

HEADING FOR THE END ZONE is Aaron Kiser in Friday night's game against the Eagles at Holliday. The Moguls scored the first touchdown of the game at the beginning of the second quarter when Kiser scrambled 61 yards. Munday held on tough through the first half but the Eagles came on strong in the second to defeat the Moguls 34 to 6.

Revival Begins Saturday At First Baptist Church

A series of revival meetings featuring Miller Robinson and Mark Tolar will begin at First Baptist Church in Munday on Saturday, September 18 at 7 p.m. The revival will continue through Thursday, September 23.

Services will be held each evening at 7 p.m. Sunday morning services will be at 9:45 a.m. There will be a covered dish lunch Monday through Thursday at noon. The noon services will let out in plenty of time for workers to be back at their jobs by 1:00 p.m.

Saturday night will be a casual "get acquainted" night. There will be a dessert fellowship after the service.

On Sunday night, all teenagers of the community are invited to the church at 6:00 p.m. for free pizza. The service on Sunday evening will focus on youth and their needs. All ages are welcome.

Monday night's service will begin with a hot dog supper for grade school children at 6:00 p.m. Children are encouraged to bring their friends, and to have their parents join them for the 7:00 p.m. service.

Rev. Miller Robinson will be the guest preacher for the revival meetings. Miller has been pastor of the Colonial Hill Baptist Church in Snyder since 1964. He is a graduate of Baylor University and

Southwestern Baptist Theological Seminary.

Miller has served as an Executive Board Member of the Baptist General Convention of Texas and is a member of the State Missions Commission for Texas Baptists. He has also served or is serving on the board of several Baptist hospitals and universities. He is a well loved speaker in West Texas, with a humorous, down to earth style.

The Colonial Hill Baptist Church in Snyder has 1,200 members. It was organized in 1954 and has had only two pastors in its history. The church contributes 23% of all tithes and offerings to the Cooperative Program of supporting Southern Baptist Missions. The church ranks in the top 100 churches in Texas in per capita gifts and total gifts to the Cooperative Program. It is the fastest growing church in the Mitchell-Scurry Baptist Association.

Mark Tolar, Minister of Music at Pioneer Drive Baptist Church in Abilene will be the music leader. He has a beautiful tenor voice, and will lead the revival choir in a special each evening. Mark directs the 120 voice choir at the Abilene church. He is the director of the annual "Jesus" Easter pageant held in the Abilene Civic Center.

People of all faiths are invited to attend any of the services. A nursery for children through age three will be provided for all services. Transportation is available by calling 422-4559 or 422-4473.

4-H To Offer Quilt Class

A 4-H Quilt Class will be offered on Saturday, October 2, 1993 beginning at 9:00 a.m. at the Knox City Community Center. Participants will make a "rail fence" quilt top.

Anyone interested in participating must pre-register by Friday, September 24 by calling Brenda Lamed (658-5163) or Jane Rowan (454-2651). A list of supplies will be made available to those signing up.

Requirements for the class are that participants be able to run a sewing machine and sew a straight stitch. You must also provide your own sewing machine for the workshop.

More information may be obtained by calling the above numbers.

Brisket On The Menu For Friday Night's Supper

The Munday FFA Chapter will sponsor a brisket supper from 5:30 to 7:30 p.m. Friday, September 17, at the high school cafeteria.

Also on the menu will be beans, potato salad, dessert and drinks. Tickets may be purchased from any FFA member or at the door.

After you eat your fill of brisket, be sure and attend the exciting football action across the street against the Throckmorton Greyhounds. Kickoff is at 8 p.m.

KTXS Reaches Agreement With Harmon Cable

Harmon Cable announced that agreement has been made with broadcaster KTXS of Abilene. The cable systems serving Stamford, Haskell, Munday and Rule will continue their carriage of KTXS, an ABC affiliate. Harmon Cable has reached agreement with stations carrying all three major networks.

Under new rules governed by the Cable Consumer Protection and Competition Act of 1992, local broadcasters have the right to deny carriage of their signal on cable systems after October 6, 1993. KTXS, along with other local television systems, agreed not to ask for cash payments in return for continued coverage.

Meanwhile the cable company continues its discussions with KFDX and KJTL in hopes to receive permission of carriage by the October 6 deadline.

Heat Unit Formula Charts Progress Of Cotton Crops

The Texas A&M Vegetable Research Station said the degree-day (DD-60s) is one of the most useful ways to assess cotton development. The formula involves adding the maximum and minimum temperatures for each day, dividing by two and subtracting 60.

Stage of Development	Average DD60s Required
Plant to emergence	60
Plant to 1st square	480
Plant to 1st bloom	900
Plant to peak bloom	1600
Plant to 1st open boll	1900
Plant to 70 percent open boll	2500
Degree days for June 14 through September 12: 2304.5	Degree days for September 6 through September 12: 123.5

Munday Defeated By Holliday, Will Host Throckmorton Friday

The Munday Moguls traveled to Holliday this past Friday night for a first half brawl and was outmanned in the second.

