HASKELL, April 18.—Plans are being completed for the 27th annual meeting of the Haskell County Singing Convention that is to be held here on Sunday, April 22 in the American Legion building, according to Hallie E. Chapman, president of the association.

Advance interest indicates one of the largest attendances in history as some of the best-known quartets and other musical groups from a 20-county area will attend.

Among the earlier acceptances to invitations are the Stamps-Ozark Quartet of Wichita Falls, the S. E. Clark quartet of Abilene, the Henry Shipp quartet of Lubbock, and the well-known Tankersley quartet of Knox City. In addition, many other quartets from area towns and communities have accepted.

Invitations have been extended to musical groups in Throckmorton, Albert, Olney, Seymour, Stamford, Anson, Spur, Eastland, Aspermont, Snyder and Dallas.

The day's program will begin at 10 o'clock and will continue through 4 p. m. Public address equipment will be installed in order that the program may be heard outside the 500-seat Legion building. An hour and a half of the afternoon program will be broadcast from Radio Station KDWT in Stamford, from 1:30 to 3:30 p. m.

A short business session will be held at 1 p. m. for the election of officers.

Mr. Patterson and the other attorneys voted unanimously to request the attorney general's office to mail a list of everyone who paid the 1950-51 tax on "one-arm bandits" to each county attorney and district attorney in the state, after they were told by Mr. Daniel that slot machines are the "easy money" of the national crime syndicates, drawing from two to three billion dollars annually from the people of the nation.

## O'BRIEN SENIORS TO PRESENT ANNUAL PLAY TOMORROW NIGHT

Loyce Jean Coates and Anne Underwood take the leading roles in the O'Brien School's annual Senior play, "Damsels in Distress," Friday night, April 20.

For two hours the damsels, Pamela (Loyce Jean) and Geraldine (Anne) are in distressed distress, brought about by their plain and fancy lying.

Pam and Gerry share an apartment in a rooming house. Pam to study art and Gerry to attend dramatic school. Pam has written her aunt that she is studying music, and Gerry has led her uncle to believe she is taking a business course. On the strength of these false statements, the girls are being liberally financed by their relatives.

So when the aunt decides to visit Pam and the uncle decides to visit Gerry, the girls find themselves deep in trouble. With every new arrival, the distracted Pam and Gerry are compelled to invent fresh lies, until their stock of "whoppers" is completely exhausted, and retribution, as well as Aunt Stacia and Uncle Braymer, catches up with them.

Others taking part in the 3-act comedy are: Lura Johnston, Sharon Underwood, Tommie Gothard, W. D. Johnston, Roy Hines, Ruby Brothers, Billy Samples, L. G. Sanders, Paul Gothard, and D. B. Jones.

Make-up artist will be Kathleen Hayes, and prompters will be Faye Lowrey, Bobbie Stephens and Diana LaDuke. W. L. Mann is director of the play.

## Farm Bureau to Sponsor 4-H, FFA Sorghum Contest

The Knox County Farm Bureau will sponsor a grain sorghum variety test for the 4-H and FFA boys in Knox County. It was announced this week by Ancel Waldrip, president of the organization.

Boys entering the contest will plant two or more varieties of sorghum, and will work the crops similarly, so that an accurate test of the different varieties on the types of soil in the county may be obtained.

During the summer months a field trip will be made to the contestants' fields over the county to show first-hand results of the tests. It is hoped that all the different sorghums can be tested on the varied soils of the county, thereby becoming a basis of the sorghums to be planted in the county for better yields.

The final phase of the program will be a crop show, with heads of the grain being gathered and exhibited. Ribbons and prizes will be awarded for the top entries.

The contest will be under the direction and supervision of the Farm Bureau directors, the county agricultural agent, and the vocational agriculture instructors in the county.

Sunday, April 22, local Methodists will observe "Teacher Appreciation Day". Every member, totaling 174, was urged to be in Sunday School to show his appreciation for his teacher.

