### HAVE YOU BEEN DECEIVED...

Civilizations do not just die. Their leaders and people are first deceived; then they are destroyed by God.  
"Let no man deceive you with vain words; for because of these things (immorality, covetousness, worship of false gods, etc.) cometh the wrath of God upon the children of disobedience." Eph. 5:6.  
When a nation or a person listens to "the lie" which was given to Eve in the garden of Eden: "... ye shall be as gods, knowing (deciding for yourselves) good and evil." Gen. 3:5.  
• It dethrones God and defies man's achievements  
• It trusts education and science to solve it's problems  
• It believes that man is evolving into perfection  
• It replaces God's moral standards with situational ethics  
• It promotes sensual pleasure and instant gratification  
• It strives for a world of utopia of prosperity and peace  
• It makes the State the sovereign dictator over every one

We must never forget that a civilization is not destroyed because of the wickedness of unbelievers, but because of the carnality of Christians. Matthew 24:12 - This is why you are so important to what happens in our land!

## Hardin Attends A&M Fire School

Ray Lynn Hardin, local fire chief, is the only man able to attend the annual Texas A&M Fire School this summer.  
Hardin left Munday early Sunday morning, July 20, and is to return late Friday, July 25. The school has instruction in the newest and latest in fire protection, having sessions in fighting all types of fires.  
Munday residents benefit when a local fireman takes his own time to attend a school such as this. One of the ways a local citizen can see the results of the school is in the local insurance rate.

Below is a check to see if you have been deceived:  
**Mark each statement True or False**  
1. Children should be taught what their rights are.  
2. It is only right to abort a fetus if it is certain that the child would be severely handicapped.  
3. We must all work to abolish war and achieve world peace.  
4. The real solution to

our economic problems is a system which eliminates poverty on one hand and excessive profits on the other.  
5. The best form of government is a democracy with freedom of religion.  
6. Since we are created equal, husbands and wives should have equal rights.  
7. Mothers should be able to find fulfilling careers outside the home.  
8. Pornography, drugs, and sexual perversion are evil. However, we must allow them to exist because we cannot legislate morality.  
9. The death penalty is

not a deterrent to crime.  
10. Criminals are really the victims of the injustices of our society.  
11. Homosexuality is not mentioned very much in the Bible, and some people are born with homosexual tendencies.  
12. It is not right to have Bible reading in public schools because of the need for separation of Church and State.  
13. Moral conditions in our country are bad, but they have been just as bad during previous times in our history.  
14. Laws should be

made to prohibit false cults from teaching error.  
15. It is the job of government to give a good education to all children.  
16. A strong nation is built on strong local communities.  
17. A child's personality cannot be changed after the age of seven.  
18. Primitive tribes in our world are just now emerging from the "stone age".  
19. A newspaper should report all the facts it gets, because the public has a right to know.  
20. News reporting, like

history writing, can and should be done with an objective mind.  
21. Alcoholism is a disease.  
22. Television is harmful because of all the violence it shows to children.  
23. The history of mankind is simply a continual repetition of itself.  
24. There is not very much we can do about wickedness, because God predicted that wickedness would increase during the end times.  
If you marked any statements "True" ... You have been deceived!

## NEW TELEPHONE BOOKS ARE HERE!

The new Big Country Telephone Directory for Knox, Baylor, and Throckmorton counties has now been delivered. This directory includes Seymour, Knox City, Munday, Throckmorton, Benjamin, Elbert, Goree, Lake Kemp, Megargel, Truscott, and Woodson.

The new phone book is published annually by Associated Publishing Company in Abilene and is a handy reference of business buyers and sellers in this area. It is designed to be a complete source of information in both the white and yellow pages.

Geographically designed, one book covers an entire market area and is compact with easy reference. It is the most complete source of information on businesses and residences in this area. It is also available to guests at area motels. Particularly significant are the lower advertising rates, according to Jim Hilger, area manager.

As the Big Country Telephone Directory is put into daily use in the area, the Knox County Community will find it most useful and very convenient. If you have not received your free copy, pick one up at Christensen Aviation, downtown Munday, or at the Chamber of Commerce.

Chris Christensen of Christensen Aviation, Munday, receives his copy of the new Big Country Telephone Directory from Jim Hilger, area manager of the Big Country Directory, Abilene.

