

Large Crowd Expected At Homecoming

Plans for handling a record attendance at this year's Alumni Association Homecoming at Knox City High School, Sunday, June 2, are being made by officials of the organization.

Mrs. C. C. Hoge New President KC Study Club

Saturday afternoon, May 11, Mrs. B. M. Farmer's home was the scene for a very lovely musical tea which Mrs. E. Q. Warren arranged for the year's closing program for the Knox City Study Club.

The house was decorated in beautiful arrangements of fresh spring flowers. Guests were greeted at the door by Mrs. E. Q. Warren and Mrs. E. F. Branton, and introduced in turn to the club's special guests for the afternoon.

The club president, Mrs. E. F. Branton, called the club to order and presented Mrs. Warren as program chairman for the afternoon. Mrs. Warren introduced Elizabeth Geer and Bettye Bullock as senior music students from Rule, and made explanations for the program to follow.

Surprise Visitor

Pleasantly surprising his parents, Elvis Hutchinson, son of Mr. and Mrs. Salem Hutchinson, arrived home unexpectedly recently, for a visit prior to his discharge in June.

Earl Benedict is living at Bastrop but says he plans to be at the Homecoming year. Vance Favor lives in Quanah. He is still with State Highway Department and promises to be here this year.

Frozen Food Clinic At Seymour Will Feature Specialists

Managers of frozen food lockers in Knox and adjoining counties are invited to attend a frozen food locker clinic that will be held in Seymour May 22.

Second Test Made For Control Horn Flies On Cattle

A herd of 68 cows and 78 calves on the League Ranch were treated for the second time this week for control of horn flies, according to R. O. Dunkle, county agent.

New Pastors At Foursquare Church Assume Duties

New pastors of the Knox City Foursquare Church are Rev. and Mrs. Floyd B. McClure, who arrived here recently with their two sons, Sidney, 5, and David, 3.

The couple have pastored churches in Kentucky, Indiana, Iowa, and Ohio. They have been engaged in evangelical work from coast to coast recently, with their last pastorate at Toledo, Ohio.

O'Brien Exercises Friday, May 24

Graduating exercises for the O'Brien school will be held on May 24, at 8:30 p. m., Supt. Bruce Browning has announced. Baccalaureate service will be observed Sunday night at 8:30, May 19, with Rev. Allen Forbis, pastor of the O'Brien Methodist Church, bringing the message.

Grasshopper Pests Expected To Strike County Soon

Through the co-operation of the Commissioners Court and federal agencies, Knox County is making preparations for the control of an expected infestation of grasshoppers, possibly a severe case, according to R. O. Dunkle, County Agent.

MOTHER'S DAY DINNER AT E. J. ANDERSON HOME

Mr. and Mrs. E. J. Anderson had as their guests for dinner Sunday, the following: Mr. and Mrs. Leonard Sanders of San Antonio, Mr. and Mrs. Fred Mize and son of Lubbock, Mr. and Mrs. B. F. Sanders, Mr. and Mrs. H. B. Sanders and girls, Mr. and Mrs. John Borchardt and girls of Crowell, Mr. and Mrs. Terrell Beegs of Goree, and Mr. and Mrs. John R. Rayburn and daughter of Munday.

Finishes Duty

Charlie H. Keck, SKD1c, received his discharge from the Navy April 5. He and Mrs. Keck have been spending a vacation since that time, and returned home this week.

COUNTY RURAL SCHOOLS GET STATE AID PAYMENT

Knox County common school districts received a payment of \$5210.00 this week, according to County Superintendent Merlek McLaughery.

Mr. and Mrs. J. B. Davenport of Tahoka visited the George Hardberger family last week. Mrs. Davenport is a sister of Mr. Hardberger.

Dr. Rainey To Address BHS Seniors

Baccalaureate services for the Benjamin high school graduating class will be marked by the appearance of Dr. Homer Price Rainey, prominent educator and former president of Texas University.

