HOGES PHARMACY

STREAMS in Desert Places

By Ozzelle Stephens (Exodus 18:1-22) Giving the glory to God. These are fitting words for this 18th chapter of Exodus.

God all the Glory. Moses was sent of God to stand before Pharaoh and say, "Let my people go." Moses was no more than the voice of Jehovah. He spoke the words of God. He wrought in the stead of God. God was in Moses commanding that Pharaoh let his people go. Moses trembled and hesitated too long to approach the King of Egypt, to dare to take to himself any Glory. It was only when Moses knew that he was merely the voice of God to Pharaoh, and as such, was backed by all that God was, that he felt assured of any final success in his task. To God be the Glory. Moses knew that he, of his own strength, could never do such wonders and signs. God alone could accomplish what he wrought. Again to God was the Glory. It was God who divided the Red Sea, and made it stand up in a heap. It was God who carried more than a million men and women and children, with unprecedented goods through so great a howling wilderness. Who also provided the quail, the manna, the water for their needs. He stayed the rage of fevers, and caused the sandals not to wear out. Only God could, and only God did do it. To God be all the Glory. He is the same God today.

WHERE QUALITY, ECONOMY AND COURTESY MEET

More people drive FORD V-8's than all other V-8's combined

AND IT'S STILL THE ONLY V-8 IN THE LOW-PRICE FIELD! No other engine in the world has enjoyed so much popularity as Ford's power-packed high-compression V-8. Today, 4 out of every 5 V-8's are Ford V-8's. And while other makers are scampering to catch up, Ford and Ford alone offers a V-8 in the low-price field . . . and for hundreds less than most sixes.

Fifty Years Forward on the American Road

FORD'S V-8 IS THE SAME TYPE OF ENGINE AMERICA'S COSTLIEST CARS ARE SWINGING TO!

Six more makers in the last five years alone have switched to V-8 power in their most expensive models. Yet Ford's been offering this same type of V-8 power for over 20 years! What's more, Ford gives you your choice of Fordomatic, Overdrive or Conventional Drive—the widest choice of drives in the low-price field!

FORD'S V-8 GIVES MORE "GO" PER GALLON!

Whether you choose Ford's 110-h.p. V-8 or the 101-h.p. Mileage Maker Six, your engine lives on a lean diet. For both offer the gas savings of Ford's exclusive Automatic Power Pilot which squeezes the last drop of power out of every drop of gas . . . "regular" at that! See and Value Check Ford's "Worth Mores." You'll agree Ford's worth more when you buy it, worth more when you sell it.

Your Wheat Will Net You \$2.06½ Per Bushel In The Government Loan

Wheat stored in our Government-approved warehouses today will net you \$2.06½ per bushel. You get your warehouse receipt when your last load is brought in and GET YOUR MONEY IMMEDIATELY! You are familiar with the Cotton Loan Program—the Wheat Loan is handled the same way.

If the market advances to where you have a profit above the loan you will receive this extra profit. Or you can pay off the loan and sell the wheat to anyone you choose at any time. Your grain remains here, eliminating the shipping costs charged against your grain when shipped to other points for storage.

AMERICA'S NEW RAILROAD

A 50-yard dash with a potato on a spoon! An exciting bit of Americana—but it's not the

World's Greatest Potato Race

That's the 2200-mile dash on the Santa Fe with 1,350,000,000 potatoes

Somebody east said, "Pass the potatoes!"

Out in California, the fertile San Joaquin Valley heard them. And look what happened.

Santa Fe started moving 14,000 to 15,000 carloads of potatoes to hungry markets all over the Midwest and East, 36,000 to 40,000 pounds to a carload. As high as 550 carloads per day at peak of harvest. That's more than 1,350,000,000 potatoes. And that's a lot of spuds.

Bag 'em. Load 'em. Roll 'em. And hustle. Somebody east said, "Pass the potatoes!"

From America's largest fleet of refrigerator cars owned by an individual railroad, these yellow

Santa Fe "reefers" are dispatched to the "Potato Capital of the West."

There the cars are cleaned, checked, loaded, switched. And iced fast (a car a minute, if you please). These potatoes can't wait!

In servicing the cars as they speed east, new icing docks at Bakersfield and Needles, Calif., Belen, N. Mex., Waynoka, Okla. and Kansas City work the clock around. Electronically-controlled "hump" yards speed the switching.

SANTA FE PRECISION—SANTA FE SPEED

On-time delivery calls for full-time precision to keep these schedules "on the advertised."

After the potatoes come the wheat... citrus fruits... grapes... melons... and green vegetables all year long—flooded east from Santa Fe country to you. Everything from avocados to zucchini.

It costs Santa Fe millions of dollars to serve you so—and provide you with Super Chiefs, too! But we're proud to say they are earned dollars. Not one penny comes from the taxes you pay.
