KNOX CITY BOYS CARRY OFF CUP IN TEAM CONTEST

In the Golf Tournament held at Munday last week with sixty-five entries turning in qualifying scores. Knox City boys won the cup in the team contest. Panny Farmer took W. B. Alexander of Seymour to a close race for the championship.

Those who turned in qualifying scores from here were: Herry White 75, Cecil Speck 84 and J. G. McGlothlin 89.

In the team contest Knox City carried off the cup with a score of 331, defeating Goree and Seymour. Seymour's team composed of Craddock, Alexander Bellows and Palmer scored 340. Goree's team composed of Hampton, Goode, Green and Brawley scored 340. Knox City's team composed of C. Speck, J. G. McGlothlin, P. Farmer and Henry White.

In a 35 hole match Alexander defeated Pannie Farmer for the championship with the score of 3 up and 2 to go.

Knox City has some good players and they always demand attention when they walk out on a Golf course.

W. W. Hyde received an invitation from Mrs. A. T. Liles, corresponding secretary of the Sacred Harp Singing convention which convenes the fourth Sunday in July at Ft. Worth. Mr. Hyde says he will go if V. G. Martin and E. O. Jamison will go along. These fellows are strong for good singing.

THREE INCHES RAIN FALL OVER KNOX CITY TERRITORY

Monday evening a fine general rain fell over the Knox City territory. It also rained off and on all during the night. On checking up with the U. S. weather man he stated we had three inches up to Tuesday morning.

Crops in this particular section are looking exceptionally well. Early feed is starting to fill out, the late feeds are doing well and cotton could hardly be looking better.

Sudan and range pastures will be greatly benefitted.

Knox City faces one of the most flattering crop prospects in the history of the country.

Business men and farmers are looking forward to a great harvest this fall.

Luncheon Club Was Interesting Tuesday

The Tuesday luncheon was held at the Boyd Hotel with about twenty-five members present. We had two visitors, C. O. Davis of Rule the chicken man and W. E. Arnold, a new business man of our city.

Ray Willis had charge of the meeting and handled the matter like an old seasoned Toast-master. T. P. Frizzell reported on the road committee. An article in this issue will give you the information he delivered.

C. O. Davis of Rule a pioneer chicken man made an interesting talk on the chicken business. He stated he was glad Lloyd Waldrip was going to put in a hatchery here. This closing season he had more business than he could take care of.

A committee was appointed to raise funds now, to be placed in the Bank for the premium on the first bale of cotton raised in this territory and ginned here.

Another committee was appointed to see about pulling off a county fair here this fall. What do you think about it?

J. C. Reeder will have charge of the next meeting. Come out to these meetings they will help you and you can be of service to your community.

KNOW TEXAS

Texas is the leading Jersey cattle state in the Union. Ohio used to be.

Texas has 103 airports with 53 more under construction, planned or proposed.

Texas leads the United States in oil refining.

Texas manufactured products in 1928 were valued at \$1,200,000,000 having practically doubled in volume since 1920.

Exports through Texas harbors in 1928 were valued at \$797,140,493—second only to those New York.

Miss Mary Reeder and Mary Eliza Clarke left Monday for a visit at Levelland. Miss Mary will visit her brother W. A. Reeder of that place and Mary Eliza will visit her brother Ezell, also of Levelland. They expect to visit Carlsbad Cavern while on the trip.

W. W. Hyde and son Joe, were guests of Jim G. Paris and family of Abilene Saturday night and Sunday. W. W. reports crop conditions very poor from Haskell south to Abilene.

Knox City School Teachers Elected; Prospects Fine

Supt. Joe W. Cloud and the board of directors have finished electing the teachers for the 1929-30 term.

Pat Cotman of Abilene, A. C. C. principal; Miss Mabel Moorehouse of Benjamin C. I. A., Domestic Science; Virgil Underwood Bluffdale, A. & M., Vocational agriculture; Mrs. Horace Finley, English; Mrs. O. J. Emery, high school; Mrs. Ottis Cash Miss Annie Freeman, Miss Ada Cox, Mrs. Browning, Miss Stella Cooner, Miss Alta Cassel and Mrs. J. W. Cloud.

Our school is considered one of the best schools in this part of the state with 19 1-2 credits.

