MEETING AT LUBBOCK

County Judge E. L. Covey and the county commissioners have been invited to attend a meeting of the county judges and county commissioners of about forty West Texas counties to meet today in Lubbock and discuss the relief situation in this section. On account of the short crop and no work for the laborers the situation is getting desperate. In Knox County the assistance asked for the needy has increased more than fifty per cent in the past three weeks and the county is not able to handle the situation. Food and clothing are badly needed by hundreds of people in this county and Judge Covey and the commissioners are doing everything possible to relieve the situation.

PIERCE BROOKS TO BE PEOPLES' LOBBYIST

Dallas, Jan. 19.—P. Pierce Brooks, Dallas businessman, and recent candidate for Lieutenant Governor, surprised political circles Thursday by stating that he was leaving for Austin and would become the peoples' lobbyist. "The special interests and monopolies have their lobbyists to represent them at Austin during the legislative sessions; and at this session the plain people will have theirs."

Brooks stated that he would be located at one of the hotels in Austin. "I plan to spend as much time in Austin as my business will permit, in order that I may be on hand to contribute my part to seeing that legislation is passed for old age pensions, and to do whatever I can to protect the interests of the plain people of this State. There is very little that an individual can do, but I can assure you that the people of Texas will become better acquainted, as I propose to force the special interests and monopolies out in the open. During this session of the Legislature the people of Texas will know how their elected representatives stand on various issues."

"This passing the buck is going to stop, as I will do every thing in my power to see that all issues are brought out in the open and disposed of once and for all. The old people of this State have been promised liberal pensions and I think the officials who made these promises should see that legislation is provided to make this possible, or resign. I believe that the people of this State also want the horse racing issue brought out into the open and discussed, and will not stand for any 'surprise legislation,' which occurred a few years ago."

Brooks, a Dallas real estate broker, led his nearest opponent for Lieutenant Governor in the first Democratic primary by over 60,000 votes, but was defeated by an O'Daniel supported candidate, Coke Stevenson, former Speaker of the House, in the second primary. It will be recalled that Brooks, who made an active campaign, received serious injuries when his automobile overturned during the early part of the second primary. This prevented him from making further public appearances during the remainder of the campaign.

Joe Averitt and Rev. H. E. East attended the Association of Sunday School Meeting at Dallas yesterday and today.

Three received twenty dollars each, two received \$22 each, and one received \$21. The smallest amount paid in the county was \$6, which went to two persons. The average for the county was \$13.90.

MARRIAGE LICENSES

County Clerk M. T. Chamberlain has issued the following marriage licenses since Jan. 1: W. H. Kuhler and Miss Ellen Steinbach; J. T. Pennington and Miss Willie Belle Forgans; William Ray Glasscock and Miss Mildred Williams; Glenn E. Stone and Miss Catherine Douglas.

NEW GROCERY STORE

Jamison - Clonts Hardware Company is installing fixtures for an up-to-date grocery store which they expect to open for business some time next week. They have re-arranged their hardware stock and have plenty of room for the groceries. They are pioneer merchants in the town and only recently decided to enter the grocery business in connection with their large stock of hardware and furniture.

LANKART SEED FARM MANAGER HERE

W. R. Woodward of Waco, General Manager of the Lankart Seed Farm at O'Brien was here this week looking over the farm and called at the Herald office. He in company with Sam Reed, the local manager, were in Kirkland Monday and sold one gin there one thousand bushels of the seed. They also sold this week to one gin in Paducah seven hundred bushels, and buyers from all sections of West Texas are coming each week to the farm at O'Brien to look this cotton over. They have already sold and delivered more than three thousand bushels in this section of West Texas. They still have about thirty thousand bushels left. They are selling to local farmers of this section and the report has been circulated that those buying the seed are compelled to gin at certain gins. Mr. Reed states that this is not true, as the farmer can gin at any gin he desires. This seed is becoming popular over this section of the state and next year the farm will have an increased acreage at O'Brien, according to Mr. Woodward.

Austin, Jan. 18.—University of Texas students wrote and helped to produce "The American Way of Life," a pageant presented in Texas Memorial Stadium Tuesday morning, preceding the formal inauguration of Governor O'Daniel.

Members of the production staff included Yvonne Jamison of Knox City, who served as make-up assistant for the pageant.

GOVERNOR O'DANIEL

Tuesday was a gala day in Austin when W. Lee O'Daniel was sworn in as the thirty-third Governor of Texas. More than sixty thousand people were present in the Memorial Stadium. More than thirty bands from all sections of the state were present to furnish music. The celebrated "Hill-Billy" band was also present.

