NUMBER 52

Bible Study M. E. Church

Sunday, Aug. 21st

8th Chapter of St. Luke

This chapter opens with a very extensive missionary journey by our Lord and in which he is accompanied not only by the disciples, but particular mention is made of certain faithful women, among whom is Mary Magdalene, and we study the faithfulness of Mary Magdalene we are reminded of the closing verses of last Sunday's lesson in which the sower called attention to the depth of the furrow which the sower had fallen and while we do not believe it is best to "sow wild oats" in order to be better fitted for service, I think the point the Lord would have us see is that he is ready, anxious and able to save even those who have drunk the bitter dregs of the vilest sin.

In this chapter we have Luke's account of the parable of the Mysteries of the Kingdom of Heaven more fully given in the 15th chapter of Matthew, a careful study of which would be in order in connection with this part of Luke here we find only the parable of the sower and also the explanation. I do not see how it can be made plainer than the wording of the Gospel. What a beautiful and striking sermon we find in the 15th verse—read it and meditate over it carefully.

The parable of the lighted candle admonishes us that we should be zealous in spreading the Gospel of Jesus the light of the world.

The new relationship in the 19th to 21st verses explains kinship in Christ brethren are they who hear the word of God, and Do it.

In the 22nd to 25th verses we get a glimpse of the Peace which passeth all understanding—when the storms of life are howling and the temptations of sin are raging come to Jesus who alone is able to save let Him calm the raging storms and speak Peace into your soul. Faith in Him is the only remedy for sin.

The next group 26th to 39th verses in which Jesus attempts to make contact with the Godfearers (descendants of God) they who preferred not to enter fully into the promised land but stopped nearby this is a striking exemplification of the one who fails to enter into full fellowship with Christ. "Ye cannot serve two masters" he soon finds himself trying to send the master away and as in this account, Jesus quietly withdraws from such a life.

The chapter closes with two accounts of the manifestations of the Divine power of the Son of God and in both instances we find Jesus those who seek solution to have faith in His word let us close with the words of the Saviour in the 50th verse. "Fear not: believe only, and ye shall be made whole."

Mr. and Mrs. Elbert Smith of Waco arrived in Knox City Wednesday afternoon for a visit with his parents, Mr. and Mrs. J. W. Smith. Pappy and Mammy are enjoying a family reunion this week having all in their home their daughter Mrs. Harris of Arizona and the other children who live in or near Knox City.

Mother Shaver has enjoyed the company of her daughter Mrs. Lillian Phillips and daughter Louise of Shawnee Oklahoma this week. They were accompanied to Knox City by her son Claude who visits his relatives here, the four leaving Thursday morning for their home in the country.

Mother Shaver visited in the home of her son Ed for a few hours Wednesday afternoon, the first time she has been out of her home since her back was hurt over four weeks ago.

SCHOOL NOTICE

All high school pupils meet at the school building at one o'clock Monday, August 27th, to be classified for the coming books.

All high school pupils will be classified and books issued Monday morning, August 29th.

J. W. Cloud

C. W. A. Turnip Patch

On Friday of last week the Park Committee composed of Mrs. E. O. Jamison and Mrs. T. P. Frizzell, had the park all plowed and sowed in turnips. This patch, of course, is for general use of the public. As soon as growth of the turnips is sufficient for greens every one is asked to gather greens there but are also asked to respect the patch and neither tramp down or otherwise destroy the greens.

It is evident now that unless every one who has chickens keeps them at home, there will be no turnips for the public. Immediately upon the completion of the sowing, some eight or ten hens found their way to the park and began feeding upon the turnip seed. The women of the Christian Womens Association asks your cooperation in the project of the community turnip patch by keeping your chickens at home. If this means that you must keep them penned, then do so.

CITY BUILDS NEW CULBERT

The city has completed a new culvert this week, on the road at the corner of Porter and White's Feed Store. John Dutton and Jim Stevenson did the work. Now if the city would grade the road from the feed store to the corner of the bank, it would be a great deal better.

About the most welcomed thing received at the Herald office this week was a letter and check for \$1.00 from V. G. Martin of Lorena. As you know, Martin was one of our new subscribers last week and the \$1.00 is in payment thereof.

Fred Warren, Kenneth Edwards, Leiton Huntsman, Leo Park, Morris McCarty, Hombra McNulty and Fred Clinton left Knox City last Sunday for El Paso. Postmaster Wilson was besieged with cards Wednesday morning from the seven in El Paso to other boys in Knox City.

Carl Morgan is at the bedside of his father in Rule, the latter suffering with pneumonia. Tuesday afternoon Mr. and Mrs. W. F. Waldrip and daughter Rule went to Rule.

Lynn Waldrip is operating the Morgan Service Station during Carl's absence.

Herbert Finley is spending this week with his uncle Mr. Charley Dowling in the Grace Community.

HOOT GIBSON RODEO BOOKED AT FAIR

Hoot Gibson, famous movie star and hero of many Wild West stories, ranch owner and producer of rodeo contests, will produce a sixteen day rodeo at the 1932 State Fair of Texas, it has been announced here by Otto Herold, president of the institution. Gibson was in Dallas this week and closed a contract for the sixteen day cowboy event.

