

Applications for Permits To Erect Dwellings Being Made By Homeseekers

Applications for construction of privately owned dwellings in Knoxville City are now being made to the government housing agencies following the announcement here today that proper priorities have been issued and the problem of building materials and construction difficulties moved out of the "can't be done" category.

A committee composed of Sam Reed, Bruce Campbell and Mayor Roy Baker, had a conference last Thursday in Fort Worth with the district director of the Federal Housing Authority, and were assured that private applications for building badly needed homes here would be processed through his office in a short time. This meant within two or three days and not weeks or months.

It was revealed during the conference that application could be made by anyone interested in erecting a dwelling, the only requirements being a rough sketch of the proposed floor plan and building site, and an estimate of what the building would cost. Contrary to much public opinion, red tape is by-passed and all applications are processed in the Fort Worth office.

Floor plans are optional with the individual, and several types of construction may be used, contingent upon the availability of material at the time of construction. Very few restrictions are imposed upon the builder.

Price limits and ranges enter the picture only as determined by the size home wanted by the individual. In other words, if Joe wants a \$3500 house and Bill wants a \$5000 house and John wants a \$12000 job, that is what he applies for and that is what he can build.

Tuesday, the same committee with the addition of a few more interested parties, met with the district manager of a large lumber company and thrashed out other angles of the problem. This committee, after three hours discussion, recessed with the understanding that material and actual construction work, while not a bed of roses, was far from the bugaboo that has been feared.

Material can be obtained and there are people who will build the houses. It all boils down to this:

First, you must have the building site established, whether you own it or have complete possession of it. Figure out what you want and about how much you want to spend for a home. Get a blank application from Roy Baker or Joe Reeder and fill it out, or get them to help you with it. Send it in and you will get your priority back within a few days. You can build it yourself, have it contracted, any way you want to handle it. You can have the material wherever you can find it. Of course, there will be some restrictions on what kind and grade of materials you can have, but you can get the essentials to build a good home, not a "wartime" makeshift affair.

It must be borne in mind that building sites must be adjacent to existing utility connections, if such connections are desired.

Already two applications have been made on the above plan. Needless to say, with three or four priorities in the bag here, a contractor can build that many houses cheaper than any one. Local lumber yards will make an effort to get more materials on hand and workmen can go from one job to another without losing time. A staggered plan of construction can be worked out and money can be saved by those concerned. Or, if you are the "lone wolf" type, you can do it alone.

While homeseekers may find help in the above plans, what about the renters, people who are necessarily on the move but always a big problem in Knoxville City? It will be up to people who can afford to build rent houses as an investment at this time. If you own a lot of two and have considered building a rent house as an investment, you can make application and get a priority for this very thing. That is a crying need in our fair city right now. Thousands of dollars worth of trade are slipping through our fingers because we don't have places for transients, or renters,

to live. Many are driving a hundred miles back and forth to work in the oil field because of this condition. We could have the buying power of some good payrolls if we had anything to offer. We need rent houses as badly as homes, and it is up to those that can, to get the job done.

There are several people in Knoxville City who have recently expressed the desire to build a rent house or two. Now is the time to do it, and help get the ball rolling.

Those that want to build homes for themselves can start right now. Putting it off until "after the war" may have its advantages but cheaper labor and materials are a long ways off. We have the government's word for that.

Club Council To Have Guest Day

The Knoxville County Council is sponsoring a Guest Day at council Friday, Aug. 3, 1945, at 3:00 p. m. in the assembly room of the Benjamin courthouse.

Mrs. Elmo Todd of Truscott will be the speaker for the evening. She will give a book review. She plans to review the book entitled "Party Line." This is a very interesting and entertaining book about the typical farm woman.

Mrs. Todd is well known over the northern part of the county for her book reviews. She has a very pleasing voice and reviews a book in such an interesting manner. You will really enjoy hearing her give the review.

The public is cordially invited to attend this book review. We especially urge that all the club members attend this meeting. Come and bring someone with you.

Civilian Tire Quota Set for August

August quotas of 2,500,000 passenger car tires and 386,802 small truck tires for civilian motorists, exactly the same as for July, and a reduced quota of large truck tires were announced by WPE and OPA.

The quota of truck tires are \$25 and larger was cut from 234,308 in July to 200,000 for August.

Mr. and Mrs. S. N. Reed left Wednesday on a business trip to the Rio Grande valley.

