mother Mrs. Jessie Mc-
Cormick returned home
this week.

YOU ARE WELCOME.

JULY CHILDREN

Four boys and two girls, infants,
are reported by local physicians as
new citizens in this and adjoining
towns for the month of July. They
are as follows:

In the home of Mr. and Mrs. F.
C. Lucas, who live west of the river,
a girl on July 2.

In the home of Mr. and Mrs. Clar-
ence Clinton of Knox City on July
8th a boy.

A boy in the home of Mr. and Mrs.
Elvis Fooths of O'Brien on July the
11th.

A girl in the home of Mr. and Mrs.
R. T. McGuire of Rochester on July
11th.

A girl in the home of Mr. and Mrs.
J. C. Collier of O'Brien on July 18th.

In the home of Mr. and Mrs. J.
E. Turner, who lives west of the riv-
er, a boy on July the 18th.

Glenn and Eliza Paris of Abilene
were in Knox City last Thursday en-
route to Gilliland to visit their fath-
er, Mr. J. G. Paris.

Evangelist De- livering Good Sermons

STORES CLOSE FOR MEETING

The Reverend Whatley who is
conducting the Revival meeting now
in progress at the Baptist Church,
is delivering some excellent sermons,
even surpassing himself when com-
pared with the meeting of last year.

The business houses of the town
are closing every morning from ten
to eleven o'clock for the meeting and
most, if not all, of the business men
and their employees are attending
church.

This unwritten rule of the mer-
chants pertaining to closing the stores
for the revival meeting, includes every-
day except Monday and Saturday.

And it also included all revivals that
are held in the town during the sum-
mer.

Possessed of a cooperative, Chris-
tian spirit, the merchants of the town
are glad to close their doors for one
hour and attend church. While the
crowds in attendance at the meeting
of the days of this week have been
large, all are anticipating even larger
crowds throughout all next week.

If you have not been among the
number in these services at the Bapt-
ist church, you are cordially invited
by the local pastor, Reverend Stovall,
the evangelist, Reverend Whatley,
and all the Baptist people of Knox
City to attend the services.

Tarloton is a Co-educational State
Junior College, a branch of the A.
and M. College of Texas. The Tarloton
on \$75,000.00 student loan fund
makes it possible for many worthy
students to attend there.

T. P. Withrow, Jack Wilson, Mil-
ler Lee and Estell McBrayer made
a trip to Lubbock one day last week.

E. O. Janison, T. P. Frizzell, T.
E. Robbins and Finis Walker were
among those whom witnessed the
dynamiting of the Walker tank Tues-
day. The same is located on the Walk-
er ranch west of the river.

Mrs. Roy Smith and two children
are visiting her sister, Mrs. Weaver
in Corsicana this week.

P. S. the husband says he is batch-
ing.

Mr. and Mrs. S. M. Clouts and
family drove to Wichita Falls last
Friday to see Miss Catherine Clouts
their guest for the past two weeks
catch the train for her home in Muskogee, Oklahoma.

John and Eldon Elliott of Tulsa,
Oklahoma are visiting in the home of
their aunt, Mrs. T. E. Robbins. They
will probably remain here for the
rest of the summer.

Mr. and Mrs. C. C. Hoge and child-
ren spent the past Sunday with rela-
tives in Throckmorton. Paul re-
mained there for the week while lit-
tle Miss Geneva Hoge returned home
with Mary Leone for a visit.

Weather and Crop Conditions

FARMERS CHEERFUL OVER PROSPECTS

Following the last issue of the
Knox County Herald, Knox City re-
ceived a good rain.

Sunday morning, just as Brother
Stovall stood up in the pulpit and
began his sermon as the first of
the Baptist summer revival, heavy
clouds gathered overhead and to the
south and before the sermon was
much underway, rain began to fall.
Before the day had ended Knox City
had received a good rain.

Monday another shower came with
varying amounts over the local trade
territory. Union Grove community re-
ceived a good rain Monday while
east of town, the rain did not reach
as far as the Hull farm.