Bringing with him the outstanding movie star cowboys, Gibson is also planning on bringing with his personnel of the most famous stars in movieland to make personal appearances in connection with his cowboy contests. Present plans call for the filming of a moving picture at the state exposition in connection with the rodeo. If these plans materialize visitors to the fair will see just how a moving picture is filmed. These plans have not yet been completed.

Gibson is said to have the finest rodeo equipment in the world, using it to stage the annual famous Golden State Ranch Rodeo on his California ranch. He is an expert rodeo contestant himself, and has been a consistent winner in all events in which he has been entered at the various rodeos.

He won the all-round cowboy championship at the 1931 Pendleton, Oregon Round-up.

The famous movie star will bring one of the finest strings of bucking horses known in the rodeo world with him to the State Fair Rodeo. In addition to these he will also bring many head of livestock. Some of the cattle which he will use in the State Fair rodeo will be purchased from Texas ranches.

They Spell Something

By Albert T. Reid

ROCHESTER VICTORS IN FIRST HALF

The game played here last Friday afternoon between Rhineland and Rochester made the latter team victors for the first half of the season of the Barzos Valley League.

The biggest crowd ever out in this city to a ball game was on hand last Friday afternoon. Many fans came from both Rochester and Rhineland and quite a few from Munday and Goree. Among the Munday fans were Mr. J. A. Kennedy of the Munday Times and his force.

The game began shortly after four with a hard fight for both teams throughout. The final score was 2 and 3, favoring Rochester.

Mr. and Mrs. H. M. Horton of McCamey Texas are the proud parents of a fine baby boy who arrived on the 9th. Mr. and Mrs. Horton have been in the home of her parents Mr. and Mrs. Gunnells who live West of Rochester.

Mr. and Mrs. C. H. Keck and Mr. and Mrs. Joe Averitt returned home last Friday from their trip to San Angelo and other points of interest. They camped on the bank of the Concho and enjoyed much swimming.

Mr. and Mrs. Holt Moseley and daughter and little Miss Norris of Haskell left the city Sunday for New Mexico. They are attending to business interest there. They were accompanied as far as Levelland by Mr. and Mrs. John A. Smith who are spending the week with Mrs. Smith's father. All expect to return to Knox City the last of the week.

Mr. T. A. Brown states that a letter this week from his daughter, Mrs. Davis in Floydada states that she is improving, injuries sustained in a recent car accident and that Mrs. Brown, her mother, will return to Knox City in the next few days.

There was a sales meeting of the Sinclair Company composed of Knox City, Rule, Haskell, Benjamin and Seymour, in Knox City Wednesday morning following which the salesmen were invited to a watermelon feast. The meeting was held in the City Hall.

TO SERVE ON ELECTION DAY

At a business meeting Monday afternoon of the Methodist Missionary Society plans were made for the serving of cake, pie, coffee and ice cream on Saturday August 27th election day. Tables will be arranged in the Frizzell building and the public is cordially invited.

Hospital Notes

Mrs. Mollie Moffett of O'Brien and Mrs. A. D. McMinn of Benjamin are patients in the Hospital this week. Little Miss Nella Shaver was here over the night Monday returning home Tuesday.

Homer Wooley of Needmore was here last week for a tonsillectomy. Mrs. Foreman of Arizona was dismissed last week and was carried to the home of her parents, Mr. and Mrs. J. H. McLain.

Mrs. Arca Hunley returned to her home in Lancaster Texas Monday after spending a week here with her mother Mrs. Moffett.

Master Joe Baker returned to his home in Dallas Monday after spending some two weeks here with his grandmother Mrs. P. B. Baker.

Patients dismissed last week included Tom Dockins of Crowell, Mrs. J. R. Smith of Munday, John Trimmer of O'Brien, Mrs. A. E. Hughes of Vera, Mrs. A. M. Henderson of Rochester, Leroy Kenebrough of Vera, Roy Hester Jr. of Rochester, and Mrs. W. A. Nelson of Vera. Mrs. Nelson was here only for medical treatment. Roy Hester Jr. was here with a broken leg which he sustained in a fall while playing with several other children.

Mr. and Mrs. W. A. Scott and Mr. and Mrs. Reeves all of Electra were guests in the W. A. Smith home over Monday night. Mrs. Smith accompanied them back to Electra Tuesday for a visit of a week. She is a sister of Mr. W. A. Scott.

BROTHER SARGENT MEETS OLD FRIENDS

Brother Charlie Sargent of the Union Chapel church, preached at the eleven o'clock hour Sunday at the Methodist church. After the service in meeting various members of the congregation, Brother Sargent met again quite a number of his friends of boyhood days. Too, he was greeted by his aunt and uncle, Mr. and Mrs. William Griffith.

The service Sunday morning was the first of a series of services which are being conducted as the Methodist summer revival. The pastor, Brother Sharp, is doing the preaching with the morning services being in the Theatre building and the evening services in the church. Despite the rain the first of the week every service has been held. The attendance has increased through the week.

Every one is invited to attend all the remainder of the services, at ten in the morning at the Theatre and at eight in the evening at the church.

KNOX CITY TAKES TWO GAMES

The League game played Sunday between Knox City and Bomarton at Bomarton was a victory for Knox City, the score being 12 to 5.

