## Thief Makes Getaway

Wednesday City Marshall Hardberger had a unique experience with a boy thief, who in extreme excitement made a getaway Wednesday morning.

Mr. Hardberger was driving to the League Estate. He was in the pasture of the estate when he saw a parked car. Cautiously yet unaware of the fact that a thief and hijacker rested in the parked car, Hardberger approached the machine only to see it start running at a rapid rate. The city marshal followed the boy, believing Hardberger knew the details of his thieving, he nothing hamper his departure. Upon reaching Little Dutchman creek the boy stopped the car on the bridge and made for the Trimier house where he took a saddled horse from Price Trimmer and headed north across the pasture into a big cane patch. He made his getaway.

The car deserted by the boy had a bunch of burglary tools, and three new batteries. It also had several tires which were taken in a Seymour burglary two or three months ago.

Since Saturday the Knox County Hospital has been a very busy place and the scene of much unhappiness. It is wonderful to know that Knox City has a place to heal the wounds of the body and restore those suffering to health again. Authorities in our hospital are glad to minister unto those who come here for treatment, which fact alleviates the pain no little amount.

### EIGHT IN CAR WRECK

E. Q. Warren was called to Guthrie Sunday about dark to bring in the entire Hasty family who were all hurt in a car accident. They live in Quitaque to which place they were going.

Mr. Hasty was driving to two doors Ford. The sun was just about to set and its rays blinded the driver and he turned the car over in a ditch. All except two small children were hurt. They were brought to the Knox County Hospital where broken arms, ribs and bruises were attended and one misplaced eye righted. All received minor scratches and bruises.

Five of the eight who were in the car were in the hospital over the night Sunday. They were Mrs. E. A. Hasty, Henry Hasty Jr., Mrs. S. E. Hasty, M. M. Hasty and Anne Jane Hasty.

E. Q. Warren was accompanied to the scene of the accident by Leo Park.

### MRS. TAYLOR HONORED WITH SHOWER

The seat of honor was draped with a Spanish sawl and placed before the fireplace which was banked with ferns and rose buds, an attractive background.

After a piano medley of Love Songs by Mrs. V. H. Pysatt, Miss Myrtle Evans sang "Just a Song at Twilight". Mrs. Taylor was led to a table supporting a huge rose bud, from which were suspended small hearts, each bearing a number. As the honoree selected a heart and read its number, the guests holding the corresponding number, read in rhymes places to look for hidden treasures. After a long treasure hunt the bride displayed her gifts. She received many beautiful and useful gifts.

Refreshments of brick ice cream and angel food cake were served to sixty-five guests. Plate favors were rose cups filled with rice.

During this time a short musical was given by pupils of Mrs. E. Q. Warren, Misses Wynell Edwards, Jonell Robbins and Mary Lou Graham.

On departing, the guests showered Mrs. Taylor with Rice.

Reverend and Mrs. J. W. English and son Billie of Gentry Arkansas arrived in Knox City Wednesday morning for a visit with their daughters, Mrs. Acker and Mrs. Finley.

## Five Towns at P-T-A Council

The County Council of the Parent Teacher Association held here in an all day meeting Tuesday included representatives from five towns in the county. They were Truscott, Benjamin, Gilliland, Rochester and Knox City, with a representative from Seymour.

The morning program was given largely to an address by the District president Mrs. Kincaid of Seymour on Increasing the Parent Teacher Attendance.

At noon lunch was served to all visiting and local delegates in the dining hall of the church.

The outstanding feature of the afternoon program was the school of instruction with aims and purposes of the Parent-Teacher Association conducted by Mrs. Kincaid. Among the addresses and discussions of the afternoon were talks by Mrs. E. L. Huntsman and Mr. Travis Dean, also a lecture given by Dr. T. S. Edwards on Health throughout the School.

The day proved to be a profitable one in spite of the fact that all Parent-Teacher Associations of the county were not represented at the meeting.

The next County Council will be held in January at Truscott.