Dr. Homer P. Rainey

Rainey is considered a likely candidate for governor of the State.

Supt. J. L. Hill and Principal J. A. Jolly have invited the public to hear Dr. Rainey. Commencement exercises will be held next Thursday, May 23, at 8 p. m., in the school auditorium.

Eighth grade exercises will be held Monday night, May 20. W. C. Cunningham, superintendent of the Munday schools will be the speaker.

Jean Galloway, daughter of Mr. and Mrs. J. L. Galloway, is valedictorian of the graduating class this year. Jean finished her senior year in high school with a fine record.

Members of the graduating class are Dorothy Jean Qualls, Jean and Joan Galloway, Geraldine Polster, and Ray Escobar.

The Senior, Junior and Sophomore class leave Sunday for a trip to Carlsbad Caverns and other points of interest. They will return Wednesday. Official closing of the Benjamin school will be May 24.

Supt. Hill stated that two credits had been added to the school this year.

Brown Bombers To Play Doubleheader

The Knox City Brown Bombers will make it a full afternoon Sunday, when they take on both the Crosbyton and Crowell teams on the local diamond.

The Bombers have mended several weak spots in their line-up and are ready to show the visiting teams how to play the game.

Manager Willie Hall says he is expecting tough opposition, but believes the local crew can handle the job. The public is invited to attend.

Mr. and Mrs. G. T. Harberger spent the weekend in Ft. Worth with their daughter, Mrs. John Darnell and family, and with friends in Weatherford.

Knox Farmers Try Weeping Love Grass For Pasturage

Approximately 250 acres of weeping love grass has been planted by the Wichita-Brazos Soil Conservation District co-operators this year. The largest percent of this planting has been for pasture, with the rest planted for seed plots in order to have seed to plant pasture next year and maybe have some for the market.

A great deal of interest has been shown in the grass during the last two months, because of its ability to withstand long droughts and furnish early grazing.

It is being found, also, that the grass will probably be used in connection with sudan grass as temporary pasture. The best prospects to date, seems to be to graze the grass from approximately March 15 until sudan grass is available, then rest it until the sudan is finished in the late summer; then back to the love grass.

The planting and grazing methods are a part of the coordinated Soil Conservation program worked out on the farms with the assistance of the Soil Conservation Service.

The following farmers have planted love grass this year: H. D. Gammill, 3 acres; League Ranch, 6 acres; W. M. Ford, 2 acres; Peter Herring, 5 acres; E. N. Montandon, 7 acres; Large Bros., 1 1/2 acres; Joe Brown, 2 acres; O. A. Green, 4 acres; S. W. Hutchens, 1 acre; Chas. Schumacher, 31 acres; C. A. Farham, 12 acres; and Paul Russell, 183 acres.

Seed planted this year was harvested last year from grass plots by Alvie Ressel and Chas. Schumacher, each having about one acre of weeping love grass.

He Helps, Too

Carroll Graves

Part of the unsung glory of the duties involved in teaching, counselling, and any other job that comes up relative to a graduating class, goes to Carroll Graves, principal of the Knox City high school.

FAMILY REUNION

Those attending a family reunion at the home of Mr. and Mrs. F. M. Harrison, Sunday, were: Mr. and Mrs. Emery Harrison of Pomona, Calif., Mr. and Mrs. Henry Harrison, Kenneth and Charles, of Kamay, Mr. and Mrs. Claude Harrison and Brenda of Lubbock, Mr. and Mrs. Bobby Simpson and Wynelle McGee of Abilene, Mr. and Mrs. Harry Brown and Howard Mayfield of Ft. Worth, Mr. and Mrs. J. C. McGee, and Mr. and Mrs. Elmer Harrison of Knox City.

Wynelle Cluck, C. J. Howeth, Married 9th

Miss Wynelle Cluck, daughter of Mr. and Mrs. E. T. Cluck of Munday, and Mr. C. J. Howeth, son of Mr. and Mrs. C. N. Howeth, also of Munday, were united in marriage on Thursday evening, May 9, at seven o'clock. The marriage was performed by Rev. W. H. Albertson, pastor of the First Baptist Church of Munday, at the parsonage.

