**Streams In Desert Places**  
By OZELLE STEPHENS  
"Blessed is the man that trusteth in the Lord and whose hope the Lord is." Jer. 17:7.  
Our hope for peace and happiness is only in the Lord. We have to cease from man and ourselves to have this because, "the heart of man is desolated waked above all things." Jer. 17:9.  
Without the guidance of the Holy Spirit we sometimes make decisions that bother our conscience, the peace of our soul and mind is disturbed. We do and say things that bring unhappiness to our hearts. You can be assured when this happens the Lord who made you and is watching over you is concerned. By his spirit he is trying to speak to you. He is trying to bring you into His presence so He can open your spiritual eyes so you can see His will. His heart is grieved when we walk in our own ways. It is real easy to do this when we fail in our daily devotions, prayers and to obey God's commands.  
Trust in the Lord and pray for His guidance and you will enjoy great Streams of His blessings.

### New Export Facility . . . Turkey Production Increases . . . Red Meat Production Expands.

New livestock export facilities for Texas will become a reality soon. The state of Texas has entered contracts for construction of the new facilities to be located at Brownsville and El Paso.

The new facilities, along with those already constructed in the state, will boost Texas further into the realm of international agriculture. About \$40 million a year is now added to the Texas economy through the livestock export business.

The new facilities will meet standards set by the U.S. Department of Agriculture and will include sheltered and curbed pens, vats for dipping, laboratory and office space, and hydraulic-operated chutes.

Other export pens are in operation at Houston, Eagle Pass and Del Rio.

TURKEY producers in Texas are expected to produce 16 per cent more turkeys this year than last year, the Texas Crop and Livestock Reporting Service notes.

The current crop is estimated at 9,091,000 birds compared with 7,851,000 raised in 1972.

Nationwide, turkey production is expected to be two per cent higher than last year. Minnesota is the leading turkey production state in the nation. Texas has ranked in the top 10 for several years.

The increase in turkeys in Texas for 1973 is in the heavy breed variety. A decrease of 5,000 birds is reported in light breeds.

RED meat production in Texas commercial slaughtering plants is up two per cent in July from the previous month and is one per cent above the amount produced in July, 1972.

Nationwide, red meat production is almost identical to a year ago, but is five per cent under June of this year.

In Texas, cattle slaughtered during July is 1,000 below the number slaughtered last month. Hog slaughter is down 9,000 head from last month. Sheep and lambs killed are up 4,000 head from a month ago.

Average live weight of calves slaughtered in July was 944 pounds.

AUCTION sales in Texas report sales were below year ago totals for cattle, calves, sheep, goats, and hogs.

Cattle and calves marketed through auctions during July numbered 588,000 head, six per cent below a year ago, and nine per cent under a month ago.

HARVESTING of 1973 crops is behind schedule of last year. Cotton harvesting is nearly 10 per cent completion. Corn harvest is about two-thirds behind in completion compared to last year.

Grain sorghum harvest is picking up momentum with some excellent yields of 2,000 to 6,000 pounds per acre reported in the Blacklands. The crop in the High Plains shows generally good growth.

Early fields of wheat have been planted on the High Plains. A shortage of fertilizer is being reported in wheat areas.

PLANS are nearing completion for the Food and Fiber Pavilion at the State Fair in Dallas to be held in October. The Texas Department of Agriculture's Marketing Division will again be in charge of the pavilion.

Purpose of the pavilion is to show the abundance and quality to be found in Texas-produced food and fiber.

# Tour of Western Canada Enjoyed by KC Residents

Among the 12,000 persons and 4000 trailers which met in Bozeman, Montana, June 28 to July 5, were Mr. and Mrs. Joe Averitt of Knox City.

The Airstream International Rally was held on the campus of the University of Montana and on land adjoining the campus. The Averitts reported a most entertaining time at the rally.

After the rally adjourned, various caravans were formed, with some touring the state of Montana, two going to western Canada and one to eastern Canada.

The Averitts joined a caravan which toured the western Canadian provinces of Alberta and British Columbia, visiting such points of interest as Calgary, Alberta, for the world famous Calgary Stampede; Lake Louise, famous for its beautiful mountain scenery; Hinton, where one of the world's largest pulp mills is located; Edmonton, for the Frontier Days Celebration; Chetwynd, B.C., the location of one of the world's largest earth filled dams; Victoria, B.C., noted for its government buildings patterned after those in England; and the end of the trip in Vancouver, B.C.

