

# THE KNOX COUNTY HERALD

Knox City, Knox County, Texas Thursday, June 28, 1934

NUMBER 44

## Oneal Senator

## Marriages

WATKINS-McNULTY

Miss Minnie V. Watkins and Louis McNulty were married one day last week. Miss Watkins lived with her parents who operate the wrecking house north of the city.

DONALDSON-QUALLS

Miss Ophelia Donaldson and Mr. Dennis Qualls were united in marriage Saturday afternoon in the Baptist (parsonage) of this city, Brother C. B. Stovall pronouncing the ceremony.

Miss Donaldson is the young lady who has been living with Mother Qualls. Mrs. Qualls lives east of O'Brien where the couple are now making their home.

BROOKS-BISHOP

Miss Merle Brooks and Mr. Bishop both of O'Brien were married Saturday morning. Miss Brooks is a former employee in the Malouf and C. S. Ameen homes.

## Official Ballot

43 names, all candidates for state offices whose names will appear on the ballot in July, were published in the Herald. This week we give you the names of all candidates for this county, precinct or district. Following is the complete list.

For Chief Justice of Court Civil Appeals 11th Supreme Judicial Dist. J. E. Hickman

For State Representative 12th Congressional District—

W. D. McFarlane, Young County. Sam B. Spence, Wichita County. George W. Backus, Wilbarger Co.

For State Senator 23rd Senatorial District—

Ruben Loftin, Wichita County. Ben G. Oneal, Wichita County. Perry Browning, Wichita County. Harlod K. Dycus, Archer County.

For Representative 114th Legislative District—

George Moffett

For District Attorney 56th Judicial District—

J. Donnell Dickson, Baylor Co. County Chairman—

Chas. Moorhouse.

County Judge—

M. G. Nix

E. L. Covey

J. W. Melton

Roy Bullington

For County Attorney—

J. C. Patterson

Lewis Williams

For District Clerk—

Mrs. Rowena Phillips

For County Clerk—

M. T. Chamberlain

For Sheriff—

Tom Hudson

Shannon Layne

C. R. Elliott

For Tax Collector-Assessor—

Earl Sams

George Isbell

Lee Haymes

For County Treasurer—

Miss Lucille Harris

J. T. House

For County Superintendent—

Venon Brewer

Mrs. E. F. Branton

Lyndol Hughes

For Commissioner Precinct 1

J. W. (Pappy) Smith

D. W. Davis

Wm. Griffith

E. L. (Lee) Park

Benton Anderson

For Constable Precinct 1—

Frank Eldridge

Sam Favor

THE LEADER BEGINS BIG SALE

The Leader Store is this week beginning a big sale that is to continue through all next week. The sale begins Friday morning and continues through Saturday week on which date the fine, eight tube Zenith radio will be given away. This gift is being presented to the fortunate winner by the Leader Store and the Texas Theatre. This is a gift made jointly by the two firms and tickets from the drawing can be obtained from both places.

Attend Ameen's sale and get your summer necessities at his unusually low prices.

The Herald was very glad to do the printing for Mr. Ameen's sale.

## Seth Parker Club Is Wedding Party

Holland-Pewitt

Knox City's most unique wedding party throughout the years was that Tuesday evening when the membership of the Seth Parker club witnessed the marriage of Miss Irene Holland to Mr. Bob Pewitt.

Seth Parker and his singers with a number of guests, met in the Holland home. The program was opened by Captain Bangs but Seth soon took charge in the song service and the seventy nine adults joined the singing. At the close of the sixth or seventh song Mrs. Henry Aaridge took the floor and read a clever poem by Edgar A. Guest, "The June Groom." She then was seated at the piano and began playing a wedding march. A hush went over the crowd and soon Miss Holland and Mr. Pewitt appeared and walked into the center of the reception room where Captain Bangs, sometimes known as Reverend C. B. Stovall, pronounced a very beautiful ring ceremony. Immediately the couple took their leave, making the vanishing act so complete that none of the club were able to find them.

