## FmHA To Guarantee Emergency Loans

Financial assistance to livestock and poultry producers under the Emergency Livestock Credit Act will become available next week through a new loan guarantee authority of the Farmers Home Administration (FmHA), a rural credit service of the U.S. Department of Agriculture.

Joe T. Boone, FmHA County Supervisor, said the loans will be prepared to implement the recently-enacted law by guaranteeing up to 80 percent of possible loss on loans made by legally organized lenders

to livestock and poultry producers.

Under terms of the act, the loan guarantee program will be in effect through July 25, 1975. It may be extended for 6 months beyond that date if the Secretary of Agriculture determined that it is needed to help the livestock industry obtain sufficient credit.

The law calls for loans to be made by banks or other legally organized lenders. Mr. Boone said interested producers are urged to make applications to, and complete

loan arrangements with lending institutions. The lender in turn will ask FmHA for a loan guarantee if one is required. The lender will process the application, close the loan and service it.

The maximum loan to any single borrower that can be assisted by an FmHA guarantee is \$250,000. Loans can be repayable in 1 to 3 years, although renewal for 2 years may be authorized. Interest rates are determined between borrower and lender.

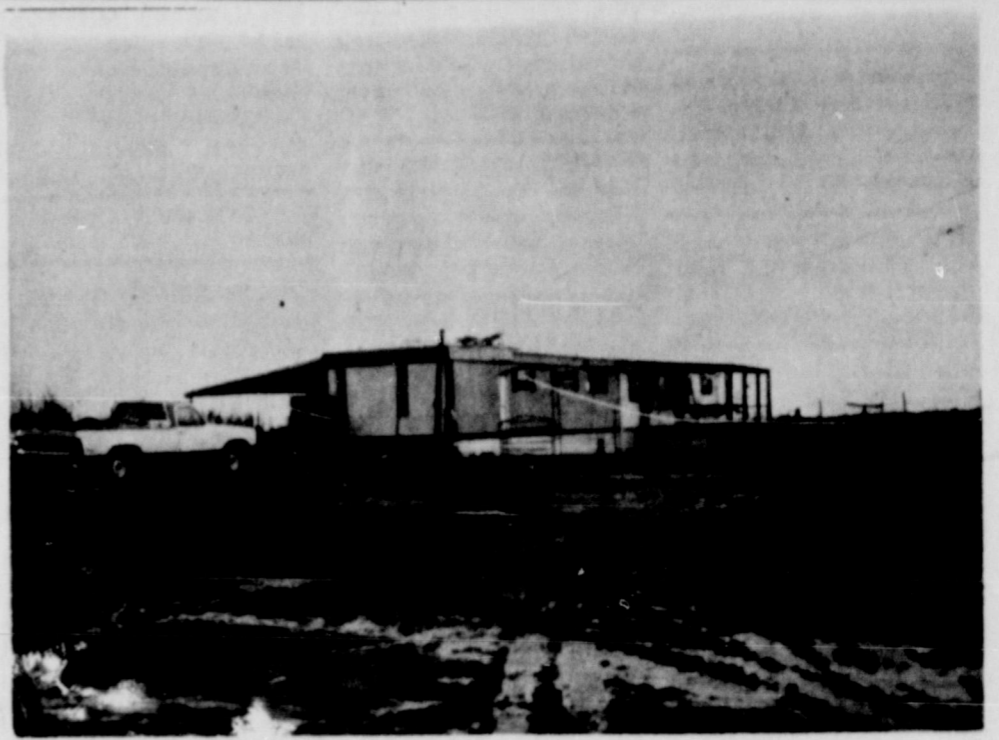

Mr. Boone said the agency is authorized to guarantee up to 80 percent loss a lender may incur on loans to bonafide farmers and ranchers who breed, raise, fatten, or market beef and dairy cattle, hogs, sheep, goats, chickens and turkeys. A majority of the borrower's income must come from the operation, and a majority portion of the borrower's time must be devoted to the livestock or poultry production.

