LT., Mrs. Anderson Located At Laredo

Lt. and Mrs. David P. Anderson are now living at 2509 Elm in Laredo, where he is stationed with the U. S. Air Force and receiving jet pilot instruction at Laredo Air Force Base. He began training there on December 12.

Mrs. Anderson, the former Samantha Graham and daughter of Mr. and Mrs. Jeff Graham, will be a candidate for a master's degree at North Texas State University at Denton this month at the close of the fall semester. She received a B. S. degree in speech and therapy there in August, 1966. She has accepted a position as speech and hearing therapist at the Laredo Rehabilitation Center and will begin work on Monday, January 29.

State To Furnish 1,165 Men In Feb.

State draft boards will be called upon to furnish 1,165 men for the armed forces in February, Colonel Morris S. Schwartz, state Selective Service director, said Tuesday.

This compares with quotas of 1,659 for January, 924 for December, 1,159 for November, 977 for October, and 1,180 for September.

The Texas quota of 1,165 for induction in February is the state's share of a national call for 23,300, all for the army.

The Selective Service boards will forward 4,590 men in February for pre-induction examination, Colonel Schwartz said, and they have scheduled 5,455 for this examination in January.

Local board quotas for induction and pre-induction examination in February are scheduled to be mailed from state Selective Service headquarters on or about January 10.

January calls for the local boards already have been assigned.

Fire Dept. Kept Busy

Members of the Knox City Volunteer Fire Department have been kept busy the past few days.

Calls were answered last Thursday night and Monday afternoon to grass fires, one in the flat and one back of the building occupied by the General Telephone Co. on Central Avenue.

Sunday afternoon a call was answered to extinguish a fire in a car at the residence of Mrs. Thelma Howell. Mrs. Howell reported that no major damage was done.

Firemen are asking the Herald again this week to remind its readers not to follow the fire truck or get to close at the scene of a fire.

The ricksha used in the Orient today was invented by Jonathan Goble, a U. S. Marine who visited Japan with Perry in 1854.

cycle registration is expected to increase 16 per cent. This follows a 25 per cent increase in motorcycles in 1966 over 1965 and another 17 per cent increase last year.

Motor vehicle owners can avoid long lines by registering during the month of February, rather than waiting until the March rush.

Owners should bring four items to the Tax Collector's office when registering vehicles: certificate of title, 1967 license receipt, current resident address, and zip code.

State law requires each owner to register his vehicle in the county in which he resides and to present his certificate of title as evidence of ownership.

During the 1967 session the Texas Legislature amended the Texas Registration Law by changing passenger car license fees and establishing a minimum fee of \$5.30 for all vehicles, including boat trailers.

The new rates for passenger cars are as follows: Up to 3,500 pounds . . . \$12.30
3,501 - 4,500 22.30
4,501 - 6,000 30.30

J. Tankersley Gets Expert Rifle Rating

FT. BRAGG, N. C. (AHTNC) - Army Private Jimmy N. Tankersley, 20, whose parents, Mr. and Mrs. E. H. Tankersley Jr., live on Route 1, O'Brien, Texas, fired expert with the M-14 rifle near the completion of basic combat training at Ft. Bragg, N. C., Dec. 17.

The expert rating is the highest mark a soldier can achieve on his weapons qualification test.

According to the manufacturers of men's hairpieces, the average age of the men customers is now between 25 and 40. Estimates of the number who wear hairpieces today range around the 500,000 mark. The hair used in men's custom hairpieces comes off the head of women, particularly those in Italy and Spain.

The Junior Class would like to thank everyone who supported our class in the Egg Sale last Thursday night.

Today (Thursday) and tomorrow, students will be taking Mid-Term tests. We are going to need all the luck we can get!

Sophomore News

The Sophomore class would like to thank everyone who bought goods at our bake sale last Thursday.

Last Friday our boys and girls basketball teams played Petrolia here. The girls won and the boys lost, but both games were real good.

This Friday the two teams travel to Archer City for their seventh district game. Let's all go and show them we are behind them all the way.

Houndette News

BY DONNA RAILSBACK
Last Tuesday night the Hounds and Houndettes journeyed to Paducah. The Houndettes were defeated 40-29. This game was the first district defeat.

