## Quarterback Club To Meet Tuesday

A meeting of the Quarterback Club will be held at the American Legion Hall Tuesday night, August 26, Sammy B. White, president, said this week.

In urging all men of the community to attend, White pointed out that the Greyhounds this year will have two new coaches, Ted Darland and Curtis Hines. "Let's show the coaches and the boys that we are behind them one hundred percent, by re-organizing an active booster club," he said.

## O'Brien Gins First Bale of Cotton

The first 1958 cotton in the area was ginned at 11:30 a. m. last Friday by the O'Brien Co-operative Gin.

Produced by F. D. Emerson on land he farms southeast of O'Brien, the cotton was planted in April. The completed bale weighed 478 pounds.

Although the cotton had not been classed Saturday, it appeared to be strict middling grade and good staple, Bert Davis, gin manager, said.

Emerson will receive a premium contributed by the gin and O'Brien merchants.

## Pastor to Preach In Baptist Revival

A revival and evangelistic effort of the First Baptist Church will begin Sunday, August 24, and continue through Sunday, August 31, the pastor, Rev. R. L. Dodson, has announced.

Week day services are scheduled for 10 a. m. and 8 p. m. The public is invited to attend all services.

The pastor will do the preaching. Leading the singing will be Milton Redeker. Mrs. J. M. Bradberry will be at the organ and Mrs. Kenneth Myers will be pianist.

## Classes Begin at McGee Ward School

First day of classes at McGee-Ward School was Tuesday, Supt. E. A. Youngblood said.

Opening date was originally scheduled for Sept. 1, but was changed to the earlier date so classes could be dismissed for cotton harvest.

Teachers in the school are Mr. and Mrs. Hampton Boozer and Mrs. Ella Ree Gipson.

## Boy Scouts Receive Merit Badges

Twenty-two merit badges were earned by the seven Knox City and Munday Boy Scouts who attended camp last week in the Wichita Mountains of Oklahoma.

Ulric Lea, scoutmaster, and the boys left Knox City Sunday, August 10 and returned Saturday, August 16. The camp is located in the former Craterville Park area. The area is being made into a permanent Boy Scout camp.

Director was Hal Mabry of Seymour, area scout executive. He was assisted by several counselors and five men from Fort Sill, which included two cooks, two medics, and one expert in marksmanship.

Only one accident marred the week's camp. Tommy Scott, son of Mr. and Mrs. M. T. Scott, fell while on a hike and fractured his left wrist. He was carried by ambulance to a Fort Sill hospital for x-rays and treatment. The accident occurred Saturday morning just a few hours before the Knox City group was to return home.

Ronald Voss, son of Mr. and Mrs. Clyde Voss, was "tapped" for the Order of the Arrow during a ceremony Friday night. Doyle Gene Graham, an Eagle Scout, went to the camp Friday for the ceremony.

Boys in the camp and merit badges earned were:

Voss, swimming, life saving, cooking and wildlife management; David Denton, swimming, life saving, cooking, wildlife management and nature; Danny Colwell, life saving, swimming, cooking and nature; Jimmy Lea, pioneering, camping, and wildlife management; Scott, reptile and forestry; Eddie Williams, nature and wildlife management; Allen Eiland of Munday, reptile and forestry.

## Local Contests Liven Interest in 2nd Primary

Knox County voters will scratch a mighty short ballot in the second primary Saturday. However, interest in the runoff for state representative, as well as for county commissioner in two precincts, may draw a heavy turnout of voters.

In the one statewide race on the ballot, Robert W. Hamilton

of Midland and J. Edwin Smith of Houston are the candidates for associate justice of the supreme court. Hamilton was leading man in the first primary and Smith barely edged out Wilmer Hunt of Houston for a place in the runoff.

Ed Cloud, seeking re-election as representative of the 83rd

district, faces a runoff with Donnell Dickson of Seymour. In the first primary Cloud was high man in the four-county district with 3,381 votes. Dickson polled 2,348 and a third candidate, Leroy Ressel, received 1,568.

In Commissioners Precinct 2, Benjamin and Vera, incumbent W. W. Trainham and Clyde Beck are in a runoff for commissioner. Trainham was high in the first primary with 171 votes, while Beck received 113 and a third candidate, Artist McGreger, polled 87.

Commissioner George Nix in Precinct 4, Munday and Goree, is opposed by Billy Mitchell. In the first primary Nix received 372, Mitchell 252 and Wallace Reid 151. Nix is from Goree, Mitchell and Reid from Munday.

## COUNTY-WIDE MEETING SLATED ON CONSERVATION PROGRAM

The 1959 Conservation Reserve Program for Knox County is now available, and producers in the county may submit applications for the maximum annual farm payment rate on their individual farms, H. H. Partridge, chairman of the Knox County ASC Committee, said this week.

