AUSTIN, TEXAS.—It's "needling" time in Texas. That is the period when those in office start feeling the barbs of those who have their eyes on the same office.

Filing deadline for the summer's primaries is May 5. In any pre-election period the "outs" have a busy season of looking for "bugs under chips." Any likely looking "bug" is hauled out to test public reaction on its value as future fodder against the "ins."

But this year no one has to look hard. Texas's problems are all too obvious. Unemployment highs persist stubbornly into spring weeks. Oil, the state's No. 1 moneymaker, is seriously bogged down. A multi-million-dollar deficit in state revenues is in prospect.

Hence: an open season for "viewing with alarm" and prospect of lively campaigns if some hard rumors line up for major offices.

NO MORE SPECIALS — He sees no need of a special legislative session now, says Gov. Price Daniel, because the state government is already pushing anti-recession program.

Governor Daniel's statement was in reply to a demand by the president of the Texas AFL-CIO for an 8-point program to combat unemployment. Jerry

Holleman challenged the governor to back up his philosophy of "states rights" by meeting "states responsibilities." His "points" included revision of unemployment compensation laws, speeding up spending programs for buildings, highways, water projects, etc.

Daniel retorted that Holleman's demands took no note of work already moving apace. Texas, he said, "did not wait for a recession to exercise its responsibility of providing highway, water conservation, attraction of industry, increased salary and building construction programs."

"This is one reason the situation in Texas is much better than in most other states."

"I have every confidence," said the governor, "that the prophets of gloom and doom will not talk us out of a continuation of our unparalleled progress."

NO HELP FROM IKE — More tears than oil flow these days in Texas petroleum circles. President Eisenhower's token tightening of the voluntary oil import quota plan just won't help, oilmen say.

They had pled for an import crackdown to relieve the slump in demand for domestic oil. What they got was "much too little and much too late," said J. J. O'Brien of San Antonio, president of Texas Independent Producers and Royalty owners Association.

Governor Daniel called the action from Washington wholly inadequate. Railroad Commissioner William J. Murray didn't see how the effort could be effective.

Eisenhower's plan called for a minute curtailment of voluntary imports of crude oil but left products untouched and the import door wide open to newcomers.

Texas fields were on a nine-day production pattern throughout March with an eight-day pattern ordered for April.

TWO PLUS TWO — In most educational circles, prime interest has shifted from "Why

NO BREAK YET — Payments to the jobless hit a record high of \$1,568,958 in one week, according to the Texas Employment Commission's latest report.

Number of persons filing compensation claims inched up from 89,309 the previous week to 92,435.

TEC's mid-February report showed 75,000 persons covered by unemployment insurance out of work. At that time it was hoped that approach of spring would bring the usual pick-up in jobs.

Instead, unemployment has increased more than 20 per cent.

HINTS OFFERED ON CONTROLLING WEEDS AND GRASS IN COTTON

COLLEGE STATION. — The second highest cost item in cotton production is for grass and weed control. Fred C. Elliott, extension cotton specialist, says on the average, 10 hours of labor are required an acre for this one item. But, he adds, this figure can be reduced if recommended control practices are followed.

Last year the State's cotton producers saved an estimated \$16,000,000 by using rotary hoes, chemicals and oils in their efforts to keep weeds and grass under control. Rotary hoes on 44,798 farm tractors were used in 150 counties to cut more than \$15 million from the hoe bill. Elliott points out that rotary hoe equipped tractors should be operated at high speed for best results, around 6 miles an hour.

Lateral oiling with five gallons of naphtha an acre was used on 21,000 acres in 53 counties to cut the weed and grass control cost by \$65,000, reports Elliott. The cost of application was \$1.00 an acre and oiling shoes with a gage wheel arrangement permitted the operators to travel

at fourth gear speeds. In one county, five gallons of naphtha an acre was applied as a fine spray on grass in the drill with 95 percent of the grass killed. This treatment cost a dollar an acre; eliminated hoeing and saved the producers a gross of \$7 an acre.

Spot treatment of Johnson-grass, says the specialist, can eliminate the pest in one year while a full crop can be produced on the treated acreage.

Elliott advises cotton producers who would like detailed information on the recommended weed and grass control practices to contact their local county agent for the desired information.

Study Club Sees Hawaiian Pictures

Members of the Knox City Study Club took an imaginary trip to the Hawaiian Islands at their regular meeting held Thursday at the Woman's Club.