In the case of a corporation or partnership, assistance can be extended only with the majority partners or stockholders are primarily engaged in the livestock or poultry production.

FmHA guarantees will be made only when the bonafide farmer or rancher cannot obtain financing without a guarantee. Loans may not be used to expand operations.

Mr. Boone said the county FmHA office serving the area where the borrower's livestock or poultry operations are conducted will handle requests from lenders for guarantees, or supply information on the loan guarantee program.

The FmHA Office serving Knox County is located at 1101 East Main Street, Knox City, Texas.

ALL THAT REMAINED OF THE ROOF of this mobile home Tuesday afternoon was a small remnant on the end near the pickup truck. According to Chief of Police Eddie Carr, a tornado hit the mobile home ripping off its roof and destroying the barns about 1:45 p.m. Heavy rains also occurred for approximately forty-five minutes, dumping four to five inches in the area west of Knox City. Owners of the mobile home, Mr. and Mrs. George Roach and young son were at home eight miles west of Knox City when the small twister dipped out of the heavy cloud, but reported no injuries. Their other three children were at school at the time. Only a trace of rain was reported in Knox City Tuesday afternoon.

### All Area Hunters Invited To Meet

An organizational meeting for interested hunters is scheduled tonight, Thursday, at 8 o'clock at the Korner Kitchen.

The American Sportsman Club with members all over the state has recently leased the hunting rights on 52,000 acres of the Swenson Ranch near Paducah. The club has over 500,000 acres in Texas leased for hunting and fishing privileges for its members and their families.

### Steering Committee Picks Five Nominees

The steering committee for Texas Concerted Services in Training and Education Committee (CSTE) met Thursday, August 22 at 12:00 noon at the Korner Kitchen to draw up a tentative list of nominees for a coordinator for Haskell-Jones-Knox-Stonewall counties economic development project.

All five nominees have been interviewed and the list was hand delivered in Austin Friday. "The nominees and the recommended candidate must be approved by the state

CSTE office," steering committee chairman, Charles Stenholm said. The coordinator chosen will be announced by September 1.

The coordinator chosen will direct the four counties to coordinate various agencies for improvement of education, employment, health, housing, and economic resources.

The four counties have accepted a \$20,000 grant for the project.

Those attending the meeting included Judge Sam E. Clonts and J.B. Tabor, both of Knox City, Joe Ford of Hamlin, Alton Byrd of Rochester, Doug Myers of Munday, Joe Alibue of Sagerton, Dalton Gill of Aspermont, Tom Alvis of Old Glory, Clem Richards and Stenholm, both of Stamford.

### Teenager Pleads Guilty To Charges

A Knox County teenager pleaded guilty on Monday, August 26, to misdemeanor charges of unlawful possession of less than two ounces of marijuana.

The charges were a result of an investigation and arrest conducted by the County Sheriff H.C. Stone and Munday Chief of Police Boyd Baker.

Under the law, the defendant could have been sentenced to a fine of not more than \$1,000 or confinement in jail for not more than 180 days.

County Judge Sam E. Clonts assessed punishment of a \$500.00 fine plus costs and sixty days in jail. The jail sentence was probated for a period of one year due to the fact that this was the defendant's first offense.

County Attorney Bobby D. Burnett commented that the use of drugs is becoming an ever increasing problem even in rural areas such as Knox County and that future drug offenders in this county can expect a similar punishment if arrested and convicted.

"So we have seen and proved that what the prophets said came true. You will do well to pay close attention to everything they have written, for, like lights shining into dark corners, their words help us to understand many things that otherwise would be dark and difficult." II Peter 1:19. We know that the New Testament is a history of the fulfillment of Old Testament Scriptures foretold by the Holy men of God who spoke as they were moved by the Holy Ghost. Therefore, to encourage us to be well grounded in the eternal truths of the Scripture, the Apostle tells us that we would do well to pay attention to them. If we apply our hearts to understand the Scriptures, then we will be able to regulate our thoughts, our words, our action and our whole lives according to His Word. The light of the WORD will Stream into our being scattering the darkness, bring peace and understanding.

