

# THE KNOX COUNTY HERALD

KNOX CITY, KNOX COUNTY, TEXAS, THURSDAY, NOVEMBER 28, 1946

NUMBER 4

## Funeral Held Sunday For Mrs. Langley

Funeral services for Mrs. Wiley G. Langley were held at the First Baptist Church in Knox City Sunday afternoon, November 24 at 3:00 o'clock. Rev. S. L. Poyner of Munday was in charge of the services, assisted by Rev. S. E. Stevenson of Goree. Mrs. Langley passed away Friday, November 22 at 4:00 p. m. after a brief illness.

Aurora Belle Chapman was born at Evant, in Coryell County, Texas on March 15, 1902. She was married to Wylie G. Langley in October, 1915, and came to this section in 1933. To this union were born seven children, all of whom were present at the funeral.

Mrs. Langley was a member of the Primitive Baptist Church and was very active in church work in the community in which she lived.

Among the survivors are her husband, three daughters, Mrs. Calvin Stone of Knox City, Mrs. C. E. Collins of Abilene, and Miss Nettie Mae Langley of Knox City; four sons, Warren G., Donald, Robert and Frank, all of Knox City; and one brother, Bill Chapman.

## On Terminal Leave

Kenneth Lawson, Yeoman 3-c and son of Mr. and Mrs. Otto Lawson, arrived home November 15 after spending three years in the service, with 18 months in New Guinea and Australia. Kenneth has been stationed on Mare Island in San Francisco Bay since his return to the States in April. He is now on terminal leave and will receive his discharge in January. He will remain in Knox City where he will be associated with his father in the hardware business.

## GREYHOUNDS ENTERTAINED WITH SUPPER FRIDAY

After winning their last game of the season and the bi-district title, the undefeated Greyhound squad was entertained with a supper at Durham's Cafe Friday night immediately following the game. Included in the guest list, besides the team, were Supt. Holcomb, Coach Schofield, Referee Chad Wilson, and Team Manager Robert Jones.

Hostesses were Meses. A. H. Hackfield, Vernon Buckley, T. E. Holcomb and O. W. Caussey.

It is reported that Mrs. M. A. Horton of the Sunset Community suffered a broken hip when she fell at her home Sunday. Mrs. Horton was taken to a hospital in Wichita Falls.

## Hey, Kids, Let's Write to Santa Claus

As has been the custom for several years, the Herald will serve again this year as the postoffice for letters to Santa Claus. These letters will all be published in our special Christmas Edition on December 19, but in order to get them set into type before that time, we need them in our office early.

So let's write those letters to Santa Claus, kids, and tell him what we want for Christmas! Just bring them to our office or drop them in the mail, or if you go to school turn them in to your teacher, and we will forward them to the North Pole.

## Puerto Rican Coed at TCU

First girl from Puerto Rico to study medical technology in an American university is Senorita Dora Villafane, now enrolled in Texas Christian University, Fort Worth. She admits to a bit of homesickness for her parents and two brothers and three sisters back in Mayaguez, Puerto Rico, but says: "Texas is so wonderful and people are so nice to me, I'd really like to stay here!"

## Local 4-H Leader Selected for Tractor Maintenance School

Jim Pults, 4-H Club leader and farm operator on the League Ranch, was selected this week to attend a tractor maintenance clinic for adult 4-H leaders to be held at College Station, on December 10, 11, and 12. This clinic is being sponsored by the Texas Extension Service in cooperation with the Agricultural Department of Texas A. & M., and the Stanolind Oil Company, according to J. M. Carpenter, local County Agent. The Stanolind Oil and Gas Company through the national committee on boys and girls club work will pay the expenses of the 4-H club leader.

Knox County was selected along with Young County from District 3 to send leaders to this course. The aim of the course, for leaders, is not only to drill them on the subject matter, which should be relatively easy for tractor operators, but to teach them to teach 4-H club boys.

Principal topics to be covered during this three-day program include the following:

1. Training opportunities for local volunteer leaders.
2. Information, training aids and a program of daily services in farm tractor operation and maintenance.
3. Awards in recognition of individual achievement to stimulate the formation of good habits in maintenance of farm machinery.

## To Hold Exams for Vocational Advisor

A civil service examination was announced today for Vocational Advisor, according to a statement made by the Executive Secretary, Board of U. S. Civil Service Examiners, Veterans Administration, Dallas.

Salaries for this position, to be filled in various Veteran Administration Agencies in the states of Texas, Louisiana and Mississippi, range from \$3,397.20 to \$7,102.20 per year.

A written test will be required for this examination. The age limit, 18 to 62 years, will be waived for persons entitled to veterans preference and persons now serving under war service appointments provided they have not reached the retirement age.

Applications must be on file with the Executive Secretary, Board of U. S. Civil Service Examiners, Veterans Administration, Branch Office 10, 1114 Commerce St., Dallas, Texas not later than December 17, 1946.

Application forms and further information may be secured at any first or second class post office.

Otice and Paul Green spent the week-end visiting friends in Lubbock.

## Bond Drive Continues To December 7th

More than 6,500 Texas volunteers will help the Treasury sell extra U. S. Savings Bonds in the year-end campaign which opened Armistice Day and runs to Pearl Harbor Day, December 7.

"There will be no house to house canvass," Nathan Adams, State Chairman of the Advisory Committee for Texas of the U. S. Savings Bonds Division, said, "but every avenue of publicity will urge Americans to 'Save for Security,' and 'Buy Extra Bonds Now,' the slogans of the campaign."

Chief aim of the campaign is to increase every citizen's bond holdings in order to distribute as widely as possible the interest payments on the public debt.

"As these bonds mature, both the principal and interest paid to the owners will become purchasing power," Adams said. "Smart Americans are adding to their war bond holdings in order to share in this."

Another objective of the increased bond sales promotion is to check inflationary spending as much as possible while consumer income still exceeds available goods and services.

"When prices of goods are high is the time to put away all you can in savings," the state chairman declared. "Everyone knows that inflated prices will not endure, once supply catches up with demand. Then the saved dollar will be worth more and if it is invested in E Bonds, the holder will earn a substantial premium for his thrift. This year the national income of individuals is at an all-time high, pushing \$167,000,000,000, and so is employment, nearing 58,000,000, including wage and salary earners, farmers and others who are self-employed. With the lessons of the post-war inflation of 1919-20 in mind, the foresighted worker will lay away all he can for the future."