The bride wore a navy blue street-length dress trimmed in white baby Irish lace and black accessories. Her corsage was of white carnations. For something borrowed, she wore three-strand pearls belonging to her sister, Mrs. Clyde Yost. For something old, she carried a lace handkerchief.

Attendants at the wedding were J. L. Blackard, friend of the groom, and Miss Rosemary Hertel, close friend of the bride. Also attending the wedding were Mr. and Mrs. Clifford Cluck, and Shirley Ann Yo-st.

Mrs. Howeth is well-known in this section, having lived in the Munday area for many years. She attended the Sunset school, graduating in 1944.

Mr. Howeth is also well-known and liked by everyone in this section. He served as a Staff Sergeant in the Army for two years and 11 months, having spent six months in the European theater. He received his discharge on Feb. 5, 1946.

Immediately after the wedding, a reception was held in the home of the bride's parents, Mr. and Mrs. E. T. Cluck.

The serving room was beautifully decorated with cut flowers. The lace-covered table was centered with a beautiful three-tiered wedding cake, topped with small statues of a bride and groom. The bride and groom cut the cake, and Miss Rosemary Hertel served. Mrs. Joe Voss presided at the punch bowl.

The young couple left immediately after the reception on a short honeymoon trip to Lamesa. They plan to make their home near Munday.

Mr. and Mrs. W. B. Thompson and children of Hale Center spent Mother's Day here with her mother, Mrs. Ida Herring.

Mayor Roy Baker Asks Support In Food Collection

In co-operation with the local food collection now under way, Mayor Roy Baker has issued the following Proclamation:

PROCLAMATION
WHEREAS, the President of the United States has warned that "more people face starvation and even actual death from want of food today than in any war year, and perhaps more than in all the war years combined," and

WHEREAS, President Truman has also warned that "only through super-human efforts can mass starvation be prevented" in many areas of the world which experienced the shortest crops in fifty years because of extreme droughts in 1945, and the disruption of war, and

WHEREAS, the President has expressed his faith that "the conscience of the American people will not permit them to withhold or stint their cooperation while their fellow-men in other lands suffer and die" and

WHEREAS, the American people have food to share because this country enjoyed a near-record production of food in 1945, and a record crop of wheat, and

WHEREAS, more than 500,000,000 men, women and children in Europe and Asia are now in dire need of food, and

WHEREAS, disease and unrest caused by food shortages threaten the health and peace of the entire world, and

WHEREAS, the EMERGENCY FOOD COLLECTION gives all Americans an opportunity to help prevent famine overseas,

NOW, THEREFORE, I, Roy A. Baker, Mayor of Knox City call upon all citizens of the community, and all religious, educational, patriotic, civic, fraternal, business and labor organizations to cooperate in the collection of canned food and cash contributions for the purchase of food to be shipped overseas through UNRRA free distribution to starved people.

IN WITNESS WHEREOF, have hereunto set my hand and caused the seal of said city to be affixed on this 14th day of May, 1946.

(Seal) Roy A. Baker, Mayor

Material shortages

The preliminary chores of getting our plants back into shape for full production are finished. But disturbances in other industries and resulting material shortages may affect our plans. Light gauge steel sheets, brass and copper, fractional horse power motors, and many other items are all very short. The coal situation may also prove serious—we hope not.

Refilling the well

Both our dealers and our branches have run dry on parts and new machines. So the biggest chore is to get their working stocks back to normal. It will take time to fill the pipeline to dealers—just as it takes time for you to refill a well or cistern after it has run dry.

Stock and display rooms of our dealers represent not one, but ten thousand reservoirs which must be refilled. The most heroic pro-

duction efforts will mean that your local dealer can expect only a small number of parts and machines at a time. Since we must play fair with all our customers, there will be a sprinkle of parts and machines all over the country—not a downpour in any one section.

