MELANIE MEDDLES

By MELANIE VERHALEN

This is the week end for the Regional Meet at Lubbock. Wish us all luck!

Within the past week the Physics class has had two very interesting lectures. Drayton Headen invited us to an informal lecture on the complex production of silicone—one of the most common but hardest to produce elements. He learned the process while working for Texas Instruments, one of the few companies that produce this important and expensive element.

Dr. Dennis, head of the department of chemistry at Texas Tech, using filmed charts, showed us the importance of the chemical industry in comparison to other businesses. He said that in order to succeed in the scientific field, people should have the one ingredient responsible for that success—curiosity.

Without being inquisitive man would never have discovered the sulphur or mycin drugs, or orbited the earth—either with or without man. Dr. Dennis wants to live at least until one more question has been answered—Are there other intelligent beings in the universe?

Take a minute and see how this possibility might affect your life. Would your religion need to be examined? Would God have used a different solution to free them from sin besides a human death? If their race had never fallen, would they understand us? Would they be contaminated? What would you tell your teen ager who wanted a space ship? or a daughter who wanted to marry one of those "people"? And try, just try, to imagine all the floating service stations between here and there!

Do you like modern architecture? Is it too straight or simple or unimaginative? Architecture is evident in all phases of our life.

In bygone eras, ladies wore layer after layer of garments; whether they wanted to be fashionable or merely decent is debatable! This is the day of short

skirts, short skirts, and no sleeves.

Architecture in hair styles vanished with the late Madame Pompadour. In that field today architecture has reached a minus. Women's hair is either straight, wind-blown, or still in curlers. Men are flat-topped, sideburned, or bald.

In the Dark Ages, families sought caves for privacy. In the Middle Ages, castles were protected by guards, dragons, and moats. We, the civilized Moderns, build houses of glass!

Architecture has crept into the home. Imagine the tired, young businessman of the 1960's going home through his bare, brick-patio into a living room "jungled" by numerous plants. After rushing to turn on the wall television, children are introduced today's oven. If you can find no place to bathe after a long, hot day, just keep looking—the tub has probably "sunken."

Could the fascination of "clean lines" and simpleness prove that we are only lazy? A certain amount of simpleness and freedom in architecture is good. But we have crossed the extreme; we are too modern.

It required time and trouble and exactness for men to achieve the perfection of yesterday's architecture. Those people's personality and imagination shows in the care they gave their work. They loved beauty. Do we?

Lions Pick Officers For Coming Year

Lions Club Nominating Committee Chairman Doyle Graham told members Wednesday at the regular luncheon-meeting, that the nominating committee had selected the following men to serve as officers for the coming year:

President, Gerald Averitt; first vice president Bill Sams, second vice president Henry White, third vice president Jim Ross, and secretary-treasurer, Jack Coats.

Directors for the coming year will be Kenneth Lawson, Jimmy Lynn, J. C. McGee, and County Judge L. A. Parker.

Tail Twister Zeb Smith and Lion Tamer Joe Roy Smith were also nominated.

The club voted to accept the board's recommendations.

Bill Sams and Otto Lawson said the Lions swimming pool was in need of a manager.

David Counts was program chairman and had as his guest a representative of the Coca Cola Bottling Co., from Monday to show a film on the 1960 World Series.

Sam Lusk Receives Chevrolet Award

Sam Lusk has been awarded the Chevrolet Motor Division's highest selling honor, Lusk, a member of the sales staff of Stephens Bros. Chevrolet Co., was named to membership in Chevrolet's "Legion of Leaders" honor club at a special award banquet attended by fellow members from the Division's Dallas zone.

This is his twelfth entry into the select group of Chevrolet salesmen.

For a quarter of a century Chevrolet has recognized its leading salesmen. Its first "Honor Organization" was inaugurated in 1926. Now, 25 years after its inception, the "Legion of Leaders" is considered the most rewarding recognition program for salesmen in the automotive industry.

The District 14-B High School Junior Track Meet was held at Rochester Saturday, April 15. Jerry Wilcox of O'Brien placed first in the broad jump with 17 ft. 3½ in., second in shot put with 37 ft. 4½ ins., and fourth in both 75 and 100 yard dashes. Donnie Johnston tied for third in high jump and fourth in broad jump. Dale Howeth placed third in broad jump.

Team total for O'Brien was 13½ points. Rochester won the meet with 33 points.

