### O'Brien School Tax Rate Hiked

The O'Brien school board voted recently to levy a combined tax rate of \$2.40 per \$100 valuation for local maintenance and retirement of bonds, Alton Hester, board president, announced this week.

The tax will be allocated \$1.30 for local maintenance and \$1.10 for retirement of bonds. The rate was raised from \$1.50.

The increase was authorized by voters in the district in the bond election Feb. 1, when they voted to go under Senate Bill No. 116 and issue \$180,000 in bonds for construction of a new school plant. Senate Bill 116 lifts the \$1.50 tax limit and permits an unlimited tax for bond purposes.

Supt. Elvin Mathis said the \$1.10 for retirement of bonds is higher than it will normally be, as 18 months' interest must be paid. Municipal Securities Co. of Dallas, he said, estimates the rate will drop to 80 cents if present valuations remain the same.

No valuations in the district have been raised, Mathis said.

### Methodist Conference Held at O'Brien

The quarterly conference of the O'Brien and Benjamin Methodist churches was held at O'Brien Sunday night with the Rev. Marshall Rhew, Stamford Dist. superintendent, in charge.

Rev. Guy McLain, pastor of the two churches, gave the pastoral report and the treasurer's report was given by Ross Walsworth.

Plans were made for a membership canvass to be conducted sometime during the winter.

Jack Barker of Benjamin and Mrs. Underwood of O'Brien were named delegates to a conference at the First Church, Hamlin, December 1.

Elvin Mathis was named Sunday School Superintendent of the O'Brien church and Kenneth Roberts superintendent of the Benjamin church.

A revival meeting began at the O'Brien church Sunday morning and will continue through Sunday, August 10. The pastor Rev. McLain, is doing the preaching.

### Temple Driver Elected Judge in Wichita County

Temple Driver, formerly of Benjamin, was elected county judge of Wichita County in Saturday's election.

Driver, young Wichita Falls attorney, unseated Judge Guy McNeely, who had served 11 years. The unofficial vote count gave Driver 7,949 to McNeely's 5,386, a lead of 2,563.

Driver's father, J. J. Driver of Benjamin, was elected Justice of the Peace in Knox County's Precinct 1 Saturday.

### Judge Parker Wins Re-Election; Thompson Elected Treasurer

Knox Countians gave senator Ralph Yarborough and Governor Price Daniel—on opposite sides of the political fence—substantial majorities in Saturday's Democratic Primary.

Yarborough carried every voting box in the county, for a total of 1,058 votes to Wm. A. Blakeley's 607. In the race for governor Daniel also won every box

with a total of 1,209. W. Lee O'Daniel who carried the county in the democratic primary of 1956, ran a poor second with 347. Henry Gonzales polled 77, and Joe A. Irwin 42.

The county vote in other state races was:

Lieutenant governor—Nokes 467, Ramsey 1,114.

Land Commissioner—Allcorn 988, Dimmitt 320.

Agriculture Commissioner—Griffin 185, Kothmann 89, White 1,167.

In county races Ed Thompson of Munday unseated county treasurer Walter Snody by a narrow 7-vote margin, and County Judge L. A. Parker won re-election with a 25-vote margin over his opponent, former county clerk Marvin Chamberlain.

The vote in the treasurer's race was Snody 836, Thompson 843, and in the judge's race Parker received 874, Chamberlain 849.

State Representative Ed Cloud of Haskell County, in his bid for re-election, carried Knox County with 633 votes. Leroy Ressel of Knox County received 602 and Donnell Dickson of Baylor County received 389. Dickson was second in the district, and will oppose Cloud in the run-off.

There will also be run-off campaigns for County Commissioner in precincts 2 and 4.

### Precincts Name Delegates to Demo County Convention

Democratic precinct conventions were held in Knox County Saturday, and delegates named to the county convention which will be held in Benjamin Saturday, August 2.

Knox City's Precinct 9 elected John Hansen permanent chairman and Mrs. Hansen secretary. The convention rejected a resolution calling for support, at the state convention, of delegates chosen at district caucuses, on the grounds that metropolitan areas could control the caucuses.

The convention opposed the abolition of precinct conventions in their present form, as suggested by Gov. Price Daniel, and approved a resolution calling for each voter to express his party preference when paying his poll tax.

