

Knox City Boys Receive Degrees

E. M. Nowlin, who was principal of the Knox City High School passed through here Wednesday enroute to Paducah where he will have charge of the Methodist circuit of the Paducah District. Cecil Ellis, a ministerial student was accompanying him and will be with him for a few days in a meeting.

It was noted in the Abilene Reporter where Mr. Nowlin, received his bachelor of Science degree from McMurray college, at the end of the summer term.

Clyde Pare, son of E. L. Park was also listed among those to receive his degree in Bachelor of Science.

BAPTIST CHTRCH

Sunday will be our last meeting for the Associational year. A full attendance is desired.

Haskell Baptist Association convenes with us Wednesday and Thursday next week and many messengers from Haskell and Knox counties, also a number of general workers from a distance. General Secretary Dr. Luther Holcomb will be here and deliver one or two sermons or addresses. The general public is cordially invited to attend any or all of these services of the Association.

We had a very fine day last Sunday with baptizing in the afternoon. We are doing our best to rally all our forces now for a new forward movement in all the work especially in the Sunday School. Things are getting better. It is a genuine joy to be in our church meetings. Come with us.

KINDERGARTEN NOTICE

I wish to announce to the public, that I will teach kindergarten work again this year. Admission will be \$3.00 cash in advance. Mrs. Russell Boyd.

Duck O'Brien and family of Tischmingo Oklahoma spent Friday night in the home of their Uncle and family J. H. McLain.

John E. McLain and family visited in the home of his parents, Mr. and Mrs. J. H. McLain, Saturday.

Bill Clarke is spending his vacation in Dallas, Waco and other points.

NAZERINE REVIVAL MEETING IN SECOND WEEK

The Nazerine Revival Meeting has been in progress at the open-air tabernacle the past ten days, and continues to draw large crowds. Services are held only at the evening hour.

The Land Brothers are doing the preaching and they are each delivering some real messages. They are not the most sensational preachers going, but their messages are shot through with the Spirit of Christ and have a seal for unsaved souls.

There have been a number of conversions and Knox City is indeed fortunate in having them in a Revival here.

Girl Scouts Enjoy Outing

The Girl Scouts and their visitors enjoyed their summer outing the first of the week.

They arrived at Leuders about 9:30 Monday morning and made camp at Riverside Park. They enjoyed a good swim Monday morning and then helped themselves, eating a camp lunch. After a two hour rest they went swimming again. Before going to bed they ate a nice supper of tomato stew, pork and beans, potatoes, corn and bread.

Before breakfast the next morning they hiked to the spring where they washed their teeth, face and hands and prepared for breakfast. After breakfast, Sydna Edwards, Jocile Russell and Mary Eliza Clarke hiked to the dam: Rowena Wall, Wynell Edwards, Martha Scoggins and Mary Lou Graham went "exploring." After they returned some of the girls visited the Stamford Camp Fire Girls Camp. They returned and joined the rest of the crowd by going in swimming.

After a lunch prepared by Mr. and Mrs. J. A. Wilson, Mrs. C. C. Hoge, Florence Wilson, Rheba Lightfoot, Sydna Edwards and Jocile Russell, this being the best meal prepared, they listened to stories told by some of the parents, the subject being, "My First Sweetheart."

They went in swimming before leaving, and many of the girls learned to swim and float. Each girl had a buddy-while she was in the water.

The following are the names of the ones who were on the trip. Mrs. Ottis Cash, Miss Buckholt, Mrs. H. M. Warren and children Fred, Anna Lou and Darthy, Mr. and Mrs. J. A. Wilson and daughter Florence, Mrs. C. C. Hoge and children Mary Leon and Paul, Mrs. A. A. Ruedge and daughters Letha Fay and Estennie Opal, Mrs. Ed Shaves and daughters Dorothy and Mayme, Mrs. G. D. McCarty and daughter Bobby, Rev. J. A. and Mrs. J. A. Scoggins and daughter Martha, Mrs. J. E. Clarke and children Jack and Mary Eliza, Mrs. J. W. English and children, Clyde and Lenore, Sydna, and Wynell Edwards, Rheba Lightfoot, Maurine Ables, Ruth Burgess, Stella Bradley, Lois Turner, Bernice Raney, Rowena Wall, Mary Lou Graham, Mary Hope Newsome, Odell Thompson, Corrine Shaw and Jocile Russell.