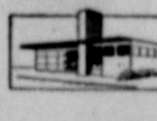

You will be glad to know that all repair parts production schedules are far beyond normal.

No hoarding

You may be sure that every machine will be shipped to dealers as soon as completed. We do not and will not hold machines off the market.

At the start of the strike we had on hand at all our factories and branches just 837 tractors of all kinds—less than two days' production—and 405 of these were not completed. Many of those on hand had one or more important parts missing—principally radiator cores. Most of the rest represented the normal daily "float" between the end of the assembly line and the shipping platform. Naturally no tractors were made during the strike.

What dealers may have for you

We can report to you that our current production on TRACTORS is good and we are shipping at a normal rate. Even so, there will not be enough to go around. The situation on FLOWS

increase production in a hurry. For years we have been producing "QUALITY IS THE BASIS OF OUR BUSINESS" Today we say it—and mean it as much as ever.

We know you need a new machine—and need it now. But we believe it will be worth the wait just a little while longer. You cannot get all you need immediately. By waiting, you can be sure your new equipment will have the quality so associated with INTERNATIONAL HARVESTER for so many years.

The Greyhounds this year won the bi-district championship, which is the highest a six-man team can go.

The season's games and results are as follows:

Knox City	Score
13—Paint Creek	12
40—Benjamin	0
68—Vera	0
25—Megargel	0
20—Dickens	30
68—Benjamin	12
48—Vera	0
45—O'Brien	6
20—Megargel	6
52—Paint Creek	6
25—South Lockett	23

The only game lost was to Dickens, a practice game with an out-of-district team.

The team consisted of Richard Buckley, Hardy Day, Donald Caussey, Bobby Lynn Bradberry, Monte Whitten, Charles Coates, Henry L. White, Ken Clonts, Sam Emory Clonts, Jack Teaff, Bobby Joe Hackfield, Nile Byers, and William Roy Baker.

Those earning letters were Donald Caussey, Richard Buckley, Monte Whitten, Bobby Joe Hackfield, Henry L. White, Sam Clonts, Jack Teaff and Ken Clonts.

We wish to thank one without whose efforts we could not have reached the goal we attained. For the honor we gained for good old KCHS, our home town, and us as a team, we thank you, Coach Holcomb.

To you Greyhounds who will be wearing the "Red and Blue" for KCHS on the field in the coming years, we wish to leave with you all the knowledge of the game, the interest, the joy, the hard knocks and bruises, and our highest hopes for your future success.

A KNEE-CLIMBER, YET!

"You'll be a knee-climber, yet," Dr. W. A. Criswell tells chubby ten-month-old Jack Blake of Dodson, Texas, now undergoing club foot correction at the Texas Scottish Rite Hospital for Crippled Children in Dallas. Dr. Criswell, successor to Dr. Geo. W. Truett as pastor of the First Baptist Church of Dallas, will be principal speaker at the hospital's ninth annual memorial services, May 26. The ceremony honors the men and women of Texas who have bequeathed legacies to carry on the humane work of the hospital. The services will be broadcast at 3:30 p. m., over radio station KGKO.

New Insecticide Developed At Waco For Cotton Pests

A new insecticide has been discovered by the United States Bureau of Entomology in Waco, according to R. O. Dunkle, Knox county agent.

The new insecticide is known as benzene hexachloride, which will probably out-shine DDT in many respects in controlling cotton insects. The experimental tests at Waco prove that it kills the boll weevil better and more quickly than the old stand-by, calcium arsenate. It also kills more cotton leaf worms, flea hoppers, and cotton lice than many other insecticides. However, benzene hexachloride is not as effective against the boll worm as is DDT.

As concerns the cotton grower, this new insecticide is still in the experimental stage and only small amounts are being manufactured in the U. S. at the present time—only enough is available to supply the entomologist for use in large scale experimental tests this year.