"Pioneer Day" will be observed the following Sunday, honoring all members who have been members of this church for 25 years or more.

"Pioneer Day" will conclude with an old fashioned dinner on the ground, paying special tribute to "Pappy" Smith, only known living charter member. The pastor invited old timers in the area to attend.

The remainder of the program for the conference year is as follows:

Monday night, April 10, entertain District Young People from 6 to 10; Wednesday night, May 2, fourth and last conference of the year; Sunday, May 6, honor all members of the church who have been members less than 25 years, prior to this year.

## Farm Bureau Adds 170 New Members

More than 170 new members have been added to the Knox County Farm Bureau, members reported at a meeting held in the assembly room of the courthouse at Benjamin last Thursday night.

This brings to a total of 246 the number of farmers in the county to become members, Ancel Waldrip, president, said.

Waldrip introduced Loys D. Barbour, district Farm Bureau director, who spoke on "Farm Bureau Policies and Agriculture Legislation". He reported that the House of Representatives had just passed the Sewell bill, adding an additional one cent tax per 1,000 cubic feet on the gathering of natural gas. The bill was passed by a vote of 87 to 52 and was immediately forwarded to the Senate for action there, the speaker said.

The Sewell bill proposed to divide the revenue as follows: One-half to the rural road program, one-fourth to the Available School Fund, and one-fourth to cities and towns for street improvement.

Barbour urged that farmers let their senators and representatives know what legislation they favor and oppose. He explained fully the difference between parity price and support price.

State Field Representative Wayne Little, who had been in the county all week assisting with the membership drive, told the group that a good farm Bureau was an active Farm Bureau, and suggested that members work out some beneficial program so that non-members can see the results.

The Knox County organization went on record for: 1. An entomology school to be set up and conducted by an extension service specialist, to aid in the control of cotton insects in the county; 2. a grain sorghum and legume variety program for 4-H and FFA boys of the county.

In the membership drive contest, W. H. Simmons of Gilliland won a pair of boots, courtesy of Nocona Boot Co., and Paul Fitzgerald of Knox City won a \$20 hat, made possible by Cobb's Dept. Store.

Following the meeting, wives of Farm Bureau members served refreshments.

Among those from the local chapter of the Order of Eastern Star who attended the OES School of Instruction in Abilene Friday were Mrs. C. A. Reed, Mrs. C. A. Wilson, Mrs. S. M. Clonts, Mrs. Anna Mae Redwine, Mrs. L. A. Parker, Mrs. Allen, Mrs. Allie Moorhouse, Mrs. John May, Mrs. J. M. Averitt, Mrs. L. W. Graham, Mrs. Ray Willis, and Mr. and Mrs. W. M. Rowan.

## Meetings Called to Discuss 7-Point Cotton Program

A series of meetings will be held over the county starting Monday, April 23, for the purpose of explaining the 7-step Cotton Program, according to County Agent W. C. Pallmeyer.

It is the goal of the Agriculture Department to produce a 16,000,000 bale crop in 1951, and it is believed that the items emphasized in the 7-step program will help reach this goal, Pallmeyer said.

Meeting places will be: Munday, Monday, April 23 at 7:30 p. m., school gymnasium. Knox City, Tuesday, April 24 at 7:30 p. m., Legion Hall.

Vera, Thursday, April 26, at High School auditorium. All programs will start at 7:30 p. m. and everyone interested in cotton production is cordially invited to attend.

A film on Cotton Insect Control will be furnished by West Texas Cotton Oil Co., and talks on insect control will be made by the county agent and local men as to results from last year's control.

Also on the program is an explanation of the cotton variety test, and care of the soil as connected with cotton farming. Farm labor, machinery and insecticides will also be discussed by local ginners, implement dealers, insecticide handlers, and representatives from other agricultural agencies.

Remember the time and the dates," Pallmeyer said, "and plan to attend the meeting nearest you. Let's all work together for a large 1951 cotton crop produced at minimum cost."