The 950 banks of Texas, along with post offices, are the main outlets for savings bonds.

## Frizzell Drug Store Installs New Fountain

Frizzell's Drug Store this week is installing a new stainless steel, 22 1/2 foot soda fountain, manufactured by the Liquid Carbonic Corporation. Workers from the West Texas Distributing Company in Abilene arrived Tuesday to begin installation, which is expected to be completed by Saturday.

Besides the new fountain, additional improvements and repairs have been made recently. The display counters are bright with a new coat of paint and rearrangements of merchandise have been made throughout the store.

Mr. and Mrs. L. V. Dodd and family spent Sunday in Bonmar with Mrs. Dodd's mother, Mrs. J. R. Snyder.

## Thompson Grocery Moves This Week to Larger Building

E. E. Thompson of the Thompson Grocery announced that he will move his business to the Lee Smith building on Main street, formerly occupied by Robinson's Cafe.

For the past year the grocery store has been located in the small building next door to the Herald office until a more suitable place could be secured.

"We will be able to handle a larger variety of merchandise in the new location," stated Mr. Thompson. "We will move our stock as soon as the painting and repairs are completed, and every department will be large and conveniently arranged to make your shopping."

Assisting Mr. Thompson will be his two sons, Ray and J. E., and they promise the same courteous service they have rendered in the past.

## Texas Tech - HSU Game To Draw Many From Knox City

A number of people from Knox City expect to attend the football game in Abilene Saturday, between the Hardin - Simmons Cowboys and the Texas Tech Red Raiders. This game has drawn more interest in West Texas than any this season, and all the permanent seats in the stadium have been sold out for some time.

Tech will be attempting to protect a record of not having lost to the Cowboys on the gridiron since 1932. Since they began playing Simmons in 1926, Tech has won six games, lost three and tied two. Victories include 10-6 in 1927, 6-0 in 1931, 7-0 in 1933, 13-0 in 1934, 9-0 in 1935 and 7-0 in 1941. The Cowboys won 19-0 in 1928, 21-0 in 1929 and 13-12 in 1932. The first game, in 1926, was a scoreless tie, as was the 1942 game.

Expected to be at stake in the November 30 encounter will also be an invitation to the Sun Bowl, which annually seeks to present the Border conference champion against a selected rival. Bowl officials have said it will be Tech or HSU as the host team.

Tech's line has gained a reputation as one of the best defensive outfits in the Southwest. The Hardin-Simmons attack has brought national recognition to Little Doc Mobley, the nation's leading ground gainer, and to Halfback Al Johnson, who has had no passes intercepted this season. Fans expect one of the most colorful battles of the year for both teams.

## Farmers Reminded Of Cotton Loan Protection

Cotton farmers were reminded this week by B. F. Vance, State FMA Director at College Station, that they need not market their crop at just any price. Government programs are available which afford both price and orderly marketing protection.

Producers who take out Government loans on their cotton crops—at 92 1/2 per cent of parity—not only can promote the orderly marketing of the crop; they also keep title of ownership of the cotton, and may dispose of it later, as they wish. Actually, U. S. cotton is in a statistically favorable position. On August 1, of this year, the national carryover was 7 1/2 million bales, compared with 11 million in 1945, and record 13 million bales in 1939. Large stocks of cotton previously held by the Commodity Credit Corporation have been sold.

By August 1 of next year, the carry-over is expected to be less than 4 million bales, the smallest in 17 years. All of which means price protection and a strong probable demand for cotton.

Mr. and Mrs. Albert S. Herndon have returned to their home in Little Rock, Arkansas after an extended visit with Mrs. Kate Lee and family. They also visited friends on the Plains and in New Mexico. Mr. and Mrs. Herndon are old-time residents of Knox City and are now in the dairy business in Little Rock.

## Greyhounds Take Bi-District Crown With 38-37 Score

Despite being crippled by the loss, due to injuries, of Jack Teaff, fullback, Ken Clonts, quarterback, and William Roy Baker, the Knox City Greyhounds beat the Dickens out of Dickens Friday night to take their second Bi-District crown in two successive years.

The game was a series of thrills from start to finish, with the issue undecided until the final seconds of the game.

Bobby Hackfield started the scoring in the first quarter and kept going all through the game, with scores also being made by Dick Buckley, Charles Coates, and Jimmie Robinson.

The 'Hounds were never safe until the final whistle blew, the score being tied at the end of each quarter. In the fourth quarter Dickens loosed a vicious aerial attack which threatened to wreck the Greyhounds' hopes for the title, but at the whistle the visitors were still trailing.

This ends a very successful season for the undefeated, untied Greyhounds, who stacked up a total of 421 points to their opponents' 91. The season's record is as follows:

Knox City	Score
18 - Mattson	6
58 - Sagerton	0
25 - O'Brien	20
39 - Vera	0
73 - Benjamin	0
20 - Megargel	2
40 - Paint Creek	6
61 - O'Brien	0
49 - North Side	20
38 - Dickens	37

Coach M. J. Schofield and Supt. T. E. Holcomb deserve a big hand for the leadership they have given the team this year, and the boys are to be praised for their hard work and sportsmanship exhibited all through the season.

## 400 Typewriters To Go On Sale To Veterans

The first—and probably the last—sale of its kind, is War Assets Administration offering of 400 typewriters exclusively to certified veterans starting Monday, Dec. 2, at the WAA warehouse, 123 E. Exchange, Ft. Worth. All machines are standard makes and widths of carriages will be offered on a "first come, first served" basis. The line will form early Dec. 2, with doors opening at 9:00 a. m. Each veteran will be allowed to buy one typewriter for his own personal use.

The sale will last three days, but the supply will go fast, according to Harold S. Gish, chief of the Veterans Division of the WAA, who states applications for typewriters have flooded the Fort Worth WAA for the past few days.