**Long Anticipated Trip Taken By The Bob Raynes**

Mrs. Bob Raynes of Weinert, has longed to make a trip to Portland, Oregon and visit relatives in that area who are dear to her. She would not go alone by airplane, as her husband suggested each year, so she waited - hoping someday they would find the time to go together. On July 4 of this year, this dream began to come true. She, her husband, Bob, and their daughter and family, Mr. and Mrs. George Shawver, Roberta and Jodie, of Holiday, began the long awaited trip.

They visited an uncle and aunt, Mr. and Mrs. John L. Parr in Portland. They were also fortunate to visit a cousin, Ione Trowbridge, before she departed for a Texas trip!

A tour of the area around Mt. St. Helen, Washington was included in the trip and Mr. Raynes brought back samples of ashes at three different stages of eruption. He left a portion of the ashes in the office at The Courier for anyone to view who is interested.

He stated that a person could not put into strong enough words to describe the "looks of that place". Workers had piled ashes to the sides of the highway as they would snow. The wheat was covered with ashes which was a concern to the farmers on whether harvesting would damage the machinery. Ground which has been plowed did not "turn under" the ashes; they were still visible. The farmers are fairly confident the snows will help carry the ashes into the land. They are hopeful that it will work as a fertilizer, and studies are being made on this.

When hearing of Mt. Hood cracking and a possibility of it being a volcanic mountain, Mr. Raynes announced to his family, "We are getting out

of here!" The group also visited the Petrified Forest, Painted Desert, Grand Canyon, Canada, Yellowstone National Park, Colorado Springs, Morman Tabernacle, and Sand Point, Idaho (where the Raynes once lived) before heading "for home".

Not many people "make a dream trip" and bring back ashes from a volcanic mountain to boot, but Mr. and Mrs. Raynes did!

**Lions Camp Film Shown Local Club**

An interesting film on activities of the Texas Lions Club Camp for Crippled Children was enjoyed by members of the Munday Lions Club who remained for the program at noon Tuesday.

The film was entitled "A Work of Love", which was a presentation of a program of fun and recreation for crippled children attending the two-weeks summer camp. Several of these camps are held each summer.

Crippled children engage in various recreational activities, and are also taught skills. "Ample opportunity is given the children to show their abilities in as many areas as we can find," it was explained.

Such activities as baseball, tennis, swimming, and campouts are offered, and it's interesting to see a crippled child helping others who are less fortunate!

Parting is an interesting experience for these children when their parents return to take them home after two weeks of fun-filled activity!

Select the right buttons for a garment to achieve a professional look. A swatch of the fashion fabric and pattern envelope are important when selecting buttons. If possible, cut a slit in the fabric to get an idea of what the button will look like on the garment.

Pattern envelopes list the number and size of buttons needed. Usually smaller sizes are for children's clothes, shirts and blouses, while larger sizes are for coats and jackets. Also, study the type, color, size, weight and placement of buttons used on similar ready-to-wear designs. For example, adding buttons to the sleeve of a blazer is a finishing touch that some patterns may not suggest. Consider weight, color and care of the fashion fabric when selecting buttons.

**Weevils Third In Tournament**

The Munday men's softball team dubbed Weevils, entered an Anson softball tournament during the weekend, placing third. In first and second place were Abilene teams, Calvary Baptist and Ivey Ivie's, respectively.

Several of the regular Weevils team members were unable to play but enough "willing participants" were gathered up to make a team. The Weevils played five games in all. They played one at 12:00 noon on Saturday (right in the cool of the day). They were beaten out in a game at midnight on Saturday night.

Mr. and Mrs. Goodson Sellers spent the weekend with their son-in-law and daughter, Mr. and Mrs. Glenn Marugg, and other relatives in Woodward, Okla.

**Young Farmer Chapter Can Be Organized**

Jack Campsey and Greg Rawdon, local FFA advisors and Ag teachers, are very interested in organizing a Texas Young Farmers Association Chapter in Munday.

Active members for the chapter can be persons out of high school and under age 36; eligible for Area and State offices and awards. The organization can also have associate members, persons over 36 years of age, who can retain all rights and privileges of active membership except holding an Area or State office or serving as a voting delegate.

Mr. Campsey stated, "I feel this is a very worthwhile organization and creates more interest in school activities and the community." The two men would like to have a call from you if you are interested in Young Farmers being formed. You may contact Jack Campsey at 422-4059 or Greg Rawdon at 422-4786 by August 1, 1980. They would then need to set up a meeting for organizational purposes. The local chapter would need to be chartered by September 1980.