Draft Board Makes Reclassifications

The following registrants were reclassified by the Knoxville County Local Board at their regular meeting, July 31, 1945:

- 1-A—Henry C. Bowman, Encarnacion Valladares.
- 1-A(B)—Vernon O. Benson.
- 1-C(Ind)—Ollie Cheek.
- 1-C(Disc)—Geo. Pippin, H. D. Lewis, Edward Morris, Eugene L. Thompson, Litt Lemley, Thomas Russell, Floyd A. Nunley, Cecil Dowd, Robert A. Guffey, Edgar Reeves, Joseph Burch, Joseph F. Lane, Ted Clary, Jr.
- 2-C(F)—J. B. Tomlinson, Howard Stacey.
- 4-P—Alvin Wiggins, Skipper Brown, Feliciano Samaro, Elvin Mincey.
- 4-A—Camilo Ramirez, A. D. Nelma, Haynes Blackburn.

T-5 K. R. Thomas is here on a 30-day furlough with his wife and young son. They plan to visit his parents at Waco next week. He will report to Fort Sam Houston for further assignment.

Wheat Goal Set for '46

A Texas wheat goal of 5,200,000 acres seeded for harvest in 1946 has been announced by B. B. Vance. This provides for continued full production in line with the 1945 seeded acreage of 5,028,000 acres.

The goal represents Texas' part of estimated requirements during 1946-47 for food, industrial and other non-food uses, export, and reserves.

Although a record national wheat crop of 1,985 million bushels is indicated for this year, the carry-over July 1, 1946, is not expected to be excessive because of heavy requirements for wheat during the months ahead, particularly for relief feeding. Estimated requirements for wheat may be somewhat smaller by the time the 1946 wheat crop moves to market, but are expected to equal production at average yields from an acreage as large as this year's.

The Texas goal for rye to be harvested for grain in 1946 is recommended at 25,000 acres. This compares with an indicated harvest of 26,000 acres in 1945. Farmers are asked to plant as much acreage to rye to be harvested for grain as is consistent with needs for other crops.

Imogene Martindale Irvin Paul Wed In Saturday Rites

Miss Imogene Martindale became the bride of Pfc. Irvin Paul at 10:00 a. m., Saturday, July 28, 1945. Rev. Lloyd Hamilton performed the ceremony at the Methodist parsonage.

The couple plan to make their home here for the present until Pfc. Paul receives his reassignment at Fort Sam Houston on August 11th.

Mrs. Paul is the daughter of Mr. and Mrs. E. H. Martindale of Rochester and graduated from high school there in 1943. For the past year she has been employed at the Soil Conservation office in Knoxville City, and will continue her duties there.

Irvin is the son of Mr. and Mrs. W. H. Paul. He attended school in Knoxville City and entered military service in July, 1942. After training at Camp Adair, Oregon, he was sent to Fort Ord, Calif., and then shipped overseas in May, 1943. Irvin was wounded in action February 6, 1945, on Luzon and returned to the States in May of this year.

The best wishes of a host of friends are extended to the young couple.

Club Calf Feeders Will Inspect Own Members' Methods

The sixteen 4-H Club boys and two 4-H Club girls who are feeding baby beef calves will make a tour Friday, August 3, at which time they will visit each other, and observe the methods of management and feeding practices by those who have the best calves.

At each stop the boys and girls will be given a score card on which they will score each other as to their ability to handle his or her calf, fleshiness and covering of calf, general appearance, condition of hair, cleanliness of stall, arrangement of hay racks, feeders, water and salt. A similar tour to this one was made last year, including the club member's fathers and breeders interested in the work. The tour proved well worth while, and each member gained valuable information. It is hoped that the same good will and educational features of the trip will be gained this year.

The tour will start at Benjamin, August 3, at 1:30 p. m., and anyone interested in making the tour is invited.

The boys and girls names, and the order in which they will be visited are as follows: J. G. Pults, Bryson Laird, Olen Ray, Fred Lewis and Buddy Crenshaw, Benjamin.

Jerrel Trainham, Nadyne Allen, Donald Joe Jackson, Jerry and Jeanette Beck, Leroy and C. A. Davis, Vera.

Kenneth Baker, Munday; Pat Hill, Sunset, John Ed Smith, Knoxville City, Edwin Howeth, Jamison Ranch, Carroll Fred Glover, Benjamin.

REV. JOHN STOUT SPEAKER AT LIONS LUNCHEON

Knox City Lions today heard Rev. John Stout in a short address at the weekly luncheon.

