

## Wildcat Test Will Be Made Near O'Brien

### WILDCAT PLANNED IN HASKELL COUNTY

HASKELL, Aug. 2.—In northwest Haskell County, seven miles west of O'Brien, J. E. Pitts of Tulsa, Okla., assembled a block of 5,000 acres and has turned to the Gilmore Oil Company of Los Angeles, 2,000 acres of the block, with the stipulation that a well be drilled to 4,000 feet in the northeast corner of section 46, G. G. Alford survey.

Contract for the new Haskell County wildcat stipulates that if commercial production is not found at that depth, the wildcat shall be carried to the Ellenberger, lower Ordovician. Drilling must start by Sept. 1.

The block has been shot by a geophysical company and the location is reported in the middle of a closed structure.

The Ohio Oil Company was reported to have purchased 163 acres due south of the location for \$20 an acre. Other purchasers of acreage are Potts & Tull of Norman, Okla., Wirt Franklin of Oklahoma City, and J. J. Perkins of Wichita Falls. Southland Realty Company has purchased royalty on the offset acreage to the east.

This block is 10 miles north of the Indian States Oil Company location, which is being drilled by Taubert & McKee of Fort Worth.

### McFARLANE—GOSSETT RACE IN SPOTLIGHT

DENTON, Aug. 1.—With the nomination of the Governor in the first primary, the race for Congress in the thirteenth district between W. D. McFarlane of Graham, incumbent, and Ed Gossett, Wichita Falls attorney, headlines the other district and state contests through this section in the run-off election August 27.

McFarlane, elected to congress in 1932 after serving 8 years in the legislature, trailed Gossett by approximately 2,500 votes in the first primary.

### JUDGE DAVIDSON ON NEW YORK BENCH FOR ESPIONAGE HEARING

NEW YORK, Aug. 1.—Federal Judge T. W. Davidson of Texas, presiding in district court here, today set the trial of four persons held on charges of espionage for Aug. 22.

The defendants, most of whom are of German birth or parentage, are Johanna Hofmann, Gunther Gustav Rummrich, Erich Glaser and Otto Hermann Voss.

Judge Davidson rebuked George C. Dix, attorney for Miss Hofmann, and Assistant United States Attorney Lester G. Dunigan after they engaged in verbal bickering in court.

Dix quoted Dunigan as telling him that "we have a Texas judge here who will do about as we ask him, and we'll take care of your client." Dunigan, face flushed, attempted to deny this but the court interrupted.

"Somebody here should be rebuked," said the judge.

### REID — HOUSTON

Sunday afternoon in Seymour O. D. Reid of this city and LaVarne Houston, who resided west of town, were married by the Methodist pastor.

Both have been residents of this section of the country for a number of years, and have many friends who wish them success and happiness.

Sheriff Cartwright of Benjamin was here Saturday night on official business.

### Kendall Places Endorsement On Grady Roberts

J. S. Kendall of Munday who was unsuccessful in his candidacy for Representative of the 11-12th District expresses his thanks to the voters of this county and endorses Grady Roberts as Representative.

Judge Kendall was greatly pleased with the outcome of the first primary and made the following statement:

August 2, 1938

To the People of Knox County: When I announced for the office of Representative of this District I stated that if some other person was more suitable to the people than I, they should vote for him. The people have spoken and by almost a majority vote of the County have said that Grady Roberts was their choice and in conformity to my statement I will cast my vote in the run-off primary for Grady Roberts. I do not intend to try to influence my friends in any manner as to how they vote but this is only to thank those friends who did vote for me and to say that I hold no ill-feeling toward any person on account of their voting.

I believe the people of the county should vote as their best judgment dictates to be for the best interest of all the people and so believing I shall cast my vote for Grady Roberts.

Assuring you that my every effort will be to help the people advance their material interests and assuring you of my continued friendship, I am,

Sincerely,  
J. S. KENDALL

### LICENSE PLATES BEING DESIGNED

While an estimated 80,000 pairs of automobile and other vehicle license plates are still unissued, highway department engineers already are designing new ones for 1939.

E. J. Amey, administrative assistant to the highway commission, said today specifications and recommendations will be submitted to the commission within two weeks, at which time the colors and designs for next years plates would be determined.

