\$10,000.00 Available for Conservation

Farmers that wish to carry out additional soil conservation practices in 1946 will be interested to know that additional funds for payment of practices have been received by the Knox County ACA, according to a statement made by Doyle G. Thomas, Secretary.

The amount of money received is \$10,000.00 and it is believed that this amount will just about keep the terracing, tanking, mesquite elimination and deep plowing practices going until 1947.

"Farmers that intend to carry out one of the above practices are reminded that an approval must be issued from the ACA office before the practice is started if payment is made," Mr. Thomas stated.

Six 4-H Club Boys Enter State And National Contests

Six Knox County 4-H Club boys are preparing records of their past five years club work for State and National Contests. The awards for the winners in these different contests include premiums, which range from free trips to the International Livestock Show in Chicago to a \$100.00 scholarship awards to almost any college in Texas, according to County Agent R. O. Dunkle and Assistant County Agent R. J. Penick.

The boys entering these contests are: Donald Nix of the Sunset community, who has had six years 4-H Club work. Donald shows a profit in his cotton growing demonstration of \$1,185.00. He has a 4-H Club calf this year, and will be one of the strong exhibitors at the county fair next February.

Merle Tackett, of the Sunset community, has completed five years 4-H Club work, and has introduced some of the new varieties such as Early Hegar, Chinch Bug Resistant Milo and Bonita in his community. He is also interested in the raising of sheep, and he is able to show a very nice profit of \$272 from his 4-H Club activity.

Dorman Followwill, of Sunset, is also a 4-H Club member introducing new varieties of grain sorghums, and has sold to neighboring farmers and other growers, \$1,124.00 worth of pure seed. Dorman was also one of the three 4-H Club members in Knox County who represented his club at the recent 4-H Club Round-Up held at College Station, August 28, 29 and 30.

Randell Walling, of Sunset, has been a 4-H Club member for six years, and has grown cotton five years on a five-acre block each year, and shows a profit of \$1,000.00. Randall is feeding a calf this year, and from present indications will be a strong competitor for county and district shows next February.

Carroll Fred Glover of Benjamin, who has been a consistent 4-H Club calf feeder for five years, and from the sale of these five calves has a nice profit on his demonstrations. Carroll has also been the winner of reserve championship in the county with his 4-H club calves three years out of the five.

Fred Lewis Crenshaw, of Benjamin, has been a very successful calf feeder and exhibitor in the county and district shows, and shows a nice profit of \$300 from his three calves in the past three years.

Mr. and Mrs. Fred W. Dallas, Jr., and son Fred W. III, will return to their home in Houston Sunday after a three-weeks visit with Mrs. Dallas' parents, Dr. and Mrs. T. S. Edwards.

Guy Robinson was a business visitor in Childress Tuesday.

Bill Evans of Andrews spent the week-end with his mother, Mrs. W. F. Evans.

Mrs. Olvis Hamm and Miss Magdalene Lowery were shopping in Stamford Monday.

Governor-nominee Beauford Jester gets set to attend the State Fair of Texas by receiving an opening day key from William (Bill) Thompson of the Dallas Junior Chamber of Commerce. State Fair officials expect 125,000 to flood Fair Park on opening day, October 5, when the first post-war exposition is opened.

Catholics To Build Church In Knox City

For many months local people of the Catholic faith and Church authorities have been endeavoring to secure a suitable location on which to erect a church building. Recently seven lots located in the eastern part of Knox City, on the north side of Fourth Street, were selected and negotiations were started to secure the property.

It was found that the lots had been more or less abandoned by the owners and that several hundred dollars in taxes had accumulated over a period of years.

The owners were located and agreed to deed the lots to the Catholics at no other consideration than the church agreeing to pay the back taxes in full.

Just as soon as the title work has been completed and material is available, work on the building will begin.

Father Rubi of Wichita Falls was here last Saturday on one of his regular visits and expressed the opinion "that we expect to build a nice church edifice—one of which the people of Knox City will be proud."

FOUR SQUARE REVIVAL TO CLOSE SUNDAY

Rev. Oma Jones, pastor of the Foursquare Church, announces that the revival meeting at the church is continuing this week with Evangelist Lovetta Conlee, whose dynamic preaching is drawing large crowds.

Friday night is divine healing night and prayers will be offered for the sick. Saturday night the Juniors will have charge of the musical program. The message will be "The Second Coming of Jesus."