The governor delivered his message to the joint session of the Legislature yesterday afternoon and told that body that he wanted them to submit a constitutional amendment to the people asking that they levy a transaction tax of 1.6 per cent on every transaction in Texas. A few items were exempt under his recommendation. This is said to raise more than forty-five million dollars annually. He also advocated abolishing the ad valorem tax. The legislators would not comment on the recommendations yesterday afternoon, as the majority of them desire to study the matter. The Herald editor desires at this time to make no comment as we have not studied the message. The governor said he was opposed to a sales tax.

NOTICE TO TAXPAYERS

All City Taxes will become delinquent Feb. 1. After this date you will be subject to a penalty.—J. G. Dutton, Tax Collector.

BAND GOES TO AUSTIN

The Knox City High School Band left at noon Monday for Austin where they participated in the inauguration of Governor O'Daniel. The money to carry the band was made up among the business men of the town. They chartered a large bus and went as far as Georgetown Monday and on to Austin early Tuesday morning. More than fifty bands were present at the inauguration. The band returned early Wednesday.

CATTLE THIEVES ROUNDED UP

Haskell, Jan. 16.—Charged with thefts committed in Knox, Haskell and Potter counties the past week, three men who were taken into custody at Benjamin Sunday by Haskell county officers are being held in the county jail here to await grand jury action.

The men, Truesdale Coffee, Boyd White and Jimmie Durcan, are charged in complaints signed by Sheriff Olen Dotson with the theft of two cows and a trailer in this county on the night of January 13. The cattle were stolen from C. W. Marica and John Vernon, and the trailer was taken from the premises

of J. L. McCarty in Rule.

The stolen animals, sold in Lubbock, have been identified by their owners, officers said. The trailer was found near that city, where the three men told officers they had abandoned it.

Sheriff Dotson said Coffee had admitted escaping from the Stonewall county jail at Aspermont several months ago. Stonewall county officers, advised of Coffee's arrest, said that at the time of his escape he was being held on theft charges, and that he also was wanted in Nolan county on similar charges.

SENIOR BASKETBALL BOYS

Last Friday night the Senior boys entered a tournament at O'Brien. For their first game they were to play Rule, but the boys did not show up. The next day Sunset played Knox City and won by a large score. The next game was with Leuders, and the Eagles made 16 points before Leuders ever scored, but they slowed up and at one time were only four points ahead. However, they started playing ball again and when the final whistle blew they were ten points in the lead. This put them in the finals with O'Brien. The boys were just about played down, having played two games within two hours. They went into the game determined to win. At the half O'Brien was in the lead three points. They started the last half and played no better. Then Hunter was fouled and made both free shots, and a few seconds later made a field goal, tying up the game. With one minute and fifty seconds remaining to play, the lights went out. They could not be fixed at once and the two teams agreed to play the tie off Tuesday night, January 7, in the O'Brien gym.

Starting Thursday night the Sunset High School will start a tournament with about 12 teams entering. They are looking forward to one of the best tournaments ever held in this section. There are to be plenty of strong teams here and the boys expect to go far in their own tournament. They invite everyone to come and see these ball games. A beautiful trophy will be awarded the winning team. Trophies will also be given to the runner-up and the winner of consolation. An all-tournament team will be picked and medals will be awarded.

The player who can throw the most free shots will also be given a medal.

CHANGES IN FACULTY

A number of changes have been made in the faculty of Sunset school. Succeeding Mr. W. C. Kimbrough as principal of the high school is Mr. N. T. Underwood, who has been the grade school principal for the past three and a half years, and has proved his merit.

In the place of Miss Lois Spraggins, the Home Economics teacher who was wed recently, is Miss Shirley Gray of Roscoe, Texas. Miss Gray was born March 18, 1918, at Roscoe and attended the high school of that city. While in the school there she took active part in baseball, volleyball and tennis. She was a member of the pep squad and also editor of the high school paper. After completing her high school education Miss Gray entered Texas State College for Women at Denton. She majored in Vocational Home Economics and will receive her degree in February. We are glad to have Miss Gray and are sure she will succeed in her position.

When Mr. Underwood left his position of grammar school principal he was succeeded by Mr. I. W. Walling, whom we are sure will fill the place ably. Mr. Walling is teaching his fourth year in the system.

Taking over Mr. Underwood's responsibility of the seventh grade is Mr. Austin Varner, who comes to us from Knox City. He was born March 7, 1913, at Gilliland, Texas. He finished high school at Abilene, taking an active part in basketball. He attended Abilene Christian College and obtained his degree from that school May 30, 1938.

GRADE SCHOOL NEWS

The first grade have an attractive Eskimo project on display. They are making books about Eskimo clothing, shelter and customs, part of which is free hand.

The first grade pupils were sorry to lose several pupils at mid-year. They are glad to have G. C. Cogburn from Knox City as a new member of their class.

The third grade pupils are to give the chapel program this week. The name of the play is "Fire Hazards." They

are also making fire prevention posters and are learning fire prevention songs.

