'Hounds to Host Rule In Important 10-B Tilt

The Knox City Greyhounds, scoring in every quarter, rolled to an impressive 48-0 win over the Aspermont Hornets here Friday night.

Tomorrow (Friday) night the 'Hounds will be hosts to the Rule Bobs in an important District 10-B game. Knox City, Rule and Rochester are tied for the conference lead with 2-0 records.

Although Rule was considered the strongest team in the district at the start of the season, Knox City has a more impressive record. Rule was dumped by Chillicothe, 32-16, while the 'Hounds beat Chillicothe 40-18. Both teams have beaten Throckmorton, Knox City 27-0 and Rule 26-0.

Despite the upset by Chillicothe the Rule team, loaded with returning seniors, is still strong.

Steers, Throckmorton To Play Tonight

Knox City football fans have an opportunity to watch Rochester and Throckmorton play tonight at Rochester, the game beginning at 7:30.

The Greyhounds beat Throckmorton, 27-0, in their first conference game of the season, and will meet the Rochester Steers next week.

The schedule change will also allow the Steers and their fans to watch Knox City and Rule, both of whom they have yet to play in District 10 competition, on the local field Friday night.

Mrs. Garrison Dies Wednesday; Funeral Pending

Funeral services are pending for Mrs. C. W. Garrison, who died at 4 a. m. Wednesday at the home of a daughter, Mrs. Virgil P. Stephens, in Lubbock.

Arrangements will be announced by Pinkard-Smith Funeral Home when it is learned when a son will arrive from Washington.

Mrs. Garrison, called "Ma" by her many friends, had been ill since suffering a stroke two years ago. Born Annie Ridenhour on June 21, 1884 in Marshall, Texas, she married Clold W. Garrison Dec. 12, 1905 at Bells, Texas. They moved to Archer County in 1919, to the Grace community near Knox City Nov. 11, 1924, and to Knox City in 1939.

MICHIGAN EPIDEMIC SHOWS NEED FOR MORE POLIO SHOTS

The current polio epidemic in Detroit, Mich., is a vivid reminder that polio is a disease which remains a threat to every community in the nation as long as millions of Americans neglect vaccination, Mrs. Neil Perdue, chairman of the Knox County Chapter of the National Foundation declared today.

"What is happening in Detroit could happen here," Mrs. Perdue said. "There are far too many unvaccinated individuals in our county and many others who have had only one or two shots. While expanding our program to take in arthritis and gram to take in most not lose birth defects, we must not lose sight of the third eye of polio. It is still with us."

By the end of September more than 650 persons had been stricken with polio in Wayne County (Detroit), half of them paralytic, and more cases were being reported each day, the chapter chairman revealed.

Moffett Urges Good Turnout in Election Tuesday

Little interest in the general election Tuesday is evident in the Knox City area, even though Democratic nominees for major state offices have opposition.

The opposition is especially active in the senatorial race, with Roy Whittenburg of Amarillo running as a Republican against Senator Ralph Yarborough.

More interest is being stirred up over the nine constitutional amendments to be voted on Tuesday than over candidates.

Meeting a great deal of organized opposition is proposal No. 1 on the ballot, which would provide for annual sessions of the legislature and an annual salary of \$7,500 (instead of \$25 a day for a 120-day session) and an unspecified amount for "expenses of office."

Senator George Moffett has urged everyone in his district to vote in the election, since it has a bearing on politics in 1960. In a letter to The Herald this week Sen. Moffett said:

"It is of considerable importance that a large number of citizens turn out and vote next Tuesday. The law provides that the number of votes cast at the general election this year will determine how many delegates and votes each county in Texas will have in the Texas Democratic state convention in May, 1960. This 1960 state convention will choose the delegates from Texas to the National Democratic Convention which will nominate the Democratic Party's candidate for President in November 1960. If you want to increase your county's voting strength in choosing the delegates which will pick the next president of the United States come out and vote on November 4, 1958."

Rodent Control Meetings Slated in Haskell County

The Haskell County Farm Bureau is sponsoring 17 Rodent Control meetings over the county November 4, 5, 6 and 7, it was announced this week by Mrs. Gene Tonn, secretary.

At each meeting, a representative of the Rodent Control Service will assist the county agent in giving information and demonstrations on the proper methods of controlling rodents on the farm.

Bait may be bought at the meetings at a nominal cost of 25 cents per pound. The bait must be bought or ordered at the demonstrations, Mrs. Tonn said.

Demonstrations scheduled in the O'Brien area are:

Nov. 5: O. G. Lewis farm, Northwest Rule and Jud community, 10:30 a. m.

