Arrangements will be announced by Mansell-Smith Funeral Home of Rochester.

ROOF FALLS IN—A 60x80' section of the roof at Sharp Motor Co. caved in during the rain and wind early Monday, doing an estimated \$10,000 damage to the building. The roof collapsed over the shop area. The walls buckled but did not fall. H. E. Sharp, owner of the Ford dealership, said some \$2,500 worth of shop equipment was buried under the debris. Business is continuing as usual, since the display room and office, as well as the smaller shop at the back, were left undamaged. The building is owned by Mrs. Horace Benedict of Dallas.

Knox City Gets 'Big Rain' Monday

In some parts of the country it might be called a shower, but in Knox City it was a big rain that fell in the wee hours Monday morning.

The rain measured .51 inch, which Weatherman Horace Finley says is the most he has measured in several months.

While heavier rains this week have continued to by-pass Knox City, cloudy skies and forecasts of rain in the state give farmers and ranchers some hope for more badly-needed moisture.

Gene Michels Dies On Hunting Trip in Colorado Mountains

Gene Michels of Munday, prominent Knox County farmer, died Wednesday night while on a hunting trip in Colorado, friends here learned this morning.

According to reports, Michels suffered a heart attack while in the mountains 60 miles from the nearest doctor, and died before other members of the party, which included his brother, Johnny, could get him to a doctor.

Texas Wheat Farmers Sign More Than 12,000 Soil Bank Contracts

Texas wheat farmers signed 12,116 agreements and placed \$19,965 acres under the winter wheat Acreage Reserve program of the Soil Bank through Oct. 5. The figures were released by the state office of the Agricultural Stabilization and Conservation.

If farmers who have signed agreements comply with the requirements of the program, they will be eligible for a maximum of \$14,067.075 in Acreage Reserve payments on the acreage pledged.

Aimed primarily at reducing price-depressing surpluses of wheat, corn, cotton, rice, tobacco and peanuts, the Acreage Reserve program of the Soil Bank is available only to producers having acreage allotments of these crops on a Soil Bank corn base acreage. Program details for 1957 have been made available so far only for winter wheat seeded this fall for harvest next year.

SCOUT TROOP GETS BUILDING

Boy Scout Troop 161, at a meeting Monday night, formally accepted a 25-year lease on the transient labor camp in Knox City.

The building was offered to the Scouts by the city and the county, joint owners, with the only stipulation being that the Scouts fence the property.

The building, formerly used to house transient labor families, has been little used the past several years.

Scoutmaster Feared Burns said Ulric Lea was named chairman of the building committee, and will sign the lease and oversee remodeling, painting, fencing and other details. Lea will name other committees to assist him in getting the building ready for occupancy by the Scouts.

The Knox City Lions Club has contributed \$50 toward construction of the fence.

Mr. Burns expressed thanks, on behalf of the Scouts, to the city council and county commissioners for their generous offer.

Scout Court of Honor Held Monday Night

An impressive Court of Honor was held Monday night at the First Christian Church by Scoutmaster P. J. Burns, inducting four new Scouts into Troop 161. The boys were Lanny Logan, Stanley Compton, Danny Fisher and Richard Averitt.

In a candlelight ceremony the 12 points of the Scout law were given by the scoutmaster.

Following this, M. T. Scott presented Doyce Gene Graham five awards. Second class judges were presented to Danny Coiwell and Jimmy Lea by Joe Murray Clouts and Ulric Lea.

A short talk on Scouting was presented by Scoutmaster Burns. Refreshments were served to the Scouts and their parents and guests by Mrs. Lea and Mrs. Burns.

Emergency Grain Program Extended

Walter T. McKay, State Director, Farmers Home Administration, today advised Wilburn A. Satterwhite, county supervisor, of the extension of the Emergency Feed Grain Program in Baylor, Knox and Throckmorton counties. Under this extension, farmers and ranchers may now file applications through December 3, 1956 for a supply of feed grain necessary to carry basic livestock herds through December 31, 1956.