These two young men are very willing to give of their time and talents in making a local chapter be an active one. Contact them and let them explain more fully the Young Farmers' program.

DEL SCHUMATE

## Shumate New Pharmacist

Waymon Lyndell (Del) Shumate is now employed as pharmacist at Smith Drug. W. O. Smith has been "handling the job" alone for several months and is real pleased to have Mr. Shumate join his staff.

Shumate received his B. S. degree in Pharmacy in May 1980 from Southwestern Oklahoma State University. He took his State Board exam in June and is awaiting word from Austin on it.

He is presently residing with his parents, Mr. and Mrs. W. L. Shumate at 210 West M. Street, in Munday.

The week of July 25 through 31 is Texas Farm and Ranch Safety Week, and farmers and ranchers across the state are urged now and always to be as careful as possible while growing the food we eat.

The use of personal protective equipment can prevent many of the most common and annoying types of injuries related to agricultural work. I recommend the use of hardhats, filter masks or respirators, gloves, protective eyewear and safety shoes as standard equipment on any farm or ranch.

With today's rising production costs, time spent away from the field or barn, treating or recovering from injury, can be costly. Using proper personal protective equipment can help you stay on the job without unnecessary delays or expensive medical treatment.

For example, hardhats, or lighter weight "bump caps," will protect the head from the sun as well as the common bumps and bruises of everyday jobs.

I also suggest using protective eyewear and filter masks or respirators to protect eyes and lungs from

dust or harmful chemicals. This is especially important when using anhydrous ammonia, pesticides or other toxic agents.

Gloves are good protection against common hand injuries, and should be used for many operations around the farm or ranch. However, they should be removed when working with moving machinery parts since they could be caught or snagged, pulling the rest of the hand into the machinery.

Safety shoes and boots should be worn by all agricultural workers, as even a minor foot injury can be annoying and slow down a busy work schedule. This footwear is comfortable and comes with "non-slip" soles

for work on any surface.

I feel that a common but often neglected injury is hearing loss due to many hours around noisy machinery. Many farmers and ranchers suffer some hearing loss, especially in later years, and this could be reduced by regularly using ear muffs or ear inserts and by purchasing quiet-running machinery.

With proper use of protective equipment and a little careful planning, agriculture can be both safe and productive.

## AVOID ROUTINE DENTAL EX-RAYS

According to the Environmental Protection Agency, a full-mouth series of X-rays is justified only if a visual examination indicates some serious problem - for example, periodontal disease that leads to bone loss. In any event, dental authorities agree, a full-mouth X-ray should almost never be given more than once every five years. Of course, some X-rays of specific teeth may be necessary. But, when you do have a dental X-ray, make sure that your dentist uses a lead shield or apron to protect your body.

## Hoberts Attend Hearing

Mr. and Mrs. Donald Hobert were among the 3,000 people attending a hearing on the Windfall profit tax in Austin, July 17. Royalty owners, oilmen and three congressmen from Texas and Oklahoma were present. The purpose of the meeting was to condemn the windfall profits tax as unfair, fraudulent and possibly unconstitutional.

Sen. Lloyd Bentsen, D-Texas, told the crowd at the "Super Drum" on the University of Texas at Austin campus, "I've been to a lot of committee hearings, but I've never seen this kind of turn-out before." He continued, "I want to tell you we'll be taking your message back to Washington". Sen. David Boren, D-Okla., and Rep. J. J. "Jake" Pickle, D-Austin, were also in attendance.

It is difficult to know the impact such a meeting will have but the response was gratifying to those present. The Hoberts returned home "pleased to have been in attendance."

THE HOME OF DR. AND MRS. W. H. STEWART has been chosen by Munday Garden Club judges as 'yard of the month' for the next two weeks. It was chosen for the overall green lawn and beautiful shrubs with the crepe myrtle as a focal point.

## Letter to the Editor

Dear Editor,

We are taking this means to thank everyone for making the benefit dinner for Noraline such a tremendous success. People donated money because they were going to be out of town, bought tickets in excess of the regular price, and contributed part of the food. We had overwhelming response in every way.

This was only one way we felt we could all have a part in helping a friend, and the

Munday and area people came through, as always!

Thanks again from the "workers" at the dinner

**LOCAL FOURSOME** to participate in an evangelistic crusade in Ecuador are from left, Andy Searcey, Rev. Jack Mints, Mrs. Jack (Carolyn) Mints, and John Mints. They will leave D-F airport on July 31.