According to the Averitts, who had toured this area four years ago, the Canadian cities

are growing rapidly. The Averitts also noted that the economy, which is based on cattle, grain, hay, and mining seemed excellent.

The Averitts said they plan to attend the next Airstream International Rally, which is scheduled for June-July 1974 on the campus of Notre Dame University in Indiana.

## Pond Safety Suggestions Listed

Ponds, like any body of water, attract people. When the two come together, there always is a chance of a drowning or boating accident.

Ponds are an asset to the environment and have many uses. Arche Lieb, District Conservationist for the U.S. Soil Conservation Service in Knox County, states. During the past 30 years, Texas landowners have built more than 350,000 ponds

as part of their soil and water conservation plans. Some 120 have been built in the Knox County area.

Families and friends are attracted to ponds because they are nice places to picnic, swim, boat, or fish, Lieb said. But the small boy passing by who is attracted by the water may do almost anything. This is why keeping ponds safe is so important.

Here are some pond safety suggestions listed by Lieb:

1. Before construction, find out about your liability. You may need to protect yourself with insurance and have your pond built by a reliable contractor who will follow engineering specifications.
2. During construction, remove trees, brush, and anything else that might hinder safe boating or swimming. Eliminate sudden dropoffs and deep holes in the swimming area.
3. Once a pond is completed, mark the safe swimming areas and put warning signs at danger points. Tell swimmers not to swim alone, and post safety instructions for swimming and boating. Use boats that will float if swamped or capsized, and warn swimmers and boaters to stay out of ponds during storms and when spillways are flowing. Above all, recognize that farm ponds are hazards to small children. Your farm or pond can be a source of enjoyment as well as profit, but only if it is safe, Lieb concluded.

A helpful leaflet, Make Your Farm Pond Safe, PA 396, is available from local Soil Conservation Service Offices.

## PROCLAMATION (Continued from Page One)

have a fair chance to harvest the annual crop of game and fish without damage to the basic breeding stock of any species. Further, sportsmen's programs have benefited hundreds of non-game fish and wildlife through habitat development.

Hunters and fishermen, unique in all America, asked that their fishing and hunting equipment be taxed and that the money be used for land acquisition, research and habitat management for fish and wildlife for the enjoyment of all Americans. Through their publications and organizations—such as the National Wildlife Federation, Ducks Unlimited, Izaak Walton League of America and many others—hunters and fishermen have led the nation in the battle for a better environment and the wise use of our natural resources.

Therefore, I, Buddy Angle, Mayor of the City of Knox City, do hereby proclaim September 22, 1973, as Knox City Hunting and Fishing Day and that this Day be an annual observance the fourth Saturday of each September.

I urge all of our citizens to join with sportsmen-conservationists in a rededication to the wise use of our natural resources and their proper management for the benefit of future generations. Further, I urge all citizens to visit sportsmen's clubs on Knox City Hunting and Fishing Day to learn more about conservation and outdoor skills.

### SWINE SHORT COURSE

Dr. Gilbert Hollis and Dr. William Thomas, Extension Swine Specialists, are to conduct a Swine Production Short Course at Munday October 1 and 2, 1973.

The Texas A&M University Vegetable Research Center Meeting Room at Munday will be the location for the two evening sessions. All interested persons are invited to attend.

### ROLLING PLAINS SCREWORM CASES

August screwworm cases were confirmed in the Rolling Plains counties of Haskell, Stonewall and Mitchell. With the recent wet weather owners of livestock and pets are asked to make close observations of animals through September and October as these months are traditionally more severe months for screwworms.

Mail larvae from any possible screwworm to the Southwest Screwworm Laboratory in Mission, Texas for identification. Free mailing containers are available at the county Extension agent's office in Benjamin.

### SPUR EXPERIMENT STATION OPEN HOUSE

The Texas Agricultural Experiment Station at Spur will host an open house and tour of their beef cattle work September 27, 1973, starting at 9:00 a.m.

Sixteen-year-old drylot cows with their 14th calf crop produced in confinement and semi-confinement cows 3 to 9 years old with their crossbred calves will be seen on the tour. Also tour of silos, forage sorghum varieties and crossbred cows and cows on native pasture will be included.

The tour will take approximately 2 hours and return to the Exhibition Room where refreshments will be available and an informal question and answer period. No formal program will be held and lunch will not be served.