Colored movie films were shown by Charlie Keck of the trip he and his wife made to the islands last summer. Background music of selected Hawaiian recordings were played throughout the showing. Mr. and Mrs. Keck visited friends in Hawaii, and made flight trips to Maui and Honolulu. Enroute home they toured picturesque places in California.

Mrs. J. C. McGee presided in the absence of the president, Mrs. C. J. Reese. Special music was provided by Mrs. Kenneth Lankford and Mrs. Kenneth Myers.

Mrs. McGee and Mrs. W. J. Morris were hostesses.

The next regular meeting is scheduled for Thursday, April 17, when a program about Texas women will be presented. Noted Texas women to be discussed are Oveta C. Hobby, Annie Webb Blanton, and Sarah T. Hughes.

Only 4 Days Left For Car Inspection

Twenty per cent of the vehicles in this area have not been inspected as required by State law and there are very few working days left prior to the inspection deadline on April 15.

Major R. A. Crowder, Regional Commander of the Texas Department of Public Safety, said today that all owners of vehicles required to be inspected should have them inspected prior to that date, if they are to avoid being issued citations for violation of the Motor Vehicle Inspection Law. All traffic law officers will be concentrating their efforts toward this violation beginning April 16, he further stated.

"It is still possible to avoid the long lines encountered in the last few days, if motorists will take their vehicles to State approved Inspection Stations now," said Crowder.

The Regional Commander advised that time is of a premium between now and midnight April 15, and that waiting lines will be in store for those who wait as the deadline approaches.

and the Dale Moore Circle of the Baptist WMS met at the church Monday for Bible study. There were 12 ladies present for the meeting. Mrs. Sam Johnston gave the study on Stephen.

Abilene Man Named Field Representative For Salvation Army

Appointment of Charles Brannen of Abilene to be new field representative for the Service Unit Department of The Salvation Army in Region IV, which includes Knox County, is announced by Dan Eddy, State director for the Service Unit Department. The Service Unit is the local organization in many cities and towns in Texas through which the relief work and other activities of The Salvation Army are carried on.

A native of West Texas, having been born in Aspermont, where his father, C. E. Brannen was an abstractor and later county judge, Charles attended public schools in Aspermont and was graduated from the Ralls High School. After one year as a student at Hardin-Simmons, Abilene, he entered the University of Arkansas at Fayetteville and was graduated at mid-term of 1953 with degree of Bachelor of Science.

As field representative for Region IV, Brannen will travel

extensively to cover territory from the northern Texas Panhandle to Grande, working with committees in more than 10 towns and communities.

Mr. and Mrs. Don Deavers, Donna and Worth spent the week with Mrs. Deaver's parents and Mrs. W. P. White, tie.

Dr. and Mrs. T. P. Es turned Thursday from Antonio where he attended a convention.

Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

I was reading this morning where the American Public Health Association announced yesterday that more farmers was killed on the job last year than "in any other occupational group." Farming, they allow, "is the third most dangerous occupation."

They don't know the help of it, Mister Editor. Them that survives just barely makes it. Last summer, for instance, I tried to work the farm by sun time, go to church by standard time, watch television by daylight saving time, and get to bed by God's time. In a manner of speaking, I was having a helluva time. After I wore out three clocks I just went back to sun time and stayed there.

Them that survives spends about all their time between "rotating" and "estimating." Sometimes I think the surviving ain't worth it. For instance, after a farmer surveys his patches so's he can rotate according to law, it's time to estimate how much he's going to make for income purposes. That "estimating" calls for supernatural powers.

To git a "estimate" that'll be accepted, a farmer has got to guess the annual rainfall, just when it'll come and when it won't. He's got to figger about what date the first frost will hit,

which way the boll weevils will be migrating in June.

All of this distracts a farmer's mind from farming. I wouldn't be surprised if some of them that got killed last year fergot and stuck their head in the mowing machine while they was trying to rotate and estimate.

I see by the papers where a feller named Daniel F. Gilmore, writing for the United Press from London, says from now on "world attention will focus on the moon."

I got news fer Mister Gilmore and them United Press fellers. Farmers has been focusing their attention on the moon fer centuries. Any farmer that's got sense enough to know how to drink out of a gourd knows that agriculture would never have been invented without the moon.

