HOGE'S PHARMACY

PAUL HOGE

Is he in business "to stay?"

When you buy a used car from a Ford Dealer, you're dealing with an established business-

man who has a large investment and his good name at stake. We're here today, and we'll be

Check the used car, sure! But check the dealer too!

Does he really know cars?

Ford Dealers are in the service business, too; work with cars day in and day out. We know how to spot trouble fast. And our expert mechanics have the equipment and "know-how" to handle any service job.

and trucks as a service to customers who trade them for new ones. We get a lot of trade-ins. And we keep them moving to free our working capital. That's a good reason why we offer our used cars and trucks at rockbottom prices.

Remember -- we Ford Dealers want to keep your good will because we want to take care of all your automotive needs. Someday we hope to sell you a new car, or another used car, and in the mean time, we want your service business.

Do his cars meet A-1 standards?

IT'S WHERE YOU BUY IT THAT COUNTS! See F

When you go to a Ford Dealer's and see the A-1 label on a car, you know it has met with the dealer's A-1 standards. And because you can trust the man you bought it from, you can trust the car.

MERI**ca's New Railroa**d

Every 3 days a new diesel joins the Santa Fe fleet!

A 10-year record of "building new" on the Santa Fe

Christened with California champagne, Santa Fe's first multiple-unit diesel locomotive rolled out of Chicago on Tuesday, May 12, 1936.

It powered the first Super Chief.

39% hours later it rolled into Los Angeles-and the new age in railroading was born.

There were 3600 "horses" in that one. Five years later, the first multiple-unit freight diesel rolled on Santa Fe rails.

There were 5400 "horses" in that one. Today, there is more than 2,100,000 diesel horsepower on the Santa Fe-1524 mighty diesel units.

From 1943 through 1952, a total of 1261 diesel units were placed in service. Better than one every 3 days for a 10-year

And still they come! 222 in 1953!

Every diesel added, every mile of heavier rail, makes America's New Railroad a little more completely new. Why, enough new rail has been laid on the Santa Fe in the last seven years alone to reach from Chicago to Los Angeles!

All new-but always the old pride that all this building new costs you, the taxpayer, not one tax penny.
