and Hobbs in the point column were third place Hawley with 15 points, fourth Clyde, 13 points, Baird 11, Rochester and Roby 10 each, Aspermont 9 1-2, Rule 9, Monday 8 1-2, Hermleigh 7 1-2, Albany 7, O'Brien 5, Knox City 3, Lueders and Wylie 2 each and Avoca 1. Roscoe failed to score.

We realize the laudable part our churches play in community life — their contribution in both a spiritual and material sense toward community welfare and common good. These churches, their teachings and their membership exert a tremendous influence that touches every home and every business. This function they have in common with our schools, civic bodies and other organizations, all of whom through various methods perform services for the good and benefit of all. In recognition of the splendid ideals and achievements of the Haskell churches, we urge everyone to attend an Easter church service.

Cotton Suit Due For Male Acclaim In Summer Styles

The cool "cotton look" will be a major style note in summer suits for men, according to fashion experts.

The cotton suit is headed for a strong revival because of the advent of wrinkle-resistant finishes and new type of fabric.

A worsted-type cotton suiting and chino striped twill are new entries in the men's summer suit field. Cotton poplin suits and cotton gabardines, introduced within the past year or so, already are popular in some areas.

Treated for crease-resistance, the seersuckers also are expected to receive a welcome from men who are seeking clothing comfort for hot summer days.

The trend to cotton in summer suits is an outgrowth of the longer menswear trend toward greater comfort, lighter weight, more color and simpler styling.

The emphasis on casual comfort already has brought a strong upsurge of cotton in men's sportswear. Cotton is a favorite this year in sport shirts, odd jackets, and beachwear. Vivid colors, influenced by Continental styling, will be a fashion trend in cotton sportswear this year.