In September, some 80 convicts at Huntsville will start making the plates, a process which will not be finished until after Christmas.

The legislature ordered the plates manufactured by prison labor to save costs. Last time more than 900 tons of metal, 8,000 gallons of enamel and 8,500 pounds of ink were packed in 35,000 cartons, 1,800 reams of paper and five tons of newsprint.

### CELEBRATES BIRTHDAY

Monday W. H. Benedict celebrated his 86th birthday. He settled in Knox County fifty-two years ago and has always lived in what is now Knox City. He is real interesting in telling of the early days and hardships the old pioneers went through. When he came here land could be bought for one dollar per acre with forty years to pay. He has witnessed this country's change from a cow country to one of the best agricultural counties in Texas. Mr. Benedict raised a large family and five of the children are still living. Two boys and one girl reside in Knox City, one son in Dallas and one daughter in Austin.

### SEWING ROOM FOR KNOX CITY

County Judge E. L. Cooney informs us that the WPA has authorized a sewing room in Knox City and it will open Monday. We understand that ten or more women will be employed, and they will receive \$26.00 each per month.

### THE HORNETS' NEST

### GRASSHOPPERS EAT PAINT FROM RANCH HOUSE

BENJAMIN, July 30.—The grasshoppers of Knox County are a temperamental lot.

Not only are they particular what they eat, but where they stay. It's generally understood the hoppers thrive on a diet of young cotton and feed with plenty of shade afforded by big flowers.

They found those things on the Knox County farms this summer and everything went well until the cotton became thin on the ground. Then a lot of hopping was necessary from one stalk to another. They did the logical thing under the CIO system—they struck.

With rations getting shorter and the July sun hotter, they took to homes of farmers and ranchmen of this section.

The grasshoppers were in such a frame of mind when they reached the ranch home of Jack Isdel, manager of the League ranch two miles east of Benjamin, they tore into the walls of the building.

They were unable to penetrate the building proper, but succeeded in pecking off the coat of white paint.

Now that the hoppers are gone, Isdel is preparing to give his house another coat of paint.

### "TREASURER'S GOING TO BE SHORT"

Charley Lockhart, the diminutive State Treasurer who has been renominated for another two years, has a hard time campaigning but usually manages to surmount the difficulties.

Upon one occasion, he recalled, he couldn't reach the microphone at a public speaking and someone held it down to his height all through the speech.

On another occasion, speaking on the same program with Governor James V. Allred, Lockhart managed to reach the microphone after Allred boosted him to a table.

At one meeting a joker in the crowd spoke up and said he was going to vote for Lockhart because his arm wasn't long enough to reach very far into the Treasury.

"I don't care how you vote," Charley rejoined, "or why, so long as you vote for me."

Charley also tells with relish the favorite joke of one of the Capitol yatchmen to any tourist from any other state coming to Austin: "Our Treasurer's going to be short this year."

### FORMER UTILITIES EMPLOYEES HEARD

SAN ANGELO, Aug. 1.—After a week spent on hearing an intervention complaint filed by employees of the West Texas Utilities company, the NLRB trial examiner today started taking testimony in the case of former employees, charging unfair labor practices, against the company.

Witnesses before the examiner today included V. R. Quinlan, president and self-asserted organizer of the local international brotherhood of electrical workers, who told of events leading up to his transfer from the plant here and later his discharge; W. H. Willis, former switchboard operator, who claims to have been injured after transfer to the "bull gang"; Sylvester Ground, transferred to Dalhart after the union was organized here, and G. L. Yarbrough, who declared he was transferred to a meter job after being taken from a line crew, and then discharged.

Some of the witnesses pictured their former immediate superiors as having at some time voiced opinion against any sort of labor organization, and also named the company officials as having acted as "spies" on union meetings where employees were in attendance.

Further testimony will be taken as the hearing is resumed Tuesday morning. Harlow Hurley is serving as trial examiner.