If satisfactory tests are obtained at the Waco laboratory, this year, the new insecticide will perhaps be available to cotton growers in 1947.

Encampment Dates Set For Camp Fires

The highlight of the Camp Fire program in the West Texas Area Council will be two sessions of Camp Wetexaca, to be held at the Lueders Baptist Encampment.

The first session opens May 24th and lasts until May 28, and is for all Blue Birds and Camp Fire girls who are still in grammar school. The second camp, which is for the older Camp Fire girls, will be held June 9-15.

Registrations for the first camp will begin on Friday, May 24, at 3 p. m., with the opening assembly for 4 o'clock. The activities will be launched with a circus that is to be presented immediately following supper.

Fee for the camp will be \$3.00 for those who leave on Sunday night, and \$8.50 for the ones who stay until the camp closes on Tuesday. Mrs. Fred Stockdale, executive of the organization, and who will be director of the camp, has said that the registration fee must be sent to the Camp Fire office, Box 902 Stamford by May 18th. The remainder is to be paid upon arrival at camp.

Motor Transports Help County Funds

The Texas motor transportation industry last year contributed heavily toward the education of Knox County school children and maintenance of the county's highway system, it was revealed today in an analysis of the industry's special tax payments released by Texas Motor Transport Association.

The 2,571 scholastics in Knox County benefitted to the extent of \$9,255—\$3.60 for the education of every school child in the county, or in excess of 13 percent of the total education bill.

Trucks and buses paid \$55,709 in special taxes that went toward construction and maintenance of highways in Knox County.

Knox Farmers Try New Combine Grain

Forty-eight 4-H Club boys of Knox County and three farmers in different communities are planting for the first time three new varieties of combine grain sorghums that have been grown at the Chillicothe Experiment Station for the past three years.

The three new varieties are Midland Milo, which was developed by the Hays, Kansas, experiment station, and two double dwarf Sooner Milos, there being both yellow and white strains. Both are pure milos that have large seeds of good color and quality, but like other milos, they are susceptible to chinch bug and charcoal rot. In spite of this, the new varieties will find a welcome in Knox County where insect and disease damage are not encountered.

The Midland type is early in maturing and stands up better than other varieties. Experiments prove that it should be planted early, due to a high juice content that may cause or even delay harvesting until after frost.

1946 Graduates Plan for College, Sketches Reveal

LORA BETH BRADBERRY

I was born on December 29, 1928, in Knox City. In our neighborhood there wasn't any one but little boys to play with, so I grew up with my two brothers and the neighbor's boys. When it came to baseball, boxing, soap box races, and such, I was always on hand.

I started to school at the age of six and one-half years. I was so afraid of the teachers and the little crying girls that I stayed right at the heels of my older brother, which made

him furious. I can't remember much about my first year in grade school, except that I was timid and always glad when 2:15 came to go home.

I graduated from grammar school in 1942, and entered high school the same year as a Freshman. I know now that I was smarter than I am now, or at least I thought so then. But everyone is smart their Freshman year.

I liked all of the sports that took place on the school ground and elsewhere too. They hardly had a football game without

my yelling my lungs out for our team. I always played on the baseball team, during the baseball season. This last year I played on the volleyball team, and, incidentally, I surely do like this game. I guess my favorite sport is tennis, but I am a sorry player.

I plan to enter Texas Tech this fall. I would like to major in biology or art. So, if you want me, you can find me, I hope, in Tech.

Lora Beth Bradberry

SAM EMORY CLONTS

I was born in Knox City on Mar. 8, 1929. My first six years are something that I do not remember much about. I do remember starting to school at the age of six and being scared to death. I guess I was about like all other boys in grammar school, you know, cops and robbers, and just plain guns.

I remember that I was also scared when I became a Freshman, and I think that I was just as silly as any Freshman. My Sophomore year, I came out for football, with all my 118 pounds. Our team didn't do so well that year, but the next year we won second place in the district. I had a lot of fun putting on our Junior play and also our Senior play, although my part in the Senior play was hard to learn.

