## MODERN JOSEPHS PROPOSE STORING OF CORN FOR LEAN YEARS

A new Joseph, properly speaking a commercial or financial one has arisen, this time on Wall Street or thereabouts. In an ancient period of time during the years of plenty in a certain land, Joseph stored up a great quantity of corn, enough to supply all the people for a long drouthy period, and that is just what the financiers of America are now proposing to do in the United States. Their plan is to finance the farmer in holding his corn, until such time when overproduction is passed and the lean years set in. They point out that crop records show that unusual yields do not continue indefinitely, and that in years ago when there was a temporary surplus, a cribbing of corn was successfully undertaken in carrying forward the surplus. If this financial committee can thus turn each farmer into a hoarding Joseph, there is small probability that lack of food will ever hamper our national activities in a similar manner as Russia and other countries are now depressed.

## THE COUNTRY NEWSPAPER

BY BRISTOW ADAMS

I am the Country Newspaper. I am the friend of the family, the bringer of tidings from other friends: I speak to the home in the evening light of summer's vineclad porch or the glow of winter's lamp. I help to make the evening hour; I record the great and the small, the varied acts of the days and weeks that go to make up life. I am for and of the home; I follow those who leave humble beginnings; whether they go to greatness or to the gutter, I take to them the thrill of old days, with wholesome messages. I speak the language of the common man; my words are fitted to his understanding. My congregation is larger than that of any church in my town; my readers are more than those in the school. Young and old alike find in me stimulation, instruction, entertainment, inspiration, solace, comfort. I am the chronicler of birth, and love and death—the three great facts of man's existence. I bring together buyer and seller, to the benefit of both; I am part of the market place of the world. Into the home I carry word of the goods which feed and clothe and shelter, and which minister to comfort, ease, health, and happiness. I am the word of the week, the history of the year, the record of my community in the archives of state and nation. I am the exponent of the lives of my readers. I am the Country Newspaper.

## Wild Dogs Doing Damage on Kentucky Ranches

Lexington, Ky., Nov. 3.—Preparations are being made at the famous "Coldstream" cattle and sheep breeding farm near this city, belonging to C. B. Shaffer, Chicago millionaire, to exterminate a pack of dogs which have assumed the savagery of wolves.

The dogs have pursued several persons and recently attacked Daniel Bryant, an employe of the farm, who saved his life by opening fire on the canines. A. H. Buehler, another employe, with Bryant, was tracking the pack when they saw Bryant and rushed at him. When he drove them off by gunfire they ran toward Buehler, who was hidden. He fired six bullets into the pack, killing four and wounding two.

The pack developed within a year from two wild dogs, and their species is unknown. Employes of the farm who visit that part of the estate where the dogs roam go heavily armed.

This month—November—is in a large measure the Harvest and thanksgiving season, next month we shall see and experience more of the holiday spirit. Armistice Day in coming in November will lend added solemnity to the month already made hallowed by its thanksgiving era. Armistice Day should command the support and reverence of every loyal heart. It is not merely a holiday but a time set apart to do fitting honor and homage to those who sacrificed so heavily during those years when civilization was on trial. It is presumed that every one will take this day apart from the usual business life and solemnly reflect on the course of events that has raised our nation through lofty example to the highest standard among all the family of nations.

Agriculture is the greatest factor in any national life, a nation must be well fed if its people are to be contented and prosperous. This fact has long since been recognized as is shown by the many organizations now operating to improve the methods of production as well as to materially increase it. The nation that neglects to promote and encourage agriculture is laying stones in the path that it must travel to independence and progress.

Angelo Patri is writing a series of articles to prove that children are not young adults. This is time wasted for we have no less authority on that than the Apostle Paul who said: "When I was a child I spake as a child, I understood as a child, I thought as a child; but when I became a man I put away childish things." If people would search the scriptures a little more and speculate and give their opinions a little less they might arrive at many conclusions in a more authoritative way.

A number of the Senators at Washington are demanding the retirement of Secretary of Treasury, Mr. Mellon, because of his close connection with, and his powerful influence over the greater financial institutions of the United States. We don't know how it was before there was any written or printed record, but as far back as that it takes us, the rich men were holding the high offices and we are not expecting the situation to change much in the near future. As long as men's success and ability is judged by his capacity for accumulation of wealth, they will of course occupy the positions of trust and will thereby be enabled to so manipulate the affairs of the state as to be immense value to their private affairs. But the editor learned long ago how to lead the oppressor's wrong and proud man's centumely and if the rest of you haven't learned that you have considerable worry coming to you from which we are entirely free.

Senator Tom Watson's sensational charges against Military discipline of the Expeditionary forces in France is about like sending up a skyrocket on a holiday; it attracts attention only as long as visible and is thought of no more. The Senator will probably get considerable publicity out of the incident and he may succeed in establishing a small prejudice in the minds of some people, but on the whole the world will move along about the same as if Mr. Watson had not brought his grim charges to the attention of our people.

Every New Edison is a Period Cabinet

When your phonograph is not playing, it's a piece of furniture. If you and your family have "thousand dollar" tastes in furniture, you have still another reason for choosing the New Edison.

The accepted masterpieces of furniture were created during the 16th and 17th Centuries, by Chippendale, Sheraton, the Brothers Adam, etc.

People today pay thousands of dollars for replicas and adaptations of these fine old designs.