Monday Knox City defeated Rhineland at Rhineland with a score of 7 to 4. This was also a League game, and two victories for Knox City in two days.

Hessell Hill pitched Sunday and Jess Hill pitched Monday.

Knox City was defeated Wednesday in a score of 7 to 1 at Munday.

Mrs. S. H. Bohannon and children moved this week from the League Estate to the Howell house just in front of the Hospital. Mrs. Bohannon is in town in order to keep her children in school this year.

NAMES OF ALL "OLD TIMERS" WANTED FOR "GOLDEN JUBILEE" AT WICHITA FALLS

Wichita Falls—Names of all "old timers" of Northwest Texas and Southern Oklahoma are being sought by the Pioneers Registration Committee of the "Golden Jubilee" to be held at Wichita Falls September 26, 27, and 28. T. J. Waggoner Jr., chairman of the committee, states many honors will be accorded such pioneers and that registration blanks will be sent to any whose names are received by him. To date, he has registered nearly 500 persons who lived in this section in the early days. The registration office is in the Waggoner building in Wichita Falls and all names should be sent to Mr. Waggoner at that address.

In commenting on plans for the Jubilee, Mr. Waggoner said, "The citizens of Wichita Falls are bending every effort to make the coming celebration the greatest entertainment in the city's history. Famous speakers, such as Will Rogers, John Garner and Pat Hurley will be here. There will be a complete exhibit of old time objects, pictures, and documents. A famous star of Hollywood will participate in the historical pageant, in which more than 1,000 persons will take part. A real wild west rodeo will attract world's champion contestants. Troops from Fort Sill will participate in the parades and in other events. Sunrise religious services will be held each morning under the leadership of eminent divines. Wichita Falls will be a riot of color during the three days.

"Hospitality House" will be the headquarters for all "old timers". It will be located in the heart of the business section and will be provided with all comforts and conveniences. Appropriate badges will be given all early settlers who accept the invitation to attend the "Golden Jubilee" as official guests."

To Begin Revival 18th

Announcement was made Tuesday that the Church of Christ of this city would begin their Revival Meeting on Thursday evening August 18th with Brother J. Porter Willhite doing the preaching. Lewis Montandon of this city will conduct the song services.

Arrangements have been made to hold the services in the open south of the church. Every one is invited to attend the services.

A. G. GUY TO ATTEND DISTRICT CONFERENCE OF VOCATIONAL AGRICULTURE IN ABILENE

A. G. Guy, teacher of vocational agriculture in the Knox City high school, will attend the annual two-day district conference of teachers of vocational agriculture to be held in Abilene, August 18 and 19.

Conference leaders will be C. L. Davis, Austin, State Supervisor of Agricultural Education; J. B. Rutland, assistant supervisor; E. R. Alexander and J. C. Dykes, teacher trainers, A. and M. College, College Station, and S. C. Wilson, teacher trainer, Sam Houston State Teachers College, Huntsville.

Two hundred-fifty white teachers will participate in the twelve district meetings to be held in Texas, each teacher attending the conference that is most convenient. In addition, three conferences for colored teachers, of whom there are ninety, will be held at Mount Pleasant, Jacksonville, and Huntsville.

Problems for discussion will include ways and means of organizing and maintaining Future Farmers of America chapters (the national organization of students of vocational agriculture), professional improvement of teachers, the exhibits for the Dallas Fair, and the State program of work.

BAPTIST W. M. U.

The North and South Circles of the Baptist Woman's Missionary Society Union met Monday, afternoon at the church. A very interesting program on Royal Serlyce was given, Mrs. E. O. Jamison being leader.

Monday afternoon August, 22nd at four o'clock, the North Circle will meet with Mrs. Guy Milford, the South Circle with Mrs. Vance Jones. Both circles will start studying the new book on "Foreign Missions". Mrs. Bud Thompson has been selected teacher for the North Circle, and Mr. Vance Jones for the South Circle. Every member is urged to be present.

A TYPICAL ARKANSAS EXPERIENCE

Sam White, with his brother and two or three other companions returned home the latter part of last week from a fishing trip into Arkansas. Mrs. White related an incident which occurred during their stay in Arkansas, the same being so unusual that we repeat it here for our readers information.

As the story goes, Mr. White and friends were driving along when they heard the outbursts of a pack of hounds, evidently on the trail of something hunted. The Texas men stopped and shortly they saw a large red headed girl spring up from a cluster of bushes only to be overpowered by the dogs. Believing them selves to be doing a charitable act, the men immediately stopped their car and freed the girl from the dogs, she soon making her escape. The Texas party went back to their car, baffled by the situation, and were about to drive on their way when two men, mounted upon horses and carrying guns, rode up. The latter two inquiring about the large red headed girl and upon being told by the Texas party that they had just freed her from the pack of hounds the two immediately became angered and were near shooting into the crowd. Sam White, taking the lead as spokesman, inquired the nature of the case, what the trouble was and received the following reply:

"Well, that gal is a zonna git married to morrow and we been on her trail for two days trying to git a pair of shoes on her."