Nov. 7: George Mullins farm, Rochester, 8:30 a. m.; Ford Waldrip farm, O'Brien, 10:30 a. m.; J. L. Brothers farm, Northwest O'Brien, 1:30 p. m.; Clovis Winchester farm, Rochester-Weinert, 3:30 p. m.

Train Mail Service to Be Discontinued Nov. 1st

Train mail service will be discontinued here as of Nov. 1, and all incoming and outgoing mail will be carried by star route. Postmaster Jeff Graham said this week.

Discontinuance of train mail service has been contemplated for some time by both the Post-office Dept. and the railroad company—the former because of a possible saving and improved service, the latter because the

mail contract has meant a substantial loss to the company in recent years.

The railroad company is also seeking permission to discontinue its passenger train service through Knox City and other towns on this line.

There will be no substantial change in the present mail schedules, Graham said. Mail will be delivered here at 6:30 a. m., followed by a pouch and parcel post from Abilene at 7:30 a. m. Each afternoon at 6:40 mail will arrive by star route from Quanah and points north.

There will also be the star route at 2:15 p. m. for air mail and north bound mail, each day except Sunday. This route was just recently added, and puts first class mail into the Wichita Falls office by 9 p. m. the same day. The route also connects with evening air mail schedules in Abilene and allows next-day delivery service in any city in the United States that has an air mail route.

Dispatch times will remain the same except on Sundays, Graham said. The 2:15 route does not run on Sunday and the star route from Quanah will run at 4:15 on Sunday instead of 6:40. Mail for Sunday afternoon pickup must be dispatched by 3:45.

Successful bidder for the new star route from Abilene to Quanah and return was C. C. Westfall of Ft. Worth.

Graham said Westfall, a Fort Worth car dealer, asked \$16,750 per year to provide the service.

Westfall also is contractor for Star Routes from Abilene to Spur and Abilene to Wichita Falls, operating the service as a business and hiring drivers.

The Abilene to Quanah route calls for delivery of mail from Abilene to post offices at Stamford, Sagerton, Old Glory, Rule, Rochester, O'Brien, Knox City, Benjamin, Truscott, Crowell and Quanah six days a week. The return route is the same excepting the specifications do not call for stops at Old Glory and Sagerton.

The Sunday route is from Abilene to Hawley, Anson, Hamlin, Stamford, Sagerton, Old Glory, Rule, Rochester, O'Brien, Knox City, Benjamin and Truscott.

Baileys to Observe 15th Anniversary With Knox Church

Rev. and Mrs. Floyd V. Bailey will celebrate their 15th anniversary as pastors of the Knox City Foursquare Church Sunday, Nov. 2.

Several visiting speakers are expected to attend special services at the church and a "spread" dinner in the Fellowship Hall. The services will begin with Sunday School at the usual hour, 10 a. m. Worship will begin at 11. Following the dinner, a sing-spiration will start at 2:30 p. m., and the evangelistic service will begin at 7 p. m.

Rev. and Mrs. Bailey came to Knox City Nov. 1, 1940, to begin pastoral duties at the church. They recall their first Sunday, with only 15 people present for Sunday School and five of that number were members of their own family.

They were here three years when every department of the church saw real growth. After three years, Rev. and Mrs. Bailey accepted the challenge to pioneer and lead in the building of a church in Amarillo. The Amarillo church is now known as the First Church of the city and is valued at \$50,000.

After three years service in Amarillo, they were requested to return to Knox City as pastors of the local church and to superintend this district.

In 12 years, the church has grown from 27 members to its 117 members. The records show 351 members of the local church have transferred to other churches throughout the nation. Valuation of the church has increased from \$3,500 to \$31,000.

"For all that has been accomplished, we give God the glory. We could have done nothing without the prayers and assistance of the membership. We feel they are the finest group any minister ever had," Rev. Bailey said.

Charter Members Honored by Lions

The program at the Wednesday noon meeting of the Knox City Lions Club paid tribute to the men who founded the club 20 years ago.

C. H. Keck, who was in charge of the program, said the club received its charter Oct. 19, 1938 with 29 members. Roy Baker and Jimmie Ashcroft were leaders in the organization, and Ashcroft, now of Stamford, was present Wednesday.

Of the 29 charter members, Keck said, 14 moved away, one retired from business and resigned, two others have died and the remaining 12 are still members of the club.

Keck introduced Joe Weaver of Olney, member of the Lions International Council, who commended the charter members and complimented the club on its steady growth to its present membership of 104.

