## Munday Sales Tax Rebates Still Rising

According to the latest figures released by the State Comptroller's office, the City of Munday received 4.08 percent more in sales tax rebates for the month of October compared to the same period last year.

The City received a check for \$4,791.92, bringing the 1992 total to \$65,357.96 and an increase of 38.83 percent. We are now comparing two months with the 1.50 percent local tax so the increase is encouraging.

## Abell Ag Company Damaged By Fire

Munday firemen were dispatched at approximately 10:15 a.m. Wednesday, October 14, to a fire at Abell Ag.

According to a local fireman, when they first arrived at the scene, it didn't look good. Flames had engulfed a large area of the cull house and treatment room.

Approximately 30% of the roof was damaged. There was not as much damage to the equipment as first expected. Due to the cinder block walls, the fire was confined

to the wood roof. Most extensive damage was to the electrical wiring. The office received very little smoke. Thankfully, no one was injured.

Employees of the plant were working in another section of the building, when they saw the smoke and flames.

According to Ronnie Baker, manager, everything was nearly ready for the cotton season, before this happened. This will put them behind at least 30 days, maybe less if everything goes as planned. The plant is insured, and reconstruction work has begun.

It is still undetermined how the fire started.

Abell Ag is owned by Davey Abell of Ralls.

FIRE BROKE OUT around 10 a.m. Wednesday morning, October 14, at Abell Ag Co. Local firemen were quick to arrive at the scene and distinguish the blaze. Clean-up and reconstruction has already started, and the plant should be back in shape for cotton season within thirty days. Electrical wiring trouble is guessed to be the cause of the fire.

## It's Time To Turn Back The Clock!

It's that time once again to change back to central standard time. This means we will gain back that extra hour of sleep we lost last spring when daylight savings time went into effect.

Central standard time will officially resume at 2:00 a.m. Sunday, October 25. If you don't plan to be awake this early in the morning, just set your clock back one hour before retiring Saturday night.

If you forget to make the change, you'll be an hour early for church Sunday morning. So, don't forget to "fall back" one hour!

## Moguls Defeat Tenth Ranked Dragons

The Munday Moguls have done an about face since district started. The Moguls now have won two straight by defeating the 10th ranked Paducah Dragons 26-0 this past Friday night. Munday was winless in pre-district play losing to four class 2A teams and one class 1A team.

The Moguls received the opening kick-off and began moving the ball right away from their own 16 yard line. Freddie Sosa set the

pace for the Moguls by taking the ball on the first three plays for a Mogul first down. Dustin Kiser and Bronco Flye joined in for another Mogul first. Then quarterback Mike Bunton hit Ray Hernandez on a pass to gain 27 yards. Aaron Kiser took the ball 23 yards from there to put the Moguls on the Dragon 13. The drive was stopped when a Paducah defender knocked the ball loose from Bronco Flye. The Dragons recovered on their own 5 yard line.

The Dragons were forced to punt after making one yard in three plays. Bronco Flye returned the punt from the 41 to the 36 yard line. After two plays and fourteen yards missed connections gave Paducah the ball at the 22 yard line.

Munday took over four plays later after forcing the Dragons to punt again. On the next play Mike Bunton connected with Bronco Flye for a 47 yard pass reception. Paducah's defense held up from there. The Moguls had nowhere to go at the Dragon 32 yard line and the ball was handed over to Paducah after four plays.

Paducah began the second quarter with Chris Smith running the ball for the next three plays to give the Dragons a first down. Passing quarterback Andie Cruz tried to throw for a touchdown but Bronco flew through the air to intercept the pass at the Mogul 7 yard line.

The Moguls moved the ball 68 yards on seven plays. One play

went 41 yards in the air from Mike Bunton to Ray Hernandez. After reaching the Dragon 24 yard line Munday fumbled again giving the ball back to Paducah.

Aaron Kiser took Chris Smith down for an eight yard loss on the next play to keep the Mogul spirit alive. On third down and long the Dragons once again tried to pass but Bronco Flye came up with the ball at the 39 yard line. The Moguls were not going to let this one get away. Aaron Kiser and Ray Hernandez put the Moguls closer to the end zone on runs of eight and seven yards. Munday couldn't wait any longer. Mike Bunton hit Ray Hernandez for a 24 yard touchdown reception with 2:03 left in the second quarter. Vamberto Maia Filho kicked the PAT to give the Moguls a 7-0 lead.

