by "The Wrangler"

For some years there has been a spirit of liberalism in the Democratic party. We recall a speech made by Alfred E. Smith just before he was nominated as a candidate for the presidency in 1928. In speaking before a group of women voters of the state of New York he said: "Four times, as governor I have taken an oath to sustain the constitution of the state of New York, and yet there are parts of it I hate." At another time he told another group of voters, "It is the right of our people to reorganize to oppose any law and any part of the Constitution with which they are not in sympathy."

The first cattle brand ever to be recorded and established as league ownership was the brand of "H C" belonging to R. H. Chisholm of Gonzales on March 4, 1832. There is no indication that this Chisholm was related to the Jesse Chisholm, for whom the famous cattle trail was named.

Pardon and parole of convicts would be removed from the authority of the Governor under the amendment to the State Constitution upon which the people of Texas will vote next fall. It is not too early for the voters of Texas to start thinking of his proposed amendment and the other five that will be voted on in the November election. The trend of the average voter is to carelessly glance over the group of proposals and mark all or leave all as they are. Think seriously. This is one time when the voter does his legislation directly.

Comics and pictures rank ahead of news and editorials in luring and holding subscribers, members of the International Circulation Managers decided this week in their annual meet in Dallas.

At a meeting of teachers at McKinney recently the question was asked: Who was or is the greatest woman in history? Many women's names were submitted, the prize winning name was "The farmer's wife of moderate means who lives within her budget, brings up a family of children to be useful to society, and one who still finds time for intellectual improvements".

A notice found in a weekly county newspaper read: Anyone found near my chicken-house at night will be found there the next morning.