A passing motorist found Miller face down about 25 feet from his 1957 auto. His billfold, wristwatch, ring and car keys were missing, according to newspaper reports. Dallas Homicide Detective Capt. STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Texas — As Texas' "Battle of the Budget" roars on toward its 1959 climax, almost every week brings a new statement on the probable size of the state deficit. Usually worse than the last one.

State Comptroller Robert S. Calvert and Legislative Budget Director Vernon A. McGee combined to present a frankly pessimistic picture for the Texas Research League meeting in Austin.

McGee said the general revenue fund will need \$279,000,000 during the next two years to keep things going as they should. Calvert estimated that the present tax structure would put \$125,000,000 into general revenue during this period.

This leaves a gap of \$154,000,000 between estimated income and outgo. In addition, Calvert estimated the general revenue fund will be \$55,600,000 in arrears by the end of the present fiscal year in August, 1959.

Research League is composed of several leaders in Texas business and professions whose private contributions support research in the interest of governmental efficiency. Much of the League staff's time during the past year has been devoted to assisting the State Tax Study Commission in a mammoth survey of Texas' revenue and tax problems.

CAN DO — Gov. Price Daniel took a "we can lick this thing" attitude in a press conference on taxes.

Daniel said he felt the deficit could be erased and new revenue

needs met without a general sales tax. Taxes we have presently could be raised to the maximum level used in other states, said the governor. And other taxes—not sales or income—could be added.

Daniel also indicated that he was not fully convinced that the gap between income and needs would be as large as the \$154,000,000 mentioned by the comptroller.

He would not definitely say now, said the governor, that he would or would not veto sales or income tax bills if passed by the Legislature. But he made it clear that he did not favor them, and that he thought there were better possibilities.

Daniel praised state agencies who reduced their budget requests a total of \$1,490,631. Overall, the budget requests had run \$272,000,000 higher than for the present biennium.

HOSPITAL SPENDING AXED — Possibility of more drastic cutting loomed when the Legislative Budget Board voted to reject some of the appropriations being sought by the State Hospital System.

It voted to top \$8,000,000 off the new mental hospital in the Gulf Coast area.

Budget Board recommended a slight increase in money for the Texas Youth Council. But it voiced a "thumbs down" attitude toward setting up a state-supported paid parole system for juvenile delinquents.

Legislative Budget Board is made up of 5 members from the House and 5 from the Senate who, with staff assistance, screen appropriation requests in advance and make recommendations to the Legislature.

PULLING UP — Two State agencies who've gotten black marks in past years got basically good report cards in the summaries given by analysts for the Texas Research League meeting.

State Insurance Department has made many improvements in the year since its reorganization, said one researcher. He predicted that an era of better regulation would result in saving to policyholders and fewer company failures.

State Welfare Department was described as "basically well-ad-

Prepare Soil for bulbs now! Soil prepared now will be ready during the next week or so to plant hyacinths, daffodils, narcissi, jonquils, day lilies and many other bulb like plants. Beds prepared now will also be ready in December for tulips and Dutch irises.

Consider location first. For best effects, landscape architects recommend planting bulbs in clumps or groups. They fit well into bays or corners of the back yards or in front of screens or border plantings. Avoid spoiling the spacious effect of the lawn by scattered bulb beds at the forefront of home grounds or planting them in rings around trees or shrubs.

Sunshine is not important if you expect only one crop of blooms, full sun or sun the greater part of the day is needed by most bulbs.

Good drainage is necessary to prevent decay and insure proper growth. Soil fertility is not important if new bulbs are bought

votes cast for the party's gubernatorial nominee. If a liberal area casts a small vote for governor, it will have a small delegation to the next party convention and less chance of gaining control.

If you scratch the governor's name, said Yarborough, who has been at odds with Daniel for years, "you'll be cutting off your nose to spite your face."

HE'S NO HELP — Texas Democratic Party leaders said National Chairman Paul Butler is deliberately destroying party unity efforts by stirring up integration issue.

Butler's statement: "There will be no compromise on the integration problem. The people of the south who are not deeply dedicated to the philosophy of the Democratic Party will have to go their own way."

Said Governor Daniel: "We have been doing our best to settle these conflicts within the party and keep it big and strong enough to include people who do not share the same view." Statements like Butler's, said the governor "will make the task more difficult."

ministered" in comparison to some years ago when it was the source of dissatisfaction.

In the welfare field, the League was told, Texas can expect increased spending in the future. Texas now spends 18 per cent of its tax money or \$173,000,000 a year on welfare. But other states are "more generous," observed the researcher.