FROM A COUNTRY PRINTER

The manager of a country printing establishment in Ohio, publishing two fine weekly papers with a combined circulation of 3,000 copies recently stated the problem he faced from the competition of the government printing return addresses on stamped envelopes. He said:

"This competition is keenly felt by printers. We use our newspapers to help the government in many ways. The public has been educated to the income tax and all other forms of taxation through the newspapers without cost to the government. Yet, in our offices, we lose from \$600 to \$800 annually because the government prints return cards on stamped envelopes at prices that cannot

be touched by any printer." Here is a private industry which pays heavy taxes to maintain a government printing plant which is tax-free and which, in turn, does commercial printing that knocks a private printer and taxpayer out of his bread and butter.

There is constant agitation from political sources seeking to put city, state and federal government into business. That process expands the bureaucratic army, adds thousands of new tax-eaters to the public payrolls, reduces the amount of assessable property, because publicly owned property is tax exempt, and increases taxes on remaining taxable property which must try to exist in competition with tax-free public enterprises.

In the case of the printer, there is no reason why the government, which prints return addresses on envelopes, should not print letterheads, billheads and all kinds of stationery to be sold in conjunction with envelopes. It is merely a matter of degree as to where government business in competition with private citizens, should end.

The people of this nation must consider the principle involved in this issue. It is not the politician against the printing business, the power industry, banking or insur-

ance. It is the politician against the people. It is the attempt of the bureaucracy to take away the right of the individual to carry on an independent business.

Remember this when some plausible scheme is presented to put government into business it will be at your cost in liberty and opportunity.

One of the finest water melons it has been our privilege to eat this year was one which came from the Marshall Woolley home last Saturday. A 63 pound melon was left at the home of the Herald family, the compliments of Mr. and Mrs. Woolley. Thanks, folks, for remembering us.

WANTED:

To buy 50 or 60 head of hogs, shoats between 50 and 100 pounds preferred.

W. H. Benedict

Sunday the Herald family spent the day with a couple who live on the farm, he being a real farmer and she a real wife of a farmer. The dinner table of Mr. and Mrs. C. A. Hull was laid with food, all of which was raised by themselves. The meal was excellent and we enjoyed it very much.

On Texas Farms
 By W. H. Darrow of A. & M. College

Because nine Wharton county 4-H club boys made an average of 48 bushels of corn per acre last year, compared to a county average of 29 bushels there are 37 farm boys growing corn this year under county agent direction.

Karl Miller of San Benito got a 15 per cent increase in Irish potato yields this year from land to be planted to soft building legumes has been reported to the county agent.

A total of 12,592 containers of food have been canned in the community kitchen in Georgetown since its establishment a year ago by a civic organization in cooperation with the home demonstration agent. It was in constant use through June, some of the time keeping open for all night runs.

Average grocery bills of \$3.77 per family are reported for May by 57 Robertson county home demonstration club women who are leading the way in demonstrations of wise living at home.

From a profit of \$3.63 and 55 friers still on the yard, Betty Lee Bratcher, Dawson county 4-H club girl is paying for her music lessons. She hatched 100 chicks in April.

Athens—A market in Athens known as "Market Square" developed this season by John O. Moosberg, county agent, with the aid of local civic organizations, has resulted in a wholesale trading of Henderson county surplus produce for Central Texas wheat and oats. Mimeographed bulletins sent weekly to 100 Central Texas towns brought truck loads of surplus grain which were traded for melons, peaches, potatoes and tomatoes. More than 5,000 bushels of oats and 500 bushels of wheat for summer livestock and poultry feed and for seeding fall pastures was obtained in this way.

Denton—More than a million cans of home-grown food stuffs will be put up in Denton county this year by the estimate of Mrs. Edna V. Trigg, county home demonstration agent. She states that local dealers report sales of more than a half a million tin cans and glass jars, and more than 100,000 can lids and jar tops. This indicates that about 637,850 containers have been filled, not counting the old jars and old caps used. Reports of dealers do not include truck shipments of cans and jars. Mrs. Trigg has inaugurated a plan for canning on the share basis whereby town people furnish the cans and farm people fill them and return 40 per cent of the filled cans in payment. H. F. Browder, local agricultural writer, has promoted a similar and much used plan on a 50-50 basis.

Worms in Poultry Expensive

College Station—Intestinal worms in poultry cut production 25 per cent and take 28 per cent of the profits in flocks harboring these parasites, it is indicated in a study of poultry flock demonstration records made by E. N. Holmgreen, poultry husbandman in the Extension Service of Texas A. and M. College. There were about 90,000 hens in these flocks supervised by county farm and home demonstration agents. Flocks having worms averaged 13.48 eggs per hen in a recent month while those free of worms averaged 18.71 eggs per hen in a recent month while those free of worms averaged 18.71 eggs per hen. The income above feed cost was 9.13 cent per hen for worm-free flocks, and 6.56 cents per hen for infested flocks.

Sanitation of houses and grounds is the best safeguard against worms, says Mr. Holmgreen, but occasional worm treatments are usually necessary. The treatment used by most demonstrators consists in giving each hen a capsule containing nicotie and kamala, obtainable under various brands names anywhere in Texas.