The precinct delegation was instructed to vote under the unit rule.

Delegates named were Mr. and Mrs. Bill Sams, Mr. and Mrs. John Hansen, Mr. and Mrs. Abe Watson, Mr. and Mrs. J. C. McGee, Mr. and Mrs. C. J. Reese, Mr. and Mrs. Allen Hester and Mr. and Mrs. Eddie Shaver, and alternates are C. Bohannon, E. L. Park, L. W. Coates, Curtis Coates and Buddy Angle.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Texas—During much of the last century Texas was called the great land frontier. Word got around. From older regions came the restless, the ambitious, the hopeful who'd heard there was plenty of room in Texas.

Today, the sod and huts and free land are gone from Texas. But the frontier is regarded by economists as greater than ever—rich and promising beyond Moses Austin's boldest dreams. A recent survey by a national magazine (U. S. News & World Report) described Texas as destined to become "the new powerhouse of the United States... an industrial empire... built on a storehouse of priceless natural resources."

Sounds wonderful. But Texas leaders, in both government and industry, have taken the position that favorable circumstances alone will not convert frontier to empire. Other states are angling, too, for energetic man with capital and know-how to start new factories humming.

And most states are not hampered, as Texas is, by a constitutional provision prohibiting use of tax money to advertise the state's advantages.

Despite this hindrance, the last Legislature, at Gov. Price Daniel's request, reactivated the Texas Commission to start the ball rolling. E. B. Germany of Dallas is Commission chairman.

In operation only four months, with a piggy bank budget of voluntary donations, the Commission is, nevertheless, making itself felt.

It's showpiece is a 68-page, two-color brochure called "A Plan of Action to Win New Industry for Your Community." This do-it-yourself manual was mailed to every Chamber of Commerce, mayor, county judge, industrial foundation and legislator in Texas.

Letters of commendation and requests for extra copies have "poured in," according to Bob Bray, member of the governor's staff assigned to the Commission. Said a letter from Huntsville and Walker County C of C, "Never have I seen any publication so full of excellent guidance material for communities."

With the letter came a contri-

but ion to carry on the Commission's work.

Next big goal is passage in November of a constitutional amendment to remove legal shackles on financing. "Failure of the amendment," said Bray will handcuff the Commission. Our big job now is selling Texans on the need to sell Texas, both industry-wise and tourist-wise.

With funds and staff, the Commission will be ready to go ahead on an extensive effort—already mapped out—for research, information, advertising, films, aid to local organizations, etc.

Says Germany, "Disastrous droughts, the alarming loss of rural population and the stark realization that the state no longer can depend on its oil revenue, all emphasize the need for developing our industrial resources."

SCHOOLS "BUST OUT"—Some seamsplitting from Texas' expanding population was reflected in the reports of Texas Education Agency survey teams on conditions in the state's public schools.

As a result of the reports to the State Commission on Accreditation, nine schools were removed from the accredited list, and accreditation was withheld from six others. Fifty-one were warned they face loss of accreditation unless they improve standards.

Most of the school troubles seemed to stem from pupil populations and needs that outran community leadership and financing. Sample from the unfavorable reports: not enough textbooks, few or no library books, no laboratory facilities for science courses, unsanitary or outmoded facilities, use of condemned or "miserably overcrowded" buildings, teachers instructing courses in which they had no college study.

Actually, the number of schools having trouble meeting standards was only about 3.5 percent of the total—or 66 out of Texas' approximately 1,800 school districts.

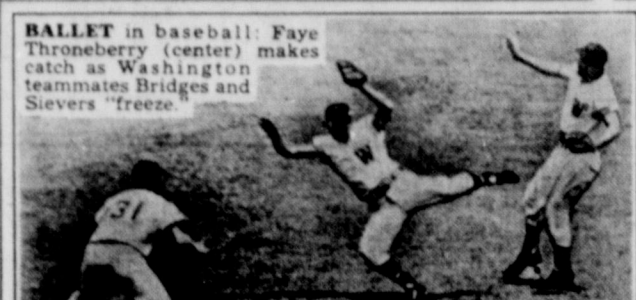

NEW ROADS AHEAD—Better driving days are seen ahead as the State Highway Department unveiled its plans for 1959-60 interstate highway buildings. A \$260,000,000 program has been authorized to add 567 miles of controlled-access highways to Texas' portion of the national network.