Friday night the Houndettes defeated Petrolia 42-38. The Houndettes hold a four wins and 1 loss record in district play.

This coming Tuesday, the teams will play Monday here, Friday night Knox City journeys to Archer City.

PLEASE COME AND SUPPORT YOUR TEAMS!!!!

Sports

BY JOE REEDER
The Knox City Greyhounds played the Paducah Dragons last Tuesday night. The Paducah Dragons are in first place in the II-A race, and showed it by defeating the Hounds.

The Petrolia Pirates came to Knox City last Friday night. Petrolia came out on top by some eight points. Paul Graham, Ronald Curd, and Rogers Lankford all had over ten points each.

The Greyhounds play Monday here this Tuesday night, and then travel to Archer City on Friday. Please come and give your support.

Dec. Accidents Total 15 For Knox County

The Texas Highway Patrol investigated 15 accidents on rural highways in Knox County during the month of December according to Sergeant Frank Jircek, Highway Patrol Supervisor of this area.

These crashes resulted in six persons injured and an estimated property damage of \$7,310.00.

The rural traffic accident summary for this county during the calendar year of 1967, shows a total of 74 crashes resulting in 7 persons killed, 29 persons injured and an estimated property damage of \$59,-451.00.

When the final fatal traffic accident reports are tabulated for 1967 it is estimated that the death count for Texas is expected to be 3,340 or about two per cent less than the all time high of 3,406 traffic deaths in 1966. If this proves true, then, it will be the first reduction in traffic deaths since 1960. This decrease should be a challenge for every driver to put forth his best defensive know-how and efforts to reduce accidents in 1968.

The Sergeant cautions all motorists to keep windshield, windows, outside rear-view mirrors, and all lights clear of ice, snow, sleet, dirt and mud. The driver's vision is obstructed in one out of five fatal accidents.

Tax Man Sam Sez:

Although parents can claim children who are over 19 years of age and who are bona fide students during the year, 3% of the taxpayer assistance calls during the past year in Northern Texas wanted help on this problem. The answer is simple: Yes, Dad, Congress gave you a double exemption. You can claim your child (provided you furnish principal support) regardless of how much he or she made, and the students must claim themselves on their own return.

Texas engineers estimate an additional 14 billion barrels could be recovered through "water flooding" and other special recovery methods.

IT PAYS TO ADVERTISE

Streams In Desert Places
 BY OZELLE STEPHENS

The Word of God is a high tower and a shield. Those in trouble run into it and are safe. The Bible's words of wisdom direct you into a peaceful and safe place of joy and contentment. It is more than a book of knowledge and authority. It is a book of tremendous and powerful inspirations which challenges and changes men. It comforts and consoles in time of defeat, disaster, depression, and death. Its inspirations have the power to command men and to convert them to right ways of life.

To all who seek a true path of life the Bible is the way to health, happiness, and abundant success. "In the beginning was the Word and the Word was with God and the Word was God."

Employer's Tax Returns Deadline

Employers have an important tax deadline Wednesday, January 31, 1968.

This is the due date for reporting and paying withheld income tax and social security taxes for the calendar quarter ended December 31, 1967, according to Ellis Campbell, Jr., District Director of Internal Revenue for Northern Texas.

Employers who receive a preaddressed Form 941 should use this form to report their tax liability and should attach to the return the validated depositary receipts for the months of October and November. If you made a deposit for December, that receipt should also be attached.

Employers who made deposits in a Federal Reserve Bank or authorized commercial bank sufficient to pay their full tax liability for the quarter ended December 31, 1967, have until Monday, February 12, 1968 to file Form 941.

January 31, 1968, is also the due date for reporting and paying Federal Unemployment Tax for 1967. Employers liable for this tax should file Form 940 for 1967.

Representative Discusses S. S. Benefit Increase

Last week Edwin Draughon, Manager of the Vernon Social Security Office, discussed the increased social security payments that would be coming to persons in the Knox City area now on the social security benefit rolls in early March as a result of the amendments signed into law by President Johnson on January 2, 1968.