### PARENT-TEACHER MEETING

Tuesday evening the Parent-Teacher Association met for its first program for the year. Although the attendance was smaller than was expected, the crowd was an appreciative and responsive one. The program was both interesting and instructive and it is hoped that as a result of this meeting, more parents will be in attendance at the next meeting.

The next meeting of the organization will be a business meeting on the afternoon of Wednesday, October 12th.

### GUEST HONORED WITH BRIDGE PARTY

#### SHALL WE NEGLECT THE LORD'S HOUSE

Is it right for us to neglect the Lord's house and fail to worship Him in His House on Sunday morning even if we do work hard for ourselves all the week? If we use all the week for ourselves, surely we should be willing to go to the House of the Lord on Sunday morning and worship His own who makes us able to do that work. "Six days thou labor and do all thy work, but the Sabbath is Holy unto the Lord".

We know it is hard to get up on Sunday morning after we have worked all day, or week, but we should also be mindful that we have been working for ourselves, why not give to the Lord that which He requireth of us? Who or what is it that helps us in our business most. If we will think for a moment, we will answer, it is the church and

## On Texas Farms

By W. H. Darrow of A. & M. College

#### SEASON FOR STARTING PASTURE IMPROVEMENT HERE

College Station—A return of \$7.46 per acre in the form of feed supplied livestock by grazing, as reported on 19 scattered East Texas permanent pasture demonstrations for the first six months of the year, represents an average of what farmers in that region may fairly expect to get by improving their native pasture by demonstration methods, says R. H. Bush, special agent in the Texas Extension Service at A and M College. Calling attention to the fact that early fall is the best time to begin pasture improvement, he says these demonstrations are typical of more than 1000 in East Texas supervised by county agents. Records show that the newly improved pastures furnished grazing to about four head of cows of work stock on every five acres. The grazing value was estimated at 5 cents per cow per day, a value based on a conservative estimate of the wholesale price of the feed the grazing replaced.

A farmer in this group who only mowed the weeds so the native grasses could grow found that five acres supported two cows, giving him a return per acre of \$3.83 in six months. The man with the best improved pasture had good grazing for six cows per acre, making a net return of \$54.74 per acre for the six month period. The four best pastures averaged about 2 1/2 cows per acre and returned \$23.89 for the first half of the year.

"Improving native pastures in East and Central Texas," says Mr. Bush, "should begin in September and October with the sowing of grass and clover mixtures after excess brush has been cut out, weeds mowed, and terraces thrown up where needed to conserve moisture and prevent erosion. In East Texas and the Gulf Coastal area a mixture of Bermuda grass, dallis grass, lespedeza, bur and white dutch clover, and annual sweet clover and black medic will furnish a combination that does well and furnishes grazing almost the year around. In the Blackland and further west the mixture proving good in demonstrations consists of Bermuda, dallis, rescue and Italian rye grasses, and sweet clover, bur clover, and black medic.

#### Makes Bedroom Beautiful at Small Cost

San Benito—For a little more than \$7 Mary Cavazos has a pretty new bedroom in her farm home near La Paloma in Cameron county. As a demonstrator for her 4-H girl's club she won first place in the county and second in the district for her cleverness in making great changes at small cost.

She put in a new window from an out-building to give more light and ventilation; kalsomined the walls cream and painted the woodwork ivory; and got her uncle to make a dressing table from orange boxes and a study table and a clothes closet from scrap lumber. Unbleached domestic trimmed in soft green made curtains for the dressing table and clothes closet, as well as a bed spread Soft green dotted scrim was used to curtain the windows. The old lumpy cotton mattress was made over, and Mary made the bed sheets herself. The floor was bare so she gave it two coats of a home-made wax, and with the help of a neighbor made two beautiful hooked rugs. Two good pictures were added, book ends and books were placed on the study table and a waste basket made. The entire family helped in doing the work she could not perform alone, as a result she has a room that meets her needs for convenience and enjoyment.

