

Clyde, Eula and Baird Fireman struggle to remove twoyear-old Shyanna Steele from a water well in Clyde. (Staff Photo)

Clyde Volunteer Fire Department presented with plaque

By Billy Harris Baird Correspondent CLYDE- The family of the two year old Clyde girl that perished after falling into a water well on February 18th, presented the Clyde Volunteer Fire Department with a plaque

Tuesday night the following week.

Shyanna Steele, 2, was pronounced dead at an Abilene hospital Tuesday, February 18th, after a water well caved in carry-

Fire Department personnel pulled the little girl from the well about an hour after arriving on the scene but attempts to revive her failed.

Shyanna's Greatgrandparents James and Maybelle Steele, Grandmother Marilyn Vinson, an Aunt, and several cous-

ins thanked the Clyde Firemen and other assisting departments for their efforts in trying to save their little girl. Assistant ing her into the water Clyde Fire Chief Billy Nicole Steele, February 18, below. Clyde Volunteer Dezern accepted the 1997.

plaque from the family on behalf of the whole department. The family expressed great appreciation for the efforts of rescuers.

All in attendance were treated to cake and drinks provided by the family.

The plaque reads: In Deepest Gratitude To The Clyde Volunteer Fire Department For Your Unselfish Giving of Yourselves In Our Family's Time of Need.

In Memory of Shyanna

Baird Bank names Boyd as assistant cashier

to announce the promo-Assistant Cashier.

the bank since April 1978. For the past 2 1/2 years she has worked with new accounts and certificates of deposits.

Barbara has lived in the community all of her life. When asked what she enjoyed most about her work Mrs. Boyd said, "I like the fact that we are

The First National small enough to know Bank of Baird is pleased each customer personally and I get to represent First tion of Barbara Boyd to National Bank of Baird often as a first impression

Mrs. Boydhasbeen with to new customers." We at First National Bank of Baird appreciate Mrs. Boyd's hard work, outgoing personality, and genuine concern for others and feel that these qualities have made her a vital part of the bank and our community," said Sammy Edington, president of the bank.

Baird C of C Annual Banquet

By Billy Harris

Baird Correspondent The Baird Chamber of Commerce held its Annual Awards Banquet Saturday, March 1st at the Baird Cafetorium. About 200 people enjoyed the meal of Bar-B-Que and trimmings furnished by Shipp's Smokehouse of Baird with members of the Chamber serving.

Bun Barry (1996 Chamber President) "passed the gavel" to incoming President Karen Riddle. Other 1997 officers are Vice President Buddy Shipp, Secretary/Treasurer Cindy Curtis, and Reporter Bradina Benson.

Appraiser Rod Lewallen presented the award to Karen Riddle. Karen has been involved with the Chamber for many years, serving as secretary and now President, and has also been involved with Girl Scouts and the Baird Booster Club.

Outstanding Student Awards were presented next. Nominees for the Boy were Bryan Abernathy and Chad Barron. High School Principal Sandra Carter presented Bryan Abernathy the cer-, tificate. Bryan is involved in the Beta Club, Christian Athletes, Band, Ranks 2nd in his Senior Class, and lettered two years in basketball. Outstanding Girl nominees were Kari Roan and Marie Moore. Baird School Superintendent Steve Maikell presented Marie Moore with the award. Marie made honor roll all her years in high school and was active in Beta Club, Band, One Act Play competition, served as Jr. Class President, Athletic Manager, Student Council President, and participated in the

Academic Challenge on KTXS-TV.

The Howard Farmer Citizenship Award, the Chamber's highest honor, was presented by Skip Parker, last years recipient. The nominees were Tom Ivy, K. D. Griffin and Jay Hanner.

Jay Hanner, owner of three area new car dealerships, was chosen as this year's honoree. Skip said Jay moved his family to Baird in 1974 and bought Check Chevrolet and has done very much to help put Baird on the map since that time. Jay had been in the automobile business since returning from World War II, where he served on the USS Mississippi, and opened a used car lot in McLean, Texas. The Hanner businesses employ 85 people and have sold close to 30 thousand vehicles from the Baird Dealerships. Jay regulary contributes to local functions and has been the silent backer of many charitable projects. Jay received a standing ovation when he accepted his plaque.

Keffer promoting legal reform

Austin-State Representative Jim Keffer has sponsored legislation aimed at reforming the Texas legal system. The package of tort reform bills is designed to curb frivolous lawsuits and unreasonable limit awards.