Farmers are pleased with having
the best crop prospects that they
have had for years.

Wednesday morning S. M. Clouts
and E. Q. Warren spent the time
driving over Knox and the northern
portion of Haskell county. They
found the crops in fine condition.
Talks with the various farmers over
this territory revealed the fact that
they are cheerful and delighted with
the prospects of the feed crop.

Miss Ruth Hammock came home
Saturday from Bryan. She will be at
home until the fall when she will
again attend College.

Anell Waldrip left this city last
week for California where he will
spend two weeks. During his absence
his off business is being attended to
by his brother, Lloyd.

We understand that Mrs. Henry
Jones is spending this week at her
home in Knox City. We are indebted to
Orland Jamison for this bit of
information.

Reverend Jackson of Olney, a former
pastor of Knox City Christian
church, was here Monday talking
with friends. He was enroute to Ben-
jamin to see mother Caudle.

John and Eldon Elliott of Tulsa,
Oklahoma are visiting in the home of
their aunt, Mrs. T. E. Robbins. They
will probably remain here for the
rest of the summer.

Mr. and Mrs. C. C. Hoge and child-
ren spent the past Sunday with rela-
tives in Throckmorton. Paul re-
mained there for the week while lit-
tle Miss Geneva Hoge returned home
with Mary Leone for a visit.

Poultry Pays Despite Low Prices

An average of four Knox County
Poultry Demonstrations shows a profit
despite the low prices received for
eggs during six months these demon-
strations have been in progress. The
following table gives demonstration
address and data on demonstration.

Quinn Hickman of Truscott re-
ceived 13,322 eggs from 179 hens
and received \$286.86, the cost of the
feed being \$184.44 making a profit of
\$103.42.

Lloyd Waltrip of Knox City re-
ceived 25,900 eggs from 234 hens
and received \$339.81 the cost of the
feed being \$152.35 making a profit of
\$187.46.

J. H. Barnell of Knox City recently
received 22,173 eggs from 318 hens and
received \$425.65 the cost of the feed
being \$207.70 making a profit of
\$227.95.

Mrs. A. H. Sams of Benjamin re-
ceived 6,095 eggs from 63 hens and
received \$193.77 the cost of the feed
being \$157

A SERIOUS INDICEMENT

Perhaps the most shocking revelation has been made public for many years is the report by the Wickerham Commission on Crime and Punishment of the way in which child offenders under Federal laws are misused, neglected, even tortured in various state penal institutions to which they have been sent by the Federal courts.

The Federal government maintains prisons for adult offenders, but has to turn children who are convicted of violating Uncle Sam's law over to state and county institutions. Investigators report that in some of these prisons they are placed in damp, unsanitary, dark cells, in others mixed with hardened adult criminals, in others practically starved, and in one beaten and otherwise mistreated for the slightest infraction of discipline.

If anything can turn a boy or girl of 15 or so into an habitual criminal, it is prison treatment such as that.

These children have done nothing to merit any such treatment. It is only occasionally, to be sure, that a minor comes under the ban of the Federal laws. These young prisoners have been found guilty of running a stolen automobile across the state line, which is one of the most recent crimes under Federal laws, or of acting as messenger for drug-peddlers, again crossing a state line, or of other inter-state acts which, while serious enough, do not call for such brutal and heartless treatment as these youngsters get.

If the United States Government must send children to jail, then let the Federal authorities establish their own prison for minors and see that they are humanely treated.

J. V. Jones drove to Quanah Sunday to meet his sister, Miss Hazel, who was returning home from a visit with relatives in Amarillo.

Mildred, Louise and Milton Jr. Brown of Breckenridge are spending this and next week in the Huntsman home.

Movie Director—We want an audience for the opera scene.

Casting Director—No, just anybody who can cough.

We are glad to state that Mrs. L. L. Leaverton, who receives her mail on route two Knox City, has ordered the Herald sent to her son J. B. Leaverton in Houck Arizona.

Pasenger (asking for third time) Have we reached No. 234 Prospect street yet?