## One Woman USO

Fabulous Evelyn Walsh McLean, shown above, swept aside U. S. Army red tape when she decided to bring bedside entertainment to bedridden war veterans in the Walter Reed Hospital in Washington, D. C. Accompanied by a 3-piece band and servants bearing plenty of beer, candy and cookies, Mrs. McLean for the last three years has been entertaining the veterans on a lavish scale. One of the many features of her visits to the veterans is her careless handling of the famous Hope diamonds and other jewels, that she tosses to the veterans on her arrival. As she leaves the jewelry is returned to her. The Hope diamond, for which Mrs. McLean refused \$1,000,000, is shown in center as a hair ornament.

## Farmer-Committee Election To Be Held December 5th

Emmett Partridge, chairman of the Knox County Agricultural Conservation Committee, today issued a final appeal to farmers to attend their local farm-program committeemen elections, now in progress throughout the county.

The election will be held on Dec. 5, from 8 a. m. to 5 p. m., at the following places: Benjamin, Truscott and Gilliland, AAA office; Vera, school house; Goree, W. W. Coffman's office; Rhineland, Union Gin; Munday, PCA office; Sunset, school house and Knox City, Legion Hall.

Three regular committee members and two alternates will be chosen in each community. A delegate also will be elected to the county convention, which later will choose the county committee of three members.

"Farmers have a big voice in national farm programs through the farmer-elected committeemen system," Partridge said. "A good turn-out will show that they believe in this way of running the programs."

"The coming year is sure to bring new reconversion problems, and the committeemen will have heavy responsibilities. By casting their ballots, farmers can make sure that the men administering the programs are the men most familiar with local needs. We hope that every eligible farmer will take time to vote."

## Knox County 4-H Clubs Organize

4-H Clubs of Knox County have completed their second month of work during the current season. The first month was used to organize and finish reports from last year's work, and select jobs and projects for the coming year. The second month the clubs participated in dairy demonstrations, since practically all farms have dairy cows.

4-H club leaders selected for the coming year in the various schools are listed below. These leaders are responsible for the opening and closing ceremonies at each meeting in addition to their regular duties:

Vera: President, Jack Peddy; vice-president, Jimmie McGaughy; secretary, Paul Laws; reporter, Marvin Jones; song leader, Morris Chastain, sponsor, James McGaughy.

Rhineland: president, Herman Schumacher; vice-pres., Vernal Zeissel; secretary, William Herite.

Sunset: president, Dorman Followill; vice-pres., Tommie Richardson; secretary, Donald Nix; reporter, Merle Tackett; sponsor, Mr. Tackett.

Truscott: president, Jimmy Woods; vice-pres., Don Brown; secretary, Gene Paul Pogue; sponsors, Mr. Myers, Mrs. Davis.

Gilliland: president, Curtis Langston; vice-pres., Arthur Ryder; secretary, Tommy Shaw; reporter, Billy Jo Myers; sponsor, F. B. Carter.

Munday: president, Billy Brown; vice-pres., Preston Hest; secretary, Gerald Morrow; reporter, Coy Phillips; song leader, James Simpson; sponsor, Mr. Latham.

Goree: president, Bobby Lambeth; vice-pres., Bob Moore; secretary, Ray Harlan; reporter, Joe Sanders; sponsor, James Carver.

Knox City: president, Hardy Day; vice-pres., Charles Lankford; secretary, H. C. Chaffin; reporter, Kenneth Griffith; sponsor, Lee Smith.

Benjamin: president, Johnnie McGaughy; vice-pres., Carol Fred Glover; secretary, Stanton Brown; reporter, Wylie J. Meizer; sponsor, Jack Idol.

## DEER HUNTERS RETURN

Dr. T. S. Edwards, Dr. B. C. Edwards, Rudolph Hackfield, H. M. Jones and Leroy Stubbs returned Monday from a deer hunt near Sanderson, in Brewster County. The hunters brought back four Black-Tail deer, 6, 7, 8 and 9 points, and also reported that Dr. T. S. Edwards killed a Javelina hog.

Miss Mary Leone Hoge of Victoria, Texas, arrived in Knox City Wednesday to spend the week-end in the home of her parents, Mr. and Mrs. C. C. Hoge.

New York Heartbeat:

Worker's Role in Politics Analyzed

Labor's Interests Fused With Average Citizen's

By BAUKHAGE

News Analyst and Commentator.

WNU Service, 1616 Eye Street, N.W., Washington, D. C.

WASHINGTON — "There never will be a Labor party in the U. S." In the aftermath of the election, I couldn't help cogitating these words, spoken to me several years ago by an official who helped write some of the most important New Deal labor legislation a decade ago.

Baukhage

The reasons given were that workers in America were individuals first and members of labor unions afterward—they were primarily citizens with group interests common to other citizens. They didn't look at themselves as a political unit.

In analyzing the new congress, some people have made the mistake of pointing to the defeat of candidates conspicuously endorsed by the CIO-PAC and the victory of those marked for purge. Then, because the PAC is an institution which has behind it one of the two big international union organizations, these people imply that because of the defeat of the PAC, labor itself was defeated.

I haven't the slightest doubt that many an American citizen, who otherwise might not have voted, did so because of the energetic efforts of persons inspired by the CIO-PAC booklets and contacts, the chief aim of which was to get voters to the polls.

GOP Win Stems From Many Causes But this election was something more than a revolt against the frank effort of CIO to reward those who had espoused specific measures or to punish those who didn't.

Marianne Forgives Fritz

"Twas the day after Christmas in Frankfurt, Germany, 1945, when all through the ether there was static enough to make a trans-Atlantic broadcast impossible.

The story (I said in my dispatch) would probably be denied, and I admitted it seemed incredible, for it revealed a plan of the French government to help re-populate France by admitting German war prisoners to citizenship.

Parties Split On Hot Issues

It will be a relief if we do get back to honest labels again. The British are still having their troubles on this score. The Conservatives, who are the "outs," have discussed changing their name.

This sounded strange from those dignified lips which buccied one of the most restrained and yet most devastating charges against the Nazis...

lantie City last spring, were all re-elected with one exception (and that was Representative Slaughter, beaten by the President's own special efforts in the primaries); when things like that happen, you know that plenty of perfectly good union members in perfectly good standing were voting against the preachment of the PAC.

That is one thing that accounted for most of the votes against the "ins" regardless of the candidates' persuasions. Another factor which added to the landslide quality of the vote is the old law of action and reaction.