Reddy's consumer tip lighting Edison's light bulb has come a long way since 1879; today, lighting is such a natural we hardly give it a thought. But the fact is, we have in how we can use light, the more attention to how we buy and use light bulbs and lighting. Buy more light in your life by following Reddy's energy-conserving lighting tips.

CARE FOR LIGHTING EQUIPMENT Dust and dirt are the most common causes of premature bulb failure. Clean your fixtures and bulbs regularly. Check frequently for loose sockets or loose wiring. Repair them immediately. They are really.

LESS IS MORE Generally, you'll get more light for your money if you use the least amount of bulbs that give the light you need. For instance, one 100-watt bulb gives more light than three 40-watt bulbs—and costs about one-third less to buy and replace.

Speaking of "less is more" that all light bulbs are not created equal. Tell you what the light performance of the bulb "bulb life" is the primary time it will take the bulb to burn out. Brightness is more important than life—for reading, working—choose the bulb that gives you the most for its wattage. Remember, Reddy supplies the energy, but you can use it wisely! Bell said the DPS will use all facilities and personnel at its disposal in an effort to reduce the predicted death toll. During this period, all uniformed DPS officers and equipment will be used on the highways to enforce traffic laws.

### LETTER TO THE EDITOR

August 23, 1974  
The Knox County News  
Knox City, Texas

Dear Editor:  
This is in reference to Charlene Brothers' "O'Brien Happenings" column appearing in the August 22 (last week's) issue of The Knox County News.

The writer suggested that the calves at the Rodeo Arena were not being properly cared for, and that the calves were so thin that they could not even run.

The Knox City Roping Club, who owns and cares for the calves, would like to take exception to this statement. We think if Mrs. Brothers would check into the facts, she would find that these calves are fed from a creep feeder which is kept supplied at all times. The calves are never without feed and re watered daily.

When the calves are bought they are all vaccinated, and are given shots of antibiotics, periodically, as needed. The Roping Club provides the same care for these calves than any individual would give their own calves.

If the writer would come out to the arena and watch, she would find that these calves can indeed run very well. The fact of the matter is that some out of town ropers have complained that our calves run too fast—that their horses can't catch them.

We just wanted your readers to know that our club is not neglecting these calves, and that they are cared for daily by members of the club.

May we take this opportunity to thank The Knox County News for the support you have given the Roping Club and The Brazos Valley Recreation Association.

Sincerely,  
Knox City Roping Club

## GOP Candidate Tours Towns In Area

"I became involved in this campaign because I am alarmed about the creeping socialism in our America, in our own Texas," declared Mary Kirchhoff, candidate for the State Senate, 30th Senatorial District. "To offset this growing problem on the state level, we must have stronger representation in Austin. Certainly agricultural representation -- a voice both experienced and knowledgeable in agricultural matters -- is badly needed."

Speaking at the Old Settlers Reunion in Roaring Springs Aug. 22, Mrs. Kirchhoff thanked the group "For making this country a place where all of us can live today. This is where it all started. Our debt to you is a tremendous one."

The attractive blonde candidate also set forth her beliefs in the free enterprise system, states rights, and individual rights. "Surely a person has the right, under God, to control his own destiny," she emphasized.

Speaking out of the background of her work with the Small Towns Task Force, Mrs. Kirchhoff mentioned again the need for industrial development in West Texas. "We stand on the threshold of what can be a day of unprecedented opportunity in our

own area," she pointed out. "Let us join together in outlining plans which can tap the great potential resources of this section."

In line with her work on the West Texas water problem, Mrs. Kirchhoff attended the dedication of the Municipal Water Works on the Master-Son Ranch near Paducah Friday, talking with leaders there about ways and means of improving the water picture in West Texas.

"I feel that this problem is certainly one of our most crucial. In the past month I have contacted a number of different authorities working toward solutions. Some of the plans have strong merit—if we begin now."