FOR SALE To boys and girls going off to school, the Knox County Herald, for nine months for only \$1.00. Let the children enjoy the home news this year.

BRYANT-LINK STORE BUILDING BEING REMODELED

The store building of Bryant-Link is being remodeled this week. The owners, Sam Clonts, T. P. Frizzell and Dr. Frizzell have let the contract to J. O. McMinn and Jack Erwin, well known contractors and builders.

The entire front will be made over with modern display windows, a new side walk will be built and the balcony wings will be cut back even with the office. This will enable the firm to give display to their merchandise over the shelving.

When this job is completed it will give Brant-Link a real up-town store, in which they can give their gigantic trade better service.

We rejoice with the store and congratulate the property owners for their progressive spirit and the confidence they have in our town and country.

Mrs. Campbell C. Goree Visits Friends

Mrs. Campbell C. Goree, of Riverside, California one of the old time residents of Knox City has been visiting friends and relatives in Texas since the 1st July and on the home stretch came by Knox City to visit her old friends here, a few days this week, and all old time residents of Knox City enjoyed every hour she had for them.

Campbell Goree, her husband, was among the first to move to Knox City with his family when the town started and moved from here to Riverside California about fifteen years ago, but the lasting friendships will always remain and the old time residents that know Mr. and Mrs. Goree and their family will always remember them as patriots and friends of the true kind.

We can not mention all the homes in which Mrs. Goree visited, but we got some of them.

Mrs. M. A. Reeder, Mr. and Mrs. C. J. Reese, Mr. and Mrs. J. W. Smith, Mr. and Mrs. C. C. Hoge and Mr. and Mrs. E. O. Jamison.

Mrs. Goree had plenty of things of interest to talk to her friends about and was busy day and part of the nights trying to see as many as possible during her short stay here. She loves the Texas people, but California for living.

Her itinerary brought her into Texas at L'Paso then to Houston, Austin and intermediate points, to Ft. Worth, Wichita Falls, Amarillo, Santa Fe, Phoenix and Grand Canyon, Arizona and back to California. This is the second trip Mrs. Goree has made to Texas since moving away, and we hope she will make more frequent visits, she says the next time is Mr. Goree's.

Davis Cash Grocery Makes Improvement

Carpenters are busy this week taking out the back wall of the Carl Davis building just south of the First National Bank building making additional room for the Davis Cash Save't Store. Due to the increasing business and in order to better take care of the grocery trade, this addition was made. This will give the boys plenty of room for the large crowds on Saturday.

Everette Favor was a visitor in Rising Star this week.

REVIVAL AT CHURCH OF CHRIST CLOSES

The meeting conducted by J. Porter Wilhite at the Church of Christ in Knox City closed Sunday night with great crowds attending and the most intense interest.

Many were converted and hundreds were taught the word of God.

The unusual amount of scripture quoted by Bro. Wilhite was greatly appreciated by the entire city and community.

It was a wonderful meeting in the estimation of all.

CHRISTIAN CHURCH

Bible School, 10:00 a. m.
Preaching, 11:00 a. m.
Sermon: The Royal Priesthood.
Song service and preaching, 8:00 p. m.

Next Sunday is the time for regular first Sunday preaching at this church. It is also the first Sunday in September. September is a month of beginnings; a month to start the ball rolling; a month to resume activities as we left them in the spring in order to enter into the vacation months. The first day of September, religiously speaking, is New Year's day, a day to be celebrated. The way in which to do this celebrating is to have every member present at the preaching services. Our resolutions should be to renew our energy in the service of our King. Come. Get busy. For a chain's as long as the weakest link,

And it breaks with a heavy load;
But a church that is full of the links that pull
Can level the roughest road.
If you get in tune with your Master's will,
With your heart and your labors too,
You will love the church though it has it's faults,
For it isn't the church its you.
H. N. Soliday.

Miss Gretchen and Mary Howell, returned Monday from Glenrose. Miss Gretchen has been attending school this summer at the University of Illinois at Urbana Illinois, and after finishing her course, visits many interesting points in northern states.