In spite of loss of a good tomato market this year, J. T. Youngblood in Upsher county declares he will stay with the crop another year because he has made more than \$30 per acre from three acres with the crop half picked. The unsold surplus of the Upsher crop is going to hogs and into cans, the county agent states.

Thorough Preparation Key To Success in Fall Gardening

College Station—Pointing out that fall gardens should furnish fresh vegetables from the middle of September to Christmas anywhere in Texas, J. F. Resborough, horticulturist in the Extension Service at Texas A. and M. College emphasizes the importance of thorough preparation as the biggest single factor in success.

"Most fall gardens that fall do so because they were plowed and disced only once, leaving big clods," he says. "The ground should be plowed shallow, disced several times, and allowed to settle. Weeds should not be plowed under but cut and raked away. Fertilization is more important in fall gardening than in the main spring garden. Better than well-rotted manure at this time is a mixture of 50 pounds nitrate of soda and 100 pounds high grade acid phosphate on one-tenth acre, or 6-8-4 fertilizer, at the same rate. This holds for all parts of Texas except the Black lands and the heavy soils of West Texas. Since germination of seed is poorer in the fall, one-fourth more seed should be planted than in the spring.

"Slower maturing vegetables suitable for planting from August 10th to September 1st are cucumbers, cream peas, pinto beans, Irish potatoes and winter squash. If not planted during that period these vegetables should not be planted at all. For September plantings are suggested cabbage, radish, cauliflower, carrots, beans, onion sets, beets and Swiss Chard."

"Those interested in fall gardening will find by inquiry at least one demonstration garden near at hand from which they may get pointers, or information and help may be had from county farm and home demonstration agents. The Extension Service has available C-59 "Fall Gardens," obtainable from these agents or direct from the Extension Service at College Station.

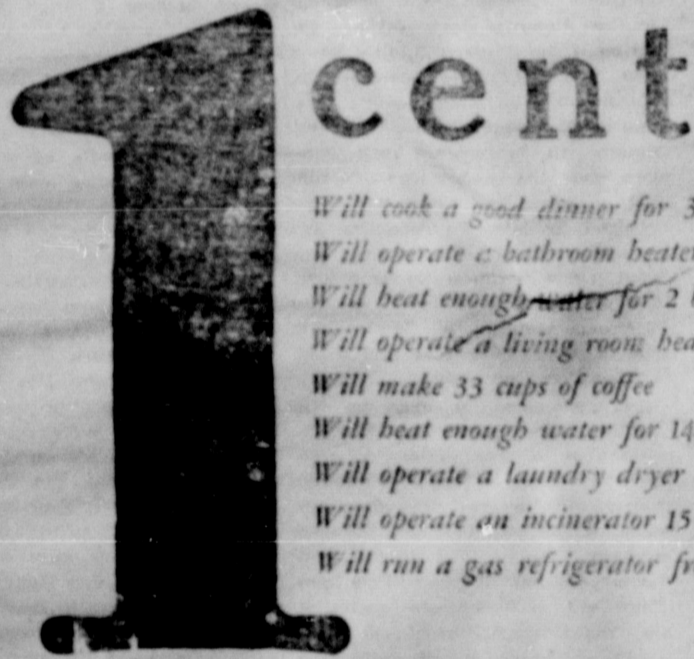

You seldom see the figure 1 cent in an advertisement, because there are so few things that you can buy with Uncle Sam's smallest coin.

Natural gas is one commodity that brings you a lot of comfort and convenience for one cent. In fact, we don't know where else you can get so much real value for so little cost.

Your Natural Gas Penny Is Your Biggest Penny . . .

- Will cook a good dinner for 3 people
- Will operate a bathroom heater for 2 hours
- Will heat enough water for 2 baths
- Will operate a living room heater 45 minutes
- Will make 33 cups of coffee
- Will heat enough water for 14 morning shaves
- Will operate a laundry dryer 45 minutes
- Will operate an incinerator 15 minutes
- Will run a gas refrigerator from 8 to 10 hours

 GAS SYSTEM

UNEQUAL REGULATION IN TRANSPORTATION CAUSES DISORDER AND CONFUSION

The instability, confusion and disorder which unrestrained truck transportation has brought about is responsible in large measure for much of the distress in which all business finds itself today. Texas has moved to find a remedy and all concerned in the welfare of this state and its institutions should cooperate in the effort to restore stability and order to our transportation systems.

The Texas Railroads, in these advertisements, have endeavored to place before the people of this state some of the reasons why the existing laws, regulating motor transportation, should be upheld and enforced.

1. The railroads are necessary for the successful marketing of the enormous production of this state, which is used and consumed in every other state in the union.

Uniform, published, non-discriminatory transportation service rates are essential to the orderly conduct and welfare of business.

Unregulated truck transportation inevitably results in discriminatory charges and practices, rebating, unfair and unbusinesslike competitive methods, bringing about losses and commercial insecurity.

The wholesaler, jobber, retailer and local merchant suffer from the unfair competition of truckers and peddlers who, for the most part, are non-residents, pay no taxes and contribute nothing to the community welfare.

The farmer and agricultural producer must have at his command facilities adequate to transport crops and produce which move long distances in large volume, at low cost, by rail.