Bob was dressed in a light tan suit, most becoming, and Miss Holland wore rosevelt blue dress with white organza trim and white accessories.

Following the ceremony and the departure of the couple Seth Parker and the club reacted in a most humorous way entertaining themselves with singing "How That Girl Can Love", "My Wife, She is Mean to Me" and other similar songs and adjourned.

Miss Holland is the daughter of Mr. and Mrs. E. W. Holland of this city. She was reared in Knox City having graduated from the Knox City high school this year. Irene is a fine girl and well deserving.

Bob has been in Knox City only about one year. He is a refined, quiet boy. Knox City wishes for the two a life of happiness and prosperity.

## PERSEVERANCE WINS

Despite the fact the local base ball team has showed little or no margin in winnings this season they have faith in the adage that perseverance wins and in view of this hope the boys are beginning with few vigor, they will continue to play and will appreciate your attendance at the games.

No one will be asked to support the club other than attend the games. The club is allowed to sign up only thirty players; twenty eight of this number have already been signed; however, not this many are numbered among the players at this time. The team will be all home boys from here out and they will appreciate your interest in the way of seeing them play.

The game scheduled with Stamford on July the first to be played here has been transferred to Stamford. The locals will also play Stamford Tuesday the third and at Hamlin Wednesday the fourth and at Peacock Sunday the eight. The latter will be the last game of the first half.

The first game to be played at home will be Sunday July 15 with Munday, which will also be the first game of the second half. If you can't say something for the locals, don't knock them they will do their best which we hope will be much better than what has been done so far.

O. D. Reid, Mgr.

## GURLEY FAMILY IN CAR ACCIDENT

Mr. Gurley and family, transients, were in a car accident on the Benjamin-Guthrie road last week in which two of the girls suffered severe injuries. The girls were in a trailer asleep and the girls were thrown out. One sustained a crushed skull while the other suffered a severe flesh cut on the foot. They received treatment in the Knox County Hospital.

This was one of the most tragical accidents that has arrived in Knox City for treatment. The family was out of work possessing nothing of this world's goods and in addition to this accident they now find themselves physically ill.

Casey Jones

## HOSPITAL NOTES

Patients in the Knox County Hospital this week include Mrs. Charley Ray of Throckmorton, Mrs. R. E. Hughes of Vera, Mrs. T. C. Dubusk of Rochester, Floyd Alexander of Westover, Miss Aurlene Cousins of Haskell, Preston Bennett of Benjamin and Mrs. A. Nicholson of Munday.

Mrs. Crenshaw of Benjamin was in last Friday for treatment. Clyde Burnett of Benjamin was dismissed Saturday; Lee Stout of Truscott was in last week with a broken arm which he received in a fall from a donkey. He was dismissed Monday.

Jim Reister of Goree was dismissed Monday. Mrs. Milan Digg of Haskell visited patients here Tuesday. Baby Ellis Stevens of Knox City was operated on last week and dismissed Thursday. Gerald Barnard of O'Brien was in last Friday for treatment.

Clarise, Geneva and Lois Gurley were here last week the victims of a car accident. Clarise had concussion Geneva had a foot injury and Lois received minor treatment.

## RHINELAND BAND TO BE HERE SATURDAY

The Rhineland 17 piece band will be in Knox City Saturday evening about five o'clock. They will play a number of pieces on the main street and every one is not only invited to see and hear them but all are also anxious to be on hand for the visit. Rhineland is planning a big celebration on the 4th of July for the opening of the Rhineland bridge, an official statement appearing elsewhere in this issue of the Herald and their visit Saturday will be a further invitation to Knox City folks to join them for this celebration.