Entertainment begins at 2 p.m. and a "good program and plenty of entertainment is promised for all," S. N. Reed said. The program is for everyone of this area, and all are welcome, Reed said.

Lee Snailum received 44 votes in the City Council election in Benjamin, instead of 39 as previously reported in the Herald.

EDITORIAL

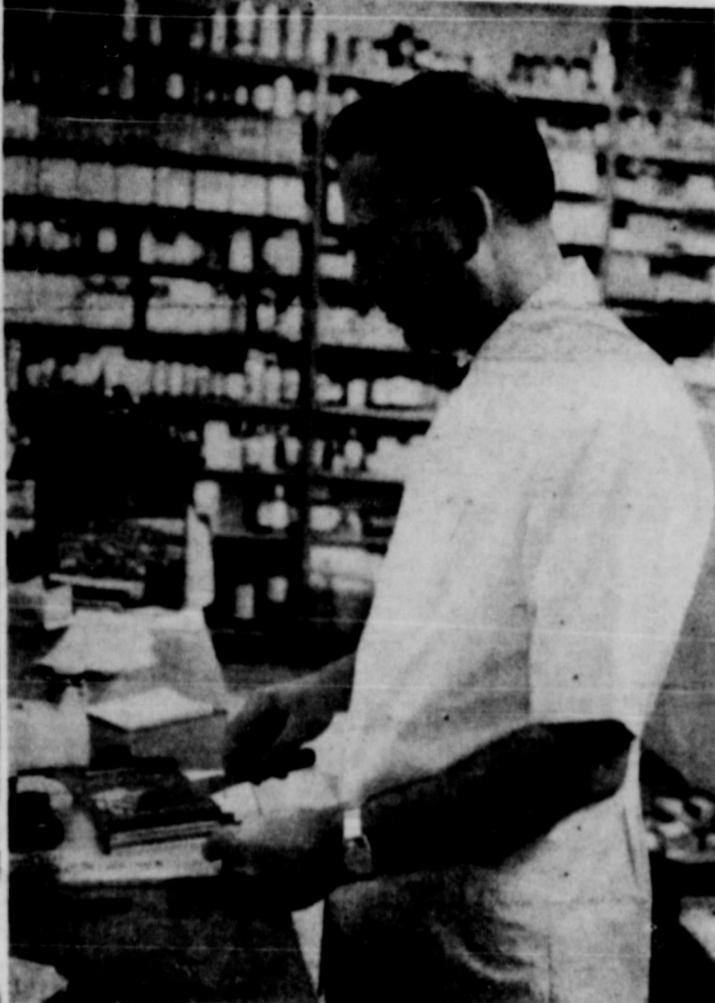

The Herald has, periodically, written stories and editorials concerning local government and its elected officials. Mostly the conversation has been limited to county, this week we would like to mention that practically all the laws concerning the county commissioners is applicable also to the city council.

Knox City has five aldermen who run the city's business: Ottis Cash, Vaughn Gruben, A. T. Holcomb, Monty Penman, and Dr. Charles Markward, and to head the group is Mayor Guy Glenn.

Any issue that comes before the council is supposed to be voted upon by them—and majority rules. Contrary to popular belief, the mayor has nothing to say unless there is a tie in voting. If all members are in attendance, it is impossible to tie a vote.

Although men are elected to an office to carry out the desires of the people, sometimes a man uneducated to his part of being a public servant gets in the way of his personal feelings. We have never felt this to be right.

We have also had strong opinions and convictions that what

Three Community Meetings Planned To Discuss Feed Grain Program

There will be three community meetings held in Knox County in the next week for the purpose of explaining the feed grain program. The meeting schedule is: Thursday, April 20, in Knox City at the American Legion Building, Friday, April 21, at Munday on the second floor of the High School and Monday, April 24 in Vera at the Methodist Church. All of the meetings are scheduled to start promptly at 8 p.m.

In general, the new program provides for payments to producers who divert corn and grain sorghum acreage to conserving uses. Only those corn and grain sorghum producers who participate will be eligible for support prices for 1961 on their normal production of these crops.

In addition, corn and grain sorghum producers, who participate, will be eligible for support on other feed grains, oats, barley and rye. The payments will be in the form of negotiable certificates for which producers may receive grain or a cash equivalent of grain. Cooperators who wish to receive the cash equivalent of grain at the support price may ask the Commodity Credit Corporation to act as their agent in the marketing of the grain. As agent, CCC will advance the payment to the producer in cash through the county ASC office and subsequently market the grain.