It was this characteristic, I feel sure, which caused Americans of all sorts to swing much farther toward the conservative side than they normally would have done.

Of late it has become the style to sneer at the majority. The "vulgar herd" and the "mob" were the contemptuous epithets of kings. The modern majority-sneerer is more careful of his language.

The 80th congress has a tougher job than the 79th. We hope it will be able to handle it. It was not elected to smash labor. It was elected to carry out a mandate (among others) to help keep labor from smashing itself.

PRODUCTION AT PEAK

WASHINGTON — To meet its mushrooming industrial needs, the nation will have to work harder or return to longer working hours, the government warned.

Although the nation's economy is running at top peacetime speed, demand for most products still is unsatisfied, an agriculture department report maintained. Harder work or longer hours, the report added, appear as the only means of boosting industrial production.

More Work Urged To Fill Needs

WASHINGTON — To meet its mushrooming industrial needs, the nation will have to work harder or return to longer working hours, the government warned.

Further substantial increases in industrial production will have to be attained to a larger extent by longer hours of work and by more output per worker.

WISDOM OF AGE, CHARM OF YOUTH... This study of the blending of youth and age in friendship shows silver-haired Tom Davis, legal counsel for Brotherhood of Railroad Trainmen, intoning a bedtime prayer for a young friend, Frank Adler Jr., aged two, at Miami. For his words of wisdom, Davis is rewarded by the winsome charm of his young friend.

NEWS REVIEW

Decontrol Boosts Prices; Polar Jaunt Scheduled

Price rises all along the line accompanied decontrol of the nation's economy, with producers hiking items for full coverage of higher wages and material costs and promising lower prices when output reached volume proportions.

HIGH JUMP: Important Operation

Amid rumors that other nations were preparing expeditions to search for reported uranium deposits around the south pole, the U. S. announced that Rear Adm. Richard E. Byrd would lead a navy contingent to Antarctica in December on a scientific study.

Leading shoe manufacturers expected a 10 per cent rise in all standard lines as a result of the increase in the cost of hides from 15 1/2 cents a pound to 20 cents.

Previously, General Motors and Chrysler had boosted the price of passenger cars by \$100 and industry spokesmen predicted increases in some steel items, building materials, clothing, batteries and lumber.

Long held within rigid ceilings despite mounting janitorial and maintenance expenses, landlords petitioned for a 15 per cent boost in rents.

NEW TRACTOR... Unable to buy sufficient farm tractors in the United States to supply the demand, Progress Industrial de Mexico had this tractor designed and built for sale south of the border. It will run on gasoline, kerosene or cleaning solvent.

rentals. An estimated 16 million housing units have been under rental control in addition to hotels, rooming houses and tourist camps.

While Byrd's force will make exhaustive geological surveys in the polar wasteland to uncover any uranium, the famed explorer declared that his band also would undertake intensive studies of geographical, meteorological and electro-magnetic conditions.

Four thousand men, 12 ships and at least a score of aircraft will compose Byrd's operation High Jump, as the expedition will be known. No part of the task force will be kept in the region during the Antarctic winter.

Working under a special congressional grant, top meteorologists and hydrodynamic, dredge and excavation engineers are busily engaged in studying the alteration of the existing Panama canal or construction of a new waterway to accommodate heavier modern traffic and decrease vulnerability to atomic warfare.

Erected at the turn of the century, the canal's narrow channel and locks are too small for the latest warships and merchant vessels. Water storage capacity of Gatun lake reservoir will be insufficient to handle prospective traffic by 1960 or a diversion of traffic from Suez canal in event that vital artery is closed by war.

To meet modern needs engineers are considering increasing size of reservoirs, lengthening locks from 1,000 to 1,500 feet and widening them from 110 to 250 feet. Against these plans, some technicians argue that it would be better to build a new canal with fewer curves and wider turns.

AGRICULTURE — No major change in the farm program is in prospect for the next two years. However, you will hear the same cry for parity prices on farm products. Co-ordination of all farm agencies will be demanded.

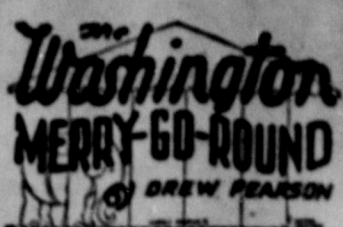

ECONOMIC OUTLOOK — Prices generally will rise during the next six months, although not so rapidly, and with some commodities such as food and textiles dropping in the winter. Food prices should slump after the Argentine and Australian crops are harvested in February.

RENT CONTROL will be dumped within about six months, although the Republicans will be too smart to repeal it outright. They will pass the buck back to the individual states, which will mean the virtual end of rent controls, since state legislatures are notoriously susceptible to real-estate lobbies.

That, in brief, is the future G.O.P. congressional picture.

CAPITAL CHAFF

The big brass of the navy department has been pleading with Adm. W. M. Miller, retired, now TWA vice president, to return to his old job as chief of public information. But it's no dice. Miller quit because of meddling advice from Vice Adm. Carpentier. Death in office is the only thing that has ever rescued a president of the United States while serving his term.

PROSPECTIVE POLICY

WASHINGTON.—With Republican leaders gathering in the capital to begin organizing their own G.O.P.-ruled congress for the first time in 16 years, here is a merry-go-round view of what the country can expect during the next two years:

FOREIGN POLICY—On the surface there will be no outward change. Later, however, important changes will become apparent. The British already are worried over our swing to the right.

BUDGET—The three largest expenditures of government are for army-navy, veterans and service on the national debt. These can't be pruned — unless the Republicans want to cut down the army and navy, which they are not likely to do.

This is where one change in foreign policy comes in. The Italian loan was planned in order to help struggling Italian democracy and prevent Italy's swing to Russian Communism.

TAXES—Despite current talk of tax relief for small wage earners, there will be only minor tax cuts. One of two things will happen. Either expenditures will be such as to forbid major tax reduction.

TARIFFS — Midwest Republicans would like to go back to the old Hoover high tariffs. Some of the eastern Republicans from manufacturing regions will go along with them.

LABOR—One Republican faction favors immediate and outright repeal of the entire Wagner act. However, they know this would bring a veto and that the veto probably would be sustained.