### 1973 WHEAT PROGRAM OUTLINED

The 1973 wheat program is designed to encourage all-out production and thus there will be no set-aside requirement. There will also be no conserving base requirement for the four-year life of the Agricultural and Consumer Protection Act of 1973.

New in the wheat program is the target price feature. If the average price for wheat is at or above the \$2.05 bushel target price, the producer will receive no payment. If the price average is below the target, the producer will receive the difference between the target price and the five-month average price received by all farmers.

There will be no preliminary payment. Any payment due will be paid after December 1, 1974. If the average price received by all producers is under \$2.05 bushel for the July-November, 1974, period, a producer would be paid on an amount of bushels determined by multiplying the farm allotment by the projected yield established for the farm as determined by the Agricultural Stabilization and Conservation Service (ASCS) county commis-

The total amount of payments a person may receive under one or more of the 1974 wheat, feed grain and upland cotton programs may not exceed \$20,000. Loans will be available to producers on their 1974 wheat crop at a national average of \$1.37 per bushel, an increase of 12 cents over 1973 loans.

The national allotment is set at 55 million acres. Thus, on the average, each producer's allotment in 1974 will be about three times that of this 1973 allotment. This allotment is not a constraint on the amount of wheat that can be planted, and

FRESHMAN CLASS OFFICERS chosen to guide the class through its first year school are shown here with class sponsor Don Mullins, right. Officers include president Tim Whitten, vice president Tamie Grindstaff, secretary Elliston, treasurer Jimmy Ross, and reporter Troy Lewis.

its sole purpose is for making payments to producers in the event the five-month average price received by farmers is less than the target price. Producers may substitute any non-conserving crop or any conserving crop used for hay or for grazing in order to preserve their wheat allotments and to make them eligible for any payments under the target price feature. Crops for which a marketing quota is in effect are excluded.

We rate Merkel somewhere between Rochester and Rule, so if our playing continues as it has, this game won't be anything like it was last year.

Merkel only lost one player from last year's team and played Winters (a 2-A school) a good game last week. They will be trying to make up from what they didn't do last year.

Our Junior Varsity and Junior High go to Holliday Thursday to play beginning at 6:00 p.m.

Joey Swain had surgery last Friday and is doing fine. Charlie Flye is out this week with a bad ankle.

# KC Bullies Stop Rule JVs

The Knox City Junior Varsity stopped the Rule Junior Varsity at Greyhound Stadium Thursday when the Bullies rolled up a 22-6 score over Rule.

Jerry Stamps put the Bullies on the scoreboard with a 30 yard run into the end zone.

The try for extra points failed, and the score at half-time stood Bullies 6 - Rule 0.

A 70 yard run after intercepting a Knox City pass landed Rule in pay dirt. Their try for extra point failed.

The fourth quarter saw Al Bateman put another Knox City TD on the board, with a six yard run across the goal line.

Bill Reynold's run for the extra points was good, making the score 14-6.

Knox City rang up its third tally on a 10 yard carry by Stamps. Stamps also ran the extra points, making the final score Knox City 22 - Rule 6.

Bully backs Bateman and Stamps racked up 164 yards between them, with Bateman carrying the pigskin 14 times for 76 yards, and Stamps carrying 18 times for 88 yards.

The Knox City Bullies meet Holliday Thursday (today) at Holliday. The Bullies play following the Junior High game which starts at 6:00 p.m.

# Good Psychology

Helpful Ideas from the International Lutheran Laymen's League

**Master Your Fear 3 Ways**

Lack of self-confidence, psychologists say, is usually based on insecurity or fear. The insecure person is afraid not only of others, but also of himself. Plagued by feelings of doubt and distrust, the insecure individual is often hesitant to make even minor decisions because of his fears.

Here are three simple rules for mastering fear which may work for you:

1. Illuminate your fears with facts. Determine what you're afraid of, then find out why you're afraid of it. Probably most insecure people fear they will not be able to live up to the commonly accepted "norms" of society. What norm or standard are you afraid of? What do you do-or what don't you do-that makes you feel you can't live up to that standard? Get the facts.
2. Provide yourself with competent allies. Now that you know what the problem is, turn to somebody who is qualified to help you. Once you've taken someone into your confidence and asked for help, the problem is half solved.
3. Wage a winning war. Make up your mind to do something about the fear you're fighting. You've thought about it, you've found an ally, now you need action. Make a list of three things you can do today which will help you overcome that insecurity-then set out to do them.

