

CONNALLY INTRODUCES NEW PENSION BILL

Washington, D. C., July 12.—Senator Tom Connally of Texas has introduced in the Senate and expects to urge before that body the adoption of a proposal to secure two-thirds Federal participation in Old Age assistance payments up to the maximum of \$15.00, the State and Federal governments to continue to share equally above that amount, as at present. If enacted into the Social Security Act, this would have the effect of providing \$10.00 from the Federal government to match the first \$5.00 from the State government for federally eligible old age pensioners in Texas instead of the equal basis of contribution now in operation.

In explanation of his plan, Senator Connally said:

"Under the present law, the Federal government pays to each State an amount equal to the average paid by the State to old age pensioners who are eligible and are on the roll under the State administration of old age assistance or pensions. The maximum limit is \$15.00 per month on the part of the Federal government, but there is no minimum fixed by the law. The result has been that in some states the Federal contribution has been out of proportion to the same contribution in other states. For instance, in Arkansas, the state contribution to something over \$3.00 per month and, therefore, the Federal government pays to the eligible old age pensioners in Arkansas something over \$3.00 per month. In other states, such as Colorado and California and some of the richer states, the Federal government in some instances pays the full \$15.00 maximum limit and in some states pays something less than the maximum limit. This situation has created a state of inequality in the amount of Federal contributions because of inability or unwillingness of some states to make substantial payments or contributions to eligible pensioners on the old age pension rolls. An anomaly is presented of the Federal government paying to eligible pensioners on the old age pension rolls a little over \$3.00 in Arkansas and to a person similarly situated who may reside in Colorado \$15.00 out of the Federal treasury.

"To somewhat rectify this inequality, the amendment I have offered provides that the Federal government shall contribute two-thirds of the payment to be made to old age pensioners on the state rolls to an amount not exceeding \$15 (in other words, the Federal government would pay \$2.00 for each dollar provided by the State, or \$10 in Federal contribution to \$5 state contribution, to a maximum of \$15 under such proportion). It further provides that from \$15 up the Federal and State government shall match payments equally as under existing law.

Senator Connally continued: "The purpose and the effect of the amendment, if adopted, will be to aid the states which have not adequate revenues to provide payments under existing law, and the states where there are relatively large numbers of old age pensioners in proportion to the remainder of the population. It is well known that in certain states of the Union that condition exists.

"My amendment will be used when the bill is considered by the Senate. I feel its adoption and enactment into law will afford a very substantial contribution toward meeting the obligations with respect to old age pensions," Senator Connally concluded.

REVIVAL MEETING AT CHURCH OF CHRIST TO START SOON

FLOYD J. SPIVY

On July 20th the Church of Christ is beginning a meeting as a special effort to sow the Seed of the Kingdom in the hearts of the people of this community. The meeting will continue through July 30.

Brother Floyd J. Spivy of Iowa Park, Texas, will do the preaching. Bro. Spivy is well known in this part of Texas and is loved by all who know him. He has held meetings at Munday for the past three summers, and the Knox City congregation is expecting several of the people from Munday to attend this meeting. Brother Spivy's lessons are well organized and easily understood. If you want to learn more about the Word of God and His will, come and hear these well prepared lessons.

The singing will be conducted by Bro. W. M. Rowland of Tolar, Texas. Bro. Rowland conducted the song services here last year, and all learned to love the man for his good works. We are glad to have him with us again.

We count ourselves fortunate in having these two wonderful men with us this short time. You may show your appreciation of their being here by making a special effort to attend every service of the meeting. David said, "I was glad when they said unto me, Let us go up unto the House of Jehovah."

"Come now and let us reason together, saith Jehovah."
—Austin Varner.

CROP CONDITIONS LOOKING GOOD

The Herald editor drove out over the country this week to look at the crops and all places visited looked good. However, rain will be needed within the next ten days. Feed and cotton is doing fine and the majority of the farms are free of weeds.

In the Vera and Red Springs communities where they had a much earlier season they are needing rain badly. Feed will be suffering within a few days if it does not get moisture. The cotton between Knox City and Munday is growing nicely and with only a few more showers a good crop will be made.

West of town and into King county everything looks good and we may yet have a larger yield than last year.

GRAHAM PUY REGISTERED JERSEY

A registered Jersey cow has been purchased by L. W. Graham of Knox City from E. O. Jamison, also of Knox City.

The animal is Lora Lustrous, class 1055507, according to the American Jersey Cattle Club, 324 W. 23rd Street, New York, N. Y.

WHAT DOES IT GET ME?

Quanah District Wins Second Place In West Texas Utilities

Cisco, July 12.—A summary of the annual spring merchandise campaign conducted by the West Texas Utilities Company throughout the 45,000-square-mile territory it serves today revealed that the Cisco District had exceeded its sales quota by 261 per cent, placing it foremost among the company's nine districts.

H. H. Monk, district manager, said he had been advised that other districts ranked in the following order:

Quanah, Stamford, Abilene, McCombs, San Angelo, Balingier and Dalhart. Quanah and Stamford were tied for second place.

Results of the campaign, he added, indicate that business conditions are exceptionally good in West Texas compared with other parts of the country. Highlight of the campaign was sale of a total of 1,684 electric refrigerators during a 90-day period.

O'DANIEL KILLS LIQUOR PLAN

Austin, July 11.—A liquor law, designed to tighten enforcement, correct defects in old statutes and permit precincts in dry territory to vote wet, was struck down by Gov. W. Lee O'Daniel's veto today.

Liquor Administrator Bert Ford, who labored for passage of the bill as originally introduced but was against the wet precinct amendment tacked on in the senate, said he was disappointed in the governor's action.