Neither Munday or Holliday could get anything started on offense the first quarter. The defenses for both sides held the offenses for a combined total of less than 25 yards.

Then in the second Munday started out with a touchdown that took only two plays but over 77 yards. First Dustin Kiser hit Chris Torres on a pass for a 16 yard gain. Aaron Kiser gladly took the ball next by running around the right side, breaking a few tackles and sprinting 61 yards for the touchdown. The extra point was blocked.

The Eagles started fighting back on offense but couldn't get any further than the Mogul 38 until a 12 yard punt by Munday went out of bounds at the 35.

It took Holliday one play with 16 seconds left in the half to cover

the 35 yards. Quarterback Cory McClendon hit David Twilligear on a short pass. Twilligear then scampered in for the touchdown. Twilligear kicked the extra point. The Eagles then went on top 7 to 6.

The second half was all Eagles. The Mogul offense couldn't get the ball rollin'.

Holliday had one scoring drive in the third quarter which covered 63 yards on 11 plays. David Twilligear ran in from 9 yards out to put the Eagles up 13 to 6. The extra point was no good.

David Twilligear scored once again early in the fourth on a 57 yard drive in 9 plays from 1 yard out. Cory McClendon kicked the extra point.

Cory McClendon scored next by taking notes from Aaron Kiser. McClendon dodged and then darted 64 yards with 7:14 left in the game. Twilligear kicked the extra point.

The final touchdown for the Eagles came from Ross James on a 11 play 44 yard drive. James ran in from 3 yards out with :09 seconds left. Blake Belcher kicked the extra point. The final score was Holliday 34, Munday 6.

The Moguls will host the Throckmorton Greyhounds this Friday night here at Munday. Kick-off time will be at 8:00 p.m.

The Greyhounds will be the only Class A team Munday will face in pre-season play. Throckmorton won last year's fight to the finish in Throckmorton. The Greyhounds will be coming to Mogul territory for the 1993 bout.

COACH'S COMMENTS

We put on some things which Holliday had never seen and I think we surprised them a little bit and we were able to take advantage of it. They made adjustments at the half and decided to physically line-up and beat us. They did it and wore us down.

We tried to play a whole bunch of people and I was real pleased with some of the guys who came in. We had some that really contributed and I think they will be real helpful to us in the future.

Offensively we made some mistakes which made us have to turn the ball back over to them. They were pretty crucial at times.

Defensively we had a few mistakes at some crucial times, but over all I was real pleased with their performance.

The Throckmorton game should be a very competitive game. They probably have about the same number of kids we do so they won't be able to wear us down in the fourth quarter.

Open Community Meeting Set For September 21

Approximately one year ago, the City of Munday and Chamber of Commerce started a community planning process with the Texas Department of Commerce called the Economic Development Base Analysis (EDBA).

A multi-page questionnaire on Munday and its resources and needs was filled out by community leaders. The Department of Commerce analyzed the information and presented suggestions for development projects for Munday.

An open community meeting will be held at 6:30 p.m. Tuesday, September 21, in the high school cafeteria, for anyone who would like to hear the results of the questionnaire. All those attending will be given the opportunity to present project ideas for development in six areas: business recruitment, community development, tourism, existing business development, new business development, and downtown revitalization.

This meeting is your opportunity to help shape the future of Munday. Everyone is encouraged to attend.

Sell Your Wares At Munday's 4th Annual Craft Show

The Fourth Annual Arts and Crafts Show sponsored by the Munday Chamber of Commerce will be held October 2 in the Munday Elementary gym.

Booth space is filling up fast, so those that want to sell their wares need to call the chairman, Mary Cartwright, co-chairman Ann Therwanger, or the Chamber office to make sure you get a space. The cost is \$20 and includes a table and chair.

A wide variety of crafts will be on display this year: hand crafted German miniature trains, quilt tops, oil painted saw blades, gifts for teachers, western clothing, original artwork, dolls, t-shirts, and lots more! This is a great opportunity to do some early Christmas shopping!

Long-Distance "817" Calls Must Use All Ten Digits

Beginning October 15, 1993, all long-distance telephone calls placed within the "817" area code should be dialed 1 + 817 + the number, or 0 + 817 + the number, even though the long-distance call is placed within the 817 area code will still be placed correctly until January 19, 1994, when all long-distance calls within the 817 area code must include "817". However, callers are encouraged to begin dialing "817" beginning October 15.

In the past, customers who called long distance within the 512 area code didn't have to dial 817. But with the increased demand for more telephone numbers due to cellular phones, computer modems, facsimile machines and data transmission lines, telephone companies were close to running out of available telephone numbers in the 817 area code.

