Patsy King Honored For 30 Years Of Service

Patsy King of Munday was recently honored for thirty years of service to the firm of Charles Baker Insurance.

Miss King is a graduate of Weinert High School and Draughon's Business College in Abilene. She joined Baker's staff as secretary-bookkeeper on August 26, 1961. Since that time, she has become a familiar welcoming face for local customers of the business. If you've ever called for information on your insurance policy, chances are that Patsy was the one who answered your questions.

She was presented a gold plaque by Mr. Baker in recognition of her thirty years of dedication to the firm.

PATSY KING, CENTER, WAS PRESENTED A GOLD PLAQUE, a tv and a VCR in recognition of 30 years of dedicated service by her employer, Charles Baker. Miss King joined the firm of Charles Baker Insurance as secretary-bookkeeper on August 26, 1961. Pictured at left is co-worker, Jan Williams.

New Immunization Rules For School Children

The Texas Department of Health (TDH) reminds all parents and school or day care administrators that immunization rules for Texas children recently have been changed. In efforts to stop recent resurgences of so-called childhood diseases, the Texas Board of Health, in both 1990 and 1991, modified existing immunization requirements.

TDH urges parents to ensure that their children's immunization records comply with those rules. Physicians and local health departments can supply detailed information about the requirements. Low-cost or free back-to-school immunizations are offered throughout the year in many Texas communities.

One of the newest immunization rule changes eases restrictions against persons other than a child's parents who seek vaccinations for children in their care. Now, parents and legal guardians may formally delegate authority for signing immunization consent forms to other adults, such as a child's grandparent.

Other recent rule changes include a mandatory second dose of measles vaccine for all Texas school children by age 12. Also, children who are younger than five must be vaccinated against Haemophilus influenza type b (Hib disease, a common cause of meningitis in children, and pertussis (whooping cough)).

State law requires all children entering Texas schools or day care to show proof of immunizations at certain ages against polio, tetanus, measles, rubella (German or three-day measles), mumps and diphtheria. Younger children must also give proof of immunity to whooping cough and Hib disease.

Since a child's age and medical history are factors in which vac-

cines and "boosters" the child needs, parents should consult their family physicians about the required immunizations for each child.

Beginning in 1992, college students enrolled in health related courses, and medical and dental schools will be required to have certain immunizations against rubella, mumps, measles, tetanus, diphtheria and hepatitis B. Veterinary students will need current vaccinations against rabies.

Repairs Made To Cemetery Gateway

According to the Munday Cemetery Association, the gate and archway at the south entrance to Johnson Cemetery have received a much-needed facelift.

Due largely to the efforts of Norm Anderson, the gate was repaired and the archway was straightened to the original angle. This greatly improved the looks of this main entrance to the cemetery.

The association directors would like to express their appreciation for the continued support of area residents, such as Anderson, who make necessary maintenance work possible. Since only interest from endowment trust funds can be used, expansion of services is slow.

Memorials may be made at any time to Johnson Memorial Cemetery Endowment Trust and mailed to the Munday Cemetery Association.

THIS IS HALF OF THE NEW SCOREBOARD erected this week at the local football field. The board, purchased by donations from local merchants and individuals, will be ready in time for the first Mogul home game on September 6.

The Munday Mogul Booster Club membership seat tickets are now on sale at the Munday Courier. Tickets will allow the holder to sit in a designated section of the stadium after paying regular gate admission.

Persons previously holding season seat tickets will have first choice. Come by the Courier office and get yours soon.

The Lord's Corner

by Dr. Pete Bradfield, pastor
First Baptist Church

Everything in the modern home is run by a switch...except the children! Discipline - once considered standard operating procedure for parents - is becoming rare; in its place permissiveness reigns.

But that is nothing new! A thousand years before Christ, the Bible paints a picture of the ruin and rejection of a family because the father failed to discipline his children. Eli, the high priest of God, allowed his two sons to do that which was right in their own eyes.

Parents, your role as a discipliner is not just a good idea; it is your God-given duty. God has a blueprint for you to follow in your child-rearing assignment (Proverbs 19:25; 23:13-14). Read about it, build upon it, and watch God bless!

See you next week, and remember: Parents who are afraid to put their foot down usually have children who step on toes.