O'Daniel stated he vetoed the measure because of the wet precinct rider.

"If this bill were to become effective," the governor said, "the result would be that precincts in dry counties could vote to permit the sale of liquor and beer, and in my opinion, the result would be to break down enforcement of the prohibition laws in these dry counties."

Ford declared there was little he could say.

"It just puts us back where we were," he commented. "I'm sorry the wet precinct amendment was in the bill. I had hoped the governor would sign it. As introduced, the bill would have corrected several defects which make the present laws difficult to enforce."

One defect the bill was intended to cure was lack of a penalty for violation of statutes providing liquor could not be sold or possessed on premises licensed to sell only beer.

LIQUOR BOARD PREVENTS LAW VIOLATORS MOVING

Austin, July 12.—An important function of the Texas Liquor Control Board—preventing a known law violator from moving to a distant county and obtaining a new license to operate—was described by Joe Sharp, representative of the Board, to members of the South Texas County Judges and commissioners Association at their July convention.

"It is said that law violators have no respect for precinct, county or other boundaries," Sharp declared, "but a centralized state agency like the Liquor Control Board has helped to overcome this enforcement problem in many instances."

"It accomplishes this by disseminating information on all individuals who obtain alcoholic beverage licenses. If an individual should violate the law in one county and be forced to discontinue his business, he is prevented from moving to another county and again engaging in the same kind of illicit business. The information from the central agency acts as a bar to his obtaining a state license to operate."

Sharp also pointed out that the functions of the central agency were never meant to take away any responsibility or duty from local law enforcement officers, but were expressly intended to supplement and aid local officers to uphold the law.

COOLERATOR SOLD ON TEN-DAY TRIAL

The Arledge Ice Company has an ad in the Herald today announcing the sale of Coolerators which they will place in your home on a ten-day trial without any down payment. The price of the large family size is only \$69.50 and liberal terms will be made. Call and see this wonderful box and if you are in the market you will be sure to buy.

Mr. and Mrs. W. H. Benedict and grandson left Monday for Austin to spend several days with relatives and friends.

STRAYED: Red heifer yearling, weight about 400 pounds. Has sales tag No. 236 on hip. Finder notify J. A. Hull.

County Judge E. L. Covey was here Wednesday from Benjamin and called at the Herald office.

"PAPPY" USES PENCIL ON STATE APPROPRIATIONS

MORE TRAFFIC DEATHS ON WEEK ENDS

Austin, July 12.—State police today sought an explanation as to why nearly half the people killed in traffic are fatally injured on Saturdays and Sundays.

The death toll is far out of proportion to the volume of traffic on those days, even though week end travel is high.

Much of the blame, state police believe, must be laid to the "week end driver"—careless, thoughtless, joy riding, sometimes drunk and often inexperienced. He must shoulder responsibility for an appalling toll which in five months this year has claimed 279 lives out of a total of 567 fatalities for that period, they declared.

The five month survey disclosed that 49 per cent of the traffic deaths occurred on week ends, 26 per cent on Sundays, 23 per cent on Saturdays. But less than 34 per cent of all traffic moves on week ends—18 per cent on Sundays, 15.7 per cent on Saturdays, state officers pointed out. The volume of traffic was taken from average figures developed by the state-wide highway planning survey based on a year's actual count.

Week end fatalities were the highest in January, when 73 lives were claimed on four Saturdays and five Sundays, and have declined appreciably, the survey showed. February had 56 deaths for four Saturdays and four Sundays; March, 50 deaths for four Saturdays and four Sundays; April, 53 deaths for five Saturdays and five Sundays; and May, 47 deaths for four Saturdays and four Sundays.

Chief Ralph L. Buell of the state driver's license division, described the "week end driver" thus:

"He is frequently the man who leaves the car with his wife all week, then takes it out on Sunday for a long drive on the highways. He is unprepared by habit for heavy traffic and the emergency that takes split-second thinking and split-second reaction. Often he doesn't even know the rules of highway behavior, but you can't criticize him to his face. He thinks he's a wonderful driver."

"Frequently he is a student, pushing his car to the utmost to spend all the hours possible that week end with the home folks—and the girl back home. Too often he doesn't live to get there."

"And frequently he is the 'hev-hev boy' who may be 20 or 60. The highway, to his way of thinking, is as good a place as any to take a drink, and it is no worry of his when he runs two or three other cars off the road and causes somebody else to have a bad smash-up."

STREET WORK PROGRESSES RAPIDLY

The WPA street work in Knox City is progressing rapidly and the street running from the Santa Fe depot east will soon be completed. There will be thirty-four blocks in the town paved, and when this is completed there will not be a town the size of Knox City in West Texas with as much paving. The city is fortunate in not being in debt so they are able to meet the requirements of the Federal government in this paving project.

Elmer Wall Jr. is working this week for the Oates Drug Company in Haskell.

Mrs. J. H. McGee and daughter, Miss Ruth, and Misses Juanita Herring and Nina Mae Davis are in Munday today shopping.

Austin, July 11.—Gov. W. Lee O'Daniel today slashed \$5,383,616 from appropriation bills passed by the legislature at its recent session.

His action on the appropriation bills, together with vetoes and signatures of a number of other measures, in effect finished business of the session, the longest in the history of Texas.

The governor swung his veto ax on the appropriations for state government departments, colleges, eleemosynary institutions and miscellaneous claims, but allowed those for the judiciary and rural and vocational school aid to go through unscathed.

The most staggering cut sustained by any single department was more than a million dollar slash in the highway department, biggest of all state agencies.

