Lesson for Sunday July 10th 2nd Chapter of St Luke (By L. B. Hammock

Christ urges scriptural Study 'Search the scriptures; for n them ye think, ye have eterrial life and they are they which testify of me.-John 5:39.

Bearing in mind that the sacred writer in continueing to set forth in a true and faithful manner the birth, early life and ministry of Jesus, one redily follows him with rapt attention as he brings his narrative to a sublime climax. The begin ning of this chapter brings us to the ittle city of Bethlenem of Judea where Jesus' parents had journed to submit to the decree of taxation by Caesar Augustus. But the signi figuree of the incodent therewith connected is of much more importance to us than these good people's implied willingness to come by an embitious ruler who sought earthly agrandizement, not knowing in his vainglorious heart that the King of Kings and Lord of Lords was soon to enter upon his triumphant task preaching the coming of the kingdom of God and the acceptable year of the Lord. Along the hills of Judea resounded a new song as the angel of the Lord appeared to the Shepherds and revealed the tidings of joy that to the world had been born a Savior who was Christ the Lord. This was God's good will expres toward the people of all the carti who is faithful to confess our nam-Mrs .Clarence Hall of Benjamin es to the Father in heaven if we confess Christs name before men God has never denied anyone a blessing who was prepared to receve it Him honestly. And while they did not and could not understand this saying they had been touched by His spirit and lifted by His grace and power and so began the light shining in darkness that has brought men into the light even as He was in the light and has brought them to be Sons of God and joint heirs with Jesus Christ their elder brother.

RAIL TRANSPORTATION IS EFFICIENT AND **ECONOMICAL**

• THE RAILROAD is the most efficient and the most economical transportation agency the human mind has ever devised.

The ability of commercial trucks to operate with various charges for their services has been because they are not required to carry all kinds and classes of freight. The truck can choose its freight and is privileged to reject that which it cannot handle, either because it is not equipped for such heavy service or the rates are too low to be profitable. The railroad CANNOT DISCRIMI-NATE but must accept all freight offered it.

In 1930 the shippers of Texas paid the railroads \$225,223,142 in freight charges. If the same volume and character of traffic had been carried by trucks it would have cost the shippers, according to the best available data on trucking costs, \$900,000,000, or four times as

What will be the effect on the shippers of Texas if only the traffic which the trucks cannot handle is left to the railroads? If traffic paying the higher rate is taken from the railroads by the trucks, it will be necessary for the rail carriers to increase their rates on the low grade traffic or go out of business. The total transportation bill will be greatly increased.

The railroad rate structure is a composite designed for the purpose of enabling the free movement of ALL ARTICLES OF COMMERCE, making it possible to bring even the cheapest commodities into general use and distribution. Were it not for the low rates made available by the railroads on many low grade commodities and raw materials, their distribution and use would be impossible and all commerce and industry would be seriously af-

Vice President Nominee

John Nance Garner

The Speaker of the House of Representatives was born on a ranch in Red River County, Texas, November 22, 1869. He went to country schools, studied law, was admitted to the bar in 1890, was a member of the Texas House of Representatives from 1898 to 1902 and was elected to Congress from the 15th Texas district in 1903, serving continuously since then. He was married in 1895 to Ettie Rheiner. He was elected Speaker of the House in the present Congress.
