SWEET N' SOUR

By A. Dill

Happy Valentine Day—Rosie Red 'n Violet Blue, 'n stuff like there to every one of you!

Valentine wishes in a special way go up to Abilene to Miss Jeffe Lambert, still hospitalized but improving each day. That Lambert bunch come from fighting stock and bless 'em, they'll win out every time.

More good wishes on Valentines Day to Mrs. Virgil Jones who celebrates a birthday on the fourteenth—an especially nice wish for an especially nice person.

Happy birthday too, to Alice Crutchfield who had a family party on the eighth with Mr. and Mrs. Jim Crutchfield of Abilene bringing a surprise birthday cake to make the gathering just perfect.

Another fellow with Valentine's day as his birthday is Noah Smedley, and he'll be fourteen tomorrow.

Today is a special day for the W. Clyde White family. Clyde has been invited to Austin where he will be honored by the Company at a banquet Friday night marking his twenty-fifth year as their representative in this district. Friends in this area extend their congratulations, not only to Mr. White, but to the Company for they are fortunate indeed in having a man of White's character and personality represent them, not only faithfully but well. Public confidence in a company's integrity is built largely by the men who represent them and for twenty five years Clyde White has done just that. We hope he will receive due appreciation.

Our very best wish for happiness goes to Cecil Thompson and Mary Jo Moreland who have set a date in May as their wedding day. Cecil and Mary Jo visited with Mr. and Mrs. Bonnie Thompson this week-end to discuss the happy event. Mary Jo is a mid-term graduate of N. T. S. T. C. in Denton and now holds a position of Math instructor in the Arlington schools. Her home is in Cleburne. Cecil is a teacher at N.T.S.T.C. and completed his Masters degree there last year. Cecil, as we all know him, is a "right guy" always has been, and for both Cecil and his lovely fiancée we hope the best of just everything young people usually wish for.

Fred and Maude Hart had an especially nice weekend—and the reason why? Mary Jo and Howard Garner from Lamesa were her with their children. The Garners continued on to Austin for a meeting of their Insurance Company but the youngsters, Don, Lynn, and Gwynel, stayed with their grandparents. Saturday was a red-letter day for the visitors for they spent it with Mike Hart at his ranch home west of Baird. Mike invited friends in and there was quite a party-air to the occasion, with horse-back rides adding to the fun.

The party got a glow on Saturday, but then it always does when John Bullock blows into town. John is a student at Howard Payne in Brownwood.

Two mighty nice Bairdites moved to Denton last week—Toby and Bobby Corn. Bobby will be full-time student at N. T. S. T. C. and attain his degree in the near future, meanwhile we'll surely miss the two of them here at home.

And that old "tougher-than-I-am" Hubert Ross just goes right along with his sawed-off fingers as though the accident never happened and complete recovery is just a matter of time.

The Headlight, Baird year book is now complete and long gone on its way to the publishing Company and that bushed individual you see still walking around in a daze is the sponsor, Mrs. W. Clyde White, who has worked "night shifts" for so these many weeks to see that your annual got off on time. She's due a great deal of credit for an exceptional job well done.

Don't forget that the M.F.T., Bairds Mother-Father-Teacher Club will hold its annual auction Monday night at 7:30 in the High School Auditorium. The auction will not only feature gift items but will include special services which individuals will offer to the highest bidder and you purchase anything from a baby-sitter to a lawn mowing job with just a lawn cash on the barrel head. Program to accompany the auction will feature the third and fourth grade students. Make plans now to attend.

And while you are about it, cir-

Burglars Hit Two Baird Businesses

Burglars visited Baird again Tuesday night for the second time since January 1. Ray Motor Co. and Baird Lumber Co., were entered.

Entrance to Ray Motor Co., the second burglarly there this year, was gained through the east door of the Repair Shop by breaking a large hasp on the door. Approximately \$500.00 in cash and checks were stolen, along with 2 voltage regulators, 5 boxes of brake shoes and 8 boxes of spark plugs. Employees are still checking the parts department to see if anything else was taken.

Baird Lumber Co. was entered by breaking a window on the east side of the office. Roy Gilbreath, owner, reports that so far, he had missed only 4 padlocks, but that other small tools and supplies may have been taken.

Farm Bureau Begins Drive for Members

The Texas Farm Bureau's annual state-wide membership drive is being kicked off here today with a big rally of county and community membership chairmen.

Governor Price Daniel has proclaimed the week Feb. 15-22 as "Farm Bureau Week" in Texas. During that week, thousands of volunteer membership workers in almost 200 counties will be asking their rural neighbors to join Farm Bureau. The Governor, who is a member of the Liberty County Farm Bureau, congratulated the state organization for having the largest membership gain in the nation last year—3,351 member families.

Afternoon speakers at the rally include TFB President J. H. West, Bishop; and Millard Shivers, Waco, organization director. Harry Bryson, Chicago, director of program development, American Farm Bureau Federation, will be banquet speaker this evening.

