

Facts About Centennial

For the next few weeks this column will be devoted to facts about the Texas Centennial which every Texas should know. These facts will be given from a booklet printed by the publicity committee of the Centennial and mailed to various publications over the state that they in turn give their readers this information. We give you here what Colton F. Thomas, President of the Texas Centennial says about the celebration.

The most splendid conception of this generation, in behalf of a greater Texas, is the Texas Centennial. It will celebrate one hundred years of unaccomplished progress, from barren wilderness to modern communities. It will foreground the marvelous products of Texas' brain, a every field of human endeavor. It will turn toward Texas the attention of the peoples of many tongues and lands beyond the seas.

It will make the tale of Texas tellable to ten million homes, to the Americas, from Buffalo Bay to Cape Horn.

It will refer Texas for all only from her resources, from our uncounted millions dropped within her borders by the unnumbered hands who come by rail and road and air to behold her resources and applaud her strides.

It will be an epochal event in which the Nation will claim the right to share, since its successor 1941 was followed by 1945. For Jacinto by Capitanes and American Genes and destiny pushed westward from the Sabine River to the Pacific Coast.

It will be for more that a monument to modern civilization, whose bulk is made of architecture, its brick and stone, housing triumphs of invention and miracles of science and the riches of Texas soil and sea.

It will testify that Texas are not merely the incomparable heritage left to them by martyrs and heroes, dying and ready to die, that Texas state become an Anglo-Saxon commonwealth.

It will commemorate the sacrifice of the plain pioneer men and women who then tumbled the unforgotten hills with a plow and rifle and withing back and hills, to lay models of civilization.

It will fit our eyes to the billions of our heroes, whose names are big above her and far, for better living and nobler living."

Texas—
 —to express its flaming wish, —to shed by Texas done, —to greater words could we describe, —to show: "For right is won," —to be led by Sam Jackson's path, —to own in Southern fame, —to be to the world, make Texas known, —to greatest land products! —to be like a living torch aglow, —to be GOLD AND ALAMO! —J. G. Owen, Newsmaster, Texas.

During the last week Knox City had had a small amount of rain, but enough to do any material good. It will rain, along with all the clouds to cool the weather considerably.

The last shower fell last Monday and since then ground has cooled but the temperature is high again. A light sprinkle fell on the morning, Thursday, but as the clouds gather ready for more the ground is becoming and the air getting warmer.

VANCE KNIGHT

Little Vance Knight, six eleven years, died here in the home of his parents August 9, 1934. Vance was sick only three days before his death. While playing with other children, he fell and paralysis developed and Vance died almost in mid-afternoon. Burial was made in the Old Fellow Cemetery of this city.

Vance is survived by his parents, Mr. and Mrs. O. L. Knight and one brother O. L. Jr., his grand mother, Mrs. Vance of this city, and his grand parents, Mr. and Mrs. Knight of Willsboro and a number of other relatives.

Vance Knight was born in Winslow Texas and died in Knox City. He was a lovable child and his absence is greatly felt.

Mr. J. Lyndal Hughes is in Gatesville this week where he joined his wife and baby who have been visiting relatives in Gatesville. Mr. Hughes will go to Austin from Gatesville to confer with officials of the Department of Education and do some research work in the State University.

G. D. Reid is giving the front of his barber shop a new coat of paint. This week John Milford has repaired his new Sandvich Shop and it is expected that Grady and Earl Benedict one will soon be seen handling a brush with a bit of new paint for the front of their grocery store.

Mr. and Mrs. H. O. Moorhouse and son of Berry Oklahoma came the first of the week to visit Mr. and Mrs. W. F. Drums. Mr. Moorhouse returned home leaving his wife and baby here for the week. Monday Mrs. Moorhouse and her two sisters, the twins went to Ardmore where they visited with Miss Francis Evans. She is training for a nurse and is doing well in the work.

DEAR DEAR MUM "THANK YOU"

Although all of the opinion that he would how much Knox City is a perfectly good community. Do you know two men, one held the same job and then Griffith had to the same job. — Thank you for all who voted for him and his wife. — In with good heart. — Do you state that the election appointment of the voters was in the same direction and he takes the same of attending to business and going to all the voters in the precinct.

Stock Cause Many Accidents

J. W. Howell Has Two Broken Ribs

Quite the largest number of accidents recorded in recent years are being reported now of stock causing injuries to people. There have been at least two such accidents each week for the past six or seven weeks. This week J. W. Howell, who lives north of the city a few miles, is in bed with two broken ribs which he received when a Jersey Bull jumped on him. This is the second time Mr. Howell has been hurt recently by this animal.