### BOY SCOUT MEETING

A hike and camp was held last Tuesday by scouts of Troop 101. The hike began at six o'clock to Jamison Park. Many of the boys passed their first and second class cooking tests. A large camp-fire was built and songs and yells were in order. Later a talk was given and camp-fire service held. Billie Dean Davis and Tom Paul Frizzell were awarded their Tenderfoot badges, after which more songs were sung and some yells were given. This was followed by the playing of Taps by Paul Hoge, the Scoutmaster's Benediction was repeated in unison and the meeting was adjourned.

### ABSTON IS MOVED TO HASKELL JAIL

Clarence (Puny) Abston, former O'Brien farmer who is under 50-year sentence for murder, has been removed to Haskell from the Fisher county jail by Sheriff Giles Kemp.

Abston, convicted in 1936 for complicity in the death of an aged O'Brien woman, was given a death sentence by a Haskell county jury. The sentence was set aside by the Appeals Court, and in a second trial at Roby, Abston was given a 50-year sentence. He has been held in the Fisher county jail for the past year, pending the hearing on his appeal from the sentence.

## Along Route One

With Walter Hyde

On the first of July, in company with our boy Joe, we left Knox City for somewhere in the east to take our annual vacation. We hadn't gone so very far till we decided to our own satisfaction that Lloyd Davis and editor Garner were very wise and very accurate political prophets. Lloyd bet us a milk shake—and won.

Uncle Joe Smith and family, of Route Two, just recently returned from their vacation in north-east Texas. Uncle Joe had not visited that section of the state in forty-seven years. He tells us that he met many old acquaintances, but that which he remembered in particular was a small stream that ran through their plantation. Just forty-seven years ago a bear crossed their place and made tracks in the sand of this little stream, and Uncle Joe said that on this visit he went down to the little creek to see if the tracks were there yet. No tracks.

Did you know that Mr. and Mrs. Tom Robbins have moved into their beautiful new home just one mile south of town? Tom tells us that it reminds him of his boyhood days in Kentucky, only the grass-burrs are so bad he can't go barefoot.

Salem Hutchinson has just recently purchased from Lloyd Davis a new double-row binder and has contracted all of the feed stuff in Knox County.

Mrs. Minnie Fortenbery of this city has been seriously ill for the past two weeks and at this writing hasn't improved very much. We learn that they are very much in need of help in taking care of her. We have known Minnie for the past thirty-five years, and no better or more deserving woman ever lived. Why don't the good women of this town go to her assistance?

The many friends of Uncle Billy Jones are sorry to learn that he is on the sick list again.

Postmaster Wilson is in some degree a very happy man these days, as one or the other of his carriers bring him in a nice watermelon off of their route nearly every day. John is a very popular postmaster and the patrons on both routes are very fond of him.

Carrier George Stubbs of Route Two wishes to advise the public that he will have plenty of black-eyed peas for everyone in about ten days. He has about fifty acres.

A revival meeting is in progress at the Baptist church at Gillespie this week.

Uncle Dan and Aunt Maggie Craddock of Weinert attended the Sacred Harp singing convention here Sunday. If you will furnish Uncle Dan with a good strong pipe and a twist of Cotton Ball tobacco he will be at peace with the world.

B. B. Cochran reports some Leaf Worms in his cotton.

Miss Margarite Bumpas, a young business-lady of Dallas, spent the past week with her parents, Mr. and Mrs. M. A. Bumpas, of Smith's Chapel. She returned to Dallas Sunday.

S. C. Wallace and family are spending several days visiting at Greenville, Texas.

Mrs. M. Spivey of Comanche, Texas, spent the week end here with her parents, Mr. and Mrs. W. W. Hyde.

Miss Fay Hyde is spending several weeks visiting in Comanche County.

Thanks to Mrs. J. W. Howell and Billy Thomas for the nice cantaloupes they have been furnishing us.

## STONEWALL WELL FLOWS 365 BARRELS

Owners of the Stonewall Oil Company No. 1 H. T. Charlie, northwestern Stonewall county wildcat five miles north of Peacock, decided Monday to turn in a potential gauge of 365 barrels on the well to the railroad commission, that office reported.

A. G. Swanson, Abilene, of the Stonewall Oil company, said the well had made that amount in 14 hours of flowing, following an experimental treatment of 500 gallons of acid Sunday afternoon.