Half of the estimated total payment for a farm will be offered to the producer as soon as he signifies that he will cooperate in the program. Growers who participate in the program will reduce their corn and grain sorghum acreages by a minimum of 20 per cent below their average acreages for the 1959-60 period. For diverting acreages equal to 20 per cent of their base or 20 acres, whichever is larger, producers will be eligible for a payment equal to 50 per cent of their normal production on their diverted acres times the county support price. Actual payment computation will be based on a payment rate per acre for the county times the acreage diverted and a productivity index for each farm, which will reflect its normal production.

There is also a provision for further reductions at a higher payment rate. This additional reduction can be any amount up to 20 per cent more. As an added incentive, the higher rate will be 60 percent of normal production. The payment will also be computed on the basis of an average county rate and a productivity index for the farm.

Chief Of Police Resigns Post Here

Knox City's Chief of Police Eddie Carr resigned to Mayor Guy Glenn Tuesday, and Knox City, so far is without a lawman. Carr would have been in office three years June 1.

Baccalaureate services will be held on May 14 at 8 p.m. with graduation on Thursday, May 18.

Most families today are worried from payday to payday. Financial difficulties may be due to one or more of the following reasons:

1. Overestimating family income.
2. Underestimating expenditures.
3. No long-term plans or family goals.
4. Irregular or uncertain income.
5. Too many fixed obligations.
6. Not enough family participation in management.
7. Arguing over who should be the manager.
8. Difference in attitudes toward values. What is really most important among the things from which you have to choose to spend?
9. Poor buymanship.
10. Interest-eating debts.

Analyze your situation to discover what may be your difficulty and then set out to do something to correct the situation.

County Home Demonstration Agent

Most families today are worried from payday to payday. Financial difficulties may be due to one or more of the following reasons:

1. Overestimating family income.
2. Underestimating expenditures.
3. No long-term plans or family goals.
4. Irregular or uncertain income.
5. Too many fixed obligations.
6. Not enough family participation in management.
7. Arguing over who should be the manager.
8. Difference in attitudes toward values. What is really most important among the things from which you have to choose to spend?
9. Poor buymanship.
10. Interest-eating debts.

Analyze your situation to discover what may be your difficulty and then set out to do something to correct the situation.

"And if children, then heirs; heirs of God, and joint heirs with Christ; if so be that we suffer with him, that we may be also glorified together." (Rom. 8:17).

It has been an honor down through the ages to suffer for righteousness sake. God's people have rejoiced that they were counted worthy to suffer shame for His Name. Jesus said, "Blessed are ye when men shall revile you, and persecute you, and shall say all manner of evil against you falsely for my sake." Peter said, "But the God of all grace, who hath called us unto His eternal glory by Christ Jesus, after that ye have suffered awhile, make you perfect, stablish, strengthen, settle you."

Suffering has a special way of giving us wisdom and understanding. In all our suffering we find Jesus standing close by in the shadows. When we turn to Him we find He is waiting to comfort, strengthen, and lead us into higher heights and deeper depths, of His great love and understanding.

Uncle Ben from Benjamin says:

DRAJ MISTER EDITOR:

I see by the papers where one of our U. S. Senators says that if we let Red China in the United Nations the Senate ought to hold national prayer meetings for the entire country. There's one thing you have to say for our Senators. They put on what them television folks calls a "spectacular" at the drop of a hat. I wouldn't be surprised to see 'em git the Academy Award this year. They can go from Jimmy Hoffa to national prayer meetings, all in the same session. And if I know our senators, they'll have them prayer meetings on a nation-wide television hookup. But I wouldn't put too much faith in their program for national prayer on account of them devoting too much time to

a point of order. Either the preacher or the camera would be out of order during most of the service.