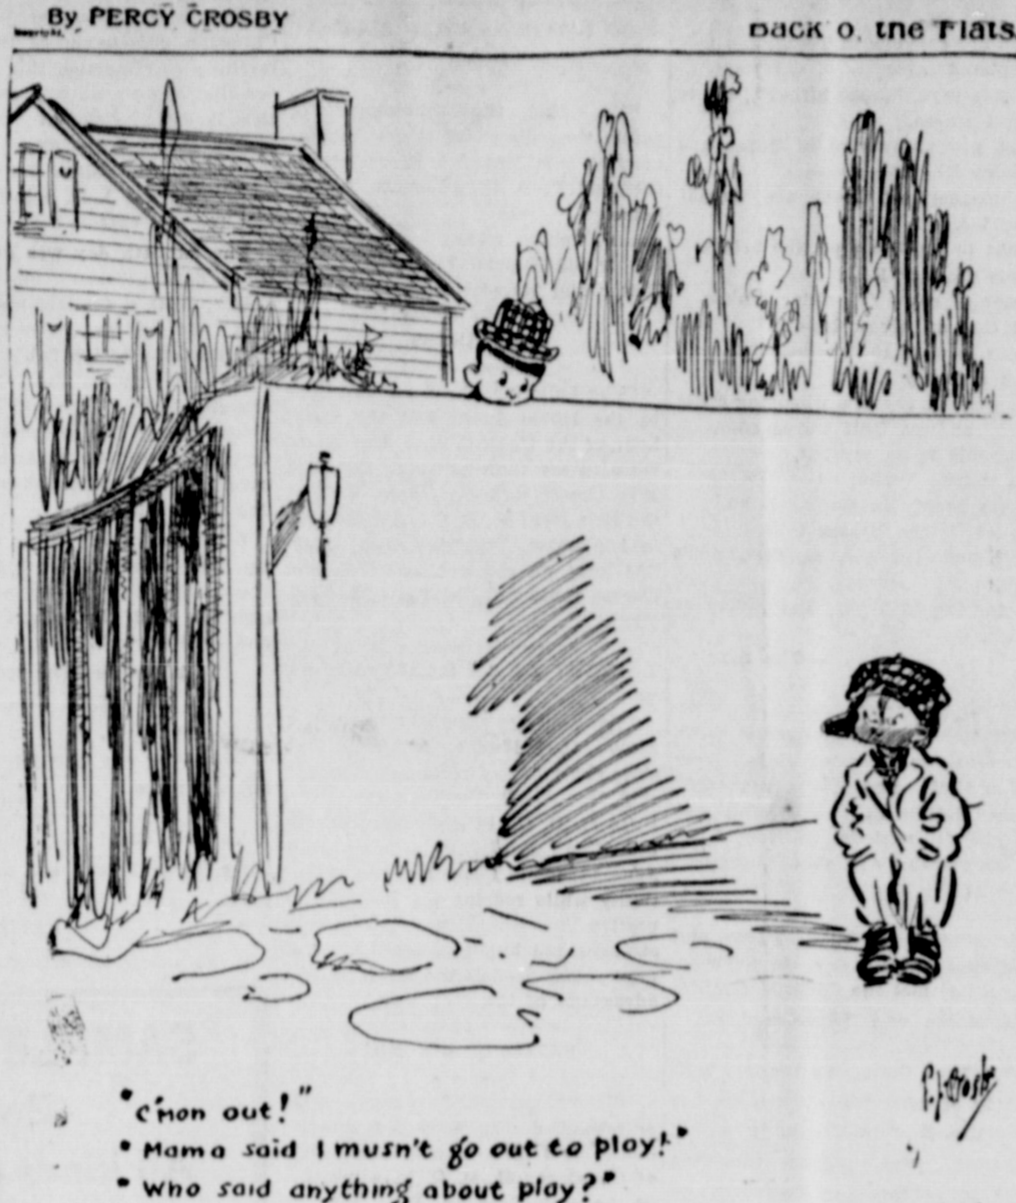

Final arrangements are being made for the official dedication of the Laredo to Mexico City highway on July 1.

If you are planning to go to the Centennial, and all Texas should take the advice offered by Dr. Bass, city health officer of Dallas, and wear a pair of light woolen socks, a good pair of well-fitted shoes, and use a good brand of foot powder. Be kind to your feet, and they will be kind to you.

One of the boldest weeklies in the State of Texas is The East Texas Times, published at Big Sandy by S. W. Mark and Julia Adams. They use as their motto: No man ever did or ever will dictate how we edit The Times, or what we print. The sheet is a four column type and subscription rates are 25 cents for Upsher county people and one dollar for people living in other counties. They stand for less government in business; and less business in government.

Mr. and Mrs. A. J. Malouf and children left this week on their vacation trip to Salt Lake City Utah. They went by motor through Arizona then into Salt Lake. They will attend a wedding in Utah as well as indulge in many other outstanding events and pleasures before returning to Texas through California.

Mr. and Mrs. Scott Dalton and children drove to Lawton Oklahoma Saturday. They arrived in Wichita Falls only a short while after the cyclone had struck and viewed many houses that were destroyed. Seven people were killed during the time. Herald Dalton remained in Lawton with his grand parents.

KNOX CITY BAPTIST AT ANSON HOMECOMING

Several Knox City Baptist attended the Home Coming of Baptists in the Anson church, Anson, Texas Sunday. Among them were Mrs. Joe Averitt, Mrs. T. E. Robbins and daughter Jo Nellie and Miss Wynell Edwards.

The Baptist church in Anson was organized in 1850 one year before the county was organized. Charter members were 12 in number five of whom were members of the Carr family, Mrs. Joe Averitt's grand parents and parents.

The home coming was scheduled for the entire day and written invitations were mailed to all charter members now living and former members. Guests arrived in Anson in time for Sunday School and classes with enrollment of 16 or 12 were swelled to 39 and 49. After Sunday School church service followed then dinner, served by the host church.

The afternoon program included a most delightful sing song, and the reading of regrets from those unable to accept the invitation to attend the Home Coming.

The Duchess Beauty Shop moved last week to the back section of the City Barber Shop. Press Clarke has closed his Tailor Shop and the Beauty Shop finds their new arrangement much more desirable.

AT THE METHODIST CHURCH

Church School, 9:45 A. M. Preaching, 11 A. M. and 5 P. M. Woman's Missionary Society, Monday 3 P. M.