Miss Addie Short was complimented with a slumber party on Saturday night of last week, given in the home of Mrs. H. B. Sweeney. The girls, in company of Mr. and Mrs. Sweeney attended the mid night matinee at the Texas Theatre. Upon arriving home something near two o'clock they hitched themselves up to a little red wagon and "drove" up to the ice house. There they received a small but rather good watermelon. After the melon feast other bits of hilarious entertainment were engaged in and only a short while before the red sun appeared along the horizon did the group of four settle down for a bit of sleep. However, all made it up for breakfast and attended Sunday School and church. Those enjoying the occasion were Misses Francis Evans, Mayme Shaver, Faye McAuley and Addie Short.

## RHINELAND TO HAVE PICNIC JULY 4

Rhineland is busy making preparations for its picnic on July 4. Every thing possible is being done to make this the greatest and most enjoyable affair in its history. The festivities of the day are not only in commemoration of the great historical declaration made by our forefathers on July 4, 1776, but also to celebrate the opening of the new Rhineland bridge across the Brazos.

There will be plenty to eat and drink for everybody. No matter how fastidious you taste it, you will find here just what you want. Rhineland has always been known to serve you what you want and just as you want it.

Many attractions are being secured for your entertainment. The Lone Star Band will furnish plenty of good music for you during the day. A large outdoor platform, accommodating approximately 100 couples, will be built. The well-known Gordon C. Shay's orchestra of Wichita Falls will furnish the music for the dance.

An effort is being made to get some of the leading candidates to be present. Of course, all county officers and candidates are cordially invited.

Many business men and friends of neighboring communities have made liberal contributions toward the picnic. This good will is highly appreciated by the people of Rhineland, and due recognition will be given them.

A hearty welcome is extended to all to come and enjoy the day with us.

## SHANNAN LAYNE STILL IN THE SHERIFF'S RACE

For some unknown reason the report has been circulated in Knox City that Shannan Layne has withdrawn from the race for Sheriff of Knox county. This idea is a mistake. Mr. Layne is most decidedly in the race and expects, so he says, to remain there to the last. He will greatly appreciate your vote and influence.

Mrs. T. P. Frizzell was at home to the members of the Tuesday afternoon club this week. Covers were laid for twenty guests among whom were Mrs. Gulwell of Abilene, Mrs. C. L. Mays, Mrs. Pitzer Bakern and Mrs. Bing all of Munday, Mrs. Ferguson of Amarillo and Miss Addie Short of Gila Bend Arizona.

Following the games refreshments of roll cheese sandwiches, potato chips, frozen fruit salad, mints and iced tea were served.

Cut flowers, the larger part of which were rose buds, were used attractively in the reception rooms.

## IT COMES FROM ROME

From Rome comes word that a new element has been discovered that will make the world young again. It is created from radium.

The announcement is nothing new. Periodically some one arises to startle the world with a panacea for eternal youth. But nothing material seems to ever come from any of them.

Without question the world is growing old. Mankind is not blessed with the rugged health of our forefathers. Age crepes upon us more easily, death comes more suddenly. We are not the race physically that our ancestors were.

But there is a reason for this change in the physical condition of mankind. We are too lax in the selection of our daily diet, too indifferent to what we eat, too ravenous for the things we like whether they are good for us or not.

If we have money we indulge our appetites to the limit, and our systems suffer. If we have but little money, we economize on health producing foods in order to have more to spend on joy rides and others.

The divine one places every vegetable, every blade of grass, upon this earth for a purpose. He gives us intelligence that we may make the most of that which is placed before us. The trouble is that we no longer use that intelligence as the Lord intended.

When we change our mode of living and get closer to nature we will not need any of these periodical "discoveries" in order to live out our normal life.

## Today and Tomorrow

### SCIENTISTS—at work

The popular idea of a scientist is an old man with an absent-minded expression hunting through a microscope for something that wouldn't be any use if he found it.

