**JOE JACKSON CANDIDATE—**  
(Continued from Page 1)

United States Air Corps and flew 42 combat missions over Italy, France and Yugoslavia. The British and French people were very kind to reward me for the little I did. The distinguished flying cross and the Croix de guerre are still today two of my most precious possessions. In January, 1945, I was transferred to the Pacific Area a few missions before V-J day. I was honorably discharged as a captain in 1946. Like millions of other young men I had lost five years of my life, but I

thought it had been worth it. We had won the war and I felt certain that our leaders would never let anything like this ever happen again. I came home and entered the oil business as a lease broker. In 1948, together with Ben Schultz, Jr., the firm of Schultz and Jackson was formed, and God has been good to me. We have become small successful independent oil producers. My platform in this special election is going to be as follows:

1. America first—Politics last.
2. Fight communism, socialism and nationalization of any industry.
3. Protect YOUR freedom, dignity and rights as an individual.
4. Fight the unnecessary high cost of living.
5. Protect the independent small business man.
6. Fight the Truman "fair-deal" socialized democratic corrupt pendegast machine.
7. The preservation of state's rights.
8. A firm constructive foreign policy.
9. Give the farmers and

ranchers an honest price for their products in comparison with the price they must pay for goods.

10. Balance our national budget through economy in governmental operations.
11. Reduce the number of federal bureaus and employees.
12. The law of supply and demand through free enterprise.
13. Represent YOU on a full-time basis NOT as a professional politician but as a guy named Joe.

I am confident that with your help we can re-establish sound and constructive government again.

**"My ranch 'workhorse' runs for only 2 2/5¢ a mile!"**

George Stephens of the Lazy J Ranch says: "The low cost my Ford Truck showed in the Economy Run speaks for itself. I got regular service checkups from my Ford Dealer."

Ranch owner George Stephens proved for himself, in the big Economy Run, just how little it costs to run his Ford Truck!

"The Lazy J's Ford Express did itself proud in the Ford Truck Economy Run," says Stephens. "Daily records kept during the entire six months show that our Ford Truck ran up a total of 5,109 miles. My out-of-pocket expense for gas, oil, maintenance and repairs was exactly \$123.51 . . . about a \$20 bill each month . . . only 2 2/5 cents a mile!"

The Ford Truck POWER PILOT carburetion-ignition system is one reason why Ford Trucks cost so little to run, in ranch work or any work. The POWER PILOT gives you the most power from the least gas. In the low-price field, only Ford has it!

#### MOFFETT NAMED TO INTERIM COMMITTEE

AUSTIN, July 16. — The Legislative business of the State Government has become heavy in recent years. Therefore, it has become necessary to establish between-session committees to review certain topics and bring in reports, statistics, and other information for the benefit of a succeeding session. Thus, up-to-the-minute data is on the desk of each member the opening day of the session, about many subjects which will come before it.

This system was established two years ago, and contributed to the success of the session just closed, which disposed of more complicated problems than any previous session in the State's history.

These interim committees are appointed by the presiding officer of each branch of the Legislature. He generally chooses experienced and seasoned members for these appointments. Among other recent choices for one of these key places, made by Lieutenant Governor Ben Ramsey, is the appointment of Senator George Moffett of Chillicothe as a member of the interim Legislative Council, which will make exhaustive investigations into subjects that will probably come before the next session of the Legislature.

ering tax upon those pipelines which are transporting natural gas out of Texas. This was part of my platform in my campaign for the Senate, and we succeeded in carrying it out in spite of the powerful Transmission Line Lobby."

"Never in the history of all the world," the candidate added, "has there been a greater need for experienced leadership, clearer call for Divine guidance, a clearer call for an instructed verdict—that verdict—an adherence to the principles of our constitution and a belief in our American democracy."

"It is without hesitation that I ask to be your Congressman, for I feel that my experience in political circles and parliamentary procedures is ample and sound enough to merit your consideration."

"If I am chosen as your Congressman, I shall constantly devote my best efforts toward the complete destruction of the Communist movement in this country. I shall fight other enemies of the American Democratic Ideal."

"Cash-basis thinking and action are sorely needed in Congress today. An alarming tendency has developed in this country to by-pass the State as an arm of Government. This is tied in with the tendency to make our government one of men rather than of Laws."

"Government of the people, as we have traditionally known it in the United States, can survive. It will survive so long as our people jealously observe the safeguards of our Federal and State Constitutions."

"This is my fourth political

campaign. The people have never turned me down. As always, my campaign will be conducted with all the people of this district. I want to be your personal Congressman. I

## The Baptism of

That some in apostolic times Christ is emphatically declared. Christ promised the baptism of the apostles. He forbade their being "endued with the power" before his ascension, Jesus was in Jerusalem "for the promise" them that they would "be many days hence" (Acts 1:6-7). Christ did not baptize in order to save them, to inspire them and, by this, the gospel to the world through.

# Crazy With the Heat

"Horses sweat, men perspire and ladies glow". Either the guy who wrote those priceless lines never saw a Knox City summer or we're going to the blacksmith for our next pair of shoes.

Want a bigger national welcome than General Mac? Then figger some way of canning some of this heat for use next January. Not all of it—just a little bit of it—enough to temper some of those blizzards to forty above.

How'd ya like to put on a swimming suit and sink into a soft cool snowdrift? O.K., don't throw that chat, we'll quit. It ain't in us to do the next job these days is the one of working inside a freeze lock-or plant. Imagine having to wear mittens!

Howsoever, if you REALLY want to beat the heat, why not shop at FRIZZELL'S DRUG STORE... they're helpful as can be. Anyway, who calls this hot? You should've been around here the summer of 1909. Now there was a year that—OUCH!
