NEW COMIC STRIP STARTS TODAY

Readers of the Herald will see in the right hand corner of the front page a new comic strip which makes its first appearance this week. The name of this strip is "Mickie Says". Incidentally, it is for this all wise little rascal whom Mickie the Junior editor was named. Boy or girl, Mickie would have been Mickie.

The comic strip will present a variety of ideas from the print shop, many, although some times very laughable, are more truth than poetry.

We hope that both our junior and adult readers will read and enjoy Mickie. If you have a comment to send in, do so, for we will be glad to receive them and in all probability will pass them on to all the Herald readers.

Jack and Mary Edna Clark arrived home Wednesday from the home of their sister in Waco.

Colleagues Support Davis for Treasurer

Nearly every member with whom he has served in the Legislature for the past 18 years is supporting John E. Davis of Dallas County for State Treasurer, and in addition to these his candidacy is endorsed by men like Honorable Hatton W. Suinners his own Congressman, and practically all the Texas members of Congress, Mayor Ewing Thomason of El Paso, nominee for Congress, the present Speaker of the House, Hon. W. S. Barron of Bryan; most of the ex Speakers, and almost every outstanding man in public life in Texas. Their support for him is not based on personal friendship alone but because they say the long and excellent service he has rendered in the Legislature demonstrates the fact that he is qualified and worthy.

CONTINENTAL OIL COMPANY CONSOLIDATES MUNDAY, TEXAS AND KNOX CITY, AGENCIES

A representative of the Continental Oil Co. has been in Knox City for the past week perfecting arrangements for the installation of a new representative to succeed Mr. W. J. Jones at this point, and they are proud to announce that Conoco products will be distributed in the future by Mr. W. A. Smith, of Knox City, who will work hand in hand with Mr. U. R. Houser, of Munday Texas. Mr. Houser is distributing the same products at Munday but will divide his time between Munday and Knox City.

The Conoco Representative has a very optimistic opinion as to the possibilities in Knox City and surrounding territory, and declares that no malice, hard feelings or differences influenced him in making the change in representatives at this point and he is very hopeful indeed that the people of Knox County, will continue to support his good company and he likewise states that he wishes the retiring representative, Mr. W. J. Jones, well in his new endeavors.

Mr. Smith will collect all accounts and receive all monies for Conoco just as they have been received in the past and will dispose of the funds in exactly the same manner as they have been disposed of in the past.

Mr. Smith will at all times strive to give prompt and courteous service which everyone enjoys receiving.

Mrs. B. C. Anderson entertained the members of her Sunday School Class Monday night with a picnic at her rural home. Twenty-six were present and Jim Stevenson says they spent the entire evening eating chicken. Jim says that he won't tell who ate the five pieces of chicken but we already know who ate out of the fry ing pan so it might not be so hard to guess the other one.

Many reports have been received at the Herald office of the excellent evening afforded the class Monday.

Due to the shortness of the time between the July primary and the August run-off it will be impossible for me to see all of the voters of the county again before the election, and I therefore take this method of extending to them my sincere thanks for the vote given me in the July primary and solicit your support in the run-off primary of August 23rd.

 Of cloudless clime and starry skies
 And all that's best of dark and bright

 Thus mellowed to that deeper light

She shades the more, one may the less
 Her half-impured the numerous grass
 Which grows in every corner
 Or wither's in the sun's heat
 Where through the narrow sweet
 Her path, low fear their dwelling place.

 So soft, so calm, yet eloquent,
 The smiles that win, the tints that glow,
 But tell of days in goodness spent,

Twenty Third Senatorial District

We understand that there is a report being circulated in this Senatorial district that Mr. Ben G. Oneal of Wichita Falls, who is the leading Democratic candidate for the State Senate in this district, represents the big oil corporations. We are very much surprised at such a report.

We know Mr. Oneal very well. We know him to be a Christian gentleman of unimpeachable character and integrity; a lawyer of experience and ability; and a man who has come in contact with all the businesses carried on in the district.