Conductor—Yes, ma'am. Here you are. (Stops car.)

Passenger—Oh, I didn't want to get out. I wanted to show my little doggie where he was born.

The Primary Department of the Methodist Sunday School enjoyed a picnic Monday night on the lawn at the church. The Junior department had their picnic Wednesday night on the lawn at the church, which they enjoyed very much.

Goodson and Hitchcock are moving a Barber Shop to Rochester this week, the same to be opened Saturday. Mr. Goodson is moving down in charge of the shop. They will appreciate the cooperation of their friends and patrons in their work.

of the two shops, O'Brien and Rochester citizens will now be able to get good barber work in Rochester as well as coming to Knox City for same.

Lawyer (taunting witness)—Have you ever been in jail?

Witness—Yes, sir; once.

Lawyer—Ah! For how long?

Witness—Just long enough to whitewash a cell which was to be occupied by a lawyer who had robbed a dozen of his clients.

Subscribe for the Knox County Herald. Only \$1.50 per year.

V. G. Martin Writes to Ed Shaver

Lorenzo, Texas
July 17, 1931

Dear Eddie:

Seems to me the world is getting to be a very quiet affair. If I have any friends, don't ever hear from them. Have written brother McCarty; no reply. Have written brother Warren; no reply. But from what information I can get by word of mouth from your village, things are not the same. The boys don't have the old time pep. Don't seem to be getting the kick out of life as in the former years. Why all this quietude in and around the country. You well remember we were raised on corn bread and sow belly, red beans etc. And those were the happy days. Don't I remember when you used to drive in to O'Brien from the Bush Ranch to hear Brother Stanley Clark and Brother Scott Hickey at the three day picnics, and you were one of the stars in the ball games, just a white headed youth with the better part of life ahead of you.

Now you are on the stage right in the middle of it. Act your part well and you will probably gain the applause of the multitude. You also remember the prophetic words of both brother Clark and brother Hickey, that interest, rents and profits would ruin the world. It's just another prophecy coming true. Cut loose from the idea of trying to make money; get into a good cooperative kin plant and devote your best interests in trying to save the farmer money; work for the interest of the multitude and your old time joys will return. Most strenuously discourage selfishness and selfish political ambitions. What the country needs is to resurrect the Klux Klan and as Billie Cleo used to say, get out 'n the pastures and put out some more of that good soft stuff.

Well, enough along that line. Some day when I get hold of some money to set me some breeches, will come down and give you boys a lecture along the line of the trend of thought as outlined above. But under the present system, keeps me very busy meeting the obligations of the Texas Tech etc.

Have lost my trend of thought; our banker just in for thirty minutes and have threshed the financial situation from A to Z including the lack of success at Lockney and Floydada yesterday. The final consensus of opinion at the close of the conversation was that if a man has a dollar, he is just a d--- fool to let it get away from him now.

Do you boys ever go anywhere out this way. Have been thinking that probably some of you would come out this summer or would at least pass by on your vacation to Colorado, New Mexico or somewhere. Give my regards to the boys and if I can get hold of a dollar and half to get me some summer breeches, will drop down some Sunday afternoon. Go as far as Dickens or Guthrie Saturday afternoon, camp out and come in to breakfast Sunday morning. And don't get excited, will divide the bunch and just one or two of them eat off of any one man. Think that fair? Let of rain out this way and crops looking good.

Best regards,

V. G. Martin

Mr. Martin is a former depot agent of Knox City, and has many friends here who will enjoy reading his letter. Thanks to Eddie for this news.

"I'm afraid Mr. Jones will not attend our party."

"Nonsense! His better self will humph."

"She always does, doesn't she?"

Jinx: Television will soon be here.
Ellyn: Yes, just think what a nuisance it will be to have to shave before you answer the telephone.

Tourist—This seems to be a very dangerous precipice. It's a wonder they don't put up a warning sign.

Native—Yes, it is dangerous, but they kept a warning sign up for two years and no one fell over, so it was taken down.

"If you go first, dear, you'll wait for me on the other shore, won't you?" questioned the fond wife.

