Pipeline Blowout Kills Two

Two men were killed and a third injured Tuesday when a natural gas pipeline they were repairing blew out. The accident occurred east of Benjamin.

Leslie Louis Bess Jr., 50, and Lyndon Emmett Ketchersid, 51, both of Vernon, were pronounced dead at the scene by Justice of the Peace Guy Bradley of Knox City. Assisting Bradley in the investigation were Knox County Judge Homer T. Melton and Deputy Van Green, both of

Benjamin.

The injured man, Jimmy Freeman, 31, also of Vernon, apparently managed to get back to the truck and inform and Lone Star Gas Company's Benjamin Booster Plant, located seven miles east of Benjamin on U.S. Highway 82, of the accident. The accident occurred one mile east and five miles north of Farm Road 267, 2 1/2 miles north of Highway 82.

Freeman was taken to Seymour Hospital where his condition was listed as stable late Tuesday night.

Although the Knox County Sheriff's Department did not receive word of the accident until 1:25 p.m., investigators at the scene believed the accident occurred sometime between 11:00 a.m. and 12:00 noon, according to Green.

The men, all employees of Lone Star Gas Co., were putting a collar on an eight-inch pipeline when the blowout occurred. Cause of the blowout is still unknown.

Bess's body was found 60 feet north of the blowout and his billfold and keys were found 378 feet north of the accident, the investigating officers said.

Ketchersid's body was 126 feet north of the blowout. A shovel with its broken handle was found as far away as 400 feet north of the accident, they said.

A large hole, described by the investigating officers as about the size of an office desk, was left beneath the blowout. No fire occurred, the officers said.

Sandra Bradley, left, David and Dusty accompanied their husband and father, Max, to a spot where he earlier had seen two rattlesnakes basking in the sun as he was checking the cattle for Lee Smith near the Jamison place. Max went back to the house for his gun and gasoline and the family decided to join him. Max explained that Sandra shot 'most' of the 28 rattlers as he drove them out of four different holes with gasoline. Four of the snakes managed to crawl back in.

COUNTY OFFICIALS ON HAND MONDAY MORNING at the Benjamin Dump Grounds watch as the blaze begins in the pit before dumping the cache of marijuana discovered last Thursday night at the Munday Airport. The metal container went over the edge too but was retrieved later by the county employees.

Marijuana 'Goes Up In Smoke'

Knox County law officials, with the help of several county employees, destroyed a cache of marijuana unloaded at the Munday airport late Tuesday night.

The marijuana was burned at the Benjamin dump grounds about 10:00 o'clock Monday morning, and although the marijuana was described as 'green', it burned quickly with the aid of fuel and high winds.

Knox County Sheriff H.C. Stone reported to the News office that both the Munday and Knox City airports had been under surveillance since last year and that when Deputy Pete Hatfield and Constable Joe Lane, both of Munday, noticed an 'extra' red light at the end of the runway at Munday airport three miles northwest of town, they drove down to investigate. Although the gate was locked and the law officials were stopped, an airplane

took off without lights. After securing entry to the runway, the officers found 400 pounds of marijuana in plastic bags and boxes stacked behind the gasoline storage tank and scattered along the runway.

Drug enforcement officers from the Department of Justice in Lubbock were notified and a team of four, led by Jerald M. Voyles, together with six Knox County officers, staked out the airport and marijuana cache.

Friday morning about 9:15 an airplane landed, taxied up to the marijuana, suddenly turned and took off, circled once over the airport and left. Another small plane landed moments later.

Officers believe the second plane scared off suspects in the first airplane. Authorities are reported to have recorded the plane's number.

Voyles said the marijuana, estimated at first to be 1,200 pounds, was 'Oaxaca marijuana of the best grade and was worth \$110,000 in Texas.' If the marijuana was to have been taken north, as they suspected, its worth would have been closer to \$300,000, the federal drug agent said.

FFA Members Place In San Antonio Expo

In the barrow division, Phillip Rhodes had the fourth place in middleweight Spot, Shelton Rhodes had the fifth

place heavyweight Spot, Russell Hacker had the fifth place heavyweight Hampshire, David Counts showed the eighth place middleweight Spot, Kristi White showed the tenth place middleweight Hampshire and Rodney Warren had the tenth place lightweight Spot.

Skipper Jackson was fourteenth with his middleweight Brahma steer.

Others exhibiting were Kevin White, Steve Rumley, Roy Faulk, Doug Ray, Raul Espinosa, Mark Clonts, Johnny Carrasco, and Gaylynn Burkham.

There were 2099 barrows entered in the show, and approximately 433 made the Premium Sale, including the seven Knox City winners listed above.