Rev. Stout was recently made a member of the club. His remarks were forceful and of an inspirational nature.

Jeff Graham was a guest of his father, L. W. Graham, at the luncheon.

Roy Baker and C. H. Moss reported progress up to date on plans for new houses for Knoxville City, most of which information can be found elsewhere in this paper.

WHERE YOUR WAR BOND MONEY GOES

It costs about \$500 to fly a wounded man from Okinawa to Pearl Harbor and another \$200 to fly him the additional 2,100 miles to San Francisco, the Navy Department informs.

Mr. and Mrs. Loyd Huntsman and Kay have been in Dallas on business for the past week.

Ceiling Price Set For Meat Grading

A ceiling price has been established for the grading of beef, veal, lamb or mutton by commercial freezer or locker plants for farm slaughterers. OPA announced, the ceiling, effective on July 30th, is 12½ cents per hundred pounds of meat graded, computed to the next highest multiple of five cents.

For example, a farm slaughterer requests a locker plant to grade a 150 pound cut of meat. The ceiling price for grading this meat would actually figure out at 18½ cents. Adjusted to the next highest five cent multiple, however, the final ceiling price would be 20 cents on this particular operation.

Goree Sailor Gets New Assignment

Dennis Melvin Ford, 24, Pharmacist's Mate, 3c, USNR, of Goree, Texas, is at Newport, R. I., preparing for duty aboard a new repair ship, the USS Hopper Island.

Ford entered the Navy in September, 1943, and reported to Newport for assignment to the Fleet after five months of duty at the U. S. Naval Hospital, Corpus Christi, Texas.

He is married to the former Paula Moore of Goree, and they have a child, Paula Jean, 19 months. He is the son of Mr. and Mrs. Alonzo Ford.

A 1940 graduate of Goree High School, Ford was employed at the packing house of Swift & Co., Fort Worth, before his enlistment. A brother, Virgil, is a sergeant in the Army.

PEE. DARREL SEXTON WINS BRONZE STAR

Pfc. Darrel G. Sexton has been awarded the Bronze Star Medal by the Commanding General of the 6th Infantry Division for heroism in action against the Japanese at San Jose, Luzon. On February 25th, Sexton was one of a group that reconnoitered, seized and secured a position that was used the following morning as a take off point for an attack.

He is a member of a front line company in the 1st Regiment of the 6th Infantry Division. Darrel was awarded the Purple Heart recently for wounds received in action.

He lived at O'Brien with his sister, Mrs. M. W. Reeves, for a time prior to entering service.

A. C. Sharp and family of Spur spent the weekend with Mrs. Sharp's parents, Mr. and Mrs. J. J. Denton. While here they canned some nice Elberta peaches raised by M. F. Whitten.

Baptists To Start Revival August 8th

The revival services for the First Baptist Church will begin next Wednesday evening, August 8th, and continue through August 19th.

The pastor, John H. Stout, will do the preaching for the meetings.

Morning services will begin at 10:00 o'clock and will close 11:00, promptly. This should be the most convenient time for the most of us.

The evening services will begin at 8:15 o'clock with the Junior choir and the prayer groups. There will be a prayer group for every age for thirty minutes preceding the evening worship service, which begins at 8:45 each evening.

There is a great need for a return to spiritual worship and for a revival of religion in all the land. We would like to extend to all a sincere welcome to all these meetings.

Proper Feeding Is Secret In Gainful Pork Production

A very important requirement in the production of pork is that of feeding protein supplement. In order that pork production may be made profitable and economical, pigs must receive a balanced ration, according to R. O. Dunkle, County Agent.

Since pigs grow rapidly they need an abundant supply of protein in their rations to furnish the building material for the rapidly developing muscular tissue and the internal organs, as well. Furthermore, the supply of protein must not only be ample in amount, but also the proteins must be of the right quality.

This last requirement is of much greater importance in the feeding of pigs than with cattle, horses or sheep. This is because swine are commonly fed chiefly on grain sorghums and the protein of all grains are unbalanced in composition, being low in certain of the necessary proteins and acids. Many of our common protein rich pig feeds do not balance the protein of grains sufficiently.

For example, grain with only wheat shorts makes a very unsatisfactory ration for pigs not on pasture. This is probably due primarily to the unbalanced nature of the proteins such rations furnish. These supplements are also low in calcium. On the other hand, skim milk, tankage and fish meal, all of which are animal products, supplement the grain sorghums in a most efficient manner.