House Bill 1022, the Judgment Reform Act would allow a jury to consider payments already made to a plaintiff before awarding additional compensation. Under current law, juries can unintentionally award multiple recoveries for the same injury because they are never informed of payments that have previously been awarded to a claimant. The bill would also limit so called "windfall interest" awards by restricting the interest an award could earn during unnecessary legal delays.

ing an act that would relieve property owners of liability for criminal acts committed on their property unless gross negligence can be proven. Property owners would also be excused from injuries that

occur on their property if the claimant had voluntarily engaged in an activity he or she knew to be dangerous. "These measures are about common sense,"

Keffer said. "Tort law should not hold defendants responsible for damage they don't cause. People deserve reasonable compensation for injuries they suffer as a result of another individual's neg-

ligence, but our system unfairly allows people to reap monetary gain disproportionate to the actual damages." Representative Kefferis

Published every Thursday. Publisher......H. V. & Gaynell O'Brien Editor.....Lupe Garcia, Jr. POSTMASTER: Send address changes to Callahan County Star, 211 Market St., Baird, Texas 79504. SUBSCRIPTION RATES \$15 per year in Callahan County; \$16 per year for Counties Adjoining Callahan; \$18 per year in Texas, out of Callahan County; \$21 per year out of Texas.

Keffer is also support- also coauthoring a bill that would require courts to consider claims field by Texas residents or claims that arise in Texas before considering out-of-state lawsuits. It would give judges the ability to ex-

port out-of-state claims to the states in which they originate. "This bill does not deprive out-of-state claims their day in court," said Keffer. "It merely sends cases to the courts in which they belong and

allows Texas courts to serve Texas residents better."

Local Musicians to play at Abilene ballroom

Abilene - The group "Union Hill" of Lewisville will perform at the Ponderosa Ballroom in Abilene on Friday and Saturday evenings, March 7th and 8th. The group features two local musicians, Vince Chippone of Clyde and Paul Strickland of

Charlotte Savage recieves degree

Baird.

Charlotte Geneal Savage of Baird was conferred the Bachelor of Behavioral Science degree in commencement ceremonies at Hardin-Simmons University, Dec. 13, 1396.

The annual December commencement program was held in Behrens Chapel on the HSU campus.

She was one of approximately 130 students to receive degrees after a brief charge from HSU president, Dr. Lanny Hall.

Maynard and Judy Gulley The 90's version of monopoly

New York - No, its not Cary Grant and Deborah Kerr, but it certainly is "An Affair to Remember" as Maynard and Judy Gulley are presented with the new game of the year. This honor was presented to the Gulley's on top of the Empire State Building at a conference given by the New York Toy Fair.

The new game was created by Jeff Berndt, originally from Vale Colorado, and produced by Maynard and Judy Gulley. This dream for Jeff took form over a period of eight years, the last two being in Abilene at the Gulley's request.

The game is a threedimensional version of Monopoly, and was sparked after Berndt lost to his college buddies playing the old game of monopoly. He was watching Star Trek and saw Mr. Spock playing a threedimensional Chess game - thus Triopoly was born. Once Triopoly is played, the old monopoly is a game of the past. This is truly monopoly, the next generation.

During the years of ground work, Berndt researched all board games, copyrights, infringements and patents. And once that was done started looking for investors, thus hooking up with

the Gulley's. YaQuinta Printing, in Dallas, Texas, prints board games from all over the world. When the game of Triopoly was printed, YaQuinta requested that they be allowed to display the game at the New York Toy Fair. During YaQuinta's business year of printing board games, they pick out the best prospects for the upcoming year, and Triopoly was picked. YaQuinta also requested that Jeff, Maynard and Judy attend New York for the presentations and exhibitions. On a spooky note, the Gulley's presentation

was done on the exact spot where six days later a gunman opened fire on tourists at the top of the Empire State Building. The games have not

hit many retailers' shelves yet, but if you are interested in purchasing this new game, you can see it at the HeadShed and Bared Beach in Baird. The price is \$39.95 plus

tax.

Master of Ceremonies Jack Corn spoke to the audience of how when he was growing up, the and great-grandfather had lived on. Other nominees for the Agricultural Award were Scott Goldsmith and Benton Pruet.

Rod Lewallen, Jerry Loper, and Elaine Stephenson were announced as nominees for the Professional Achievement Award. Pat Parker presented the award to Elaine Stephenson, proprietor of Keltons Flowers in Baird, saying how Elaine learned the trade from her father-in-law the late Hoss Stephenson.

County Attorney Allen Wright announced the three nominees for the Community Service Award, Billy Harris, Bun Barry, and Dyer Windham. Callahan County Tax Assessor Collector and outgoing Chamber President Bun Barry was honored with this award. Wright described Barry, who was awarded two Purple Hearts during his military service, as the nicest tax collector since

Matthew in the Bible. The "Pat on the Back" Award was chosen from these three nominees: Karen Riddle, Skip Parker, and Jim Stevens. Callahan County Tax

Does your home have these symptoms of tired, toxic air?

The truth about home air quality

Dear Homeowner,

Your home could be killing you slowly. Your home could be the root cause of dozens of common health problems like: 1. Allergies

- 2. Watery, itchy eyes
- 3. Tired, rundown feeling
- 4. Restless sleep tossing and turning
- 5. Coughing, wheezing
- 6. Skin rashes
- 7. Diminished concentration
- 8. Flue-like symptoms
- 9. Headaches
- 10. Chest tightness
- 11. Intestinal disturbances
- 12. Bacteria and viruses causing measles, influenza, chicken pox and strep.