The governor blue-penciled the entire department and district employees division of the agency, abolishing of 327 employees ranging from administrative assistant at \$4,200 a year to porters earning \$660 annually.

The veto left the department only 191 employees and represented better than a 50 per cent overall slash.

Julian Montgomery, the department's chief engineer, said he had not been informed as to what the veto covered and will not comment until he has studied it.

The tabulated amount was \$1,047,740 compared to a total highway department appropriation by the legislature of \$2,020,744.

The appropriations for education suffered less than appropriations for departments and eleemosynary institutions.

Most of the cuts were in buildings for eleemosynary institutions, provision for staffs to man those buildings, and in various departments.

Appropriations totaling more than \$62,000 for buildings and equipment at the Wichita Falls State hospital were lopped off. These were in addition to the tuberculosis hospital, \$40,000; additional needed appropriations if the hospital addition were granted, \$15,636, and laundry equipment, \$7,400.

METHODIST REVIVAL GOING STRONG

The revival at the Methodist church started Sunday and the attendance is steadily increasing. The morning services are at 10:30 o'clock.

Men's prayer meeting is in the Couples class room at 8:15 p.m. Women meet at the parsonage for 15 minutes of prayer before each evening service.

Young people meet in the basement of the church at 8 p.m. The young people will be divided into two groups. We are looking forward to great work with the young people of the community.

The Vacation Bible School is still in progress with a large attendance and we are to have charge of the services Friday evening. We want everyone to be present for this service in particular. After the services Friday evening you are invited to attend a showing of the work the students have done during the school.

Attend these services. Join with us in work and prayer that we may have a revival in our community.

—A. A. Peacock, Pastor

ATTEND LIONS MEETING

G. E. Steen, President of the local Lions club, Lion Tamer Roy Baker and C. H. Keck are in Lubbock today attending a district meeting of the Lions International.

The Knox County Herald

Entered as second class matter at the postoffice at Knox City, Texas, under the act of March 5, 1879.

I GIVE YOU TEXAS... By Joyce House

It used to be that it was a most embarrassing situation if a man's shirt tail was out. Now, half the young fellows are running around looking like Chinese laundrymen. Times do change—as a philosopher said, "A few years ago, you could have all the gold you wanted but if you had a pint of liquor, they'd put you in jail; now you can have all the liquor you want but they'll look you up if you have any gold."

For ages, men have been poking fun at women's fashions. This shirt tail craze would seem to be a good chance for the women to get even, except that a large percentage of them are walking around in unsightly slacks.

Which calls to mind the story of an occurrence in deep East Texas. A native was telling a friend about driving in his jalopy and of being overtaken by a "city feller" who slowed down his car and yelled, "Why don't you get over and give me half the road, you snuff dipping so and so?"

The friend asked, "Why didn't you cuss him back?" The man who had been insulted said, "I couldn't; my mouth was full of snuff at the time."

Texas, by the way, gained the spotlight recently when the first national convention of "snuff-dippers" was held in Mississippi and humorous Jerry Sadler, State Railroad Commissioner, made the principal speech, in which he told of the great Americans who made use of tobacco in powdered form.

Not long ago, I dropped a nickel in one of these music machines to play "A Penny Serenade" but I didn't get

While in Mexico, our Lions group had the honor of being accorded a reception in the home of the governor in charming Cuernavaca and later were formally welcomed in his office in the 300-year old palace built by Cortez. It is a town of lovely gardens, vines with purple, pink and white blossoms spilling their beauty over the walls. You can sip a glass of wine on a broad, cool porch overlooking the Borda Gardens where the Emperor Maximilian and the Empress Carlotta once strolled, and where Lindbergh courted Anne Morrow.

The Diego Rivera murals on the second story balcony of the Cortez palace are, in some respects, even more remarkable than the Rivera murals in Mexico City. The faces—in the National Palace and in Cuernavaca—have expression and, through masterly shading, give the effect of depth. At Cuernavaca, the eyes of the patriot Morales are fixed upon you, no matter from what point you look.

Another painting, on the flat surface of a column, has been given a dark gray background, creating the illusion that the figure is in a niche. The white head and mane of Zapata's horse seem to stand out from the wall. At the foot of the murals are miniature sketches done in gray, so skillfully executed that they seem to have been carved in stone.

Use and Observe These
TRAFFIC SIGNALS
for Your Safety!

Traffic signals were not invented for the playing of polite parlor games. True, it is good driving manners to use and observe these signals. But courtesy is merely incidental to the real purpose: **YOUR OWN PERSONAL SAFETY.**

When you extend your arm straight to the left, even the half-wit (whom every driver fondly imagines is steering the car immediately behind him) can understand that your car is going to turn left. Raise your arm straight up, and he knows you are going to turn right. Lower your arm over the side of the car, and he is simply warned that you are going to stop.

Simple signals, these three; and so easy that their use can become as automatic as opening the mouth when you want to

speak. So simple and so easy that it is hard to understand that for many they have meant the difference between life and death. Psychologically, perhaps, it is explained by the fact that many poorl who drive 1939 cars still follow 1914 driving methods . . . and are as hopelessly old-fashioned as if they wore buckles or yellow buttoned high shoes! Their intentions are good; they plan to do the right thing. But they don't practice it. And the tragic part is that they only have to forget just once! "Once is enough" is Death's own motto and should be graven on thousands of those hard gray slabs.

Let's be good sports and set the dilatory ones a good 1939 example . . . USE and OBSERVE these traffic signals not just occasionally, but ALL the time!

Benjamin News Items

Mrs. Chester Griffin and children of Sabinal are spending about a month in the home of her parents, Mr. and Mrs. J. A. McCanlies.