Greenhands Sponsoring Animal Farm

The FFA Freshman Greenhands are sponsoring an FFA Animal Farm at the new Ag Barn next to the school, from 9:30 to 11:30 today, Thursday morning.

The Animal Farm, a small zoo of farm animals, is open to Kindergarten through Fourth graders at no charge. Preschoolers and their parents are also welcome.

There will be a variety of livestock exhibited, including pigs, chickens, goats, sheep, horses and even a cow milking. This is an excellent opportunity for the youngsters to see and pet farm animals, and get acquainted with them.

This exhibit will be similar to the one held in Fort Worth, enjoyed by visitors of all ages.

Sponsors of the FFA Freshman Greenhands are Buddy Hale and Jim Dillon.

Heart Fund Drive Is Now Underway

Knox City's Heart Fund Drive is officially underway this week, according to local chairman Derrell Marion.

Instead of dividing the business and house-to-house campaigns into a separate week as was earlier stated, both campaigns are being conducted this week.

ACCEPTING THE ECONOMICS TEACHING KIT on behalf of the Knox City Schools is Supt. W.R. [Bill] Baker. Knox City Chamber of Commerce secretary-manager Doris Crowover presented the teaching aid which was purchased for the schools by the local chamber.

Teaching Aid Presented To KCHS

The Texas Legislature has mandated the teaching of a course, "Fundamentals of the Free Enterprise System" in public high schools as a step toward guaranteeing the perpetuation of the economic system which has been America's strength for the past 200 years. The problem schools are facing now is that there is a serious shortage of teaching materials on the subject, as no textbooks as yet have been adopted by the

state. The Chamber of Commerce of the United States has prepared an audio visual teaching kit entitled "Economics for Young Americans" and it is being distributed through the West Texas Chamber of Commerce. The Knox City Chamber of Commerce recently purchased a kit for use in the local high school.

A film strip and taped commentary are provided for each topic along with a set of exercises, on spirit duplicator forms, that Jerry Lowrey, instructor, can use to reproduce as many lesson sets as needed.

Teaching outlines are included with each topic to assist the instructor in presenting the material to the student. Topics include "The Promise of Productivity", "Money Matters", "Profits at Work", and "Business Means Business about Ecology".

Lowrey began teaching the course Wednesday.

County Officials

The increase will become effective March 1.

A public hearing on this proposal will be held at 11:00 a.m. on March 14, during the next regular meeting of the Commissioners' Court at Benjamin, according to a notice in this week's News.

O'Brien Happenings

By CHARLENE BROTHERS

I made it back from the short tax school with no trouble save the fact we do not know yet if we passed the exam. Maybe we (Marry Sorrells from Haskell went with me) did. It was a hard test, or maybe at my age I have just forgotten how to really concentrate and study. Just a word of advice to the young people, if you plan a certain career or to attend college, do it now, do not wait until you are older as it is very much harder. I'm hoping that the next three will be easier as I will be going every month and not waiting two or three years in between.

I have been asked by the Constable in Rochester if anyone in O'Brien needs to call him for anything please free to call. He has been making trips up here ever since he took office January 1. This was a surprise to some of us, as he is not seen all the time, so beware if you are up to something he might be around and you not know it. The name is Jim Wilkinson and I will have a telephone number next week for you to call. Should you need him before then you can call the City Hall or his home in Rochester. I still think the City should get together and start paying a certain amount each month for his expenses and trouble to come up here. I know he is paid some from our county taxes, but how many of us go out of our way very often to help someone in another town if the expense is coming out of our own pocket, which is about what this amounts to with Mr. Wilkinson. Of course since I'm just a resident I cannot have a lot to do with this so you city councilmen and mayor and business owners need to think about this.

April 2 is the time for the City and School elections. Remember these and come out and vote. The City will have three councilmen and the mayor whose time is out. These are James Manning, Buster Hodges, Elmer Jackson, and Mayor F.D. Emerson. If you would like to sign up to run for one of these places you may contact Mrs. Bob (Kathy) Cameron. The deadline for signing up will be March 3, so do not forget this and we will have to have someone to fill these places, we need more people to take an interest in our city, if no other way than standing behind the ones that do fill our places of responsibility and not criticize so much. (I would like to say here that most of this column is my own opinion and not necessarily that of anyone else in O'Brien, so if you read something that you take offense to, think of me personally and not the town as a whole.)

Remember that our school trustee election will be as a consolidated district with Knox City, but that we will have our own election place here in O'Brien. We will be electing seven new trustees, well maybe not really new, but everyone that is on the board now will have to resign papers to run for that office in April. Then at the first meeting they will draw for one, two and three year terms. Here is your chance to run for the office of school trustee if you wish, it is such a good paying job, but mostly with gripes. You can contact the superintendent's office at the Knox City High School for the forms to fill out. Let's have several over here to run.