Master J. B. Lee of Lamesa, who came to Hillland to be with his grandmother who is ill, sustained a broken leg when a horse fell on him the first of the week. His leg was broken below the knee but it is a severe break. He received treatment in the Knox County Hospital.

Miss Gretchen Howell of Commerce, Texas is spending her vacation with her parents, Mr. and Mrs. J. W. Howell.

HOSPITAL NOTES

Patients in the Knox County Hospital this week include: E. T. Keiler of Judd; Mr. Meader of Monday; Mrs. Wilson and infant son of Haskell; Mrs. Willie Wallace (referred) of Trossett; Mrs. A. L. Bland of Vera; Erwin Hop King of Vera and Mrs. Newbold of Goreo.

Mrs. Holt of Haskell was dismissed Tuesday; J. B. Lee of Lamesa was dismissed Tuesday and Frank Elmeride of Knox City was dismissed Saturday.

Kaynes Johnson of Vera was in Monday for a tubectomy. Miss Alice Madison of Vera Monday for her mother, returning home Tuesday.

Miss Beak Lee Gilbreath and Mrs. Lee Graham entertained at dinner Friday evening August 24 honoring Miss Jessie Robbins and Nevada Wall. Other guests present were: Carrie Brown and Paula Lee, Jerry, Keathley and Vines; Lane of Monday.

Our children of Home is the new neighborhood in Knox City. Mr. J. W. Howell.

Attend Golden Wedding Party

Mr. and Mrs. A. L. Dutton and children of Knox City were among the 41 people present at the Golden Wedding party August 10 honoring Mr. and Mrs. L. M. Sims of Ambur. Texas. Mr. and Mrs. Sims are Mrs. Dutton's parents.

The five Sims' children, seven grand children and three great grand children with a group of friends and neighbors met August 10 at the home of Mr. and Mrs. L. M. Sims to celebrate the Golden Wedding of the aged couple. Each family arrived with a well filled basket and a dinner seldom seen on the plains was spread for the occasion.

The afternoon was given to playing games and making pictures. Then ice cream and cake were generously served to all.

Mr. Sims is 72 years young, while his wife is now 60 years. Both were born in St. Clair County Alabama near Birmingham. They came to Texas in 1900 settling in Jones county. They resided there for five years then moved to Knox county where they lived twenty years. In 1926 they moved to Lamb county near Ambur.

Mr. and Mrs. Sims have found the years both happy and prosperous. Their home was blessed with five children and during their 50 years together they suffered only one death, a son-in-law died in December, 1925.

Children of the Sims family are: L. V. Sims, C. N. Sims and Mrs. H. D. Dutton all of Ambur; Mrs. A. L. Dutton of Knox City and Mrs. E. L. White of Ambur. Grand children are Mr. and Mrs. Guy White of Rodan; Mr. and Mrs. Toy Sims of Ambur. Besides these relatives and their families, others present were Mr. and Mrs. W. L. Mitchell and Billy Max Junior White, T. F. Henderson, Lou E. Henderson, Juanita Joyce, Lawrence Dutton and Horace and Earl Morgan.

"WE MISS YOU, DADDY"

Editor's note: The following editorial which appeared in the Rockville (conn.) Journal, after a fatal accident at Rockville, has been circulated by the Connecticut motor vehicle department as a part of its "Safety Education" program and has been widely reprinted by the newspapers of Connecticut and nearby states.)

Those whose homes are blessed by little children know that the children think the world of their parents and no matter whether Daddy is a business success or a flat failure, in the eyes of those little ones he is the biggest and most important person on earth, except mother.

Tuesday morning there was a fatal accident on the Minterburn Hills and when the medical examiner was going through the pockets of the dead man, to list what valuables there were, or what papers were on the body, a telegram was found. It was not very long, just the ordinary ten word length, but it had a message that would make any father happy. It read:

"WE MISS YOU DADDY, WHEN ARE YOU COMING HOME."

That was all. It was a message sent by one of the children of the man who had been killed. He had received the message and was homeward bound. The clothes were minus money but in his pocket he carried that message.

Those who have little children, and those who were once little children, can think of the great blow to the child when father did return home—DEAD.

"Daddy" will be missed by those children in the long years ahead. No longer will they have his support his earnings, and more important, his companionship.

If ever there was a reason for people driving more carefully on the road, it is that they might get in an accident and deprive their own child or some other child, of their "Daddy."