Sunday morning services will be Sunday School at 10 a. m. and morning worship at 11:00. Sunday evening at 7:45 will be the last service of the revival and a large attendance is expected. The message for the evening will be "The King's Invitation."

Miss Valerie Atterbury of Dallas arrived in Knox City Monday for a visit with her parents, Mr. and Mrs. J. H. Atterbury, Sr.

Word was received this week by Roy Reynolds that his son, Seaman 1st Class Harvey Lee Reynolds, has been transferred to Yerba Buena, a small island in the Pacific near San Francisco.

Mr. and Mrs. Bill Clarke, Mrs. Chad Wilson and Mrs. Jack Spikes spent Tuesday in Abilene.

Miss Ruth Rice, who is teaching in the Amarillo schools, was a week-end visitor in Knox City with her family and friends.

Mrs. Douglas Carlisle of Abilene is in Knox City to be with her mother, Mrs. J. W. King, who is a patient in the Knox County Hospital.

C. H. Moss was a business visitor in Amarillo Monday and Tuesday.

School Lunch Contracts Approved For September

County School Supt. Merick McGaughey, who is sponsor of the school lunch program for the common schools of the county, has announced that the contracts for the lunch program have been approved retroactive to Sept. 2, so the government supplement will be drawn on all meals served in September.

The lunch program is under the direction of the State Dept. of Education this year, although the federal government still pays 7 cents per lunch to supplement what is charged by the schools. Schools charge 20 cents per lunch, making a total of 27 cents. Since they buy in quantity and serve in quantity, they serve a very good lunch for 27 cents.

Common schools of the county who have lunch programs are Vera, Benjamin, Gilliland, Truscott and Sunset. The five schools are feeding a total of more than 800 pupils. Lunch programs of the three independent schools, Knox City, Munday and Goree, are sponsored separately.

Rhineland and Brock are the only schools in the county who do not have lunch programs.

Aaron Edgar Named Head of County Good Roads Group

Aaron Edgar, news editor of the Munday Times and prominent Knox County good roads advocate, has been chosen as Chairman of the Knox County Good Roads Amendment Campaign Committee. It was announced today by Charles E. Simons, executive vice president of the Texas Good Roads Association.

Appearing on the ballot in the November 5th General Election as Amendment Number three, the Good Roads Constitutional Amendment guarantees the availability of motor vehicle registration fees and gasoline taxes exclusively for road purposes, with the exception of one-fourth of the gas tax which will continue to be allocated to the Available Free School Fund.

"His deep interest in better and more improved highways and farm-to-market roads was the primary factor in his selection to head the Knox County campaign," Simons said.

Simons also pointed out that the Texas Safety Association, Texas Farm Bureau Federation, State Board of Education and thirty other state organizations have adopted resolutions strongly endorsing the amendment.

"With so many outstanding organizations backing it," Simons said, "we feel sure that every citizen in Knox County should be fully informed of the measure and the benefits they will derive from it. For this reason, we have selected Edgar to head the Knox County committee and direct a vigorous educational campaign to point out the merits of this amendment."

Chief purpose of this proposal, it was emphasized by the Good Roads Association executive vice president, is to assure the ultimate construction of rural mail and school bus routes, and all-weather farm to market roads. Also, it will insure improvement, maintenance and policing of all roads and urban trafficways.

Ratings Offered Men From Other Services By Army

Former men of the Navy, Marine Corps and Coast Guard may now enlist in the Army and receive a grade higher than private, it was announced today by Sgt. James Hendrick, of the Childress Recruiting Station.

Newly revised enlistment regulations are not limited to former AUS men, but former members of the other services who were honorably discharged on or after May 12, 1945, who served a minimum of 6 months in one of the desired specialties, and who enlist in the Army for three years will be enlisted in grades or rates appropriate to their former training and experience.

According to Sgt. Hendrick, the Army urgently needs men who are qualified in the various specialties and every effort will be made to obtain enlistment of former members of other services in as high a grade as is authorized.

Location of the Childress Recruiting Station is the third floor of the Court House and is open from 8 a. m. until 5 p. m. daily except Saturday when it closes at noon.

Velma Paul, E. C. McNellie Rites Held

Velma Marie Paul, daughter of Mr. and Mrs. Bill Paul of Knox City, and Eugene C. McNellie, son of Mr. and Mrs. W. C. McNellie, were married September 19 at the First Baptist Church.

Following the ceremony a wedding dinner was served at the home of the bridegroom, with only close relatives attending. A song, "To Each His Own," was sung by Louise McNellie.