Partridge said that in order to be considered for a contract beginning in 1959, certain information is required in the county ASC office prior to September 26, 1958. The annual farm payment rate must be established prior to a Conservation Reserve contract being made. Therefore, it is imperative that producers who are interested in putting cropland under a 5 to 10 year contract beginning in 1959 should make immediate application for the new farm rate. The average payment rate for Knox County is \$14.00 per acre.

A county-wide meeting for all farmers and ranchers will be held in the district courtroom at Benjamin Sept. 8, for the purpose of discussing this program and others. Jesse T. Gilpin, manager of the Knox County ASC office, will explain the program, Partridge said.

All persons interested are invited to attend the meeting.

## Man Injured in Vera Windstorm

Promising rainclouds passed Knox City by Wednesday, after a sprinkle that measured only .07 inch.

The heaviest clouds passed to the north, and at Vera what may have been a twister injured a man and damaged his farm home.

Curtis Watkins was treated at Baylor County Hospital for three broken ribs and large welts where he had been hit by hail. Watkins was in a small house on the A. E. Boyd farm when the wind hit about 5 p. m. Hail and high wind also damaged the roof of the A. E. Boyd Sr. home.

Heavy rain reported in the area was at Goree, where 1.60 inches fell. Rule reported light hail and a heavy downpour.

## Band Meeting Set for Friday

Members of the Knox City High School Band were reminded to be at the first band meeting of the year, which will be held tomorrow (Friday) at 8:30 a. m.

A schedule for next week's practice sessions will be made. Don Davis, band director, urged every member to attend. Organization of the junior band and beginner band will be made after school begins.

## Public Hearing on School Budget Slated

E. A. Youngblood, Knox City school superintendent, announced Tuesday that a public hearing on the school budget for 1958-1959 will be held Tuesday night, August 26.

Anyone interested may attend the meeting, the superintendent said. The meeting will be held at the school.

## County Employs School Nurse

Mrs. Alton Fitzgerald will be county school nurse, serving all schools in Knox County, Merrick McGaughey, county school superintendent, said this week.

Mrs. Fitzgerald has been school nurse at Munday the past nine years. Although Knox County has been eligible for a school nurse, this year will be the first time it has had one in the past six or seven years, the superintendent said.

Mrs. Fitzgerald will attend the opening of schools in the county and will confer with superintendents, teachers, etc. to set up a schedule for regular visits to the schools.

The county has three other teachers. They are Mrs. Philip Colehour, librarian, Mrs. Curtis Casey, music, and S. C. Musser, guidance and counseling supervisor. Musser will work with all schools in the county. Mrs. Colehour and Mrs. Casey will work with all the county schools except Munday.

### Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

There's one thing in this world fer shore. No big league baseball pitcher will ever come from them fellers that throws out these daily newspapers to the subscribers around the countryside.

I bought me a pair of field glasses off'n a soldier after the war so's I could look fer mine better. The feller that throws my morning paper out has got lumbago in his throwing arm and plain cussedness in his heart. Some mornings he throws it up on top of my house and sometimes he throws it down the chimney and some mornings he throws it so good I ain't never found it. One morning, when I was a day late paying him, he threwed it in my neighbor's hog pin down the road.

I clumb up on top of the house this morning with my field glasses and looked good fer it but I reckon he launched this one up younder with them satellites. So I stepped up the road a piece and picked up my neighbor's and started reading it.

The first piece I seen was where a couple of Congressmen was giving their views on how to beat these high prices. One of 'em said the way to beat the high cost of food was to eat less. The other one said the way to beat it was to quit buying anything. I got a heap of faith in our national thinkers, especially if they is in Congress, but their plan won't work.

The less I eat, like one of them advises, the less resistance I'm going to have to quit buying. I'll git so weak from eating less that ever time I pass the grocery store I'll go in and git me a can of sardines and I'll feel so good

after eating them sardines, I'll buy my old lady a new kettle or somepun.

I could figger out somepun better'n that, in fact was about to solve the problem when my neighbor come up and demanded his paper. Incidentally, that's one thing that's wrong with this country, people demanding their rights and putting property above charity and enlightenment.

Well, since I didn't git no paper this morning, I set down and started looking at our church magazine. The first thing I seen was a piece headed "Minister Hits Girls' Bathing Suits." We need that feller in the Army. Anybody that can hit such a small spot is a real marksman. The piece went on to say that you could judge a girl's character by the bathing suit she had on. Frankly, Mister Editor, I don't think there's enough there to make a judgment possible.

Yours truly,  
Uncle Ben

### 4-H'ers Receive Leadership Training

It is expected that more 4-H boys and girls than ever before will receive county medals this fall in recognition of leadership abilities. The reason is that enrollment in the 4-H Leadership program is expected to break the 1957 record high of 140,230 for the 48 states, according to the National Committee on Boys and Girls Club Work.

Club members competing for state honors will receive a fine pen and pencil set—one for a girl and one for a boy. Because leadership activities of these young people reach beyond their local communities and clubs, sectional awards have been provided for exceptional achievement.

