## Streams In Desert Places

Ozelle Stephens

True and successful prayer unto the Heavenly Father must be reverent, and know that He is authority, love, and holiness. We must see Him as did Isaiah when he walked into the Church. He heard the Seraphims singing, "Holy, holy, holy" is the Lord of host. It was then he saw the spotless purity of God and was convinced and convicted of his own unrighteousness to the point he cried out, "Woe is me; for I am a man of unclean lips" and he fell before God in repentance and consecration (Isa. 6:5). This is the only kind of prayer God honors with His Holy presence and victory through the blood of His Son Jesus Christ.

## Soil Conservation News ---

Paul Matus of Rt. 1, Goree, Texas entered into a great Plains Conservation Program contract in September of 1965, which called for the construction of a waterway and parallel terraces to help control the loss of soil through water erosion on his farm, reports Wesley Robbins, technician with the Soil Conservation Service.

Matus cooperating with the Wichita-Brazos soil and water conservation district was assisted by Robbins in developing a Basic Conservation Plan for his farm that would better enable him to control the loss of soil through wind and water erosion plus keep the water on the land.

This plan called for the construction of parallel terraces to intercept excess run off water and the construction of a waterway to dispose of it at a safe speed in safe disposal area. This plan also called for high residue crops of small grain and grain sorghums to be planted in rotation with cotton and guaranteed the residuals to be managed on or near the surface of the soil to help in the control of wind erosion.

The waterway was constructed in September of 1965 and seeded to western wheatgrass a month later. He left 35 acres of diverted land out at the top of his field so it could be terraced when the waterway was established. Matus has just completed the construction of 5 terraces (6493) and the plan calls for the remainder of the field to be terraced this winter after his cotton is harvested.

Any time is a good time to start planning a parallel terrace for your farm. Cost-share assistance is available through the Great Plains Conservation

# Are there really any sound reasons for buying a Chevrolet in August?

During August, it's as easy to own a Bel Air 4-Door Sedan as getting in the car.

Wait till you see how sporty you look sitting in your Impala Super Sport.

## In a word: Six

1. Have you ever known the instant delight of selecting a new Impala Super Sport in the color you want, slipping into its Strato-bucket seats, and driving it home from the showroom the same day? Now's your chance. Your Chevrolet dealer has a big choice of models on hand with small August price tags.
2. More than likely, your present car will never be worth as much in trade as it is right now. Money—another good reason to buy a Chevrolet this month.
3. Read those articles about when to buy a new car and they'll tell you that August is one of the best months. And your Chevrolet dealer is ready to show you why... with buys that are better than ever.
4. If you think winter's tough on an old car, believe us, so is summer. There's added strain on the engine because of vacation driving. Greater tire wear. The cooling system has to work extra hard. A new Chevrolet can save you a lot of trouble.
5. You do a lot of driving for pleasure so why not ride on Chevrolet's Full Coil suspension. Let your feet feel that deep-twist Chevrolet carpeting. August is to enjoy.
6. Make your summer driving safer driving by taking advantage of the eight standard safety features built into every new Chevrolet. If your present car doesn't have seat belts, back-up lights, outside rearview mirror, padded instrument panel, look into a new Chevrolet.
