TO ORGATONE --GAINS DAILY

"For more than twenty years before I began taking Orgatone, I was in perfect misery from gall stones and pains in my back and sides," said Mrs. P. C. Gholson, who resides at 204 Austin St.. Wichita Falls, Texas.

"When I began taking Orgatone," Mrs. Gholson continued, my system seemed to be all rundown. My back hurt me so I could hardly stand up. I nad no appetite, couldn't eat much. But conditions have changed since I have started on the Orgatone treatment. The pains in my sides and back have left me entirely and I am feeling like a different woman. Those cramps that used to bother me so much in my stomach are a thing of the past and I have no more belching or gassy pains now. I can eat just anything that I please, and you would be surprised what a pleasure this is to me owing to the fact that for a long time it was impossible for me to eat many things which my appetite craved.

"You can put me down as a real Orgatone booster and if any body wants to know what I think of this meritous preparation just let them call me, and I will do the rest."

I can eat just anything that I please, and you would be surprised what a pleasure this is to me owing to the fact that for a long time it was impossible for me to eat many things which my appetite craved.

MODEL T FORD

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense.

Because of this policy and because of the investment that millions of motorists have in Model T ears, the Ford Motor Company will continue to supply parts as long as they are needed by Ford owners.

So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the ear, and give you thousands of miles of additional service.

For a labor charge of only \$2.60 you can have your generator put in first-class condition. A new universal joint will be installed for a labor cost of \$3. Overhauling the carburetor costs \$1.50; steering gear, \$3.50; radiator, \$7.50. A complete overhauling of the rear axle assembly runs between \$5.75 and \$7 for labor. An average price of \$22,50 covers the overhauling of the motor and transmission.

These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.