For a booklet, "The Meaning of Life," which can help still your fears to the point where you can live peacefully with them, send 25 cents to Room 2007, Booklet Distributors of America, 220 West 42nd Street, New York, N.Y. 10036.

### SENIOR NEWS

All the 1973-74 Seniors are glad that they are finally Seniors, and most of us are hoping we make it past our Senior Year.

At the first of the year, a class meeting was called to get everything organized. The English room was used since it was one of the only rooms with an air conditioner hooked up! Officers for our final year (we hope) are President, Randy Pack; Vice President, Art Crownsaver; Secretary, Denise Grindstaff; Treasurer, Mike Lankford; and Reporter, Martha Jones. Our sponsor, Melanie Whitley, handed out magazine sale slips and announced that the annual Senior Magazine Sales were formally underway. We also received word that the Seniors were responsible for collecting names for the back of the football program. AND we had the concession stand for the Rule ballgame. The Senior class members don't always have to work like slaves. WE have to because it will cost more to get us to the moon than it did to get the '73 Seniors to Acapulco!

The sponsor for our class is Mr. Sam Nichols, girls' new coach at Knox City.

Favorites this year are Jimmy Don Moore and Sandy Stubbs with Melinda Hewitt and Ricky Bishop as runners-up.

We would like to remind you that football season is here and we want you to attend all the games you possibly can. The J-V's play on Thursdays, the Varsity on Fridays.

### FRESHMAN CLASS NEWS

At our first class meeting we elected class officers and they are: President-Tim Whitten; Vice-President - Tamie Grindstaff; Secretary, Cindy Elliston; Reporter, Troy Lewis; Treasurer, Jimmy Ross; Sponsor, Coach Mullins; Favorites, Tamie Grindstaff and Flint Richardson, and Favorite Runners-up, Cindy Elliston and Billy Reynolds.

Last Thursday night our Jr. Varsity played Rule and defeated them 22-6 and our Varsity boys were defeated by Rule Friday night. Tonight, our Jr. High and Jr. Varsity travel to Holliday.

Go Hounds!

### JUNIOR NEWS

During the Junior class meeting the following people were chosen as Officers for the 1973-74 school term: President, Gary Carver; Vice President, Brenda Harris; Secretary, Debbie Reese; Treasurer, De Lacy Bateman; and Reporter, Harvey Reynolds. Also chosen were the class Favorites, and they are: Girl Favorite-De Lacy Bateman, Runnerup - Kary Kent; Boy Favorite - Harvey Reynolds, Runnerup - Randy Lewis. CONGRATULATIONS!!!!!!

The Junior Class is proud to have Debbie Reese and Brenda Harris serving as cheerleaders and Stacy Angle and Kary Kent serving as twisters. Congrats!

The Junior Class is well represented in various school activities which I will mention in future articles.

Also, the Junior Class would like to wish Joey Swain a speedy recovery.

### PEP CLUB NEWS

In our pep club this year our officers are:

- President: Temi Baker
- Vice-President: Sarah McGaughey
- Secretary-Treasurer: Anita Elliston
- Reporter: Vickie Berryman.

Our uniforms are blue pants with a blue blazer and a red shirt.

The fans are invited to come out and help us cheer the boys. And come down on the field to form a victory line.

### BAND NEWS

The Knox City Greyhound Band started school a week earlier than everybody else in order to schedule practices at 6:30 every night. All of these practices were thoroughly enjoyed by all band members.

At one of those meetings, officers were elected. They are: President, Adrean Gonzales; Vice President, Diane Clonts; Secretary, Denise Grindstaff; Treasurer, Debbie Bishop; Reporter, Martha Jones; and Librarian, Adrian Jones.

The first two football games were rather hectic for the band. People ran around all afternoon trying to find horns, hats, tennis shoes, and suits. One Senior was even twenty minutes late! Now that we've had two practice runs, the rest will be much smoother. Mr. Glaze said it would be!

### HOMEMAKING I

by Sherry Jackson

An FHA meeting was held Wednesday morning for the Homemaking I class. The officers were chosen and they are: President, Mary Espinoza; Vice President, Diana Leach; 2nd Vice President, Donna Trimmart; Secretary, Tammy Stewart; Reporter, Sherry Jackson; and Song Leader, Adrian Jones.