The Texas Farm Bureau ended its 1958 membership year with 76,032 farm and ranch families, which was enough to make the state organization fifth largest in the nation. The TFB plans to enroll enough new members this year to move into fourth place—just behind Illinois, Indiana and Iowa.

The Farm Bureau is free, independent, non-partisan general farm organization owned and controlled by its members. Three out of every four organized farmers and ranchers in the nation belong to the Farm Bureau.

Veterans Can Borrow On GI Insurance

Veterans holding permanent GI life insurance don't need to surrender their policies for cash in order to raise money urgently needed during financial emergencies.

Mr. Edward P. Onstot, manager of the Veterans Administration Regional Office in Dallas, Texas, said these veterans may borrow up to 94 percent of their policies' cash surrender value.

Although this reduces the amount of protection for beneficiaries by the amount borrowed, it does leave the policy in force, Mr. Onstot explained.

Once surrendered for cash, however, all protection under the insurance ceases forever, since the GI policy is cancelled and cannot be renewed or reinstated, he said.

Annual interest on GI policy loans is charged at four percent on the unpaid balance and must be paid on or before the due date, Mr. Onstot warned.

Otherwise, the unpaid interest is added to the outstanding amount of the loan. This would soon eat up the remaining cash value of the policy and the insurance protection would cease.

Loans can be made only on permanent-type GI insurance policies. GI term insurance has no loan value, Mr. Onstot said.

Clyde Homer Gibbins, 71, died at his home in Clyde about 4:30 a. m. Saturday. He had been ill since suffering a heart attack last October.

Born June 4, 1887 in Montague County, he lived there until he was 21, after which he lived for awhile in Indian Territory, Okla., and then in New Mexico before returning to Texas.

Mr. Gibbins moved to Clyde in August, 1944 from Lubbock. He had married Mrs. Orile Wilbanks on May 9, 1944 at Robert Lee.

In Clyde, Mr. Gibbins operated a service station west of town until ill health forced his retirement.

TB Ass'n. Reports On Seal Sale

The Callahan County TB Association wishes to express its appreciation to all those who have contributed to the 1958 seal sale. Returns to date amount to \$1182.67. This is a little short of last year's returns, but very gratifying, nevertheless.

Plans are in the making for a patch test program to be held in the schools throughout the county in the near future. Dates will be announced later by Mrs. Lynn Ault, who will be in charge of this program.

At an executive meeting held in the home of Mrs. W. P. Brightwell, January 23, Mrs. S. L. McElroy was re-elected as a representative director on the state board and Mrs. W. P. Brightwell and Mrs. Homer Driskill were elected as delegates to attend the state convention which will be held in San Antonio in March.

As the 1958 seal sales does not officially end until March, it is still not too late for any contributions that may have been overlooked by any individual or organization.

Part of every dollar contributed to the Callahan County TB Ass'n. is spent to finance research on TB which may someday lead to an "easy" means of protecting everyone against TB. Meanwhile we must continue to do it the hard way—by finding the people with TB and getting them under treatment. Through rehabilitation, we must help the ex-patient stay well. We must educate people to keep a high general level of health to fight off infection and disease. The prevention activities of our TB association must be continued and increased or the gains already made against TB may be lost.

County Library Needs Four Magazines

Two weeks ago, Callahan County Library received a file of National Geographic magazines, from the year 1953 through 1958. In checking through the file, Mrs. Rosa Ryan, Librarian, finds that the Jan. 1953 issue, Dec. 1954, Nov. 1956 and Jan. 1957 are missing.

These issues would be of great help to the library, and to the many who will use the magazines for references. The library board would greatly appreciate these issues if you have them and are not using or are not keeping them as a permanent file.

Fence Jumpers Head List of Game Charges

Trespassing continues to be the principal violation committed by hunters, according to the monthly arrest report of the director of law enforcement of the Game and Fish Commission. During December, 1958, there were 129 hunters who "crawled over the fence" to hunt on private property.

Night hunters, however, came a close second, with 124 arrests. The night hunting arrests were heaviest because of deer hunters who insisted on getting their vension with the use of headlights.

Next in line of violations were hunters and fishermen who failed to get their licenses. There were 103 such violations, with 58 hunters involved.

Most of the other hunting violations involved deer. There were 23 persons fined for killing spiks bucks; 15 for killing doe deer; 13 killing deer in closed season. Numerous other minor violations also were recorded.

The 715 persons arrested by game wardens during December paid fines totaling \$20,925.78 and court costs \$1,280, for a total of \$22,205.78.

Among the cases made by the wardens, there were 15 dismissals and 15 who served jail sentences. In two cases fines were suspended. Three defendants were found not guilty.