And more. Much, much more. My name is Fred Hann. I may be one of the most famous certified indoor air

quality specialists in the country. Some people call me "Mr. Clean Air." I've spent a good deal of my professional life involved in solving clean air problems for homeowners and businesses nationwide.

No matter where you live in the country, I've probably influenced the safety and comfort of homes in your area.

I've learned your home could be holding you hostage to toxins and poisons of all kinds. How?

If your home was built within the last 40 years... it has modern building materials known to emit fumes and cause health problems. Plastics, plywood, synthetic carpets, carpet padding, glues for tiles and wallpaper, paints, paneling and more. All these building materials could be polluting the air in your home. That's just the beginning.

Other Problems

1. Plus, your health could be under attack from household pets shedding hair and dander.

2. Or your gas stove, furnace or fireplace could be burning YELLOW flames instead of BLUE ... (Carbon monoxide! Nitrogen dioxide!)

3. Or you could have a cabinet full of spray cans, paint thinners, paints, soldering equipment, insecticides or moth balls (Fumes!)

4. You could have a sewer leaking methane gas or hydrogen sulfide into your home.

5. Even DRY CLEANED clothes can be a source of allergic reaction.

6. Smokers who live with you or visit your home could add to the problem.

The Problems Could Go On

How important is the air in your home? Look at it this way...you can live 30 days or more without food...10 days without water...but only 5 minutes or less without air.

If your air is bad, you are stealing vital energy and health from yourself.

Is there a solution? You bet there is. I'm writing to tell

you about an amazing method of cleaning the air in your home. It's a tested, proven method that has brought relief to thousands of homeowners nationwide. It's a solution called THE HYPOGENIC HOME™. You can only achieve a HypoGenic Home by effectively implementing the 6 ways listed below of reducing the concentrations of pollution in your home. You can only get the HypoGenic Home by calling the number below. The call is TOLL FREE. A trained specialist will come to your home and examine it for toxic, polluted air. If your home suffers from damaging polluted air, you may opt for one or more of the 6 home air pollution busters.

How your house could be robbing you and your family of vital energy and optimum health.

HypoGenic Homeowners Speak

"I never thought they'd invent something this good. It has completely eliminated the smoking odors that always bothered me. Last week I cooked fish and you'd never know I did. It's truly amazing. The whole house smells so fresh now. I've always felt badly when guests came over and now I don't have to worry. I'm no longer stuffed up with all the stale odors that used to be in the house. I generally feel better now and I had allergies all year. I'd like to tell everybody about this!'

Mrs. Lattie Small, Ohio

Her husband was a smoker. She, her husband and their cleaning lady noticed a miraculous difference in only 3 days.

We installed a UV germicidal unit and immediately recovered from our flulike symptoms. We were able to remain in the house until the remodeling was complete. Generally, we've all been healthier and our kids even have better school attendance! We're less concerned with the periodic influenza alerts because if one of the kids comes home with the sniffles, it won't affect the Mr. Whitney Fisher, Indiana entire family. After installing a HypoGenic Home System during the remodeling of his home.

The "Energy Efficiency" Problem

Modern day building methods are also a source of health problems. Making homes AIR TIGHT to save on heating and air conditioning bills traps toxic pollutants IN YOUR HOME. They get in but can't get out.

The Hidden Dust Buildup Problem

Your home heating ducts could have a buildup of four (4) inches or more of dust, debris and microorganic matter. Yes, 4 inches of breeding ground for dust mites in your ducts. Just one ounce of dust contains nearly 42,000 living dust mites. Each one expels 20 fecal pellets every day into the air you breathe1.

"Let's Step Outside for a Breath of \$ Fresh Air."

Congress and the EPA now admit that indoor air pollution is one of the top environmental issues facing our country.² The air in your home can be as much as 100 times more polluted than the air outside.2 Now you can do something about it. Now you can have a HYPOGENIC HOME.

The HypoGenic Home is accomplished by a nationwide network of highly trained heating/air conditioning specialists I'm involved with who know what to look for and how to solve the problem in the easiest way possible.

Here are some of the benefits you could get from a HypoGenic Home

- Feel better, rest better
- Rid your home of common irritants
- Give yourself sharper concentration End symptoms of depression caused
- by poor air quality
- Get rid of stuffiness
- Increase your energy
- · Eliminate odors and reduce carcinogens from your home
- Reduce your need for medical visits
- Give yourself a new, restful sleep
- Live a longer, fuller life
- Dust your furniture less often
- Remove many toxins from the air • Give yourself peace of mind

Today, more than ever, common illness symptoms are due to poor indoor air quality. Formaldehyde, dust mites, household chemicals and a multitude of irritants invade your home constantly. These toxins and microorganisms can seriously impair you and your family every day. The HypoGenic Home specialist can remove these problems... and improve the qual-

"It was not a pretty sight! When I removed the grill, it looked like a hairy pit. I even called my wife. It almost looked like something was living in there! We decided to have the ducts cleaned and the difference is unbelievable. We feel better; the house smells better; and Amy doesn't have to dust the furniture as often. Now when little Chris rubs his eyes, we know he's only tired.