Paducah had the ball at their

ons in the third quarter. Paducah moved the ball 31 yards but were forced to punt when a long yardage situation left the Dragons short. A 50 yard punt put the Moguls on their own eleven yard line. Munday soon had to punt after being able to go nowhere.

Chris Smith received the punt for the Dragons at the Mogul 37 yard line and then advanced it to the 28. A pass interference call against Munday put the ball on the fourteen yard line. Paducah tried for a touchdown in the air but were unable to connect so the Dragons went to the ground. Quarterback Tanner Brown kept the ball around the left side for five yards to move the Dragons closer. After losing a yard Chris Smith tried around the left side but came up about a foot short of the first.

The Moguls took over at their own four yard line. Aaron and Dustin Kiser moved the ball out for Munday on runs of 13 and 12 yards respectively. The Moguls had moved the ball out to the 35 yard line but came up short of another first down and had to punt. Terry Tomlinson punted the ball, Bronco Flye knocked the ball loose from the receiver, and Jay Kingston recovered. That was a quick way for the Moguls to move the ball 36 yards.

Munday was unsuccessful in moving the ball for two plays but after a change to the fourth quarter Mike Bunton tossed the ball the Dustin Kiser on a screen pass. Kiser made his way to the Dragon 4 yard line. Ray Hernandez took the ball on the next two plays, one for three and the other for one yard and a touchdown. Paducah blocked the extra point. With 10:53 left in the game the score was now 13-0.

The Dragons received the ball at their own 30 yard line. After a defensive holding penalty and a run by Tanner Brown, Paducah was at their own 47 yard line. Gene Shields decided to get his hands on the ball. Shields intercepted a pass from Andie Cruz at the Mogul 38 yard line. A late hit penalty against the Dragons put the ball on their 46.

Great blocking by Jason Zeissel, Jason Bowman, David Tidwell, Junior Masias, and Jay Nuckols helped move the ball even closer to the end zone. The Moguls made their way to the 21 yard line. On the next play Bronco Flye fumbled the ball to give the Dragons the ball at the sixteen yard line. Two plays later Bronco made up for the mistake by intercepting a pass

and racing 40 yards for a Mogul touchdown. Vamberto Maia Filho kicked the PAT with 6:28 left in the game to give the Moguls a 20-0 lead.

Paducah began the next series of plays at their own 31 yard line. After an incomplete pass and another for a two yard gain, a clipping penalty pushed the Dragons back to the 20 yard line. Andie Cruz ran six yards on a keeper but the Dragons were long from a first. Out of desperation Paducah tried a fake punt but the Moguls were ready. Aaron Kiser tackled Drew Davis out of bounds for a 15 yard loss.

Three plays later Ray Hernandez ran the ball in from 6 yards out for the final touchdown of the game. The extra point was blocked. The score was Munday 26, Paducah 0 with 3:32 left in the game.

The Dragons ran out of plays on their next possession after coming up short of a first down. The Moguls took over at their own 38 yard line but on the first play a fumble gave the Dragons the ball back. Paducah tried to pass once again but Mr. Flye was there to intercept the ball for his fourth of

the game. Munday took over at their own 16 yard line and soon ran the clock out to give the Moguls their second win in a row.

**Knox County Retired Teachers To Meet**

Knox County Retired Teachers Unit will meet Tuesday, October 27, at 2:30 p.m. in the Knox City Community Center.

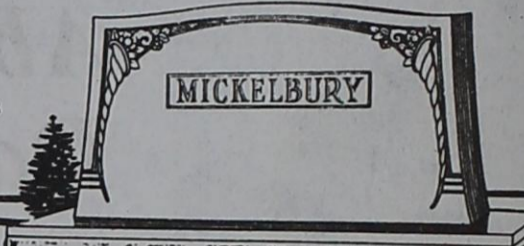

The program will be Home Health Care by Pam Nelson, R.N., Mediplex Case Manager in Munday.

**CORRECTION**

Last week's paper listing Munday High School students on the "B" honor roll should have read "A" and "B" honor roll. Those students had in fact all A's and B's. (In the past a student receiving any combination of B's and A's or even all B's was simply listed on the "B" honor roll.) The school has changed this policy.

## Local's Brother Wins The Gold In Culinary Olympics

Douglas Ray of Dallas won two gold medals and two silver medals in the Culinary Olympics held in Frankfurt, Germany, October 13. He was a member of a 12-person team taking part in the international event sponsored by the American Culinary Federation.