The attendance was fairly good Sunday and we are hoping that it will continue to increase. One cannot do a better thing for himself, his community and his church than to regularly attend the church services. The church needs the presence of all the people, and each person needs the help attending the services will give.

Remember: the first Sunday in July, the Revival Meeting begins. We had hoped that it would be a co-operative meeting, of all the churches, and we still hope that it will be in spirit, if not in name. We need a real old-fashioned revival. Lets all come together for two weeks in July, and put ourselves in the hands of the Lord, and "Try Him" lay hold of the Promise, and "See if He will not pour out his Spirit upon us". The Blessing is ours, if we will only claim it.

Services: Sunday morning, promptly on time. Will you come? B. J. Osborn, Pastor.

Thursday morning, June 18, before a large crowd of patrons, Mrs. H. M. Jones, Mrs. W. V. Favor and Mrs. T. S. Edwards, broke the ground for the erection of the new school building.

As president of the Parent-Teacher Association for the school year recently closed, Mrs. H. M. Jones shouldered the pick and made the first break in the soil. Mrs. W. V. Favor, president of the P-T-A for the coming year, then took up the shovel and threw out the first scoop of soil. Mrs. T. S. Edwards, selected because of her many years of untiring work in the school, and her outstanding accomplishments in helping to secure the new building, then hoisted the second shovel of dirt from the foundation form. O. B. King, superintendent, followed by the picking of a large spot. Mrs. C. C. Hoge was called up but not being present, was unable to respond.

A few of the Parent-Teacher members then gathered about the broken soil and posed for a picture which they hope to see in print soon.

The ceremony, though short, was one of the outstanding events in school history for some years. It means, as expressed by the Parent-Teacher president, Mrs. W. V. Favor, that dreams for the education of the youth of Knox City are about to be realized. The new school building is now actually in the making.

Friends of Fred Warren will be glad to learn of his recent promotion in the company in which he is employed in New Mexico. He has been with the Lee County Water Works which just recently opened business in a Gas Company. The Missionary Society of the Methodist church will meet Monday, June 22 with Mrs. L. L. Davis in a social. At this meeting capsule sisters will be revealed and new names drawn. Every member is especially invited to meet with Mrs. Davis, her assistant being Mrs. S. E. Park.

Misses Louise and Mary Davis visited relatives in Comanche Sunday.

HALL OF RELIGION WILL BE DEDICATED SUNDAY 2:15-2:45

Dallas, Texas, June, 17.—Dedication of the Hall of Religion, Centennial Exposition, Dallas, will be broadcast Sunday afternoon from 2:15 to 2:45 by Texas Quality Network, WF AA, WBAP, KPCC, WOAI, four of the largest radio stations in Texas according to announcement of W. A. Scott, Hall of Religion director.

Right Reverend Harry T. Moore, Bishop of Dallas Episcopal church, will make the dedicatory address and L. B. Denning, president of Lone Star Gas Company will speak for stockholders of the Lone Star Gas system who gave the building to the churches of Texas.

The Hall of Religion, given in recognition of the importance of church influence in the conception and development of Texas, affords all religious groups a prominent and distinctive place in celebration of the state's 100th anniversary, according to Scott.

"Visitors to the Centennial will find the Hall of Religion a convenient place to meet friends. It is air conditioned and cooled, contains exhibits depicting history of religion in Texas, and affords comfortable furniture, rest rooms, and a spacious outdoor patio," the director said.

Laughing Around the World With IRVIN S. COBB

History in the Un-Making

By IRVIN S. COBB

THERE used to be a character in George Creel's town in Missouri, a transplanted Kentuckian, a self-appointed colonel and a veteran of Shelby's command, who is a born orator and an inspired romancer.

One sunny afternoon he was holding forth to an attentive and sympathetic audience upon the part he had played in the war between the States. It was rather to be inferred that he was one of the main reasons why the Confederacy endured, against odds, for four years. He progressed to where he was enriching history with an account of the first engagement in which he had participated.