Last year the Scouts went to Leuders on a trip, and it seems that everybody thought I pushed the city truck down that hill, since I was the only one that saw it, but I cleared myself. That is one thing in my life that I shall never forget.

Speaking of things that I shall not forget, I don't believe that I shall ever forget the good times I had playing football this last year, or those last three minutes in that South Lockett game. Another thing, is our orchestra. If you ever want to have some fun, just get a bunch together and form an orchestra.

Sam E. Clonts

BILLIE O FAUBION

Billie O was born December 14, 1928, in the Grace community. She finished grade school at the age of 13.

Billie O has been very active in high school circles, enjoying all forms of sports, especially football. She helped the pep squad at all games during the past season, making up in yelling what she lacks in her diminutive size.

She likes skating, hunting, fishing, hikes, hayrides, picnics and taking pictures.

DOROTHA FAYE GAGE

Dorothy Faye Gage was born in Eastland County, near Carbon, Texas, October 29, 1928. She lived there until she was three years old.

She moved to Rochester and began her school days in a country school. She went there a half year, then moved to Knox City, and has gone to school here since.

Her favorite sport is football, and bowling comes next. As far as hobbies are concerned, she has had several, but they don't last long. She has lived on a farm part of her life. She thinks that town life is much better. She does not have a definite plan for the future, but she will probably go to college.

Now she can look back over her school days and they are all pleasant memories. Even though she has enjoyed them, she is glad school is out.

MARIE ROBIN

I was born on June 4, 1929, at Blackwell, Texas. At the age of six, I started to school in Blackwell grammar school. In September, 1941, I moved to Knox City with my family, and have lived and attended school here since.

After my graduation, I am planning to enter John Tarleton Junior College.

Marie Robin

OLENE WALKER

I was born in 1929, the sixth day of December. At the age of four and one-half years, I entered school at Brock and continued to go there until I began the seventh grade under Mrs. E. R. Carpenter at Knox City.

I returned to Brock and finished my Freshman year. I reentered Knox City high school and completed my Sophomore and Junior years. In the summer of 1945, I attended Abilene Christian Academy, returned to Knox City, and am graduating at the age of sixteen.

WILLIE MARIE COGBURN

Willie Marie Cogburn was born April 15, 1929, at McLean, Texas, but she has lived at Knox City most of her life. She has almost always lived on a farm, and likes farm life very well.

When Willie Marie moved to Knox City, she started to school in the third grade. She has gone to school here since then, except for part of the fifth, when she went to Sunset. She didn't like school much until about the sixth grade.

Willie Marie has always been small for her age, and she does not like for someone to tell her that her younger sister is larger than she is. One of her ambitions is to grow tall.

She entered high school in 1942, and has had lots of fun. She likes volleyball and baseball, but likes volleyball better. She likes almost all of her classes, and has enjoyed most of them.

Willie plans to go to college next year. She will finish her Freshman year before she begins her major, because she is undecided now. She thinks she will marry somebody, but not for a long time.

She doesn't have a hobby, but is always starting one. They don't last very long. She has always liked to read.

Willie has lots of high school memories that she will treasure, but just the same, she is glad to be out.

HENRY L. WHITE

Henry Lowrey White was born November 20, 1928 at Knox City. His childhood was no different from that of other normal boys who live through the stages of "robber and police," "cowboys" and different heroes of the imagination and movies.

At the age of six years he started to school at the Knox City grammar school. In 1943 he became a Freshman and a member of the high school band. During his four years of high school he was interested in football, basketball and baseball. He played on the main teams in his Junior and Senior years.

He will receive his diploma as a graduate of the Knox City high school May 16, 1946.

His plans are to enter Texas Tech in September and to major in physical education.

Contributed

MONTE WHITTEN

First, let me say that I contribute my success in my efforts to the influence of a Christian home, and to the instruction of a much-loved and like-minded faculty.