The fourth grade pupils are sorry to have Billie Gammill move.

The fifth grade pupils are sorry to lose Donnel McBeth, and are glad to have Margaret and Paul Millen as new pupils.

The seventh grade pupils are very sorry to lose Mr. Underwood. Mr. Austin Varner is their new teacher. They hope they will like him as well as they did Mr. Underwood. They are sorry that Raymond McBeth moved to Munday.

SENIORS ON PARADE

Nettie Griffith, daughter of Mr. and Mrs. D. G. Griffith was born June 24, 1920, in Haskell County. She started to school at Pleasant View, where she remained until she completed the seventh grade, and then went to Weirnet. She started to Sunset in the ninth grade and finished at mid-term this year.

Nettie has lettered in basketball for the past three years and volleyball for the past two years.

Nettie's winning smile and charming personality have made her a favorite among the classes. She was elected the most representative girl in the Sunset high school last year, and the most representative and most popular girl this year.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nationwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

"Moon Over Miami"

MOON O - VER MI - A MI,

DEFINITE proof of how little attention we pay to the creators of music is contained in the history of the man who wrote not only "Moon Over Miami," but over a dozen of the leading songs of the last few years, and hundreds of others popular before that.

He was born in Philadelphia, and lives in Drexel Hills, Delaware County, Penna.

Among his fellow craftsmen, members of the American Society of Composers, Authors and Publishers, he is regarded as an ace composer. In recent years, he has written "On Treasure Island," "A Little Bit Independent," "In A Little Gypsy Tea-room," "Dancing With Tears in My Eyes," "Tip Toe Through The Tulips," "Robins and Roses," "At A Perfume Counter," "If It Rains, Who Cares?" and "Gettin' Some Fun Out Of Life."

His favorite collaborator, an old boyhood friend, is Edgar Leslie, A.S.C.A.P.; and he commutes to New York twice a week. And nobody knows much more than that about him.

"Jeannine, I Dream Of Lilac Time"

By Nathaniel Shilkret and L. Wolfe Gilbert

Nathaniel Shilkret was born in New York City. His father, William, was a musician, so Nathaniel learned to play the piano before he learned the alphabet.

On January 1st, 1925, he organized and conducted the first great symphony orchestra broadcast with John McCormack and Lucio Sari as soloists.

BIRTH OF A SONG

By the time he was six, he had switched to the clarinet and had become soloist in a children's orchestra of seventy pieces.

He kept right on conducting radio concerts, sometimes leading as many as ten in a week with all the details of rehearsals and other duties.

For six years he trained as a prodigy. When he reached ten he began to play with orchestras.

Shilkret wrote a symphony and music before he produced the popular "Jeannine, I Dream Of Lilac Time" over sixty major pictures in

SMOKE THIS IN YOUR PIPE

Relative to Government activities, the following letter to the Editor of the Financial Chronicle, seems worth repeating:

"A friend of mine in New England has a neighbor who has received a Government check for \$1,000 this year for not raising hogs. So my friend wants to go into business himself, he not being very prosperous just now. He says in fact that the idea of not raising hogs appeals to him very strongly. Of course he will need a hired man and that is where I come in. I would appreciate your opinion as to the best kind of farm not to raise hogs on, the best strain of hogs not to raise, and how to best keep an inventory of hogs you are not raising. Also, do you think capital could be raised by a non-hog raising gold bond. The friend who got the \$1,000 for it is not raising 500 hogs. Now we figure we might easily not raise 1,500 or 2,000 hogs. So you see the possible profits are only limited by the number of hogs we do not raise. The fellow has been raising hogs for forty years and never made more than \$400 in any one year. Kind of pathetic, isn't it, to think how he wasted

PAPPY'S PALS DENIED PERMIT

A plan of Jesse McKee and associates of Fort Worth to go into the highway machinery trucking business suffered a setback last week at the hands of the Texas Railroad Commission.

McKee is one of the closest friends and advisors of W. Lee O'Daniel.

O'Daniel, in the run-off race for railroad commissioner, urged the election of C. V. Terrell, Jerry Sadler was elected.

The commission, it was learned, has unanimously voted on its own motion to hold a rehearing on the application of Taubert and McKee Trucking company, a corporation, for a permit to haul heavy highway construction machinery on all highways of the state with certain designated exceptions.

This permit was issued by the commission on December 30, 1938, in an order signed by Chairman Lon A. Smith and C. V. Terrell.

The corporation was granted papers of incorporation by the Secretary of State several days later, on January 11, 1939.

On January 12, all three commissioners signed an order calling a rehearing.

The Secretary of State's records show that incorporators of the corporation were Jesse McKee, Ed Taubert and A. B. Edwards. It is a \$1,000 corporation. McKee subscribed \$250, Taubert \$245, and Edwards \$5.