Very satisfactory protein supplement for pigs being fed on grain sorghums is a mixture of two parts tankage, two parts of cottonseed meal, and one part alfalfa meal. This protein should be fed free choice in a self feeder. Pigs fed this protein supplement make an average gain of three to four times as fast as pigs not receiving the protein supplement, and at one-third the cost per pound of gain as compared with pigs not receiving it.

A very important requirement for growing pigs is that of furnishing proper mineral requirements consisting of two pounds of limestone flour, two pounds bone meal and one pound of salt. Two pounds of this mineral mixture can be mixed with every 100 pounds of feed or fed in a separate mineral box where pigs have access to it at all times.

L. W. Graham Family Well Represented in All Branches of Nation's Fighting Forces

Mr. and Mrs. L. W. Graham of Knoxville City can say theirs is a "uniform" family. With four sons and two sons-in-law in the armed services of the nation, Mr. and Mrs. Graham have more than contributed their share of manpower to the war.

The Graham brothers, ranging in age from Jeff, 27, the eldest, to Maurice Dale, 20, the youngest, are evenly represented in the Air Corps and the Navy. Two of them, Maurice Dale and Clyde, have been in action against the enemy, while Jeff and Doyle are yet to be assigned to the fighting zones.

T-Sgt. Doyle J. Graham was

Doyle J. Graham

Clyde W. Graham

the first to enter the service, enlisting in the Air Corps in November of 1940. He trained at Randolph Field, Texas, and Boise, Idaho. He is presently stationed at Clovis, New Mexico, an Air Corps base for B-29 bombers. His wife and small son and daughter also reside there. Doyle is 23 years old.

Next in point of service is L. L. Clyde W. Graham, a pilot in the Army Air Corps. Clyde entered service in January, 1943. He trained at various bases in the United States and at the present time is stationed at Bayreuth, Germany. Clyde saw considerable action as

a fighter pilot in the last stages of the battle against the Germans when strafing and low-level flying for bombing proved so effective in disrupting the enemy.

Clyde is 25 years old, and a graduate of A & M College. He is not married.

Representing the Grahams in the Navy, is Jeff and Maurice Dale. Jeff, MAM3C, enlisted in April, 1942. He is the oldest of the brothers, being 27. After boot camp, Jeff was assigned to Navy mail service and has been in that department at a west coast base since. In civilian life, he was employed at the local postoffice and his experience in handling mail was utilized by the Navy.

Mrs. Jeff Graham and son and daughter live in Knoxville City. Jeff is presently home on a short leave prior to future reassignment.

Maurice Dale, age 20, enlisted in the Navy in May, 1943. Since finishing boot camp training he has been aboard ship in the Pacific war theater. He is presently aboard the S. S. Abram S. Hewitt, as Radioman Third Class.

Husbands of both daughters of Mr. and Mrs. Graham are in the service. Capt. Bedford Smith, husband of the former Elsie Graham, is a Chaplain in the Army. He volunteered for service December 3, 1941, one day after the Pearl Harbor attack. At the time of his enlistment he was pastor of the First Christian Church of Sweetwater. He has been in the

Jeff T. Graham

Pacific area since offensive action started against the Japs, spending most of his time in the front line evacuation stations. Chaplain Smith has had as his assistant throughout the Pacific campaign, Lew Ayres, former star of the movies.

Chaplain Smith was in the Leyte campaign and is presently stationed on Luzon.

Mrs. Smith, their daughter and son, have made their home here since Capt. Smith shipped overseas.

L. L. Jack Wilson, husband of Mary Lou Graham, is now in the Navy, stationed on one of the Philippine Islands. Jack is a med-

ical officer, and had been in the Coast Guard at Seaside, Oregon, before transferring to foreign duty. Mrs. Wilson, their son and daughter, live in Knoxville City.

Getting back to the home town, Mr. and Mrs. Graham have their hands full operating a dairy near Knoxville City, keeping up with correspondence with the wandering members of the family, and doing a good job of helping in the war effort at home. Both are always available for any chore in connection with local war work. They have postponed for the duration, at least, that vacation from work that is now long overdue.

HOLLABAUGHS VISIT HERE
 Mr. and Mrs. J. A. Hollabaugh, Mr. and Mrs. Marshal Hollabaugh and son, Warren, all of El Centro, Calif., and Mrs. Hollabaugh's sister, Mrs. Diveda Whittington, of Phoenix, Ariz., spent the week end here with Mr. Hollabaugh's father, his sisters, Mrs. J. H. McGee and Mrs. Salem Hutchinson. They left Monday for East Texas to visit their children, two of their boys having just returned from overseas duty.