I wish I could take every one of my readers through any of the great industrial laboratories with which I am familiar, and in which I have often watched scientists at work. One of them employs more than a thousand young men, each of whom have a university Doctor's degree, in chemistry, engineering or philosophy, and has had to prove his ability to do original research work before he could get his job.

They are very far from being the doddling dodos which the public imagines men of science to be. They are as keen, human and interesting a group of men as I have ever encountered anywhere. Their prime purpose is to find ways to make telephone work faster, better and cheaper. But as byproducts of their discoveries such inventions as talking pictures, chain broadcasting, television and many other things have come out of that laboratory.

### PROGRESS—a look back

I have little patience with the common complaint that inventions and machinery have brought the world to ruin. Exactly the opposite is true. Who would be content to go back, even to the days of my own boyhood?

I can remember when there were no telephones, no electric lights nor electric power, no airplanes, no motion pictures, no Portland cement, no bathtubs or plumbing to speak of, no gas engines, no automobiles, of course, and not even any bicycles. Wireless telephony and its offspring radio broadcasting, were undreamed of; the dirigible aircraft was a romantic novelist's fantasy.

I could fill this column with products of the application of science by invention to serve humanity. I think the world is better off.

### HEALTH—life saver

I saw a notice posted in a New York subway car the other day in which the Health Commissioner pointed out that only 37 babies died in the big city of diphtheria last year, whereas several thousand died of it annually only a few years ago. Anti-toxin has put an end to this massacre of the innocents.

One by one in my own time I have seen the scourges of mankind vanish under the advance of medical science. Smallpox, bubonic, yellow fever, malaria, typhus, typhoid,

**Constipation**  
If constipation is your trouble, you need a laxative. **Senecio** is a powerful laxative, and is the only one that is safe and sure. It is a natural product of the earth, and is the only one that is safe and sure. It is a natural product of the earth, and is the only one that is safe and sure.

tuberculosis, scarlet fever, all the long list of diseases that took high toll of human lives when I was a boy, have been banished or are rapidly being conquered by the forward march of civilization and the steady march of science. Smallpox, bubonic, yellow fever, malaria, typhus, typhoid, tuberculosis, scarlet fever, all the long list of diseases that took high toll of human lives when I was a boy, have been banished or are rapidly being conquered by the forward march of civilization and the steady march of science.

### CANCER—needs research

One of my friends lost his wife a few months ago. She had a cancer. The other day he told me that he had been inspired by that tragedy to investigate the whole subject of cancer, and was surprised to find advance in medical knowledge and called scientific research by modern methods had been undertaken, into either the cause or the possible cure of this most dreadful of all diseases.

My friend is a fan of scientific training, familiar with the methods of the great research laboratories. "I am sure," he said, "that with three or four million dollars available, with which to hire competent chemists, biologists and pathologists any of the big industrial laboratories could find the cause of cancer and a cure for it, in a few years."

It is easier to get money with which to do research if it is expected to result in more money, than it is when nothing more important than human lives is involved.

### BLOOD—four types

The transfusion of blood one person to another has become such an established method of treatment in various conditions that every important hospital has a list of "blood donors." These are men or women who are willing to part with a pint of more of blood for a fee of \$25 or so.

Medical men learned through this work of blood transfusion that there are four distinct types of human blood, and that it is necessary to be sure that the donor's blood is of the same type as that of the patient. These four types are known as "O," "A," "B," and "AB."

The tests for these blood types are so positive that recent examinations of the muscle tissue of Egyptian mummies, who have been dead for several thousand years, prove that these inhabitants of the Nile country in the time of the Pharaohs were all of a single blood type, the "B" standard.

Men of science are beginning to think it likely that there are four original races human beings whose blood types persist in their descendants. Nobody, or only a comparatively few of the earth's inhabitants, is of unmixed racial strain. But the blood type will tell which strain is dominant in any given individual.

Mr. and Mrs. Otis Cash were guests Sunday in the home of Mr. Mrs. Lawrence Rogers who lives on the Burnett farm.