Warren Bros report the sale of a sport coupe to R. A. Shaver of Shallowater.

G. W. Tillinghaust of Munday was here Monday on business.

KNOW TEXAS

Texas products—from farm, ranch, mine and forest in 1929 are expected to total \$2,000,000,000 with agriculture; on present prospects, counted on to produce half of it.

In the period from 1849 to 1929—69 crop years—Texas has produced 154, 255,234 bales of cotton, according to Stuart McGregor, editor of the Dallas News Texas Almanac.

Although its development is comparatively new, Texas is State in the production of gypsum with total sales value of \$3,694,145 last year. New York Iowa and Michigan lead Texas.

Texas' wealth is increasing at the rate of \$1,400,000 a day.

New Building Goes Up for Waldrip Hatchery

R. L. Hight, is erecting a building just west of the City Feed Store, for the Lloyd Waldrip Hatchery.

The back part of the building will be used to store feed by the City Feed Store.

They will complete the building and install a 15000 capacity Hatchery in time for fall hatching.

KNOX CITY SCHOOLS OPEN SEPTEMBER 9

At a meeting of the school board Monday night it was decided to begin school on Monday September 9th.

The plumbing job was not complete and part of the finish work in the old building will be completed this week.

Following is the line-up on teachers for this year:

Kindergarten, Mrs. Russell Boyd; First Grade, Mrs. J. W. Cloud; Second Grade, Mrs. Browning; Third Grade, Miss Stella Cooner, Fourth Grade, Miss Alta Cassel; Fifth Grade, Miss Annie Freeman; Sixth Grade, Miss Ada Cox; Seventh Grade, Mrs. Ottis Cash.

High School teachers: J. W. Cloud, Superintendent; Pat Coleman, Principal; Virgil Underwood, Vocational Agriculture; Mrs. Horace Finley, English; Mrs. O. J. Emery, History; Miss Mabel Moorehouse, Home Economics; Mrs. Tom Bala, Expression; Mrs. E. Q. Warren, Math.

Car number 545-729 that filled up with gas at Keek Brothers Fillinn Station this week draws 10 gallons of Texas gas.

Save on the Budget Plan

Ask any man who has made a financial success in life how he accomplished it. His answer will be, "By saving." He did not spend every cent he made, but built up a fund which was available when he needed it for business purposes. He is no different than you, except that you must learn that saving habit. Save on the budget plan—a certain amount each week going into your savings account. You will be surprised how it will grow and earn money for you.

The First National Bank
KNOX CITY, TEXAS
24 YEARS OF SERVICE

WALDRIP

Lillian Craddock and Waldrip were united in a ceremony performed at the home of the parents Mr. and Mrs. Smith's Chapel, by Rev. Claude pastor of the Baptist community, Saturday August 24. The couple's wedding trip to Glenwood and other points and after the first will be at home at Mrs. Pope's.

Waldrip has lived in the Chapel community for a number of years and was formulator of North Texas Teachers College at Canby. He is employed in the goods department at Link Co.

Waldrip is a son of Mr. W. F. Waldrip and has spent all of his life in the school from high school and is now in the grocery department at Link Co.

VITAL NOTES

Following is a list of papers at the County Clerk's office for the past week:

Marriage License, Miss Alice Lee, Miss M. L. Good, Mrs. M. L. Good, Mrs. M. L. Good, Mrs. S. Boone, G. Ammons, Munday, Gaunt, Rochester, Rule and Mr. Vera.

English and daughter Mrs. Gordon were in the bed room at the English's father, who was somewhat when they left in Galveston.

Freeman sustained an injury Friday when he was riding over the bridge here, somewhat injured.

John and sister, who are students at Lubbock, were here a few days at the home of their parents, Mr. Martin.

E. R. Carpen, who have spent the week in the Hawkeye back home, returned to his parent's home in Favor.

Hit the Ball Hard!

If you would win the game.

Win the game of life—we must hit every day—to win. Even then winning the game if you are not certain sum for a rainy day to win this fund. Come in today with no obligation.

