County Red Cross Quota Increased To \$6,700 Says Chairman

Mrs. B. C. Anderson, Chapter Chairman, has received word from Red Cross National Headquarters that due to the increasing needs of the Home Service Program, the War Fund quota of Knox County has been raised from \$5,700 to \$6,700. This will increase each local quota 13 per cent over original estimates.

There are many people in the county who know that there is a production program being carried out by the Red Cross but they have never familiarized themselves with the amount of work being done.

The production program has three divisions—Surgical dressings, Sewing and Knitting. The amount of sewing done in the past two years is as follows:

Foreign War Relief: 1,121 garments. Under this group we have dresses, shirts, pajamas and many other garments. The work done for the U. S. Armed Forces and paid for out of the Chapter funds: 866 hospital garments, consisting of bed jackets and convalescent robes, eleven cotton quilts and two wool quilts. Also the Junior Red Cross has contributed eleven knitted afghans.

The knitting of the Armed Forces is as follows: 869 garments consisting of sweaters, helmets, gloves, scarfs. This is a report of which every patriotic citizen of Knox County should feel proud.

The next time you are asked to work in the Red Cross production program, be proud that you can help to make things easier for your own son or husband.

Mrs. Pitzer Baker of Munday has been appointed publicity chairman of Knox County Red Cross Chapter to take the place of Miss Maud Isbell, who resigned due to ill health.

A letter received by Judge J. C. Patterson of Benjamin, from his friend Corp. Newton Richards of Vera, writing from across the seas.

Dear Mr. Patterson:
I never knew before that the American Red Cross was so much help to the American soldiers. Above all other things the Americans should help the Red Cross because they are really doing a job of helping the soldiers.

Some people think we don't get the benefit of it, but we do, and it is a very big help.

Tell everyone in good old Texas hello, for me. A friend,
Corp. Newton.

ODT To Simplify Form For Trucker's Report

A new and simplified form will be used by motor truck operators required to submit monthly reports to the Office of Defense Transportation, it is announced by John C. Massenburg, regional director, ODT.

As in the past, monthly operating reports are required only of selective classes of motor carriers of property. The new forms will be mailed monthly to carriers of freight, petroleum, tank truck operators and contract carriers in over-the-road service.

The purpose is to enable the ODT to prepare adequately for the nation's future transport needs.

If operators fail to make the reports by the fifteenth of the month following the report month, their Certificates of War Necessity may be suspended, revoked or modified.

KNOX CITY CLUB HAS MEETING LAST FRIDAY AT SCHOOL HOUSE

The Knox City boys and girls 4-H Club met in the school building last Friday evening, February 25, at 8:00.

Games were played and refreshments were served to the members, their sponsors, Miss Ann Rice, Mr. Graves, R. O. Dunkle and Miss Lucille King.

After completing the business session, the party went to the show and enjoyed a good picture.

Junior Class To Collect Waste Paper

Wait a minute. Are you fixing to throw this paper away? Are you going to burn trash and scrap paper? Don't do it. The government needs it in its war industries.

Save it. There is a nation wide scrap paper drive under way. Put it to one side, save it, and give it to the government. Keep all your newspapers, magazines, paper boxes and wrapping paper.

On Tuesday, March 7, the Junior Class of Knox City High School is going to pick up your scrap paper and turn it over to the government. So if you have any paper you are going to burn just lay it aside and on Tuesday put it out in your front yard and some class member will pick it up for you. Help the Junior Class and your country by cooperating with us in this scrap paper drive.

Remember, Tuesday, March 7th; just the your paper in a bundle or put it in a paper box and it will be picked up by the Junior Class.

OPA To Crack Down On Black Market In Illegal Gas Coupons

The amount of gasoline being diverted from war uses by chiselers and unthinking citizens has reached such proportions that an intensive drive against the black market is planned by gasoline dealers and the OPA, according to notices received today by Mr. Melton, chairman of the Knox County War Price and Rationing Board.

In January, OPA appealed to the honest gasoline distributors and dealers of Texas to help fight this black market menace which is draining off gasoline at the rate of two and one-half million gallons daily throughout the nation. The dealers readily accepted their share of the responsibility, and most of the filling stations in this county since the first of February have refused to accept any gas coupons not endorsed across the face with the word "Texas" (or name of State in which the car was registered) and the license number of the vehicle.