"Gentlemen," he proclaimed, "envisage the scene. There we stand, a little group, armed for the most part with nondescript weapons, with flint lock muskets, with scythes, with axes, even with cudgels. Over the slope and straight against our line come pouring the Northern hordes, those relentless invaders of our beloved Southland.

"We were outnumbered three to one; we are weak from hunger while they are lusty with bacon and beef. But none among us quails. We grapple with them, we fight like demons. And, gentlemen, such is the impetuosity of our attack, such is the ferocity of our blows, that soon the blue lines break and in mad disorder routed the enemy flees, unable to face the irresistible torrent of Southern manhood."

From the audience spoke up a gray bearded listener.

"Say, looky here, Kurnel," he said, "I was in that there fight myself and what really happened wuz that them plegged Yanks give us a fast rate lickin', and run us ten miles across country."

With a magnificent gesture of surrender the Colonel rose to his feet.

"Gentlemen," he said, "another instance of a good story spoiled by a damn eyewitness!" (American News Features, Inc.)

Don't look for me, London, Don't count on me Rome.
I'm touring in Texas, I'm roving at home.
The palms down at Brownsville, they beckon and call;
The pines on the Neches wait, solem and tall.
There are canyons in Texas, and hills explored caves;
Our flag says, "Come hither", where ever it waves.
There are mountains in Texas and plains like the sea—
The wonders of Texas are waiting for me.
I want to see the pipe line bridge Across the lazy Red;
I want to roam the cedar brakes, And find an arrow head;
I want to walk the shell-strewn sand Upon a lonely shore,
And hear the cry of a whooping crane Where endless Gulf waves roar.
Ysleta old is on my list, Also Adobe Walls;
There's beauty in Medina Lake, And where the Brazos falls.
Don't look for me, London, don't count on me Rome,
I'm touring in Texas, I'm roving at home.

GOOD KITCHENS MEAN A GREAT DEAL

"I'm glad the following three points were discussed at the regular meeting said Mrs. Joe Ferris of the Gilliland H. D. C., June 5th, in her home.
Good Kitchens mean:
Better and Happier Farms
Better and Happier Folk"

HAPPINESS

"The bulletins, the demonstrations by the Home Agent and the social hour of the H. D. C. club, has meant more to me than anything has in a long time," said Mrs. Lola Yost of the New Hope H. D. C., at a meeting in her home, Thursday, June 11th. "At least we can get together and discuss community affairs and each other."

START AT AN EARLY AGE

"I'm glad my daughter has had a chance to belong to a H. D. club since she's started rearing her family," said Mrs. E. T. Clark of the New Hope H. D. C., in a conference with the Home Agent, in a home visit June 11th. "If I had had the opportunity while rearing my family, I'm positive they would have grown up a stronger and healthier lot. I can not urge young parents too much to take advantage of the club work."

FATIGUE? NO! NO!

"I'm not going to have nerve weariness or fatigue during these hot summer days," said Mrs. Hubert Blankenship of the Goree H. D. C. in a meeting of the club Tuesday, June 16th, in Mrs. Clyde Boles home. "If fatigue is brought about by:
Worry over broken down equipment
Worry over poor utensils
Worry over dull knives
Worry over poor broom
Worry over poor washing equipment
Physical strain from inconvenient of working surfaces, then I shall do all in my power to remedy the situation."

A SUCCESSFUL CLOTHING DEMONSTRATOR AT 10 YEARS OLD

"Oh, I'm thrilled about my winning first place in the county on my smock. I just can't think of anything said Mary Evelyn England, Clothing demonstrator of the Dixon 4-H club in regular session, Thursday, June 4th. "But I really worked on the smock and spent plenty of time taking my time in making it right."

The Growth of Bureaucracy
By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

During the past five years the population of the District of Columbia, seat of our national government, has increased more than 22 per cent.

No state, or group of states, has approached that rate of growth during the same period. It compares with a population increase of 2.9 per cent for the nation as a whole.

What caused the jump? A recent report of the Census Bureau, whose estimates supply the figures, attributes it to an unprecedented peace-time influx of Federal employes to jobs in the scores of new bureaus and commissions functioning during the past few years at Washington.