WORLD WAR ONE VETERANS TO MEET FEB. 18th

Bermuda Grass To Be Planted In Picnic Area of City Park

At a meeting of the Park Board held Tuesday at 7:30 p. m. in the City Hall, it was decided the first effort towards a long range development program would be started in the picnic area in the northwest part of the park. The Board voted to have this area plowed and harrowed, followed by the planting of Bermuda grass. It is hoped that by getting an

Car Insurance Bill Dropped in Hopper

A bill which its sponsors say will save Texans some \$34 million a year on automobile insurance was dropped into the legislative hopper (Thursday, February 5).

It is the so-called "flexible rate bill" which would change the present system of a single or uniform rate set by the Board of Insurance on automobiles, bonds, burglary, general liability, glass, boiler and machinery in the state.

Its major effect would be on automobile insurance. It is similar to the rate regulatory law which is in effect in most other states.

Sponsor of the legislation, Senator Jarrard Secrest of Temple sharply criticized the present Texas law, terming it "antiquated and unfair to the insurance-buying public."

Senator Secrest said the present law, under which all companies have to charge the same fixed rate set by the state, did not permit competition among insurers, and penalized good drivers by making them pay the same rates as reckless drivers.

"Many economically operated insurance companies could and would sell insurance at rates substantially below the rate set by the State if the law permitted them to do so," Senator Secrest said.

"As a matter of fact," he added, "a recently completed study by an authoritative, thoroughly reputable insurance actuary shows conclusively that the savings for Texas policyholders would amount to some \$34 million per year."

Senator Secrest emphasized two other phases of the proposed legislation. He said it would permit insurance companies to offer merit rating plans, and would give the Board sufficient authority to prevent "trick" or confusing policies.

Merit rating plans, the Senator explained, are plans under which the rate a policyholder pays for his insurance is determined by his driving record. Thus, a person with no accidents would pay a substantially lower rate than one who was accident-prone or reckless.

To prevent "trick" policies the Board would be authorized to specify certain coverages that must be in all policies. This would eliminate any confusion as to the basic policy content. At the same time, however, any company which wanted to do so could offer broader insurance coverage. Under the present uniform law, all companies that use exactly the same policy form and are not permitted to sell broader coverage.

"Many companies could sell much broader coverage at the same or even a lower rate than they are now forced to charge for the restricted coverage, if the law permitted," Senator Secrest asserted.

Mrs. Stubblefield Hosts Delphian Club

The Delphian Club met in the home of Mrs. M. L. Stubblefield, Tuesday, Feb. 10 at 3:30 p. m., with the president, Mrs. L. C. Cash, presiding.

"Americanism," was subject for the afternoon's program, led by Mrs. M. D. Bell, chairman of the program committee. Mrs. C. B. Snyder, Jr., led the group in the "Lord's Prayer."

Pledge to the flag, and reading of the American Creed was given by Mrs. Bob Norrel. Mrs. Bell then introduced the following speakers:

Mrs. T. P. Bearden spoke on "The First Open Door to Freedom of Worship."

Mrs. W. P. Brightwell gave "The Establishment of Old World Churches in North America."

A medley of hymns was led by Mrs. James Asbury, assisted by Mrs. M. C. McGowan.

"Others," read by Mrs. McGowan, with musical accompaniment.

early start the weeds and burrs can be controlled, and with proper attention a satisfactory stand of grass can be obtained by next year.

The City has agreed to remove the dead and undesirable trees in this area, and as soon as this is done the plowing and planting of the grass will follow. After the old trees are removed, the FFA boys have agreed to prune the planted trees and trim the remaining mesquites.

Due to the time of year, the Board believes this work should be started immediately in order that the picnic area will be available for use this year. With the combined efforts of individual citizens, civic organizations and the City, the next year or two should show results in the development of this park that every citizen will be proud of.

Efforts are being made to work out a master plan for long range development of our park. When tentative plans can be completed, they will be submitted to various civic clubs and the public in general for suggestions and approval, and when finally adopted, the Park Board will strive to see that these plans are adhered to.

Lake Baird Has New Lake Keeper

D. D. Tollett will be the new Lake Custodian at Lake Baird beginning Saturday, February, 14.

Some changes in the rules governing the lake have been adopted by the Water Board, and a detailed explanation will be published in next week's Star.

Mrs. Madge Bearden, Mrs. W. C. Edwards, Mrs. Lestis Meadows and Mrs. Margie Day attended the All Texas Beauty Show in Dallas at the Adolphus Hotel last week end.

Clyde Wins New Fire Key Rate

AUSTIN — Residents of three West Texas towns are going to save money on their fire insurance as a result of a decision by the State Board of Insurance to cut their town's key fire rate.

The towns concerned are Rising Star, Roby and Clyde. The key fire rate, the amount paid per \$100 of fire insurance—dropped sharply in Clyde, going from 70 to 61 cents. Roby's rate went from 61 cents to 59 and Rising Star's went from 62 to 59. Rates are adjusted from time to time on the strength of on-the-spot examinations by Board examiners, who try to weigh a town's fire hazards against its various fire preventive measures.