Mrs. Nellie Mae Withrow and sons T. P. and Leon spent Sunday with relatives in Olney. They were accompanied home by little Miss Jo Nell Withrow who spent some ten days with her aunt in Olney.

A number of Baptists attended the Workers Council held Tuesday in Rochester.

Guy Green has rented the home of Mrs. Della Short and expects to be moved by the first of July.

S. M. Clets and family returned home Monday from their vacation trip.

The J. Silman family and the C. S. Ameen family with S. Hassen family of Haskell and S. Wade and George Salen; families of Munday spent a most enjoyable day Sunday in Seymour.

That mother who presented her husband with five babies at one time should be thankful that she is in Canada instead of the United States. There is no danger that the Canadian trustees demand that she curtail production.

Mrs. S. L. White now has her mother Mrs. Gentry at her home here. Mrs. Gentry has suffered some kind of a stroke and is unable to walk; however her condition is considerably improved to that of a week or so back.

Mrs. Ray Lanter has returned home from a visit to Fort Worth and Dallas. Her niece, Miss Shirley Lindsay of Fort Worth, came back with her to spend the remainder of the summer on the ranch.

Horace Benedict was home over the past weekend.

Brother and Mrs. R. R. Gilbreath visited in Sagerton Tuesday evening. They attended the Bible Class Session to which reunion all former pastors of the church were invited.

## ABOUT YOUR HEALTH

Austin, Texas June 27.—Taking note of the approach of the great patriotic National holiday, July 4, which this country has celebrated for one hundred and thirty-eight years, Dr. John W. Brown State Health Officer, calls attention of the people of Texas to some of the dangers of careless celebrating. Each year on the 5th of July one reads of the appalling number of accidents which occurred over the Fourth.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails and other penetrating wounds in which dirt may be carried into the skin heighten the hazard of tetanus or lockjaw. Such wounds should be promptly dressed by a physician.

If the days pleasures include a swim, caution should be used and no attempt made to do more than your strength will permit. If a drowning takes place, artificial respiration should be started at once and continued until a doctor arrives.

Automobile accidents have usually one of three causes exceeding the speed limit, driving on the wrong side or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgement of the "machine" within the machine. Caution should guide the holiday activities so that the day may be remembered with joy instead of sorrow.

Mr. and Mrs. S. L. Favor returned home Tuesday from their trip to Brownwood and Corsicana. They were accompanied home by their daughter Mrs. J. H. Culwell and son of Abilene.

Get your car repainted at the Knox City Motor Company, Jim Dobbs is a special man in this work. Rudolph also does excellent body and fender work.

Lloyd Waldrip spent Wednesday in and near Throckmorton.

Miss Wynell Edwards is visiting in Wichita Falls this week.

Mrs. Leven Williams of Croyabton is here this week visiting her two daughters.

Jack Coats is taking his vacation this week from his employment in the Citizens State Bank.

Panny Farmer spent the first of the week in Oklahoma.

The little three old daughter of J. W. King has the whooping cough. She has a severe case.

Mrs. C. A. Womack and daughter of Olton are visiting Mr. and Mrs. J. D. Cook.

Miss Ietha Graham is a guest in the L. W. Graham home this week.

Mr. and Mrs. J. H. Ingraham and children and Mr. and Mrs. Tobe Paul spent the first of the week at Lake Kemp.

There will be a picnic given by the membership of the Methodist church on the evening of July 4th on the lawn at the church. All members of the church and friends thereof are invited to take a filled basket and join the feast.

Mr. and Mrs. Brownie Hutton of Truscott were guests of his sister Mr. and Mrs. Otis Cash Monday night. Mr. and Mrs. Hutton were en route to South Texas.

The Mens Sunday School class of the Baptist church is finding the contest, of which there is a blue and a white side, a very close race. Every member is urged to be present and on time Sunday.