However, some customers have appeared annoyed by the requests, according to local OPA officials, and others have indicated a misunderstanding as to why they were being asked to make the endorsement.

"This endorsement is an important part of the fight against black markets," said Mr. Melton, "since coupons which have been properly endorsed in ink or indelible pencil cannot be used legitimately by anybody except the owner and therefore cannot become an implement of the black market."

On the other hand, he pointed out, stolen coupons which have not been endorsed can be sold by black market operators to persons who are willing to pay bonuses to get more than their share of this vital wartime commodity.

Mr. Melton announced that during the week beginning March 6, OPA inspectors and investigators will make a check of filling stations in Knox County to determine the extent of consumer compliance with the coupon endorsement regulation. "According to the regulation, coupons are not valid until they have been endorsed," the chairman said, "and consumers who are found with unendorsed coupons in their possession may be requested to surrender them."

Walter Snody, chairman of the gasoline panel of the local board remarked that the amount of inconvenience involved in endorsing coupons in order to safeguard our gasoline supply is trivial in comparison with the sacrifice that the boys and girls of Knox County, who have joined the armed forces, are required to make.

"This is not an arbitrary ruling by some bureaucrat," Mr. Snody stated, "it is a necessary wartime measure and we appeal to the citizens of Knox County to help their local board and honest gasoline dealers to eliminate black market dealings in our county."

Cake Walk To Be Held At Union Grove Friday

The Union Grove H. D. Club invites everyone to attend a "42" party and cake walk to be held Friday night, March 3, at the Union Grove School house.

Arrangements are being made for music for the evening and accommodations are being prepared for a large crowd.

The club met Monday, February 28 at the home of Mrs. J. C. McFee and observed a demonstration of making dress forms, presented by Miss Lucille King, County Home Demonstration Agent. Six members were present for the meeting.

Scholastic Census Will Be Made Here Soon

County Superintendent Merick McGaughey reports he has been distributing census material to the common school districts of the county.

The scholastic census is to be taken between March 1 and April 1. He reports that the material for taking the census is now in the hands of the census trustees in all of the common school districts.

Gilliland H. D. Club Met Last Monday

The Gilliland H. D. Club met Monday, February 21, at the home of Mrs. Roy Fox for the Machine Clinic demonstration.

For best results, the machine should be cleaned every two or three months, was the information given by Miss Lucille King.

Mrs. O. R. Miller, president of the club was in charge of the short business session. There was no roll call due to the absence of the secretary.

Pig Feeding Test Shows Big Saving In Grain

The pig feeding demonstration conducted by the Benjamin 4-H boys continues to bring about some very interesting results and figures.

The boys found in the feed demonstration that the pig fed protein supplement produced a pound of pork with 4.6 pounds of grain, while the pig that did not receive the protein consumed 12.4 pounds of grain, or a difference of 7.8 pounds of grain for each pound of pork produced.

Three hundred and eighty-four farmers adopted the practice of feeding protein in self-feeders and fed out in 1943 over 4,600 hogs, each making a gain of 150 pounds average. In case the difference in the amount of grain fed is the same as in the feeding test, the saving of grain in Knox County has amounted to well over half a million pounds.

Additional figures are that there has been a saving in the cost of pork production of over \$41,000.00.

The Great Western Mining Company, operating properties a few miles northwest of Knox City, this week scored a noteworthy first in the history of copper mining in Knox County—and Texas. Officials of the company this week turned out the first batch of copper plate—metal assaying 98.2 per cent pure copper, ever produced in Knox County.

Behind the story of Great Western, working in Knox, King and Stonewall Counties, lies an account as intriguing and exciting as a page from a fairy book. For a year and a half, company personnel has worked in close cooperation with the U. S. Bureau of Mines to make an unheard of dream come true, the plating of copper metal right here in Knox County.

Leon Guinn, superintendent and general manager, gives the U. S. Bureau of Mines full credit for working out the ore treatment process and formula for turning raw ore into plated metal.

Plating copper metal on tin cans has not been, for example, without plenty of work and quiet study, and plating of scrap iron and steel into pure copper is not without excitement, either.

Great Western has had over 157 separate assays made, with a double check against assaying concerns, to ascertain just what metallic ores are to be found in the new mining district.

He participated in seven missions over Pantelleria and Sicily when the Allied nations were fighting for a foothold on those islands.