Other guests were Mr. and Mrs. Burkham, Gaylynn and Bob.

Thursday night, August 29, will be time for the City of O'Brien's Equalization Board to meet for the purpose of studying the City tax roll and answering any questions any taxpayer might have to ask about his taxes. The time will be 8:00 p.m. at the Tax Office. Everyone is invited to attend this meeting.

Well, I did it again, opened my big mouth when I should have kept it closed. The statement I made last week about the roping calves hurt a few people's feelings, so I am taking this opportunity to ask them to forgive me. I did not intend to make anyone mad or hurt any feelings, but since I did, I'm very sorry. To the ones that called me, I have personally asked them to accept my apologies which they did, and I am hoping that anyone else that was hurt will accept my "I'm sorry" this way. Maybe with God's help and your prayers, I will learn to think before I speak or act. This seems to be one of my biggest weaknesses.

There are a few school yearbooks left, and if anyone would like one, they can see June Tankersley or Diane Phillips.

MRS. LOWERY CHARLES DEERING ...the former Patricia Beth Lewis

## Lewis-Deering Vows Repeated August 19

Mr. and Mrs. Lowery Charles Deering are now at home in Knox City following their August 19 marriage. The bride is the former Patricia Beth Lewis.

The double ring ceremony was held in the home of the bride's brother and his wife, Mr. and Mrs. Bobby Lewis, at 6:00 o'clock in the afternoon. Serving as best man was Brian Williams and Mrs. Williams was matron of honor.

Parents of the couple are Mr. and Mrs. Sterling Lewis and Mr. and Mrs. L.G. Deering of Abernathy.

The bride wore a formal gown of lace over peau de soie, designed and made by her mother. Designed with a fitted bodice and full skirt, the gown was accented by a large, belmest sash tied in a bow at the waist in back. The full belmest sleeves were

gathered to a fitted lace-covered cuff. Tiny seed pearls trimmed the neckline, cuffs, and bodice. Her floor-length lace veil was held by a headpiece of pearls and lace.

Following the wedding, close friends and relatives attended the reception.

The bride is a 1973 graduate of Knox City High School. Deering attended San Angelo State and Texas Tech University. A 1973 graduate of the Department of Public Safety Academy in Austin, he is presently stationed in the Knox County area as a state trooper.

## Tribute Is Paid To Longtime Friend

Mrs. Libbie A. Hoge, a life-long friend and church co-worker of the late Mrs. Alma Edwards, had the following tribute to her memory.

"In the First Psalm, we find these words, 'Blessed is the man who walks not in the council of the wicked, nor sits in the seat of scoffers, but his DELIGHT is in the Law of the Lord, and on this law does he meditate Day and Night.'"

"Such a person was our departed friend, Alma Rogers Edwards."

"She and her late husband Dr. T.S. Edwards worked as a team for the betterment of humanity and our town and community."

"She was delighted with the progress of our schools, serving as president of the local Parent-Teacher Association for several years."

"Another thing that she delighted in was the giving of the building site to the two Federated Clubs of Knox City and living to see the building completed and used for so many activities."

"She was delighted when the Knox City Garden Club was organized and was an active member for several years."

"Her Church was truly a delight, where she served in many capacities. She not only served at home but over the District and Conference."

"She was so generous with her time, her talents, and her means. She was a wonderful leader and friend to all."

"Another delight to her was every improvement that came to our city in the way of electricity, gas, water, paving, and all the other things we take for granted."

"Perhaps the greatest delight to her was when the Hospital was made a County Hospital and many needed improvements were made to serve the growing community."

"Her husband established the first hospital in a two story residence. His fame as a surgeon spread all over this part of the country."

"Voters of Knox County decided to build a hospital in Knox City and Dr. Edwards was the chief surgeon for years."

"Mrs. Edwards was a great Christian and truly a DELIGHT to know and call a friend."

## HOUNDS

(From Page One)

A thumb-nail sketch of team members includes **Joey Swain** - quarterback - 170 lb. senior - three year letterman