Mr. & Mrs. John Camie, St. Louis

"Before having my ducts cleaned and the installation of the HEPA HypoGenic Filter, I had to be hospitalized regularly. Within 24 hours of entering the hospital, I always began to breathe more easily. And when I returned to my home, I would become ill again. It has been eight months since I installed the HypoGenic equipment and I haven't been back to the hospital once! Not only do I have overall improved health, but I also sleep better at night. I perform better at my job because I sleep better now and I have much more stamina to make it through the day. I'm amazed at how much cleaner the air in our home has been.

Mr. Don Wood, Utah

Suffering from cystic fibrosis, a pulmonary disease. Coupled with asthma, he was literally breathless for years before becoming a HypoGenic Home owner.

Results may vary

ity of your home life. You'll breathe easier. Indoor pollutants are the major cause of many of today's illnesses. Nausea, etc., could be symptoms of poor air. Most people are content to live in conditions they feel they cannot control. Today's technology can reduce or eliminate the constant physical problems you endure. By using the HypoGenic Air System, you can create a healthier atmosphere for your family.

Feel better, rest better. Rid your home of common irritants. Give yourself sharper concentration.

New Air Purifying System Creates Cleaner, Healthier Environment

Small children and the elderly are especially at risk if your home has poor air quality.

How Much is Poor Air Quality Costing Your Family?

Are you paying good money every year in medical bills due to poor indoor air quality? Do you suffer headaches or other cold-like symptoms from polluted air? Do you need more energy ... and greater concentration at work? Are you mildly depressed for no apparent reason?

Bad indoor air could cost you many thousands of dollars a year in lost income opportunity and outright expense.

and over again. That's why we feel confident about making this unusual money-back guarantee. If, after 90 days, you don't feel healthier, more energized and enthusiastic and even experience greater concentration, we'll take back the HypoGenic Home Unit and refund your entire investment. Furthermore, we'll even deduct 100% of the cost of the system you chose from your investment in an upgraded version of your system. No one else in the entire industry offers this type of satisfaction guarantee. You have nothing to risk, nothing to lose.

The HypoGenic Home inspection is FREE. We'll check your home for all the possible sources of bad air.

After this FREE inspection, you'll know exactly what your home needs to have the freshest, cleanest air possible.

For more information on how you can improve the air quality in your home and for your FREE HypoGenic Home analysis, call

The 6-Step Program to Achieve a HypoGenic Home

air, the HypoGenic Home Specialist will recommend a method to mix clean air with the "stuffy" air. If the weather is good, you could always open the doors and windows. But what about when the weather's bad? We've discovered a way to do it without sacrificing the heating and air conditioning of your home.

2. Absorption - If the HypoGenic Home Specialist detects the presence of formaldehyde, benzene or other toxins in your home ... and believe me, it's in more homes than you might expect... he might recommend ACTIVATED CARBON. It will absorb many of the compounds.

3. Filtration - Most heating/air filtration systems are not very effective. The HypoGenic Home Specialist recommends filters up to 12,000 times more efficient than a typical supermarket or hardware store throwaway brand. A good filtration system will remove particulates between 1 and 10 microns. The HypoGenic Home Specialist will check your filters for efficiency.

1. Dilution - If you have a high concentration of toxic compounds in your indoor 4. Oxidation (The Thunderstorm Effect) - One of the secret weapons of the HypoGenic Home Specialist is to introduce activated oxygen... better known as OZONE ... into your home. This method actually imitates a THUNDERSTORM. The electrical discharge of lightning restructures oxygen molecules into an unstable molecule known as "trivalent oxygen" or ozone. When ozone encounters a pollutant, one of its oxygen atoms breaks away and oxidizes the pollutant. This makes an effective way to eliminate odors and nasty microbes.

> 5. Irradiation (UV Light Kills Germs) - Many indoor pollutants will be completely destroyed when a HypoGenic Home Specialist introduces a germicidal UV "Light" wave to the toxic compounds and infectious agents. This process alone could be worth the entire trouble of making your home safe from indoor pollution.

> 6. Physical Removal - A HypoGenic Home Specialist will physically inspect your heating/AC ducts. It is not uncommon to find up to 4 inches of vitality-robbing dust, mold and debris growing in your duct work.

judge should retain office.

'Sadly, the results of these races

Phillips, a Republican, also said

Last week, in his State of the

confidence in the justice system.

Texas Supreme Court Chief

AUSTIN - Insurance Commissioner Elton Bomer said last week Texas' compulsory insurance law is not working because about onefourth of all drivers are uninsured.

Speaking to a Senate committee, Bomer suggested that the state could pass a law that would require insurance companies to communicate with the Department of Public Safety "and let them know when an insurance policy is written and when it is canceled."

Then, he said, computers could be used to make sure drivers have valid policies.

Many drivers buy fake insurance cards to get their automobile license tags and inspections, while others buy policies and cancel them as soon as they get their license tags or driver's licenses, Bomer said.