"I suppose so," returned her husband, with a sigh. "I never went anywhere yet without having to wait for you."

Mrs. R. S. Turner and son Bobbie returned to their home in Ft. Worth Saturday after spending three weeks here with her parents Mr. and Mrs. W. F. Bolin.

COTTON SELLS FOR MORE THAN \$10 PER POUND

Some of our friends have criticized us for saying that the price that the consumer is paying for wheat products and for cotton goods would justify \$1.00 per bushel for wheat and 15 cents per pound for cotton, however, we think that we are right and we think that the farmer should be getting these prices now.

We believe all will agree that the mills would be making plenty of money at present prices, if the flour that he is selling was made from \$1.00 wheat. The buying public is paying almost as much for bread and for flour as when wheat sold for \$1.00 to \$1.25 per bushel.

Now, as to the cotton. We weighed a nice cotton handkerchief that retails everywhere for ten cents and found that it would take 162 such handkerchiefs to weigh a pound. You can easily figure that this would be a cost of \$1.020 per pound to the consumer. Would anyone tell us that 15 cents per pound would be too much to pay the farmer for the cotton that goes into \$10.20 cents worth of handkerchiefs? While it is true that many kinds of finished cotton cloth would not sell for as much money as a pound of the handkerchiefs, you can easily figure that 15 cents would not be too high for cotton under present conditions.

There is too much difference between the price the farmer gets for his products and the price that the consumer must pay. Who gets the profits? Neither the farmer or the little retailer get it.—Goree Advocate

Chlorinda—So there was some hot necking at your house last night?

Esmeralda—Yeah, Uncle George got too near the gas jet with his celluloid collar!

Judge—I understand that you prefer charges against this man?

Grocer—No, sir. I prefer cash, and that's what I had him brought here for.

Miss Margaret Reeder of this city and Mr. and Mrs. Adams of Mineola left here Tuesday for Colorado where they will spend two weeks.

The Missionary Society of the Methodist church enjoyed a meeting Monday afternoon in the home of Mammy Smith.

Miss Lula Pearl Puckett spent several days here, last week and this, returning to school in Lubbock Tuesday.

Mrs. Z. T. Rogers and Miss Wyndell Edwards are visiting relatives the C. L. Bailey family, in Wichita Falls.

Mr. and Mrs. Joe Franklin and Mr. and Mrs. Ernest Brewer of Seymour were guests of Mr. and Mrs. C. E. Keck Sunday.

We are glad to state that Mr. A. G. Guy is a new subscriber to the Herald this week. Mr. Guy is the agricultural teacher in our school.

J. A. Hallmark of Fort Worth and Mr. and Mrs. Albert Herndon, who are visiting here from Arkansas, were guests in the R. M. Herring home last Friday evening.

Mike Perry spent the past week end in Knox City. Mrs. Perry, who has been ill a number of weeks, is now in a hospital in Wichita Falls and is reported greatly improved.

Reverend and Mrs. J. C. Mann and two children left Knox City last Friday for San Saba where they are spending their vacation of two weeks on the ranch of his brother.

UTIFUL FORD

de Luxe Bodies

SEDAN DE LUXE SEDAN

CONVERTIBLE SEDAN

TUDOR VICTORIA

CABRIOLET

striking fine car types ever offered at such low prices are now being presented by Ford dealers. The six newest de Luxe creations of the Ford Company. They are designed and built very well of the automobile buyer whose motoring luxury and outstanding performance is desired.

Look about these fine cars. Compare their elegant style with any you have ever created in your imagination. Learn about the de Luxe with which each car is trimmed and upholstered how carefully these are tailored. Sit in the wide, restful seats and you will realize as no restrictions have been put on mechanical performance, so no limits have been placed on comfort and beauty.

It is much to interest the careful buyer—a sparkling colors, a variety of rich upholstery materials, Rustless Steel, safety glass, Houdaille shock absorbers, one-piece welded steel laminating windshields, and many other features make the Ford a happy investment.