O'Brien holds victories over Weinert and Aspermont.

Derwin Lancaster and Don Poe probably will share mound duties, with Roy Hines scheduled for relief work. Lancaster and Darrel Thomas have been leading the local hitters.

Probable starting lineup for the Thursday night game will be Bill Samples, catching, Derwin Lancaster or Don Poe pitching, Dub Johnston at first base, Wallace Cox or Paul Dean Gothard at second base, Cecil Epley at short stop, Wayne Hutchinson at third base, Roy Hines in left field, Adeler Herring in center and Darrel Thomas in right field.

**Compete in Swine**  
 this year were begun April 3, according to County Agent W. C. Pallmeyer.  
 In its fourteenth year, the Sears Swine Program will operate in 167 counties in Texas during 1951, six more than last year. It is an educational program in swine production, sponsored by the Sears-Roebuck Foundation and conducted by the Texas Agricultural Extension Service.

One boar and eight gilts are distributed each year to deserving 4-H boys in each county participating in the program. Approximately 15,000 4-H Club members have received Sears gilts and boars, and many who have participated in the program are now mature men.  
 In May and June, 1949, 1,244 purebred gilts and 154 purebred boar pigs were distributed to 1,380 Texas 4-H Club boys. By April 15, 1950, 68.5 percent, or 836, of the sows had farrowed 7,043 pigs, an average of 8.1 per litter.

The 4-H Club members raised 5,428 pigs to weaning age for an average of 6.4 per litter. Boar pigs distributed under the program are developed into breeding boars and used for public service after they are eight months old. Free breeding service is provided for all gilts in the program.

For the boar pigs distributed in the spring of 1949, the average income per boar from cash service fees in the first six months was \$60.30.

Club boys who receive gilts agree to return a sow pig from the first litter, or to pay \$15.00, to the county fund for use in the program the following year.

The Sears program has had a very definite effect upon the Texas swine industry, Pallmeyer said. In addition to helping improve the quality of commercial hogs, the program has influenced farmers to adopt better methods of production such as improved swine pastures, use of self feeders and the feeding of balanced rations.

"Beloved, if our hearts condemn us not, then we have confidence toward God, and whatsoever we ask, we receive of Him, because we keep His commandments, and do those things that are pleasing in His sight." (1 John 3:21-22.)

"The tie that binds" . . . what is it? We sing of it and of "Christian Love" and "Fellowship Sweet", the tie that keeps us in that love and fellowship is the love that God puts in our hearts to be obedient to His commands.

Forceful obedience does not take away the desire of sinful pleasure; it is only when the love of Jesus Christ comes into your heart that you desire to depart from evil and clean up your life, to be presentable to Jesus, to conform to His holy word, and do the things that are pleasing in His sight.

Jesus is your guide, and if you will put your trust in Him, He will guide you through your life with all its many pitfalls. He knows the danger spots and will guide you safely on, so put your complete confidence in Him. Keep that tie between you and your Great Master and He will cause you to walk in the light. Your life will be flooded with the many blessings of the Master giver of all good gifts.

**FAITH**

1. **WHAT IS FAITH?** Faith is believing something as a result of evidence. In Heb. 11:1, the writer says it is: "the substance of things hoped for, the evidence of things not seen."

2. **HOW IS FAITH ACQUIRED?** Though many would say as a result of miraculous operation of the Holy Spirit, God says: "So then faith cometh by hearing, and hearing by the word of God." Rom. 10:17.

3. **THE NECESSITY OF FAITH.** Man is justified by faith; Rom. 5:1. Faith is necessary to salvation; Mark 16:16-18.

4. **WILL FAITH ONLY SAVE?** No, because the doctrine of faith ONLY contradicts the Bible. For instance James says in James 2:17 that "faith without works is dead." He goes so far as to finally say, "Ye see: then how that by works a man is justified, and not by faith only." In the 24th verse. Again, he says, "For as the body without the spirit is dead, so faith without works is dead also."