Drying Peaches Is Popular Method To Preserve Fruit

Finding ways of conserving the large peach crop this year, with sugar shortages offering an acute problem, suggests the idea that peaches can be dried successfully at home. More important still, it takes no sugar to dry peaches, says Lucile King, County Demonstration Agent.

The method of preparation of the fruit is similar to that for canning. The peaches may be dried without peeling, or if desired, peeled peaches dry more quickly and make a good product.

Treat with sulphur to keep cool and food value. One method is to dissolve 3½ tablespoons of potassium metabisulfite or sodium sulfite in one gallon water, drop peaches as they are peeled or cut, into this solution for 15 minutes, drain, and arrange on tray for drying. The other method is to burn flowers of sulphur under the fruit. Use one teaspoon sulphur for each pound prepared fruit. Put the sulphur in a small piece of paper, roll it loosely and twist the ends. Arrange a place out-of-doors. Place fruit in a tray and put the roll of sulphur in a pan about 12 or 15 inches under the trays. Start burning the roll of paper containing the sulphur. After it has started burning, put a box or barrel down over the trays, and pull some loose dirt up around the edge of the box to hold the fumes. For peeled peaches, sulphur for 20 minutes, and for unpeeled peaches, leave under the tight box with the sulphur fumes about three hours.

Complete the drying process either by sun drying or by controlled heat in an electric drier or stove. If sun drying method is used, arrange fruit on slatted wire trays covered with cheesecloth, cover peaches with a layer of cheesecloth or a regular screen dryer. Place where air can circulate around fruit.

When the fruit is dry the peaches are pliable and leathery, and not sticky. They have a springy feel. Heat to 150 degrees in an oven from 15 to 30 minutes, place in hot, dry jars or cans and seal immediately, then store in a cool dry place.

Gems of Thought
 WORLD PEACE

The next great task of humanity is not deliverance by the sword, but deliverance from the sword.—David Lloyd George.

Our whole social life is in essence but a long, slow, striving for the victory of justice over force.—John Galworthy.

War will never yield but to the principles of universal justice and love, and these have no sure root but in the religion of Jesus Christ.—William, E. Channing.

The peace of Love is published, and the sword of the Spirit is drawn: nor will it be sheathed till Truth shall reign triumphant over all the earth.—Mary Baker Eddy.

No matter what we have undergone and suffered, we must try to forgive those who injured us and remember only the lesson gained thereby.—Madame Chiang Kai-Shek.

Veteran's Benefits

QUESTIONS AND ANSWERS

L. H. Shelton, Contact Representative, Veterans Administration, 306-7 Federal Building, Wichita Falls, Texas

Q. May pension payments accruing to a veteran at the time of his death be awarded to his dependents?

A. Yes, any pension accruing to the veteran at the time of his death is payable to the widow, children or dependent parents, in the order named.

Q. Is information in a claim file of a veteran available to the public?

A. All files, records, reports and other papers and documents pertaining to any claim are confidential and no disclosure thereof can be made except to the claimant or duly authorized representative. These records are available when required by the process of a U. S. Court or by an agency of the U. S. Government or in any inquiry into the mental competency of the claimant or in any judicial proceeding where such disclosure is deemed necessary and proper.

Q. What information should be contained in an affidavit prepared as evidence in a claim for benefits administered by the Veterans Administration?

A. If the affiant is a layman he should set forth in chronological order specific facts within his knowledge. General statements and hearsay are of no value. All affidavits from physicians should state whether the evidence is furnished from office records or memory. Such affidavits should specifically show the symptoms and findings rather than merely a diagnosis since the former are facts and the diagnosis is an opinion.

Q. May emergency retirement pay and government salary be paid concurrently to a retired officer?

A. Emergency officers retirement pay and government salary may be paid concurrently if the disability for which retirement pay was granted was incurred in combat with an enemy of the United States or resulted from the explosion of an instrumentality of war, provided that otherwise the combined amounts may not exceed \$3,000.00 per annum.

Q. What identification data should be given in writing about claims for benefits administered by the Veterans Administration?

