Municipal Power Plant Discussion Held Tuesday

A meeting was held Tuesday to discuss the possibilities of a Municipal Power Plant for Knox City.

Full details were not disclosed, but plans for another meeting were discussed and the legal aspects concerning a municipal power plant were to be received as well as investigation reports from other cities which have a municipal power plant.

Main portion of the discussion was the income to the city which would relieve any necessity for tax increases for street paving and repairs and other expenses which might cause additional taxation.

It was reported that the probable first action would be a petition for an election to get voter approval for the municipal power plant.

James Eiland Tells Lions About Knox City History

Lion President Fuller Shannon reminded members of the dates of coming events for the Lions Club Wednesday at their regular Wednesday noon luncheon-meeting.

Next Wednesday Lions Club members will conduct their annual Broom Sale and everyone is urged to help make the sale a success.

Proceeds from the broom sale are used to help furnish glasses for children of the area who are in need of them.

June 1, will be the date the Lions Swimming Pool will be open for the season.

On Wednesday, May 24, all members are asked to help clean the pool and painting and fixing up will also be undertaken that week.

Joe Murry Clonts said the Boy Scout Committee had met and a troop committee of Lions members had been named. Those appointed had been notified, he said.

A meeting of the committee is planned within the next two or three weeks, he said.

David Counts, program chairman, introduced James Eiland, son of Mr. and Mrs. Kenneth Lawson, and told the club he had been trying several weeks to get Eiland on the program, but that they had gotten the dates mixed up.

Eiland gave a resume of the history and events of Knox City for the past 75 years.

The town was first known as the Reeder Community, as T. P. Reeder was the first person to settle here. Mr. and Mrs. Reeder were also the second couple to be married in Baylor County.

In 1903 the railroad was built here and the people of the community, situated where the airport is now, named the town Orient in honor of the Orient Railroad. Later the railroad named the town Knox City, after the county and in honor of Gen. Knox.

Also in 1903, T. P. Reeder, Bud Johnston, Dr. Davis and R. W. Warren donated the land on which the present townsite is situated.

S. L. Favor was the first lawyer in Knox City, and the first doctor was W. N. Pope, who also built the first residence.

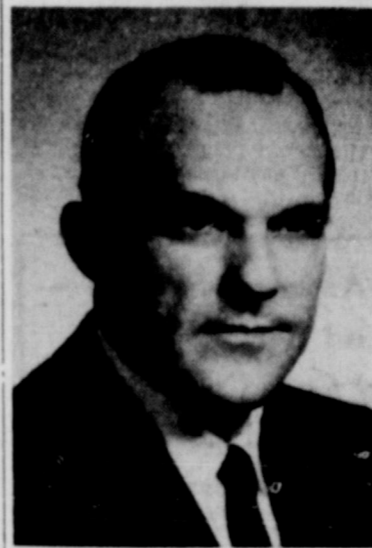

In 1912 the first hospital was built, and later in 1926 the present county hospital was constructed, Eiland said.

Eiland completed his history of Knox City by bringing the events up to date with the completion of new businesses, gymnasium and church.

People, Spots In The News

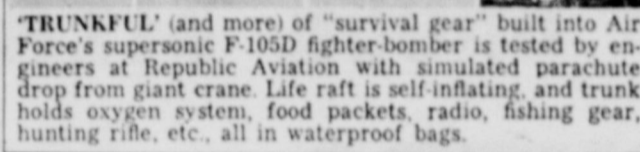

COOL WITH 'CATS' is 71-year-old Mabel Stark, tiger trainer in animal compound at Thousand Oaks, Cal. Here she carefully persuades new arrival, "Goldie," to roll over.

'UGLY AMERICAN' college boys did it on purpose, aided by false features, for a competition at Carroll College, Waukesha, Wis.

NET PROFIT and neat catch for any fisherman would be Kathy Frazee of Silver Springs, Fla.

'TRUNKFUL' (and more) of "survival gear" built into Air Force's supersonic F-105D fighter-bomber is tested by engineers at Republic Aviation with simulated parachute drop from giant crane. Life raft is self-inflating, and trunk holds oxygen system, food packets, radio, fishing gear, hunting rifle, etc., all in waterproof bags.

CARD OF THANKS

We would like to express our sincere appreciation for all the flowers, cards, visits, for the food from the members of all the churches, and all the other kind expressions of sympathy at the loss of our brother.

from Benjamin says:

members. I always figured a church ought to be a hospital for sinners. That's why, when I look around at our church ever Sunday and see that most of us is sinners, I figger we're gitting along pritty good.

Fer that reason, when my old lady gits on the subject of things at the church, I tell her I'm too busy with them Congressmen and the situation in Washington to give it the proper thought at this time. And I'm always careful not to ask any questions on account of not having all day to set and listen.

We got a mighty fine preacher at our church, but like I told you onct before, he don't stick to his text very close. He'll announce his text, then he'll proceed to preach world wide. Fer instant, last Sunday he announced his text was from the fourth chapter of Second Timothy and that was the last time he ever got back to it. He devoted the first half hour to the evils of strong drink. He listed eight reasons why a feller drinks. From what I've saw, a feller drinks fer two reasons, either to drown his troubles or float his ego. My preacher can have the other six. Then he spent another half hour advising that "turning the other cheek" was the best system. Personally, I think people is gitting too complicated fer that to work anymore. Things is so tough now that if a feller turns his other cheek he's liable to git his block knocked off.

A great big THANK YOU to the Juniors for the lovely "South of the Border" Banquet (they decorated and planned it by themselves) and to the Study Club for the prom following the banquet.

Newman defined a gentleman as one who "would never inflict pain on another." Such a man would certainly be educated.

Just as gentlemen are not born, there can be no set standard to measure education.

Education in the strict book-and-lecture sense is not enough. School is the basis for a sufficient education, but the "seasoning" must come from the man.

The more educated a man is, the more he realizes that knowledge is infinite. An educated man does not flaunt knowledge or boast degrees. Educated men are often found among the illiterate—the unschooled—the poor. Education is as much in the heart as

Well, I see by the papers where some city consumer outfit is complaining that the price of meat in this country is gitting out of line, I ain't been to the store lately. In the second place, them city folks ain't never lost any blood, sweat and tears raising hogs and beef cattle. I ain't got no sympathy fer their complaint, and no account of me raising a few hogs myself, I hope the price of pork gits so high I can charge a small fee just to hear the pig squeal.

Yours truly,

Uncle Ben

in the mind. It is a blending of respect, knowledge, curiosity, love, and opportunity.

An educated man always has time to answer a child's "Why?" or an adult's "Why?" He is never too important to admit and correct his mistakes. He is well-rounded and versatile. Courtesy and honesty are natural to him.

Christ was an individualist — an educated man; He gave Men answers. Solomon realized that knowledge was the only worthwhile gift. Columbus proved that self-confidence and independence were an education. Ben Franklin questioned lightning and gave us electricity. Mussolini and Hitler and Stalin and Khrushchev were educated in the ways of dictatorship by cruelty. Emerson urged people to be educated in a specific field and "the world will beat a path to your door." Although he was often unkept and forgetful, Einstein was perhaps one of the most educated of all men. John Kennedy knows that if we are to succeed, we must be firm and self-reliant; we must ask not what others can do for us, but what is best for everyone and how we can accomplish it.

These men, and hundreds of others, have stamped their names in history because they applied their education.

To succeed today everyone must be educated — educated not to quote but to reason and use what he knows.

Take inventory of yourself to see if you are educated. Judge only yourself — that's all that counts anyway.