5. **WHEN ARE WE SAVED BY FAITH?** The answer is evident that we are saved by faith when faith obeys. Read Hebrews 11. Many illustrations are here given that will clear up this matter. The walls of Jericho fell by faith, but they fell AFTER the people did what God commanded. Noah and his house were saved by faith but NOT BY FAITH ONLY. They did as God commanded. Noah built the ark, and built it according to God's specifications, that is, according to the faith he had in God's commands, and he and his house were saved.

Faith plus repentance plus confession plus baptism equals salvation according to the word of God. Have you done these?

## Washington Letter

By Congressman Ed Gossett  
WASHINGTON, D. C., April 13

13.—As this is written two days have lapsed since our most decorated, most distinguished five-star General Douglas MacArthur was fired. To date I have received fifty-nine telegrams signed by two hundred and two persons, and eighteen letters on this subject. All letters, wires and telephone calls have been deeply critical of

President Truman. Most of them demand the impeachment of Truman and the firing of Dean Acheson.

No one has been more critical of the bungling of our foreign affairs than I. The Morgenthau Plan, the Teheran, Yalta and Potsdam conferences, and then Secretary Marshall's trip to China, were all major diplomatic tragedies, and sowed seeds of strife, confusion and conflict. Some or all of these were directly responsible for the Korean debacle in which we now find ourselves. It has been my contention that the pinks and reds within this country, supported and sustained by organized, minority pressure groups of the same hue, have been principally responsible for both our major domestic and foreign difficulties. The tragedy has been that most of these groups have been aided and abetted by many well-meaning, high-minded American citi-

zens; by intellectuals and humanitarians and others frantically seeking for a peace formula and for a way to avoid another world conflict . . . a strange coalition, some seeking to save and some to destroy our great country.

The President had the authority to fire General MacArthur. The proud, strong-willed General did much to force his hand. Those who grieve because of this crisis must remember and must uphold the sound American principle of civilian superiority over the military. To impeach the President is an impossible remedy. Article II, Section 4, of the Constitution states: "The President, Vice President and all civil officers of the United States shall be removed from office on impeachment for a conviction of treason, bribery, or other high crimes and misdemeanors."

Many of us strongly agree with MacArthur that Formosa

must never be surrendered to the Reds and that UN membership must never be accorded to Red China. However, grave doubt exists even among many MacArthur supporters as to the wisdom of his policy of "an all out war on China". It is thought by many that an invasion of Manchuria or a transporting of Chiang's forces by us to the mainland of China would set off an all out war against China, if not an all out world war. We are told that many war lords within China are now fighting Mao who would fight with him against Chiang.

In all American top bracket leadership—civilian and military—MacArthur has stood out as a strong, positive character. Most Americans are grieved when a strong, positive character is liquidated by smaller, less positive ones. They feel that the negative has eliminated the positive. However, many of those who now acclaim MacArthur strongly condemn many of the things for which MacArthur stands. There are many inconsistent, incongruous elements in the present furor. The great American tragedy is not the firing of MacArthur, but the absence of strong, positive American leadership in the State Department and in the Executive Branch of the government. The President had the authority to fire MacArthur and he cannot be impeached for it. His greatest mistake, however, was in venting his spleen so devastatingly against our Number One soldier. At least, MacArthur should have been left in full control of Japan. His administration of the Japanese Islands has been one of the bright spots in a dismal post-war world.

A lot of MacArthur scuttlebutt is heard around the Capitol these days. Congressman Rankin still reminds us that MacArthur served on the Court-martial that cashiered General Billy Mitchell. Some still cuss him for leading an attack against the bonus marchers in 1932. Some claim that MacArthur was successful in the Hawaiian Conference with President Roosevelt and Admiral King in the early days of the war in having his way. Mr. Roosevelt and Admiral King are said to have insisted on bypassing the Philippines, but the General said no. He has not been as successful in dealing with Acheson and Truman.