TWO PEOPLE - TWO VIEWPOINTS

Jim Smith went to church on Sunday morning. He heard the organist miss a note during the prelude and he winced. He saw a teenager talking when everyone was supposed to be bowed in silent prayer. He felt the usher was watching to see what he put in the

offering plate and it made him boil. He caught the preacher making a slip of the tongue five times in the sermon-actual count. As he moved out the side door during the closing hymn, he muttered to himself, "Never again! What a bunch of hypocrites!"

Ron Jones went to church on Sunday morning. He heard the organist play an arrangement of "A Mighty Fortress Is Our God" and he thrilled to the majesty of it. He heard a young girl take a moment in the service to speak her simple moving message of the difference her faith made in her life. He was glad to see that the church was sharing in a special offering for the hungry children of Ethiopia. He especially appreciated the sermon that Sunday - it answered a question that had bothered him a long time. He felt a genuine warmth in the heart of the people at worship and he thought as he walked out the door of the church, "How can a man come here and not feel the presence of God?"

Both men went to the SAME church on the SAME Sunday morning. Each found what he was looking for!

"Dear Lord, help us to see the good around us. Amen."

I hope to see you in study and worship this Sunday!

Notice of Effective Tax Rate 1991 Property Tax Rates in Munday I.S.D.

This notice concerns 1991 property tax rates for Munday I.S.D. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$ 241,687.76
Last year's debt taxes	\$ 126,870.22
Last year's total taxes	\$ 368,557.98
Last year's tax base	\$ 28,834,140
Last year's total tax rate	\$ 1.2782 / \$100

This year's effective tax rate:	
Last year's adjusted taxes (after subtracting taxes on lost property)	\$ 366,963.81
+ This year's adjusted tax base (after subtracting value of new property)	\$ 29,645,548
= This year's effective tax rate	\$ 1.23784 / \$100
x 1.03 = maximum rate unless unit publishes notices and holds hearing	\$ 1.2749752 / \$100

This year's rollback tax rate:	
Last year's adjusted operating taxes (after subtracting taxes on lost property)	\$ 240,642.36
+ This year's adjusted tax base	\$ 29,645,548

Notice of Effective Tax Rate

1991 Property Tax Rates in Goree Independent School District

This notice concerns 1991 property tax rates for Goree I.S.D. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:

KNOX COUNTY KONNECTIONS

By Jane Rowan, County Extension Agent

What Consumers Want To Know About Red Meat

1. "Why is pre-packaged ground beef often red on the outside, but a greyish-brown on the inside?"

This color difference is a natural phenomenon. Red meat contains a pigment called oxymyoglobin. When meat is exposed to the air, this natural pigment combines with oxygen to produce the red color referred to as "bloom". The inside portion of the meat, while perfectly safe, may be darker due to lack of oxygen.

2. "I always thought that pork should be cooked to a final internal temperature of 170°F. A friend told me that USDA changed it's recommendation to 160°F, several years ago. Is this true?"

Yes. To prevent confusion, USDA now recommends that fresh pork (as well as other meats, poultry, fish and egg products) be cooked to a minimum internal temperature of 160°F.

While cooking meat to a temperature of 160°F, normally assures safety, many people prefer the taste of pork cooked to 170°F. That was the reason for the earlier recommendation - taste, not safety.

3. "How long is it safe to keep a smoked ham in the refrigerator? Will a vacuum packaged ham keep longer?"

Both plastic wrapped and vacuum packaged hams must be refrigerated. A plastic wrapped ham will keep about one week. The smoking process adds flavor, but does not preserve the ham. A vacuum packaged ham should be consumed by the "Use-by" date or within one week after the "Sell-by" date listed on the package.

4. "How long is it safe to keep fresh meat in the refrigerator?"

Ground beef and poultry should be used within one to two days. Red meats can be stored in the home refrigerator for three to five

days. Commercial refrigerators can safely store meat for longer periods because they are significantly colder than home refrigerators. Meats are held in commercial refrigerators/lockers in the back of a store until rotated out to display cases for consumer purchase.

5. "What is sodium erythorbate? I've seen this word listed on packages of many luncheon meats."

Sodium erythorbate is an accepted curing agent. It is also used to prevent undesirable color changes from occurring in processed meats. The additive is required in some meat products to prevent the formation of nitrosamines linked to cancer development. Sodium erythorbate is made from sugar and is chemically related to Vitamin C.

Handling And Storing Red Meats

1. Keep raw meat under constant refrigeration. Wrap it securely, so that packages do not leak and contaminate other foods or surfaces.