More might be written but just let us repeat those words: "We miss you daddy. When are you coming home?"

MISTAKES

Fighting a buzz-saw, hoping to evade death or taxes, believing all one hears or talks back to you, mother-in-law are all recognized by most of us as mistakes.

We can avoid the mistakes which stand out like a headlight on a 1913 fliover.

But still we all make many mistakes. If we didn't we would make little progress. A wise man utilizes his mistakes, remembering the cost of experience and profiting thereby. He learns how to steer clear of such things in the future.

An editor probably gets more blame for a mistake than anyone on earth. A little typographical error can cause more fuss than a jackass in a tin barn.

You may have heard that yarn about the country editor who wrote a flowery obituary when the town miser died. The town miser was influential and had many relatives. The editor did the best he could with the material at hand and he finally concluded by writing that the man had gone to his last resting place. Then the printer made a mistake of setting the type so it read to the effect that the man had gone to his last "roasting" place. The proof reader muffed one and the flames started.

The editor doesn't get a fair break on his mistake business.

When a garage man makes a mistake, he adds it to your bill.

If a carpenter makes a mistake well, it is probably just what he expected.

When a preacher makes a mistake nobody knows the difference.

When a judge makes a mistake it becomes the law of the land.

When a doctor makes a mistake we send flowers.

But what an editor makes a mistake GOOD NIGHT.

Today and Tomorrow

By Frank Parker Stockbridge
 PIONEER—and a few acres

My friend and neighbor, Louis Raspuzzi, died the other day at 48. He had been in America only 19 years. When he arrived from his native Italy at the age of 29, he had nothing but a few dollars in his pocket, a strong pair of hands, a cheerful willingness to work and a powerful strain of rugged honesty. When he died almost a whole town turned out for his funeral. In those nineteen years in America Louis had carved out an independence for himself from a few mountain acres of land, reared a family of two sons and two daughters and sent them all through high school, and won himself a reputation that was county wide, for independence, integrity, straightforwardness, cheerfulness and helpfulness to his neighbors.

Louis Raspuzzi by his life gave the lie to the false and wicked doctrine of defeatism, the doctrine that tells us that America is no longer the land of opportunity and that Americans cannot make their way in the world unless they are subsidized and supported by the State. It was not circumstances but character that enabled the pioneers to succeed in the face of obstacles far greater than those that confront any American today.

day. Louis Raspuzzi brought to his new world the same character that those earlier pioneers brought. And that sort of character can still succeed as greatly as it ever did.

LOCKJAW—from the soil

What killed Louis Raspuzzi in the prime of life was that deadly soil-borne infection, tetanus, which we commonly call lockjaw. There is no place in which human beings have lived in which the tetanus germ may not be found. All that protects the barefoot boy from its deadly infection is the fact that nature has provided the sole of the foot with such a tough thick, almost horny skin that few things can penetrate it. But any break in the skin that comes in contact with the soil is a possible source of danger.

Summer is lockjaw time. Not so many die of it as formerly, since so many have been taught the danger of soil-infected injury. In Cuba and other densely-populated tropical regions, the natives fear to walk on the ground without sandals of some sort to protect them from lockjaw.

CHARACTER—and education

I have been reading the addresses to their graduating classes of a dozen or so university presidents.

Without exception, as I read it, those teachers put the main emphasis on character. Brains are less important than honesty, integrity, charity and unselfishness. President Conant of Harvard told his graduates, and that was about the way the rest of them spoke.

Intellect has been overplayed in the public mind, Dr. Conant said. It is important, but not all-important. Too much emphasis on intellect leads too many young men to try to shine in professions for which they are not fitted.

The purpose of college education, as I have always understood it, is not to train men to make more money than the other fellow but to live a better and happier life, in whatever line of work he follows.

UNDERSTANDING—fusses

Most of the outcry against the President's Brain Trust is not against trained intelligence but against the belief that many of the bright young men, with whom Mr. Roosevelt has surrounded himself are not yet sufficient experienced in the ways of the world to be safe guides for the nation in a time of trouble like this. In the homely country phrase, they are not yet dry behind the ears.

Understanding is more important than knowledge, especially in politics. The man who does not understand the vagaries and limitations of human nature may be as brilliant as Einstein, but people never have confidence in him as a leader of men.

PRESIDENTS—and college

To offset the attacks upon the "brain trust" the Federal Office of Education has compiled a list to show that nineteen Presidents have been college graduates, six college presidents and four college professors. I don't know what that is supposed to prove, unless that on the

whole the Presidents of the United States have been pretty smart men.