While Bomer was voicing his concerns about uninsured motorists before the Senate Nominations Committee, the House Insurance Committee heard testimony on bills that would:

a Automatically jail drivers who are caught without insurance for six days and subject them to stiffer court penalties;

m Increase the fine for uninsured motorists; and

Limit the right of uninsured motorists to sue.

spent on Texas appellate court races from 1988 to 1994. Sen. Rodney Ellis, D-Houston, said he would push for judicial election reform.

"Black and brown people in Texas go into a courtroom looking for justice and the only black thing they see is the color of the robe and the only brown thing they see is the wood paneling," Ellis was quoted by The Dallas Morning News.

Loan Program Introduced

A home improvement loan program for low-income families was introduced last week by the Texas

The program combines private carry insurance. The industry has voiced support for a no-fault insurand public money to provide \$13.3 ance system where drivers involved million for loans to low-income families who live in cities under in accidents are compensated by 50,000 population. Half of the Bomer, who favors a no-fault money is earmarked for colonias system, said the compulsory insurthe subdivisions near the border ance law has been troubled because with Mexico that don't have water

it is not liked by insurance comand sewer services. The 20-year loans, at 6.99 percent interest, are capped at \$25,000.

Bivins' Tenure Bill Passes

The Texas Senate passed a bill filed by Education Committee Chairman Teel Bivins, R-Amarillo, that would require state colleges and universities to evaluate tenured faculty and administrators at least every six years.

Tenure is a status that is awarded to those who show excellence in teaching and research. A tenured professor cannot be fired without due cause.

Opponents say tenured professors already face annual reviews.

Bivins' bill tightens those reviews, which have been regarded as "slack" by some university officials. The legislation addresses complaints Bivins has received from parents, students and faculty about professors who coast after earning tenure.

Other Capital Highlights

 State Sen. Drew Nixon, R-Carthage, publicly apologized three days after being charged Feb. 18 with soliciting prostitution on Austin's South Congress Avenue. Nixon offered no excuses for his behavior, but said he had no plans to resign from public office. He returned to work Feb. 24.

The state Senate voted 31-0 to exempt the University of Texas' plan to expand its football stadium from a law protecting the state Capitol. A deck under construction on the stadium's east side would block views of the Capitol from the plaza of the Lyndon B. Johnson Library on the UT campus. Other Capitol-

Jim Coleman, executive chef of Philadelphia's Treetops restaurant, calls tomatoes "culinary gems." And with good reason, because tomatoes not only add a finishing touch to any num-ber of dishes, but they impart flavor, color and nutrients. Nothing can compete with the tomato garnish. Put a beef patty in a roll, for instance, and that's all it is a beef patty in a roll. But, top the patty with a slice of ripe tomato and you've got a juicy, luscious meal.

Fortunately, we can buy tomatoes any time. Florida grows and ships some of the finest which are harvested just under the "ripe" stage. They reach a bright red, slightly soft state with only a few days at room temperature, on your kitchen table or counter, not in the fridge me npening and kills the flavor you expect. Don't look on the tomato as just a sandwich add-on. Chef Coleman created an open-faced gem that makes the tomato the principal ingredient. Slices of hearty bread are brushed with basilflavored olive oil and broiled briefly, then topped with layers of tomato, onion and basil. Then it's ready for your knife and fork. In the second recipe, tomatoes are the stars. stuffed with a flavorsome blend of cooked small elbow macaroni and condensed cheddar cheese soup, sprinkled with bread crumbs and baked, making a fine main dish FRESH TOMATO AND ONION OPEN-FACED SANDWICH 2 or 3 small (8 ounces) fresh Florida tomatoes 15 (1/4-inch thick) slices French or Italian bread 2 tablespoons extra virgin olive oil 11/2 teaspoons finely chopped basil or 1/2 teaspoon dried basil 3/4 teaspoon minced garlic Pinch crushed red pepper 8 very thin slices sweet onion

vinegar, garlic, sugar and salt until blended. Makes about 2 Use tomatoes held at room

IS PAYING NO TAX A GOOD IDEA FOR YOUR CORPORATION?

When you run your business as a C corporation, it can make sense to pay a little tax this year to avoid large estimated tax payments next year.

According to the general rule for corporate estimated taxes, the IRS won't charge a penalty as long as a company pays in current-year estimated tax at least the amount that was owed on the preceding year's return. However, this "safe harbor" is available only when at least some tax was owed for the earlier period. If a company shows zero tax liability in a given year, next year's estimated payments must equal 100% of the expected tax liability for that year. As a result of this quirk in the law, you might want to plan corporate income and deductions so that you always show at least some taxable income and some tax liability.

Example: Your corporation will incur a small operating loss this year. Next year is likely to be more profitable, with the company projected to owe about \$100,000 in federal income tax. If you do no planning, you will be required to pay next year's tax bill in full via quarterly installments of \$25,000 each, creating a potential cash flow crunch just when your company might need liquidity.

However, if your company were to report (say) \$10,000 of taxable income this year (perhaps by delaving deductible expenditures or selling an appreciated asset), this year's tax bill would be \$1,500 (15% of \$10,000). Next year, you would be required to prepay a total of only \$1,500, reducing your quarterly installments to \$375 each. The remainder of your tax bill would be due on the filing date for next year's return, but in the meantime, you have the use of your cash. Warning: If this planning strategy might apply in your situation, you should note that the safe horbor exception is only available to corporations with taxable income of less than \$1 million for each of the preceding three years.

