TRACK The 6, 7, and 8 grade boys were entered in a track meet at Paint Creek last Wednesday. They came home with several winners.

The teams entered were Knie, Throckmorton, Rochester, Goree, Paint Creek, Weinert, and O'Brien. Winners included 6th grade--Ramon Salinas, 2nd in discus; Oscar Rocha, 4th in 880 and 1st in pole vault. Seventh grade winners -- Oscar Gutierrez, Joe Gutierrez, David Walling and Johnny Rodriguez made up the relay team which placed 1st in 440, 3rd in 880; Joe Gutierrez was 2nd in pole vault; David Walling, 3rd in 440 yd. dash and 1st in high jump; Johnny Rodriguez, 4th in 100 yd. dash, tied for 2nd in shot put, 4th in discus; Junior Figueroa, 4th in 880 yd. run; Domingo Garcia, 4th in pull-ups and Terry Watson, 4th in pole vault.

The high school track team was in Jayton last Saturday for that track meet, but did not do so good. John Alsidies won 3rd in pole vault. They will be more in shape by the district meet, I'm sure.

The high school girls were in a practice meet last week at Goree, but due to the fact there was only one stop watch, they did not keep very accurate timing on these entries. They will have some results to report next week.

VOLLEYBALL -- We had a good volleyball game last Thursday night at O'Brien. This was between the 49'ers and the High Schoolers. Would you believe that the 49'ers won? We did. Of course the high school girls have to play power ball, which is something else.

TYPING -- Some of the typing students were in a practice meet with Knox City and Rochester this week and Mark Thomas and Keith Rowan placed first. Mark's score was 141 and Keith's was 127. Very good boys, keep up the good work for the district meet.

There was a little excitement in O'Brien Sunday night. SENIOR NEWS

Senior Play tryouts were held in the English room Friday night at 6:30. After thirty minutes and some very excruciating tryouts, everyone ended up with the part they wanted.

Nefro Gonzales, Randy Pack, Roy Posey, Louis Conn, Randy Egenbacher, Ricky Hacker, and Billy Baker got up early Saturday morning, put on their track shoes, and ran around in the wind and sun all day. While they were doing that, they managed to win second in the KC track meet.

BAD NEWS! Senior dues have to be in April 5 instead of 15th due to the fact that the travel agency must be paid by the 8th.

Names will be sold for the back of the Senior play program soon. If anyone wants their name to be included, contact a Senior. The play will be April 11th.

The following Juniors will be competing in the District 7-A UIL Meet at Vernon on March 25, as a result of these tryouts! Stacy Angle, Journalism and Alternate girls' prose; Cindy Stone, alternate for spelling; Harvey Reynolds, spelling and number sense; and Vickie Berryman and David McGaughey, typing, and Temi Baker, alternate typist. Good luck in all of these events!!!

In English III, we turned in our outlines for our themes, Monday. Many of us will have these to do over, as a result of our typewriters making too many mistakes. Ha!

Last week, the English III class, along with some of the resource classes saw the film "Animal Farm", an animated film about some pigs who take over the dictatorship of a farm. We drew an analogy of George Orwell's story to Russia. It was very enjoyable.

WOULD YOU BELIEVE 10,000 PRESCRIPTION DRUGS?

Some of these medicines are identical, some differ slightly in chemical structure and many are combinations of drugs. But, one thing is for sure, that your physician and pharmacist have to keep up with a tremendous number of products that are available to help fight illness.

And, each drug product has an identity all its own. The place it is stored, the container that it is kept in, how long it remains potent, its relation to other medicines, how it must be handled, regulations guiding its use and many other factors. Being your family pharmacist is a full-time job.

6 WAYS CONSERVE AND SAVE ON WATER HEATING

Normally the hot water used in a home hold is about 1/4 the total water used. Here are some suggestions that can get the most out of your water heater.

- With a little planning, you can range to wash only clothing in your washer. Less than 100 items can be washed needlessly.
- To assure long life and efficiency, the water should have a small amount of water added daily. Once a month should be adequate of draining water from the tank is to prevent build-up in the tank bottom.
- A water heater that's old, or too old, family needs, can be wasteful working too hard and using too much energy to keep up with your hot water needs.
- It's amazing how much water a leaky faucet wastes in a month's time and if the leaking faucet is on a hot water faucet, it will waste both energy and water. As an example, a faucet dripping 90 drops per minute will waste 300 gallons per month.
- The thermostat controlling the water temperature is pre-set at the factory for water at 150°F. This setting is satisfactory from the standpoint of energy cost and household needs.
- The thermostat can be adjusted to provide cooler water temperatures. The thermostat is marked for easy adjustment to increase or decrease water temperature.