This extension of the Emergency Feed Grain program now coincides with the assistance available under the Roughage Program for Texas and enables county FHA committees to consider total feed requirements, both roughage and grain, through December 31, 1956.

GATE-CLOSERS

Dear Friends

A farmer friend of ours paid Humble's field men a fine compliment recently.

He said, "There's one thing about you Humble people, you close gates."

Well, of course we do.

All of us at Humble want the good will of the folks with whom we do business. And among those folks, the farmers and ranchers who lease their land to us for exploration and production are right at the top of the list.

In fact, you farmers are partners with us in the development of a vital natural resource. If our efforts are successful then everyone involved benefits.

Keeping the gates closed and the fences mended—things like that are the least we can do.

We know. A lot of us grew up on farms and ranches.

Texans Find Ike Stands For Same Things We Do

A fellow was in our town the other day selling men's suits. He was from St. Louis, and he said he was a manufacturer's representative. Grandpa would have called him a dry goods drummer, and Papa would have referred to him as a traveling salesman. This shows you how things change with time. But actually that fellow from St. Louis was doing just about what the earlier visitors did—trying to sell suits.

You might say that he stayed in the same place but the names went off and left him. Reminded me some of the political situation in Texas.

I was reading a letter in the daily newspaper last week, from a man who said he was going to vote for Eisenhower. "I am a Democrat," he wrote to the editor of the paper, "but I feel like the party has run off and left me."

Come to think of it, a lot of conservative-type Texas Democrats are in that shape today. They haven't changed their views much on such things as local control, government spending, bureaucratic red tape, and freedom of the individual; they still travel down the same road they did 20 or 30 years ago, even if they do it at 70 miles an hour instead of 25.

They grew up believing that a man could live down nearly any-

thing except voting for a Republican. They always voted 'er straight, until a good many of them jumped over the traces in '52 and went for Ike.

"I can't figure out what's happened," one of them told me. "Seems like Eisenhower talks like a Democrat and Stevenson talks like a college professor."

The other day this same fellow said: "I think I've got it figured out. Ike stands for the things as Texas Democrats have always stood for. Adlai is too thick with Walter Reuther and that crowd to suit me. I'm going for Ike again."

That's the way with most folks in our town. They decided to give Ike a try at it in '52, and they like the way he has gone about the job. There are some things they wished he'd done a little different, but by and large they think he has made us a fine President. At least all the hometown boys are back from Korea, and as far as we can tell the government is being run honestly.

Somebody asked that Missouri suit salesman how Mr. Truman was getting along, and he said he didn't know. "He isn't in the clothing business any more," he explained. "In fact, as far as I can tell, he is clear out of all kinds of business."

Yours Truly,
Tex

LET'S MEASURE AN OIL WELL

... in West Texas

You can measure an oil well by its depth, by its production, or in any of a number of ways. But the real "measure" of an oil well is to be found in the jobs it creates, in the schools and highways it provides, in the stores, shops and industries it supports... in short, the real measure of an oil well is in the benefits it brings to all the people of an area. The West Texas Utilities Company, too, can be measured in the record it has made in helping the West Texas Oil Industry serve the people of West Texas.

West Texas Utilities Company

Congratulations to the OIL INDUSTRY on its service to the people.

County Attorney Speaks to Study Club On Voting Privileges

"Make a date with yourself to vote every election day and keep it," admonished County Attorney Tom Bullington as he spoke to members of the 1946 Study Club Tuesday at The Woman's Club.

The privilege of voting as Americans do is not shared by many peoples of the world, yet only 62 percent of the eligible American voters took advantage of this privilege in the last presidential election, Mr. Bullington said.

He suggested a check list concerning voting responsibilities. On the list was payment of poll taxes, knowing the issues, knowing all one could about a candidate's character, deciding for oneself how to vote and then exercising that privilege.

The speaker emphasized the value of each individual vote and cited many times in history where candidates were elected, issues decided and momentous decisions made with only one vote difference in the final count of ballots.