Many Uses for Honey

Throughout the ages honey has had all sorts of uses. The Greeks especially prized the honey of Hy-mettus, although Mahaffy said he could get better on the heather hills of Ireland, says the New York Times. A favorite drink of Chaucer's time was wine mixed with honey and spices. Hindus put a drop of honey in the mouth of a new-born male infant. Honey was used as an embalming material in ancient Egypt.

Receipt for Beauty

Kindness can become a habit with you, just as grudgefulness can become a habit. It pays sometimes to stop to think a minute and check up on your habits and see if they are what you really intend them to be. Kindness is a habit that will make you happier, yes, and prettier, for it will soften the lines of your face.—Our Sunday Visitor.

Rhone's Rapid Current

Probably the most rapid river in the world, with the exception of some small streams which are merely torrents or cataracts, is the River Rhone, in France. At some seasons the current of this stream reaches a speed of 40 miles an hour. In the drier seasons, however, it drops to a rate of six miles an hour.

Wanted Her Change

A woman traveling northward from Banbury pulled the communication cord when the train had left the station some distance. The train was stopped, and when the guard made inquiries the woman stated that she tendered a boy sixpence for an apple on Banbury station platform and wanted her change.—London Tit-Bits.

Do They Learn It?

After a thoughtful woman has been married a certain time, she has learned to hang a clothesline in the basement in winter in such a way that it will invariably catch an unsuspecting male across the Adam's apple.—Detroit News.

Letter's Form Changed

The letter U was originally a curvilinear or rounded form of the letter V and not distinguished from it. By the Tenth century V came to be used by preference as the capital initial form. The two letters, however, were not given separately until about 1800.

Requisite Qualities

Knowledge is essential to conquest; only according to our ignorance are we helpless. Thought creates character. Character can dominate conditions. Will creates circumstances and environment.—Besant.

Wrong Tendency

We need not less, but more moral sensitivity in a complex world. Any tendency of thought which inclines to destroy the "ought" in moral reasoning is dangerous.—Prof. Reinhold Niebuhr.

Unpardonable Omission

A recent article enumerating those who have contributed to the emancipation of women failed to mention Mr. Sholes or whoever it was who invented the typewriter.—Florence Herald.

Ton True

The people are always incensed about something in their public affairs, but the object of their indignation changes often and they get little done.—Exchange.

Value of Self-Denial

They that deny themselves will be sure to find their strength increased, their affections raised, and their inward peace continually augmented.—Matthew Arnold.

Early Dealers in Stocks

The New York Stock exchange was formed and a code of rules drawn up for the organization February 21, 1820. The membership fee amounted to \$100 apiece.

Light on the Subject

Two boys saw a barber through the window singeing the hair of a customer. "Say, Jim," said his pal, "he's hunting 'em wid a light."—Exchange.

Magical Talisman

Courage and perseverance have a magical talisman, before which difficulties disappear and obstacles vanish into air.—John Quincy Adams.

No Test of Quality

Self-praise is no recommendation. Many a man throws bouquets at himself who never pays his florist's bill.—Boston Transcript.

And the Breakable Kind

Fannie (showing her new doll to her little cousin)—But you mustn't drop her, Marian, 'cause her head is made of dish.

Public Taste Criticized

I have always suspected public taste to be a mongrel product, out of affection by dogmatism.—Robert Louis Stevenson.

Assured Harvest

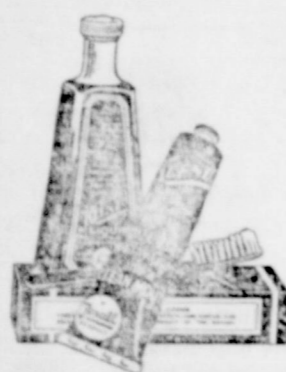

He who sows courtesy reaps friendship, and he who plants kindness gathers love.—Bash.

Likes Strong Colors

It is stated that the bumblebee has a strong preference for blues and purples.

Beyond All Valuation

One good mother is worth a hundred schoolmasters.—Proverb.