The Olympics, held every four years, is "the show" for top-notch cooks across the country.

Douglas graduated in 1979 from Knox City High School. After changing majors numerous times at Southwest Texas State University, he finally decided he liked working in restaurants better than he liked college. So he left San Marcos and headed for Hyde Park, N.Y., to attend the Culinary Institute. Following graduation, Douglas headed for Dallas and became the head pastry chef for the six Harvey Hotels located there.

Douglas' entries in the competition were distinctly western, perhaps an inheritance from his Knox County roots. One of his entries was a 3-foot tall chocolate cowboy sculpture. Bracing his body against the West Texas wind, the cowboy holds a cup of coffee in one hand and uses the other to keep his hat on his head. Another chocolate sculpture is of the cowboy's wife, holding a baby and also fighting the Texas wind.

As you might guess, Douglas' favorite food is chocolate.

Very proud of her brother is Mrs. Jerry (Judy) Lowe of Munday.

The Home Economics Advisory Committee has invited Douglas to host a county-wide show in December. The day and time will be announced at a later date.

### A Stitch In Time Saver Nine

Whatever the reason you sew, you can always use short cuts to help you use your sewing time effectively. Try these tips:

- \* Cut everything at one time.
- \* Use tape to "pin" the pattern to the fabric. You can cut through the tape and not waste time removing pins.
- \* Eliminate time consuming seam finishing by using the selvege when cutting straight seams.
- \* By cutting 3/4 inch seams, you will have sufficient room for any seam finish.

\* Make 1/4 snips into the seam line in places of notches.

\* Pin baste.

\* Speed stay-stitching by stitching one continuous thread. Do not cut thread between pieces. Backstitch at the beginning and end of each piece you sew. Since all pieces are attached to one continuous thread, they are easy to find, even if you have to stop sewing.

\* Mark your machine throat plate with masking tape to keep seams even. Be sure to mark both sides of the presser foot, with the closest edge on each side measuring the seam allowance to the needle hole. Tape can be placed in front of the presser foot at the same distance from the needle hole as the other strips, to allow for accuracy at corners and curves.

### News In Major Appliances

While there is nothing totally evolutionary in the major appliance market, there are plenty of new features to dazzle the average buyer.

Cooktops and wall ovens are proliferating. Grills and griddles, currently popular features on cooking surfaces, are now available as plug-in elements.

The high end of the cooking appliance market is particularly attracted to sealed burners, smooth tops and gas-in-glass. Eurostyling and white on white are important fashion elements. Since these trends are likely to clash with existing decors, they may be more

In Matthew 11 we read that Jesus was being rejected by much of his audience. Some towns - Chorazin, Bethsaida, and Capernaum - turned a deaf ear to his teaching. They were not moved by his miracles of mercy. But Jesus was not overcome with discouragement. Some received his teaching and became his disciples. Then Jesus reveals an amazing faith, his faith in how God mysteriously speaks his word. Jesus prays, "I thank thee, Father, Lord of heaven and earth, that thou hast hidden these things from the wise and understanding and revealed them to babes; yea, Father, for such was thy gracious will (Matthew 11:25-26). This is hard to understand.

Does God hide Godself from some, specifically the "wise and understanding," and does God reveal wisdom to others, the "babes"? The next verse needs to be heard: "All things have been delivered to me by my Father; and no one knows the Son except the Father, and no one knows the Father except the Son and any one to whom the Son chooses to reveal him" (v.27). In the preceding verses (20-24), Chorazin,

### Young Pep Squad New Addition At Football Games

A new addition has been added to the home football games this year. We now have a Pep Squad in the stands to help the cheerleaders yell for the Moguls.

This young Pep Squad is made up of third through sixth grade girls. They all have matching t-shirts and pom-poms, and really do a great job in putting some spirit in the bleachers.

The girls participate at all home football games for junior high, JV and varsity teams.

### Project: Skyline Donations

The Ben Franklin Store and McCauley-Smith Funeral Home made donations to Project: Skyline this past week.

Bethsaida, and Capernaum were judged because they refused to repent.