Some of the following here and there will be the week before as I promised that I would have it all this week.

Lions Club News

By Z.I. SMITH
Wednesday the Lions were happy to have new club sweetheart Angela Reid playing for their opening songs.

President John McGaughey made some announcements about local upcoming events.

Tail twister Sterling Lewis collected used glasses from each Lion as payment for his eating utensils. Those without any glasses were penalized one dollar for their fork and knife. A full paper sack was collected and will be sent on to district Governor Owens.

Monthly program chairman Lion David Counts showed a film that he has been taking around a wide area and showing to other groups. Title of the film is "The Price of Peace" and was made by the American security council and the AFL-CIO. Content of the film is to inform the American people of the tremendous

increase of military. Air, and Naval strength of the Soviet Union since 1962 when the Cold War forced them to remove missiles from Cuba. Since then the United States has relaxed its efforts to innovate and build a force equal to the Soviet Union. The opinion expressed by high military officials in this film is that the U.S. now has a weak defense. An appeal is made to all viewers to write all congressmen and encourage a re-evaluation of our country's strength. The danger to our country grows with each day. Pamphlets with information and supporting statements were passed out to each Lion.

Temi Sinks Two For Overtime Win

Former KC Houndette Temi Baker, now a member of the Western Texas Dusters in Snyder, added some 11 points to her career standings Monday night when they met Howard College in Big Spring; however, the final two which were pumped in were the most important as she sank the shot with only seconds left to win the overtime game for WTC, 78-77.

Temi's parents, Mr. and Mrs. W.R. Baker, were in Big Spring for the game and Bill said it was a real "barnburner". Bill also noted that Temi played the entire game for the first time without anyone substituting for her and that also this game moved the Dusters within a game of the league title. Women's college basketball is played on a full court press.

Howard College led the game over WTC at halftime by a score of 31-26.

Rural Housing Loans Guaranteed

KNOX CITY, TEXAS -- The Farmers Home Administration has begun a program through which it will guarantee rural housing loans made by commercial banks, savings and loan associations, and other private lenders, Joe T. Boone, FmHA County Supervisor for Knox County, has announced.

FmHA, the rural credit agency of the U.S. Department of Agriculture (USDA), will guarantee up to 90 percent of the principal and interest of these loans.

Guaranteed housing loans will be available for moderate income borrowers who cannot get housing mortgage credit without a guarantee. Applicants who cannot qualify for guaranteed loans may apply for loans made by FmHA.

At present, the USDA agency will offer loan guarantees only under its single-family housing loan program. FmHA will continue to make single-family housing loans with its own funds. It will also continue to make, but not guarantee, loans for rural rental housing, farm labor housing, housing site development, and other purposes.

Single family housing loans are made in open country, towns of up to 10,000 population, and certain designated towns of between 10,000 and 20,000 population. They finance modest but adequate housing and related facilities, Boone explained.

Loans may be used to buy, build, improve, repair, or rehabilitate houses and related facilities, and to provide adequate water and waste disposal systems.

Guaranteed loans will be made only to applicants with moderate income, defined by FmHA as adjusted gross income of less than \$15,600 per year for residents of Texas and not eligible for FmHA subsidized rural housing loans. Low income applicants may be eligible for subsidized rural housing loans made by FmHA.

Loans to be guaranteed are limited to 97 percent of the market value of homes and sites for the first \$25,000 and 95 percent of the loan in excess of \$25,000. The borrower must have equity from his own resources, in the form of cash or land for the down

payment, Boone noted. The top limit for a guaranteed rural housing loan to a resident of Texas is \$33,000. The maximum repayment period is 33 years.

Boone also reported that FmHA regulations provide lenders who obtain guarantees for rural housing loans options for selling, assigning, or selling participations in the guaranteed parts of these loans.

FmHA regulations require that the lender making a guaranteed rural housing loan be a local lender -- located in or doing business in the area where the house is located.

To apply for an FmHA-guaranteed rural housing loan, contact your local lender.

GED Tests To Be Given In Haskell

The General Educational Development (GED) Tests will be given at the Haskell High School Official Testing Center, in Haskell, on Saturday, February 26, beginning at 8:00 a.m. A standard fee for the course will be charged.

The GED Program provides a means for determining the educational level of adults who have not completed a formal high school education. A certificate of high school equivalency may be issued to adults who successfully complete the GED examination, verifying that the holder has demonstrated a level of competence on the examination which is equivalent to that of a high school senior.