The two heaviest charges in Clyde's new rate were 10 cents for 100 per cent of mains deficient in size in residence sections and 10 cents for a wholly volunteer fire department.

Other charges were seven cents for a single pumping unit in the water works; one cent for less than 75 per cent but over 40 per cent of services to consumer metered; one cent for power for pumping unit not according to standards; one cent for water supply main not in duplicate; four cents for 49 per cent of mains deficient in size in mercantile district; one cent for fire hydrants deficient 20 per cent in number in mercantile district; one cent for fire hydrants deficient 18 per cent in number in residence sections; five cents for no auto pumper; two cents for no recognized reserve pumper; four cents for no fire alarm system, seven cents for inadequate building laws; two cents for principal streets in residence sections not paved; one cent for streets in mercantile district not paved; one cent for overhead wires in mercantile district; two cents for frame ranges in mercantile district; and four cents for over 75 per cent of combustible roofs in residence sections.

These charges totaled 64 cents. From this was subtracted three cents as a four per cent credit earned by the town for keeping at least a 100-gallon booster truck and for teaching fire prevention methods in public school. This produced the new rate of 61 cents, effective Feb. 1.

It is easier to overcome any sickness or disease if the cause is quickly diagnosed and the proper treatment prescribed. Be wise. Always consult your physician at the very beginning and take the medicines he will prescribe so that you will get well more quickly.

As It Looks From Here . . .

Omar Burleson, M. C. 17th District, Texas
WASHINGTON, D. C.—ASIDE FROM SUBJECTS of day to day interest or personal matters on which help is needed, the bulk of my mail at the present concerns the fiscal affairs of our Government.

SPECIFICALLY, PEOPLE WRITE ME about balancing the Budget, reducing expenditures and the reduction of taxes.

THE PRESIDENT HAS PRESENTED A \$77,000,000,000 Budget to the Congress. It is supposed to be a balanced Budget. To be a balanced Budget, however, many "ifs" are involved.

(1) **IF THE NATION'S** economic trend takes a sharp upturn in order to increase individual and corporate tax payments.

(2) **IF THE CONGRESS** GRANTS the President's request to increase the Federal gasoline tax by 1 1/2 cents per gallon.

(3) **IF THE CONGRESS** again grants the President's request to raise the price of first class postage stamps from 4 cents to 5 cents.

(4) **IF SOME SORT OF "General Service" tax**, mentioned by the President but not spelled out in any detail, is enacted by the Congress.

(5) **IF ALL GOVERNMENT AGENCIES** guard against expanding existing programs, and this includes the Defense Department which is never sure when and where the next crisis is coming from — but one is almost sure to occur.

(6) **IF THE PEOPLE** will ask less—not more—in the way of Federal projects, services and programs from the Federal Government.

TO MEET THE REQUIREMENTS of a \$77,000,000,000 Budget with all these "ifs," the President recommends a continuation of present individual income taxes, and extension of corporation profits and excise taxes upon the expiration date of June 30 of this year.

HE ALSO RECOMMENDS a plan for taxing income of life insurance companies, a plan for taxing cooperatives in a different way than at present, and an amendment specifying treatment of the process computing percentage depletion in the case of mineral products.

IT'S THE LAW In Texas . . .

"FINDERS' KEEPERS"
Few people realize that a dirty-faced urchin is responsible for the main principles behind our law governing the ownership of lost articles.

Percy Armony was a chimney sweep's helper who lived in London shortly before the birth of our own George Washington. Trudging home one day from his grimy work he found a diamond ring in the public street.

Percy took the ring to a goldsmith's shop to find out what it was. There he placed it in the hands of the goldsmith's apprentice, who, under the pretense of weighing it, stole the diamond from its setting. When he told Percy that the ring was of very little value, Percy demanded the return of the jewel as well as its setting. The goldsmith and the apprentice, thinking that Percy was just a simple-minded boy, refused to give him back his treasure.

But Percy was not the kind to be badgered about. He sought the services of a lawyer to sue for recovery of the ring and its jeweled set. The results of his suit have immortalized Percy's name in the common law.

The goldsmith and his apprentice claimed that since Percy had only found the ring, he had no better right to it than they did. The court felt differently about the matter and ordered the diamond returned "because the finder of a lost article has the right to hold it against the whole world except the true owner." This principle established by Percy's case remains as effective today as it was over two centuries ago.

However, as far as the owner who lost the property is concerned, the finder of lost goods is merely regarded as a depository, holding the goods for the true owner.

The courts draw a distinction between "mislead" and "lost property." Lost property is property which the owner caually and thoughtlessly parts with, like the dropping of a wallet in the hurry to get on a bus. Mislead property, on the other hand, is property which the owner has purposely laid down and then forgotten, leaving it where placed. An example of this would be a handbag placed on a shop counter while a customer examines merchandise. A finder must leave mislead articles with the proprietor of the place where found.