These are significant facts. They introduce an arresting element of novelty in the American picture. Except during the brief emergencies of war-time our most striking growths heretofore have occurred along what might be described as our geographical and industrial frontiers.

Population increased at the swiftest pace in states where new and productive lands were being developed by agriculture; in cities where new and productive industries were originating and expanding.

Inevitably such growth meant greater opportunity for the men and women who took part in the development; greater wealth for the nation and its citizens as a whole.

But an unprecedented increase of job-holders at Washington has quite a different meaning. It shows only a growth of Bureaucracy. Unlike the men and women who, by their energy and their labors, continue to develop America and to bear the costs of its government, many political job-holders produce little or nothing. They consume, instead—out of the share of all men and women who labor in the home, on the farm, in the factory or in business.

And the greater the number of those who merely consume, the greater the burden on those who produce.

STORES CONGRATULATED

The Red and White Store publicly announced last week that it would not open Sundays for business. This is very commendable, and we want to express our appreciation for the stand it is taking. We feel sure that we express the sentiment of all true Christians in this matter. We ask the Christian citizenship of this trade territory to remember this store, and see that it does not lose anything by this laudible stand it takes. This makes two grocery stores that will not open on Sundays, as we understand that the J. M. Edwards' Store has had this custom for sometime.

The Sabbath day was given to us for a day of "Rest", and to "Keep holy". It is a fundamental law of God, and has never been repealed. The breaking of the Sabbath has become so common that men, even church members, have lost conscience in the matter. The abuse of the Sabbath day is causing more harm to the cause of righteousness than any other one sin of this day.

Our hats are off to you Mr. Waldrip, and Edwards. We bid you God speed. May your business prosper. We sincerely wish that others may, "Go and do likewise."

Old Age Pension News

AUSTIN, TEXAS, June 15.—This is the fourth of a series of questions asked by citizens of this State and answered by Oroyville S. Carpenter, executive director of the Texas Old Age Assistance Commission:

Q—Did the United States Government have any part in drafting the Texas law?

A—The Texas Legislature drafted the Texas Old Age Assistance Law in such form as to enable Federal cooperation. In preparing the bill the Legislative Committee had the assistance and advice of a representative of the National Social Security Board.

Q—How many applications for assistance have been received?

A—About 190,000.

Q—How many applications do you believe will be approved by July first?

A—Approximately 49,000.

Q—What about the payments to those old people whose applications have not been approved July 1?

A—The Commission will continue investigating applications for assistance, and as each application is approved, the applicant will receive a check for all payments beginning July 1. Aged applicants who are found to be eligible after July 1 will receive back payments. This, of course, concerns those who applied before July 1 and are subsequently found eligible.

Q—Payments will be based upon need as required by law?

A—Yes. Payments will not only be based upon need but upon the amount of need. Old people who need more money will receive larger grants than those whose needs require less.

Q—Is it true that after the first job of investigating 190,000 applications, the operating expenses of the Commission will be paid by the Federal Government?

A—Yes. We believe that a large part, if not all, of the actual costs of operation after the 190,000 applications have been investigated will be paid by the U. S. Government. The 5 per cent expense allotment allowed Texas by the Social Security Board will be sufficient, we believe, to cover the ordinary running expenses of the Commission.

The Spirit of Jefferson

By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

"Since the days when Jefferson expounded his code of political philosophy, the whole world has become his pupil."

Many Americans undoubtedly recalled that tribute during the recent birthday honors to the author of our imperishable Declaration of Independence.

How well one wonders, do those of his pupils who wield political power today, remember the teachings of the Sage of Monticello? How faithfully do they apply his principles? Let's recall—for them and for ourselves—some of the precepts that Thomas Jefferson left us as a guide. Here, in his own words, is a record of his answers to many of the problems which confront us today—

Our Constitution

"I do, with sincere zeal, wish an inviolable preservation of our present Federal Constitution according to the true sense in which it was adopted by the states."

"No Constitution was ever before so well calculated as ours for extensive empire and self-government."