Knox City and O'Brien To Play Friday Night On Newly-Lighted Field

Knox City's newly-lighted football field will be the scene Friday evening at 7:30 of what promises to be one of the best games of the season, when the Knox City Greyhounds and the O'Brien Bulldogs meet in their first conference game.

The Greyhounds have two victories under their belts, having defeated Mattson 18 to 6 and Sagerton 58 to 0. The Bulldogs have played only one game this season, when they defeated a much heavier Paint Creek team at Haskell, 20 to 12.

Practically all local football fans have agreed that this will probably be one of the hardest-fought games of the season, because of the intense rivalry existing between the two teams.

Coach M. J. Schofield of Knox City thinks he can work up a good line-up for the game despite the fact that some of his players have been suffering from flu and colds. His probable starters will be: Center, Richard Buckley; Right End, Bob Hackfield; Backs, Ken Clonts, Rudolph Hackfield and Jack Teaff. For subs he will have Bobby Bradberry, Wm. Roy Baker, Charles Coates, Donny Darr, Hardy Day, Bob Edwards, O. L. Knight, Jimmy Reynolds, Roland Willis and Marshall Woolley.

Letter Received From Czechoslovakia By Joe Lynn Cash

Last year when the Knox City Study Club shipped bundles to the war-torn countries of Europe, several children placed their names and addresses in the bundles in hopes of hearing from some children in the foreign countries.

This week Joe Lynn Cash, son of Mr. and Mrs. Otis Cash, received a letter from Marie Pliskova, of Masavsky, Czechoslovakia.

The letter, which was written in good English and in a legible hand, is reprinted in its entirety.

Nasavryk, 3rd Aug., 1946
Dear Friend,
We received with the greatest pleasure your parcels. They helped us very much indeed. We never forget your kindness and care with which you dispatched the parcels in which we found so many useful things.

I have been living in a village, the name of which is Nasavryk, situated in the north-eastern part of Bohemia, about 130 kilometers from our capital town Praha (Prague). It has only 200 inhabitants. We have finished now our harvest which was very good. So it is in America, especially in California, as I read in our newspaper. It seems we are going to have better time. You may be happy that you didn't make acquaintance of the German regime. We passed through terrible times those 6 years. But now it's over.

I thank you once more for your kindness and wish you good luck and best wishes to you and all your nation.
Yours sincerely,
Marie Pliskova,
OCHEZ 52

Home Ec Chat

The Home Economics I girls have finished making their pot-holders and we have some real attractive ones. The three best holders will be put on exhibition.

We are learning to use our first patterns so now we are starting our cook aprons and of course we think they will be very nice.

Jane Draper was absent Monday and we are glad to have her back with us. We regret that Becky Hackfield is sick and hope she and Bobby Turner will be back very soon.

We are very busy gathering

material for our rummage sale. Although we haven't gathered much rummage, we promise you a good sale.

Hurrah! Everyone has learned to use a thimble.

In Home Ec II the girls have been planning our wardrobes. We were given an imaginary \$100 to spend on clothes. We have also been studying labels on clothing. Last Wednesday we went to Cobb's and studied clothing labels. We wish to thank Mr. Wall for letting us come and Mrs. Dodd for instructing us and explaining the meaning of labels. We were very grateful to find some of

From where I sit... by Joe Marsh

Going Fishing? Here's How!

To hear Willie Wells and Basil Strube arguing about trout fishing, you'd think it was more important than the atom bomb.

Willie favors dry flies, Basil pooh-poos anything but wet flies. Willie swears by a Royal Coachman; Basil won't hear of anything but a Silver Doctor. And by the time it comes to steel rods versus bamboo rods... #!X&***!

But on Saturday, each got back from Seward's creek with a catch that couldn't have differed by more than several ounces!

Each had used his favorite kind of fly, his favorite rod and his favorite place to cast. So over a friendly glass of beer, they allowed as how maybe they were both right... which is how so many arguments should end.

From where I sit, if we all respected one another's different opinions—whether about trout flies, or drinking beer, or voting, life would be a whole lot pleasanter.

Joe Marsh

Copyright, 1946, United States Brewers Foundation

the most outstanding clothes with nationally advertised labels in the store. As a result of our trip the class is collecting all sorts of labels.

We are making individual type study and will build our wardrobe around it. All of our spending will be based on the family budget.

We certainly must have some handsome boys. At least, they seem to want to look at themselves.