Date for the rehearing has not been fixed.

Commissioner Sadler refused to comment on the commission's action except to say that the rehearing had been ordered.—The State Observer

THE NATIONAL INVENTORY

Many business concerns are working hard this month of January, taking inventories. Some of them discover leaks that make the stream of prosperity dwindle down to a small brook.

We all need to take a national inventory and discover how our country's assets and liabilities figure up. Here are some of our chief assets:—

1.—A grand system of government. Our fathers gave us freedom of the press and of thought and democratic suffrage, as tools with which we can build the house of prosperity.

2.—Rich resources. The world used to worry for fear it would not have enough to eat. Now our country worries because our rich soils produce so much food that low prices threaten the farmer's welfare.

3.—Technical achievement. Our scientists have harnessed the rivers, the coal, and the oil, and made the lightning our humble servant. Our wonderful machines and skill should produce welfare for all worthy folks.

Here are some liabilities:—

1.—Inattention to work of government. If our people neglect to vote or forget to study politics, how can those tools the fathers gave us build the house of prosperity?

2.—This country was built up by hard toil. They used to talk about climbing the ladder. Now many want to hitchhike to prosperity.

3.—Lack of co-operation. If the sections and classes are pulling in opposite directions, how will they pull the load out of the mud?

When people loaf on the job, or live selfish lives, they become national liabilities. When they do good days' work, and give time and effort to build up the home town and country, they are precious assets.

County Commissioner E. L. Park requests us to publish the following financial condition of Commissioner's Precinct No. 1 when he assumed office on January 4, 1939.

AGRICULTURAL WORKERS HONOR INVESTIGATOR

has made his most notable contribution.

In his work on the Spur Station, Dickson plowed a virgin field in unearthing many of the principles and practices of soil and water conservation that today are part and parcel of the broad and comprehensive national program with which the nation is seeking to protect and to restore its most important natural resource—the soil.

It is in recognition of these distinguished services, which have contributed to the agricultural welfare of not only Texas but the entire nation, that the Texas Agricultural Workers' Association is awarding its Distinguished Service Plaque of 1939 to Mr. Dickson.

Fort Worth, Jan. 14.—At a banquet held Friday night in his honor at the Texas Hotel in Fort Worth, R. E. Dickson of Spur was presented the 1939 Merit Award of the Texas Agricultural Workers' Association for distinguished service to Texas Agriculture. As superintendent of the Texas Experiment Station at Spur for 24 years, Mr. Dickson has served Texas agriculture with fidelity and distinction.

While his accomplishments in grain sorghum improvement and with livestock feeds have been significant, it is as a pioneer in the investigation of soil and water conservation problems that he is best known, and perhaps it is in this field of agricultural research that he

of Publications, Texas Agricultural Experiment Station, discussed the "History of Agricultural Research in Texas." Victor Schoffelmayor, Agricultural Editor of the Dallas News, spoke on "R. E. Dickson—His Contribution to Texas Agriculture." The Merit Award banquet program, which is featured each year at the annual meeting of the Association, was broadcast over KTAT.

Meeting in Fort Worth for its twelfth annual convention, the Association, which is composed of workers in all phases of agricultural endeavor, was presided over by President L. P. Merrill, Regional Conservator, Soil Conservation Service, Fort Worth. Miss Maurine Hearn, District Agent of the Texas Extension Service, is Secretary of the organization.

WHO WROTE IT?

"They Didn't Believe Me"

HE has written hundreds of popular songs, many included in the twenty-five musical comedies which he had composed by the time he had reached the age of thirty-five.

He was born in New York City on January 17th, 1885, graduated from high school in Newark, N. J., studied at the New York College of Music, traveled while still in his teens to Germany. He went from there to England, where he became intensely interested in the theatre. He haunted the office of Charles Frohman; finally met that great producer by accident and was rewarded with a job at fifteen dollars a week.

He came back to America as something of an expert on English musical comedies, and was first heard in his own right with the production of "The Red Petticoat" in 1911. In 1914 he wrote "The Girl From Utah" in which Julia Sanderson sang "They Didn't Believe Me." That was the year the American Society of Composers, Authors and Publishers was founded, and he was one of its first members. Then followed a series of Broadway successes culminating in "Show Boat" with its great song "Ol' Man River." Since then he has written nearly a dozen other musical comedies and has worked for the films.

His name is Jerome Kern

industrial progress—and instability, politically inspired and promoted, throttles the electrical industry today.

So, when we read that the utilities will spend some hundreds of millions this year, it's wise to pause and reflect that they would spend several times this amount if the attitude of the government were one of cooperation instead of attack. They would create a great deal more productive employment, contribute more to government in taxes and be able to reduce rates to the consumer. No industry is potentially able to do more for this country than the private electric industry—if a socialistic power policy didn't stand in the way.