I was born in Knox City, Aug. 7, 1929. I started to school in the first grade at the age of six years and went to school in Knox City through the third

grade. In November of my 4th year in school, my parents moved to Hamlin, Texas. We returned to Knox City in May, after I finished my 4th grade work at Hamlin, and have been here since that time.

After grammar school, my first year in high school will always be in my memory because of the fun I had thinking I was a grown-up. My sophomore year, I came out for football. I weighed 117 pounds when I started, and at the end of the season I weighed 133.

It was a very happy year for me. Even though I didn't letter, I played nearly all I wanted that year. We were beaten all but one game that year, but we really didn't expect to do much better, because we only had one experienced man.

The next year, I again played football, and managed to make a letter. We won second place in the district that year. Those lettering that year were Henry L. White, Sam Clonts, Joe Murry Clonts, Lee Ward, Marshall Wooley, Bobby Joe Hackfield, and myself.

This year we won bi-district, which is the top of the ladder for six-man teams. The town and school were proud of us, (and don't tell anyone) but we were proud of ourselves.

I will graduate May 16, 1946, just 20 years after my father finished from the same school.

I am just beginning to realize the fun I have had in school, but regardless of that, there is a place in life for me if I can find it. I plan to enter Texas University to study medicine.

Ever since I was a freshman, it has been my ambition to become a doctor, and though I might make a success at something else, I don't feel that I could be satisfied.

There have been three big events in my school years. First was graduating from grammar school. The next was my first day out for football, and the last was the moment the starting whistle blew for the district game at Haskell.

Of course, I won't forget football banquets, the Senior banquets, the pep games, but the highlights are ones I have mentioned.

I wish to say again, I have really enjoyed good old KCHS, and "rip" to leave it.

"Genie with the light brown whiskers? -PHOOEY!"

Remember the story of Aladdin, his lamp, and the corny genie? That goon doesn't even belong in the same league with me. Why I could give him cards and spades and still come up with more miracles per kilowatt hour than he could perform in a thousand and one nights.

My trouble is that you folks take me for granted. When I heat your electric iron, or chill your refrigerator, or clean your rugs, you expect it of me. But let that dopey genie do anything and right away somebody writes a book!

But don't think I'm going to sulk. I'm used to being taken for granted. I'll go right on being at your service, day and night. But I just had to get this gripe off my chest. Gosh, all that fuss over some old genie!

HEALTH LETTER

With a total of 5,905 cases of mumps being reported in Texas in the first 17 weeks of this year, Dr. Geo. W. Cox, State Health Officer, has issued a statement stressing the fact that the contagion factor exists before symptoms appear, and urging strict isolation of all patients, in order to control the spread of this disease.

Mumps may be transmitted by direct contact with an infected person and with articles freshly soiled by the secretions or discharges from the mouth or nose of persons having the disease. It takes from 12 to 26 days for mumps to manifest itself after the infection takes place. The disease can be easily transmitted, but one attack usually establishes immunity, although second attacks sometimes occur.

The most easily recognizable characteristic symptom of the disease is a painful swelling of the salivary glands. Some times there is an involvement of other portions of the body causing disturbances in the digestive, nervous, circulatory and genito-urinary systems. The disease is usually accompanied by a temperature rise which more often than not is mild.

"The patient suffering with this disease should be isolated from other members of the family immediately upon the suspicion that mumps exists, and the family doctor should be called promptly," Dr. Cox advises. "In the meantime, complete rest in bed is indicated. The doctor's orders ought to be followed strictly. Violating his instructions can lead to serious injury, which may permanently affect the individual's health."