I was reading a magazine piece last night praising Secretary of State Rusk for being a small town boy that made good in the big city. I think them kind of things is overdone. Mister Editor, I can't see where it's any harder for a man to make good in a big city. The true test of a feller is whether or not he can make good in the small town where everybody is watching him, and maybe has already put two strikes on him on account of them knowing his Grandpa was a horse thief and his Pa used to put brass washers in the collection plate. In this community, for instant, a feller has to make

ATTEND WOMENS FORUM

Mrs. Ulric Lea and Mrs. L. W. Graham attended the Santa Rosa District Federation of Womens Clubs last Wednesday at the Womens Forum at Wichita Falls. Knox City Study Club won three awards for outstanding work and service during the year. Next meeting date of the club will be changed to April 28, Mrs. Graham said.

good with all the family skeletons brought out of the closet and set on the front porch.

Speaking of the State Department, I see where some feller in that office is complaining that 95 per cent of the nation's secret information has already been published by our newspapers. That puts me to wondering what happened to the other five per cent. I reckon them Tass newspaper men from Russia that we allow to operate over here unhampered got that. In short, you newspaper folks has been scooped on five per cent. That is bad.

—And I see where this column writer from New York says this summer for shore men will start wearing knee pants for cool and comfort. They been trying to put that one over for several years now. I just can't believe that men will come to that sad state. However, I ain't certain. As a matter of fact, I think men has been getting sissier ever since they quit striking matches on the seat of their pants. That was the peak of manhood in this country and ever since we've had a decline. But the saddest thing I read in the papers all week was about this feller 104 year old starting out hitch-hiking looking for his relatives. I can't understand why a feller that has got along without kinfolks so long starts out looking for trouble in the twilight of his career.

Yours truly,
Uncle Ben

'61 Ford Galaxie is available with the Ford 292 V-8 that won the low-price V-8 class in the Mobilgas Economy Run with 21.3 mpg!

Because it's beautifully built to take care of you

We're tickled to see so many other cars latching on to the new Galaxie. But they can't copy that Thunderbird steering more than they can match Galaxie's Thunderbird steering.

What's more, Galaxie is the fine car built to cut your operating costs. For example, you can go 30,000 miles without a lubrication. You compare price, you find that Galaxie costs several hundred dollars less than some cars that give you less. Challenging statements here to prove it—today.

Kids just naturally grow up... and they do it fast. The kids the age of the little girl in our picture will be wanting a home in 1981. We hope she has a home (run by electricity, of course) in 1981 and that her home life is a happy one. We also hope she has something else as well — a strong, free nation — where she has a right to get ahead under her own steam and will always be secure!

Investor-owned companies, like West Texas Utilities Company, are working hard to see that this little girl's "wants" come true in 1981. Each year, WTU spends thousands of dollars and uses thousands of man-hours planning ahead to be sure we can supply the ever increasing demands for electric energy. In a private enterprise nation, this is our job! We are going to do a good job for our little girl.

AT HOME TODAY

In our little girl's home today, she can enjoy electric lighting at a very economical cost. For instance — the average family, served by WTU, can cook a complete meal for less than 1¢ with a modern electric range. If you are not using an electric range, you owe it to your "little girl" to investigate this modern method of cooking today.

THE CAPITAL Highlights Sidelights

by Vern Sanford

Allen of Longview and Forrest Harding of San Angelo. Gov. Price Daniel attacked the bill as "obnoxious and inequitable," hitting everything "from the eradle to the grave."

Governor Price Daniel urged compromise through a "package bill." Ingredients for the package, he said, might be gotten from Rep. George Hinson's omnibus tax bill and Rep. Ben Atwell's selective sales tax measure.

Hinson's bill would hit in many areas—watches, jewelry, power tools and machinery, construction materials, natural gas, restaurant meals, non-essential beverages, etc.

Atwell's bill is akin to a general sales tax except that it names the hundreds of items it

would tax rather than making a blanket provision.

SENATE COOL TO TAX—With less than bubbling enthusiasm, Senate State Affairs began hearings on the first tax bill sent over by the House.

It is Rep. Charles Ballman's "loophole bill" designed to raise some \$43,000,000 toward retiring an expected \$63,000,000 deficit in the general revenue fund.

Senators listened with seeming sympathy to witnesses who criticized the bill's provision for a revised franchise tax formula and a gift tax. They listened, too, to a lengthy pro-sales tax discussion by Tom Sealy of Midland, chairman of the Citizens for a Sales Tax group.

Under the Ballman bill's broad caption, the Senate could add extensively to its revenue-raising features, but most observers doubt the Senate will be eager to seize the initiative at this stage.

CAMPAIGN LIMIT KILLED—A bill to limit campaign expenditures to \$25,000 in a race for the U. S. Senate or Congressman at large was killed by the House, 83-to-50.

