Haskell County History

20 Years Ago—April 23, 1917
John D. McCall, Dallas attorney, has been employed by the Commissioners Court to prepare the necessary petitions and other legal documents for a county-wide hospital bond election. Opening of Haskell's new municipal park and swimming pool has been set for April 30. Mayor F. G. Alexander has announced. An appropriate program is being planned for the opening, sponsored by the chamber of commerce. Mr. and Mrs. C. V. Payne spent Sunday in Abilene, guests in the home of Mr. and Mrs. Ernest Grissom. An automatic traffic control signal, ordered by the city several weeks ago, was installed Tuesday at the intersection of the two highways on the northwest corner of the square. It is believed the new signal light will put an end to the numerous traffic mishaps which have occurred at that point. Jack and Wallace Kimbrough, students in Texas A&M College, spent the weekend at the home of their parents, Dr. and Mrs. W. A. Kimbrough.

Miss Frances Walling has been selected as Haskell's sponsor at the annual West Texas Chamber of Commerce convention in Brownwood May 10-12. Miss Walling, daughter of Mr. and Mrs. J. E. Walling, Sr., was Haskell's sponsor at the WTCC convention in Plainview two years ago. Fire of undetermined origin destroyed the four-room teaching at Center Point school about 1:30 a. m. Sunday. Also destroyed were the household goods and clothing of Mr. and Mrs. Lester Edwards. Miss Lou-nelle Denson and James McCain, teachers who occupied the building. J. D. Montgomery and Shady Lane visited relatives in Rotan Sunday. Mrs. Thomas Bird and children left today for California to join Mr. Bird, who has been there several weeks. Miss Odell Williamson spent the weekend in Wichita Falls, guest in the home of Mr. and Mrs. L. O. Gentry and family.

30 Years Ago—April 28, 1907
J. A. Bell has just completed a new business building in Sagerton which will house his meat market and cafe. It replaces one of the buildings destroyed in the disastrous fire last December. The men and boys of the Howard community have completed a new storm cellar for the school. It measures 10x30 feet and will accommodate all of the school children when necessary. Mrs. E. M. Whiteaker is in Gainesville this week where she is a delegate from the North Ward

R. G. Landess, whose farm is on Paint Creek southeast of town, was in Tuesday and told the reporter that the frost Monday night on his farm killed Irish potatoes. He had no cotton up and didn't know whether cotton in that section was killed or not.

G. L. Atchison was in town Tuesday from his farm in the northeast part of the county. He told us that the frost that morning bit down the young corn and Irish potatoes pretty severely.

R. C. Montgomery of the Farmers National Bank has purchased the Arthur Sisson Survey in northwest part of the county. We understand the consideration was \$21,000 cash. The land, which is now in pasture, will be cut into

B&PW Club's "Woman of the Year" Award Presented to Mrs. Artie Mae Burkett

First "Woman of the Year" award to be given by Haskell Business and Professional Women's Club was presented to Mrs. Artie Mae Burkett at the club's regular dinner meeting April 16.

The award, a silver cup bearing the B&PW club emblem and engraved with the recipient's name and year awarded, was presented to Mrs. Burkett by Miss Madalin Hunt. Miss Hunt briefly reviewed the work and accomplishments of Mrs. Burkett toward making her home town community a better place in which to live. Mrs. Burkett, reading consultant in Haskell schools, is a charter member of the B&PW club and was its first president. Her selection for the award was made by a vote of members. A similar award will be made annually.

Special guest and speaker at the meeting was Mrs. James Frank Cadenhead Jr. She told of her recent experience as a contestant for the "Mrs. America" title. The Haskell woman won first place in the regional contest held recently in Abilene and went on to Dallas where she was in the finals for the "Mrs. Texas" title.

Haskell Churches Program Topic at Study Club Meet

The history of the churches of Haskell was given by the director, Mrs. Jack Pippin, to the Progressive Study Club Thursday night, April 18 in the Homemaking Cottage after she opened the meeting with prayer.

"It is very appropriate as we approach this Easter season to study 'I Serve: In the Church,'" stated Mrs. Pippin as she continued to give several detailed accounts of the churches in Haskell.

It was very interesting to learn which church was established first and how each began to grow, along with how money was raised by the various churches. One unusual thing noted was that one church was completed debt free and another was built by the members only without hiring anyone.

"Family worship must be sincere. It must come from an environment of happy faith and love. It should be the whole family planning together to put worship at the very heart of home life," stated Mrs. Ed Hester as she read a brief statement on Family Worship and conducted a church goer's quiz which indicated that regular church-goers succeed better in eliminating worry and in building happier families.