Eight sectional winners - four boys and four girls - will be delegates to the National 4-H Club Congress, Chicago, next December with expenses paid. Each will also be eligible to try for a \$400 college scholarship awarded to the boy and girl selected by a committee of judges for national honors.

In addition, the national winners will be formally presented with a beautiful silver tray appropriately inscribed, and will be invited to visit Washington, D. C., with four other national 4-H champions during 1959 4-H Club Week beginning February 28.

### Farming Industry Still Diversified

COLLEGE STATION. — Farming in the United States remains highly diversified despite the continuing developments in mechanization and automation. John G. McHaney, extension economist, says this is true not only in crops produced, but also

in size, in labor spent in production and in investment in land and equipment.

A recent U. S. Department of Agriculture report on farm costs and returns on family-operated farms for 1957 lists 31 major types of commercial farms and 18 important farming areas in the nation, says McHaney.

The different types of farms

vary considerably in acreage and intensity of use. Farms range in size from an average of 10 acres for poultry farms to 13,340 acres per sheep ranch in the Southwest. Little or no land is cropped on these two types of farms.

Farms with more intensive cropping range from an average of 29 acres harvested on high-labor intensive tobacco farms, to

around 425 acres on grain-roughage livestock farms. Average labor used per acre of cropland ranges from 135 hours on tobacco farms to 8½ hours on grain-roughage livestock farms.

Total investments per farm al-economist. Peanut-cotton farms average a total investment of \$10,530 in 1957, while the sheep

ranches of the Southwest averaged \$177,770. Machine equipment investments from \$1,800 for the peanut and poultry farms to almost 000 on wheat-pea farms.

McHaney also points out a wide range in total investments exists within a type area and among farms within the area.

"ESSENTIALS AND NON-ESSENTIALS IN GOD'S WORD"

The Bible was given to us by God. All His Word must be obeyed. We have been guilty of counting some things as being essential and some as being non-essentials. When God speaks, He expects us to obey Him. Have you any Non-Essentials in Your Book?

Monday - 25th-

"GOD'S IMMUTABLE STANDARD"

God has given us a definite pattern to constrain our lives to. He has given us definite commandments to obey, and unchanging laws for all mankind. Are we obeying all of God's laws? He has set the pattern and given the standards.

"THERE'S NONE LIKE IT—THE BIBLE"

The Bible is the World's Best Seller, World's Best Book. It will not compare with any other book. It will thoroughly furnish man unto all good works. Do we esteem the Word as highly as we should? Do we realize the power it contains? Do we honestly deem it as God's Word or do we think it is just another book, written by men to be read and forgotten?

"THE POWER OF GOD'S WORD"

God's Word is dynamic. When He spoke, the elements obeyed. When He sent His Son, He gave Him ALL power. Christ said the Holy Spirit would guide us in all truths. The truth of God's Word can make us free. What is as powerful as the written word of God? Nothing.

"AFTER THE DUE ORDER"

The Lord has a plan for man. He has given us a way of righteousness to follow. God had a plan for the redemption of man and the forgiveness of sins, from the foundation of the world. Christ came after the due time to suffer and die that we through Him might be accepted by God.

"CHRIST, THE LIVING WORD"

Christ and the Word are inseparable. Christ was born of woman to put on a physical body and live among men. He was put in the grave and the grave would not hold Him. He was raised by God and left us a Word which is alive, quick and active.

Everyone should know the secret of a daily devotional life. There is no magic formula that can be pronounced. But the words surrender and devotion describe it to a certain extent. Nothing can take the place of a daily devotional life with Christ—your quiet time—your prayer time—the time you spend in the word is absolutely essential for a happy, successful Christian life. You must have a daily walk with Christ, a continual filling of His grace and strength to stay happy and courageous in this life trials and misunderstandings.

The word says to fear not, be very courageous and love faith in God. In daily devotions you can know "He is God."

### Milk Program To Operate Under New Regulations

The special milk program, recently revised and extended by Congress for three years, is ready to operate under the new regulations in Texas.

Applications are already pouring in under the new setup, reports John J. Slaughter of Dallas, who is in charge of the program for the Agricultural Marketing Service in Texas and six other states.

During the last fiscal year more than 51 1/2 million half pints of milk were served to Texas children under the special milk program. Consumption is expected to go even higher this year.

Any organization may participate if it sponsors non-profit activity for care and training of children and submits a positive plan to encourage increased consumption of milk by children in its care. The program includes children of high school age or under.

The new setup makes participation simple for non-profit summer camps, nurseries and other similar youth activities, says Slaughter. Under the program, eligible groups may get up to four cents reimbursement on each half pint of milk consumed by children if the milk is priced as a separate item and the price to children is reduced proportionately.

If the milk is included in the meal price and not priced separately, payment from federal funds will be two cents per half pint.

Application in Texas for the special program should be made directly to Food Distribution Division, Agricultural Marketing Service, USDA, 500 South Ervay Street, Dallas 1, Texas.

Mr. and Mrs. Tom Campbell and children returned this week from Rocky Mountain National Park and other points of interest in Colorado and New Mexico.