Little Miss Margaret Ann Wall enjoyed her 5th birthday on the 12th with a party. Ten or more of her little friends were invited in and all played games after which they enjoyed pink ice cream and cake. Margaret Ann received a number of nice little gifts.

Mickie Boy Sweeney was pleased with being numbered among the invited guests; however, he was unable to accept the invitation since his is owner of whooping cough.

Reverend Caudle is reported ill this week. He was unable to be in his preaching services at the Knox City church Sunday; however, the Reverend Shuttleworth, evangelist now in a revival meeting in Bennington, drove to Knox City and preached Sunday morning at ten o'clock. He drove back again and preached at seven thirty in the evening making it back to Elgin in time for the evening service of the meeting.

Mr. and Mrs. J. E. Clarke drove to Bennington Tuesday evening to see Brother Caudle and report his as being pretty sick.

THIS AND THAT

By Jimminy

Since this is an age of superior development with egotism for world championship, it seems that a couple of our home town boys have gone in for a title.

Some months back one of these well known boys tried his hand at this particular art and came out with quite a reputation; however it seems that he is quite in the back ground now as compared with the new record made by the second boy.

The boys in question are Holt Moseley and Roy Smith and the art in which they aspire is cooking. Holt succeeded in cooking beans without water for a short while, but with the continued applied heat, the beans became small coals of fire and the stew pan was beyond further use, however, it still was in shape.

This was some record up until last week when Roy Smith drove to town with his children displaying the stew pan in which he cooked a roast, melted into small bits the size of your thumb.

And they say men are mentally superior to women!

The business men and their employees of the west side of town, as well as the few but busy pedestrians who witnessed an unknown blind man with his hand organ grind out a sad tune, Tuesday dropped their heads in shame and sorrow while their hearts were filled with compassion for the organ grinder. The scene was striking but pitiful while the onlookers stood in almost breathless tension, wondering from whose pocket the first nickel would go.

Finally, after grinding out his sad but beautiful tune, the old blind fellow decided that dame fortune was driving down another street, rose, picked up his hat and swayed down the street for another location.

The impersonation was perfect but Ben Fermer still feels bad over the fact that he failed to be given even a nickel.

It seems that Lloyd Waldrip was a trifle more fortunate than Ben when he later hobbled, on crutches, into the drug store with closed eyes and a worn straw hat extended for alms. He was quickly awarded two cents.

Lloyd is indebted to Henry and Neal for the sum, two cents.

For two hours Tuesday afternoon, Ray Willis was missing from his feed store on the west side of town. Upon inquiry, it was learned Ray was home sick in bed.

Wednesday morning, however, he was back on the job. "Rather a sudden attack, was it not, Mr. Willis?", the lady editor asked. "Not so sudden" he replied, "I've been thinking of this for some time."

"Oh, so you planned on this sick spell?" "No," replied he to the writer. "I was home trying to get someone to decide which posthouse we would move to."

"That's queer, says I. Mack and I have been debating the same question and if we decide upon the same place and go there the same time, do suppose that we can get our railroad tickets reduced?"

It isn't who you are that makes you a good fellow. It is what you are. It isn't what you possess that makes you rich or poor; it's how you use what you have.

It isn't the man who can smile while things are going good that will win the goal; it's the man who, when things are hard, when the almost impossible has to be accomplished, who then can labor and meet his friend with a smile.

Mrs. Potter and son and daughter Horace and Hazel, left last week for San Saba and Goliad for an extended visit with relatives.

C. J. Reese Jr. and Mrs. Grady Reese of Fort Worth spent Sunday here with Mother Reese.

Miss Alcen Griffith spent Sunday visiting in Munday. J. M. Edwards of Seymour made a business trip to Knox City Tuesday.

Posy Parris of Davidson Oklahoma was here Saturday. He used to live in Knox City.

Lloyd Davis is on crutches, the result of getting hit with a ball two weeks ago umpiring the game.

Mrs. W. M. Sagu and Mrs. Caudle of Chillicothe are here this week visiting Uncle and Aunt Joe Smith.