Mrs. Marion McGinty of Plains is spending the week as a guest of her sister, Mrs. A. B. Sams.

Mr. and Mrs. G. W. Adams and their three months old son of Midland spent the week end with Mr. and Mrs. W. D. Snody. Mrs. Adams was formerly Miss Lucille Snody and her many friends were glad to meet her husband and son and to see her again.

Elton Patterson of Brownfield spent several days of his vacation with his parents, Mr. and Mrs. J. C. Patterson. Mr. and Mrs. E. A. Darwin and Carl Gene were also in the home, completing the happy family.

Mr. and Mrs. I. T. Wright left Thursday morning for Dallas to visit their daughter, Mrs. Walter Sharp, who joined them for a visit in Waco with their other daughter, Mrs. Caulfield.

Mr. and Mrs. Jack Idol left for Galveston and other points in South Texas last Saturday. They expect to be gone about two weeks.

Mr. and Mrs. L. C. Moorhouse and Gloria left Saturday for their home in Cuervo, N. M., after spending a week with home folks. Mrs. A. H. Sams accompanied them for a visit in a cooler climate.

Mrs. Wallace Harbert and Mrs. Fred Jackson entertained at a bridal shower Friday afternoon in the home of Mrs. Jackson, honoring Mrs. Bert Lewis Swann. Mrs. Swann was formerly Miss Nela Beth Meinzer and has spent her entire life here, where she has endeared herself to all by her sweet disposition. Many were the beautiful gifts received by the bride. They are at home in Holiday, where Mr. Swann is employed by an oil company.

Mr. and Mrs. Jim Pulls had as their guests over the week end Misses Helen Aston of Vashti, Rowena Nichols of Truscott and Tincy Simpson of Jacksboro.

Glenn Burnett was in Wichita Falls Friday on business.

Mr. and Mrs. Lyndal Hughes are entertaining a fine young man who came to make this already happy family more complete. He arrived Saturday at the Knox County Hospital and is of the regulation size. Mother and son are doing fine. We extend the best of wishes for his future.

Mr. and Mrs. Jim Pulls and children were in Jacksboro to celebrate the Fourth of July with relatives, returning home Thursday.

Mr. and Mrs. E. P. McCutcheon of San Antonio were visiting old friends here Sunday morning, going to Knox City to spend the day with her sister, Mrs. O. W. Caussey. Mr. McCutcheon has been employed in the post office at San Antonio for the past twenty-nine years.

It is indeed with regret that we learn of the transfer by the highway department of Vance Favor to Crowell. Mr. Favor was transferred here from Knox City two and a half years ago, and he and his family have endeared themselves to our entire citizenship. We can think of no family who would

be missed with keener feeling, and we commend them to their new neighbors with the best of wishes for their continued happiness and success. Our regrets are somewhat lightened by having D. R. Dozier of Estelline come to take the place with the highway department left vacant by Mr. Favor. We welcome Mr. and Mrs. Dozier and their baby to their new home and trust they will like our little city.

Mr. and Mrs. Fred Albright are very happy over the arrival of a fine baby boy, who came to bless the young couple last Sunday at the Knox County Hospital. He weighs 6 pounds and 7 ounces and his name is Fred Junior. This is the second grandson for Mr. and Mrs. Ed Bateman of the B-Bar ranch, and they are duly proud of him and his little mother, who is their only daughter.

Mr. and Mrs. Lewis Williams and son, Clyde Edward, and Miss Polly Chamberlain left Sunday morning on a vacation trip to the Ozark mountains in Arkansas.

J. C. Rice of Munday is a new citizen in our midst, being employed in the county agent's office. He is the son of Mr. and Mrs. John Rice of Munday and graduated last spring from A. and M. college.

Miss Elizabeth Covey is spending some time in Dallas and Fort Worth with her grandmother and other relatives.

Mrs. Gariand Reemster and children are visiting her parents, Mr. and Mrs. Holmes, at Westover. They were joined by her sister, Mrs. Irvin Hall of Seymour, and they will celebrate their birthdays together the twelfth of this month.

Mr. and Mrs. Eddie Bateman Jr. and Dusty returned home Monday from a visit in Fort Worth with the lady's parents. They left immediately for Knox City to get acquainted with the little nephew who arrived during their absence.

Judge and Mrs. E. L. Covey and Elmer Jr. had a very pleasant trip last week to Hot Springs, Ark., and also to visit Mr. Covey's brother at Eldorado, Ark. These brothers, living only a day's drive apart, had not seen each other in 17 years.

Miss Louise Eubank of Crowell spent Tuesday with

OUR FELLOW DRIVERS

The HEADLINES Say

Gas Masks for Babies—French babies under two years of age will be protected by means of a respiratory device which is connected with the gas mask of the mother, in event of war.

Pulitzer Prize Winner—Carl Van Doren will receive the \$1,000 Pulitzer Prize Award for the most distinguished American Biography of 1938.

Hundreds of New Jersey liquor retailers pledge their adherence to nine principles of Good-Will engraved on this plaque presented to Governor A. Harry Moore of New Jersey by the House of Seagram on behalf of the retailers. Ralph A. Kahn, representative of Seagram Distillers Corporation, makes the presentation. The plaque, one of many presented to State and city officials, represents the first united effort made by thousands of retail liquor dealers throughout the nation to promote a better understanding between them and the communities they serve.

Texas to Missouri—Judith Barrett gets her first big break in the movies, and now there's an argument between Texas and Missouri over which one can claim her.