What these facts do not make clear is that all of these men became President, not because they were educated in the formal sense but because they had proved, by years of practical politics, that they understood the popular mind and were men to be trusted. Out of all the Presidents, not one so far as I can recall, but had held public office of a lesser degree before going to the White House, most of them having climbed up from the lower rungs of the political ladder. Only Taft and Hoover had never been elected to office before they were elected to the Presidency, but each had a record of many years of public administrative service in appointive office.

Character and Credit
Our community is or ought to be building a
citizenship covering a lifetime of service to
each other, helpful in good times and bad.
While the production of crops is far below
normal on account of the drouth, past ex-
perience has demonstrated that there is all
ways ample means and credit available for
the individual or community that meets its
obligations. Our community strength lies
not in the cash we produce, but in the char-
acter and credit we build. We are always glad
of the opportunity to be of service to our
customers, and appreciate assisting in your
financial problems.

The Fact Finders

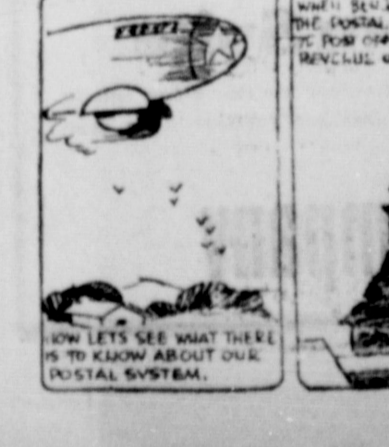

WELL, WE ARE—ON ANOTHER FACT—
FINDING VENTURE. LET'S GET BACK WITH A LITTLE
BETTER HISTORY & SEE WHAT WE CAN LEARN.

THE "FACT" OF MAILING—WHICH PLAYS AN IMPOR-
TANT PART IN THE HISTORY OF BUSINESS DOES NOT APPEAR
TO HAVE BEEN DISCOVERED EARLIER THAN THE 15TH
CENTURY, B.C. OR NEARABOUT.

BUT IT IS WORTHY THAT

HOW LET'S SEE WHAT THERE
IS TO KNOW ABOUT OUR
POSTAL SYSTEM.

WHEN BENJAMIN FRANKLIN WAS HEAD OF
THE POSTAL SYSTEM OF THE U.S. THERE WERE
75 POST OFFICES WITH AN AGGREGATE POSTAL
REVENUE OF \$20,000 A YEAR.

TODAY WE HAVE MORE THAN 53,000 POST OFFICES
& ABOUT 300,000 EMPLOYEES. THE AGGREGATE
REVENUE COLLECTED & EXPENDED AMOUNTS TO
ABOUT \$1,000,000,000 ANNUALLY.

Air-Tired Tractor Takes Cherries To President

After his speech at the Tercentennial celebration in Green Bay, Wis., President Roosevelt, smilingly accepted a basket of selected red cherries from the farmers of Union township, Door county, which claims to be the most concentrated area of red pie cherry production in the world. Gust Carlson, president of the Village Sister Bay, brought the cherries 50 miles on his Allis-Chalmers Model "U" tractor, equipped with Firestone low pressure air tires. The tractor is used for orchard and general farm work. When pretty Clara Ack Cherryland Queen, made the presentation and told the president that Door county cherries made "wonderful cherry pie," he smiled and nodded his approval. She also told the president that Union township voted "100 per cent for Roosevelt" in 1922.

You'll Save

on a FORD V-8 from the day you buy it

LOW FIRST COST! \$505 and up, F.O.B. Detroit. Ford V-8 prices are at their 1934 low.

LOW UPKEEP COST! The new Ford V-8 is the most economical car to run that Ford has ever built.

HIGH TURN-IN VALUE! Year after year the record shows that Ford cars retain an unusually great per cent of their original value.

THE Ford V-8 would be a great buy even at a much higher price. It's the only V-8 selling for less than \$2500. Ford alone has been able to put a V-8 engine in a low price car. The first cost of a Ford V-8 is decidedly low. But that saving is only the beginning... Ford V-8 valves seldom need grinding. Carbon removal is virtually eliminated. The new Ford V-8 consumes less gasoline and oil than last year's economical Ford. And Ford V-8 parts cost very little. In addition, on that distant day your Ford V-8 earns its honorable retirement, you'll find that it has a high trade-in value. The record of years Authorized Ford Dealers of The Southwest