LOCAL SHOWERS DO FARM LANDS GOOD

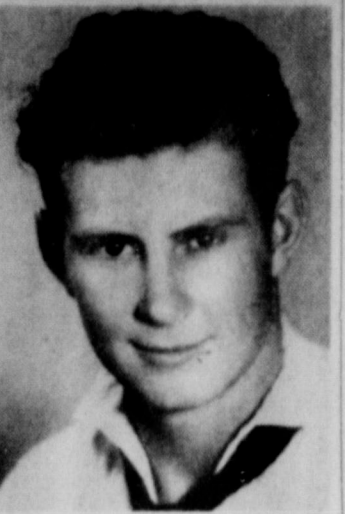

Additional moisture this week amounting to almost an inch, will greatly benefit freshly seeded farm land, and assure early seeding where crops have not been planted.

Farmers are busy planting, or preparing to combat the usual crop of weeds that come with the crops.

Range lands are taking on a green outlook and ranchmen are happy at the prospects of good grass.

rode, were present for the fi-
nal meeting Saturday.

As a fitting close for the
meeting, the social committee,
Mrs. T. E. Holcomb, Mrs. Olvis
Hamm, and Miss Ruth Rice, in-
vited the guests to the pretty
dining room where Mrs. Brant-
on presided at the punch bowl.
Everyone enjoyed punch, open-

Ford Honored in Auto Golden Jubilee

Contrasts between 1896-1916 are shown in this photograph of the first and most recent Ford cars.

Dearborn, Mich.—Henry Ford,
working in his machine shop at 58
Bagley avenue, Detroit, in 1893,
dreamed of liberating the world
from a slow, horse-drawn kind of
civilization.

Three years later, on June 4, 1896,
he rolled his first gasoline driven
buggy into the street, and the cele-
bration in Detroit this year of the
automotive industry's Golden Jubilee
is a tribute to his vision.

Today, more than 31,000,000 Ford
cars and trucks have been built and
Ford Motor Company plants span
the earth.

The present Ford Motor Company
was formed in 1903, and success was
immediate. At the end of four
months a dividend was paid to the
original 12 stockholders.

In 1905, the company moved from
the two-story Mack avenue plant to
a new four-story building at Piquette
and Beaubien, Detroit. Production
soared as models A, B, C, F, K, S
and R were introduced in quick
succession, and five months later
the first of the famous model T's
was introduced.

In December 1909, the company
moved again, this time to its new
61-acre Highland Park plant. Here
the first endless chain conveyor was
installed. It was the birth of low-
cost production and the beginning
of the liberation of labor. In 1914
Henry Ford startled the world by
announcing Ford employees would
work only eight hours a day and
receive a minimum daily wage of \$5.

Again the Ford Motor Company
needed breathing space, so in 1915
a thousand acres of land were ac-
quired on the Rouge river in Dear-
born.

Henry Ford had purchased the
stock held by Alex Malcolmsen in
1906 and had become president and
controlling owner, and in 1919 the
Ford family acquired the interest of
the minority stockholders for \$75-
000,000 and became sole owners.

Eagle boats were built in the
Rouge plant during World War I,
and after the war many activities
were transferred to the new plant
from Highland Park. On Oct. 31,
1925, an all-time production record
was set with 10,000 Model T cars
built in a single day.

In December 1927, the new model
A was introduced and the next year
Henry Ford announced a minimum
\$7-a-day wage.

In 1922 the Ford Motor Company
paid \$8,000,000 to Henry M. Leland
and his son, Wilfred, for the assets
of the Lincoln Motor Car Co. It was
not until 16 years later that the
Mercury was introduced.

The miracle of Ford production
continued to pour automobiles from
assembly lines across the nation, and
the need for more space still plagues
the company. Today more than
\$225,000,000 has been earmarked for
expansion.

On May 26, 1943, Edsel Ford, pres-
ident of the company, died suddenly
and Henry Ford, then past 80, again
took over the presidency. Soon after
this, Henry Ford II, Edsel's eldest
son, was released from the U. S.
Navy to assume the duties that had
been his father's for so many years.

Recently, his brother Benson, after
three years in the armed forces, has
returned to take up duties in the
company and help his brother carry
on the great Ford tradition in the
automobile industry.