TO OUR FRIENDS AND LOVED ONES

God bless you all. Only He knows the heart and soul of us—and only He can really know the depth of the gratitude and love and appreciation we hold for each one of you. All your kindness, your thoughtfulness, your sympathy and understanding, and all the many wonderful things you did for us through the illness and death of our loved one, having made us know how really wonderfully rich we are with friends. Again, God bless you all—and reward you for your goodness.

A child asks questions Faith can answer

"Why did my dog die?"

He's your son, and he expects you to give him the answers—not just the everyday answers to everyday problems, but the big answers to the big problems. Like why his dog had to die.

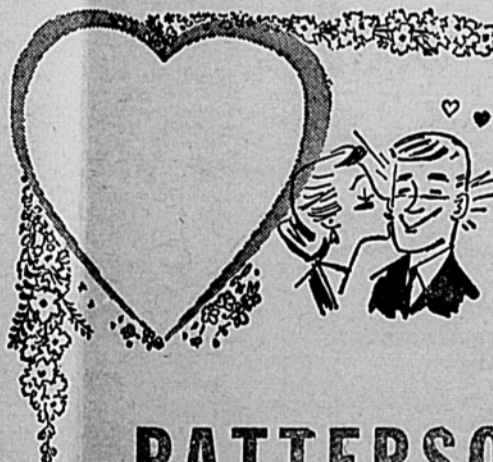

All right. What will you tell him? How will you prepare him to face his life squarely—with confidence? Only by helping him find Faith—Faith in something greater than himself. And you yourself must have that Faith if you expect to help him find it. Begin this week to find the Faith for your life. Worship with all the family at your church or synagogue.

Union Usuals and Unusuals

By Veda Yarbrough

Hi, neighbor. Did you miss me? You did. Well I went visiting. John and Roma McIntyre and I went to Vernon Friday afternoon to visit Gerald and Mildred Carter. Came home Sunday and really enjoyed the visit. Things look dry up that way too. I'm telling you, if we don't get some rain soon, the grain will be gone. I think.

Mark, Ollie and Gayle Burnam spent the week end in Hobbs, N. M. with their son Glenn and family. Came back to Midland and had dinner with daughter, Retha.

Captivating Circles

TOO YOUNG to swim in the Pacific Ocean, Patty, 3, and Grady, 2, get around this handicap by using a tub as their private pool at San Diego, California.

TO KEEP those whiskers from getting singed, this ingenious cigarette smoker uses a circular ash guard. After all, you don't grow a luxuriant sample like this every day.

TO PLEASE his boss, and also the customers at this Miami, Fla., pool, Corky, the porpoise, daily plunges through a paper-covered hoop. The 500-pound clown is star of the show.

TO TRAIN students at the Ft. Leonard Wood, Mo., school of the U. S. Army Engineers, these international crawler tractors are used for earthmoving demonstrations. The 10 tractors are part of an array of 234 machines operated in the six-weeks' course.

I just heard a few minutes ago that a sandstorm was to hit here in about 30 minutes and now it has hit. The wind is supposed to be up to 60 miles an hour and from the racket it is making, I believe it is that. The dust has already begun to get in can smell it and taste it. My how I hate to see those sandstorms come.

We were sorry to hear about Mr. Edd Eubank, of near Moran, falling and breaking his hip a few days ago. He was operated on and they put in a pin and a plate at Hendrick Memorial Hospital in Abilene. We hope he is soon able to be back home.

Fay and Emmett Wood of Cisco had dinner with us Sunday. We were glad to have them; this being their first visit in quite a while.

Ollie Burnam visited Monday with her mother, Mrs. Mary Ramsey.

D. A. and Jim Yarbrough, their sister, Mrs. Onie Abernathy visited in Baird Wednesday afternoon.

Burette and Johnny May Ramsey went over to Cisco Sunday to visit the Emmett Woods. They were not at home.

Mark Burnam says you haven't seen anything yet till you see the crop of mice and rats he has. He's been catching them by the tub full. He caught 870 in just two settings. He puts a tub in the feed and puts water in it. Mark says looks like the mice and rats will win yet.

Little Boy Jim is still killing a lot of the little creatures. If he can't get them to get in traps, he just catches them with his hands. He killed over a hundred the other morning. They were in the mixed feed, and were full grown, not a bed of baby mice. The feed is literally working alive with them. They eat out the ground maize and oats that are mixed with cottonseed hulls. They have their cake and eat it too, as the hulls make a good home for them. Bless them, you can't beat them no matter what you do, so guess we will just have to grin and do the best we can.

