INTRODUCING THE 1967 STANDARD OF THE WORLD

You are looking at two of the newest luxury cars ever created. They are typical of Cadillac for 1967. The Fleetwood Eldorado-the world's finest personal car-is the first exciting case in point. Eldorado is a styling masterpiece . . . with its spectacularly long hood, its daring new roof lines and its dramatic rear quarter design. It is also an engineering triumph. For Eldorado is the first car in the world to combine the surefooted traction of front wheel drive with the maneuverability of variable ratio power steer-

ing and the balance of automatic level control. And with all its spirit and action, Eldorado provides unusual five-passenger spaciousness and the quietness and comfort that only Cadillac could create. This brilliant newness also marks the Cadillacs you are most familiar with. For they are the most beautiful Cadillacs of all time ... with a new forward-sweeping grille and a new side contour that flows from front to rear! And with this new Cadillac look come a number of other achievements... the most luxurious

interiors in history ... a new generously padded instrument panel...a more responsive Cadillac engine . . . improved variable ratio power steering . . . and a new General Motors-developed energy absorbing steering column.