There's certain things that's got to be planted in the dark of the moon and other things that's got to be planted in the light of the moon. If you do it backwards, you'd just as well sign up the land fer Benson's soil bank. And the saving of hog meat depends entirely on the moon. Salt your hog meat a way in the dark of the moon and you'll have bad tasting meat. Farmers has knowed that since hogs was hogs.

Yours truly,
Uncle Ben

STATE PLANS CRACK-DOWN ON UNLICENSED DRIVERS

An effort to rid Texas highways of unlicensed and unsafe drivers was revealed today by Major A. A. Crowder, Region 5 Commander of the Texas Department of Public Safety.

At the same time, Crowder pointed out that sixteen percent of all rural fatal accidents in Texas during 1956 involved an unlicensed driver.

Officers of the Department will begin conducting driver's license checks in the immediate future on all traveled thoroughfares in Region 5 and throughout the State. All motorists that are stopped will be required to exhibit their licenses to the officers.

Crowder said that thousands of Texas motorists are operating motor vehicles on expired driver's licenses or have never been licensed at all.

"It is not our desire to surprise motorists without a forewarning," Crowder said. "So we would like to take this opportunity to advise them that they may expect these checks at any time in the future," Crowder stated.

The Commander stated that the driver's license law in Texas is nearing 22 years on our statutes and we feel that no driver has a legitimate excuse for not having a valid driver's license. This law requires any operator of a motor vehicle who resides in Texas or has gainful employment in the State to be licensed as an operator, commercial oper-

ator or chauffeur.

The driver's license checks will be made on a full scale enforcement basis and vehicle safety inspection stickers will also be checked and motorists not having a valid driver's license or current inspection sticker as required by law will be cited into the proper court.

Major Crowder is requesting all City Police Departments and County Sheriff Departments to assist in this effort.

Any questions concerning driver's licenses, including date of examinations should be directed to the nearest Sheriff's office, Police Department, or Department of Public Safety facilities Crowder concluded.

Mr. and Mrs. Alvin Roberts and children of Tulsa spent their Easter holidays here with their parents, Mr. and Mrs. C. W. Stephens and Mrs. Annie Bell Roberts.

Mr. and Mrs. Dub Gage of Santa Ana, Calif., came in last Friday to visit his parents, Mr. and Mrs. Bob Gage. Visiting this week in the home is a daughter, Mrs. Joe Carlile, and her three sons of Carlsbad, N. M.

Mr. and Mrs. Robert Gaines of Dallas were week end guests of her parents, Mr. and Mrs. Jess Hitchcock, in Knox City and his parents, Mr. and Mrs. J. R. Gaines of Munday.

Rochester Boys Win O'Brien Track Meet

Rochester swept the O'Brien grade school invitational track meet Monday with 56 points, followed by Munday with 22, O'Brien with 12 and Aspermont with 8 1-2.

Rochester won first place in eight events. Tommy Sloan was first in pull-ups, Reynaldo Carrion first in 50 yard dash, 100 yard dash, 75 yard dash and high jump, Ralph Vela was first in shot put, and the Rochester team won the 440 yard relay. The team also won several places in other events.

O'Brien's Ronnie Hamilton was second in pull-ups, and Larry Gibson tied for third in the same event. Jerry Force was in a five-way tie for second in the high jump, and Larry Gibson tied for third in pull-ups, and won second in broad jump and fourth in the 75 yard dash.

Play Presented By O'Brien Circle

An excellent crowd saw O'Brien Community Circle's presentation "Hessie of the Hills" Tuesday night, despite threatening weather which followed a tornado alert here Tuesday afternoon.

The 3-act play will be presented tonight (Thursday) in the Rochester school auditorium. Mrs. Lynward Wilcox, president of the circle, said those who missed it Tuesday night are urged to see it tonight. Proceeds from the play will go toward the construction of a storm cellar on the O'Brien School campus.

Mrs. J. M. Bradberry introduced the characters, all adult members of the CC. They were Mr. and Mrs. Alton Hester, Mr. and Mrs. Wilcox, Mr. and Mrs. Dwight Griffin, Mrs. Truitt Hester, Mrs. Junior Reeves, Dempsey Emerson, Mrs. Elmo Stephens, and R. P. Barnard, Jr., Jack Varnell, dressed as a red-headed hillbilly, entertained before curtain time.