Electric Filling Station Puts on a Novel Sales Contest Here

"Cart off!" will be the shout heard Monday morning, when J. V. Jones of the Electric Filling Station signals to his crew that their big airship is ready to nose its way skyward in the Goodyear Zeppelin Race.

Goodyear is staging this contest among it's dealers throughout the United States and has assigned to each dealer a mythical Zeppelin. All the Zeppelins leave Akron, Ohio, on Monday morning and are due at the California factory in Los Angeles, by Saturday night. Each sale of a tire or tube by the dealer carries his Zeppelin so many miles toward the goal.

During the weeks that follow the airships are scheduled to "moor at various other Goodyear factories and plantations throughout the world, including Litchfield, Arizona, Gadsden, Alabama, Australia, Sumatra, England, Massachusetts and Canada. The finish will be in Akron.

"As we sail by sales," states J. V. Jones "We are going to offer tire-buyers every inducement to help us win.

"This is the greatest sales race which has ever been held among tire dealers, and if we can bring home to Knox City some of the prizes and honors that are to be awarded the winners it will be one of the proudest moments of our lives.

Virgil Underwood, instructor of vocational agriculture in the local high school, arrived last Monday to take up his duties in that capacity. He is anxious to get acquainted with everyone and especially any one interested in the line under his supervision.

Mrs. J. E. McPherson and children, Miss Thelma and Master Forrest and Miss Hallie B. Creighton of Abilene were weekend visitor in the home of her sister, Mrs. G. T. Hardberger.

Mr. and Mrs. John H. Darnell and son and Mr. and Mrs. D. J. Brookerson and family of Benjamin left Monday for their vacation. They plan to visit points in Colorado and Mexico.

Dale Orsborn of Floydada has rented the Clarke building formerly occupied by the 2nd Hand store and the Radio shop, and plans to put in a new modern restaurant. He plans to put in all new equipment and expects to be open for business about July 15th.

Mr. and Mrs. G. D. McCarty and children and Mr. and Mrs. Lloyd Davis visited relatives in Sylvester Sunday.

CAMPAIGN FOR HARD SURFACING HIGHWAY 51

Preliminary plans to pave Highway 51 affording a hard-surfaced road from Abilene north through Oklahoma City, were made last night when delegations from Haskell, Knox, Foard and Hardeman counties met here with Judge W. R. Ely, state highway commissioner. Judge Ely assuaged the delegations that the state highway commission stands ready to help build the road when the counties and districts provide their part of the funds. Abilene Reporter, July 27th.

REVIVAL MEETING PROGRESSING NOW

Brother Morris came in Monday and is with us for two weeks. He has no frills or fancies but seeks in an earnest way to interpret God's word to his listeners. He is here for the good of this community and if you want a blessing attend the services. He is known as the "Fighting Parson." He was four years a football player on the Simmons University club, playing tackle position. His name as fighting parson, however, did not originate from his football record. It developed as a result of some unruly people trying to break up a meeting which he was conducting.

His messages during these two weeks will cover the great truths contained in God's word and can be grouped under the general head, "The Christian." Under this general head he will discuss such topics as: The foundation of the Christian faith, Working for wages or the Christian's Emancipation from sin, The Christian's Birthday, the Christian's Farewell to the world The Crucible and other related subjects.

He pitches his ministry on this slogan: "By all means save some" One of his favorite declarations is: "No body has a right to say there is nothing to Christianity until he tries it according to the directions laid down in God's word, and any person who follows those directions will never be found saying there is nothing to it.

Miss Gladys Edmonds who taught in the Clyde High school the past two years is spending the summer with her sister, Mrs. Joe W. Cloud.

EDMOND JONES WINS \$25 CREAMERY PRIZE

Emond Jones, better known as "Casey" and head fountain man at the Orient Drug Store was the man of the hour Tuesday night in Rule, when he was introduced as the winner of the \$25.00 given for the best name for the Rule Creamery products. "Puretest" is the name selected out of 1500 others.

Hundreds of people thronged the plant all afternoon and up to a late hour. Many interesting speeches were made.

Rule's creamery is headed for a great success.