Swanson said the well responded with a greatly increased flow after it was opened from the small acid dose, to make 64 barrels of oil the first hour and 42 barrels the second hour through tubing.

Thereafter it declined in rate of output, and in the first five hours it produced 198 barrels of oil, an average of approximately 40 barrels hourly. During the next nine hours, the well produced 167 barrels of oil, or a total of 365 barrels for the first 14 hours. Then it was shut down.

A previous pumping and flowing gauge last week and Swanson said, netted 176 barrels of oil in 24 hours, the well flowing by heads on agitation from the pump.

No crude is being sold from the well, and it is likely that additional storage will be moved to the lease.

Production is from the soft lime correlated as the Palo Pinto, basal Canyon, from which the Avoca field is producing. Saturation was drilled from 5,169 to 5,176 feet, total depth.

The wildcat opens the most northerly production in the West Central Texas district and the first field for Stonewall county. It is located in section 293, block D, H & T C survey.

Swanson said the only required offset was to the south and it would probably be drilled in the early fall.

Texas & Pacific Coal & Oil company of Fort Worth was reported Monday to be preparing to move in rig and materials for an outpost to the southern Haskell county Pardue pool, to the east and north of the discovery. Forest Development and J. W. McMillen No. 1 A. E. Pardue, six miles northeast of Stamford.

### CARD OF THANKS

I desire to take this opportunity of thanking the many friends of Knox City and Knox County who voted for me in my race for State Senator. I will always be grateful to you for your help. My campaign over the entire district was very pleasant, and although time prevented me from meeting as many of the voters as was my desire, the friendships I formed will always remain one of my most cherished possessions. The overwhelming vote given me in my home county was also very gratifying.

During the six years I have served as a member of the House of Representatives, it has been my purpose to work for such legislation as would redound to the greatest benefit of this section of Texas and the state as a whole. This will continue to be my aim.

I congratulate my opponent and wish for him the very best as a member of the Texas Senate.

Sincerely yours,  
CHARLES H. TENNYSON

### E. L. COVEY EXPRESSES HIS THANKS TO VOTERS

Sincerely,  
E. L. COVEY

### DID YOU KNOW.....

That if Texas had no Unemployment Compensation Act, the same taxes would be collected by the Federal Government from employers although Texas employees would not be eligible for unemployment compensation?

That current taxes are used to pay jobless benefits? The "cushion" fund collected prior to the beginning of benefit-payments is held for emergency periods of depression.

That unemployment benefits

are wage insurance to be drawn by those who qualify?

That employees of a city, state or federal government are not "covered" by the Unemployment Compensation law and are, therefore, ineligible for Unemployment Compensation in case of unemployment?

That "covered" employment under the Unemployment Compensation Act is that employment in which the employer is liable for Unemployment taxes and the employee eligible for unemployment benefits?

That "contributions" mean payments required by the Unemployment Compensation Act to be made by an employer into the Unemployment Compensation Fund?

That "compensation" means cash benefits payable to eligible unemployed workers?

Mr. and Mrs. Roy Baker left Sunday for Corpus Christi and other South Texas points to spend their vacation. Roy would be delighted to go into old Mexico, but will not because of the revolution there.

**BOARD FIXES TAX RATES**

The Automatic Tax Board last week fixed the ad valorem state tax rate for the coming year at the current rate—35 cents for general revenue, 7 cents for confederate pensions, and 7 cents for schools on each \$100 valuation.

The rate was fixed after the

board, consisting of Governor James V. Allred, Comptroller George Sheppard and Treasurer Charley Lockhart, petitioned the legislature for a clarification of the law to end the annual wrangle over the amount to be fixed for school purposes.

The 7 cent rate will be sufficient to pay the cost of textbooks, about \$2,000,000.

Mr. and Mrs. Leland Dunnam and young son, Clayton Eugene, are here visiting Mr. and Mrs. J. C. Tackett. They will probably spend a month here with friends and relatives, among whom is a sister, Mrs. J. O. Warren.

**NYA PROGRAM IN KNOX COUNTY SCHOOLS**

J. C. Kellam, State Director of NYA in Texas, notified J. Lyndal Hughes, County Superintendent, that the NYA quota for Knox County would be released within the next few days.