- Vice President-takes the president's place if she is absent
- 2nd Vice President-brings the encounter
- Secretary-writes down what happens at the meetings
- Reporter-writes the news and happenings
- Song Leader-directs the music.

### HOMEMAKING II

by Pam Skiles

The Homemaking II class is rather small this year. The members are Juniors-Carolyn Orr and Shelly Grimsley; and Sophomores Sandy Stubbs, Patti Counts, Janie Rodriguez, Elma Rodriguez, Marcella Durham, Cathy Posey, Stella Marin and Pam Skiles.

We elected officers last Wednesday. They are as follows: President-Patti Counts, Vice President-Sandy Stubbs, Secretary-Treasurer-Carolyn Orr, and Reporter-Pam Skiles.

This week, we have been working on our class project, and will soon be starting on our home experiences.

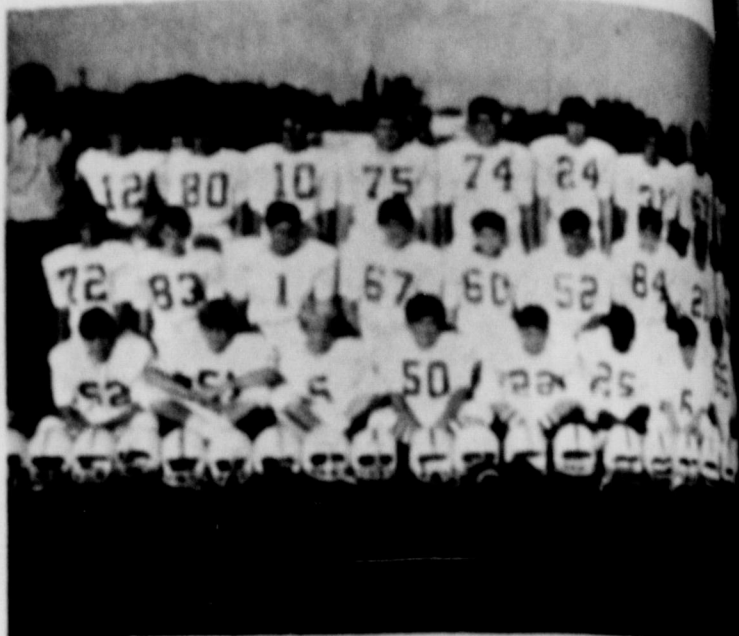

### CHOIR NEWS

by De Lacy Bateman

Forty-five students met September 4 at 8:00 a.m. in the choir room with Mrs. Lowrey. A few songs were sung, then the election of officers was held. President for the 1973-74 Choir is Adrian Gonzales, Vice President-Dianne Clonts, Secretary-Debbie Bishop, and Reporter-De Lacy Bateman.

Each student starts with a grade of 100. If he is tardy, one point is taken off his grade; if he is absent, three points is taken off unless it is excused.

Right now we are singing fun songs that we know, but soon we will start on some Christmas music to prepare for our Christmas program in December.

1974 Chevy Cheyenne Super Pickup

Significant brake improvements are featured in the 1974 Chevrolet pickup line. Computer selected brake systems are tailored to the loaded weight rating of the truck, as specified by the buyer, to give brake performance similar to that of a passenger car. With loaded weight ratings of more than 6900 lbs., a new hydraulic power assist is standard. Other improvements in the 1974 line include a larger displacement standard engine in most V8 models, full-time four-wheel drive in all 4 X 4 V8 models, interior refinements, four new colors, and optional bright roof drip moldings.

## Cattle Industry Is Threatened By IRS Action, Bob Price Warns

"The Internal Revenue Service has seriously threatened the cattle industry by the proposed disallowance of prepaid feed as a business deduction. For example, if feed is bought and paid for in one year but not consumed until the following year, it cannot be deducted until it is consumed," commented Representative Bob Price (R-Texas) after attending a meeting with Members of Congress and cattle industry representatives on Capitol Hill today.

The Panhandle Congressman further stated, "If this action by the IRS is allowed to remain, it will have a widespread effect on the cattle industry as a whole. It, in fact, could cause further price increases to consumers as well as reduce the supply of beef available for consumption."

The action came in the form of a "memorandum of technical advice" from the Washington Office of the IRS to its District Director in Dallas, Texas, and concerned limited partnerships operated by Western Beef Cattle Fund, Inc., of Amarillo, Texas.