### H.D.C. News

#### Gillespie Wardrobe Demonstrator Realizes Value of Such a Demonstration

"When I enrolled as first year wardrobe demonstrator in my club last year, I just had one small clothes closet in my house. The closet is in the spare bedroom and to reach it, I must pass through two rooms. Of course I had to use it, and only those who face the same problem, know the many needless steps taken," said Mrs. R. M. Almonrode, Gillespie Home Demonstrator Club, second place winner in the Class 1 wardrobe demonstration.

One of the things that made me so interested in the wardrobe work, was that I must have a standard closet. I know that if I enrolled as a wardrobe demonstrator that in some way I could get this closet. Last fall we laid a new floor in the dining room using the best of the old flooring and with my husband helping, we built a closet 5 1/2 by 4 1/2 feet, to the ceiling. I lined the walls and ceiling with heavy cardboard boxes, before papering. I have one big shelf extending across the top to be used for storage and for hats. At one end I have three deep shelves to be used for storage and for hats. At the bottom shelf is used for storing my little five year old daughter's toys. It is a happy arrangement for all of us", Mrs. Almonrode stated.

In addition I have a rod extending from the end of the shelves for hanging garments. I have made three hat racks of quart milk bottles and I find that they are just right. I had my shoe rack and sleeves ironer sawed out at the lumber yard as I had nothing with which to saw them. I am very much pleased with both and only regret is that I did not have them long ago.

The door hinges and catch were the only things I had to buy for my closet. With the cost of the sewing of the ironer and the shoe rack ends included, the total cost was \$1.00. The shelves were generously given by my husband, and are of new material except one board.

With an enrollment of ten active members we have seven foundation patterns finished, and have two started. In my club, I have met twice and helped make patterns for a newly organized club. The first afternoon I measured and cut five patterns, at the next meeting those had been finished and five more were fitted, ready to be finished. In all I have made 18 patterns.

My wardrobe was planned so as not to exceed \$25.00. To date, I have spent eleven dollars and ninety cents. My club dress cost sixty eight cents

including thread and trimmings. I know that I owe the pleasure I get from my closet and from a well planned wardrobe to the Extension workers. To them I give thanks.

In thinking of all our extension workers and of their great work with rural people, I think of these lines by Clifford Hardison.

"To have done whatever had to be done; To have turned the face of your soul to the sun; To have made life better and brighter for one; This is to have lived."

#### Union Grove Wardrobe Demonstrator Tells Story of Years Work

"I have enjoyed my wardrobe work this year real well, and I feel that it has helped me very much with my sewing," said Mrs. J. C. McGee, Union Grove wardrobe demonstrator a division of the County Dress Contest.

In October I decided to built a clothes closet in my bedroom. I only had one in the house that I had to use for everything. My new closet is 5 by 2 1/2 by 8 feet and has 3 large shelves and two rods for hanging clothes in it. It is papered with light paper. It was made of new material and cost \$5.00.

My demonstrations have not been what I would have liked for them to be on account of sickness. My club is not 100 percent but I have really tried to make it so by giving all day demonstrations and making 11 patterns that are individually fitted.

I gave one demonstration on the foundation pattern in Knox City and made six patterns.

Miss Mary Leone Hoge is visiting friends in Seymour this week.

Mrs. Williams of Putnam is visiting her sister Miss Lillian Park.

Mammy Smith is able to be up and out again. She has been real sick.

Mr. and Mrs. Jim Bridges and daughter of Aspermont were guests over the weekend of his parents Mr. and Mrs. L. N. Bridges. Jim is moving this week from Aspermont to Weatherford.

Jack Wilson is in Oklahoma this week.

Have one south bed room for rent. D. D. Hairston.

Mr. and Mrs. D. D. Hairston and daughter visited relatives in Rule Sunday.

Mr. and Mrs. Keesee of Rule spent Monday evening here with Mr. and Mrs. D. D. Hairston.