Baptist scholar Frank Staggs writes, "The biblical doctrine of election is that God takes the initiative in revelation and redemption. God comes to [humans]; [humans do] not make [their] way to God. God reveals [God]self to [humans]; [humans do] not discover God. Not only does Jesus reveal the Father to us, but he chooses to do so. Knowing God as [Parent] is the ultimate goal of revelation and redemption." It is not by our wisdom and understanding that we come to God. It is by our humility that we come to know God.

## There's a better way to stay warm...

**Call your heating and cooling dealer instead.**

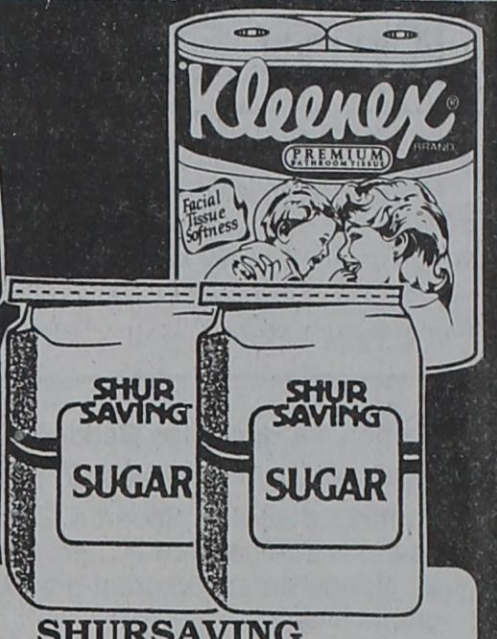

The best way to stay warm this winter is to have your heating system serviced now. A checkup by a heating and cooling dealer could help prevent a costly, uncomfortable breakdown during the cold of winter. Proper maintenance can also help reduce operating cost and extend the life of heating equipment.

And if your present system has seen too many winters, replace it with an all season electric heat pump. Ask your dealer or WTU for details.

## Thank You!

We would like to thank the Munday Volunteer Fire Department for responding to our call last Wednesday. Your quick response helped keep our loss to a minimum.

Also, a special thanks to the Munday ambulance personnel who stood by in case someone was hurt, and to the police department for blocking off the road and keeping the public back at a safe distance.

## Farm and Ranch Report

By Donnie Peters

Knox County Extension Agent - Ag.

### Frost Can Cause Prussic Acid Poisoning

Now that fall is officially at hand, a killing frost will be hitting the area before long. This could lead to prussic acid poisoning in livestock. Every year I get reports of loss from prussic acid poisoning and with the high cost of cattle it certainly pays to pull cattle off pastures after the first killing freeze.

While many plants contain the toxic material that causes poisoning, the greatest culprits are Johnson and Sudan Grasses and sorghum or hybrids of these that cause the highest mortality if livestock graze them after a heavy frost.

The most dangerous time for the grazing of these plants is following frost when the plant material begins to wilt.

Livestock should not be allowed access to the wilted material until it has dried completely following three or four days of good sunlight. New plant growth usually becomes nontoxic and can be grazed within 10 days to two weeks following a rain.

Prussic acid poison acts rapidly and can kill animals within minutes. In most acute cases, animals become affected within 10 to 15 minutes after eating toxic material and can die in two to three minutes.

Symptoms may include a brief period of stimulation followed by depression and paralysis. Signs of colic may be present. Stupor (loss of sensibility), difficult breathing

and frequent convulsions may result. Death is caused by suffocation since oxygen remains in the blood and is not exchanged to the tissues.

The key to prevent prussic acid poisoning in livestock is to be aware of plant materials that may cause poisoning and then keep cattle from grazing such plants until a safe period of time has passed.

#### Disaster

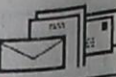

Sign-up for Phase II Disaster, 1992 Wheat, Oats, and Barley, has been extended thru February 12, 1993. Phase III Disaster also runs thru February 12, and is applicable to 1990, 1991, and 1992 crop years for all crops, including vegetables. On any one farm, you can sign up on two years out of the 3. If you signed up for disaster last spring (Phase I) you have used up one of your options. Each farm stands alone, you can sign up for different years on different farms.

If you sign up under Phase II, you must furnish production records for the disaster crop for the farm for which you are making application. If you sign up for Phase III, you must furnish production records for the crop in question on all farms in which you have interest.

If you made less than 35% of your ASCS yield, you must purchase multi-peril/FCIC insurance for 1993 in order to be eligible for disaster. November 2, is the final date to purchase insurance for wheat, oats, and barley.

Disaster sign-up is by appointment - please call 817-658-3537.