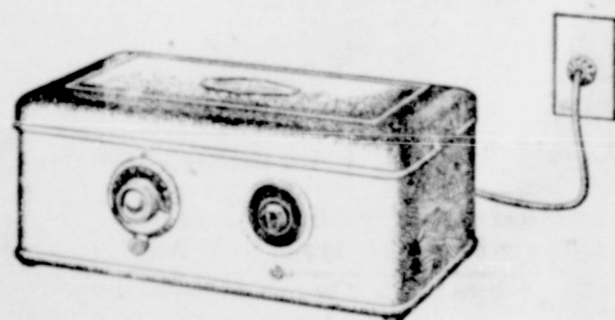

Keep Your
Mouth Free
From Germs!

Pyorrhea and Halitosis are two of the most discussed diseases today. But they can't exist in a healthy mouth. Klensz Dental Cream and Klensz Liquid will help you to ward off these diseases. Klensz is sold only at Rexall Stores.

West Texas Offers Field for Industries

There are marked evidences that a turning point is at hand in the distribution of population, that congestion in large centers of population has accomplished all the benefits possible, and further congestion will be harmful rather than helpful.

—While the so-called "drift to the cities" has been going on, things have been happening in the country too, chief among which are the wide-spread distribution of electric power and the development of fast freight facilities.

—And so, as the disadvantages of metropolitan congestion now begin to reveal themselves, the solution is readily at hand in the smaller centers of population—a renewed industrial development of smaller cities and towns seems to be inevitable.

—This is especially true in West Texas. Our cities and towns have every advantage to offer industries looking for new locations—cheaper land, lower taxes, shipping facilities less crowded and ABUNDANT, ECONOMICAL ELECTRIC POWER.

—With 70,000 available horsepower of electricity, its three big generating stations and fifteen auxiliary plants, the West Texas Utilities Company insures uninterrupted service, 24 hours a day and 365 days a year.

Club Cafe.

Jesse Hitchcock was in Ben-
jamin on school business Tues-
day.

Sam White was a Haskell
visitor Tuesday.

J. M. Ashcroft was a business
visitor in Dallas this week.

Mr. and Mrs. T. C. Bolin and
daughter, Tommy Lou, returned
Monday from Sweetwater where
they have been visiting Mr. Bo-
lin's mother, Mas. Chatman.

Sharpest Vision
The distance that the human eye
can see over the surface of the earth
has never been definitely measured.
The longest feat of unaided vision on
record approach 200 miles. Observers
on the Mediterranean coast of France
are said to have sighted lights on Cor-
sican mountains 186 miles away, and
mirrors on Mount Shasta, Calif., were
recently sighted from Mount Helena, a
distance of 192 miles.

"Cat Out of Bag"
The expression, "letting the cat out
of the bag" is of nautical origin.
When punishment by the use of the
cat-o-nine-tails was abolished from
the United States navy the "cat" was
placed in a canvas bag and its use
became an infraction of the law.
Hence the meaning that when the cat
was taken from the bag trouble would
ensue.

Grades in Intelligence
Dr. Edward E. Free, New York
scientist, made the statement that me-
chanics are the nation's most intelli-
gent class in an address delivered be-
fore the American Society of Mechan-
ical Engineers. According to Doctor
Free, engineers and technical men
rank second and business men third.

Crowded Village
So many places claim to be the
smallest village or parish in England
that it is difficult to make a choice,
but Northholme, near Wainfleet, with
an area of only 25 acres and 20
perches, and a population of about
200, must at least be the most popu-
lar for its tiny size.

Advertising Long Employed
Advertising is of great antiquity.
Egyptian advertising over four thou-
sand years old has been discovered.
Picture advertisements were used for
the most part up to the time of and
through the Middle Ages. The earliest
newspaper advertisement is said to
have been in Germany, 1501.

Postal Excitements
Talking of advertisements, the coun-
try gentleman who advertises "don
constrictor, healthy," which "can be
seen by writing" is obviously of the
same breed as the gentleman who of-
fers to send "roars of laughter" post
free.

Life in London
According to an English paper, when
a landlord asked for possession of a
room at Drayton Park, Highbury, he
told the magistrate that the room
measured 12 feet by 18 feet. It was
occupied by a husband and wife and
eight children.