Of this, \$210,495,300 is earmarked for construction, \$16,272,100 for right-of-way buying and an additional \$33,322,500 for advance right-of-way buying.

Eventually, Texas is to have 3,033 miles of the interstate system within its borders.

FRESH START—National Bankers Life Ins. Co. of Dallas may continue in business, but without the control of its founder and majority stockholder,

**STILL NEED A JURY**—Before going into summer recess until October 1, Texas Supreme Court knocked down a portion of the state's new mental health code.

It declared unconstitutional the part which denies a jury trial to a mental patient seeking to have a court declare he is sane again.

High court also closed the door to any further consideration as to whether price advertising of eyeglasses is legal. In a ruling last month the court held that a new state law does not bar optometrists from advertising prices as long as the ads are not fraudulent or misleading. It's definite now that optometrists can advertise and quote prices in their ads.

### Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

There's rumore going around about some Congressmen working on Saturday's so's they could hurry and git through. Of course, I'm using the term "working" in its lighter sense here.

Now Mister Editor, I don't git alarmed as a rule over things that happens more'n a few miles from my house, because by the time a man keeps his own place from gitting into the hands of the banker or the Sheriff and figgers out enough answers to his old lady's questions and gits used to having his taxes reduced by the politicians in ever campaign and raised after ever election, he ain't alarmed about things taking place very far from home.

But I think this thing of Congressmen working on Saturday is heading us fer complete ruin. It has took me years and years to convince my old lady that working on Saturdays is unthinkable and un-American. When we was first married and I wanted to go to town on Saturday I had to claim I was going to the courthouse to git some farm papers signed, or the cultivator needed a new point. I recall that on't I even forged a jury summons to git to town on Saturday. But a couple wars come along and us men folks got where if we want to go to town on Saturday we just put on our other shirt and tell the old lady we'll be back in time

fer church Sunday morning. Now, if Congress, a outfit I figgered we could depend on to stand back of things, a sort of last refuge agin change and un-American ideas, is going to start working on Saturdays then things is gitting in bad shape back here at home.

We got three kinds of Congressmen in Washington, the good ones, the bad ones, and those that is too lazy to show a marked trend in either direction. Up to now the good ones and the bad ones has been wrassling it out to a tie. If them lazy ones pitch in and start working on Saturdays, things is going to the dogs fer certain. A heap of folks might say that it ain't going to hurt nothing if them Congressmen do a little work on't in a while on Saturday. If you give some fellers a inch they'll take a foot, but you give a Congressman a inch and he'll take the shirt off'n your back and pass a law putting you in jail fer going naked.

I would appreciate it no end, Mister Editor, if you'd write our Congressman and nip this Saturday business in the bud.

Yours truly,  
Uncle Ben.

Mrs. W. I. Pierson and her daughter, Mrs. Jim Abston, and a niece, Kay Sampson, all of Amarillo were week end guests in the home of Mr. and Mrs. A. A. Pierson.

Mrs. Grant Woodriddle and children of Wellington are here visiting her parents, Mr. and Mrs. J. O. Warren, while Woodriddle is fishing in Arkansas.

### Streams In Desert Places

By Ozelle Stephens

In walking arm in arm with Jesus one finds life is precious. Every day has a new meaning. Every experience gives a better understanding of God's love.

Isaiah said, "All we like sheep have gone astray; we have turned every one to his own way; and the Lord hath laid on him the iniquity of us all. (Isaiah, 53:6).

How wonderful is the love of God that hath redeemed us, the victory that overcometh. How precious is the faith that bringeth peace with God through our Lord Jesus Christ. Through it we have access into His grace, and rejoice in the hope of the glory of God.

### CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

**PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.**

**SENATE JOINT RESOLUTION NO. 1** proposing an amendment to Article IX of the Constitution of the State of Texas, by adding thereto a new section to be known as Section 5, to provide that the Legislature may authorize the creation of a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas; authorizing the County of Potter and Wichita County, Texas, and authorizing the creation of two districts in Jefferson County, and further providing that any enabling Act shall not be invalid because of their anticipatory repeal by the Legislature.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**  
Section 1. That Article IX of the Constitution of the State of Texas be, and the same is hereby amended by adding thereto another section to be designated as Section 5, which shall read as follows:

"Section 5. (a) The Legislature may by law authorize the creation of hospital districts, one to be coextensive with and have the same boundaries as the incorporated City of Amarillo, as such boundaries now exist or as they may hereafter be lawfully extended, and the other to be coextensive with Wichita County.