2. Don't thaw food on the kitchen counter. Bacteria multiply rapidly at room temperature.

3. Wash hands and utensils after contact with raw meat. Wash cutting boards or other work surfaces. Bacteria, often present on raw foods, can spread to other foods if you aren't careful.

4. Cook red meat to 160°F. Use a meat thermometer to check that it's cooked all the way through. Red meat is done when it's brown or grey inside.

5. Freeze or refrigerate leftovers promptly. Divide leftovers into shallow containers for rapid, even cooling.

The ancient Egyptians used bronze razors and curling irons.

Don't store silver for several hours after washing and polishing. Dampness can cause black spots.

Audit Finds Millions In Savings For Selected School Districts

"The experiment was a \$12 million success," State Comptroller John Sharp says of the pilot management audits on eight selected Texas school districts.

"We've found ways to improve services for students, give more resources to teachers and still conserve taxpayers' money," Sharp said of the Texas School Performance Review audits conducted in the San Antonio, Lubbock, Victoria, West Orange-Cove, Lake Travis, San Saba, Cherokee and Richland Springs school districts. "I strongly believe the process should continue at other school districts across the state.

"By weeding out waste and duplication - and encouraging innovation - we can ensure that as many of our limited school dollars as possible flow to the two most important parts of the system: the teachers and the students."

The Comptroller's Office supervised the audits, authorized by the Legislature in 1990 and conducted by three outside consulting firms: MGT of America, Inc., Deloitte and Touche, and KPMG Peat Marwick. The experimental audits were designed not only to identify possible savings and better management at the eight selected districts, but also to compare various methods of

evaluating school districts.

"We were successful on both counts," Sharp said. "The consultants found about \$945,000 in one-time savings and another \$11.5 million that the districts can save year after year. At the same time, we gave the auditors a relatively free rein so that we could identify those elements that must be included in an effective school district audit, and the best ways to go about evaluating them."

Sharp said the next step in the process lies with the local communities, school boards and administrators, who must decide which of the recommendations to put in place.

"We're more than willing to help them, if they want our help, but we will not force them to accept any of these changes," Sharp said. "None of these districts need another set of out-of-town bureaucrats telling them what to do."

One of the few specific instructions given to the consulting firms was to identify successful, innovative programs and procedures that other schools could replicate.

"That's the beauty of this process," Sharp said. "There's no reason to believe that Dallas or Laredo or Muleshoe can't learn from and adapt a dropout prevention program that works in San Antonio or a teen mother education system from Lubbock or San

Saba's approach to educating gifted and talented students."

The auditors also found a number of common issues among the districts that have statewide implications. Their recommendations included: increased use of the expertise offered by the regional Education Service Centers; changes in state-mandated school purchasing policies; reducing detail the state requires in book-keeping and financial records; increasing energy conservation programs; consolidating state and federal inspections of food service operations; and reducing the resources districts must devote to state accreditation visits.

Benjamin News

By Mrs Gladene Green

Our rainfall here in Benjamin measured about four inches ...enough to make everything green and pretty. Whether we want to or not, we're going to have to mow again!

CONCERNING THE SICK

Our sick folks are improving little by little.

Buster Tolson was in town one day last week with his son, Buddy. He seems to be doing pretty well and was glad to get out of the house for a while.

Virginia Griffith comes home Thursday after 46 days in Methodist Hospital in Lubbock. She's mighty weak, but "hanging in there" and hopefully will begin to feel stronger soon.

SCHOOL BEGINS

School started in Benjamin on August 19, with a couple of new faces among the faculty. Pam Roberts Duke will be teaching the first and second grades. Pam is a "Benjamin-ite" who has been teaching in Rochester the past few years. Kim Smith is the new coach. He comes to us from Electra, where he was head basketball coach last year. Martha Wolsch will be teacher's aide and drive one of the buses.

Other teachers include: Ben

Grill, superintendent; Louis Lee Baty, principal and math; Carol Dickson, kindergarten; Deana Hacker, third and fourth grades; Nancy McGreger, fifth and sixth grades; Belle Grill, English; Becky Baker, homemaking; Susan Carver, business; and Dick Dickson, FFA. Other personnel include: Kathy Waldron, school secretary; Jane Gideon, lunchroom manager; Pepe Balonas, custodian; Teresa Estrada, part-time custodian; and Mary Rainwater, bus driver.