Public Debt

"Taxation follows public debt, and in its train wretchedness and oppression."

Economy in Government

"I am for a government rigorously frugal and simple."

"We must make our election between economy and liberty, or profusion and servitude."

Centralization of Power

"It is not by the consolidation or centralization of powers, but by their distribution that good government is effected."

"Were we directed from Washington when to sow and when to reap, we should soon want bread."

Personal Liberty

"A wise and frugal government, which shall restrain men from injuring one another, which shall leave them otherwise free to regulate their own pursuits of industry and improvement, and shall not take from the mouth of labor the bread it has earned. This is the sum of good government."

Freedom of the Press

"Our liberty cannot be guarded but by the freedom of the press, nor that be limited without danger of losing it."

The People

"If we can prevent the government from wasting the labors of the people under the pretense of taking care of them, they must remain happy."

So long as our public men—and we ourselves—remember those teachings, the spirit of Jefferson lives. When we forget them, that spirit dies—and with it the true spirit of America.

DISINHERITED?

By **RAYMOND PITCAIRN**
*National Chairman
 Sentinels of the Republic*

Through successive generations the American people have continued to receive one of the richest heritages in all history.
 Freedom of speech and of opportunity... the right to a decisive voice in the greatest government on earth... a national spirit of courage and self-reliance... a people who have dreamed the dreams of Croesus.
 These are but a few of the treasures won in the blood and the sweat of hard-working, hard-fisted pioneers and left to us as a natural birthright.
 How are we preserving that heritage? What is America doing to maintain or increase for posterity the things our fathers won for us? What will this generation leave to those who follow?
 Today the list seems discouraging. Its items would include:
 A burden of national debt which, as this is written, exceeds \$31,000,000,000—instead of an increasing national wealth.
 The threat of a new, alien philosophy of dependence and fear—instead of the spirit that sent Daniel Boone into the wilds of Kentucky and who's families over the hardships of the Oregon Trail.
 A glorification of the economic go-ahead—instead of the bold, free tread that could carry youth to whatever heights its strength and ability permitted.
 No wonder, as it regards this prospect, youth in America feels disinherited. No wonder thousands of older citizens, remembering the opportunities of their own youth, are protesting against a philosophy which robs their sons of similar freedom. No wonder the true descendants of the American pioneer are insisting that personal liberty and personal opportunity must be preserved in this country.
 Thousands of our ancestors fought and died to win for us those liberties and opportunities. Thousands more fought to preserve them. The newer generations have a right to enjoy the heritage. We cannot let them down.

Texas Cowboy Reunion News

STAMFORD, TEX. June 17—The best attended and one of the most enjoyable features of the Texas Cowboy Reunion has always been the big down-town parade. The parade this year will be the biggest and best in the history of the Reunion, according to Warren B. Tayman, chairman of the parade committee who says that some brand new attractions will be incorporated in this year's event.
 Parades will be held daily during the three days of the Reunion, July 2-3-4. However, the grand parade of the Reunion featuring merchants floats, individual decorated floats and cars, cowboys, mounted girl sponsors, junior cowboys chuck wagons, clowns and brass bands will be held on Friday July 3 the second day of the Reunion, starting at 11 a. m. A special parade of sponsors on horseback will be held the opening day, Thursday, July 2, at 9 a. m.
 Mrs. Margery Bailey who has charge of floats is booking entries now for the parade. Cash prizes of \$10 each will be awarded to the winners as follows: best individual entry, best commercial entry best out-of-town entry and most typical ranch entry. The winner of the best juvenile entry will drawn down \$5. A new ruling of the parade committee requires that all entries must be registered before the parade starts.
 At least six bands and possibly more will play at all rodeo performances during the Reunion. The Haskell Band, Breckenridge High School band, Abilene High School band, Mascot Temple band, Wichita Falls and the Stamford Fireman's band will all appear in the grand parade on Friday.
 A regular stage coach purchase some time ago by the Reunion will be an added feature to this year's parade, and is expected to attract considerable attention as well as bring forth many stories of "I remember when..."