Jim and I had a most pleasant surprise and a most interesting letter from Jim Crosby. I have known Jim all my life, we were kids to gether in Seranton. Jim became a school teacher in the Colony school in 1912, and boarded with us. We had not seen or heard from him until yesterday. He lives in California now. Seems like he has done very well for himself, has a nice family, three boys and a daughter. Jim is teaching yet. We were very glad to hear from him.

Be good and I'll be seeing you next week.

4-H Pair Serve Community Best

Pat Potts Joyce Cargill

Top honors in the Texas 4-H program conducted by the Cooperative Extension Service were won by two public-spirited teenagers, Pat Potts, 17, of Dike, and Joyce Cargill, 16, of Bryan. State winners in the 1958 4-H Community Relations program, both received certificates of honor. Young Potts went on to become one of six sectional winners in the nation, receiving an all-expense trip to the National 4-H Club Congress in Chicago. The Wm. Wrigley Jr. Company was the awards donor.

Potts played an important part in repairing an abandoned community center in Dike so that his newly organized 4-H Club would have a good start. The well-kept building now affords a meeting place for community elections, parties and other local activities.

In 1956 Potts organized a 4-H Club in Paint Rock community, serving as its president. The following year he served as president of Pine Forest 4-H Club.

The newly organized club in Dike has formed a community soft ball league, sponsored the testing of water samples, and cleared hazardous corners. Junior leader and assistant leader six years, he is president of the Dike Joint 4-H Club, and active in the county and district councils.

Miss Cargill, in her eight years of 4-H work, has played the piano at church services, helped with polo drives, 4-H Club Week, and achievement programs, and served as mistress of ceremonies for a 4-H program given at Rotary Club.

Every week she and another 4-H'er clean up the community church. "We don't mind it," she says, "because we are proud of our church, and we want it always to look its Sunday best!"

'Women Better Patients,' Says Family Doctor of Year

Dr. Lonnie A. Coffin, 68, of Farmington, Iowa, back at work after being named General Practitioner of the Year by the American Medical Association.

"Women are better patients than men," according to Dr. Lonnie A. Coffin, Family Doctor of the Year. "They'll do what you tell them, but men won't." At 68, Dr. Coffin is a warm and happy man, busy with the health needs of more than 3,000 people in and around rural Farmington, Iowa. Enriched by 48 years of country doctoring, he is also a man who speaks his mind, a philosopher with concise and witty views on life. Here are a few of them:

On smoking: "It's undoubtedly bad for you. I gave it up after my coronary, and—he stopped to light one of his six daily cigars—I've given it up several times since then."

On health: "The work of the voluntary health agencies makes me confident about the future. The National Foundation, for instance, which helped us eight years ago when a polio epidemic hit Farmington (three of Dr. Coffin's four grandchildren were stricken), is now applying its March of Dimes funds to problems like arthritis and birth defects. That's good news, and good health."

On sickness: "If you're sick, do what you can to get well, but try not to worry about it. If you worry, you'll feel worse and so will everybody around you."

On being sick at night: "We all get sicker at night. That's

because we have more time to think about ourselves."

On drinking: "There are only certain people who should drink. Those who can both control it and afford it."

On fishing: "You can fish sitting down and I like that. If you catch something, fine. If you don't, exaggerate."

On being a doctor: "I try to take care of people no matter what the hour, no matter where they live, no matter who they are. Where or when they get sick is not their fault."

On being a doctor named "Coffin": "Well, it's true that's what they carry you off in, but the fact is my name hasn't scared off too many patients."

About Your Health . .

Last week a strong and vigorous 50-year-old Central Texas dairyman suddenly crumpled unconscious to the floor of his dairy barn while going about his routine chores. The doctor's diagnosis was quick and sure: Stroke. That's one of the most ominous words in the language today. What does it really mean?

The medical term is "cerebral vascular accident" because it is caused by a cerebral vascular disease. The body's cerebral vascular system is the brain's network of blood vessels. Thus, cerebral vascular disease refers

to disease of blood vessels in the brain.

Brain cells require a good blood supply in order to work properly—more so than most other body cells. When something happens to that blood supply, the brain itself is impaired.

That something could be a hemorrhage, thrombosis, embolism, compression, or a spasm. Each one of those key words is a major cause of strokes.

A hemorrhage (bleeding) is the result of a break in a brain artery which allows blood to escape and damage surrounding brain tissues. Apoplexy is this type of stroke.

A thrombosis is caused by a clot of blood forming in a brain artery, stopping the flow of blood to the part of the brain it supplies. But when a clot is formed by a diseased heart or elsewhere in the body and pumped to the brain to plug up an artery, it is called an embolism.

A tumor, swollen brain tissue, or a large clot in another vessel may press upon a brain vessel to stop the flow of blood. This is called compression. A spasm is caused when a brain artery constricts or tightens up, reducing the flow of blood to a particular brain area.

With present medical knowledge it is not possible to prevent the majority of strokes, except insofar as some conditions causing cerebral vascular diseases—high blood pressure, for example—can often be helped by modern treatment.