Sen. Martin Dies Jr., of Lufkin was sponsor of the bill which passed the Senate.

Supporters of the measure said that as things are "a rich man can buy his way into office." Op-

Veterans Questions And Answers

Q—Is there any chance for a woman to get into a VA hospital as a patient? I'm a World War II veteran but was never stationed outside the States.

A—Yes. Women veterans are eligible for VA hospitalization on the same basis as are men. For further information, get in touch with the nearest VA regional office or apply directly to a VA hospital.

Q—Has Congress passed any of the proposed legislation which would furnish special benefits for peacetime veterans?

A—There are several benefits already established for peacetime veterans. Any VA office can give you full particulars. However, the proposed legislation you mean concerning education, home loans, etc., has not yet been passed by Congress.

Q—If I am admitted to a VA domiciliary, what kind of care am I entitled to?

A—Complete care, including medical treatment. Of course, if hospitalization is required, a domiciliary member is eligible for transfer to a hospital.

Q—Should I write Washington, D. C., concerning my GI insurance? My home is in Brunswick, Me., and I pay my premiums to Philadelphia?

A—The VA district office, 5000 Wissahickon Avenue, Philadelphia 1, Penna., handles your insurance account and not Washington.

any action within the power and scope of his office. He said the criticism of him was "politically motivated" by Rep. Tom James of Dallas, vice chairman of the committee.

Meanwhile, the House—rather wearily, perhaps, voted against a bill that would set up House and Senate investigating committees every session, as a matter of law. Better, they decided, to establish such committees by resolution when special circumstances seem to warrant.

HOURS CUT APPROVED—A bill to cut the work week of state hospital employees from 44 to 40 hours was voted out unanimously by the Senate Committee on State Departments and Institutions.

H. W. WILSON, County Clerk

FREIGHT RATE BILL PASSED—A bill to simplify rate setting for railroads and truckers was passed on second reading by the House.

Under present law, the Railroad Commission has to pass on every rate change request, no matter how trivial. Under the proposed measure, the rail or truck line would publish the proposed new rate and if no one objected, it would go into effect. If there were objections, the Railroad Commission would call a hearing and decide the matter.

CONSOLIDATION PAYMENTS OKAYED—A bill designed to encourage consolidation of school districts received final Senate passage.

It provides that common school districts which consolidate into one will continue to receive, for ten years, the same amount of state aid they would have received if they had not merged.

Sen. Thomas Creighton of Mineral Wells is sponsor. He said it would promote better schools and, in the long run, economy.

JEFFERSON REPORT "BLOWS IN"—Release of the House General Investigating Committee's report on its study of vice in Jefferson County blew the lid off a long-smoldering controversy.

Report accused Atty. Gen. Will Wilson of failing to follow up vigorously on reports to him of flourishing prostitution and rackets in the Beaumont-Port Arthur area.

It also criticized Liquor Control Board Administrator C. O. Stevenson Jr., for merely demoting an agent accused of failing to stop liquor law violations by private clubs in Jefferson county.

House committee completed its report last year and was automatically dissolved at the beginning of this session, but the report was delayed.

Wilson hotly denied that he had failed or refused to take

BEWARE OF Sun Load

the "FORGOTTEN FACTOR" in Air Conditioning that DEALER remembered

ANY SIZE -- from Small Room To A Large Building

FEDDERS

engineered to cool when it's 115 degrees out in the sunlight where air conditioners operate (that's 20° hotter than the temperature at which BTU's are rated)

There's a good reason why Fedders engineers for conditions that are 20-degrees hotter than BTU rating standards: heat radiated from sun-baked walls on any sunny summer day travels up along the side of your house, puts a fierce brutal Sun Load on your air conditioner that can climb to 115 degrees even though the Weatherman reports temperatures in the nineties. (He measures temperatures in the shade.)

In recent tests of air conditioners with similar BTU ratings, most air conditioners turned off at 115 degree outdoor conditions to avoid permanent damage from overheating. The Fedders on test, however, pulled indoor temperatures down, held them down. Obviously it takes more than BTU's alone to overcome Sun Load.

JUST TALK--

(Continued From Front Page)

The police to tighten up, if he keeps his job, that is what he is forced to do. If they say, "be more lenient," then he has to go that route. The sheriff's dept. is restricted only by the voters, which makes his job even harder—the state police is least handicapped of the three—but he has his troubles, too.