2. The railroads build and maintain their own roadways, pay heavy taxes for the support of state and municipal governments and institutions, and expend millions of dollars for payrolls, materials and supplies. Railroad workers are substantial citizens, home owners, and valued members of their communities.

3. Rail transportation is the most efficient and economical in existence for the movement of traffic in volume by land.

4. Texas highways belong to the people and are built and maintained at heavy cost. Their use for commercial purposes is a privilege, not a right. They should be kept safe for general use and not prematurely destroyed by heavy trucks.

5. The stability, security and orderly conduct of business require reasonable control and regulation of all transportation agencies.

THE TEXAS RAILROADS

Supplying a week-to-week inspiration for the heavy-burdened who will find every human trial paralleled in the experiences of "The Man Nobody Knows."

THE ETERNAL MIRACLE

WE are quite unamindful of chronology in writing this story. We are not bound by the familiar outline which begins with the song of the angels at Bethlehem and ends with the weeping of the women at the cross.

We shall thread our way back and forth through the rich variety of Jesus' life, picking up this incident and that bit of conversation, this dramatic contact and that adacious decision, and bringing them together as best to illustrate our purpose. For that purpose it not to write a biography but to paint a portrait. We pass quickly over thirty years of Jesus' life, nothing only that somehow, somewhere there occurred in those years the aereal miracle—the awakening of the inner consciousness of power. The eternal miracle!

In New York one day a luncheon was tendered by a gathering of distinguished gentlemen to David Lloyd George. There were perhaps two hundred at the tables. The food was good and the speeches were impressive. But what stirred one's imagination was a study of the men at the speakers' table. There—some of the most influential citizens of the present-day world; and who were they?

At one end of the table an international financier—the son of a poor country parson. Beside him a great newspaper proprietor—he came from a tiny town in Maine and landed in New York with less than a hundred dollars. A little farther along the president of a world-wide press association—a copy boy in a country newspaper office. And, in the center, the boy who grew up in the poverty of an obscure Welsh village, and became the commanding statesman of the British Empire in the greatest

crisis of history. What and how and where did the eternal miracle occur in the lives of those men? At what hour, in the morning, in the afternoon, in the long quiet evenings, did the audacious thought enter the mind of each of them that he was larger than the limits of a country town, that his life might be bigger than his father's?

Likewise, when did the thought come to Jesus? Was it one morning when he stood at the carpenter's bench, the sun streaming in across the hills? Was it late in the night, after the family had retired, and he had slipped out to walk and wonder under the stars? Nobody knows. All we can be sure of is this—that the consciousness of his divinity must have come to him in a time of solitude, of awe in the presence of Nature.

The western hemisphere has been fertile in material progress, but the greater religions have all come out of the East. The deserts are a symbol of the infinite; the vast spaces that divide men from the stars fill the human soul with wonder. Somewhere at some unforgettable hour, the darling filled Jesus' heart. He knew that he was bigger than Nazareth.

NURSE TELLS HOW TO SLEEP SOUND, STOP GAS

Nurse V. Fletcher says: "Stomach gas bloated me so bad I could not sleep. One spoonful Adlerika brought out all the gas and now I sleep well and feel fine." Frizzell's Drug Store

Mrs. J. R. Smith of Munday was in the local Hospital Wednesday for treatment.

Press Clarke and daughter were in the city a short while Wednesday morning.

Little Nick Phillips, son of Mr. and Mrs. Rufus Phillips, burned both his feet last Thursday when he walked into the ashes around the wash pot. One foot was severely burned. He is doing very well.

Mr. and Mrs. Carl Chafin are happy in the arrival of a fine baby boy to their home on the 16th. They live West of town.

Mitchell News

We are having quite a bit of rainy weather at this writing.

Mr. and Mrs. Buster Nance of Benjamin visited her mother Mrs. J. W. Carver Sunday.

Miss Fay Ricks and Miss Hazel Underwood of O'Brien spent Sunday with Mrs. T. G. McQueary.

Mr. Dick McGregor and family visited Mr. A. J. Anderson Saturday and Sunday.

Mr. and Mrs. Edd Gore and Minnie Lee Gore of Commanche are visiting Mrs. J. W. Carver this week.

Mrs. E. Y. Nance of Knox City spent last week with her daughter Mrs. Maggie Leffis.

Union Grove and Hutton played ball Sunday. The scores were 3 to 19 favoring Union Grove.

All ladies interested in the Charis Corset garments may telephone 6F-21 and I will be glad to give a free demonstration in your home.

Mrs. J. C. McGee

FOR SALE:

150 acre farm in Parker county, good 5 room house, double garage, 2 barns, chicken house, cellar, smoke house, chicken, well, windmill, water piped to house and barn lot, \$10.00 per acre 1/4th easy terms. Also other bargains in Parker county farm etc. Write S21 Bridge Street Weatherford, Texas.

Mr. and Mrs. H. L. White left Wednesday for Dallas to market.

Anch Waldrip was a visitor in Abilene on Thursday of last week.

Miss Ethel Herring of Anson is visiting relatives here this week.

We are glad to see Charley Keck back in the store again.

George Clifton of Haskell was in Knox City Monday.

Mr. W. H. Benedict is reported ill this week.

Mr. Bill Mitchell of Rochester was a Knox City visitor Tuesday.