1. The Case bill will be passed once again, and this time will become law. Even if Truman vetoes, which is doubtful, southern Democrats and the strong G.O.P. majority will be able to override the White House.

2. Senator Ball's bill, putting labor unions under the anti-trust laws, also will be adopted.

IMMIGRATION—Republicans are traditionally hostile to immigration and minority groups, and the house immigration committee now is inherited by Rep. Noah Mason of Illinois, well-known with-hunter. Displaced persons in Europe will get little comfort from Mason.

3. Senator Ball's bill, putting labor unions under the anti-trust laws, also will be adopted.

AGRICULTURE — No major change in the farm program is in prospect for the next two years. However, you will hear the same cry for parity prices on farm products. Co-ordination of all farm agencies will be demanded.

ECONOMIC OUTLOOK — Prices generally will rise during the next six months, although not so rapidly, and with some commodities such as food and textiles dropping in the winter. Food prices should slump after the Argentine and Australian crops are harvested in February.

RENT CONTROL will be dumped within about six months, although the Republicans will be too smart to repeal it outright. They will pass the buck back to the individual states, which will mean the virtual end of rent controls, since state legislatures are notoriously susceptible to real-estate lobbies.

CAPITAL CHAFF

The big brass of the navy department has been pleading with Adm. W. M. Miller, retired, now TWA vice president, to return to his old job as chief of public information. But it's no dice. Miller quit because of meddling advice from Vice Adm. Carpentier. Death in office is the only thing that has ever rescued a president of the United States while serving his term.

funds and handled in the county AAA committee made a substantial contribution to dairy and meat production. Payments were especially helpful in boosting dairy production to an all-time high.

too early to appraise the effects of beef, sheep and lamb payments, which did not begin until midsummer.

The payments were designed to increase production by helping producers to meet higher operating costs without raising the consumer price of their products.

**Dairy Payments**

After setting a record of 119.2 billion pounds in 1942, milk production fell off in 1943 largely because of rising production costs. In October 1943 War Food Administration authorized dairy production payments to eligible producers. Since then milk production has soared. For July 1945, production was 7 per cent

over that of a year earlier and 19 percent above average.

As of August 1, 1945, county AAA offices had written about 18 million payment drafts to some two million dairy farmers since the program started. The drafts covered sales of 106 billion pounds of milk and 1,225 million pounds of butter fat.

Payments for beef production were authorized in May, 1945. Payments did not begin until July because time was required to set up the program and get instructions and applications forms to county AAA offices. As of September 1, payments had been made to producers on over a million head of beef cattle.

While cattle slaughter set a record during the first half of 1945, more beef was needed to offset a sharp drop in hogs.

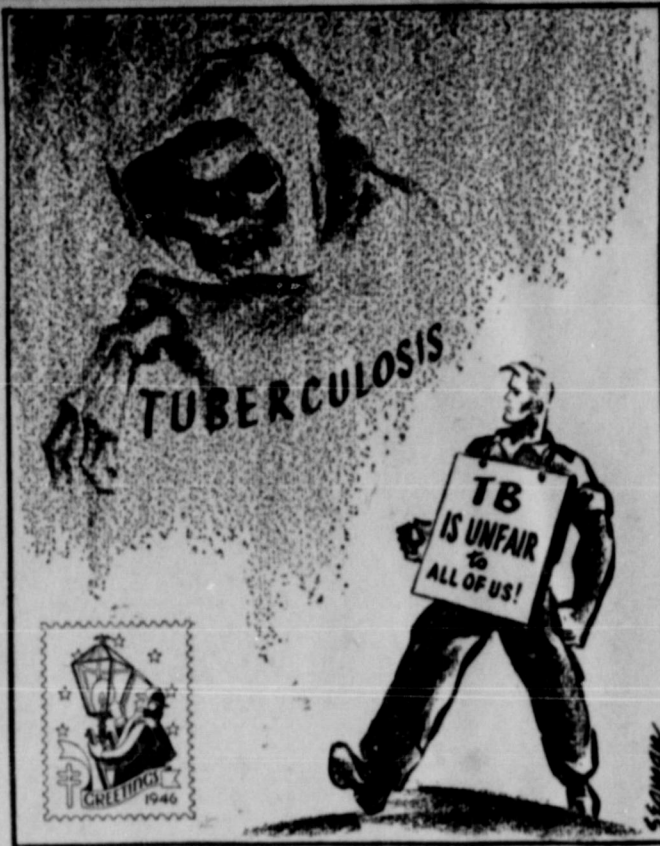

**Sheep and Lamb Payments**

Payments on sheep and lambs sold for slaughter after August 4 were begun in September. Record sheep and lamb slaughter during the war seriously reduced sheep and lamb numbers. Raising the lamb and mutton supply by feeding lambs heavier weights is one of the aims of the program.

Mrs. Ida Herring and granddaughter, Carol Ann Herring, have returned from Abernathy and Eilda, New Mexico where they spent 12 days visiting her daughter, Mrs. W. B. Thompson and family, and her sister, Mrs. Pearl Saunders. They returned home with Mr. and Mrs. J. B. Herring and sons, who joined them for a week-end visit with the Thompsons and the Saunders.

Mr. and Mrs. Glen Egan, Jr. spent Sunday with relatives in Hamlin.

**Cites Need For Better Educational Facilities**

LUBBOCK. — Crowded school conditions and the shortage of teachers is no more serious in Texas than in any other state, according to H. H. Bernhardt, educational counsel for News-week magazine, who visited Texas Technological College this week while making a survey of national educational facilities for his magazine.

"Never before have we felt a greater need for additional educational facilities," he said, "be-

cause as we undergo revolutionary social, economic and psychological changes in our shift from war to peace, it is imperative that students know what is happening and why."

Bernhardt advocated organization of current events discussion groups in social science classes to help students develop a perspective of world affairs. A serious lack of information on important historic and current events, as shown by recent surveys among American adults he termed a hindrance to development of world peace and security.

Mrs. Carl Cochran and sons returned Sunday from Houston where they had spent the past three weeks visiting her mother, Mrs. Tom Loper.

**ENTERTAINED ON BIRTHDAY**

Mrs. Fred Lain entertained Sunday afternoon with a party in honor of her son, Larry Don, on his tenth birthday.