Returns From Trip Down in Arkansas

Mr. and Mrs. C. Addison, Sam White and family, returned last Friday from a trip to the Ozarks of Arkansas. They are telling some terrible fish stories but we do not have room to repeat them for they have plenty of size. They report wonderful crops, plenty of fruit and garden truck growing everywhere. We can believe the garden part of their story for we enjoyed a fine dish of green beans and onions on the side. Addison says it's a great country, but he does not want to leave Knox City.

The managers of the two Retail Dairies have been complaining about the big loss of milk bottles. It will be appreciated by the boys is the public will cooperate with them in trying to keep up with the bottles. It requires the purchase of about two dozen new bottles every week. This loss can hardly be charged to breakage but it is thought some one makes a habit of gathering up bottles and selling them.

Rule Poultryman To Enter Hens In Egg Laying Contest

C. O. Davis, hatcheryman and poultry breeder of Rule has two pens of hens in the laying contests of Texas, one at A. & M. College and one at John Tarlton. He has three hens in the A. & M. pen which are on the road to more than 300 egg production. His reports are coming in fine on all the birds. He has two hens in the Tarlton College contests which will go above 300 eggs before the year is past. His birds are white Leghorn of the Tancered strain and they are all making creditable records. Mr. Davis is a pioneer poultryman of Rule and has grown to be the leading breeder of the county. He has a well equipped plant. He has four sections of the Week's California type poultry houses and will have them stocked to capacity this season.

THE BENEFITS ARE REMARKABLE

"Orgatone Has Certainly Helped My Mother And Has Done Her More Good than Anything Else," said Wichita Man.

Another wonderful endorsement for Orgatone will be read with interest, was given by D. O. Fanchier, of rural route, 3, Wichita Falls Texas regarding his mother's case.

"Orgatone is nothing short of a wonder, and I've never seen its equal in my mother's case he continued, "she began having stomach trouble and indigestion three or four years ago, and has kept getting worse and she took every kind of medicine and treatment we would hear of, but nothing did her any good, until she took Orgatone. Her stomach got so weak and out of order there was very few things she could eat at all, and what she did eat didn't seem to do her any good, for it soured on her stomach. The gas pressure was so heavy on her heart at times she could hardly breathe, and she had terrible headaches, and we thought perhaps she had heart trouble. Her nerves were completely shattered, she could hardly sleep at all.

"My mother has been under the doctors care for the past year and they told her that she had low blood pressure and a very weak heart, but since taking Orgatone she is completely relieved. She sleeps perfectly every night and can eat anything she wants without the slightest trouble afterward. She isn't bothered at all with indigestion or gas forming on her stomach and she isn't bothered with nervousness, and is honestly better and stronger than she has been in a year. Orgatone has done her more good than all the medicine, she has ever tried, and we are glad to give this statement."

Genuine Orgatone may be obtained in Knox City at the Orient Drug Store.

Use Pressure Cooker Canning Nonacid Food

Research and practical experience have demonstrated, says Dr. A. F. Woods, director of Scientific Work, United States Department of Agriculture, the nonacid food products, like asparagus, beans, corn, peas, beets, spinach, meats, and fish, can not be canned safely by processing in boiling water, but must be sterilized under pressure with approved time and temperature.

Pressure cookers are now standard equipment and are readily available at small cost. The department does not recommend any particular make, although attention is called to the importance of having the pressure kettle equipped with thermometer and pressure gauge for proper control.

"There is now no excuse," says Doctor Woods, "for continuing to take risks involved in canning nonacid foods without adequate pressure cooking. All recommendations by the Department of Agriculture will hereafter make this clear and emphatic."

DR. O. J. EMERY
Practice of Medicine and Surgery
Farmer's State Bank Building
Knox City, Texas

Cow Testing By Mail Being Carried On In This District

According to County Agent Wilson

Cow-Testing Association has been perfected in this district of the state, with headquarters at Lubbock. Arrangements have been made whereby the Technological college, Lubbock, actually makes the tests and supervises the keeping of the necessary data on the work.

The charges for the work are nominal according to Wilson who states that a flat rate of \$2.75 is made against each herd, being tested, in addition to \$1.00 for each cow being tested. A farmer having ten cows can secure a monthly test, monthly report and an annual report here on his herd for a cost of only \$12.75.

