OFTEN DUE TO KIDNEYS

You can't fool full of pop and vitality if your kidneys are not purifying your blood of acid polsons and waste. Other symptoms of poorly functioning hidneys and bladder are "Getting Up Nights," Bheumatic Pains, Bachache, Frequent Headnehes, Leg Pains, Diszinces. The suremale help for weak hidneys and irritated bladder is WARNER'S COMPOUND—A DIURETIC—a doctor's prescription used successfully for 62 years. The very first bottle brings relief. As all Druggiste.

Mr. and Mrs. Newt Sweatt and family of Oklahoma visited Mr. and Mrs. J. C Sweatt here last week.

YOU CAN PAY

FOR THIS HOME

And then there is the farmer who used his benefit check for plowing up cotton to send his son to the agricultural college to learn bow to raise more cotton.

We have just received a fresh augply of Ever-Reday Ratteries.

ASHCROFT CHEVROLET CO.

Requirement of food, water and air to sustain life.

Food . . 3 pounds per day

An adult can exist for approximately 40 days without food

for approximately 12

for approximately 10 minutes without ale

The air supply of a person is of first importance. Therefore it is a wise precaution to keep the air in the home during winter as pure as the warm oxygen-laden air of summer. A room that is poorly ventilated can be injurious to health. Inadequate fresh air and a lack of pure, warmed air throughout the home make it easy to "catch cold."

A simple method of providing a constant circulation of fresh air is found by keeping a window in each room slightly open. Connecting doors left open between adjoining rooms, when the entire house is adequately heated, provide a natural circulation of pure, warmed air from one room to another.

Never permit the air you breathe to become "stuffy" through lack of pure air circulation. Heat your entire house and provide fresh air ventilation for your health's sake. It's important to you and your family.

Winter be blowed!...

# OIL-PLATE YOUR ENGINE

This is exactly true: Oil-Plating supplies lubrication in LESS THAN NO TIME AT ALL!

Faster than "instantly". . . faster than the fastest-flowing Winter oil might even begin to flow, Oil-Plating is ready to lubricate.

That's because a genuine Plating of Conoco Germ Processed oil is always left firmly bonded to every working part. Like any other real Plating, this Oil-Plating cannot run off. After hours or days of standing in the cold, Oil-Plating is still perfectly ready-to-go.

Now these days you read on every side, how poorly-oiled starting causes most engine wear, and how fast a Winter oil ought to flow. But you cannot have even a doubt of sure starting-lubrication, when it is always UP IN ADVANCE. That's Oil-Plating ... a plain, straight, economic reason for changing to your correct freeflowing Winter grade of Conoco Germ Processed oil - patented. Costs no more than changing by hunch.