Mrs. A. B. Bledsoe of Wichita Falls is here this week visiting her father and sister Mr. J. H. Lucas and Mrs. M. L. Goodson.

The Primitive Baptist Association of the Sunset community will be held Thursday night, July 20th at the Red Top School. Everybody invited.

Mr. Noah Lee came to Knox City Monday night from San Angelo to see his father, J. M. Lee, who is seriously ill.

Mrs. Howard McLarry of Dallas and Miss George also to Dallas are guests in the home of Mrs. Dennis Davis this week.

Mrs. J. A. Wilson entertained the members of her Sunday School class one night the first of the week at her home with a 42 party.

PROTECTION

The man who is protected today is the man with money in the bank and who on short notice is in position to grasp opportunity which business and sound investment offer. These Minute-men of 1931 know that money makes money . . . and they save regularly keep their powder dry . . . and soon are on the road to success.

Macerated
Mrs. J. W. Johnson
of Dallas states

"For a long time I suffered from biliousness, constipation, headaches, dizziness and could not sleep; was tired all the time and

NAUTILO-DYNAMICS

That is the word coined by John Hays Hammond, Jr., and now accepted by the patent office and Congress, to mean the control of energy at a distance by means of radio.

Hammond began to experiment with radiodynamics when he was a student in Yale in 1929. He invented a method of controlling a boat on the surface of the water and a torpedo under the surface by radio impulses, as well as steering an airplane over a long course without a pilot on board.

This is something quite different from transmitting power by radio. Only enough power can be transmitted to set a piece of machinery in motion or stop it. The machinery must have its own independent power plant. The day may come when actual power can be sent through the air, but that is a long way in the future.

PORTS

Interest in collegiate football is declining, the Carnegie Foundation for the Advancement of Teaching reports.

There is a very decided difference between sports participated in by students for the benefit of the students themselves, for the maintenance of their health and the upbuilding of their morale, and sports undertaken as a means of advertising particular colleges or of making money.

Nobody is suggesting that all inter-collegiate sporting contest should be abolished, but it is certainly true that public interest in them is declining, and it is probable that they will play a less important part in college life in the future than in the past.

ROCKETS

Prof. Robert H. Goddard, of Clark University, who has been experimenting with and talking about propelling aircraft by means of rockets, has taken out patents on a rocket-propeller airplane. The plane is expected to rise from the ground like any other plane, its propellers being turned by a turbine engine, from which the gas from a succession of rockets will furnish the power. When it gets into the rarified upper atmosphere the engine will be cut off and the propulsive force will be that of the rockets themselves.

Prof. Goddard is no idle visionary. Just what he has got in his desert laboratory in New Mexico he is not telling the world up yet, but if anyone in this country is going to succeed in flying by means of rockets Prof. Goddard will probably be the first.

PIGEONS

A blue homing pigeon flew 503½ miles from Salisbury, N. C., to New York City, in 15 hours, 11 minutes and 51 seconds the other day. This was not quite a record for the 500-mile annual pigeon race, but it comes very close to it.

A large part of a homing pigeon's time in flying long distances, however, is taken up in the bird's questing, or circling at high altitudes to find landmarks to guide it back to its home loft. There is no longer any great mystery about how the homing pigeon finds its way back to its home nest. The bird has no mysterious sixth sense or homing instinct. It cannot find its way home at night or in a dense fog or conditions of low visibility. Like almost all birds however, it has telescopic powers of vision beyond anything which human beings can easily imagine, according to Dr. Casey Wood, famous ornithologist, who has devoted many years to the study of the eyes of birds. The homing pigeon memorizes landmarks near its home loft, and, as it is given

Jack Clarke arrived in Knox City Tuesday. Jack says his crop is laid by now and in fine condition, is clean etc, doing well.

Mr. and Mrs. F. E. Adams of Lincoln were here last week visiting with her mother, Mrs. Sam Anderson.

Lloyd Wyatt left Knox City Sunday for Lubbock where he will attend the second summer term at Tech.