He is broad-minded and fair-minded. He has no prejudice against any business. But, as a matter of fact Mr. Oneal has never represented an attorney or otherwise, any large oil corporation, or other large corporation, and has no connection with any of them as a stockholder or otherwise; nor has he any connection as attorney or stockholder with any bank.

Mr. Oneal has lived more than forty years in Wichita Falls, and his record is an open book.

He has never before been a candidate for any public office. The people of the 23rd Senatorial district are fortunate in having an opportunity to elect such a man to represent them in the State Senate.

As independent oil operator, living in the Wichita Falls district, who are vitally interested in the oil business, we are glad to give you this information about Mr. Oneal.

EXPERIENCE

Declares Argotane is Best Medicine on Market

Not a day passes but what statements are received from local people telling of the great benefits they have derived from the stomach remedy, Argotane.

The following statement was recently made by O. Flanagan of 224 Merchant St., Abilene, Texas, while talking with the Argotane representative said:

"For about two years I have suffered from indigestion and after every meal would have a lump form in the pit of my stomach and gas would form and bloat me up that would make me so nervous I couldn't hardly do my work. I had dizzy spells and never got a good nights rest. I was in a general run down condition.

"I had tried many different kinds of medicine but nothing seemed to give me any benefit until I started to take Argotane, and I am much pleased with the results. In fact, it has done me more good than any medicine I have ever taken and I feel much better in every way. I eat now and enjoy every meal and that bloated feeling has left me and I am gaining strength every day. I'm not nervous as I was and sleep every night. I have certainly improved in health and I give credit where credit is due to Argotane, for it has given me relief and I sincerely believe it is the best remedy on the market."

Genuine Argotane may be bought in Knox City at the Orient Drug Store.

Mr. and Mrs. G. A. Branton and Mr. and Mrs. Billie Clarke left Saturday for New Mexico. They will return by way of El Paso and visit in Old Mexico. Bill hopes to see a Bull fight.

Mr. and Mrs. Jim Bridges, who have been attending college this summer at Bryan, are here for a few days before going to their school in Pabens, Texas.

Mrs. Ables left Tuesday for Perrin, Texas to see her mother.

SAME PRESCRIPTION HE WROTE IN 18

When Dr. Caldwell started his medicine, back in 1878, the laxative were not so great as people lived normal lives on wholesome food, and got plenty of air. But even that early the drastic physics and purges for the of constipation, which Dr. Caldwell believed were good for them.

The prescription for constipation he used early in his practice, and he put in drug stores in 1890 the name of Dr. Caldwell's Syrup is a liquid vegetable remedy, for women, children and elderly, and they need just such a mild bowel stimulant.

This prescription has proved to be and is now the largest selling laxative. It has won the confidence of people who needed to get rid of headaches, biliousness, flatulence, indigestion, loss of appetite and the breath, dyspepsia, colds, fever, drug fever, or write "Syrup Dr. Caldwell, B.  a great deal of loose talk
 decline of religion. Peo-
 ple are interested in the
 Bible, so the critics of re-
 ligion. The church has lost its
 hold. Nobody reads the Bible any
 more. Believe them.
 Encouraging, therefore, to
 hold fast to the faith of
 our fathers, to learn from the
 American Bible Society
 Bibles were sold and dis-
 tributed more than ever before in
 this great organization.
 For themselves are amaz-
 ingly, one hundred-and
 thirty Bibles in 179 differ-
 ent languages were printed and dis-
 tributed in the American society, last
 year. The British and Foreign
 Bible Society in the same period dis-
 tributed twelve million. In
 the United States alone more than
 one million Bibles were bought by
 individuals, who wanted to
 read the Bible. That does not sound
 very much, but in religion were dying out
 of the Bible than ever before.
 In other religious books
 they must have the Bible.
 The Book of Books in every lan-
 guage. No "best seller" ever
 sold more than the Bible. It is
 the standard classic of endur-
 ing literature. It has endur-
 ed for centuries. It is read
 by the ignorant and the un-
 educated, by the scholar and
 the statesman. It is the Bible
 that has made the English
 language what it is today. The words
 and phrases of the Bible are
 everywhere. A good half