**Three Generations of Mints Going**

**Local People To Join Crusade**

Rev. and Mrs. Jack Mints, John Mints and Andy Searcey, son of Mr. and Mrs. Clarence Searcey, will be departing the Dallas-Ft. Worth Airport on July 31. This flight will take them to Miami, Florida, where they will meet a group of approximately 150 others and take a flight to Guayaquil, Ecuador, to have a part in an Evangelistic Crusade. The return trip will be made on August 13.

International Crusades working with Gerald and Maurice Doyle has made this crusade possible. Maurice is the daughter of Mr. and Mrs. Joe Patterson of Munday. The Doyles are missionaries in Ecuador. Many people are priv-

ileged to go on a crusade at one time or another, but it seems a bit unusual for three generations to go on the same one. Such is the case on this particular trip - John Mints, his father, Jack Mints, and Jack's mother, Mrs. Jack Mints of Vernon, will all three be working in this crusade. During this time, Paul Mints will spend time with his grandfather in Vernon.

John and Andy have made preparations for the crusade by attending Youth Evangelism schools in both Waco and Dallas. "The daily routine for the group will include witnessing from door to door for six or seven hours", stated Rev. Mints. "Guayaquil is a city of a

million people. Our own words of what we wish to say have been put in Spanish in written form for us to hand to the people. A citizen of Ecuador will be with us on our rounds, and they will follow up with people interested in becoming christians. Our hopes are that from 3,000 to 5,000 can be saved," he concluded.

This trip is a fulfillment for Rev. and Mrs. Mints in a very special way. In 1967 they applied to be missionaries in Ecuador and were unable to go because of the age of their oldest son at that time. So they are especially thankful for this opportunity to work in this country as missionaries, if only for a short time. \*\*\*\*\*

**City Council Minutes**

**SPECIAL SESSION**

The City Council of the City of Munday, Texas met at the Munday City Hall at 9 p.m. on July 15, in special session.

Members present: Mayor James W. Reid, and Aldermen Larty Smith, M. M. Booe, Ray Lynn Hardin and Donald Hobert.

Members absent: A. Dale Selzer.

Mayor Reid called the meeting to order. Smith led in prayer at the Mayor's request.

After discussion, Smith moved that Judy Wilde, Cystic Fibrosis Fund Raising Chairman for 1980, be granted free use of the swimming pool one night - life guards will give their time - and all proceeds will go to the Cystic Fibrosis Fund Raising Drive. Booe seconded. All for.

Mayor Reid asked Hardin to present ambulance business. Hardin said that Bobby Hutchinson would be on vacation August 4th thru the 17th. He moved that Gene Brown be paid to cover for Bobby during this period at same salary presently paid to him. Smith seconded. All for. Additional phone jack connection possibilities were discussed.

Police reservists met with the Council. Bob McWhorter, Larry Tomlinson, Melvin Cypert, Mark Reid, Donna Saffel and Joe Tidwell each made a brief statement as to why they were reservists and willing to give of their time. Some statements made were "To be trained so that I might assist in time of need; be trained so that I will know more about what to do to

You may find what you need in the want-ad section of The Courier. \*\*\*\*\*

help, raising my family and want to be more able to help them, others in community and want to do my part; Mrs. Saffel also cited wanting to help out in regard to search and other problems with female prisoners. Chief Saffel requested four items be considered by the Council:

1. That Council reconsider order prohibiting reservists from driving.  
2. Requests reservists be allowed to help outside of City if needed.

3. Salary, he said, is below par for P. D. in Munday at this time in comparison with other towns.

4. That P. D. be permitted to set up a 5 day work week, schedule which is being presently used in most area towns.

Since personnel problems are to be considered at this time, Mayor Reid called for the Council to go into closed session. Discussion held.

Smith moved the following be done: That reservists

may drive (1) On night patrol only with prior approval of the Mayor (2) In emergency cases when officer is incapable of driving or officer is taking care of a prisoner, or is injured, etc. This is to be tried on a 3 month probationary period. Booe seconded. All members voted for.

Booe made the motion that reservists may answer out-of-town assistance calls with regular officers, however, they are to stay in the car, man the radio only, unless the Munday officer calls for assistance or is in obvious need of assistance. This is subject to review after three months also. Hobert seconded. All the members voted in favor.