The effect of the new legislation is also to increase the benefits of all future beneficiaries a minimum of 13 percent. A person whose earnings under social security had averaged \$350 a month would, under the old law, get a benefit of \$124.20 upon retirement at 65, or \$186.30 for himself and his wife, if she was also 65 upon his retirement.

Under the new law, based on the same average earnings of \$350 a month, his retirement benefit will be \$140.40 per month, or \$210.60 for the couple -- \$24.30 more a month.

The maximum retirement benefit under the old law would have been \$168 a month (\$252 for a couple) payable to a worker 29 years old in 1968 and retiring in the year 2004, with average earnings of \$550 a month, or \$6,600 a year. Under the new law, this same worker can look forward to a monthly payment of \$189.90 (\$284.90

for himself and his wife). Thus for these workers who have been earning and who will continue to earn wages of \$6,600 a year or less, the new amendments will mean sizable increases in their future benefit payments--and without comparable increases in the social security tax contributions they were scheduled to pay under the old law.

A worker earning \$6,000 a year will pay exactly the same amount of social security taxes in 1968 as he paid in 1967. In 1969 and 1970, he will actually pay \$6.60 less for the year than he would have paid under the old law. In years after that he will pay only slightly more, with his maximum contribution no more than \$1.38 more a month than he would have paid under the law as it stood before the enactment of the benefit increases. These contribution rates also include the portion he pays toward his medicare protection for his old age.

Higher social security contributions are scheduled, however, for the one out of four wage earners who earns over \$6,600. He will be paying social security contributions on up to \$1,200 more of his annual earnings.

Beginning with 1968, earnings up to \$7,800 a year will be subject to social security contributions and will also count toward social security benefits.

For a worker earning the maximum of \$7,800 or more a year, this will mean additional

social security contributions of \$4.40 more per month in 1968, rising to a maximum additional contribution of \$7.28 per month in 1987 and later, including the amount he pays for his and his wife's hospital insurance under medicare. These higher paid workers who will be paying substantially more in social security contributions are, however, the ones who will also get substantially higher benefits, ranging up to 30 percent higher than under present law.

For example, a young man now 27 or younger who pays social security contributions on \$7,800 a year until his retirement at age 65, will collect 30 percent more in monthly benefits than he would under present law -- \$218 a month for himself -- \$323 a month for himself and his wife. His family's benefit protection in case of his disability or death is also substantially improved.

Even the higher paid middle-aged worker who is much closer to retirement age will find his benefit prospects greatly improved. For example, a worker who is 50 in 1968 and will pay social security contributions on earnings of \$7,800 a year for only 15 years will collect a retirement benefit of \$188.80. This compares with the \$155 per month he would have collected under the old law, an increase of 21.8 percent. He and his wife together will be eligible for \$283.20 a month, instead of \$232.50.

Peace Corps Placement Test Held January 20

Area residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps Placement Test at 1:30 p.m. on Saturday, January 20 at Abilene, Room 2201, New Post Office Bldg.

The Peace Corps uses the Placement Test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. The test requires no preparation and is non-competitive; an applicant can neither pass nor fail.

Persons interested in serving with the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before the test. Application forms are available from post offices or from the Peace Corps in Washington, D. C. 20525.

Assortment Of Ranges Offered In LSG Co. Sales Campaign

Lone Star Gas Company's 1968 New Year Gas Range Sale swung into full operation January 1 offering a wide assortment of ranges in a sales campaign where the customer may name his own down payment with up to 48 months to pay.

Twenty-eight models featuring the latest innovations in Caloric and Roper gas ranges are on display for the customer's convenience at Lone Star Gas Company. The wide variety of range models features colors and styles designed to enhance any kitchen decor. Different range sizes fit available spaces in the kitchen with very little or no alterations.

Homemakers may choose from ranges tailored to meet the needs of their families. The large family might require double oven flexibility which permits cooking in two different ovens at two different temperatures -- at the same time. Caloric's Model E-403 36-inch Double-Decker Gas Range features a low comfort-level oven broiler with ultra-ray broiling and an upper eye-level oven. Roper's Charmette, Model 1858, offers a 30-inch double decker range with an eye-level oven on top designed for even heating and a lower oven that switches to serving temperatures after cooking foods.