THE HERALD SNAPSHOTS

Jim ("Bad Pete") Lonetree and his burro, "Sleepy," looking at the animated diorama of underground and open cut methods of copper mining, which is one of the features of the Copper & Brass Industry Exhibit, Metals Building, New York World's Fair. Lonetree is a well-known Western prospector who has trekked with his burro through the mountains of Montana and the desert of the Southwest looking for new discoveries of copper deposits.

Potential Pitching Star—Chicago—A little young, perhaps, but very promising is Bill Lee, Jr., 5-year-old son of the Chicago Cubs' ace pitcher.

LARGEST RELIGIOUS STATUE—Paris, France—Georges Serraz works on his statue of the Blessed Virgin with Christ Child. The statue will measure 44 yards in height.

19th CENTURY COUNT and HIS 20th CENTURY BUST.
When Rhode Island celebrated the 80th anniversary of baking powder at Rumford, R. I., seventy, one of the events was the unveiling of a bust of Benjamin Thompson, Count Rumford, sculpted by Susanne Silvercray. The Count himself was brought back to earth for the day to become master of ceremonies at the party. Note resemblance between the two. Left to right: Count Rumford and A. E. Marshall, President of Rumford Chemical Works.

SWIMMERS AID—Miss Kay Pembroke exhibits rubber hand paddles, a new invention especially effective for propelling surfboards.

Zeke Says

By Nugent Ezekiel Brown

Austin (Special)—Reliable rumor here over the week end was to the effect that many "statisticians," so called, on various departmental budgets were getting the blue pencil. Governor O'Daniel deserves praise for wielding the axe on these unnecessary jobs which department heads use to pay back debts to legislators who supported their budgets otherwise. Usually, "statisticians" are terms for stenographers, press agents or what have you. The title covers many sins. While some of these extra jobs are held under other titles, the above has been used too often.

It is interesting to note that one Bill Correy, member of the Legislature from Tarrant county, listed in the House as a "farmer," has been "rewarded" by W. A. (Jack) Little, acting director of the Old Age Assistance Commission. Announcement was made last week by Little that Correy has been made "assistant director" at a \$300 per month salary, said Correy resigning his Legislative job the same day. On the surface you would think Correy had been given a real job. However, the job will last only until September 1st, when the newly created Board of Public Welfare takes over. Those on the inside know or suspect why Correy was given this honor. He wants to run for Commissioner of Agriculture next year but, in the meantime, he has helped to spread word about the Capitol that W. A. Little (who was sued in justice court here last October for a \$50 debt by a liquor store), was eminently qualified to be named administrator of the Board of Public Welfare. Inside dope is that Little has no chance of getting this appointment as friends to the governor are not for Little (who was given his present job by Allred). Social workers from the East will not fare so well in the new set-up and Little has a flock of these women "experts" about him. An Austin newspaperman who brags on Little whenever necessary has a father-in-law who has kept on the pension rolls long after his application was denied by the investigator. The "denial" was pigeon holed so the pension was paid on. So this newspaperman comes out and says "Little has great ability."

Lynn Landrum on Program

It was announced in Dallas Sunday by Larry Mills that Lynn Landrum, Dallas News columnist, will be one of the speakers at the "appreciation" banquet for the 56 members of the House who voted against SJR 19. Mills says plans are being made to accommodate 1,000 people at this banquet, to be on August 12.

McCraw Wants to Run

William McCraw, former attorney General (Do you remember him?), made eight or more speeches last week, two on the Fourth of July. McCraw wants to run for governor in 1940 but he is really afraid of a man who once used the radio very successfully. Bill, the newspapers might have a lot to say in 1940 and the worm does turn, you know. Colonel Ernest Thompson does not hesitate to say he wants all the newspaper support he can get and appreciates it.

Safety Campaign Worth While

Texas headed the list of states in deaths from accidents over the July 4th week end with 40. With this record, it is high time for Texans to join in the campaign of the Texas Safety Council, headquarters in the Allen building in Dallas, to save a thousand lives this year in the state. The council's slogan, "There are no unavoidable accidents," would mean that 40 persons lost their lives unnecessarily the first few days in July. The Texas Safety Council is a non-profit organization which charges no dues. If you wish to join other towns and organize a local unit. It is purely an educational campaign, headed by P. Pierce Brooks of Dallas.

Bayne Satterfield, friend to the fire boys in Texas, has just started a new paper, "The Texas Fireman," at Austin, which publication is devoted to

the principle of lower rates on fire insurance premiums. It is high time for someone to help in this matter.

JACK WILSON WINS HONORS AT MUNDAY

By Hal Sales

Munday, July 12.—Pappy Par had his day at the tenth annual Tri-County Association golf tournament.

Only Jack Wilson of Knox City, twice winner of the event, could keep up with the old gentleman. His par 70 copped medal honors on the sporty little local course.

Wilson came in five strokes ahead of his nearest rival, Lindley Carter of Seymour, but Jarrell Davis, defending champion, elected to play without qualifying.

Davis, a strapping young man from Seymour, played only a practice round today. He was even par through 15 holes when darkness stopped his pursuit for medal honors. Davis beat Joe Green of Olney for the title last year and downed Cotton Shade of Olney in the final round in 1937.

Birdies were few and far between as the golfers tramped over the narrow fairways lined with treacherous mesquites. Even Wilson was in trouble after the seventh. Two under par at that point, the Knox City youth took birdies on the last nine in even par.

His card:
Par—434 345 444—35
In—433 454 435—35 35—70
Pappy Farmer of Knox City, winner of the tournament in 1934 and 1936, was in trouble on the front nine but he recovered sufficiently to qualify with a 77.

A record field of 49 players from Seymour, Haskell, Olney, Knox City, Rule and Munday are participating in the tournament. Match play starts Thursday and continues through Sunday.