Mrs. Ab Watson and daughter, Mr. and Mrs. Joe Watson and Joe Watson attended the funeral services of Mrs. Bratchen held in Vera last Friday.

Mrs. Roy Baker returned home from a weeks visit in Fort Worth.

A. Y. Barnes spent Sunday with relatives in Munday.

The fellow who is slow at making promises is invariably slow at breaking them when made.

The youngsters who resents corrective measures is usually the one who needs them most.

Mrs. A. J. Malouf and two sisters Misses Sadie and Ramra Gabriel spent Tuesday in Jayton.

Guests in the A. S. Logan home Sunday were Mr. Charley Neal and family and Mr. Ben Neal and family all of Rule.

Mr. and Mrs. Newt Hull of Putnam and Miss Velma Tackett of Thurber were guests of Mr. and Mrs. Press Hitchcock Monday night.

When your car needs repairing, see Rudolph at the Knox City Motor.

Retire with Nationals. They are insured against all road hazards and are sold in Knox City at the Knox City Motor Company.

Mrs. A. J. Malouf and children are leaving today Thursday for California to be with Mr. Malouf who is there for his health.

Mr. and Mrs. Henry Arledge spent Monday and Tuesday with relatives in Roscoe.

Ken Frizzell was the unfortunate one in the picnic group Saturday evening who went to Benjamin. Ken ran into the barbed wire fence and gave himself a slash under the chin. His dad made an stitch in the cut and now Ken has bow knot under his chin.

Misses Inez and Ruby McKinny returned to their home in Gilliland Tuesday after spending some two weeks here with Miss Laverne Jones.

Mr. and Mrs. Ed Campsey and Mr. and Mrs. Brooks Campsey and children spent the past weekend in Wellington.

Mr. and Mrs. W. R. Terry returned home last week from Temple Okla. home where they visited a week or so.

Ray Willis with his brother-in-law from east Texas spent two or three days this week on Miller Creek fishing.

Mr. and Mrs. Aulcie Stevens are visiting in Sulphur Springs. They will return home in about two weeks.

The highway department is making good time on building the new road bridge near the George Stubbs home, taking the place of the old and too small bridge.

Mr. and Mrs. Erle Cubine of McLain spent the weekend here with her parents Mr. and Mrs. L. N. Bridges.

Mr. and Mrs. Ab Stevens are visiting their daughter in Fort Worth. They expect to be gone about two weeks.

Joe Averitt and family, Mr. and Mrs. Charley Keck with Mrs. Lisensbee of McCamey and Mrs. Hicks and two daughters of Rochester spent Sunday at Leuders.

The sorrow of a death in your home is great. The embarrassment of not being able to bury your loved one is greater. Membership in Haskell-Knox County Burial Association, Haskell, means immediate relief. Join today, and feel secure. It's growing daily.

#### City Barber Shop

"Friendly Service"  
We Appreciate Your Patronage

DID YOU EVER STOP TO THINK  
By Edson R. Waite, Shawnee, Okla.

W. T. Anderson, Editor of the Macon (Ga.) Telegraph and publisher of the Macon Telegraph and the Macon Evening News, says:

"It is an accepted fact that advertising pays, and this is interpreted by the unthinking that all advertising pays. All of it does not pay. Good advertising is like good fish, and the reverse is as true of one as the other. After we leave the distinctly bad advertising, the other kind is good in varying degrees. Novelties are of very little value, because of the novelty obscure the advertising that is on it.

"Billboards cost a lot more than is justified by the results achieved and this is said regardless of the cost.

"Circulars have very little value because nobody vouches for them except the one whose name is signed and, as he has a strictly selfish interest, his statements are discounted almost to the point of killing the advertising value altogether.