For the smaller family, single oven ranges are available in the same attractive styling and with the same "automatic features." The many modern features of Roper's Model 1658, the 36-inch TFC gas range, include a cook and keep oven, mirror window, top front controls, and disposable silver oven linings. The 1658 comes in colors of avocado, copper tone and white. Roper's new deluxe Swing-Out Broiler is included

in the design. Caloric's Model E-303 36-inch gas range features comfort-level ultra-ray broiling, a timed cook and keep warm oven system, and removable oven-broiler door and cook top. All caloric burner controls are located at the front of the cooking surface. Caloric "stay cool" design offers 1001 heat settings to instantly insure the exact heat required.

Other modern features offered by Caloric and Roper gas ranges in Lone Star's New Year sale include fluorescent surface lights, recessed cooking tops, full width storage drawers, stainless steel utensil supports, smokeless broiling, unitized top burner energy systems, and automatic solid state ignitions that eliminate the need for a continuous burning pilot light.

Texas Schools Get \$87,058 For Breakfast Program

Texas public schools were assured today of \$87,058 of U.S. Department of Agriculture funds for the pilot school breakfast program.

The allotment was announced by John J. Slaughter, southwest director, Consumer Food Programs, USDA's Consumer and Marketing Service, Dallas.

Breakfast programs have been started in eighteen Texas public schools since January, 1967, when the program became available for the first time under the Child Nutrition Act.

"Many schools will want to start breakfast programs now that they can be sure of enough federal funds to operate for the remainder of this school year," Slaughter said.

Schools drawing their attendance from low income areas, and schools with children traveling longer than normal distances from home to classrooms are eligible for the USDA pilot breakfast program.

Texas is getting more federal funds than last year for the school breakfast program because Congress increased the appropriation from two million to three and one-half million dollars.

Texas Education Agency administers the pilot school breakfast program. It will use the \$87,058 of USDA funds to reimburse schools for each

breakfast served.

Children pay a nickel or a dime for breakfast at most schools. They get a serving of hot cereal, fruit, one-half pint milk and toast or a sweet roll.

The breakfast pattern varies as often as possible to include a protein-rich food such as eggs, sausage or other meats.

"Amounts of USDA funds available this year is sufficient to reimburse schools up to 15 cents per breakfast served," Slaughter pointed out.

This money covers the cost of the food, while the charges to children are usually set to cover the cost of preparing and serving the breakfast, he explained.

Teachers and school officials consistently observe that children who eat a nutritious breakfast regularly are more alert in classes and in play activities.

Schools interested in the USDA school breakfast pro-

Awards Given Members Of Hospital Staff

At a recent staff meeting in the dining room of the Knox County Hospital, Lyndol J. Cyfert, administrator, presented awards to several of the hospital personnel. Pins were given on the basis of the length of service at the hospital.

Cyfert explained that the pins were in recognition of each five years of service beginning with the tenth year. Some of the recipients have worked from one to three years longer than their awards designated.

Those receiving the awards and the length of service included Mrs. Emma Watkins, 30-year-pin; Miss Blanche Elliott, 25-years; Mrs. Cornie Covey, 20-years; John Lewis, 20 - years; Mrs. Carlene Manuel, 20-years; Mrs. Betty Ray, 15-years; Mrs. Nell Shelton, 15-years; Mrs. Leota Covey, 10-years; Mrs. Mackie Duckworth, 10-years; and Willie Brantley, 10-years.

Approximately 35 persons attended the ceremony.

Start pigs right on Purina Pork Startena

Hogmen know that it pays to start pigs right--for pigs that get a fast start are the ones that make a fast finish. A pig weighing 30 pounds at weaning can reach market weight when five months old--that's the payoff for starting 'em the right way.

Purina Pork Startena is one of Purina's famous pig starters. It's fortified with ASP-250* to help prevent disease. Contains the vitamins and growth-boosters needed to give pigs a good start down the market road. Pigs love Purina Pork Startena and thrive on it. It's a great feed. Priced right, too.

Pay us a visit and let us tell you more about Purina Pork Startena and other famous Purina Chows for hogs . . . and make it soon.