Mr. A. P. Oliver was sick the first of the week but is again able to be in town.

Miss Pauline Benton returned home last week from a visit with friends in Abilene.

Lloyd Waldrip returned home Saturday from Clyde where he spent some ten days with his mother.

Mrs. M. D. Metts has as her guest this week her sister Mrs. W. W. Benson of Olney.

Mr. and Mrs. Ogle Robinson of Rochester were guests Saturday night of Mr. and Mrs. C. H. Keck.

Mrs. John Milford and two daughters are visiting her parents in the sunset community this week.

Mr. and Mrs. Jack Coates and daughter returned home Monday from their trip to Corpus Christi.

Miss Margaret More of Commanche is the guest of Mrs. Tom Osborn this week.

Mrs. W. L. Rogers and two daughters left Monday for Lubbock where they are visiting relatives.

W. D. Thomas and his father W. M. Thomas were in Rule Monday on business.

Miss Laverne and Coit Jones are visiting relatives in Wichita Falls this week.

Claude Stovall of Haskell spent the past Saturday night and Sunday in Knox City.

SCHOOL NOTICE

All high school pupils meet at the High School building at one o'clock Friday, August 27th, to be classified and issued books.

Grade pupils will be classified and issued books Monday morning, August 29th.

J. W. Cloud

Lost 20 lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 years old, and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as tens of thousands of men and women know.

For your health's sake ask for and get Kruschen at any drug store—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle are not joyfully satisfied with results—money back.

Texas Department of Agriculture Its Establishment Purpose and Functions

By J. E. McDonald Commissioner of Agriculture

The Texas Legislature during its Regular Session of the 30th Legislature in 1907 by statute created the Department of Agriculture for the purpose of aiding and protecting agriculture in the production, preparation, and marketing of agricultural crops. Since that period, following sessions of the Legislature have placed numerous other duties with this Department.

At present for the more efficient administration of its duties the Department of Agriculture is divided into nine divisions. At the head of each division is placed a chief, who is given a sufficient number of specially trained men to carry out the work of his division financed by funds appropriated and by fees collected as provided by the statutes.

Division of Entomology and Plant Quarantines

We seldom realize just what is essential to keep the channels of trade open for the tremendous production of Texas agriculture. Our entire cotton production finds access to interstate business only as the result of the effective regulation of the pink bollworm infested area of the state. The Federal Government regulates interstate commerce, and the movement of our cotton, citrus fruit, nursery stock, and other commodities in entering the channels of trade is contingent upon the state's ability to control certain insects and diseases prevalent within the state in order to prevent their spread to other uninfested areas. The pink bollworm and the Mexican fruit fly must be controlled by state authority or our cotton and fruit cannot go out of the state.

With the many Federal quarantines against Mexico prohibiting practically all agricultural commodities from that country from entering the United States, Texas a frontier state is in an unusual and peculiar situation in this connection. One of the principal duties of the Department of Agriculture, therefore, is to do those things necessary to keep the channels of trade open for our production and to prevent the spread of these new migrant pests which are constantly threatening our border.

Another important duty of the Department of Agriculture with reference to pest control, is the enforcement of various quarantines intended to prevent the introduction of serious pests that are now in exist-

ence in other states, but have not as yet become established in Texas. There are hundreds of pests introduced into the eastern and western states from Europe, Asia, and the tropics that have been kept out of Texas by plant and horticultural traffic regulation. The rapidly developing citrus industry of Texas is a striking example of one of our agricultural projects that is in dire need of such protection.

The basis pest control laws of this Department also make possible community pest eradication projects that not only keep trade territory open to such areas, but by direct pest control reduce the cost of production. The work of this division is of a police nature and embraces the enforcement of the nursery inspection law, Mexican fruit fly eradication program, pink bollworm eradication project, phony peach and citrus canker eradication work, and various other projects, including sweet potato weevil eradication, enforcement of protective zones for clean territory and other projects of a local option nature.

There are many farmers in Texas who never come in direct contact with these activities of the Department of Agriculture. Production throughout the state, however, whether it be in an infested district or a protected pest free zone, is vitally connected with such projects both by reason of an extended trade territory and protection from pest invasion.

Field Seed Division

The law requires all field seed offered for sale, when in package of ten pounds or more, to be labeled either "Tested" or "Not Tested" seed. "Tested" seed must bear a label giving the germination, mechanical purity, inert matter, weed seed and noxious weed seed, if any, so that the purchaser may have knowledge of the quality of the seed offered for sale. Not tested seed must bear a label with the words "Not Tested" plainly written or printed upon it. The "Tested" label can be procured only from the Department of Agriculture.

A seed laboratory under the supervision of an expert seed analyst is maintained in connection with the Field Seed Division. All citizens of the State of Texas may send their seed to this laboratory for analysis, and the service is free. Farmers and seedmen of Texas recognize the value of this service, as is evidenced by the increase each year in the number of samples submitted.

Certified Seed Division

Under the certified seed law, applications must be made to the State American in Amsterdam in 1,28. The record holder for the event is Department of Agriculture for license as registered Plant Breeder of certified Seed Grower. Land upon which registered or certified seed are to be grown must be submitted for approval for the growing or registered or certified seed. Cro. growing on approved lands must be constantly inspected by experts who also supervise the harvesting, ginning, threshing, storing and distribution of registered or certified seed so that the purchaser may be assured as to the varietal purity of the seed purchased from certified seed growers or registered plant breeders.