Alfred Agnew received treatment in the Eastland Hospital, last week.

Darrell Hammons had by pass surgery in Hendricks Hospital, Tuesday.

Mrs. Charles Landsdale ofAthensisatthebedside of her father, Darrell Hammons who is receiving treatment in Hendricks Hospital.

Moran and community was blessed with more rain Saturday night and Sunday morning. About 1 and 1/2 inches fell. Sunday morning, water was flowing across streets and standing in holes, as the ground was soaked. The rain is very beneficial, but people are beginning to complain as so much has fallen. The grass and weeds are growing, and a lawn mower will be in use as soon as the ground dries. This morning," (Monday) the sun was shining and the day is beautiful.

Remember the Moran City election and the Moran School trustee election will be held on Saturday, May 3. The City election will be held at the Moran City Hall. The School Trustee election will be held at the Moran Community Center. If you would like for your name to be on either ballot contact the City secretary for a place on the City Coun-

public to view. Entries will be accepted Thursday, March 13 from 4 to 7 p.m. at the Baird Activity Center. Entry fee is \$3.00 per entry with a limit of six paintings. Judging will be Friday, March 14 and winners will be notified by phone Friday afternoon. For more information contact the Baird Chamber of Commerce at 915-854-2003.

Southwestern Peanut Growers To Nominate Committee Member

Peanut Growers of the and alternate to the Pea-Southwest - primarily nut Administrative Com-Oklahoma, Texas, New mittee.

The meeting is scheduled for 7 p.m. (CST) in isiana - will meet at the conjunction with a meeting of the Atascosa County Peanut Growers Association. The nominations part of the meeting will be at the top of the agenda, to elect a grower member immediately following a barbecue dinner.

> Gary Dillingham and Lane Campbell, Peanut Administrative Committee Field Representatives, will conduct the nominations.

Luther Y. Clearman, III, Manager of the Peanut Administrative Committee explains that the Committee administers the Peanut Marketing Agreement. The Committee is made up of growers, shellers, and the Area Association Managers, and recommends peanut marketing regulations to be issued by the U.S. Secretary of Agriculture under the Agreement.

ADams

11 Indigent

Though these regulations are applicable only to signatory handlers under the Agreement, they generally affect the entire industry.

The grower member position to be filled is currently held by Harvey Schneider of Pleasanton, Texas. The Alternate position is occupied by Edward Laskowski of Stockdale, Texas. Both terms expire on April 30, 1997. Both men are eligible for renomination.

A special program of interest to the peanut industry will be held in conjunction with the meeting, says Ross Wilson, Manager of Southwestern Peanut Growers Association. The Atascosa Association invites all peanut growers from all Southwestern Area states to attend and participate in the nominations.

.....

When you read about today's gifted, notable chefs

or hear them being interviewed, you find that a great many of them say their interest in food and cooking was sparked when they were very young, as they watched or helped their mothers or grandmothers work in their kitchens. So was mine.

My mother let us come in when she cooked, with certain rules: If we spilled, we wiped up immediately, and washed our hands, and we had to stay out of her way if she was handling hot stuff or was at the open oven. Now we're grateful for this early training and we remember fondly how our mother cooked for nine and how patient she was, and how our father often taught us some of his specialties (though he used too many pots and pans and left them for us to clean).

Why am I telling you this? Because too many parents today, being more pressured for time than ours were, keep their kids out of the kitchen. They don't have time to dodge them, or explain what they're doing or answer questions. The result is that

On relaxed days, if there be such a thing, on Saturday or Sunday, let the children help or even take over. There are lots of simple things they can do, with supervision when necessary. They can, for instance, make a batch of biscuits using a prepared mix. If they're too young, you might do the kneading. They can pour ingredients into a blender, push the on button

come to market. The frozens come in poly bags or boxes and should be heard moving freely when the package is shaken. They have all the flavor and nutrients of the fresh because they are flashfrozen as soon as they are harvested.

APRICOT-FILLED BLUEBERRY BISCUITS 1 12-ounce package frozen blueberries, unthawed, or 21/2 cups fresh blueberries 21/4 cups all-purpose baking mix 2/3 cup milk

2 tablespoons sugar 1 teaspoon ground cinnamon

1/2 cup apricot jam Heat oven to 450F. Reserve V₂ cup blueberries for garnish. In a large bowl, combine baking mix, milk, sugar, cinnamon and remaining 2 cups blueberries. Stir just until soft dough forms. Turn dough onto surface dusted with baking mix; knead 5 times. Roll 1/2-inch thick; cut dough with a 3inch heart or other shaped cookie cutter. Please on un-

greased cookie sheet. Gently

re-roll and cut out the scraps; place on cookie sheet. Bake until golden brown, 8 to 10 minutes. To serve: Slice biscuits horizontally in halves; spread apricot preserves on bottom halves; cover with tops. Serve with reserved blueberries and whipped cream, if desired. (Any unfilled biscuits may be frozen for later use.) Makes 8 portions.