The non-regular church-goer is still groping for a greater faith around which to build a richer life. The regular church-goer has experienced the power of prayer and is hungry for more in a way that the non-regular does not yet know. These are "dividend values" that church-going offers, Mrs. Hester pointed out. To develop any skill, one must work regularly, and religion is no exception, she declared. Group worship can develop spiritual values not found in private worship no matter how sincere, she added.

In conclusion, Mrs. Pippin summed up the facts that had been given and answered the question, "What we as individuals can do about the church, the home and family worship," with this statement: "That, my friend, depends on each individual, how you guide the youth of today."

Mrs. W. E. Lawson read the Easter Story from the Bible.

The Federation report from The Clubwoman, "The Magic Carpet of the World," was read by Mrs. Clarence Davis.

Soil Conservation Speaker's Topic At Lions Meeting

O. F. Armstrong of Abilene, State planning engineer for soil conservation practices, was guest speaker, and three soil district supervisors were special guests, at the meeting of the Haskell Lions Club Tuesday in the dining room of the Texas Cafe.

Guests were Henry Smith, supervisor of the Wichita-Brazos Soil Conservation District, Brooks Early of Paint Creek and B. Kupatt of Sagerton, supervisors in the California Creek Soil Conservation District; and Bill Holter, new manager of Perkins-Timberlake store.

Armstrong, in his talk, pointed out the enormous loss caused by soil erosion and lack of proper soil practices. Large areas of the state and nation's most productive land are being eroded and destroyed annually, he declared. Some progress is being made toward correcting improper land use, he said, but this progress is almost negligible when compared to the tremendous damage which has been done to the nation's soil. The speaker showed a map of five major soil districts in Texas, illustrating how the conservation program is set up.

Abe Turner of Canyon, Texas, spent the weekend here in the home of his father, A. M. Turner and Mary and Jimmy Turner. He was accompanied by Miss Ruby Mann, also of Canyon, who was a weekend guest in the home of Miss Frankie Kelly.

Water Safety Aims Stressed For Sportsmen

AUSTIN, Texas—Recent fatalities among fishermen and other water sports followers prompted the executive secretary of the Game and Fish Commission to remind Texans of the dangers associated with aquatic activities.

He said fishing has been "altogether too good to have our people's fun blighted by unnecessary tragedies."

The executive secretary said, of the first dozen water fatalities reported this spring, most were attributed to carelessness of one sort or another.

One trotline fisherman fell out of his boat while alone and drowned.

One young man drowned when a boat containing four fishermen upset. The other three swam to safety. The victim couldn't make it because he had broken an arm and had his limb in a cast.

One fisherman drowned when a sudden storm upset his boat.

One fisherman drowned because he tried to use a motor too heavy for his small boat.

One man died when he fell off his water skis and was struck on the head by a propeller of a following boat.

One man drowned when he stood up and fell out of a boat which lurched when a companion tried to start their outboard motor.

The executive secretary pointed out that fishing from a boat "is a very safe sport when ordinary safety rules are observed."

He suggested that boat occupants always wear life jackets.

Early Residents To Meet Here for Reunion May 4

The calendar will be turned back two score years and more when early-day residents of the Pinkerton and Whitman communities gather here for their annual reunion Saturday, May 4.

The two communities were thriving farm settlements in the period from 1906 to 1920, located in the area between Haskell and Rule, one of the first agricultural sections developed in the county.

The reunion was inaugurated several years ago as a homecoming for earlyday settlers and former residents in the two communities and the event has attracted hundreds each year.

The affair will be held in the American Legion Building south of the square, with meeting time set at 5 p. m. No definite program has been planned except for a brief business session to elect officers and set date for next year's meeting.

"The entire time will be devoted to an old-fashioned get-together of friends and neighbors, and recalling earlyday incidents in this section," reunion sponsors said.

Everyone attending is asked to bring a basket lunch which will be spread as a highlight of the affair.

O. N. Harcrow is president of the reunion association and Mrs. Angie Mullino is secretary.

Paint Creek . . . Community News

MRS. GENE OVERTON

Scary weather we've had lately, don't you think? I think if we weren't warned by TV and radio we wouldn't be so afraid of these clouds. But when one hears of tornadoes having been sighted, and that we are in a storm center, the cellar seems most inviting. People in town say they don't know just whom they will see when they go to their cellars. Neighbors and perfect strangers may be there before the storm. Mrs. Sam Herren said Mrs. Herren didn't meet some neighbor who had moved near her, when a cloud came up and she and her family arrived in the cellar, there were the new neighbors, and so they met. These warnings are most helpful, and it is surely good to see there are watchers that will notify the stations when they see storm clouds.