Life's Golden Threads
Little self-denials, little honesties,
little silent victories over favorite
temptations—these are the silent
threads of gold which, when woven
together, gleam out so brightly in the
pattern of life that God approves.—
Dean Inge.

Bookplates
A bookplate is a printed or engraved
label, bearing the owner's name and a
decorative design, which is pasted in-
side the front cover of a book. The
most popular size for a bookplate is
2 by 2 1/4 inches.

Removing Egg Stains
Egg stains on silver are removed
with wet salt, others with precipitated
chalk or whiting mixed with a little
ammonia. After the stains have been
removed, wash and polish the silver.

A Human Verse
There is one verse in the Bible that
an Atchison heathen believes. The
verse quotes Peter in this manner:
"We fished all night and caught noth-
ing."—Atchison Daily Globe.

Franklin as Publisher
The first book printed by Benja-
min Franklin was "The Rise, In-
crease and Progress of the Christian
People Called Quakers," by William
Sewel.

Wine From Palm Sap
The kinn palm in India secretes a
sweet, aromatic sap which, after fer-
mentation, is an excellent sort of palm
wine.

Tea-Leaf Salad
There is a virgin tea called Lung
Soo, meaning dragon's whiskers, which
the Chinese use in making tea and the
leaves of which they eat as a salad.

RADIO TELEGRAPH NOW GOES INLAND

Fourteen Cities in Nucleus of Network, With Plans for Twenty-nine as Wave Lengths Are Cranted.

Plans for the immediate establishment of a radio-telegraph system serving all the interior of the United States through fourteen strategic cities just have been announced by General James G. Harbord, president of the Radio Corporation of America. The service will be managed and operated by the Corporation's subsidiary, R. C. A. Communications, Inc.

The stations will be at New York, Chicago, San Francisco, Los Angeles, Seattle, Denver, New Orleans, Kansas City, Detroit, Cincinnati, Cleveland, St. Louis, Boston and Washington. General Harbord's announcement reveals.

The establishment of the new service, which will give the inland cities direct communication with the world through wireless networks radiating from New York and San Francisco to 200 countries, was made possible by the recent grant of ten exclusive channels and five shared channels from the Federal Radio Commission.

The above map shows the twenty-nine cities which the Radio Corporation of America hopes to include in an inland radio telegraph network soon. Work already is under way to give radio telegraph service to fourteen of the cities, on wave lengths already granted. These stations will be at New Orleans, Kansas City, Detroit, Cleveland, Chicago, Los Angeles, Seattle, Denver, St. Louis, Cincinnati, New York, San Francisco, Boston and Washington.

Other cities whose commercial importance and strategic location justified a place in the new radio network, General Harbord said, were Philadelphia, Miami, Fla., Savannah, Minneapolis, Memphis, Pittsburgh, Houston, Norfolk, Buffalo, Portland, Me., Rochester, Schenectady, Portland, Ore., Milwaukee, and many others which it is hoped will eventually be added to the radio-telegraph chain.

EIGHT NEW AMERICAN RADIO LINKS ABROAD

The inauguration of eight new international radio services in the last year by R. C. A. Communications, Inc., subsidiary of the Radio Corporation of America are announced in the report of the corporation's directors, just issued, tabling radio links to twenty-two countries outside the United States.

This advance of America in international radio communication is a matter of great importance to the United States not only because of the swift and accurate service thus increased, a service which already has brought down international cable tolls, but also because it shows the United States is holding against some difficulty a leadership in radio communication of which Americans may well be proud.

The new international radio services inaugurated in the year were to Maracaibo, Venezuela; Shanghai by way of the Philippines, Montreal, Portugal, Australia by way of Montreal, Caracas in the Dutch West Indies, Liberia and Cuba.

Trans-Atlantic circuits are in operation with twelve different countries, Norway, Sweden, Holland, Belgium, France, Great Britain, Germany, Italy, Turkey, Portugal, Poland and Liberia, with circuits soon to be established in Syria and Spain. Latin American countries with which it is in direct communication are Porto Rico, Dutch West Indies, Colombia, Maracaibo and Caracas, Venezuela, Dutch Guiana, Brazil, Argentina, Santo Domingo and Cuba. The company's trans-Pacific circuits carry on radio communication with Hawaii, Japan, China, French Indo-China, Java, the Philippine Islands, the Fiji Islands and Siam. It also operates the circuit with Montreal, connecting with Australia.