## Mann, 33, Dies In Train/Pickup Collision Saturday

James Lynn Mann, 33, of Electra died Saturday, October 19, 1992, following an accident when his 1985 Chevrolet pickup was hit broadside by a 116-car Burlington Northern train around 11 a.m.

Mann was south bound on a private road when he was hit by the train, which was traveling west, according to Department of Public Safety trooper Gary Rozzell. He was thrown from the pickup when it spun counterclockwise and burst into flames.

Funeral services were held at 10 a.m. Wednesday, October 21, at Immanuel Lutheran Church in Harrold, with Monroe Husfield officiating. Burial was in Electra Memorial Park.

Born November 6, 1958 in Vernon, he lived in Electra most of his life. He was a farmer and a member of Immanuel Lutheran Church and the Punkin Center Volunteer Fire Department. He and Lynn West, formerly of Munday, were married in January, 1984, in Munday.

Preceding him in death was his mother, Barbara Mann, who passed away in 1982.

Survivors include his wife; two daughters, Jennifer and Jamie, both of Electra; his father and stepmother, John and Rhonda Mann of Electra; a brother, John of Pennsylvania; a sister, Sherlynn-Rejino of Electra; a grandmother, Julia Mann of Electra; a stepbrother, Luke Kimbro of Electra; and a stepsister, Heather Kimbro of Electra.

He is the son-in-law of Tom and Sandra West of Munday.

## Local Teachers Honored By Former Students

A select group of America's teachers are being honored by their toughest critics, their former students, in the second edition of *Who's Who Among America's Teachers*®, 1992.

Teachers being honored were selected by their former students who themselves are currently listed in *Who's Who Among American High School Students*®, or *The National Dean's List*®, publications which recognize the top 5% of our nation's high school and college students. Paul Krouse, publisher of *Who's Who Among America's Teachers*, said, "There is no greater honor teachers can receive than to be recognized by former students for their excellence and dedication. In this publication we clearly have the best teachers in America selected by the best students."

The students were requested to nominate teachers who "made a difference in their lives" by helping to shape their values, inspiring interest in a particular subject and/or challenging them to strive for excellence. Many of the students commented about the enthusiasm and knowledge their teachers demonstrated in the classroom, and many praised their teachers for their ability to relate to youngsters on a personal as well as a professional level.

Local educators honored in *Who's Who Among America's Teachers*, 1992, include Rodney Bennett, Munday Band Director, and Leona Partridge, Elementary sixth grade teacher.

**RAISING THE AMERICAN FLAG** as the band plays the National Anthem before each home football game this year have been Webelos and Cub Scouts. Doing the honors this past Friday were Chad Tibbets, Michael Josselet and Jeremy Lowe. Parents of these young men are Mark and Michelle Tibbets, Kyle and Melissa Josselet and Jerry and Judy Lowe.

## At Your Service

by Dr. Larry Fitzgerald  
Minister, Munday Church of Christ

Q: Should the Christian participate in Halloween?

A: Many of our holidays, including those with religious contexts, usually evolved from a pagan practice. Halloween is one such day. In Europe, children or adults would dress up in scary costumes to frighten away demons, monsters and witches.

Later, as Christianity spread, the holiday known as "All Saints Day" or "All Hallow's Day" was celebrated on November 1. ("Hallow" means "holy.") Thus, October 31st is "All Hallow's Eve" or "Halloween." Observance of "holy days" is forbidden by the New Testament (Col. 2:16; Gal. 4:9-11).

The original motivation of Halloween (driving away evil spirits) is certainly a noble notion even though one would quarrel with its effectiveness. The Bible clearly reveals that a Christian does not need elaborate ceremonies to defeat Satan's helpers because the Holy Spirit is in every Christian (1 Corinthians 3:16; Galatians 4:6; Ephesians 2:20-22; Galatians 5:22-23, etc.). A Christian simply must demand that such an evil being depart and that being will do so (compare with Acts 19:11-20).

I know of no one, today, who dresses up on Halloween for the purpose of driving away demons or any other religious practice. If a person uses good taste in his/her costuming and does not attempt someone wrong or malicious, then it falls under the principle of conscience found in 1 Corinthians chs. 8-10... if it bothers your conscience or hurts a weak Christian... don't do it. If it doesn't bother your conscience... you're free to participate.

If you have a question for Larry, write him c/o Box 211, Munday, TX 76371.