Too, several conditions associated with blood clot formation respond to anti-clotting drugs, and blood vessels defects with which some children are born can sometimes be corrected by surgery, thereby eliminating the danger of strokes.

Rehabilitating a stroke victim may be long and arduous, but it is never hopeless. If stroke damage is slight, rehabilitation may be accomplished by the patient's family and physician. For those with extensive handicaps, special teams of physicians, psychiatrists, public health nurses and vocational training specialists often work miracles.

Notice to Veterans

No part of benefit payments from Social Security can be waived by veterans or their widows who must meet certain income limitations to be eligible for non-service-connected disability or death pensions from the Veterans Administration.

That statement was issued today by Mr. Edward P. Onstot, manager of the VA regional office in Dallas, Texas, who said he is receiving many queries on the subject.

Mr. Onstot said a boost in Social Security payments which will be reflected in the checks delivered during early February, 1959, may cause some persons to become ineligible for VA pension because their "other income" will exceed \$1,400 annually (if without dependents) or \$2,700 (if with dependents).

Many of the affected pensioners mistakenly believe they may waive part of their Social Security benefits and thus bring their "other income" below the annual limitations established for VA pension, he added.

Income limitations for VA pension purposes apply to veterans and widows of veterans of World War I, and World War II, and the Korean conflict. They do not apply to veterans or widows of veterans of wars before World War I, he explained.

He also pointed out that until the person receiving Social Security has actually received an amount equal to the total Social Security contributions taken from his salary or wages in the past, the monthly Social Security payments do not count as income and do not have to be reported.

AUSTIN — With committee hearings going full tilt, the Legislature has reached the rough and tumble stage.

Committee hearings give everyone who has anything to say about a proposed measure a chance to come and speak up. It brings people to Austin in droves. And many speak up—very bluntly.

This year's lawmakers, particularly in the House, seem to be falling into an early pattern of much work, little play. In part, the shortage of sociability is attributed to the hard-fought speaker's race. It divided the House into two camps, whose members for the most part, stayed aloof from each other during early weeks.

A second sobering factor is attributed to the new lobby registration law. Actually, the lobby registration requirement has probably done more than any one thing in years, to make lobbying seem common-place, respectable. A total registration of some 700 indicated that just about everybody and his brother has a lobbyist.

But the law also requires that each lobbyist make a monthly report on the amount spent influencing legislation. Herein comes the reason for caution in entertainment. No one particularly minds being identified as a lobbyist, but too large expenses might incur the risk of being tagged a "rich lobbyist."

RUGH ROAD—Toughest sledging continues to be over the money problem.

Gov. Price Daniel let go with both barrels at critics of his plan for clearing the state deficit and raising additional money for future state services.

Daniel's principal target is Rep. Frates Seelgson of San Antonio, whose 18 months' work with the State Tax Study Commission convinced him Texas' taxing had to branch out, partly through a 1.5 per cent sales tax.

Daniel's money program is based primarily on a natural gas severance tax and increases in a number of present taxes. He warned he'd fight for this program to the last ditch, even into a third term, if necessary.

MATTER OF MATH—First of fiscal consideration of a part of the governor's money program brought a real set-to.

It was a hearing on "the book-keeping bill" by the House Re-

venue and Taxation Committee. This is a proposal, sponsored by Rep. James E. Bates of Edinburg, to credit to the general revenue fund \$18,000,000 from the omnibus tax fund. Since the general revenue fund is expected to be \$65,000,000 in the red by August 31, this would help to ease the pain in that area.

Representatives from the state comptroller's office called the plan unsound, declared such juggling around would just be "legalizing a false statement." Legislative critics labeled it "check kiting."

But members of the governor's office defended it stoutly as a means of giving a "true picture of financial conditions."

PARKHOUSE vs. LABOR — More heat was generated when representatives of organized labor came up to protest Sen. George Parkhouse's union reporting bill.

Briefly, the Parkhouse bill would prohibit use of union dues for political purposes, and require unions to file financial statements audited by a certified public accountant.

Labor officials protested that some phrasing in the bill was so broad as to limit union members from expressing opinions and, hence, free speech. They also said the CPA requirement would be too heavy an expense for small unions.

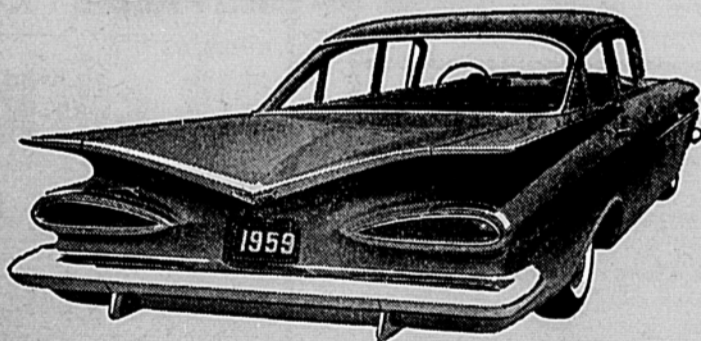

Parkhouse said many union members had asked him to sponsor such a bill so they could get an accounting of what goes with union funds. Some, he said, complained their dues money was used for purposes with which they did not agree.