CHEERLEADER CAMP

The BHS cheerleaders attended a training camp at Wayland Baptist College in Plainview last week. They received superior ribbons on each evaluation. They also received an achievement award and got the spirit stick one night. Those attending were Kate Grill, Rhonda Whitten, Stephanie Conner and Kathy Bufkin.

They, like junior high, are ready for football season to begin! That won't be long, as the boys have been working out for a week now and are about ready for a scrimmage. Boys out for the team are Ricky Trepanier, Jason Redwine, Jimmy Barrientez, Jim Bob Conner, Bo Welch, Tres Pierce and

Jason Simmons.

GETS MASTERS DEGREE

Mary Helen Barrientez Widmer received her master's degree in Elementary Education from the University of North Texas on Saturday, August 10. Mary and her husband, Sean, reside in Carrollton. She is a BHS graduate and the daughter of Raul and Reyes Barrientez. Her parents attended the ceremony in Denton. Others attending were Jr., Virginia, Michael and Jimmy Barrientez of Benjamin; Janie Saucedo, Joey and Gilbert of Rochester; Edward Romo, Margaret Rodriguez, Carla Romo, Sylvia Rodriquez, Jesus Rodriguez and Austin Beaty, all of Dallas; and Rudy, Elida and Kike Lopez of Carrollton.

HERE 'N THERE

Trevor Benson of Seymour spent Saturday night with his grandmother, Darlene Benson.

Weekend guests of Kathleen Melton were Barry and Debbie Neil and sons of Wautauga, Jackie, Jr. and Cindy Young of Arlington, and Jack and Mary Young of Lubbock. Kathleen returned home with the Neils for an extended visit.

Kenneth and Ila Mae Benson of Wichita Falls were Benjamin visitors on Tuesday.

Weekend visitors in the Stanton Brown home were their son, Doug and Karen Brown of Teagus and also Calvin and Thelma Brown of Perryton. They also visited Era Brown.

Kim Trepanier is spending a couple of weeks with her cousin and family in Crosbyton.

The owners and employees of the Moorhouse Ranch were in Wichita Falls during the weekend for the 11th annual Ranch Roundup. Haven't heard all the results, but am sure they did well in most of them.

We have new residents in Benjamin. Kenny and Laneen Upton and Jacob have moved here from the Dallas area and are living in Soupy Hertel's house.

Peggy Dillard of Wichita Falls visited here on Saturday.

Visiting the Bud Clowers and Gloria West on Friday were Lorraine Powers, Steve Powers and Shelly and Kari Roberson, all of Midland.

Dub and Jo Cartwright and Ruth Ressel vacationed in the Beaumont and Austin area last week. Ruth went on to San Antonio to attend the Golden Wedding Anniversary reception honoring her brother and his wife, Joe and Ann Castleman.

Judie, Jay and Rhonda Whitten and Tyler Carroll spent a couple of days last week at the Native Sun amusement park in Lawton. ***

At Your Service

by Dr. Larry Fitzgerald
Minister, Munday Church of Christ

The following question came from East Texas, but applies to us all.

Q: My daughter has been a source of concern and the subject of my prayers for quite some time. She was using illegal drugs, but has cleared that up by attending a professional rehab clinic. However, she refuses to get a professional job, dates someone of a different race and won't attend church. Why won't God answer my prayers concerning my daughter?

A: God loves you and your daughter. He wants the best for you and for her. However, God is not like a genie in a bottle who will do our bidding everytime we open the "cork" of our Bibles.

There are several principles concerning prayer and God's action that you are overlooking. First, God has only promised to answer our prayers in accordance with His will. That's why Jesus taught us to say to God: "Your will (not mine) be done" (Matthew 6:10; 26:39,42). Praying for God's will to be done involves presenting to Him the problems and letting Him present the solutions. In other words, Jesus taught

us to pray for our daily needs to be fulfilled and not to present to God the means by which those needs are to be fulfilled (Matthew 6:11; Proverbs 30:8). Often times, we pray "Oh God, please let me land a job that pays \$30,000 per year, that demands little heavy labor and gives me weekends off." This is the wrong attitude. We are simply to pray "give us our daily bread."

The second major principle that we need to understand is that God will not violate another person's free will. Several godly people in history have had children who went against God's will. David is a good example. The over-riding principle of Christianity is that each person is responsible for his/her own actions (read Ezekiel 18). God will not force your daughter into repentance, nor can you. This must be her own personal decision.