Mars still fails to respond to our messages. Perhaps the English language isn't being taught in the Martian public schools.

A new manner of finance is in evidence, which assumes that a cash seeker does not need to sign a check or even an I. O. U. if he has equipped himself with a gun.

It is estimated the world's population will double in sixty years, which is good news or bad in accordance with what we think about human nature as a whole.

The mere tradition that it is a free country hardly explains the kind of author who has himself photographed with a hat on and a topcoat turned up around the neck.

In further reference to the Harvard men who has put together a machine exerting a pressure of 600,000 pounds to the inch, we wonder who lives in the apartment below.

It is said that the best imported Canary birds are trained in voice culture by means of an automatic organ. A canary would probably refuse to be a party to a cost with a saxophone.

WICHITA SIGN MAN GAINS 9 POUNDS ON FIRST BOTTLE

Michael Benson Says He Had Been in Bad Health For Years Is Improved by Orgatone.

"I have gained 9 pounds in weight and now feel just fine," said Michael Benson, well known proprietor of the Benson Sign Company Wichita Falls, Texas, and residing at 1804 Ninth st. Mr. Benson is one of the best known sign writers throughout this section of Texas.

"I can't praise Orgatone too much," continued Mr. Benson. It has not only gotten me over my two years of suffering, but it has put me in good shape in every way, and I have never felt better in my life. Some of my friends say I am like a different person and I am thankful to Orgatone for I believe in giving any good thing its just due.

"No other medicine I took seemed to do me any good, but after about a weeks use of Orgatone the gas pains in my stomach disappeared and I commenced to pick up in health right off. Before taking Orgatone the simplest food would fill my stomach with gas and misery which would last for hours, the fact is, at times I did not feel fit to go to after my work at all.

"I think Orgatone is a great system builder and I certainly appreciate what it has done for me, and I will take great pleasure in telling anyone about it.

Genuine Orgatone may be obtained in Knox City at the Orient Drug Store.

YOUNG OFFICIALS IN YOUTHFUL INDUSTRY

The announcement the other day of the list of officers for the Radio-Victor Corporation of America, just formed to handle the sales and distribution of the products of the Radio Corporation and the Victor Talking Machine Company, shows a preponderance of youthful officials in this company which combines the interests of two of the biggest and youngest industries.

David Sarnoff, executive vice-president of the Radio Corporation, who is chairman of the Board of Radio-Victor, is 28 years old. Incidentally, he climbed to his present high position from a start as a messenger boy. An average of well under middle age is maintained by the other officials: J. L. Ray, President; I. E. Lambert, Vice-President and General Counsel; A. E. Roach, Vice-President in charge of Production, Service and Traffic; H. C. Grubb's, Vice-President of the Victor Talking Machine Division; Quinton Adams, Vice-President of the Engineering Products Division; Meade Brunet, Vice-President of the Radiotron Division; E. A. Nicholas, Vice-President of the Radiola Division; E. C. Grimley, Treasurer and Comptroller, and Francis S. Kane, Secretary.

Trait of the Indolent
"Contentment," said Hi Ho, the sage of Chinatown, "is usually experienced by those who are too indolent of mind to face their troubles."—Washington Star.

Worse Than Censure
The meanest, most contemptible kind of praise is that which first speaks well of a man, and then qualifies it with a "but."—Beecher.

Slow to Judge Others
The most generous and merciful in judgment upon the faults of others are always the most free from faults themselves.—Aughley.

Deceit in Invention
There should always be some foundation of fact for the most airy fabric; and pure invention is but the talent of a deceiver.—Byron.

Poor Time for Business
Men who go on transacting business during lunch, so physicians inform us, are not in business for their health.—John Andrew Holmes.

Of Brazilian Origin
The name petunia is taken from petun, a Brazilian name for tobacco, to which the petunia is allied.

Under Another Name
Passion and prejudice govern the world only under the name of reason.—Rev. John Wesley.

Costly Emblem
The crown of King Tofari of Abyssinia contains \$300,000 worth of jewels.