Mr. Edison has taken the "thousand dollar" period designs, and made them into cabinets for his remarkable New Edison. No matter which New Edison you buy, you become the envied owner of a genuine piece of period furniture.

Before you buy elsewhere, come in and compare.

**The NEW EDISON**

See the authentic English, French and Italian designs, you can get in a New Edison—and compare!

Hear the marvelous RE-CREATIONS of music which the New Edison brings you—and compare! (Remember, only the New Edison RE-CREATES music so perfectly that the reproduced music sustains the test of direct comparison with living artists).

Then, figure the price,—and compare!

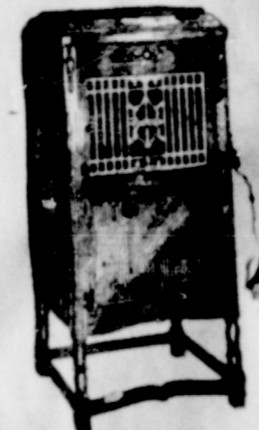

For \$\_\_\_\_\_ (write in your own first payment) you can have your New Edison delivered to your Christmas tree. Pay us no more till next year,—then budget the balance according to your convenience.

This is an actual Christmas offer!—to you! The only condition is that your initial deposit be sufficient to indicate good faith. So don't hesitate! Come in,—see and hear the New Edison.

## Thanksgiving Sale November

SALE BEGINS, SATURDAY, NOV. 12, AT J. T. BRYANT & CO.

AMFC

Those who read this ad will do their friends a great favor if they will tell them about this National Sale. Tell them that practically every item is brand new and fresh from the wholesale houses, and represent the best value. We have marked them so low that there will be no argument as to the big savings we will give them.

### REASONS FOR THE SALE

Twice a year we go in the Wholesale Dry Goods Market to buy first class goods under the current prices. This we can do by waiting until their season is nearly closed. As their fall and spring season is 70 to 90 days earlier than the retail season, this fits in nicely. Up to this good hour we have been wonderfully successful. We demonstrated this fact at the J. T. Bryant & Co. and will prove it again in our BIG THANKSGIVING SALE. We do not employ professional sales promoters to sell our

merchandise, but trust to the superiority of our goods and prices, as well as STYLES, for our success.

We do not buy junk or trashy merchandise, therefore we have none to unload. But on the contrary, we buy only known and reliable goods—a class we can recommend and stand behind.

One dollar spent during this BIG SALE will buy more than Two Dollars will next March, and the citizen who comes to this sale and buys not only his present needs, but such

staple goods as he will need for the winter.

In token of our high appreciation shown us during the present year and surrounding country, we have a THANKSGIVING SALE that would be a Bargain Feast. A Sale that would mean for you will find bargains in every department. All fresh new goods to select from.

## The Moment I Saw the Sample I Wanted This "Oatmeal Finish"

Immediately I wanted walls and ceilings of Cornell-Wood-Board, with this handsome surface that is already primed. "Mill-Prime" they call it—and requires only one coat of paint or calcimine to give a perfectly beautiful effect. In fact, in the kitchen and attic I left the Cornell Panels in their natural "Oatmeal" tint and I've never seen any walls so clean and sanitary.

## Cornell-Wood-Board

As compared to the work, the litter and the time in lathing and plastering (not to mention the cost) it seems quite marvelous to me how easy and quick it is to finish an interior with Cornell-Wood-Board instead. Anyone who can handle a hammer can nail Cornell to the joists and studding or over damaged plaster.

In doing your repairing and remodeling this Fall you'll make a mistake if you don't get our revised prices on roofing, siding, rough lumber, flooring, sash and doors or most any other building material you have in mind.

**'BLACK COUNTRY' ONCE MORE**

Great Manufacturing Section of England is Again Fully Justifying Its Old Name.

The coal stoppage in England is over, and the "Black Country" once more resuming that spreading cloud of carbon and chemicals which has lain over it for more than 200 years. Blast furnaces and chimney stacks are again belching smoke. This black country, clearly defined as the rim of a saucer, has many surprises to show. On the one side, for instance, lies a narrow ridge of high tableland, dividing the collieries and iron works of the great coal district from the verdure of the Western midlands. Looking to the east one may see a forest of stacks, each carrying its "plume" of black or yellow smoke. Looking to the left, one's eyes rest on fertile meadows sloping down the beautiful valley of the Severn, and the blue Welsh hills beyond the river tell of what the whole country may be when the smoke has really gone. Before that time it would seem that here in this black country, with its green borderland, is a subject fit for the brush of a landscape painter.

**IRISH HOME SPIN**

One notable effect of the revival of home manufactures, especially among peasant farmers residing in remote districts. Forty years ago Irish people in rural districts made their own blankets, sheets, under-clothing, stockings, knee breeches, hats, overcoats, window curtains and other articles. The practice was largely abandoned through the advent of goods from England and elsewhere, in return for agricultural produce. With many lines of communication closed to them, Irish peasants are frequently returning to ancient practices.

This is a thankful letter

My neighbor's little boy was invited away for Christmas. He had turkey and goose for dinner, and for supper he had chicken and corn. That evening when he had come home he got sick. His mother asked him what the matter was and he answered: "Oh, mamma, the chicken and the goose and the turkey are fighting over that corn."--Exchange.