Entering the Army as an enlisted man in June, 1941, one month after completing high school in Knox City, Lieut. Darr completed his training as a flying sergeant in the Southeast Training Center and was assigned to duty overseas.

After visiting with friends and relatives here, Lieut. Darr will go to Miami, Florida, to a rest camp and for re-assignment.

His many friends and acquaintances are glad to see him back in the old home town.

Lieut. Benedict Writes Of Scenic Trip Thru Historical Country

The following letter is from Lieut. Paul E. Benedict, son of Mr. and Mrs. Grady Benedict of Quanah, and grandson of Mr. and Mrs. W. H. Benedict of Knox City.

Lieut. Benedict is a pilot with the West Coast Command, usually stationed in West Africa. He is well-known in Knox City. His relatives have graciously permitted the Herald to print the letter in its entirety. It is dated Feb. 1: Hello Folks:

See, seems like every time I write I start out by apologizing, but I really have been busy. I only write to Bunny about twice a week now, and hope you'll understand how it is.

I got that swell knife yesterday and it is really a honey. Thanks a million times. Dad, you're the best. It will come in handy, too. How did you get such a sharp edge on it? And I want to know if you made the holder too—it's swell.

I was in Cairo about two weeks ago and had a very interesting trip. I saw the famous pyramids, you know, the Cleopas. The largest and most famous is where King Tut was buried—he had so many wives. It covers around fifteen acres and is about 750 feet from base to tip. It's the most remarkable structure ever built, architects say.

It has approximately 2,300,000 solid granite stones weighing on the average of 2 1/2 to 3 tons each and these were floated down the river Nile and rolled into place. It seems unbelievable. In one tomb there was a granite rock about 8 feet long, 6 feet wide and 3 feet thick that made the roof.

I also saw the Sphinx. As you know it is carved from one solid stone and I'm telling you it is enormous. The city is very interesting but crowded. Their customs are queer and strange and just like in story books. It was very educational and I felt lucky to get the trip.

I got the Book from the Church and it's swell. I read a verse and prayer every day.

Well, I have to fly all night so had better get some shut eye. I'll try to write you more often and thanks again for all your lovely letters and the presents.

Tell all the folks hello, and to write me. So until later, God bless you and protect you all.

Your loving son,

Paul

Miss Hazel Jones of Fort Worth was here this week to visit her sister, Miss Willie Jones, and her brothers, H. M. Jones and J. V. Jones and their families.

The American people look forward to the time when they can again have gasoline and automobile tires in abundance, but that time is not yet in sight. It was predicted lately that the people will do more walking and less riding in 1944. The increased demand for both tires and gasoline for military purposes will use up the supply of both these requirements, it was said.

There are compensations when the people do more walking. The physical activity promotes health. People have become too dependent of cars for short distance trips. They are eager to save a few minutes, so they jump into a car, and they may not know what to do with the minutes thus saved.

It will be wonderful when we get gasoline and tires freely again, and can use them for more long vacation and week end trips. Until that time, it is necessary first of all to see that our boys overseas have all the machines and supplies they need.

Study Club Discusses Post-War Problems

At the regular meeting of the Knox City Study Club last Saturday afternoon, the ladies made a study of "The Domestic Economy." They were particularly interested in "Post War Economy" and "Post War Life."
 Mrs. T. P. Frizzell, Jr., was the club hostess for the meeting. Mrs. Ottis Cash discussed "Promises and Fears of the Dismal Decade." Mrs. T. E. Holcomb gave a very interesting paper on "Achieving Security and Restoring Freedom."

The club was happy to have Wynell McGee and Joyce Corley sing two lovely songs: "Say a Prayer for the Boy Over There" and "No Love, No Nothing."
 Fourteen members and one visitor, Mrs. C. L. Bailey of Wichita Falls were present for the meeting. The corresponding secretary was instructed to notify Mrs. Bedford Smith that the club members wish her to accept honorary membership in the club.

Mrs. E. Q. Warren announced that as our "Fine Arts Program" for this year, we are going to be fortunate enough to present our own Virginia Parkhill in a Music recital. The time and place for this meeting have not been definitely set, but they will be announced later in this column.

The next regular meeting which is a "Texas Day Program," on March 11th, will be an open meeting and the general public is invited. At that time the club will present Miss Lucille King County Home Demonstration Agent, in a demonstration on "Food Conservation and Preservation." Everyone is urged to hear Miss King.