Although all our laws are cut and dried, enforcement varies too much from town to town and person to person. Confusing, isn't it?

Occasionally a person HAS

had to pay a fine he was not guilty of violating, but this is isolated cases. Most officers of my acquaintance, some in the state police, won't issue a ticket unless the violator is at least 10 mph over the speed limit. A few of them fail to give tickets even then.

Most people are unaware of the things they can do legally. Anyone who has studied law in any fashion can easily see how everything is in favor of the criminal.

If someone stole the tires off your car and you found them and identified them as being yours, the law's hand are tied until you sign a complaint for their arrest.

Representative From Social Security Will Be Here Wednesday

A representative of the Social Security Administration will be in Knox City at the City Hall on Wednesday, April 26, from 10 a. m. until 12 Noon.

Those who so desire may meet with the representative at this time to file a claim or to obtain information or assistance concerning Social Security.

Few people care to do that.

In our age of complacency and stupidity, if the criminal gets to trial, most likely a brainwashed jury lets him go free.

If the jury finds him guilty, 9 times out of 10 he gets the minimum punishment, or if the judge sets the sentence, he does the same. (This was a statistic in a national magazine a year or so ago). If the judge happens to give the maximum sentence, it is usually repealed by higher court.

After all of these circumstances in his favor, IF he happens to go to prison, he is eligible to start anew after one-third of the sentence is served.

Knowing this better than the layman, it is incredible that there are any lawmen left who keep trying to fight something in which they are already whipped.

SUSPENSION FENCE

Jack Idol, manager of the League Ranch, has started construction of a suspension fence on the ranch. There will be several miles of this type fence on the ranch. The fence was first viewed by Idol last January on the feeding tour that Knox County beef cattle producers took. The fence was seen on the Texas Experimental Ranch between Throckmorton and Seymour.

The fence on the ranch and the estimated cost of the fence on the League Ranch are fairly close in that they both will save about 40 per cent of the cost of the materials and that about 25 per cent on the labor bill.

The basic idea of the fence is that wooden posts are spread about 100 feet apart and that 7 twisted wire stays are used between the posts. Both ranches are using a 4 wire fence. The fence is best suited for level strips of ground; however, where the ground is unlevel, the posts can be placed closer together as needed. Many of the farmers and ranchers that have seen the fence, say that they believe the fence to be practical and built against all present ideas of how a fence should be built. The main idea in the fence to have a sag in the wire and to have the sags so that they do not touch the ground.

For people in Knox County that would like to see some of the fence, there will be some of it located on the ranch road that will go from the Knox City-Benjamin Highway to the site of the new lake. This fence is under construction at the present time.

KNOX COUNTY 4-H CLUB ACTIVITIES

The Knox County 4-H Clubs will hold their Share-The-Fun talent contest and their Public Speaking contest on Tuesday, April 25, at the Gilliland School at 8 p.m. The talent acts will be limited to six minutes. There will be two divisions of the two contests. The division of the contest will be by age on Jan. 1, of this year.

For the Public Speaking it will be 14 years of age and on the Share-The-Fun, it will be 13 years of age.

The 4-H Clubs will hold their Rifle eliminations contest on Saturday, April 29, at 10 a.m. on the rifle range located just off of the road on the Brazos River north of Rhineland.

TULIA VISITORS

Mr. and Mrs. Alvin Roberts and family of Tulia spent the week end with Mr. and Mrs. C. W. Stephens and Mrs. Annie Bell Roberts.

Force is the record holder for the event, having cleared 12-3 and 3-4 last year. He tied for fourth at state.

Jerry Rowan, who placed third in state last year, will run the low hurdles, of which he is the defending champion.

Rowan placed second in the pole vault last year, but lost to his two teammates for the chance to compete again.

On Saturday, G. C. Eggleston and Joe Matura, first and second in the district science contest last year, will compete at 8:30 a.m. in a two-hour contest.

At 9 a.m. Jean Manning competes in senior declamation. At 11 a.m. Miss Manning and Taylor compete in shorthand. At 1 p.m. Joe Matura goes to the extemporaneous speech contest.

Coach Charles Thorn will accompany all boys entering on Friday while Mrs. Carlton Allison and Mrs. Lee Haymes will take the girls early Saturday morning.