The children enjoyed games at the home and at the City Park before being served refreshments consisting of birthday cake, cookies, grapes, coconut and cocoa.

Those present were L. C. Teague, Dickie Dale Pack, Doyle Dodson, Rayford Barnett, Sue Ann Richardson, Barney B. Arnold, George W. Coats, Royce McNulty, Donna Gaye Worley, Pearl and Ruby Buchanan, Monroe Thomas, Dickie Cross, U. R. Roberts, Dorothy Jean Pack, Joyce and Jo McNulty, Little Joan Carolyn Lain, and Palmer Brooks Campsey from Munday.

Mrs. Douglas Carlisle of Abilene spent the week-end with her parents, Mr. and Mrs. John King.

Mr. and Mrs. J. C. Saunders and Mr. and Mrs. Frank Woodall spent last week-end with the Buster Saunders family at Plainview.

Mrs. L. J. Tidwell is spending a few weeks with her daughter and family near Plainview.

**Gems of Thought Method**

The first idea of method is a progressive transition from one step to another in any course. — Coleridge.

Method is not less requisite in ordinary conversation than in writing, provided a man would talk to make himself understood. — Addison.

The poet's line, "Order is heaven's first law," is so eternally true, so axiomatic, that it has become a truism; and its wisdom is as obvious in religion and scholarship as in astronomy or mathematics. — Mary Baker Eddy.

The shortest way to do many things is to do only one thing at a time. — Cecil.

Last February we placed an order with the Liquid Carbonic Corporation for a modern Soda Fountain for delivery in May. Due to material shortages and labor strikes, we were unable to secure delivery until this week. Workmen are now busy on the installation which we hope will be completed by the week-end.

The new fountain is the very latest obtainable, twenty-two feet in length and constructed throughout of stainless steel, and arranged to serve our customers more easily and quickly. The bar is made of black Formica top with red Formica paneling.

We extend an invitation to all our friends and customers to come in this week-end and let us show you our new equipment.

The Once Over  
By H.I. Phillips

England Gets Back to Normal  
Things are returning to normal in England faster than we thought. Jewel robberies now are considered important enough to be mentioned among life's major annoyances.

Scotland Yard, cat burglars, palace jobs, international rings and super pool criminals are back in the British headlines. News that Londoners who survived the blitz now are disturbed by little things like loss of the family gems is cheering. Things must be looking up.

It is close to a decade since a Britisher on the home grounds felt like even making a complaint if he got home and found nothing worse had happened than ransacking of a dressing table.

The Duke and Duchess of Windsor come right out and admit a loss of \$30,000 worth of ice. It is only now that they would admit it made any difference.

Scotland Yard is hot after the jewel robbers but we think the thieves are doing the world a favor. They are flashing the glad news that the war is well into the background and that once again some of the worst things that can happen to you can be endured without a bomb shelter.

It shows that England really is recovering faster than some of her allies. No jewelry ring has been announced in France yet. Russia hasn't been bothered by a cat burglar. Even in America we are not yet in the big stolen-string-of-pearls stage of recovery, but caught some where between the Miss America renewals and the price of Christmas liquor.

It's nice to have Scotland Yard back. It seems such a long time since it was found anywhere except on radio programs.

With Scotland Yard intact and "Mister Inspector" on the job once more, the routine of happier years returns. We should not have to wait long now before hearing about the tailor who buried eight wives in an old well in Sussex and the professor of chemistry who amused himself by experiments with arsenic on housemaids.

But one thing disturbs Americans. We have supposed the British were having as much trouble eating as we are. Yet the main objective on the crime wave there is a ruby, not a lamb chop; an emerald, not a hamburger. How come?

"Bourbon whisky will cost \$10 a fifth by Christmas."—News item.

"We stand at Armageddon and we 'bottle' for infusion."

So You Never Saw Al Jolson

Al Jolson's life story has been put on the screen. Al doesn't appear in it. A young movie actor, Larry Parks, plays the role while Al's voice is synchronized into the picture. Parks does a good job but there was only one Jolson and no imitator could ever touch him, although hundreds tried. Never to have seen Jolson is to have missed one of the most electric personalities the stage ever knew.

He wasn't just a comedian; he was a battery with a voice, an electric charger with a human personality, a bolt of lightning in black-face. He was a thing of watts and amperage. No doctor ever took Jolson's pulse; they took his voltage.

You felt Jolson's presence while he was still in the wings and when he swept onto the stage it was like seeing a four-ring circus break out of an egg.

He was a great showman without seeming to be, a super comedian who never had to cram the idea down your throat. Jolson always seemed to be having more fun than the audience, and it always seemed to us that he played a 30th performance with all the vitality and sparkle of a first night.

You hummed the Jolson tunes as you filed out of the theater. You told his stories for weeks.

What a man! And, come to think of it, he never boasted about the big salary he was getting, wrote a book or did a column as a sideline. Maybe it was two other fellows, after all.

SITUATION WANTED.  
That day, indeed, I'll dance and sing  
And laugh and rave and batter  
When guys will do most anything  
To earn an honest dollar.  
—Pie.

"Price ceilings are being taken from radios, fans and oils" — News item.

AROUND  
When making a new dress for your little daughter, make a matching hanky. She'll remember to take one then, for she'll always be looking for one to match.  
If you need a kitchen stool to get at those high shelves, use an old baby highchair. Remove arms and tray and paint the stool to match your kitchen set.  
Rag rugs will stay flat and will not rumple if they are washed in hot water and again in cold water. Use a heavy starch. Iron when dry.  
The material in fibre rugs is excellent and durable for youngster's rooms. Many makes have double life since they are reversible with pattern on both sides. When you buy one of these rugs see that it has woven ends of fairly heavy weight for lasting wear.  
The corners and crevices of your furniture sometimes need extra attention. Use a small new paint brush. Dip it in furniture polish, then give the corners and crevices a real going-over. Makes a really thorough dusting job.  
When washing collars and cuffs of shirts scrub lightly with a small brush. This quickly removes the soil and saves time.

LETS YOU TURN OUT... at a moment's notice  
Quick acting... easy to use... on your pantry  
IF YOU BAKE AT any time you want to use Fleischmann's Fast Rising Dry Yeast... more being "crisp" in the house... new Fleischmann's keeps fresh on your pantry. Keep a supply handy!