A. The initial application or communication should state the

full name of the veteran upon whose service the claim is based, grade and organization, serial number, date of entrance into service, date of discharge, date and place of birth. After claim is filed it will be assigned a number which should be mentioned in all subsequent correspondence.

Q. What are the rates of pension payable to World War II veterans for service connected disabilities and the requirements relative to such pensions?

A. Pension may be paid for disability incurred in or aggravated by active service in World War II, line of duty, according to the degree of disability shown. The Veterans Regulations as amended, are applicable. The rates range from \$11.50 a month for a disability of a degree of 10 percent to \$115.00 per month for total disability, which includes a 15 percent increase granted by Public Law 312, 78th Congress. Where certain combinations of disability exist, the amount payable if the disability is the result of the veterans' own willful misconduct. A discharge or release from active service under conditions other than dishonorable is a prerequisite to entitlement.

New Type Insect Repellent Will Be Available Soon

The insect repellent, known to thousands of GI's in the Pacific, Africa, and Italy, as "Formula 6-12" will shortly be available in limited quantities for farmers, sportsmen and others to use in insect-infested areas for the remainder of the season.

Insect Repellent 6-12 was originally developed to protect soldiers from the malaria mosquito. Medical officers give this material much credit for its assistance in the control of malaria and insect-borne diseases that plagued our fighting men in advanced areas in the jungle-covered tropics. It will prove equally valuable to farmers and sportsmen because it repels black flies, gnats, fleas, and chiggers, as well as nuisance mosquitoes.

This repellent is used by applying a few drops in a thin layer either to all exposed areas of the skin or to the clothing where insects are biting through. It does not affect clothing and does not injure the skin. Each application furnishes complete protection for several hours.

Tests on 6-12 by government agencies show that the actual

protection time against insects varies with individuals and with conditions. More frequent application is usually required if the user is active and perspiring freely. An active, perspiring user obtains from 2 to 4 hours protection against mosquitoes, and an inactive user may obtain up to 6 hours protection. As a result, this new repellent is rated as 6 to 7 times more effective than 100 percent citronella and it has a much more pleasing odor, somewhat like witch hazel.

Sales of surplus primary training planes have totaled more than \$14,000,000 since the beginning of the surplus disposal program last year. The largest sale was 108 planes to a Chilean operator. The Chilean government was second with a buy of 29 trainees.

Dependents May Be Entitled To Security Benefits

On Friday of last week, R. L. Surles, manager of the Wichita Falls office of the Social Security Board, visited the Herald office and furnished us with considerable information in regard to the old-age and survivors insurance program. We are glad to give our readers the benefit of this information.

Wage earners in this county who have become 65 years of age, especially those who are not now working, should call on or write to the Social Security Board in Wichita Falls, in regard to filing claim for monthly benefits—delay might mean the loss of payments.

Widows or children, or dependent parents who are over 65 years of age, of insured deceased wage earners may be entitled to payments. Such relatives should call on or write the Social Security Board in regard to filing claim for payments for a long delay may mean the loss of benefits.

In cases where there is no surviving relative entitled to monthly payments, a lump-sum payment may be due certain relatives or others provided they file their claims within two years from the date of the death of the wage earner.

Mr. Surles says that he will be glad to answer any correspondence and assist all claimants in preparing their claims. This service is free.

The Social Security Board field office is located in Rooms 412-417 of the Postoffice Building in Wichita Falls.

Locals

Jeff Graham, MAMSC, arrived Sunday for a week's leave with his wife and children, and parents, Mr. and Mrs. L. W. Graham.

Mr. and Mrs. W. H. Dilliland of Plainview were here this past weekend visiting friends. Mr. Dilliland lived here about 18 years ago.

Mrs. Irene Branch of Amarillo spent the weekend here with her parents, Mr. and Mrs. Frank McAuley.

Pvt. Cecil Anderson of Camp Hood spent Wednesday here with his family before being transferred to Camp Robinson at Little Rock, Ark.

Mr. and Mrs. W. E. Seay and son of Norman, Oklahoma, will arrive Saturday for a two weeks vacation with her parents, Mr. and Mrs. William Griffith.

Mrs. Mondell Mills and Mrs. Grant Woodridge left Tuesday night to buy fall merchandise for the shop.

Mrs. C. H. Moss and Jane spent Sunday and Monday in Wichita Falls with Mr. and Mrs. C. A. O'Ferrall and Pat.

Mr. and Mrs. J. R. Bradberry, Mrs. Opal Coates, Mrs. Cecil Coates, and Milton Bradberry attended the funeral of Mrs. Bradberry's brother-in-law, Monroe Earnest, in Paducah Monday.