Driving contest was won by Jimmy Goode of Munday with a three ball average of 217 1-3 yards, while Paul English of Haskell was runner up with an average of 199 1-3 yards.

Retiring president of this live wire golfing organization is W. H. (Dad) Atkieson of Munday. Officers elected tonight were Tom Craddock, Seymour, president; Lindley Carter, Seymour, secretary;

and Atkieson, H. M. Bettis, Olney, and John A. Couch, Haskell, directors.

Next year's tournament will be held at Seymour. —Abilene Reporter.

Both Need Safe Food
Both Need to Save Money
Both Need Ice, Ice Cream

BOTH GET IT ALL FROM

Says MRS. R. L. MILSTEAD, RT. 3, HAMLIN, TEXAS:

"Would not sell our Servel Electrolux for twice what we paid for it, if we could not get another. We milk several cows, and live 12 miles from town. We don't have to carry our cream off but once a week, and always get the top price. It costs us only 35 cents a week to operate; and gives us all the ice cubes a family of four can use. I make ice cream most every day. With it we can have fresh meat as often as we like; also fresh vegetables are better after being in the Servel Electrolux a day or so, than when purchased. It is the greatest blessing that ever came on to a farm or ranch."

The kerosene Servel Electrolux requires no water; no electricity. It is fully automatic, requires little attention; just fill the kerosene tank weekly. And it is the same in every important detail as the famous gas Servel Electrolux giving health and pleasure in one million city homes.

The SERVEL ELECTROLUX

Gas and Kerosene Refrigerator

Says MRS. L. E. PYEATT, OLNEY, TEXAS:

"I have had my Servel Electrolux for 6 years. I have a large family, and company is always coming in; but I am never without plenty of ice for drinks, and plenty of fresh meats and vegetables, because they can be kept fresh and wholesome so much longer in the Servel Electrolux. I buy my groceries on week-end specials for the next week, and have certainly cut down my grocery bill. And all this for so little cost we can hardly notice the difference on our gas bill. It does not cost a bit more to run today than when new—in fact it is as good today as the day I bought it."

No moving parts in its freezing system means nothing to wear. Nothing to cause noise and costly repairs—and operating cost stays low. You're paying for Servel Electrolux—why not own one?

- NO MOVING PARTS
- PERMANENT SILENCE
- CONTINUED LOW OPERATING COST
- SAVINGS PAY FOR IT

Operates on Natural Gas, Butane, Bottled Gas, or Kerosene

Appreciation of Grady Roberts' Legislative Service Expressed By Secretary of State

Expressing his devotion to duty and his untiring efforts on behalf of the State of Texas and his constituents, Tom L. Beauchamp, secretary of state, recently wrote to Representative Grady Roberts expressing his appreciation for the type of service rendered during the Forty-Sixth Legislature.

Mr. Roberts, who is serving his first term as representative of the 114th district, was the only one of the 150 members who answered every roll call and who voted on every bill coming before the house. It was this type of service that attracted the attention of the secretary of state and prompted the letter of commendation. The Beauchamp's letter follows:

Honorable Grady Roberts, Member, Texas.

Dear Mr. Roberts: I am glad I had the privilege of seeing you personally how much I appreciated your service to the State of Texas as a member of the Forty-Sixth Legislature, but I cannot refrain from again expressing it in this manner. Your devotion to duty; your unselfish and untiring efforts on behalf of the State of Texas as a whole and your constituents in particular is characterized by a few words of this busy age and I wish you to know my appreciation for that kind of a representation.

Many questions will doubtless arise regarding the affairs of the State which may be answered from the records of this or some other department. As a member of the Legislature you should be able to secure such information without delay and without expense to yourself. Some of the positions of this office are filled with good lawyers and we have discussed your situation and have agreed that we will undertake to give you the needed service, even though it will take much overtime work on our part. I am sure that you will be very patient and not ask us to always be able to answer by return mail. That would be impossible, but we will gladly gather the information which you may desire from time to time and want you to feel that this is a service which we are rendering voluntarily because we think it worthwhile and hope it will be profitable to you and to your constituents.

With kindest personal regards and trusting I may have the pleasure of seeing you when you are in the Capitol, I am,

Yours very sincerely,
Tom L. Beauchamp
Secretary of State.

J. H. BERRYHILL HAS BIRTHDAY DINNER

J. H. Berryhill's wife and children honored him with a birthday dinner at his home in the Cliff community Sunday. Those present were Mr. and Mrs. C. A. Richardson and children, Mr. and Mrs. Everett Berryhill and children, Mr. and Mrs. Elvin Berryhill and children, Mr. and Mrs. Otis Casin, Mrs. Jean Hutton, Miss Eaa Faye Hutton, Austin Varner, Mr. and Mrs. J. H. Berryhill, their daughter, Jean, and their son, Excell.

SEYMOUR READY FOR ANNUAL RODEO

Seymour, July 12.—Spectator comfort and interest will be stressed at the third annual Seymour Cowboy Reunion and Rodeo, to be held here Saturday, July 21-22, under the sponsorship of the Seymour Chamber of Commerce.

The rodeo performances will be held at 2 and 8 p.m. each day at Fair Park arena. This field is located atop a hill one mile east of town, which will catch all the breeze that may be blowing, and the field is covered with heavy turf, so that absolutely no dust is raised in the arena.

An ingenious arrangement of pens, being completed this week, will enable events to be run off quickly, with no delays between riders and ropers.

Grandstand and bleacher seats are being rebuilt and added to in preparation for the biggest attendance ever had here.

The opening feature will be a 35-mile horseback ride into Seymour over five different highways, starting points being located near Throckmorton, Benjamin, Munday, Olney and Mankins. Some 50 riders are expected to compete for the hand tooled saddle, hand made boots and Stetson hat offered as prizes.