I just wish these big clouds would rain more though. No hail thank you, but just some rain. Monday night our corner of the community had 1/2 inch.

College students home for the five day Easter holiday were Joe Earles from ACC, son of Mr. and Mrs. W. J. Earles, David Selby from ACC, son of Mrs. Veda Selby; Rudy Raughton from Baylor University, son of Mr. and Mrs. Clarence Raughton; Glenda Walton from NTSC, daughter of Mr. and Mrs. Glen Walton; Helen Jean Cox from NTSC, daughter of Mr. and Mrs. W. S. Cox; Emilee Griffith from H-S-U, daughter of Mr. and Mrs. S. L. Griffith; Rev. and Mrs. Truett Kuenstler from Southwestern Baptist Seminary at Fort Worth, who visited his parents, Mr. and Mrs. L. L. Kuenstler and her parents, Mr. and Mrs. James Dean, Mr. and Mrs. John C. Montgomery and son John Paul who visited their parents, Mr. and Mrs. J. Howard Montgomery and Mr. and Mrs. Woodrow Smith; Polly Tipton of Hendrick Memorial Hospital's Nursing School, daughter of Mr. and Mrs. Bill Tipton; Buddy Russell, Draughton, Business College, son of Mr. and Mrs. Cub Russell; Jerry Don Jones of Howard County Jr. College, son of Mr. and Mrs. L. B. Jones.

The community is full of sick folks again. Bill Griffith is in a hospital with a bronchial infection. Little Lloyd and Claude Blackwell and Joy Bergstrom have chicken pox. David Green, Linda Griffith and Donnie Green have measles. Donnie is over them and is back in school after three weeks. He had chicken pox and then the measles. Little Donald Livengood was taken back to the clinic Monday morning with a re-occurrence of his kidney ailment. Mrs. Charlie Summers is a little improved after a month in the Stamford Sanitarium with Bright's Disease. Mrs. Geo. Henson is much improved following major surgery, and the report from the lab on the examination was most favorable. Her family feel now that she will be just fine.

Guests were given black mortar boards "of cardboard to wear, and a diploma." Favors were small china wise old owls wearing huge horned rimmed glasses and mortar boards.

The menu consisted of baked ham, green beans, parsley, potatoes, hot rolls, frozen fruit salad and strawberry shortcake.

When the diplomas were unrolled they contained tickets to the play "Dotty and Daffey," given by the senior class of Rule High School. The seniors, their host and hostess and Mr. and Mrs. M. E. Livestock Men Should Keep Eye On Calendar

While a livestock producer may lose his shirt by "watching the clock" too closely, Extension Economist Alvin Wooten strongly advises him to keep an eye on the calendar at all times. Livestock prices follow definite "cycles" he says, and the alert producer can cash in on these seasonal fluctuations.

Little seasonal variation occurs in the amount of meat eaten by consumers. Wooten says, and the price "cycles" result primarily from changes in the quantity of livestock marketed. Breeding

dates, weather, production costs and the amount of available feed and grass represent major causes for such quantity changes.

The seasonal price for hogs is probably established better than for any other type of livestock, says the specialist. Large hog supplies reduce fall prices when the spring pig crop is marketed and lowers them again in the spring with fall crop marketing. May, June and July are the "high" months for marketing; 200-220 pound swine while June, July and August are the "top" for those in the 160-180 pound class. November, December and January are the "low" months for both weight classes. Regulate farrowing dates of sows, advises Wooten, and use forced or delayed feeding for bringing hogs to market in the "high-priced" period.

Read the Want Ads.

Milk-fat calf prices began an upward climb in March from their characteristic late summer and fall "lows" before reaching peak "highs" in May. Mid-spring is the best time to market good or lower slaughter cattle. "Low" for these classes is in the fall months.

Although the demand for feeder cattle is good during the fall, Wooten says that large market numbers are sufficient to depress prices greatly. "High" periods for both Feeder and Stocker calves and steers is March, April and May. Avoid fall marketing when possible.

Fat lambs bring high prices in the spring. Wooten asserts, reaching a peak during May, after fed-lamb marketings have fallen off and before spring lambs reach the market in volume. Most feeder lambs move to market during late summer and fall with depressed prices resulting in that period. See your county agent or write the Agricultural Information office for details in bulletin 1-335.