To become a member of the association one has to sign what is called the Testing Agreement and pay the necessary fee according to the number of cows he is to have tested. He is also to properly record the weight of one day's milk from each of his cows each month and is to send a corresponding sample to the Technological College for testing. Containers and complete directions are to be furnished all members.

R. C. EDWARDS
Dental Surgeon
West end Farmers State Bank Building
Knox City, Texas

According to County Agent Trice, this method of testing cows by mail originated in Wisconsin and has been carried on successfully several years in that State and others, but has been brought to Texas only during the past few months. The idea of testing is to tell the good and poor cows in the herd and offers a cheap means of culling the boarder.

Dairying in this section is developing rapidly, so the testing will work nicely at this time as those who own cows are anxious to know which ones pay and which ones do not.

The testing association has been developed in this section by the county agents of the various counties in this district, so those who desire information can obtain same from the county agent, who also has blanks for those who desire to join.

New CHEVROLET Sixes
on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!

A SIX IN THE PRICE RANGE OF THE FOUR

July Poultry Calendar By Lloya Waldrip

Any change in feed at this season will be disastrous to profits. Especially should the regular egg mash be continued straight through the summer. Feed grain lightly only at night forcing the flocks to eat at least 3 pounds of mash to each 2 pounds of grain.

All pullets should be culled this month, watch them closely and remove and sell the small late maturing pullets that have little chance of developing into healthy vigorous hens. Keep pullets on range. March hatched pullets should not be pushed with heavy mash feeding but should be retarded so they will come in production late enough to avail moulting.

Don't follow any fad in culling consider all the points that go to make up a good bird.

The poultry house ventilators should be left wide open during the day and night to avoid heat prostration.

Feed hens in the broody coops just like you feed the layers. Broody hens that are not fed properly will remain out of production longer than is necessary.

Standard production for July is 15 eggs per hen.

Let's follow all these things so we will get more profit out of our poultry. Watch the eggs. If we will put clean fresh infertile eggs on the market we can raise the price of our eggs, but as long as dirty small and fertile eggs are put on the market we can't raise the price of our eggs.

Chevrolet Motor Co. Announce Better Service

What Chevrolet Motor Company has been doing since the introduction last January of the new six cylinder line to insure ample parts and efficient service to the millions of owners of Chevrolet four cylinder cars, is revealed in factory statements released to today.

Among the adjustments effected to safeguard the continued usefulness of former models have been the establishment of service machine shops at Detroit and Flint specializing in the exclusive manufacture of past model parts; additional service training schools where dealer's mechanics are taught the latest methods of servicing the old and new models; additional zone warehouses which expedite the delivery of parts to dealers; and revisions in the system by which the dealer is stocked with past model parts.

The drastic changes represented in the 1929 car, however, and the increased demand for precision work on the main production lines made it impossible to follow the former method. Hence space has been set aside in these two giant factories and special machinery installed for the exclusive manufacture of past model parts.

Chevrolet's service training schools have been generally given credit for the expertness of mechanics in the dealers, service garage. This skillful army of trained workers has always been recognized by the company as the keynote around which the efficient Chevrolet service system has evolved.

a new independence

— — — In July we celebrate the anniversary of the Declaration of Independence. And it is good that we set aside one day each year to rejoice over the freedom for which our forefathers fought and died.

— — — There is still another kind of freedom which we of this modern age enjoy—Freedom from the slavery of drudgery, disease and discontent. This new freedom is the result of years of experimenting with that great discovery—ELECTRICITY.

— — — By reason of its cheap and abundant supply, life has ceased to become a struggle merely to exist. The sweat shop has faded like a bad dream in the fog of time. Anaemic, spindle-legged children have given way to a race of sturdy, red-blooded youngsters. Disease, to a great extent, has fled before the development of modern science.

— — — Through the extension of its facilities, industry is moving to the country. The vermin of the tenement has been eradicated by bright electric lights. The electric washing machine and iron, vacuum cleaner and similar labor-saving devices has swept drudgery to the forgotten past.

— — — We are proud of the fact that this company has a part in spreading this new freedom to 110 prosperous cities, towns and communities in West Texas. Fed by three major generating stations and fifteen auxiliary plants, more than 2,000 miles of transmission lines of this company carry an unlimited supply of electrical energy to the people of this "Land of Opportunity."