Substantial cash awards will be offered in the four amateur rodeo events, bronc riding, calf roping, steer riding and bull roping, with special prizes in all events. A cutting horse contest will be held Saturday morning. A number of unusual added attractions are being arranged for the rodeo performances.

Color will be added to the rodeo performances by 160 young lady sponsors, from Seymour and other West Texas towns. A number of beautiful prizes are being offered in three divisions. Big street parades will be held each day.

New low admission prices have been announced for the rodeo performances: 40c for adults, 25c for children, 25c grandstand.

Pioneer settlers of West Texas will again be honored, with a program scheduled for them at 9:30 o'clock Saturday morning, at Seymour Municipal

Park. At least 500 old timers are expected to be on hand. A permanent Old Settlers' organization will likely be formed this year.

Three dances will be held each night, two in halls, the other a big open air square dance near the rodeo grounds.

Rep. Grady Roberts of Munday was here a few hours Friday.

Mrs. O. W. Smith of San Angelo has returned home after a visit here with her parents, Mr. and Mrs. J. W. Howell.

Mrs. George Clifton left last week for Wichita Falls to spend several days with her sister and other relatives.

Ed Bateman was here the latter part of the week.

We saved \$100 on the best refrigerator we could buy!

... we got an Air Conditioned

Coolerator

Friends kept bragging about their Coolerators. They talked of ice cubes in five minutes; freedom from covered dishes; fresher, better tasting foods. So John said, "If this is all true, we certainly want a Coolerator. Let's try one ten days free in our own kitchen." Well, every word was true! Now I know what air conditioning means. The foods stay fresh and palatable without the bother of covered dishes. I don't worry about mixing of flavors, or rapid drying out—I have ice cubes that are a delight to serve. Best of all, our Coolerator cost all of \$100 less than what we might have paid. Why don't you arrange for a 10-day free trial—today?

THE Air Conditioned REFRIGERATOR

NEW LIGHT WEIGHT METALS REVOLUTIONIZE DESIGN

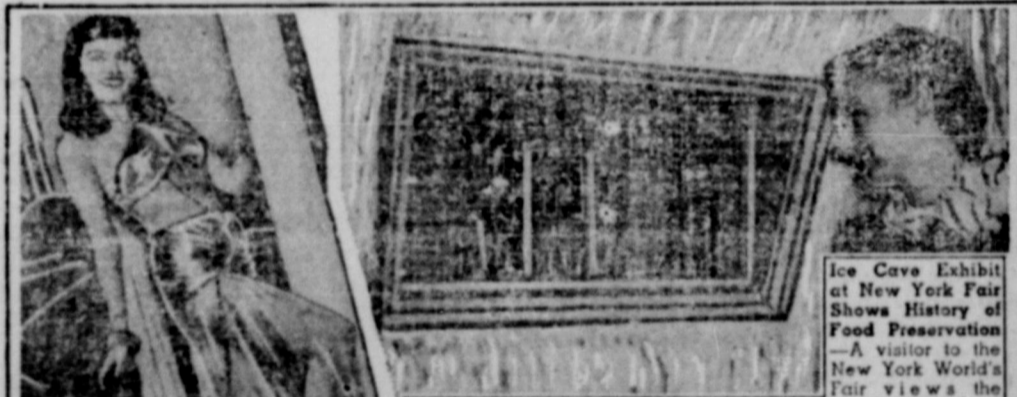

(1) Clarke Troller, lightest outboard motor in the world for its power; 1.3 horsepower, only 9 1/2 lbs. (2) Kayak propelled by Troller. (3) Latest type of Bohnalite piston with positive expansion control.

DESIGNS, which only a very short time ago would have seemed impossible, are now being achieved with the new light weight alloys. The little Troller motor shown herewith weighs only 9 1/2 pounds and yet it develops 1.3 horsepower. This light weight is achieved not only through design but through the fact that permanent mold castings of Bohnalite are employed. This strong but light aluminum alloy has proven itself extremely well suited for light weight powerplants, such as this, and has even made an enviable record for itself in the big, powerful airplane engines used for transport as well as war machines.

The cutaway piston shown here is an Autothermic type, which has the unique ability of holding its shape and clearance whether the engine is starting cold or is running at its highest operating temperatures. This also is an example of the use of Bohnalite. This type of piston made from this material is used on cars such as the American Dantam all the way up to some of the heavier duty Diesel designs. The introduction of light aluminum and magnesium alloys, such as Bohnalite and Magalloy, is completely changing engineering processes and methods. It is making possible much lighter and more efficient powerplants for land, air and sea.

THE HERALD SNAPSHOTS

Ice Cave Exhibit at New York Fair Shows History of Food Preservation—A visitor to the New York World's Fair views the

means by which her ancestors attempted to preserve their food by lowering it into wells. The exhibit is that of Servel, Inc., currently cooperating with P & G White Naphtha Soap in a nationwide contest. Prizes will be 360 Servel Electrolux refrigerators and 30 \$500 bills. Other dioramas in the Fair exhibit show the entire history of refrigeration.

Know Her?—Why, it's blonde Betty Grable, in Oriental costume and black wig, as she appears in a streamlined bare sequence.

Jessica Dragonette keeps her linen-closet like a filing-cabinet with sheets that have patented projecting size-index tabs permanently sewn into the bottom hems. The tabs are a time- and tempo-saving device for locating the size sheets a housewife needs in a jiffy.