Slow thinking is said to cause some automobile accidents, but if so it is the only thing that is slow about some of the drivers.

Imagine a group of concerns coming into court and admitting that they want to violate the State Constitution, and asking a court to knock out a law so that they can trample the Constitution under foot and get away with it! Well, you don't have to imagine this for it is exactly what a flock of loan sharks are asking.

"We honestly think that when a man or woman has the nerve to enter politics for personal or other reasons, they should be given most respectful hearings and help them through their task, which at times is most unpleasant," comments Editor Robert L. Baldrige in the Clifton Record. "Some have to handle political business of life and some enjoy it, and others would not participate in such for any amount of money."

Speaking of Mark Twain, as we were recently:

The great writer had little formal schooling—which was the reason perhaps that his naturally robust and vigorous style of writing had the luxuriance of a forest in its native state and not the trimmed exactitude of a garden hedge. Punctuation bothered him, so he prefaced one article with four lines of periods, six lines of commas and three or four miscellaneous lines of semi-colons, colons, hypens, exclamation points, question marks, then followed with the declaration that authorities differed so much on punctuation that he was giving the reader a liberal supply of the different marks and he cord put them in to suit himself.

Of course, Twain's most famous saying was the one about the weather—"Everybody talks about it but nobody does anything about it."

Another was when it was reported that he had died and he notified the newspapers. "The report of my death is greatly exaggerated."

He also made the observation that more people died in bed than anywhere else so he had made up his mind that he was never going to sleep in bed again.

Carver-Strickland

Miss Johnny Pearl Carver and Virgil Ray Strickland were united in marriage on February 10, at the home of Rev. H. R. Whitley, pastor of the Baptist Church in Haskell.

The bride is the daughter of Mr. and Mrs. Carl Carver of the Lone Star community and had formerly lived at O'Brien. The groom is the son of Dan Strickland, also of Lone Star.

Accompanying the couple to Haskell were the groom's niece, Wanda Mae Reeves of Rhineland and Bob Owens of Weinert.

After a short trip to Fort Worth, the couple returned to make their home in the Lone Star community, where Mr. Strickland is engaged in farming.

ISN'T RATIONED

COURTESY, like many other things, often becomes needlessly a victim of war. There is no excuse for a lack of courtesy! The raw materials are simple and plentiful . . . the manpower required is negligible . . . *courtesy is just a by-product of service.*

Yes, we know that "there's a war going on" . . . we know what it is to be short handed . . . we miss the 224 experienced employees who are now in the armed services; but it's a tradition with the employees of your

electric service company to give friendly, courteous service.

Lack of material often forces the use of substitutes. Frequently it is necessary to rework old material and supplies. Sometimes, due to shortages or government regulations, service must be delayed. But the employee team, backed by a business policy that encourages individual thinking and recognizes individual effort, is proud of the fact that *courtesy*, like electricity, is *not rationed*.

ter cannot profitably be shipped from a commercial standpoint. Since actual copper plating is in itself a slow process to work out, Great Western has not granted release of information until the process has become a proven thing and all speculative angles have been eliminated. While headquarters of the firm has been maintained at Snyder, the Herald learns an office will be opened here in the near future.

"When the proper time rolls around for public inspection of our treatment vats, we will extend Knox County people an open invitation through the Herald to do so," a company spokesman said Tuesday. "Until we have all safety measures installed, we cannot properly, let people inspect a property where they might come in contact with acids that will ruin clothes and take the skin off hands and arms."

Officials of the company are: Leon Guinn, Superintendent and general manager; Julius W. Barrett of Snyder, president; E. E. Low of Dallas, vice-president; Ernest E. Southern Cabbage To Be Designated As Victory Food for Week

Southern cabbage production has set an all time record, according to war food bulletins, and as a result, cabbage has been selected as the Victory food for the period of February 24 through March 4, said Miss Lucille King, Home Demonstration Agent for Knox County.

Cabbage is a versatile food and lends itself to many pleasing uses. Raw cabbage is particularly rich in Vitamin C, which makes it a good substitute for oranges, grapefruit and tomatoes.