SCHOOL BILLS — Committee hearings on higher education appropriations brought varied, but cautious, expressions on how these increasing costs might be met.

Before the House Appropriations panel, A. M. Muldrow, Higher Education Commission chairman, said that the commission was studying the question of asking for higher college tuition rates. State college tuition was doubled, from \$50 to \$100 a year, last session.

Before the Senate Finance Committee, most of a group of 18 junior college presidents said they would approve a general sales tax "if necessary."

CHEVY'S NEW HI-THRIFT 6

More miles are back in a gallon of regular-grade gas—up to 10% more—and Chevy's new Hi-Thrift 6 engine puts them there. It also gives you more "git" in the speeds you drive the most.

Here's an engine that always seems able to coax extra miles out of a tank of regular-grade gas. In fact, if you're one of those drivers who keep tab on things like gas mileage, you'll soon see for yourself that this new Hi-Thrift 6 gets up to 10% more miles a gallon.

Another thing you'll like about this 185-h.p. 6 is the

extra pep it gives you for passing and climbing hills. This is due to higher torque at normal speeds.

It may be hard to believe anything that looks and moves like this '59 Chevy can be such a stickler for economy. But—whether you pick the Hi-Thrift 6 or a vim-packed V8—this is just one more reason Chevy's the car that's wanted for all its worth. Stop by your dealer's and see.

The smart switch is to the '59 Chevy!

Pat Patterson's Lucky Dollars are rolling merrily along and

folks in these parts think they are helping the Trade-at-home campaign in no small way, in fact they say some mighty big things concerning the Pattersons who are doing so much to make Baird a better place to do business in. Mrs. Leon Chelf hands on to us one of the most interesting stories to date. It concerns Mrs. Chelf's sister Mrs. Mary Huffaker of Dallas who received a money order for \$1,000 from a grateful neighbor who appreciated Mrs. Huffaker's kindness to his wife during her fatal illness. Mrs. Huffaker, a registered nurse, cared for his wife when she suffered from cancer and refused pay for attending her neighbor in need. That was in November, and after the wife's death the neighbor moved to

Minnesota. It was last week that Mrs. Huffaker received a \$1,000 money order from the friend in remembrance of her kindness. Mrs. Huffaker will place the money in a trust fund for her small daughter's education.

Special birthday greetings to Mrs. L. G. Kerby who celebrates on Feb. 18th and to both Mr. and Mrs. Kerby who will have a thirty second wedding anniversary Feb. 19th.

Baptist Young People Enjoy Banquet

"Bon soir monsieur." "Mademoiselle, bo ta vet nan." The young people of the First Baptist Church of Baird and their guests were greeted in this manner Tuesday evening at the annual Sweetheart Banquet.

As they entered the banquet hall, they found themselves in a setting of Gay Paris. Madame Cole presented each girl with a corsage from her flower basket. A "French" waiter seated them at the small tables covered with red and white checked cloths. The candles on the tables cast a soft light on the girls in their lovely dresses and the gay young men.

This was the sidewalk Cafe de Flore. As they looked around, their conversation went something like this:

"Here's a gay little hat shop and a music shop, and there's a flower shop."

"Oh, there's the Eiffel Tower, and the Paris museum."

"Look at the old fashioned street lamps."

After the invocation by Bro. Davis Harrell, they dined on Foulau-Pot, Salad a la Lyonnaise, crackers, iced tea, and French tarts.

"Those French chefs really are

the best cooks in the world." "Oh, there is violinist LaCour. Let's ask him to play for us."

After everyone had finished dining, they were entertained by the Troubadours, a quartet from Howard Payne College; a style show presented by Madame FIFT and models, Mesdemoiselles Linda Denny, Ann Dennis, Edwina Reese, Gay Goodloe, Reba Bollinger, Delores Shelnut, and Joy Jackson; a bit of magic by Headwater Lowe; and an inspirational chalk talk by Annette Jackson of Abilene. Ann Dennis called for a standing vote of appreciation for sponsors Mr. and Mrs. Joe Pat McHaney, the Brotherhood, W. M. U., and all of those who helped in any way. Howard Lowe gave the benediction.

"Don't forget your favor, that little bottle of cologne to remind you of that wonderful night in Paris."

CARD OF THANKS

I take this means to gratefully acknowledge the many kindnesses shown me by Dr. Griggs and the entire hospital staff during my recent illness. For the friends who called, sent cards, gifts, etc., I am deeply grateful. May God bless each of you and keep you in His love.

Mrs. Ode Berry.