Prelude to Victory—The camera takes us behind the scenes at Churchill Downs to show jockey Jimmy Stout downing a bracing cup of coffee as the crowd tensed for the running of the Kentucky Derby. Stout went out to racing immortality, riding Johnstown home a winner by eight lengths.

Bill, use no hooks or mirrors to catch trout. They simply take their boat to a bar of a school, and on the trout make their arching leaps out of the water, the side of the boat is tipped, catching the fish on the bottom.

Deplores Confused Thinking—William F. Humphrey, president, Tide Water Associated Oil Company, believes business can solve the present confused thinking of mankind by substituting co-operation for the present war hysteria. In 1938 his company alone paid or collected for the government \$33,000,000 in taxes, paid employees \$21,000,000 in salaries and wages and \$613,000 in other benefits, has sponsored \$27,000,000 worth of insurance for them and paid \$900,000 in social security taxes and unemployment funds.

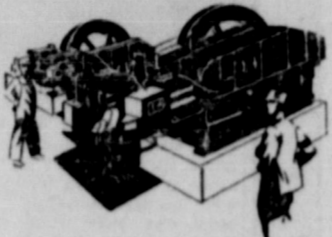

It's No Trick—Atlanta, Ga.—It's really simple Homer Harris and his son,

LONE STAR GAS SYSTEM FACILITIES SERVE THE HOMES AND INDUSTRIES OF 299 TOWNS AND CITIES IN TEXAS AND OKLAHOMA

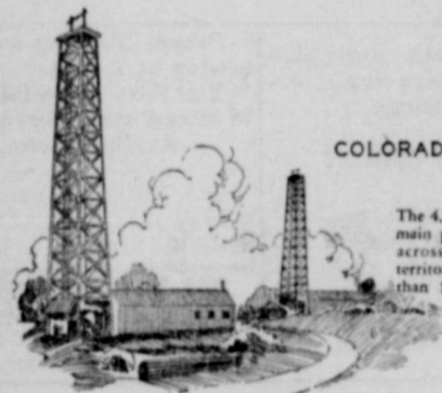

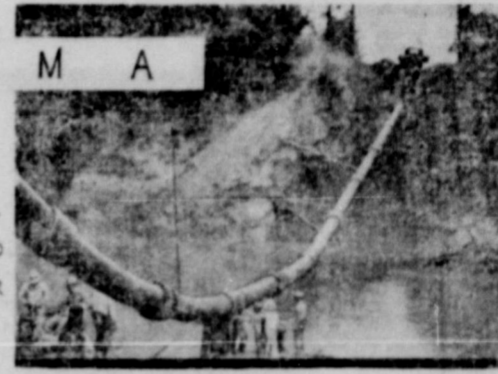

L. B. DENNING, President
LONE STAR GAS SYSTEM

Today, through its modern facilities, including 4,700 miles of interconnected pipeline transportation system paralleling old trails blazed by early settlers, Lone Star Gas System brings to more than 300,000 homes and industries a modern, dependable fuel service that stands among the foremost in the world.

Lone Star Gas System's dependable facilities for transporting natural gas through the company's main lines include giant compressor engines totaling more than 35,000 H.P. capacity

The 4,700 miles of interconnected main pipeline system, stretching across 116,000 square miles of territory, is supplied from more than 1,000 gas wells located in 46 separate fields

LONE STAR GAS SYSTEM

- ★ 4,700 MILES OF TRANSPORTATION PIPELINES
- ★ 1,000 GAS WELLS IN 46 SEPARATE GAS FIELDS
- ★ 3,000 TRAINED AND EXPERIENCED EMPLOYEES

As we reach our thirtieth birthday, we are mindful of the responsibility that goes with our job. We renew our pledge to the policy that has guided us through the years—"First, find out what is the right thing to do ... then, what is the right way to do it."

We know that homes must have heat and that many depend entirely upon our service. If we should fall down on the job there would be inconvenience, discomfort, suffering in

many homes. We realize that, even though our customers seldom think about it, they have confidence in our ability to render dependable service and rely on it being available instantly and without interruption day or night, throughout the years, regardless of the weather. We know it is the responsibility of each of us of Lone Star never to fail that trust.

L. B. Denning

30 YEARS AGO

In 1909 Lone Star Gas Company pioneered the development of natural gas in Texas. The first natural gas pipeline, 126 miles long, from Petrolia, Texas, to Fort Worth and Dallas, was an epochal event in Southwestern progress and indicative of a greater growth and development to come.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But sometimes they lag in their work—do not let Nature intend—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervousness and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning more thanks for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

THE AWFUL PRICE YOU PAY FOR BEING NERVOUS

Quieting nerves can make you old and sagged looking, cranky and hard to live with—can keep you awake nights and rob you of good health, good times and fun.

What you may need is a particularly good women's tonic—and could you ask for anything whose benefits are better proved than famous Lydia E. Pinkham's Vegetable Compound? Let its wholesome herbs and roots help Nature build up your physical resistance and thus help calm your shrieking nerves, give more energy and make life worth living again.

More than a million women have reported benefit—why not let Pinkham's Compound help YOU, too, to get "resting there" trying times like it has other special women for the past 3 generations? IT MUST BE GOOD!

"Where Friend Meets Friend"

HASKELL, STONEWALL FARMERS GET LOANS

Haskell, July 12.—Loans totaling \$81,314.04 were received by 112 farmers in Haskell and Stonewall counties in the fiscal year which closed on June 30, according to County Supervisor R. E. Skipworth.

These loans were made to low-income farmers for rehabilitation purposes to enable them to work out an improved farm and home plan under which the families can become self-sustaining. Recipients of the loans are required to raise as nearly as possible all the family's food and all feed for

the farm animals, and also must develop more than one source of farm income.
