SWEET N' SOUR

Swimming classes in Callahan County can be marked "Success' in a great big way. Very nearly two hundred youngsters parti-cipated. Twenty-five of them en-rolled in the Junior and Senior Life Guard classes. The more Life Guard classes. The more children who know water safety and the more competent swimmers you have, the happier the community. The Red Cross does a tremendous job in this field and it's a service we can all be grateful for.

Speaking of swimming, that's just about the only place where you can really beat the heat these summer days and besides the welcome "cooling off," you do meet the nicest folks there. Good to see was Mr. Will Boyd-stun and two of his daughters, his grandchildren and his very lovely great grandchildren -generations of Mr. Will's family and all of them carrying on the Boydstun warmth and friendli-

Mr. and Mrs. Glen Green hosted a 4-H ice cream supper Monday night on the spacious lawn of their home in North lawn of their home in North Baird, and it was one of the nicest get-togethers we've ever seen. The 4-H has a reputation for hospitality and we believe all they claim is true. Mr. Green has ample reason for being so very proud of his youngsters because they are splendid examples of the 4-H idea and they're growing up to be the kind of adults and neighbors this old world needs.

is growing up to be quite a cul-inary artist is one we'll attest to. Of course, the evidence we had to support our case (a deli-cious chocolate cup cake) is gone but we maintain she's a won-derful cook.

Possibly more attention should be given to rest in connectivity with vacations. Too many people returning to work after their two weeks off sigh wearily and say "I'm glad to get back to the office for a rest."

Willis A. Cook, 72, area resident since 1918 and retired stock farmer, died in Ranger General Hospital at 6:45 pm. Thursday. Ark., Dec. 4. 1884, and came to Ranger with his family in 1918. He worked there as a teaming contractor in business with his father for a number of years. The annual vacation in the United States has become an actual necessity for health and well-being. But for maximum benefits it should be restful above all.

Rest the mind, rest the eyes, lest the body, is good advise to the late summer and early fall vacationers.

IT'S THE LAW

PLANNING YOUR WILL

In planning your will, your lawyer will want to know your true wishes; and then, to help you realize them, he will want to

know a few vital facts.

Are you married? Any children or grandchildren? Previously married? Widowed? Your age and those of your beneficiaries? Legal residence? Health? Why these questions?

You'll have to work out your plan in view of the laws governing death taxes, property laws, and, if you are married, separate

and community property.

Age? If you wish to set up trusts in the will, your age and those of your beneficiaries may help you to decide whether, for example, to use capital of the trust fund as well as its income for the beneficiaries.

Your residence? Most important, since state laws govern many items of personal property.

perty

Do you plan to move to an-other state? If so, consult its laws. Many people who come to Texas from other states should see that their wills conform to and take advantage of our laws.

Some people live half the year in Texas and half elsewhere. If you do, take steps to nail down your claim to reside in one stat or another, to avoid needless litigation and possible claims to taxes in both states. Your health? If possible, have

your will drafted while you are in good health and clear minded Contests, though relatively

rare in Texas, still do take plac In some cases, for example where non-relatives inherit, it may be a good idea to give rea-sons for these bequests in your will and to tell why you may have left some relatives out (for instance, where a child has been taken care of by gifts or in

Now You Can Own A Part Of Historic Plymouth

PLYMOUTH. MASS.—Sturdy little Mayflower II has now beat her way out of the doldrums and picked up the Northeast Trade Winds which will soon bring her into this historic port. Here her namesake first dropped anchor 237 years ago. The voyage has captured the imagination of millions all over the world.

Plymouth, a town with a normal population of about 14,000, anticipates a haif million visitors within two weeks of the Mayflower's arrival date, and four million more between now and Thanksgiving Day. More than three thousand vessels, both large and small, are expected to sail out to Provincetownto meet, greet and escort Mayflower II into Gurnet Light, which marks the entrance to Plymouth Harbor.

Fountain of Freedoms...a Free Press

THE history of the press, since its development five centuries ago, has been a history of restraint. It is natural for men in authority to resent the sting of criticism. It is human for them to be ambitious, and to seek to entrench themselves. Hence rulers often avoid criticism and disagreement by stifling it. * * But the courageous men who founded this new nation sought here full freedom for each individual. When they established a constitution, aware of the human frailty even of rulers elected from among them, their First Amendment provided that "Congress shall make no law...abridging the freedom of speech and of the press..." ** With the widespread education and enlightenment that resulted, the people here have advanced farther toward all freedoms than the people of any other nation. The beacon of this Western World, marks for all nations the start of the path to Freedoms! Freedom of Speech and of the Press.