Pecan Division

The Pecan Division employs expert pecan men whose duty it is to assist in developing and protecting the pecan industry of the State of Texas. Soil conditions are studied. Educational work and demonstrations are given as to budding and grafting commercial pecans on the native trees; study and information is given regarding the adaptability of different varieties to the various soil and climatic conditions of the State. Texas leads all states in the production of pecans, and the possibilities of the pecan industry in Texas are practically unlimited. The service of the Pecan Division is free to the citizens of this State and has been utilized very profitably to the pecan industry of Texas.

Gin Division

The Texas Law requires that all ginner be licensed and execute bonds, and that all gins be inspected to determine the efficiency of operation.

Warehouse Division

The law requires that all warehouses in Texas doing a public warehouse business, where charges are made and negotiable receipts issued for goods stored, be inspected to determine if commodities or articles represented by outstanding negotiable receipts are actually in storage and adequately protected. This service makes negotiable receipt more readily accepted as collateral for loans, and in some instances enable owners and patrons to obtain discount fire insurance rates.

Weights and Measures Division

The Texas Statutes provide that all weighing and measuring devices be inspected as to their accuracy and that all commodities put up in package or parcel form contain the weight indicated on the package, and as is required by the laws of Texas, and that all liquid measuring devices have the proper cubic inch capacity.

This Division also has the administration of the cream butterfat testing law, passed by the 42nd Legislature, which law provides that all purchasers of milk, cream, and butter fat in Texas be licensed. This Division maintains a number of experienced employees who are capable of determining the accuracy of weighing and measuring devices and capable of making minor adjustments, which service is of material benefit to those conducting a buying and selling service.

Markets Division

The Market Division has supervision of the inspection of fruits and vegetables, according to the United States Bureau of Standards, and working in cooperation with the Federal Inspection Service issues certificates of grade and pack, which certificates under the Congressional Statute, known as the Borah Bill, become a part of the Federal contract between the buyer and seller. These certificates are admitted in court as prima facie evidence of grade and make it incumbent upon the buyer, either domestic or foreign, to disprove the correctness of the grade of the product.

The extent to which this Service has stabilized the fruit and vegetable industry in Texas is evidenced by the fact that 22,000 car loads of these products were inspected last year, at no cost to the taxpayer, this service being financed by inspection fees.

This Division also supervises the enforcement of the Statute which prevents the shipping of immature citrus fruit which is a protection to both the shipper and the consuming public.

It also has supervision of all farmers cooperative organizations in the State, of which there are now some two hundred and fifty.

Statistical Division

The Statistical Division keeps records of all agricultural endeavors and accomplishments, and answers all inquiries regarding agricultural, horticulture, and livestock, as well as giving information on other subjects or agricultural projects. In connection with this, the Statistical Division, working in conjunction and cooperation with the Federal Department of Agriculture, administers the Farm Census Law passed by the 42 Legislature, which law will in the future give a background to Texas agriculture, and assist in obtaining essential processing and manufacturing plants so necessary in marketing our agricultural products and bringing into our State new agricultural enterprises, and greater use of our farm products.

The number of persons employed in the State Department of Agriculture varies, because the nature of the work is seasonal. The average taxpayer, who pays an annual tax of \$100, contributes eight (8) cents for maintaining the Agricultural Department.

NeedmoreNews

(By Mrs. D. B. Cummings)

Mrs. George Carter and son Sam and Miss Grace Orsborn visited in Glen Rose last week.

Mr. and Mrs. Joe Muley and son of Anson are visiting her parents, Mr. and Mrs. Cantrell.

Mrs. A. B. Dozier and children of Slaton and Mrs. C. A. Henson and son of Abilene were recent guests in the home of their father Mr. T. D. Cummings.

Mr. and Mrs. L. D. Hicks and children are visiting relatives in Comman. Mrs. Talent is very ill at this writing.

Mrs. Eva Blackwell and daughters of Wichita Falls visited in the home of her niece Mrs. H. C. Luck last week.

Mr. and Mrs. L. E. Nance of Benjamin were in our community Saturday night.

Mr. and Mrs. W. M. Jones from the B4 ranch Northwest of Truscott were weekend guests in the M. E. Jones home.

Mr. and Mrs. Ezell Clarke returned to their home Wednesday after visiting relatives here. They live at Levland.

Mr. and Mrs. John Tankersley of Arlington are here this week with her parents, Mr. and Mrs. J. W. Smith.

Benefits Are Widely Spread With Widespread Power

The power line which carries electricity over the countryside is bringing the benefits of industrial development to small communities as well as large cities.

When an equal power supply is commanded by both, the production efficiency of small, decentralized establishments matches that of large metropolitan factory. Moreover, with its freedom from the high costs imposed by congestion, the small community factory can even surpass the large city factory in economical manufacture.

This is the opportunity which the widespread distribution of electric power has opened... an opportunity which the West Texas Utilities Company has made available to 125 progressive West Texas cities and towns served from its 2,500 mile transmission line system.