City Designates May 12 to 18 As Dates for Spring Clean-Up

The week of May 12-18 was designated as annual Spring Clean-Up Week in Haskell, at the regular meeting of the City Council Tuesday night.

Aldermen also heard and granted a request from property owners for abandoning an alley in Blocks A and B of the Morgan Addition, discussed painting the interior of the swimming pool and purchasing a fogging and spraying machine, and devoted considerable time to studying tax renditions of utilities corporations serving Haskell.

Appearing before the Council were Jesse L. Collier, Ark Allred, Tom Rhoads and Covell Adkins asking that the east-west alley in Block A and B of the Morgan Addition be abandoned. The alley has never been used as such and all property owners in the two blocks signed petitions asking the closing. Council members voted unanimously in granting the request.

Purchase of a fogging or spraying machine was deferred until the return of Alderman Myron Biard, commissioner of sanitation, who is out of town on vacation. Plans for use on the swimming pool will be ordered as soon as plans for opening the pool are definitely completed. Park Commissioner Barney Frazier indicated.

After reviewing of three utilities corporations renditions, Aldermen indicated that the tax valuation listed by West Texas Utilities Company was acceptable. Increase in the assessment against General Telephone Company of the Southwest and Lone Star Gas Company will be discussed at a meeting of company representatives with the Council.

Plans for the city-wide Spring Clean-Up will be completed during the next few days, and cooperation of all residents, along with civic groups and organizations will be enlisted.

The city will furnish trucks to haul away all trash and rubbish during the Clean-Up Week without charge. Mayor J. E. Walling stated. However, property owners will be required to place the rubbish in containers where it will be accessible to the trucks.

With the exception of Alderman Biard, all members of the Council were present at Tuesday night's meeting, along with City Secretary T. J. Arbuckle and Water Department Superintendent Roy Oliphant.

Among the many others on the roll call included were three former members of the club, James E. Lindsey of the Class of 1908, Rule; John B. Pumphrey, Class of 1914, Old Glory; Dr. Ernest M. Kimbrough, Class of 1932, Haskell.

Wichita Falls Group to Visit Haskell May 7

A group of 30 or more Wichita Falls business men will visit Haskell Tuesday, May 7, and plan to spend about two hours here. The visitors will arrive at 11 a. m., and plans are being made for a luncheon meeting with Haskell merchants and civic leaders.

Purpose of the goodwill trip being made to a number of towns in the Wichita Falls area is to distribute the 1957 issue of the Buyer's Guide and to visit with local businessmen.

The group will be with beads and costumes commemorating Wichita County's forthcoming Diamond Jubilee Celebration and will have some type of musical group.

A spokesman for the Wichita Falls goodwill trippers explained: "These are strictly wholesalers who have no intentions of encouraging the purchase of merchandise outside your city when such is available locally—they just wish to distribute their wholesale Buyer's Guide and enjoy a few minutes of fellowship."

Car Insurance Going Up Here On May 1

An increase in automobile insurance rates will go into effect here May 1.

The increase will be part of a statewide boost estimated at 11 per cent granted by the Board of Insurance Commissioners because of a large underwriting of loss suffered last year by most casualty insurance companies.

Any driver under 25 who owns an automobile is due the largest rate increase in this territory. The former rate of \$98.00 will increase to \$115.00 per year. Family rates jump from \$39.00 to \$41.00 per year.

Cost of collision and upset insurance in the Haskell area will increase 5.3 per cent, according to a bulletin sent insurance agents here.

The cost of comprehensive (non-collision) insurance will increase 25 per cent, Tom Barfield of Holt-Barfield Agency said. Rates on a medium priced new car were formerly priced at \$38.00 and will be boosted to \$48.00 after May 1. Collision rates on the same car were formerly \$54.00 per year and will jump to \$59.00.

DPS Report Shows Seven Persons Killed Daily In Texas Traffic

The annual statistical breakdown of Texas motor vehicle traffic accidents for 1956 has been released in booklet form by Col. Homer Garrison, Jr., director of the Texas Department of Public Safety.

The report, entitled "7 a Day," got its name from the fact that an average of 7.13 persons a day were killed during the year 1956. In regard to this Col. Garrison took stock of the fact that the statistical picture probably will look no better during the current year.

Today seven persons were killed; tomorrow seven more persons will die in traffic accidents and so on throughout the year until we reach the end of 1957 when our 1956 death count of 2,611 will be exceeded.