Sophomore News

The Sophomores were very busy the first day of the week, because of a certain exam in World History which came up on Tuesday. We were extra nice to Mrs. Cape, thinking it would not be so hard. It did help a little.

We are all looking forward to the game with O'Brien Friday night. After the game with Sagerton, we think we have a small chance of winning.

The class had better start looking after our girls. Some, I hear, are even getting interested in cowboys and rodeos. We wonder who they are!

Freshman News

Now that the Freshman initiation is over we are about to get settled for work and are looking forward to a pleasant, profitable year in high school. Mrs. Harper Knight has been elected our sponsor. Class officers are President, Charles Lankford; vice president, Jackie Lankford; secretary and treasurer, Loerne Weatherford. There are 21 in the class and we hope to accomplish much this year, which will make us bigger and better Freshmen for Knox City High School.

Locals

Torpedoman 1st Class Elvin Applegate is visiting the Schofields this week. He is stationed in New London, Connecticut. When he leaves here, he will go to the separation center at El Paso. He has been in the Navy for the past 20 years.

The K. C. Greyhounds meet the O'Brien Bulldogs here Friday night for what is predicted to be the toughest game of the season.

This may be hard on some of the kid's studies, but we hear we are soon to have a skating rink in Knox City, permanently! Surprised? We were.

The Sophomores have a secret. Too bad, you'll have to wait till next week to find out what it is.

Sports

After a fine start of the season with a score of 18-6 over Mattson September 13, the Knox City Greyhounds clipped the Sagerton Eagles' wings Friday with a score of 58-0.

The conditions were a little better than the last game they played, although it was still a little muddy and showered at intervals in the game. But in spite of this the Greyhounds played a magnificent game.

The starting line-up was changed a bit this time. Ken Clonts started at quarterback, Jack Teaff at halfback and in the tailback slot was Bobby Hackfield. In place of Donald Caussey at right end was Rudolph Hackfield. At regular positions were Richard Buckley, center, and Marshall Wooley, left end.

After making two or three attempts to drive through the line Bobby Hackfield took off for a touchdown on an end sweep. After that it seemed as if K. C. had it in the bag.

Sagerton tried to break the Greyhound line but ran into a brick wall when they did.

At the half the Eagles were trailing the Greyhounds 40-0. In the last half the Greyhounds showed no let up. Hackfield and Teaff did most of the running and with some beautiful blocking it wasn't hard for them to run up a pretty nice score. Marshall Wooley caught a beautiful pass for a touchdown. In all the Greyhounds made 9 touchdowns and four extra points.

That makes two games behind the Greyhounds, who are on their way to Regional Championship. But the game we are all looking forward to is the one coming up Friday night

with O'Brien. This is a game nobody wants to miss. Here's hoping the Greyhounds really give those Bulldogs a fight.

Senior News

We ordered our invitations today. They are really pretty and have a greyhound engraved on them.

This class wants to make some money and have been making plans to do so. There are about 25 seniors this year and all of them are really planning a big year's work.

Pep Squad Report

The first pep rally of the season was held in front of the bank Thursday night at 7:00 o'clock. The weather was bad, but a majority of the members and football squad attended and did some fine yelling.

Friday evening, the girls were full of pep and dressed to go to the game at Sagerton. Dressed in their new uniforms they really looked nice. The bus left here at 2:30 and arrived in Sagerton about 25 minutes before the kick-off. The girls did some fine yelling and remained throughout the game even though it started raining in the last half. On the way home everyone was proud and happy over the score run up over Sagerton.

The pep squad is looking forward to the game here Friday with O'Brien. They are practicing on marches and drills this week.

Doghouse

We hear Roxy Leonard has a crush on Bill Lain. It all started when he pumped her home on his bicycle.

Bobby Joe Hackfield and Margaret Jackson were at Munday Wednesday night.

FARM NEWS

(This is the fourteenth of 22 articles that will appear in this newspaper on the need for soil conservation, the amount of soil conservation being carried out, crop insurance, commodity loans, marketing quotas, and other programs of interest to farmers.)

Crop Insurance

Federal crop insurance was revived by Congress in December 1944 after a lapse of about a year. County and community AAA committeemen handled all county administration of the program with the exception

of loss adjustments. Congress authorized insurance beginning with the 1945 crops of cotton, wheat and flax. The 1945 spring wheat crop was insured but not winter wheat, since the legislation was passed after the winter crop was seeded. Also provided were 3-year trial programs which could be conducted for other crops in not more than 20 representative counties for each crop. Experimental programs in 1945 were for corn and tobacco.