of the English Bible. For that
 reason, if for no other, familiarity
 with the Bible is an essential part
 of the education of everybody who
 would call himself an educated man.
 One not familiar with the Book of
 Books loses the savor and the inti-
 mate meaning of half of the world's
 great literature.
 We have not found any better way
 of expressing many of the great
 truths and eternal facts of life than
 the way in which they are expressed
 in the Bible. How a single phrase
 expresses the whole ideal of tolerance.
 "Let him that is without sin among
 you cast the first stone." Or how
 the penalty of evil-doing been bet-
 ter phrased than in: "Whatsoever ye
 sow, that shall ye also reap?"
 The Bible out of date? It is the
 only book that is always and forever
 up to date. And that, beyond doubt,
 is the reason why it outsells all the
 fiction and all the philosophy of the
 moderns.
 The time is here and the people
 of Knox County have been going a-
 "Gipsing" for the past two months.
 Some choose New Mexico, yes a
 good percent of them choose New
 Mexico. And that is a good place to
 go but if it were ours to choose and
 to go we are of the opinion that the
 best of Gipsing would be up in the
 Cimarron and Taos canyons which are
 also located in New Mexico. There
 the river flows gently on its way be-
 tween two mountains. To one side
 the railroad lies and puffs of smoke
 can be seen rising from the midst
 of trees and shrubbery while at in-
 tervals the engine and cars are view-
 ed making its way through the can-
 yon. To the other side of the river
 one of the best highways imaginable
 winds its way around the foot of the
 mountains. Sometimes it is wide and
 then it narrows to seemingly only a
 very narrow strip. Sometimes it is
 level and again it seems to go
 straight up only to reach the top and
 start down again.
 Out some miles, it seems, from no
 where, is a camp; a place of lodg-

just what is lacking in the hot down
 low office.
 Now Mack has his aim set for
 something greater. When asked
 where he would like to go if he were
 getting a vacation his reply was
 France. Well, we don't know any-
 thing for sure about France; he does
 he has been there, which is probably
 the reason for the desire to see
 France again.
 Mickie, the third member of the
 Herald family seems to be content
 with the thought of going to Dallas.
 We would be too, if we really
 thought we would get to go to Dal-
 las.
 The question of when the Knox
 City school will open this year is one
 of vital interest to all the citizens.
 Much talk is being heard about town
 concerning the opening date. As yet
 it seems that the date is undecided.
 It is a known fact, however, that
 the date decided upon by the school
 board will be the best so far as it
 is within their ability to choose. We
 hope to give the date in the next
 issue of the Herald, also a complete
 list of teachers. Watch for that ar-
 ticle.
 It is a matter of only a month or
 less time until the graduates of last
 year's Senior class will pack their
 clothes for college. We hope that eve-
 ry boy and girl will have the ambi-
 tion to want to go to college and then
 have the courage to put up a fight
 for their means of support. The boy
 or girl whose parents are financially
 able to send him or her to college
 without the child having the burden
 of making his way is certainly for-
 tunate. However when those dollars
 are lacking the boy and girl should
 not give up. While that is a task it
 is also an opportunity. The boy or
 girl who works for his own tuition
 in college usually gets further in life
 than the one who floats through on
 beds of ease.