Price further added, "Prepaid feed, bought and deducted in one year but not used until the following year, has been an issue for many years. But in most cases, the courts have refused to support the IRS action."

To cite a recent case, as brought out in an article appearing in the Wall Street Journal, "an Iowa farmer gave a

feed dealer a check for \$20,731 on December 31 one year as payment for feed that wasn't to be delivered and consumed by the farmer's animals until the following year. He deducted the payment for the year he made it, but the IRS balked.

It ruled the outlay wasn't a current expense but rather a deposit on a later purchase, and thus wasn't deductible until the farmer received and used the feed. The tax agency noted the dealer retained title to the feed until well into the following year. A United States Appeals Court, however, recently gave the farmer his deduction for the year he had taken it. The court pointed out that he paid the money under a binding contract to purchase feed. It asserted the law doesn't require that a buyer acquire title to a commodity before he can deduct his payment for it.

A contrary statement some time ago by the IRS's Los Angeles District Director, though it didn't figure directly in the Iowa case, was assailed by the appeals court. The IRS official's statement the court said, is "wholly untenable."

Representative Price also indicated that the Treasury Department submitted similar proposals to the House Ways and Means Committee last spring. But, cattlemen were told that any change in the tax laws would not become effective until such proposals were enacted by the Congress. "It would appear," the Congressman added, "that the IRS is taking over the prerogative of the Congress by this action."

"As a result of the increase in price of feeder cattle and feed grains during the last twelve months," Price said, "it will require an additional \$100 million of equity capital plus about \$300 million of borrowed capital just to maintain cattle production in the state of Texas at the same level as a year ago. In addition, the consumer wants the cattle industry to increase beef supplies!"

"The cattleman has to look to the investment community for equity capital and this action by the IRS will seriously curtail that source of funds," Price continued. "The cattle industry must have a constant flow of new capital just as other industries. Beef production will not expand at the rate of consumer demand if the recent action by the Internal Revenue Service is allowed to stand." Price concluded.

# TIPS FOR OUTDOORSMEN

by Vern Sanford

## EARLY WARNING OF STORM

Anytime you go boating, even for a short period of time, take along a small radio. Pocket-size will do.

Follow this habit, despite the fact that you will boat in an area with which you are thoroughly familiar, and you plan a strictly, pleasure-boat ride.

Make it a must to take along a radio anytime you dedicate a day to fishing—and definitely if you're planning to be out all night.

Why drag along a radio when you're going outdoors primarily to get away from things?

Well, one reason is that the radio could be worth its weight in gold, to you. A radio is fine for entertainment—but it's wonderful as a weather indicator.

A weather indicator? No station broadcasts weather warning all day long!

Maybe not, but the static you complain about, is in many cases advance warning of an approaching storm. There are other reasons for static too, but those loud flashing, sputtering, heavy blasts of ear-splitting static reflect lightning in the area.

### Static Is Your Cue

Not all static is indicative of a storm. Some comes from nearby elec-

tric transmission lines or faulty or ungrounded electrical equipment in operation. But sudden bursts of static are warning signs. A radio reacts to lightening long before you can see flashes.

To you who are afloat loud static is a warning to "look for storm clouds". As the static gets louder and more frequent it's admonishing you to up anchor, get moving and head for shore.

Many of us get so engrossed in our fishing that we are not very observant of what's happening about us.

Any storm can be dangerous, but if it's coming from the direction you have to travel it's doubly dangerous. In that event you're not racing with it but against it. And one thing for sure is—you can't outrun a 30-mile wind backed by a heavy rain and still drive the boat safely.

So, start early, be extremely careful on the way back—and tie down securely in your dock or on your trailer.

There's nothing safer than shore when you're in a heavy thunderstorm, unless it's inside a solidly built weatherproof structure.

Above all, don't gather under a tree. It's the most unsafe place to be in a thunderstorm.

# Oil, Dedicated to Doing

Snyder and Scurry County will celebrate two significant milestones in oil production simultaneously in Scurry County, Texas, the week of October 8-13, and they will be saluted by a festive week in Snyder, the county seat.

It was in the fall of 1948 that the rich Canyon Reef formation was first tapped and began to release its petroleum for use by mankind. So that means the 25th anniversary of the Canyon Reef discovery in Scurry County is coming up.

