## Hounds Improved In Jayton Scrimmage

#### **By COACH JIMMY ROGERS**

The Greyhounds had their second scrimmage last Friday night here with Jayton. I believe the Hounds were much improved in all areas of our game. The first varsity won by a score of 2-1, the second varsity tied 0-0, the

junior varsity lost 1-0, and the freshmen tied 0-0. In the scrimmage with the first varsity we had 138 yards passing, hitting nine out of 20, and 83 yards rushing for a

total offense of 221 yards running 40 plays. This week we start for real. We open with the number one team in Class B, Rochester. Rochester has the best team that they've had in about ten years. Most persons I hear

'A new commandment I give unto you, that you love one another; as I have loved you, that you also love one another."

Jesus said, "By this shall all men know that you are my disciples, if you have love one for another." There will be evidence of this love in your life; you will be giving of your means and yourself for your fellowman. You will not be finding fault or criticizing anyone. You will be reaching out to help and comfort the one who has fallen; the one in need. You will be giving of yourself to your fellowman as the Father, God, gave His only Son for you. Greater love hath no man than this. It is high time we were thinking of how far short we as Christians have fallen. I pray that each one will seek His face, ask for forgiveness and be filled with the kind of love He has given unto us. Then we will experience Streams of God's great peace, joy and life

#### TELL YOUR DOCTOR WHAT YOU ARE TAKING

There is a vital need for people to avoid drug interactions. You should always tell your physician about any prescription medicines and over the counter products you are taking.

Examples of drug interactions that might be important are-aspirin and aspirin-like drugs decrease the effectiveness of some anti-gout pills; some nose drops can counteract pills taken to lower blood pressure. Also, barbiturates and alcohol have been known to be a deadly combination.

Since Knox City and O'Brien joined schools together for this year we have football boys on every foot of ground the schools have. Not really, but there are five divisions from the fifth grade through high school. They have a fifth-sixth, seventheighth; freshman; junior varsity; and varsity team, you can have your choice of games you want to go see. The Jr. High will play Rochester at Rochester Friday night at 8:00 p.m. Come out and be a good fan at these games. Remember fans, the way we act will always carry over to our school students, so let's enjoy a good, clean football game.

## Northwest Mediplex **Completes Phase III**

The grand opening of the third and final wing of Northwest Mediplex Nursing and Retirement Center in Austin was held August 22.

Administrator of the Northwest Mediplex, one of the largest nursing care centers in the state is Doyle Graham, a former administrator of the local nursing home.

During the open house, visitors toured the Phase III structure which houses 122 beds for residents.

Phase I and II have been in operation for several months now and with the addition of the third wing, the Mediplex now can care for 360 residents.

The floor plan of the mediplex is unique in that each wing is a free-standing structure resembling a wagon wheel. Its eight corridors radiate from a central "hub" and located at the hub of each wing is the nursing center.

## **Dove Season Opens September 1**

AUSTIN - Based on banding and harvest information. Texas Parks and Wildlife Department officials estimate some 42 million mourning doves will be available in Texas when the North Zone opens, Sept. 1. It's just a matter of being in

the right place at the right time.

Contacts with P&WD wardens, biologists and other field personnel throughout the state indicate generally a good mourning dove outlook as of late August.

Department dove projects leader Jim Dunks said early summer rains forced many Texas farmers to plant grain fields late, which means more grain will be available for birds on opening day.

And dry conditions during late July and August have concentrated birds at re-

maining water holes, which should help late afternoon hunting when the season opens.

Dunks also said the dry weather allows birds to get into grain fields to feed.

West Texas wildlife regional director Jack Parsons at San Angelo said the overall dove picture was good. Many birds are to be found in the eastern part of the region, with fair numbers in the High Plains and Permian Basin.

Wildlife technician John Roberson of Travis County has observed many birds feeding in recently combined milo fields and the situation appears good for opening day. He estimates more birds to be available in the area than in 1975.

Bob Van Cleave, wildlife regional director in Tyler. said the East Texas outlook is

somewhat better than last s ar; however, with no large groups of birds. Van Cleave said Navarro County has a fair number of birds in grain fields which were planted late in the summer.

Brown County game warden, Royis Tucker, said Comanche and Erath Counties have highter numbers of birds this year and should have better hunts.

Much the same outlook comes from warden Glenn Mitchell in Dallas County. Farmers in the area have started combining grain, with birds beginning to concentrate in larger groups.

But warden A.C. Longino in Van Zandt County found no large numbers of birds and said the few birds in the county are scattered and appear to be paired and still nesting. A similar report

comes from warden Jim Patterson in Upshur County. He estimates few birds in the pineywoods county with no rain lately and few grain crops.

Although the South Lone does not open until Sept. 25, Jim Dunks said early concentrations are developing in the southern part of Texas, especially along the upper coast and extreme South Texas.

Hunting hours are noon to sunset in the Sept, 1 -- Oct. 14 North Zone and Sept. 25 -Nov. 7 South Zone fall seasons. All-day hunting will be allowed when both zones reopen for a Jan. 1-16 season.

Bag and possession limits on mourning doves remain at 10 and 20 respectively. Hunters are reminded that shotguns must be plugged permanently to a three-shell capacity.

Truscott, Gilliland Set Homecomings

It's homecoming time again for Truscott and Gilliland communities this weekend.

Truscott is scheduled to begin registering at 1:00 o'clock Saturday afternoon, and a historical exhibit will open at 1:00 in the annex of the Methodist Church building.

A Bicentennial program will get underway that afternoon at 5:00 o'clock also in the Methodist Church, according to a spokesman.

Supper will be at 7:00 p.m. and will be followed by a Jamboree.

A drawing for a Bicentennial quilt and four coin sets will be held Saturday night about 10:00 o'clock.

Gilliland will begin registration at 12:00 noon in the Gilliland gym.