"If such district or districts are created, they may be authorized to levy a tax not to exceed Seventy-five Cents (\$75c) on the One Hundred Dollars (\$100.00) valuation of taxable property within the district, provided, however, no tax may be levied until approved by a majority vote of the participating resident qualified property taxpayers having the power to levy such tax.

"If such tax is authorized, no political subdivision or municipality within the boundaries of either said districts may levy a tax for medical or hospital care for needy individuals, nor for the tax sale of either said districts, but the district shall by resolution assume all such responsibilities and obligations (including bonds and warrants) of such subdivisions or municipalities or both. The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and initially equipping the same, and such bonds shall be payable from said Seventy-five Cents (\$75c) tax. The Legislature shall provide for transfer of title to properties to the district.

"(b) The Legislature may by law permit the County of Potter (in which the City of Amarillo is partially located) to render financial aid to that district by paying a part of the extended hospital system and paying a part of the debt of the district (whether assumed by the district and its voters) may authorize the levy of a tax not to exceed Ten Cents (10c) per One Hundred Dollars (\$100.00) valuation (in addition to other taxes permitted by this Constitution) upon all property within the county but without the City of Amarillo at the time such levy is authorized, the district shall by resolution assume the responsibility, obligations, and liabilities of the county in the manner and to the extent hereinabove provided for political subdivisions having boundaries coextensive with the district, and the county shall not thereafter levy taxes (other than herein provided) for hospital purposes nor for providing hospital care for needy individuals of the county.

"(c) The Legislature may by law authorize the creation of a hospital district within Jefferson County, the boundaries of which shall include the area comprising the Jefferson County Drainage District No. 7 and the Fort Artillery Independent School District, as such boundaries existed on the first day of January, 1957, with voters having the power to levy such purpose of purchasing a site for, and the construction and initial equipping of a hospital system, and the power to levy a tax of not to exceed Seventy-five Cents (75c) on the One Hundred Dollars (\$100.00) valuation of property therein for the purpose of paying the principal and interest on such bonds.

"The creation of such hospital district shall not be final until approved at an election by a majority of the resident qualified voters voting in said election who have duly rendered their property for taxation upon the tax rolls of either said districts, but the district shall by resolution assume all such responsibilities and obligations (including bonds and warrants) of such subdivisions or municipalities or both. The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and initially equipping the same, and such bonds shall be payable from said Seventy-five Cents (\$75c) tax. The Legislature shall provide for transfer of title to properties to the district.

"(d) The Legislature may by law permit the County of Potter (in which the City of Amarillo is partially located) to render financial aid to that district by paying a part of the extended hospital system and paying a part of the debt of the district (whether assumed by the district and its voters) may authorize the levy of a tax not to exceed Ten Cents (10c) per One Hundred Dollars (\$100.00) valuation (in addition to other taxes permitted by this Constitution) upon all property within the county but without the City of Amarillo at the time such levy is authorized, the district shall by resolution assume the responsibility, obligations, and liabilities of the county in the manner and to the extent hereinabove provided for political subdivisions having boundaries coextensive with the district, and the county shall not thereafter levy taxes (other than herein provided) for hospital purposes nor for providing hospital care for needy individuals of the county.

"(e) The Legislature may by law authorize the creation of a hospital district within Jefferson County, the boundaries of which shall include the area comprising the Jefferson County Drainage District No. 7 and the Fort Artillery Independent School District, as such boundaries existed on the first day of January, 1957, with voters having the power to levy such purpose of purchasing a site for, and the construction and initial equipping of a hospital system, and the power to levy a tax of not to exceed Seventy-five Cents (75c) on the One Hundred Dollars (\$100.00) valuation of property therein for the purpose of paying the principal and interest on such bonds.