Some months ago a few notes and figures were jotted down from production figures and they revealed news that Scurry County would produce its billionth barrel of oil almost at the

same time of the 25th anniversary of the Canyon Reef discovery.

That revelation stimulated considerable interest among the local business and oil community, and Snyder has made plans for one of the biggest weeks in its history. The Billionth Barrel of Oil Celebration Week.

Co-chairman of the celebration are C.T. McLaughlin, a well known independent oilman, rancher and banker; E.W. Schrader, President of Snyder National Bank; H.W. Gargile, President of West Texas State Bank; and Roger B. Mize, a banker and rancher. Mr. Pete A. Nikias, Chevron's SACROC district superintendent, is co-chairman of oil exhibits.

Looking to the climaxing feature of the special week is the annual Chamber of Commerce and Oil Banquet. Murphy Martin, the popular newsmen for WFAA-TV in Dallas, will be the master of ceremonies. Martin, well known to millions as a news anchorman on network television as well as for the Dallas station, will add to this climaxing event with his ability as veteran newscaster and producer of award winning documentaries.

Also, booked for the Oil Banquet on October 13, is Television Star Ken Curtis, (Gunsmoke's Festus), along with Hi Busse and the Frontiersman Quartet.

But this will merely be part of the frosting on the cake. The spotlight is going to be focused on the petroleum industry for a

full week. The schedule of activities includes:

Monday, October 8, will be the opening ceremonies, removal of one-billionth barrel, opening of the carnival, presentation of the oil queen, and the crowning of the oil queen. The oil theatre which will be held October 8 and 9 will be under the direction of Mr. Jerry Worsham, drama director at Snyder High School, and Mr. Bill Lyon, choir director at Snyder High School.

Tuesday, October 9, they have scheduled public tours of oil facilities and the presentation of oil theatre.

Wednesday, October 10, is set to have a parade and public tours of oil facilities.

Thursday, October 11, is the day set for a free barbeque and the opening of the oil show.

The oil show, celebrity golf tournament, and a square dance festival are scheduled to be on Friday, October 12.

On Saturday, October 13, will be the oil banquet in the Scurry County Coliseum.

## Educational Assistance Nears End

VETERANS BENEFITS

A large number of veterans now have a period of less than one year to use their educational assistance benefits which are provided by the Veterans Administration through the GI Bill. Unfortunately, many of these veterans are unaware that they are nearing the end of their eligibility period to use the GI Bill to complete their education. This announcement was made today by Allen Lowrey, Veterans County Service Officer for Knox County.

Veterans who were discharged or released from military

service at any time between February 1, 1955, and June 1, 1966, have a period of eight years to use their GI Bill entitlement, and such period commenced on June 1, 1966, the date Public Law 89-358 went into effect. This means that all veterans who got out of service prior to June 1, 1966, will lose their entitlement on May 31, 1974.

Veterans who have been discharged or released from service since June 1, 1966, have a period of eight years from their release to use their GI Bill entitlement to go to school.

There is a possibility that Congress may extend the deadline beyond the present eight-year limit, although such action cannot be predicted with any certainty at this time.

Veterans who were discharged or released from service under other than dishonorable conditions following 181 days or more service, are entitled to one and one-half months of training for each month of service, with a maximum of 36 months of training for any one veteran. The maximum entitlement is available to veterans who had continuous active duty of eight months or more.

Every veteran should be aware of his delimiting date for GI Bill training, and should use his entitlement to his best advantage.

## WHAT DOES THE BIBLE SAY?

WHAT FOR WHICH WE STAND

(Continued)

the name of Christ as above all others, religious name that men should wear. They were called Christians" according to Acts 11:26. The gospel that Paul preached was to want to be "Christians," Acts 26:28. The apostles, demanded that we wear this name. Paul said, "Neither is there salvation in any other name under heaven given whereby we must be saved" (Acts 4:12).

"Yet if any man suffer as a Christian, let him be glorified; but let him glorify God in this name" (Acts 5:41).

Therefore, against wearing human names, which do not appear in the scriptures. Paul says names in 1 Cor. 1:12-13. Peter warned against names in Acts 4:12. We repeat this divine command to all men everywhere to heed these words.

Therefore, against all human inventions and things taught in the New Testament. We are to worship in ways that God has not commanded (Matt. 23:18-19). We are even told that such things are of men (Matt. 15:9). Paul clearly declared that the worship of God is against any item or form of man's invention which there is not divine authority (Col. 2:8).