Other principles concerning prayer include: (1) God has promised only to answer the prayers of the Godly (Proverbs 15:11, 29; 28:9; Psalms 34:16; 66:18 of John 9:31); (2) God restricts himself in

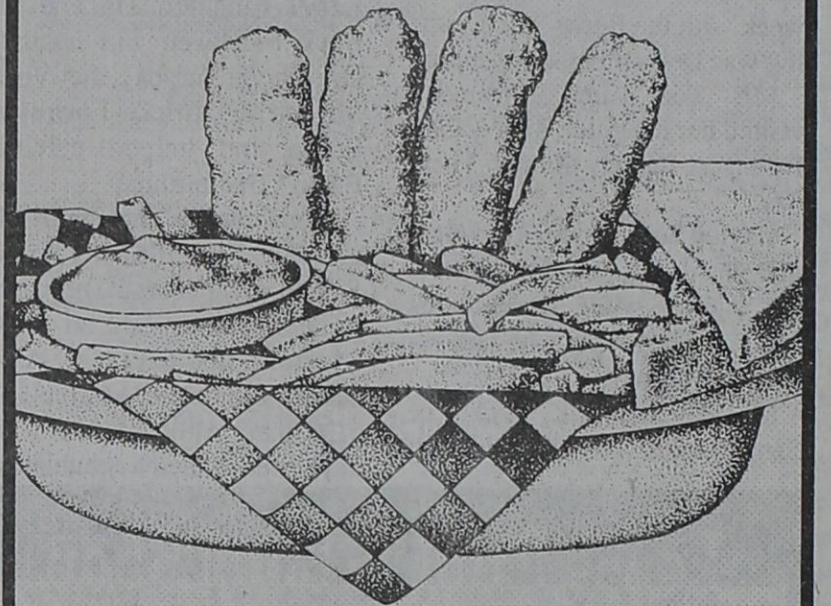

The Munday Courier, Thursday, August 22, 1991, Page 7 keeping with His commands -- since God's will and His New Testament law is the same we cannot ask for God to break these laws while praying "by your will."

Concerning the man your daughter has chosen to date, please consider that the Bible does not condemn inter-racial relationships or marriage. While such relationships may have social stigma, they are not sin. God did not want Jews to marry Gentiles because these often resulted in worship of false gods (Malachi 2:11; Ezra 9-10; Nehemiah 13:23ff, note Neh. 13:26 of 1 Kings 11:1-2). However, if a foreigner became a follower of Jehovah, he/she was free to marry someone born a Jew (Exodus 12:48-49; Numbers 15:15-16; Moses' first wife and Solomon's blessed wife were of a different color, Exodus 2:16-22; Song of Solomon 1:5, KJV).

Retired Teachers Get Increase In Benefits

Lt. Governor Bob Bullock recently applauded Senate approval of a pension increase for Texas' retired teachers, which will be funded from the Teacher Retirement System and not require new money from the state.

The retired teachers will get raises of 1% for each year since they took retirement. A teacher who retired in 1980, for instance, would receive an 11% increase in benefits.

"This legislation will help older, retired teachers who left state service before pension benefits reached a realistic level," Bullock said. "For a retired person, living on a fixed income, that extra money means a world of difference."

Bullock cited an example of a teacher who retired in 1970 after 30 years service. Currently, that teacher receives only \$650 per month, while a teacher who retired in 1985 after the same 30 years of service receives, on average, \$1,251.

Under the Senate plan, the older teacher's average benefits would go up 21% or an additional \$136 per month, while the teacher retiring in 1985 would receive a 6% increase or \$75 on average.

The raises will take effect in September, Bullock said. The legislation now goes to a House-Senate conference committee.

The first president to use the telephone was James Garfield, who had a phone installed in 1878 while he was a member of Congress.

EQUAL HOUSING

I used to live 6 miles and 37 minutes from work. Now it's an easy 10-minute drive.

Too many people, too many cars. Let's face it, fighting city traffic every day was no way to start the day. Life is just too short for that kind of hassle.

Since we moved to the country, my drive to work is a time to relax... notice winter change to spring, or summer to fall. Living in the country gives us the peace and quiet we were looking for.

Country living has another advantage... being a member of a rural electric cooperative. Being part-owners means we have a say in how things are run. But best of all is the service we get from the cooperative employees. They have an attitude that just seems to go with folks in the country.

An attitude of service