TRIBUTE TO NEW KONJOLA

Now Giving This New and Different
 Medicine To Her Children Read
 Her Statement

MRS. J. D. RHYNE

There is a reason why Konjola is
 America's best known medicine, and
 that reason can be summed up in
 just three words—Konjola makes
 good, even when all else tried has
 failed. Consider as a typical example
 of Konjola's 32 ingredients at work,
 the case of Mrs. J. D. Rhyne, 616
 East Eleventh street, Amarillo, who
 says:
 "I was in a terrible condition for
 many years, with constipation, ner-
 vousness, indigestion and kidney
 and liver ills. It seemed no use to
 try medicines and treatments furth-
 er, for I kept growing worse right
 along. I lost weight and had head-
 aches and dizzy spells and bilious
 attacks. Food caused indigestion, and
 many a night I lay awake until two
 or three o'clock. But words can not
 express my surprise over what Kon-
 jola did for me. All of my ills have
 vanished and now I am giving Kon-
 jola to my children, and my husband
 is about to start the treatment."
 Konjola is a medicine for all the
 family; old and young. That is why
 Konjola is a household word in tens
 of thousands of American homes.
 Konjola is sold in Knox City, at
 the Orient Drug Store, and by all the
 best druggists in all towns through-
 out this entire section.

We are making special prices on

WISE MEN

I spent a day in the research laboratories of the "Darpost" electrical company in the world. If two hundred years ago anybody had predicted the marvels that can be seen here today, "the God-bearing citizens" of the time would have burned him as a witch.

For example, as you know, the metal radium is constantly giving off little particles which are called electrons. The electron is infinitely smaller than the atom. Indeed, the atom is a comparatively big proposition, a sort of nucleus with lots of electrons flying around inside it.

Of course, neither the electron nor the atom can be seen by any instruments which we have yet devised. But listen to this! The scientists in that laboratory have rigged up a radio apparatus, attached to a loud speaker, which is so delicate that it can detect the flight of electrons the other.

I held the dial of my watch against the microphone. The figures on the dial are radium coated. And I could hear the electrons pounding into the loud speaker like a shower of hailstones on a tin roof.

O' another time I sat in front of a motion picture screen and saw talking movies of three great scientists of England, Sir Ernest Rutherford, Sir William Henry Bragg, and Sir Oliver Lodge.

Each one of them was photographed in his own laboratory. Each proceeded to perform certain experiments and explain them. It was thrilling to sit in the living presence of such men and think how valuable these pictures will be to future generations. Suppose there had been a talking movie of Archimedes demonstrating the lever, or of Newton explaining the discovery of gravitation!

But what struck me most was not the experiments which these men performed but the spirit of their talk. Sir Oliver Lodge, for example, picked up a little weight from his laboratory table and let it drop with a thud. "That experiment," he said, "is the simplest that one could possibly perform and yet there is hardly an experimenter about which we know less than we do about that."

And he added, "You are not to suppose that you understand 'atoms' because you call them names."

He proceeded to talk about the mysterious properties of "empty space" and he concluded with this paragraph:

If now we find, as I think we are beginning to find, that life and mind need to be considered with matter, but not merely empty matter, then it will not be difficult to see the truth of a material creation and existence will be perpetual."

I am saturated with many of our smartest scientists who know everything, those who are of the highest intellect, that we are only in the furthestmost portland of knowledge. And that anything is possible after eternal life.

George Whitton left Tuesday for Lubbock.

Mr. and Mrs. C. E. Alford and daughter Ross Lee of New Mexico, Mr. and Mrs. Hayden Fortenberry and Mrs. J. H. Fortenberry were dinner guests in the home of Mr. and Mrs. M. F. Whitton last Thursday.

Texas imported 25 million kilowatt hours of electricity in 1925 (6.9 per cent of its consumption) and exported 84 million kilowatt hours (3.1 per cent of its production).

Twenty or more Knox City young people enjoyed a picnic at the north bridge last Friday night. Mr. and Mrs. Henry Jones and Mr. and Mrs. W. E. Benedict were chaperones. All reported having a most enjoyable evening.

R. E. Wall, R. M. Herring and Rev. Fred Stovall left Tuesday with Mr. Wall's Sunday School class, twelve boys, for the river out from Haskell fishing. They returned home Wednesday late.

"What is the name of your car?"
"I call her..."
"Because she is..."
"No, because she has to have gas she has to have oil, she has to have air, she has to have something all the time."