After saving \$600 on grocery bills in the last year by cutting food expenditures from \$60 per month to \$4, Mrs. R. C. McParlane of Port Neches Home Demonstration Club explains her system. "We have 58 varieties in our year 'round garden that cost us only \$10, and I will have over 500 cans of food when the season is over. We buy only cereal, lard, bacon, sugar and flour from the store and raise the rest ourselves."

Twelve cans of tin cans sold in Coleman county this year, besides large quantities of glass jars, jar tops and tin lids, leads the home demonstration agent to estimate that a total of \$1,000 containers of food will be put on farms there this year. He is a demonstration club member.

report helping 486 women not club members with their food preservation.

With a total cost of \$37.50, 12 Van Zant county 4-H club girls have made their bedrooms attractive.

Double the sale price for his feed is what Ernest Gulloud, Hartley county farmer, says he made by selling his enormous feed crops through 261 steers fed under county agent direction. The first 30 sold topped the Kansas City market. He became interested in feeding through his 4-H club son who has fed baby beeves three years.

Seven Mason county farmers are creep feeding 525 beef calves as a result of last year's demonstrations which showed that creep fed calves put on from 100 to 150 pounds more weight and other calves, at a feed cost of less than 4 cents per pound.

Hamilton county farmers have been shown by the county agent how to destroy beds of stinging red ants at a cost of about 3 cents per bed. A solution of sodium cyanide is poured in the beds when all the ants are at home.

## THIRD SECRET OF SUCCESS

Having gathered together his organization, there remained for Jesus the tremendous task of training it. And herein lay the third great element in his success—his vast unending patience. The Church has attached to each of the disciples the title of Saint and thereby done most to destroy the conviction of their reality. They were very far from sainthood when he picked them up. For three years he had them with him day and night, his whole energy and resources poured out in an effort to recreate an understanding in them. Yet through it all they never understood.

In spite of all he could do or say, they were persuaded that he planned to overthrow the Roman power and set himself up a ruler in Jerusalem. Hence they never tired of wrangling as to how the offices should be divided. But Jesus never lost his patience. He believed that the way to get faith out of men is to show that you have faith in them; and from that great principle of executive management he never wavered.

Of all the disciples Simon was most noisy and aggressive. It was he who was always volunteering advice forever proclaiming the staunchness

of his own courage and faith. One day Jesus said to him, "Before the cock crows tomorrow you will deny me thrice." Simon was indignant. Though they killed him, he cried, he would never deny! Jesus merely smiled—and that night it happened.—A lesser leader would have dropped Simon. "You have had your chance, he would have said." "I am sorry but I must have men around me on whom I can depend." Jesus had the rare understanding that the same man will usually not make the same mistake twice. From that time on there was no faltering in Peter.

The Bible presents an interesting collection of contrasts in this matter of executive ability. Samson had almost all the attributes of leadership. He was physically powerful and handsome; he had the great courage to which men always respond. Yet Samson failed miserably.

Moses started out under the same leadership. He tried to be everything and do everything; and was almost on the verge of failure. Then Moses took the advice of his father-in-law and associated with himself a partner, Aaron, who was strong where he was weak. Together they achieved what neither could do alone.

John, the Baptist, had the same lack. He could denounce, but he

could not construct. He drew crowds who were willing to repent at his command, but he had no program for them after their repentance. The same thing might have happened to the work of Jesus. Yet because of the fire of his personal conviction, because of his marvelous instinct for discovering their latent powers and because of his unwavering faith and patience, he molded them into an organization which carried on victoriously. A few decades later the proud Emperor himself bowed his head to the teachings of this Nazareth carpenter, transmitted through common men.

## FROM STATE DEMOCRATIC HEADQUARTERS AUSTIN

The campaign for the national Democratic ticket in the number 18 Congressional District will be conducted by a Committee composed of R. E. Underwood, Amarillo, who will be Chairman; B. M. Harris, Snyder; Dudwood H. Bradley, Lubbock; Mrs. Floyd Fletcher, Amarillo, and Mrs. Meade Griffin, Plainview, according to an announcement received from Democratic Headquarters at Austin.