Tedd Hobbs, SC(B)2C, has returned to his base after a short leave here with his wife and children.

Mrs. E. C. Ferguson and Mrs. Grover White of Stephenville left Tuesday to return home after visiting Mrs. W. L. White and other relatives.

Mrs. Lincoln Bolin and children and Mrs. Fox of Abilene were here Tuesday visiting Mrs. Estelle Bolin and Zena.

Sgt. Thomas M. Bivins of Kirtland Field, Albuquerque, has recently been promoted to Staff Sergeant. He has served in the Army Air Forces since June 17, 1942, and is the son of Mr. and Mrs. A. F. Bivins of W. Minn.

Mr. and Mrs. T. P. Firzler, Sr. and Mrs. Roy Baker are visiting relatives in New Mexico this week.

Mrs. Ernest Scott of San Angelo and Mrs. George McKenzie of Seymour spent last week with Mrs. W. F. Evans and Mrs. R. B. Ferris.

Visit our Lending Library. Lots of new and old editions. Ross' News Stand.

Mrs. E. B. Shaver was called to Fort Worth to be with Mrs. A. B. Robertson and Robbie while Major Robertson was in the hospital. He is reported to be improving.

Sammy Angle, CWT, is home on leave from the Navy until about the 23rd of August, with his parents, Mr. and Mrs. Clive Angle. It has been two years since he has visited his parents.

Mr. and Mrs. Henry Jones, Martha Jane and Roma Jan Spikes left Thursday morning on a trip to Ruidoso, New Mex.

Joe King, CWT, is home on leave with his parents, Mr. and Mrs. J. W. King.

Mr. and Mrs. Buck Howell have returned home. Mr. Howell has been working in Kansas during the wheat harvest, and Mrs. Howell visited her sister in Wichita Falls.

Miss DeAlva Hammons has returned from several weeks visit in San Diego and Los Angeles.

Mac Sellers called his wife, Ernestine, that he had landed in Maine and would be home in about a week.

S-Sgt. Arville Coyle wired his wife, Jean Ann, that he was in the States and would be home soon. He is due to be discharged with a total of 101 points after six years service in the Army.

Mrs. Truman White and children, Mrs. Monroe Earnest, and daughter Virginia, and Son, S-Sgt. M. H. Earnest, all of Paducah, visited the J. R. Bradberry's several days this week. Sgt. Earnest was a navigator on a bomber and was shot down over Jugoslavia. He was a prisoner of the Germans for nine months.

Visit our Lending Library. Lots of new and old editions. Ross' News Stand.

Juan Ponce de Leon, the Spanish explorer and discoverer, first made his way to the new world in company with Christopher Columbus, on his second trip.

Foursquare Churches of America To Honor Founder With Memorial College Building in Los Angeles

A Medal for Sister

Today a nationwide campaign starts into full swing with the announcement by Dr. Frank A. Cummings, assistant to the president of Foursquare International, that plans for a memorial college building to be dedicated to Sister Almee Semple McPherson are now complete. The theme of the fund-raising drive will be, "A Medal for Sister."

The proposed college building will house a new and better radio station, class and lecture rooms, dormitories for resident theology students, cafeteria, and improved aid stations for the needy. Dr. Cummings points out that demands on the present facilities of the church are increasing daily.

More than 50,000 members in the United States representing over 450 churches of the Foursquare Gospel will seek pledges of \$1,000,000 between now and Sister McPherson's birthday on October ninth. It is hoped that pledges will exceed the required amount because of the great need for Christian training following in the wake of war.

Property for the new structure has already been purchased adjacent to Angelus Temple. Every dollar contributed to the memorial fund will be devoted to constructing and outfitting the building in keeping with the needs of the school. The institution is now established as the College of L.I.F.E. and is fully accredited in the state of California.

No tuition will be charged in the new school for full ministerial students. Every effort will be made to establish deserving men and women in the ministry. Short term courses or special training will require the usual fees.

Persons who wish to establish a memorial to a loved one or a husband or son lost in the war can subscribe to the fund. A metal plate with the donor's name

and the name of the person remembered will be attached to each unit supported by a donation. Pledge cards may be obtained by writing Angelus Temple, Los Angeles, or your local Foursquare Church.