Fourteen needy boys and girls received NYA benefits last year in Knox County. They were paid six dollars each. Eligibility of pupils to get the benefits is based upon need shown, age, and ability to do school work of standard quality. When the quota for Knox County is received, a meeting will be called by Mr. Hughes of all the superintendents, and quotas for each school allotted.

County Superintendent J. Lyndal Hughes will leave Saturday for A&M to attend the County Superintendents Annual Conference. This will be the 15th annual conference. This year's subject is School Finance. School budgets are prepared during the month of August, and since assisting in the financing of schools is one of the chief responsibilities of the county superintendent's office, it is likely that considerable information may be brought back to the county by Mr. Hughes which might be of benefit to the schools.

### PEACE AND CONTENTMENT FOR THE BABY

When sour risings indicate an upset  
stomach, babies naturally will be cross  
and sleepless, they will cry because they  
feel miserable. To restore their sunny  
disposition, give them McGee's Baby  
Elixir. It is made of mild ingredients  
that will soothe the stomach, aid diges-  
tion, and help to check simple diarrhea.  
It tastes good and is a big step toward  
restful sleep and better food assimila-  
tion. Price 35c and 60c a bottle.

## This Is The First Chapter On The Records Of The Candidates For Congress

# Compare The Records

### McFarlane's Record

Age 44, widower with five children.

Four years in the Texas House of Repre-  
sentatives.

Was joint author of the gasoline tax and  
supplemental aid school bill; voted for  
regulation of utilities and to raise school  
aid from \$10.00 to \$15.00 per capita.

Four years in the Texas Senate, where  
he introduced and helped pass legislation  
for the oil, farm, livestock and labor  
interests. He led the fight to defeat the  
tax remission bills, saving over \$15,000,000  
to the tax payers.

As chairman of the Penitentiary Commit-  
tee, he led the fight saving the state own-  
ed prison property valued at more than  
\$10,000,000.

He was joint author of the gasoline tax  
bill, building state highways through such  
funds.

He was the author of the anti-lobbying  
legislation to require members of the  
Legislature to state under oath their cor-  
porate connections and fees received.

Opposed to all special privilege legisla-  
tion.

On this record he was elected to Congress.

### Gossett's Record

Age 36, single, last 20 years in school and  
practicing law.

Returned to this district 11 years ago and  
has run for office four times within the  
past 11 years. District Attorney four years,  
from 1933 to 1937. According to sworn  
affidavits for this period of time his record  
as District Attorney is as follows:

Foard Hardeman Wilbarger  
No. Pet. No. Pet. No. Pet.

Felony Indictments					
Filed	78	241	473		
Dismissals on motion					
of District Atty.	46	59	114	57	145
Dismissals on account					
of repeal of Dean Law 0			23	10	16
Acquittals	4	5	9	4	7
Pleas of guilty	17	22	48	20	146
Tried before jury	25	32	63	27	131
Suspended sen.	15	19	31	13	67
Cases appealed	11	14	15	6	42
Cases reversed	5	45	13	87	19
Cases affirmed	6	55	2	13	23
Sent to penitentiary					
contested jury trials	12	48	22	35	52

Thus, you see from the above record that  
about 41 percent of the Grand Jury indict-  
ments he had returned on contested cases  
have ever been sent to jail. You will note  
that he dismissed on his own motion about  
39 percent of the Grand Jury indictments  
he had returned. You will further note that  
54.4 percent of the cases appealed were  
reversed because of a defective record.  
That out of 792 indictments filed, that  
only 86 were ever sent to the penitentiary  
and 305 cases dismissed on his own motion,  
which clearly shows that he dismissed the  
cases that he thought he could not win,  
thus showing favoritism and even of the  
cases he tried, he could only get affirmed,  
41 percent of the cases appealed.

### NO LEGISLATIVE EXPERIENCE

No special aptitude for legislative action;  
none claimed; the constructive parts of his  
platform already in the law.  
Two years ago in his speeches throughout  
the First Primary, he stated that he had  
mortgaged his father's farm to make the  
run-off campaign. Who is paying for this  
expensive campaign? The records show  
he has not earned enough to pay his living  
and office expenses since moving to Wich-