If Your Nose Spoils Sleep Tonight  
Surprisingly fast, Va-tro-aid works right where trouble is to open up your congested nasal passages... You'll like the way it brings relief. (NOTE: Va-tro-aid is also good for relieving sniffles, sneezing, itchy eyes and sore throats.)

Still the required report is... office, VA officials said. Veterans in training and... status must report... earnings from productive... for the months of August, September and October. Plans have been mailed to all... on the suspended list, if these have been misplaced, the report of earnings can be made in a letter over the veteran's signature. Under legislation passed last summer, veterans' payments and earnings are limited to a total of \$175 monthly for those without dependents and to \$200 a month for those with dependents.

In the event those figures are exceeded, the subsistence allowances must be reduced accordingly. VA officials believe most of the reductions will be made in allowances to veterans taking on the job training. It is believed that only a few veterans in educational status will be affected.

The Veterans Administration has obtained an additional 1,600,000 books from the United States Armed Services Institute to add to the 600,000 other surplus books still available to schools and colleges for their veteran-students, VA announced this week.

The USAFI list contains 196 different titles and includes standard cloth-bound texts, self-teaching texts, and paper-bound volumes. Mathematics, literature, foreign languages, science, history and business are among the many subjects included.

Library of Congress is distributing the books. VA pays the library for its handling and pays the school for handling costs for books distributed. Only veteran students can obtain surplus volumes.

The Library of Congress cannot send books direct to veterans. VA requests that veterans inquire only through school officials, or, in the case of job

British Pension Minister Visits Paraplegic Ward

trainees, through VA training officers.

Q. What is the difference between compensation and pension?

A. Compensation is a term used to describe monetary benefits payable for service-connected death or disability under laws administered by Veterans Administration. The term "pension" is used to describe non-service-connected monetary allowances.

Q. Is a widower of a World War II veteran eligible to receive compensation or pension?

A. No. The term "widow" does not include a widower with reference to payment of compensation or pension based on the death of a World War II veteran. However, a widower is eligible to receive unpaid disability compensation or pension that accrued prior to the death of a woman who had served in the armed forces in World War II.

Q. How do I go about filing a claim for pension on the death of a veteran who was my sole support?

A. You should file your claim for pension with the Veterans Administration on its Form 535.

Q. Will various monetary benefits received by veterans under the G. I. Bill be deducted from future bonus?

A. No; that portion of the Servicemen's Readjustment Act, (GI Bill) which formerly provided that any benefits received under the Act would be deducted from any future bonus authorized, has been repealed.

Q. Is it possible for a veteran to complete his elementary school under the Servicemen's

Readjustment Act?

A. Yes.

Q. I am receiving retirement pay and wish to take up training under the Servicemen's Readjustment Act. Is it possible for me to receive subsistence allowance while receiving retirement pay?

A. Yes.

Tom Lair, Jr., of Canyon spent the week-end in the home of Mr. and Mrs. Ed Shaver. Mrs. Lair and daughter, Andrea, returned home with him Sunday after spending the past two weeks here with her family.

**TIME TO Check Your Car!**

**KEEP YOUR CAR RUNNING RIGHT AND LOOKING GOOD—let your Humble station give it this thorough check after last summer's hard driving. Humble stations are fully equipped and Humble men are carefully trained to render you these services.**

- TIME TO OIL**  
Change oil and filter every 3,000 miles. Use 77 or 70 motor oil.
- TIME TO LUBRICATE**  
Apply chassis lubrication grease into every joint with the right lubricant for smooth, quiet operation.
- TIME TO CHECK THE COOLING SYSTEM**  
Check, flush and refill the radiator. Replace fan belt and check water pump.
- TIME TO CHECK WINDSHIELD WIPER BLADES**  
Use a clean wiper on your windshield. To drive safely, you must be able to see.
- TIME TO CHECK YOUR SHOCK PLUGS**  
Check, adjust, or replace shock plugs for more efficient operation and for better gas mileage. At Humble stations, you'll be able to check your shocks.
- TIME TO CHECK THE TIRES**  
Check your tires for longer wear. Replace tread when the safety's worn. At many Humble stations, you can get Air Tires, with the standard 500-mile guarantee.
- TIME TO CHECK BATTERY AND BATTERY CABLE**  
Check your need recharging or do you need a new battery? And don't forget to check battery cables—they can give you a lot of trouble.
- TIME TO CHECK DIFFERENTIAL AND TRANSMISSION LUBRICANTS**  
These should be changed every 5,000 miles. When was the last time you changed yours?
- TIME TO WASH, POLISH AND WAX YOUR CAR**  
Save that paint. You'll want your car to look good all year long.

### Junior News

The Juniors have started a new six weeks, the last one in the first semester. All of us were pleased with our tests and our grades except a few. We have now started on our Junior play which is "Closed Lips." You will hear much more about the play and the cast later on, because we want to give the Seniors a banquet they will remember. Be sure to read The Kennel every week for further information.

Football season is over and we would like the squad to know just how much we have appreciated them in all the games. We are very proud of them and hope they do as well in the years to come.

### Pep Squad News

The Pep Squad girls held their last meeting for the year Nov.

25. The purpose of the meeting was to elect the leaders for the next year. Leaders elected were Becky Hackfield, Virginia Buckley and Clara Dean James. We have all enjoyed being in the pep squad, and have had lots of fun at all the games. We also are proud of our football boys for winning the bi-district title again. Here's luck to the leaders and the entire pep-squad next year.

The Basketball season is here and fifteen boys have already reported for practice, which began this week. Coach Schofield reports that ten new suits have been ordered and will be here for the O'Brien Invitation Tournament on December 5, 6 and 7. The first game of the season is planned for Tuesday night, December 3, at the local gym.

## Advices Feeding Of Phosphorus to Cattle

Lacking phosphorus enough in their feed, cattle may develop nutritional diseases, the most common of which is known as "creeps." For a remedy, scientists recommend phosphorus compounds dissolved in the drinking water or mixed with feed. Bonemeal fed in a self-feeder is a convenient way to supply phosphorus. For prevention there is a third and indirect method of improving the phosphorus supply fertilizing ranges and pastures with a superphosphate.