Mrs. Ruby Moorhouse and her son, who is now four months old, spent Sunday here with her mother, Mrs. Evans.

Mrs. Cap Moore and Mrs. G. D. Longfellow from Galveston are visiting their mother, Mrs. J. E. Patterson and sister, Mrs. J. W. Trammier of O'Brien.

Aches and PAINS!

When you take Bayer Aspirin you are sure of two things. It's sure relief and it's harmless. Those tablets with the Bayer cross do not hurt the heart. Take them whenever you suffer from:

Headaches Neuralgia
Colds Neuralgia
Sore Throat Lumbago
Rheumatism Toothache

When your head aches—from any cause—when a cold has settled in your joints, or you feel those deep-down pains of rheumatism, sciatica, or lumbago, take Bayer Aspirin and get real relief. If the package says Bayer, it's genuine. And genuine Bayer Aspirin is safe.

Aspirin is the trade-mark of Bayer manufacturer of monoacetic acid ester of salicylic acid.

BEWARE OF IMITATIONS

TODAY AND TOMORROW

By Frank Parker Stockbridge

RISKS

The first reaction of everyone who reads about the accident to the submarine "Nautilus" which disabled it while it was cruising on the surface from America to England, was how fortunate it was that this did not occur while the ship was under ice. Arctic ice.

Perhaps Sir Hubert Wilkins and his crew are not proposing to take any more serious risks than did many of the pioneer aviators. In the case of flying it was fairly easy for anyone, however, to recognize the value of these early experiments if they should prove successful. It is difficult to see any possible value to humanity or importance to science in the effort to reach the North Pole by a submarine boat.

It looks, to an impartial observer, as if human life were being risked merely to provide thrills, just as a circus performer provides them.

NAUTILO-DYNAMICS

That is the word coined by John Hays Hammond, Jr., and now accepted by the patent office and Congress, to mean the control of energy at a distance by means of radio.

Hammond began to experiment with radiodynamics when he was a student in Yale in 1929. He invented a method of controlling a boat on the surface of the water and a torpedo under the surface by radio impulses, as well as steering an airplane over a long course without a pilot on board.

This is something quite different from transmitting power by radio. Only enough power can be transmitted to set a piece of machinery in motion or stop it. The machinery must have its own independent power plant. The day may come when actual power can be sent through the air, but that is a long way in the future.

PIGEONS

A blue homing pigeon flew 503½ miles from Salisbury, N. C., to New York City, in 15 hours, 11 minutes and 51 seconds the other day. This was not quite a record for the 500-mile annual pigeon race, but it comes very close to it.

A large part of a homing pigeon's time in flying long distances, however, is taken up in the bird's questing, or circling at high altitudes to find landmarks to guide it back to its home loft. There is no longer any great mystery about how the homing pigeon finds its way back to its home nest. The bird has no mysterious sixth sense or homing instinct. It cannot find its way home at night or in a dense fog or conditions of low visibility. Like almost all birds however, it has telescopic powers of vision beyond anything which human beings can easily imagine, according to Dr. Casey Wood, famous ornithologist, who has devoted many years to the study of the eyes of birds. The homing pigeon memorizes landmarks near its home loft, and, as it is given

longer and longer flight trials, it learns the lay of the land at greater distances, until it knows the country so well that, when liberated within 500 miles from home on a clear day it can see some remembered landmark in the direction of its home.

UNION GROVE NEWS

Last Friday the 4H club met in the home of Mrs. Otto Craft on the Urness ranch. Near 40 women were present with the county demonstrator, Miss Nelson, who gave a demonstration on canning corn.

We also had with us Mr. Dahney, representative of the State board of Health, who made an interesting talk on home sanitation. The afternoon was enjoyable as well as profitable. Our next meeting will be the 7th of August and in the school building at three thirty. We urge all members to be present and to arrive on time.

There was a party given in the home of Mr. and Mrs. Underwood last Thursday night. Although there were just a few came, we had a good time playing games and tricks.