Three additional crops may be selected each year on a trial basis. Consideration is being given to adding programs for citrus fruits, potatoes and peanuts in 1946.

The time for gathering actuarial data setting rates and yields and organizing a sales program for 1945 was short. In some of the cotton producing counties, the deadline for cotton insurance applications was in February. Flax and spring wheat closing dates were about 6 weeks later.

Despite this late start, 164,444 applications, covering 199,300 farms, were written on 1945 crops. This does not include the number in counties where applications did not cover the specified minimum to be eligible for crop insurance—50 farms or one-third of the farms in the county, whichever was smaller.

Here is the 1945 sales record for each crop:

Crop:	Insurance Appl.	Farms Covered
Cotton	95,756	113,183
Spring wheat	14,390	23,394
Flax	31,131	38,072
Corn	10,603	12,363
Tobacco	12,564	12,288

Total 164,444 199,300
 Total losses and indemnity payments on these farms are not known as this report is prepared. Corn insurance was available in 15 representative counties; tobacco insurance was offered in 13.

Duties of AAA committees were: (1) to sell the insurance, (2) to determine the seeded acreage to be insured, (4) to collect premiums, and (5) to report losses. Adjusters responsible directly to the Federal Crop Insurance Corporation adjusted losses.

AAA committees set up sales organizations in each state and county, and appointed as sales agents community committeemen and other individuals, banks, elevators, feed and grain stores, and other firms dealing directly with farmers. Agents were paid a commission on sales. AAA county committeemen and county office also sold insurance, for which AAA received the sales commission.

Agents were trained in sales methods at meetings held in advance of the campaigns. Newspapers and radio stations cooperated in publicizing the program.

Actuarial data determining the farm average yield were compiled from the files of county offices. Generally, farm premium rates were uniform for all farms within a county.

Mr. and Mrs. Bobby Simpson of Abilene are here this week to visit Mrs. Simpson's parents, Mr. and Mrs. J. C. McGee, before entering Abilene Christian College Monday.

"Gives You Texas"

Remember what Will Rogers said it takes to make a dramatic critic? "Two seats on the aisle."

And he declared that "college is wonderful because it takes the children away from home just as they reach the arguing stage."

Will remarked of the Dionne quintuplets that "motherhood has been put on a mass production basis."

At Comeron's 100th anniversary celebration, your columnist had the honor of speaking and the pavilion stood on the spot where the immortal James Stephen Hogg and his rival, George Clarke, once spoke. The original stand yielded to the years but the new one is a duplicate.

Interesting signs: In Childress, "We trim the car—not the customer."

In Bowie, a faded sign—perhaps 40 years old—on the wall of a building, "Buggies and Wagons."

The history of Texas is not just the Alamo and "San Jacinto. The story includes circuit riders, pioneer physicians, teachers of one-room schools and early day editors, with their hand presses. Texas was built by heroes in homespun and heroines in sun-bonnet and calico.

It is a story of hard work, and sweat, and calloused hands,

of danger and hardship and prayer. It is the story of people, the kind of people that Lincoln loved—the plain people, like those who "heard the Master gladly"—the great rank and file who are the hope and the strength of our nation.

Southwestern Premiere!
NEW FREEDOM GAS KITCHEN

Air Conditioned Lone Star GAS EXHIBIT BUILDING

State Fair of Texas—Dallas, Oct. 5-20

Make Gas Building Your Fair Headquarters

Whether you visit Lone Star's State Fair of Texas Building to have a drink of ice water, take off your shoes and rest in air conditioned comfort or to see the most spectacular display of gas appliances ever assembled in Southwest, the Lone Star welcome mat will be rolled out to greet you.

It's a magnificent building filled with all of those postwar wonders you've been reading about. Imagine seeing not one but four "New Freedom Gas Kitchens" complete in every detail. These kitchens are just a hint of the scope and magnitude of the building's exhibits.

You'll see 1947 Servel Gas Refrigerator, Newest Ranges, all sorts of Vented Heating equipment and information on how to install and use it, Water Heaters that won't rust out, and you'll see how gas is used in Texas industrial plants and business institutions.

You are cordially invited to make Lone Star Gas Building your headquarters while visiting the Fair!

See Spectacular Displays of Marvelous New Home Appliances and Comforts

- 1947 Servel Gas Refrigerator.