There are many areas in the United States where the natural phosphate supply is low, according to W. H. Black of the U. S. Department of Agriculture. He stated that some of these lie along the Gulf Coast and the eastern seaboard. A strip low in phosphorus supply extends from central Texas to well up into Canada. In this mid-continent strip the phosphorus deficiency is increased in periods of dry weather which check the ability of range plants to extract enough phosphorus from the soil to supply the needs of the cattle.

The indirect method of fertilizing with phosphate usually improves the yields as well as the quality of forage. Black points out. But in extremely dry areas the added yield of forage and increased beef may not pay for the fertilizer. In Texas the Bureau of Animal Industry in cooperation with the Texas Agricultural Experiment and the King Ranch is experimenting with phosphate fertilization of range areas to find out how much increase in yield results from application of phosphate and over how many grazing seasons an application of fertilizer will continue to improve forage and beef production.

Di-sodium phosphate fed in self-feeders or dissolved in the drinking water has also proved satisfactory as a means of controlling and preventing phosphorus deficiencies in range cattle. Black suggests that as the chemical gets back to normal after the war the cattlemen are likely to find the mono-ammonium or mono-sodium phosphate salts more economical sources of phosphorus than the di-sodium salt for use in watering tanks. During the war these salts were in short supply.

Clyde Graham of Sweetwater spent the week-end in the home of his parents, Mr. and Mrs. L. W. Graham.

Horace Benedict returned Friday from Dallas, where he spent three days transacting business.

Kenneth Lawson, T. J. Jones, Mrs. G. H. Webb and Jack Stubbs returned Tuesday from Houston, where they had spent a week visiting relatives.

## Texas Tech to Get 29 New Buildings

LUBBOCK (Spl.) — Twenty-nine additional buildings will be moved to the campus of Texas Technological College by the Bureau of Community Facilities, Federal Works, agency, according to telegrams received this week by Pres. W. M. Whyburn of Tech from Sen. Tom Connally, Sen. W. Lee O'Daniel and Cong. George Mahon.

The structures, which are surplus war installations, will be moved to Tech from Camp Bowie and Hondo Army Air Field. Under the program the college will provide buildings sites and utilities and the FWA will move in the buildings.

Among the items approved by the FWA for Tech are seven classroom buildings, space for four laboratories for general science, mechanical engineering and electrical engineering, three ROTC buildings, a dispensary, a clinic, a cafeteria, a faculty office building, a building for book storage and six other storage buildings, two maintenance shops, an auditorium and a veterans' guidance center.

The FWA has also made tentative assignment of some \$6,000 worth of classroom and office equipment that may be made available to Tech at a 95 per cent discount of cost.

Mrs. Dolly Dukes of Oklahoma is spending a few days with Mrs. Joy Smith and the Large families.

## History of Guam Operation Available

"Guam," the history of the Army's part in the recapture of this strategic southernmost base in the 660 mile long chain of the Marianas, has been released for public sale by the Government Printing Office.

"Guam" is the detailed, day-by-day story of the twenty-one days from July 21 to August 10, 1944, during which time the 77th Division fought its way over all but impenetrable jungle terrain to rout a Japanese force of 18,500 and wrest back an important American outpost, Jap-held since four days after Pearl Harbor.

The book covers the initial landings of the Marine troops on Guam, the capture of the first and main objectives—Orote Airfield and Apra Harbor—and the landing and supplying of the 77th Division over one of the toughest reefs in all the assaults on islands in the Pacific. It gives an account of the 77th, determined that the concentration of Jap forces was in the northern part of Guam, swinging across the waist of the island and pursuing the enemy north-

### Sgt. Hendrick Outlines Advantages Of Army Career

In the belief that many individuals considering an Army career are unaware of the many advantages that will accrue through service in the Regular Army, Sgt. James Hendrick of the Childress U. S. Army Recruiting Station has outlined the current advantages that may be derived from service in that organization.

For all enlistments: (1) educational benefits under the GI Bill of Rights for duration, (2) 3 years he may be granted a 30 day leave chargeable to the

United States Armed Forces Institute, (3) dependency benefits for duration plus 6 months, (4) free mail privileges, (5) exemption from income taxes, (6) retirement after 20 years at one-half pay; after 30 years at three-fourths pay.

On reenlistments accomplished within 20 days from date of discharge a man may reenlist in grade held at time of discharge, and if he reenlists within 3 months will receive a bonus of \$50 per year from date of last payment of bonus. If the reenlistment is accomplished in 3 months and for a period of 3 years he may be granted a 30 day leave chargeable to the

man. Any accrued leave from a previous enlistment may be combined with the reenlistment leave, not to exceed 90 days. Five cents per mile travel pay to home and return will be paid.

Advantages of enlistment for a three year period: (1) choice of arm, service, and theater of those now open, (2) direct enlistment to six divisions now stationed in Japan and Korea, (3) former members of Army, Navy, Marine Corps and Coast Guard discharged after May 12, 1945, may enlist in the Regular Army under provisions of latest War Department regulations in grades comparable to training and service in job specialty not above staff sergeant, (4) eligible to attend service schools and receive on-the-job training.

In addition, Sgt. Hendrick says that there are now openings in over 100 different jobs for partially disabled combat wounded veterans who can meet the requirements. Up until the 31st of January, 1947, they can be enlisted in the grade held at time of discharge.

Hendrick cautions that while at present the Army is taking men for the 18 month and two year enlistments, after January 1, 1947, they will be discontinued. Any man seeking to take advantage of the short term enlistment should act at once.

Dale Graham, who is attending WTSTC in Denton, arrived home Wednesday to spend the Thanksgiving holidays with his parents, Mr. and Mrs. L. W. Graham.

Mr. and Mrs. J. C. McGee, accompanied by Mr. and Mrs. Howard Mayfield of Ft. Worth, spent the week-end in Abilene with Mr. and Mrs. Bobby Simpson. While there they attended the McMurry Homecoming.

From where I sit

We were sitting on Bill Webster's porch the other night, chatting over a glass of beer—when the talk turned to forest preservation, soil erosion, and other things that affect a farming community.

Judge Cunningham speaks up: "It's all right to worry about conserving our natural resources," he says, "but there's a far bigger problem when it comes to conservation—and that's preserving our democratic way of life, our sense of personal freedom, our respect for one another's rights."