Raw cabbage can be used for salads either alone or with other vegetables. It should be shredded medium fine and allowed to crisp in cold water about thirty minutes before using. In cooking cabbage, Miss King cautions against over-cooking. Use boiling salted water and cook until just tender when pierced with a fork. Drain well and serve with melted butter.

Kraut is an excellent source of Vitamin C, as well as having a high lactic acid content, which aids digestion. Miss King gives directions for preparing kraut, since the temperature at this time of the year is favorable to good kraut making.

Select mature, sound, hard heads. Green cabbage has more Vitamin A, but does not make as light colored kraut as does the white cabbage. About 1 1/2 pounds of cabbage will yield one pint of kraut. Remove the outer leaves and wash; quarter the heads and shred directly into a large crock to keep out of the air and retain vitamins. To five pounds of cabbage, add six tablespoons of dairy or canning salt. Too much salt will prevent fermentation and not enough salt causes the kraut to be soft. Mix the salt thoroughly, as uneven distribution of salt will cause streaks of red through the kraut. If more than five pounds of cabbage is used, continue mixing in those proportions, and mix carefully to keep from bruising the leaves.

When the shredded cabbage is well mixed with the salt, cover with the outer leaves which have been trimmed and washed—this holds shredded cabbage under the brine. Wrap cheese cloth about a plate or board which fits in the crock and place on top of cabbage leaves, weighted down by some object which will not taint the flavor of the kraut—a jar of water makes an ideal weight.

If sufficient brine does not form within a couple of days, add brine made of one tablespoon of salt to one cup of water, using soft water. See that the cabbage is well covered with brine at all times, and remove the scum which forms each day, since it will destroy acidity and cause the kraut to be soft. Wash and scald the weighted board or plate each time the scum is removed. While making kraut a temperature of 70 to 85 degrees should be maintained for the period of ten days to three weeks necessary for the kraut to make.

Well-cured kraut should be light straw colored, have an acid flavor, be translucent, crisp, firm and not tough. When cured, it should be packed into glass jars or plain tin cans, placed in a rack or deep kettle and steamed for ten minutes. When the containers are removed from the steam, the kraut should be pressed down firmly to remove air bubbles. The containers can be immediately sealed and returned to the kettle and the water held at the boiling point for 15 minutes. When cool, the containers should be stored in a cool, dark place.

Union Grove Club Is Doing Part In War

The Union Grove 4-H Club is a wide awake club consisting of eight boys and six girls. These boys and girls love 4-H club work and do everything that is demonstrated. Every boy and girl in the Union Grove school of 4-H age are enrolled in club work.

During the month of December the club boys and girls and their sponsor, Mrs. E. F. Branton, went to the woods and gathered 165 pounds of mistletoe. They got boxes and packed the mistletoe very carefully and shipped it to the Young Women's Business and Professional Club at Amarillo.

The 165 pounds of mistletoe sold for \$110.00. They gave one half the money to the Amarillo organization for selling it for them. After all expenses had been paid, they had \$51.00 for their part.

The club bought \$28.00 worth of war stamps and have \$23.00 left in the treasury.

They have contracted to gather 400 pounds of mistletoe for the Amarillo club for next Christmas. Four men in the Union Grove community have given all the mistletoe that grows on their farms to the boys and girls. The men are B. B. Campbell, president of the Knox City bank, Mr. Griffith, Mr. Hodges and Mr. Reeder.

In addition to gathering the mistletoe, these boys and girls have knitted 56 six-inch squares for the county 4-H Red Cross afghans.

Every boy and girl have knitted squares and they are really nice, too. In addition to knitting for Red Cross, they are taking wool samples donated them by a local tailor and putting a blanket stitch around the squares. They plan to make an afghan of these wool samples for the Red Cross.

This 4-H club is really doing its part to help win the war.

The liner Gripsholm has been at Lisbon in Portugal, where more than 1000 Axis internees will be exchanged for a similar number of Americans, including wounded and sick soldiers who have been prisoners of the Nazis. It is not to be supposed that the Americans thus held prisoners by the Germans have been subjected to the suffering and cruelty which the Japs have perpetrated on many of the men they hold prisoners. Life in a German prison or concentration camp is no doubt a hard experience.

The joy which these Americans will feel as they approach and reach our shores will be wonderful and pathetic. It has taken all their resolution and courage to live in Germany in wartime, and to be deprived of American comforts and freedom. The land of liberty will seem a glorious place to them as they enter one of our harbors.