Mr. and Mrs. Jess Marshall entertained Saturday night with a party. There was a large crowd present, enough in number to keep several games going at the time. We had music furnished on stringed instruments which was greatly enjoyed. All reported having a real good time.

Mr. Fred Papworth, who has been ill for months, has returned home from the hospital. He is improving. He says that he is going to get well. We are all hoping he will soon be up and going again.

Mr. Tom Hendon is down here from the Plains at the bedside of his father who is seriously ill.

JOHN HENRY DARNELL ENTERED

Saturday afternoon Mrs. G. T. Hardberger entertained a number of small children with a party honoring her grandson Little John Henry Darnell of Texico New Mexico.

Numerous games were played and then refreshments of ice cream and cake were served to the following, the honoree, John Henry, Milton Bradberry, Tom Paul Frizzell Jr., Harold Dalton, Arnold Dalton, David Clarke, Billie Joe Averitt, Dicky Parker, Kenneth Lawson, Rudolph Hackfield Jr., Mrs. Hazel Parker, Mrs. Rudolph Hackfield, Miss Jocille Russell and the hostess, Mrs. Hardberger.

Miss Russell assisted Mrs. Hardberger in entertaining.

CAMP FIRE SPARKS

The Camp Fire Girls enjoyed an outing Wednesday afternoon at Wild Horse.

The girls went in swimming and then enjoyed a delicious picnic supper. Those taking part in the outing were Mrs. Emma Jean Jones, Mrs. Spikes, Little Martha Jane and Henry Jones, Miss Mable Howell, Mary Lou Graham, Frances Evans, Mary Howell, Essie Mae Leaverton, Rowena Wall and Jocille Russell.

The Camp Fire Girls will not meet the next two Mondays, so the next meeting will be held on August 19th at 4:00 p. m. at the American Legion Hall.

Mrs. Herbert Sams of Floydada and Mrs. D. McShay of Munday visited in Knox City Tuesday.

Mr. W. M. Mossley returned to Knox City last week. He has been visiting his brother in Del Rio.

J. M. Ashcroft announces the sale of a new Chevrolet Sedan this week to Mr. L. B. Hester.

Chester Elliott is home for this and next week, on his vacation. He works in a bank in Levelland.

The Evans girls have returned home from their visit with their sister Mrs. Moorehouse in Oklahoma.

Mr. A. Hallmark of Dallas was in Knox City attending to business interests over the weekend.

Frank Herring who has been working at Herford came home the first of the week.

Mr. J. E. Patterson of Haskell has moved to O'Brien and has taken charge of the barber shop there.

Miss Irene Warren of Merkel is here visiting her brother Mr. and Mrs. E. Q. Warren.

Wanted:
Second Hand cream separator in good condition.

Apply Heraff Office.

Mrs. Alice Davis of Dallas is visiting her sister, Mrs. J. E. Patterson of O'Brien.

Master John H. Darnell Jr. is here visiting his grand parents, Mr. and Mrs. Hardberger.

Mother Perry, accompanied by her daughter, Mrs. J. E. Reeves of Haskell, spent a short time Monday with friends here. Mother Perry was en route to McLain and was met by her on Mike. She will spend some time with Mike in McLain.

Only One Small

from Plantations to
Firestone Service Stores
and Service Dealers

Firestone Control Every Step in TIRE MAKING

FIRESTONE control every step in the manufacture of their products. They have their own rubber preparation factory and warehouse in Singapore—their own cord fabric factories—their own great tire factories—the most efficient in the world. *The millions of dollars saved annually by Firestone from these great economies are passed on to you in Extra Values.*

You get the full benefit of these values because every Firestone Tire bears the Firestone name, and is doubly guaranteed by Firestone and Firestone Service Dealers. Why take chances with special brand tires, built just to sell—without the manufacturer's name, guarantee or responsibility for service.

Come in Today and make your own comparisons with cross sections of Firestone Tires and special brand mail order tires. Get the facts yourself about tire quality and construction. When you see the Extra Values you get you will not feel secure on any other except Firestone Tires.