BLUEBERRY **ORANGE WHIRL** 1 12-ounce package frozen blueberries, unthawed, or $2\frac{1}{2}$ cups fresh blueberries **1**8-ounce container vanilla low-fat yogurt V_2 cup orange juice 1/2 cup milk 1 teaspoon vanilla extract In an electric blender, whirl blueberries, yogurt, orange juice, milk and vanilla until smooth. Serve immediately. Makes 31/2 cups; 4

servings. ©1997 by King Features Synd.

Vandals hit B.H.S.

vandals spray painted By Billy Harris, Baird Correspondent Six Baird Elementary students learned that vandalism will not be tolerated at their

school. The Baird Junior High dressing room was ramsacked Saturday March 1 with boys Jr. High track team members missing some personal belongings and eye glasses being broken. The

graffiti around the elementary playground. Superintendent Steve

Maikell said the damage amounted to less than two hundred dollars and the school is handling the matter, no criminal charges have been filed at this time. All of the students received reprimands and suspensions from regular classes.

12 fires reported on stretch of I-20

by Billy Harris, Baird Correspondent

Three area Volunteer Fire Departments chased down at least 12 fires along IH-20 from mile marker 313 east of Baird to mile marker 304 just east of Clyde Tuesday, March 4. Baird, Clyde, and Moran Fire Depart-

ments spent about two hours extinguishing the blazes on the roadside and two fires that escaped into the pasture, one just west of Baird and the other just east of Baird. Between 50 and 100 acres were

estimated burned. A Baird fireman said it appeared that someone on the interstate was either dragging something or had a flat tire to cause sparks to start so many fires.

You can assume that the roots of normally shaped trees extend at least to the width of the branches.

CALLAHAN COUNTY STAR

Harvey Franklin Hatley

CLYDE- Harvey Franklin Hatley, 75, died Sunday, March 2, 1997 at his home.

Services were held at 2 p.m. Tuesday, March 4, 1997 at Bailey Funeral Home Chapel, Rev. Jerry Joplin officiated. Burial was in the Clyde Cemetery.

He was born in Zephyr and worked for Rogue Valley Orchards and Packing Co. in Medford, Oregon, until retiring in 1983. He moved to Clyde from Medford in 1984. He was an Army veteran of World War II.

Survivors include one daughter, Helen Louise Massey of Abilene; one brother, W.H. Hatley of Clyde; three sisters, Czella Ross of Clyde, Velma Gould of Medford and Dorothy Lewallen of Granbury; one half-sister, Rachel Cagle of Cisco; five grandchildren; one great-grandchild; and numerous nieces and nephews.

Stephen Goble

ABILENE -- Services for Stephen Lee Goble, 36, were at 10 a.m. Wednesday, March 5, 1997, in Southern Hills Church of Christ with the Rev. David Ray and Cecil Eager officiating. Burial was in Clyde Cemetery, directed by Elliott-Hamil Funeral Home.

Mr. Goble died Monday, March 3, 1997, in a local hospital.

He was born in Abilene and graduated from Cooper High School in 1979. He worked as a lab technician for the Texas Departments of Highways and Transportation for three years and married Pamala Sue Nowell in 1983 in Stamford. He was a member of Wylie United Methodist Church and was board chairman of the Wylie United Methodist Day Care Center.

Survivors include his wife, Pamala of Abilene; two daughters, Stephenee Goble and Paatan Goble; his parents, Tom and Lynda Goble of Abilene; two sisters, Va Lynda Miller of Clyde and Aimee Goble of Abilene; and his grandmother, Georgia Eager of Clyde.

Winnie Bainbridge

CLYDE -- Services for Winnie Mae Bainbridge, 84, were at 11 a.m. Wednesday, February 26, 1997, at Clyde Church of Christ with Jim Hall officiating. Private graveside services were directed by Bailey Funeral Home.

Mrs. Bainbridge died Sunday, February 23, 1997, at an Abilene hospital.

She was born in Oplin and moved to California after her marriage, moving to the Rowden community in 1945 and to Clyde in 1972. She was a retired medical secretary and a member of Clyde Church of Christ. She married Elic William Bainbridge in 1935 in Cordell, Okla.

Survivors include three cousins, including Lucille Mason of Abilene; and two great nieces.

Charlotte Craig

RUIDOSO, N.M. -- Charlotte Craig, 55, died Monday, February 17, 1997, in a local hospital. The body was cremated and cremains were disbursed on the Capitain Mountains in the Lincoln County National Forest. Arrangements

were made by LaGrone Funeral Chapel. She was born in Ruidoso and was a trustee of the village of Ruidoso Downs from 1991-96. She was

mayor pro tem from 1992-96, and was a volunteer at the Ruidoso Downs Senior Citizens Center. She was a member of Ruidoso Baptist Church.