The Council then went back into open session.

After discussion, Smith moved that a resolution be passed providing that all automobiles in the City of Munday, Texas, shall continue to be subject to City Tax as provided by Article 7150.3, Section 2, Sub-Section (b) Vernon's Texas Civil Statutes (H. B. 1060, Article 5.) Acts of the 1979, 66th Legislature, Regular Session. Hobert seconded. All for.

Hardin next moved that

the personal property schedule used in 1979 on vehicle valuations be approved for 1980 tax roll use at the same rates, except for the usual one year adjustment for age. Smith seconded. All for.

The Council next discussed the transition papers of Johnson Memorial Cemetery from the City of Munday to a Board of Trustees. Legality of the transition was questioned. Mayor Reid is to talk with Mr. M. L. Wiggins, Chairman of the Board of Trustees or Bobby D. Burnett in this regard prior to transfer of funds and records being made and report back to the Council at the next meeting.

The Council next discussed salaries of employees at length. Inflation has required that salaries be reviewed. Salaries were compared to other towns in the area for a guide line as well as other methods and local comparison being used. After discussion, Booe moved the following be done: that Gerald Saffel and Gene Nix be raised \$100 per month each and a 5 day work schedule for the police department be instituted with night coverage assured. This 5 day schedule is

to be on 90 day trial period. Other salary changes were: Alvin Adams, up .20c hour; David Gonzales, up .20c hour (now). Jessie Gonzales, up \$26.66 per month with \$35.00 a month additional to be instituted when extra weekend responsibilities are assigned and a phone installed; Walter Hertel, up \$150.00 per month; Bobby Hutchinson, up \$40.00 per month; Marcelino Navarrette, assigned to truck, Sanitation lead man, up \$75.00 per month; Salvador Sosa, up \$75.00 per month; Judy Wilde, up \$36.66 a month; Mary Groves, up \$36.66 a month. All salary increases are to commence on August 1st at the new rate. (Payable Aug. 15th). (Except one listed now). Hobert seconded the motion on salary raises. All members voted in favor.

Hobert next moved that (due to increase in fire school registration and tuition charges) firemen attending Fire School be given \$50.00 each more than previously authorized to pay these added costs. Smith seconded. All in favor.

Hobert moved for adjournment. Hardin seconded. Carried.

**HERE AND THERE**

Diane and I, and Debbie, Becky and Cody Stamps spent the weekend in Denton with Van's father in Westgate Hospital. His condition remains very critical.

Mrs. Bill Powers spent the weekend with her parents, the C. B. Clowers.

Among the Benjamin folk attending the wedding of Sharon Book and John Barnore in Rowena on Saturday were: Janice and Buddy Tolson and family, Jim and Kathy Mazurkiewicz and Debbie Lindsey.

Rick and Sandra Abbott, Russell and Steve, Cisco, spent the weekend with her grandmother, Edith West. The boys remained for a longer visit.

Dee Stamps of Graham visited the Ricky Stamps, Monday.

Kay and Pete Lindsey and daughters visited her mother in the Stamford Hospital, Sunday. She is feeling better and was able to return to her home in Aspermont on Monday.

Mr. and Mrs. Roger Parker of Aspermont visited her parents, the Leroy Wests, Wednesday night.

Joe Barton was in Wichita Falls last week for a series of tests at General Hospital. He is to undergo back surgery on Wednesday of this week. We wish him a speedy and complete recovery.

Mr. and Mrs. T. J. Sutton of Lubbock visited the Van Greens recently.

Roberts recently moved into their two-story home on the Lubbock Hiway across the street from the Methodist Church. The re-storing process on this house was begun over two years ago. According to the Roberts there is still work to do both inside and outside but the place is liveable and they're glad to be in it. Except for a few minor changes, the house has been restored close to its originality and it is beautiful.

The house formerly occupied by the Roberts, east of the school, is also getting a new look. The stucco is being replaced with siding. The Benny Grills are moving into it and their former residence will be available for the new math teacher, Tracy Baty. He has been living in Knox City and we will be glad to have him in our town.

Jimmy and Molly Collins have recently painted their home yellow. They purchased the Qualls house north of town.

Pete and Kay Lindsey are about finished with their remodeling project which was begun over a year ago. It was a lot of work but worth the effort. They added a kitchen and dining room, converted the old kitchen to a bedroom, and paneled and carpeted it all. Looks real nice, too!