SALARY FORMULA — Budget Board also is giving attention to drawing up a bill setting up a salary schedule for state employes.

Its purpose would be to guarantee "like pay for like work" throughout state departments. It would be based on a job classification study recently made by the Texas Employment Commission.

Public school and college teachers and persons in executive positions would not be included.

Budget Board members commented that in some departments a person doing stenographic work may be called an "administrative assistant" and get much more money than a person doing stenographic work in another department.

ANTI-CRIME LAWS — New laws and institutions to deal more forcefully with Texas' soaring crime rate may be a major topic for the next Legislature.

County and district attorneys meeting in Austin were asked by Governor Daniel to help in the job of strengthening and plugging the loopholes in Texas' law enforcement structure. Daniel said that at the present rate Texas will have a 23 per cent increase in crime in three years.

Too often, said the governor, criminals escape punishment

through hairline technicalities in the laws. He also urged (1) state-paid parole supervisors for juveniles, (2) a second boys training school to separate serious offenders from those for whom there is no hope, and (3) stricter narcotics laws.

DON'T CUT OFF NOSE — U. S. Senator Ralph Yarborough is urging Texas liberal Democrats not to scratch Gov. Price Daniel's name on the general election ballot regardless of how they may feel about him.

Senator Yarborough warned delegates to the State AFL-CIO convention that each precinct gets one delegate for every 25

Streams In Desert Places

By Ozelle Stephens

As we turn back and look upon the history of time we hear David saying—"the judgments of the Lord are true and righteous altogether"—(Ps. 19:9).

When man had sinned we read "that the fountains of the great deep were broken up, and the windows of heaven were opened." There poured out upon the earth God's wrath forty days and forty nights.

But Malachi tells us—"that God will open the windows of heaven and pour you out a blessing, that there shall not be room enough to receive it." (Mat. 3:10) But this is when man's heart is fixed on God and obeying His command. So as you live and obey the commands of God determines what is pouring down on you from the windows of heaven.

Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

The fellers up at the country store Saturday night covered the situation pritty good, from wimmen to Congressmen and from science to inflation.

What they decided about wimmen and Congressmen might not be fitten to put in a family newspaper. On the subject of science, Ed Doolittle allowed as how it was gitting to the place a feller had to be a mechanic to git his clothes on. He said it took him two year to git used to a zipper on his pants, then his old lady give him a zipper jacket fer Christmas and he has to put cylinder oil on it to make it work. He claims that in another year they'll be putting out a suit of clothes that calls for a pair of pliers and a screwdriver. Ed thinks the time is not long off when, if you call a doctor, he'll have to fetch along a mechanic to git the patient undressed.

But I'm all in favor of these scientific improvements, Mister Editor. I'm living fer the day when they'll come up with a rooster that won't crow at daylight and salt colored red so's you can tell how much you're gitting on your eggs and potatoes.

When the discussion got down to inflation, I told the fellers that me and Congress handled that situation the same way. We view the situation with alarm, denounce it, deplore it, and set tight and wait fer things to git better.

And if they don't git better, at least they change. Waiting it out is the system me and Congress has been using. This system is especially recommended fer folks with high blood pressure.

Take my pasture fences, fer instans. They've been needing fixing ever since I can remember, but as long as my cattle stay home 80 per cent of the time, I figger I'm about average. It's the same with Congressmen. Them Congressmen give high prices the same treatment I give my fences. They wait it out, and one morning they pick up the newspaper and find prices has begun to fall a little, then they give out a statement fer the home folks, saying they knowed it all the time, that the country is "fundamentally sound."

It's surprising, Mister Editor, what me and Congress git done by waiting it out. About 80 per cent of the country is going to come out allright in spite of Congress, which is a great consolation fer us to know.

Yours truly,
Uncle Ben

Cotton Acreage Allotments Set

The planting allotments for the 1959 upland cotton crop was set Thursday at 16 million acres plus 310,000 acres to fill minimum farm allotments.

The Agriculture Department set the Texas 1959 allotment at 6,846,757 acres. This compares with 7,474,661 in 1958.

Cotton farmers will vote in a national referendum Dec. 15 to determine whether marketing quotas will apply on the 1959 crop of both upland and extra long staple cotton. At least two-thirds of those voting must approve the quotas for them to continue.

If marketing quotas continue to effect in 1959, upland cotton growers may elect to comply with their regular quotas with at least 80 per cent of parity price support, or increase their acreage 40 per cent with a 15 per cent cut in the support level.