The report, compiled by Chief N. K. Woerner of the department's Statistical Division, shows that in addition to an average of seven persons being sent to their graves daily in Texas 305 persons suffered injuries in 625 traffic accidents. And in what is termed a conservative estimate, the report states that the average dollar loss per day during 1956 was just short of two-thirds of a million dollars.

Even though 64 more persons were killed in Texas motor vehicle traffic accidents in 1956 than in 1955 the statistical information does suggest a chance for improvement in the future. There were five deathless days in 1956, as compared with three the previous year, and two of those days fell together on June 5 and 6.

In rural fatal accidents the effect of better highways evidenced in the fact that head-on collisions were reduced from 27.8 per cent in 1950 to 20.9 per cent in 1956. Woerner said this decrease was due primarily to an increase in the number of rural miles of divided highways.

A reduction in the number of sharp curves on rural highways has helped in reducing the "run-off-roadway" accidents from 28.8 per cent in 1955, to 22.2 per cent in 1956.

Lieut. Roy Strain Completes Training At AFB in Waco

First Lieutenant Roy E. Strain, son of Mr. and Mrs. J. H. Strain of Haskell, completed the Navigator Intercept training program at James Connally Air Force Base on April 4, 1957.

Students in this program receive advanced training in B-25 aircraft, leading to specialization in all-weather jet interceptors. From James Connally AFB, these officers are assigned to Air Force installations throughout the world, serving with the Air Defense Command. Their training at the Waco Air Force Base lasts for sixteen weeks.

Jerry Hodges produced a total of 1,023 pounds of lint on five acres of dryland cotton. Second place in the dryland division was won by Roy Manning with a total of 981 pounds of lint off five acres.

Each of the FFA contestants were under the supervision of George Mullino, O'Brien vocational agriculture teacher.

Easter Frocks are Modeled in Style Show at Mattson

By Mrs. Lillian J. Brown

In a style show, put on by the third and fourth grade boys in Mattson School, Galen Peiser was modeling high heels, feathered hat and dacton pleats of bright orange. Jimmy Aycock was a graceful lady in traveling attire. Roger Leonard portrayed a girl of low heels with plumed hat and dress of Easter green. James Curd, the next lovely lady, was groomed in straw be-ribboned hat and pastel skirt. Jerry Campbell modeled willowy black feathers and lace to match. David Davis, with frills, was graceful and dignified in heels, lace and ribbon. Dennis Opitz modeled a very becoming black lace. Randall Weise, in dainty pastels and white, won the clap-o-meter at the end of the show. David Smith wore Easter shades of green. Mike O'Keefe proved that frocks for the tall girl can swish. Lynn Gray captured his audience with Easter colors of matching purple. Mike O'Keefe was voted the second most becoming to Randall in a handclap response at the conclusion of the show.

The girls of the two grades appeared on the regular assembly program in a short play and other numbers. They included Kathy Moeller, Mary Mathis, Gloria Darnell and Dolores Peiser of the fourth grade and Sherry Newton, Ann Mapes, Toni Greene, Mary Louise Thomas and Linda Klose of the third grade.

The wedding party stood before a white archway decorated with green palms and flanked by white gladioli and stock interspersed with candelabra.

Former Haskell Officer Praised For Courtesy

Praise for the courtesy extended by a former Haskell officer, Billy Tom Gordon, who is now chief deputy sheriff at Brownfield, was expressed in a "Letter to the Editor," published recently in the Brownfield newspaper.

The letter read: "I would like to write and tell you what a nice deputy sheriff Bill Gordon is.

"The night the tornado struck Dallas (April 2) I went to see Mr. Gordon and he put a call through to the sheriff at Dallas, and the sheriff went out and saw that my family was safe and that the tornado hadn't hit their house, although it did a lot of damage just four blocks away.

"My family in Dallas includes a daughter, son-in-law and their two children. They live in the Oak Cliff Addition and I didn't have any way of getting in contact with them until I talked to Mr. Gordon.

"No one knows what a relief it was to me to know they were safe. And I couldn't have known without Mr. Gordon's help, which I thanked him for a really meant it.

"I would like for other people in Brownfield to know what a swell person Mr. Gordon is, for they may need the same kind of help some day and they will know where to get it. So I take this way of thanking him so that all can see it.—Mrs. G. B. White, Tokio community."

The Brownfield officer began his career as a deputy sheriff here, later was Haskell chief of police before moving to Brownfield in 1955.

Mrs. Lanham Williams of Vernon visited in the home of her mother, Mrs. Edith English during the weekend and was accompanied home by Mrs. English for a visit in Vernon in the home of her daughter and family.