Mrs. Clyde Williams was leader for the program and introduced the speaker. She asked each club member to remind at least to people outside her family to

vote on Nov. 6, and members agreed to use their roll telephone system for this reminder. The slogan, "Vote, You Lucky Americans," was emphasized during the program.

Mrs. Ralph Barbee was hostess for the meeting, and coffee was served preceding the program. During the business meeting directed by Mrs. Sam E. Clonts, president, the club voted to buy dolls and make wardrobes for them for sale during Christmas.

The club voted to promote improved sanitation practices in certain parts of the city.

Following a report on the progress of the community youth center committee given by Mrs. Neil Perdue, the club chose this project as its entry in the Sears Roebuck contest.

Pamphlets containing information about Texas motor vehicle laws were distributed.

The next meeting of the club will be the Community Affairs program Nov. 6 with Mrs. Bruce Campbell Jr. as hostess and Mrs. Paul Hoge as leader. A film on "Your Community" will be shown.

Mr. and Mrs. Robert Gaines of Dallas visited their parents, Mr. and Mrs. J. R. Hitchcock of Knox City and Mr. and Mrs. J. R. Gaines of Munday, during the week end.

STREAMS in Desert Places

By Ozelle Stephens

"Blessed are the meek, for they shall inherit the earth." There is still a deeper meaning in these words of Jesus than man has ever experienced. In one of Paul's experiences he declared, "O, the depth of the riches of the wisdom and knowledge of God; how unsearchable are his judgments, and his ways past finding out."

There are continual Streams of His great power flowing into the minds and lives of the open hearted toward God and truth. When man with his creative power cooperates with the Divine he will be led into higher heights and deeper depths of the riches both of the wisdom and knowledge of God. In meekness he will find life and begin to inherit the earth. There is a yieldness in meekness that causes man to abandon self and find his life in Christ Jesus. The calm life, full of love, joy, peace and contentment.

AMENDMENT FOUR SEND-OFF MEETING HELD

Supt. Robert R. King of Haskell was chosen by Haskell County teachers recently to spearhead the drive to get favorable votes for Amendment Four in the general election Nov. 6. The action took place at a board meeting of the Haskell County unit of the Texas State Teachers Association.

David Garlington, principal of Rule High School, was endorsed by the group as vice-president of the unit. This action was necessary since the resignation of Russell E. Adams, Rule elementary principal, elevating Elvin Mathis of Mattson to the office of president.

King was chairman of the legislative committee last year and helped in laying the ground work for the increased teacher retirement benefits which Amendment 4 contains. Windshield stickers, bumper signs, PTA programs, sponsorship of television programs, newspaper advertisements and distribution of pamphlets are means which King will use to ask for approval of the amendment.

Mrs. Pat O. Riley and daughter, Kathleen, returned to their home in Sherman Monday after a week end visit with her parents, Mr. and Mrs. Frank McAuley Sr. The Rileys recently moved from Wichita Falls to Sherman where is sports editor of the Sherman Democrat.

What put the magic
in the new kind
of FORD?

The new Ford Fairlane 500 (118-inch wheelbase). Longer, lower, larger than many medium-priced cars, yet lower in price than most of them!

The roof got lower. And it's designed to let you make the easy entries and graceful exits you've always known.

The body got quieter. It's the strongest body built for a low-priced car. No car in Ford's field has such generous sound-proofing.

The room got bigger. There's head room to spare for a tycoon-type hat. There's real stretch-out leg room, too.

The lines got sweeter. They have the touch of Tomorrow. Each graceful contour says, "Let's go!"

The style got smarter. With this new look Ford you have a car that belongs anywhere! All Fairlane models look like hardtops.

The value got greater... the price is still Ford-low.

*A Special 270-hp Thunderbird 318 Super V-8 engine available at extra cost. Also, an extra-high-performance Thunderbird 318 Super V-8 engine delivering up to 352 hp.

SEE IT FOR YOURSELF!

So now you know the magic of the '57 FORD!