"Radio is much like the old picture show advertising. This was popular at first, but either the picture people saw that to thrust advertising in the faces of their patrons who had paid for and demanded entertainment was bad business, or the advertisers themselves discovered there was no value in it. Radio is the only kind of advertising bought on blind faith and hope, not to speak of charity-from the standpoint of circulation. The novelty of it makes this possible. Imagine what the advertising rates on radio would be if there were an audit bureau of circulations, which checks up newspapers and other publications, to ascertain the actual number of listeners in on the advertising.

It should be determined to that body... should be able to point to some accomplishment as a member of the Legislature...

Reducing State Support Of Public Free Schools

I have stood for economy in government and helped to reduce the general appropriation \$14,000,000...

Tax Relief

I am author of and have supported a number of bills seeking to effect tax relief, some of which I list below.

I am the author of the substitute bill in the Senate giving the auto owners until the 31st of March of each year to pay their auto license...

I am the author of the split tax which permits the owner of property to pay his ad valorem taxes in two installments...

The effect of this law is to lower the amount each county has to raise for taxation for road purposes. In Knox County it lowers the amount annually approximately...

Reforms Of Criminal Procedure And Apprehension Of Criminals Some time ago it became apparent to me that the criminal situation in Texas is such that reform in criminal procedure is imperatively necessary...

Regulations Of Utilities I favor the regulation of utilities. Ever since I entered the Senate I have supported proposed laws for that purpose...

criminals may be brought more swiftly to trial; that the punishment meted out to them may be more certain...

Again during the called session of thirty days this last February, when the Governor by message about the middle of the session had opened the way for the consideration of reform of criminal procedure...

Not only does the Code of Criminal Procedure need reforming but the method of apprehension and identification of criminals should be strengthened...

The called sessions are limited by the Constitution to thirty days and the two since that announcement have been crowded with many measures...

The criminal conditions in the State have become such that all of these reforms are urgently needed. I believe that with the beginning we have made...

I favor the regulation of utilities. Ever since I entered the Senate I have supported proposed laws for that purpose...

I expect to continue both as an official and as an individual citizen my best efforts toward saving and bettering for the younger and the coming generations...

favorable report for passage in Senate to a House Bill making pipe lines transporting natural gas Common Carriers...

At the last called session I sponsored in the Senate House Bill No. 95 by Tennyson, for better regulating utilities...

President Roosevelt in a message to Congress recently said that he is looking for a sound means which he can recommend to the next Congress...

I shall favor the State of Texas cooperating with the Federal Government to the end that all the destitute aged may be properly cared for.

I stated in my announcement for the Senate when I was elected that the oil business is one of the main industries that has built up this section...

I shall favor careful limitations by law upon the method of handling or selling intoxicating liquors to the end that nothing like the old time saloon may return to Texas.

I favor a law requiring all legislative candidates to make under oath and file with their application for a place on the ballot...

I have not since I was elected to the Senate sought to put any relative of mine on the payroll of any department of the State Government...

I expect to continue both as an official and as an individual citizen my best efforts toward saving and bettering for the younger and the coming generations...

In campaigning nine counties it will be impossible for me to see every one, but whether or not I get to see you, I assure you and every one of you that I will appreciate your support and influence for a second term.

W. E. Raney is this week restaining and varnishing the floors of the Moseley home. Raney is also improving the office of E. O. Jamison...

HOW BIG A LUBRICATING JOB CAN A QUART OF OIL DO?

HERE is a record of motor protection and low consumption that conclusively proves how big a lubricating job a quart of oil can do. Six strictly stock cars, with one five quarts only—of six different, nationally advertised motor oils were run to "destruction" at the Indianapolis Speedway under AAA Supervision...

Such demonstrated superior qualities of greater film strength, ability to withstand increased heat, resistance to dilution—such proved performance should guide your future oil purchases. Be safe—look for the Red Triangle Sign.

These are the representatives of the contest board of the American Automobile Association who supervised every detail of the test and attested to the records made.

The official sealing of crankcases after fill of five quarts was put in. No addition of oil was permitted in this "destruction" test.