"The creation of such hospital district shall not be final until approved at an election by a majority of the resident qualified voters voting in said election who have duly rendered their property for taxation upon the tax rolls of either said districts, but the district shall by resolution assume all such responsibilities and obligations (including bonds and warrants) of such subdivisions or municipalities or both. The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and initially equipping the same, and such bonds shall be payable from said Seventy-five Cents (\$75c) tax. The Legislature shall provide for transfer of title to properties to the district.

"(f) The Legislature may by law permit the County of Potter (in which the City of Amarillo is partially located) to render financial aid to that district by paying a part of the extended hospital system and paying a part of the debt of the district (whether assumed by the district and its voters) may authorize the levy of a tax not to exceed Ten Cents (10c) per One Hundred Dollars (\$100.00) valuation (in addition to other taxes permitted by this Constitution) upon all property within the county but without the City of Amarillo at the time such levy is authorized, the district shall by resolution assume the responsibility, obligations, and liabilities of the county in the manner and to the extent hereinabove provided for political subdivisions having boundaries coextensive with the district, and the county shall not thereafter levy taxes (other than herein provided) for hospital purposes nor for providing hospital care for needy individuals of the county.

The R. A.'s surged back into the league lead with a 12-4 victory over the Braves. R. A. pitchers Anderson and Reeves struck out 13 men and allowed three hits, while Braves pitchers Johnston and Brooks struck out 10 and allowed four hits. Eleven of the R. A.'s 12 runs were made in the third inning. It was in the third that Reeves hit a four-run homer.

No games were played Tuesday night, but all four teams will see action tonight and again Saturday night.

### RECEIVE PLAQUE

Otto and Kenneth Lawson, owners of City Hardware Co., were recently awarded a service plaque by Fairbanks, Morse & Co., manufacturers of home water systems, water heaters, softeners and many other products used throughout industry and agriculture.

The plaque certifies that the Lawsons are authorized service representatives, and gives special recognition to the fact that City Hardware has been a Fairbanks-Morse dealer for 11 years. The awards are made only to dealers who have demonstrated their willingness and ability and who are equipped to render fast, dependable service.

## School Lunch Funds Increased

First installment of \$5,488,245 of federal funds for Texas schools in the national school lunch program will be released by the food distribution division, Agricultural Marketing Service, Dallas, around September 1, reports John J. Slaughter, chief of the Dallas AMS office.

Texas public schools will get \$5,166,017, an increase of \$661,449 over last year and private schools will get \$322,228, an increase of \$72,570, according to Slaughter.

Funds appropriated by Congress for the program are released to the states according to the number of children between 5 and 17 years of age, inclusive, and the relation of the per capita income in the U. S. to the per capita income in the state.

The public school allotment for Texas will be used by the Texas Education Agency to reimburse schools in part for the food bought from local merchants. Texas private schools secure their allotments directly from Slaughter's office. Last year about 3,000 public and 131 private schools operating under the school lunch program spent about \$20,780,935 with local merchants for food, Slaughter said. They served 90,860,139 meals, nearly all with a half pint of milk and the average cost was about 254 cents during November, the peak month of participation last year.

"With the use of USDA funds and foods, schools can keep the cost of lunches at the lowest possible level," Slaughter said, emphasizing that each school determines the cost of its lunches on a non-profit basis.

The program is designed to improve the diets of school children and to enlarge the market of farmers. At the same time, it creates local business and jobs.

Texas public schools which have not been in the program but wish to participate this next school year should contact Charles M. Hicks, Texas Education Agency, Capitol Station, Austin.

Misses Clifford and Blanche Elliott returned Saturday from a week's visit with their brother, John Elliott, and family in Lubbock and their sister, Mrs. G. H. Harris, and Mr. Harris in Pampa.

## Bible - Agriculture Leaflet Available

The Bible is filled with wisdom, laws and advice regarding agriculture. Properly interpreted, the Old Testament recorded many basic agricultural principles and Christ used agriculture as a basis for His parables. New Testament writers also exhibited a keen interest in agriculture.

The Texas Agricultural Extension Service has released a leaflet entitled "The Bible and Agriculture." The author, Gan Brown, extension biologist.

The leaflet states that farmers talk and practice of the principles found in the Bible. The laws of God and the laws of agriculture may well be understood and applied.

This publication points out a few Biblical references to agriculture and discusses it. It may be obtained from county agents or from Agricultural Information College Station, Texas, L-146.