The program is administered nationally by the American Council on Education, Washington, D.C. The Texas Education Agency authorized

accredited high schools and institutions of higher education to serve as testing centers. The centers administer the GED tests to adults who are eligible and report the scores of successful examinees to the Texas Education Agency, which issues certificates of high school equivalency free of charge.

The test has five parts: Correctness and Effectiveness of Expression, Interpretation of Reading Materials in the Social Studies, Interpretation of Reading Materials in the Natural Sciences, Interpretation of Literary Materials, and the General Mathematics Ability. The test questions are multiple choice. There is no time limitation but most examinees take approximately eight hours to complete the test battery.

Persons eligible for testing must: (1) be a resident of Texas or a member of the Armed Forces stationed in Texas; (2) be at least 17 years of age and officially withdrawn from school for one calendar year. (Applicants who have attained their 17th birthday and will enter the Armed Forces may test immediately after withdrawing from school; (3) be 18 years of age and officially withdrawn from school.

To receive a certificate of high school equivalency, the examinee must: (1) complete the examination with a minimum standard score of 40 on each of the five tests or an average standard score of 45 on all five tests; (2) have attained at least their 17th birthday prior to date of testing and be out of school for one calendar year; and (3) have attained their 18th birthday and be officially withdrawn from school.

Applicants must wait six months before retesting. If the applicant is tutored by a certified teacher or participates in an adult education program, retesting may occur when the instructor determines the applicant is prepared.

Applicants are advised to bring their Social Security Number and their driver's license as proper identification.

Jamboree Has Good Turnout

Jamboree fans turned out in a large number Saturday night for the monthly event. Pretty weather and an excellent slate of entertainment was enjoyed by all of the spectators.

A 'big' addition to the musical was the appearance of Johnny Ray Watson who in his own words added 'color' to the show. Watson was here participating in the weekend Missionary Conference of the First United Methodist Church. He presented several religious numbers and was warmly received by the Jamboree crowd.

Also appearing on the show were the "Groovy Grandmas" from Gilliland and Vernon. These women, whose names were unavailable at press time, displayed unique talent with instruments ranging from the violin, piano, and guitar, as well as a plastic bowl with two spoons used for a rhythmic beat. Accompanying the group on his violin was Brownie Tackitt, who is a member of the KC Jamboree Band.

Also providing his own style of violin music for the crowd was Antone Teichelman. Teichelman is from Sagerton and has appeared at numerous KC Jamborees.

Other members of the Jamboree group performing Saturday night included Tommy Kent, who also served as master of ceremonies, Gene Hester, Gwen Hewitt, Stacy Angle and Billye Angle who provided several numbers to kick-off the event.

Several KC merchants graciously donated door prizes to the winners holding a lucky ticket. Winning a bottle of shampoo compliments of Janie's Barber Shop was Mrs. May Corley of Rochester; Lois Buckley won a picnic set and Blanche Elliott was the recipient of a set of Coke glasses, both courtesy of White Auto Store; and Mrs. Charlie Groves, won a Parker pen from The Knox County News.

The next Jamboree will be the regular third Saturday night of the month, March 19, in the school auditorium.

Group In Austin For Governor's Conference

A group of cattlemen from Knox County along with Tommy Antilley, Knox County Extension Agent, will be among the more than 1,000 producers from across Texas participating in the Governor's Conference on "Mission '77: Stamp Out Screwworms," in Austin February 24.

This special conference has been called by Governor Dolph Briscoe to launch a campaign to eradicate screwworms from Texas in 1977. It will begin at 9:30 a.m. at the Municipal Auditorium.

Local producers who plan to attend the conference are Stanton Brown, Donnie Ryder, and O.L. Patterson Jr. of Benjamin.

The conference program will feature a welcome by Governor Dolph Briscoe, remark by a representative of the U.S. Secretary of Agriculture and the Mexico Secretary of Agriculture, and discussions on various phases of the screwworm eradication program by officials of the Texas Agricultural Extension Service, Texas Animal Health Commission, and the Southwest Animal Health Research

Foundation, the USDA Animal and Plant Health Inspection Service, and the Mission Screwworm Lab.

According to Antilley, the special campaign is being launched this year because the potential is high for dealing a final death blow to screwworms, those flesh-eating pests that cause millions of dollars in losses to livestock producers each year.

Three factors exist that can make this special eradication effort a reality: (1) The cold winter will reduce the number of screwworm flies this spring. (2) The new screwworm plant in Tuxtla Gutierrez, Mexico, which opened last July will double the sterile fly production capacity. (3) A new strain of sterile flies has been developed which should be a significant improvement over earlier flies.

Overall, the campaign is designed to create a new vigilance on the part of livestock producers in handling and treating livestock so that the screwworm can be completely eliminated in Texas.