Complete responsibility for the success of the Democratic nominees in this district will be vested in the committee, it was indicated in a statement by Roy Miller and Senator Margie Neal are in charge of national Democratic activities in Texas. It will be the duty of the congressional committee to organize the district in such a manner as to bring out, as a tribute to John Garner, the largest Democratic vote it has ever cast, the statement continued. No doubt of the outcome was expressed, the only question being the "size of the majority".

The statement follows: The plan of organization has two purposes in view; first, to decentralize the activities of the campaign; and second, to bring into the active work of the campaign as many Democrats of our State as possible, both men and women. Of course, there is no doubt as to the result in Texas. It is only a question of majority. We feel that every Texas Democrat will take deep personal pride in doing what he or she can to make the result a fitting tribute to the ticket and more particularly to our own John Garner.

The various district committees are charged with the responsibility of organizing every county in their respective districts. They will utilize the existing organization, that is to say, the County Executive Committees, wherever possible. If, however, in order to insure the sort of intensive campaign we propose, it is necessary to set up special committees they are authorized to do so. Committees of women with Chairmen for each county and for each precinct in each county will be appointed to cooperate and work with the County Executive Committees.

What we have in mind and what we propose to accomplish with the co-operation of the loyal Democrats of Texas, in an active, energetic, enthusiastic working committee of men and women in every one of the nearly seven thousand voting precincts of the State. In other words, we hope to have not less than 40,000 Democrats working to make Texas the nation's banner State of Democracy.

Unfortunately, we have not been able to give committee assignments to all of the enthusiastic Democrats of the State who have rendered their services. However, this is the people's fight in which every forward looking Democrat must play his or her part. There is a place for every one and we shall find glory enough for all in the splendid victory which shall be ours in November.

# RAIL TRANSPORTATION IS EFFICIENT AND ECONOMICAL

● THE RAILROAD is the most efficient and the most economical transportation agency the human mind has ever devised.

The ability of commercial trucks to operate with various charges for their services has been because they are not required to carry all kinds and classes of freight. The truck can choose its freight and is privileged to reject that which it cannot handle, either because it is not equipped for such heavy service or the rates are too low to be profitable. The railroad CANNOT DISCRIMINATE but must accept all freight offered it.

In 1930 the shippers of Texas paid the railroads \$225,223,142 in freight charges. If the same volume and character of traffic had been carried by trucks it would have cost the shippers, according to the best available data on trucking costs, \$900,000,000, or four times as much.

What will be the effect on the shippers of Texas if only the traffic which the trucks cannot handle is left to the railroads? If traffic paying the higher rate is taken from the railroads by the trucks, it will be necessary for the rail carriers to increase their rates on the low grade traffic or go out of business. The total transportation bill will be greatly increased.

The railroad rate structure is a composite designed for the purpose of enabling the free movement of ALL ARTICLES OF COMMERCE, making it possible to bring even the cheapest commodities into general use and distribution. Were it not for the low rates made available by the railroads on many low grade commodities and raw materials, their distribution and use would be impossible and all commerce and industry would be seriously affected.

● THE RAILROADS CANNOT SUBSIST ON LOW GRADE TRAFFIC ALONE.

## Guild Scholarships Finance Four Boys' Educations

CHAMPION COACH-BUILDERS AND AWARD THEY WON

These four boys, members of the Fisher Body Craftsmen's Guild, are all set for four years in any universities they select. They built the four scholarship-winning Napoleonic coach models in the second annual competition of the Fisher Body Craftsmen's Guild. Four checks like the one pictured have been earned over by the Guild to the Union Guardian Trust Company of Detroit, which will invest the \$5,000 for each boy pending completion of any unfinished high school work, furnish him with funds for his university education as they are needed, and when he receives his diploma, hand him the unspent balance, plus the return on the investment, thus putting a premium on thrift. The boys, from left to right, are Gordon Drummond, 19, of Washington, D. C., Franz Ibsch, 19, of Columbus, Wis., Fred Friedrich, 16, of Rochester, N. Y., and Raymond Smith, 16, of Lawton, Okla.