Survivors include her husband, Tony Craig of Ruidoso Downs; one son, Lester Hancock of Las Cruces, N.M.; two daughters, Norma Jean Pinkston of Ruidoso Downs and Dixie Morris of Abilene; two brothers, Ernest Burgess of Roswell, N.M., and Clifford Burgess of Baird; five sisters, Rachel McMenemy of Reseda, Calif., Dixie Burgess of Van Nuys, Calif., Geneva Weygandt and Mary Burgess, both of Tulsa, Okla., and Ima Jean Burgess of Ruidoso Downs, and nine grandchildren.

Memorials may be sent to American Heart Association, 149 N. Willis, Abilene, Texas 79603, or a favorite charity.

Baird - Bro. Jack Willoughby was here Wednesday morning for our early week singing and Bible message. We always enjoy this time and thank Bro. Jack for coming each week.

Naoma Lockaby won the black-out bingo game Monday afternoon. Other residents playing were Georgia Williams, Elma Adams, Dwain Warren, Gene Watson, Isabel Helms, Alyne Juanita jackson, "Hickie" Senter, Lambert. Clarice Black, Cordie Brome, Billy Holly and "Twin" Flores. Our thanks to La Verne Rutherford for being here to assist.

PRAYER CORNER

GUIDANCE

Oftentimes I forget the Lord is always with me, guiding my steps because I asked Him to deliver me. It is such a comfort to awaken amid the difficulties of this world and realize I don't have to do this alone, that the Lord is in control and He will do it for me if I turn it loose and let Him.

But when he, the Spirit of truth, comes, he will guide you into all truth. He will not speak on his own; he will speak only what he hears, and he will tell you what is yet to come. John 16:13

Father, we pray for your divine guidance as we filter through what we have created in our lives. Forgive us for not submitting more to you the needs we have, we should know we cannot do this by ourselves. Purify our thoughts, dear Lord, and help us make of the lumber of our lives, not just a home, but a temple where we can seek you and your perfect peace. In the name of Jesus we pray, and Amen

CALLAHAN COUNTY STAR

Baird wins opener

by Sarah Hatfield

Baird opened its high school boys' baseball season February 18, defeating the Eula Pirates by a score of 5-3. The game was 2. called at the end of the fifth inning due to darkness.

The Baird Bears broke open the scoring in the third inning when Chad Barron made a nice triple base hit which enabled runners. Shannon Campbell and Britt Johnson, to score. The Bears led the Pirates 2-0 at the end of the inning. In the fourth inning, the

Eula Pirates picked up three runs. With the Bears not scoring, the tally changed to Eula 3, Baird

Baird Bears' Shannon extrainning, Hawley won Campbell, Chad Barron, and Todd Rodriguez all the game 4-3. had successful runs in the Despite Kolt DaPron's fifth. Baird held Eula to hit in the second inning zip and the game ended and Shannon Campbell's with Baird winning 5-3. hit in the third, the Baird Winning pitcher/ catcher combo for Baird was Ryan Ward and Britt

Johnson. Baseball coaches for Baird are Tony Koch and Jeffrey Campbell.

hit and Todd Rodriguez, who arrived by an error, both cleared home plate, and evened up the marks. Hawley was unable to score and the fifth inning closed with the teams tied

2-2. Shane Devenport made a sound connection with the ball and hit in runner, Chad Barron, who was already on base with a hit. The Bears were able to hold the Bearcats throughout the bottom of the sixth and the inning closed with the Baird leading Hawley, 3-2.

The Bears were three up and three down in the seventh, and the Bearcats managed to score one. This left the game tied 3-3 at the end of the seventh. In spite of the fact that

Baird's Britt Johnson got on first base by an error and designated runner, Justin Rivera stole bases at second and third, the Bears were not able to score. The bottom of the eighth inning brought the game promptly to a close when Hawley scored on an error which was assigned to the Bears. The game ended with Hawley

defeating Baird 4-3. Baird scored three runs

the Bears were Ryan Ward and Jim Jaggars. Hawley made four runs on seven hits. Winning pitcher was Chase Mc-Carty.

Chamber News

The monthly meeting for the Chamber of Commerce was February 26, 1997. Several items had been placed on the agenda for this meeting. One of the items was Parliamentary Procedures and Internal Procedures.

It is essential for the chamber to keep procedures that assist in organizing meeting, committees, and projects. Without these basic principals the chamber could lose focus and not complete. task at hand. We hope having the by Parliamentary Procedures, governed by the latest edition of Roberts' Rules of Order, that all members will be heard and the Directors will be more efficient.

Internal organization is the key to a successful chamber. All Board of Directors should have received a

skills that can help guide us to higher ground, and to quality leadership in the organization. The update on the

Annual Award Banquet was given by Cindy Curtis. At this time there seems to be no problems and the banquet committee has worked hard to make it

a success. Barbara Corn was the decoration coordinator, and has selected the "Rockin' 50s" as the theme for this year's banquet. Special entertainment was at the banquet this year. Our entertainer of the evening was Krissi Jennings, Krissi is a junior at the High School and excels in all

that she does. Singing is just one of her many talents. This year shaped up to be one of the best banquets we've had.

As always the chamber thanks you for your continued support.