History of the Local Foursquare Church

The Knox City Foursquare Church truly stands as a memorial to the founder of Foursquareism, Almee Semple McPherson, just as every other church is a memorial to their founders, such as Luther, Wesley, Moody, Calvin, and many others.

This local church is only one of the 450 churches in the United States, and almost 300 mission stations throughout the entire world. The organization is truly one of evangelism with a zeal to win the world for Christ, preaching the full word of God.

Knox City Foursquare Church was organized after a grand revival held by Rev. Mrs. Fred D. Beard at Union Grove sometime in 1904, and many of the charter members still attend, although many have moved away. Looking over the early records of the church we find the names of well known families, and among the charter members the names of these families: Dutton, Woolley, Wembley, Page, Vance, Ward, Hutchinson, Wilcox, Swelson, Henderson, Tankersley, Watkins, Roper, Lightfoot, McWhorter, Seaton, Wade, Jones, Ware, Jenkins, Pack, Griffith, Lindsey, Little, Stephens, Jeffries, and many others. Each one has helped to make the Foursquare Church in Knox City a memorial as they cooperated with the pastors who served here from time to time.

The new Bible College to be built in Los Angeles as memorial to Sister McPherson will be sponsored by every branch church, to prepare men and women for the work in the harvest field of the Lord, as truly the postwar plans of many of the returning servicemen will be to go into the ministry that the world might find the living, compassionate Christ they found in the foxholes. What greater memorial could be built, or what more worthy cause, than to erect this college where men and women might study the word of God, to be able to go out into this war-torn world and bring a message of peace into the Prince of Peace returns?

Rev. and Mrs. Byers and family, the present pastors of the local church, would like to take the opportunity at this time to thank the members, also the business men of the city, and the many friends, for the kindness they have shown them during this first year in Knox City. And we want to be able to serve as your friend and pastor during this next year. God bless you all.

Argentina is experiencing its worst wheat season in many years with production this season almost 40 percent under 1944 fig-

The Family Altar

By Rev. Violet Byers

Co-Pastor Foursquare Church

In the kitchens of many homes today, the mother may be found canning fruit and vegetables, preparing for the time when the winter winds will blow, and for many who have not been able to lay aside in store, the winter will be hard. Looking the lovely luscious ripe fruit one cannot help but wonder what has happened to the FRUIT of the SPIRIT of GOD.

It seems to be fruit that has become sour and wilted, and instead of the Christian preserving the fruit for a time of need, have just partaken of what was needed at the time but have not kept any in store in their souls for the dry seasons, or to help those who need the fruit now.

Just what is this fruit? In Galatians 5:22, "But the fruit of the Spirit is love, joy, peace, long-suffering, gentleness, goodness, faith, meekness, temperance." In the lives of every Christian there should be an abundant supply of this fruit in store. The world today is dying for the fruit of love, and unless this fruit is cultivated carefully, it will die out and the Christian world will become selfish and hard.

The next fruit, joy, is one that is almost forgotten in this time of sorrow, but it is one that every Christian should have. Joy in salvation and the glorious hope of the resurrection with Christ. Peace is a fruit that can only grow in the born-again child of God's heart, as the Prince of Peace reigns within. Long-suffering is a fruit that is truly needed in the world today; let us cultivate patience with our fellow man. Gentleness, one of the sweetest fruits in any home; the grown son or daughter can always remember the gentle words of a mother better than the reprimand. Goodness, how many people today are really good in every respect? I believe it bears cultivating, too.

Faith—another fruit that is desperately needed in this time of heartache. Meekness, this fruit is almost entirely forgotten in the rush for front place in the world. Temperance—to be temperate in all things is necessary; temperate in living, temperate in eating. It is a good fruit to store away in the heart.

Dear friends, let us cultivate a garden in our lives and bear fruit for God because a tree that does not bear fruit shall be destroyed, but let us have an abundance in our lives for those in need. Remember, Jesus is the true fruit and he loves you dearly.

Rev. Violet Byers and the Family Altar.

Men To Get More Twill Work Clothes

A temporary increase in the amount of herringbone twill available for production of men's work clothing will result from the declaration of a "holiday" for about three months in procurement of this type of finished cotton fabric by the Army Quartermaster Corps, WPB has announced.

Though the "holiday" is effective immediately, WPE said, it will be about six weeks before it is reflected in increased quantities of work clothing.

Four times around the world in 60 minutes is the potential speed of rocket-driven planes, flying above the earth's atmosphere, Hal Hubbard told a University of California audience recently.