By dialing the area code for all long-distance calls, it allows telephone companies to assign a series of phone numbers that telephone equipment previously recognized as area codes. These new phone numbers will have prefixes (the first three numbers of the seven-digit phone number) that, previously, telephone companies couldn't use because the equipment didn't recognize them.

The new prefixes will have a "0" or "1" as the middle number. This dialing change may affect

Golf Scramble Is Scheduled For Sunday

There will be a golf scramble at Lake Creek Golf Club on Sunday, September 19. Please be there by 1:15 to register so play may begin at the 1:30 p.m. tee-off time.

programmed features such as Speed Calling or Call Forwarding, and some telecommunications equipment such as coin-operated phones and PABXs may need to be reprogrammed.

As one of GTE Telephone Operations four operating areas, GTE Central Area -- headquartered in Irving, Texas, -- serves 2.5 million customer access lines in 13 states: Arizona, Arkansas, Iowa, Kansas, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas and Utah.

Girl Scouts To Hold Registration September 20

Registration for all levels of Girl Scouts will take place Monday, September 20 at 7 p.m. at the Perry Patton Community Center.

Kindergarten girls are eligible for Daisies. Grades one through three are eligible for Brownies. Juniors are grades four through six and Cadettes are grades seven through nine. Senior Girl Scouts are tenth through twelfth grades.

Activities include troop meetings, campouts, troop trips, service projects and cookie sales. For more information or to register call Lynn Fitzgerald at 422-4540 or 422-4691.

Upcoming events include: Cadette and Senior Historical Tour on October 2, Daisy and Brownie Beary Fun Day on October 2, Junior Growing Together on October 9 and a special holiday celebration on December 7.

Daylight saving time was first adopted by the U.S. during World War I.

Junior High Defeats Holliday In Season Opener Thursday

The Mogul Junior High football
team started out on the right foot
Thursday evening when the visit-
ing Holliday Eagles came to Mog-
ul land.

The clock had barely started
running when PeeWee Reagins
took the pigskin across the goal
line for the first touchdown of the
season. Two more touchdowns and
a two-point conversion followed
in the first half, putting the Mog-
uls way ahead 20-0.

Each team member got in on the
action in the second half.

The game ended with a final
score of 26-0. Next week's game
will be at Throckmorton on Thurs-
day, September 16, at 6 p.m.

FROM A CARPENTER'S SON

Don Wetsell- Pastor
First United Methodist Church, Munday-Goree

Is it just me, or are there an
awful lot of shows on lately that
feature people with new identifi-
ties, or starting over in brand new
lives? It's a very common scenar-
io. The person moves to a new
town, takes on a new career direc-
tion, maybe a new family and
sometimes even a new name!

In the new town, usually they
don't know anyone, so nobody

September 28 Is Law Enforcement Appreciation Day

Members of the Texas House of
Representatives and Senate from
the Northwest Texas area will
honor all Law Enforcement Per-
sonnel in the 48 counties with
Law Enforcement Appreciation
Day in Snyder on September 28.

In making the announcement of
the special day, State Representa-
tive David Counts, Democrat of
Knox City, stated, "We are blessed
with the very best law enforce-
ment people in the State and we
want to do our best to show our
appreciation and gratitude for the
work this fine group does for the
people in our districts."

The appreciation day banquet
will get under way at 6:00 p.m. at
the Scurry County Coliseum. All
Northwest Texas area law enforce-
ment officers, their spouses and
staff are invited to take part in this
event.

Speaker for the evening will be
Col. James R. Wilson, Director
Texas Department of Public
Safety. Entertainment will include
a patriotic skit and a country and
western band.

remembers what they were like in
high school, when they had braces
and wore thick rimmed glasses.
They get a chance that many of us
long for - to start fresh in a brand
new life.

I remember when I went to col-
lege, how great it was to be on
even footing with all the incoming
freshmen. Nobody there knew or
cared what I used to look like or
knew of any of my past disasters.
They were only concerned about
the present me.

Many of us long for a chance to
start over at different times in our
lives. We want to wipe the slate
clean of all our past mistakes and
failures and start fresh with noth-
ing holding us back.

The most uplifting message of
the Bible is that you can start over
--- by asking God to forgive you
for your past and believing that he
can because of what Jesus did on
the cross. If you really want a
second chance at life, I urge you to
find that chance in Jesus, and if
you're not sure how to go about it
you can talk to any of us preachers
here in town. We'll be glad to
share with you what we have
found.

I believe in second chances. I
believe that God is a God of for-
giveness and love, and as long as
you have breath, it's never too late
to change if you really want to.

Thompson Serving As County Chairman For Rehab Round-Up

Larry Thompson of Munday will
be serving as Knox County vol-
unteer chairman for the 34th an-
nual Cattlemen's Round-Up for
Rehab and giving West Texas Re-
habilitation Center a helping hand.

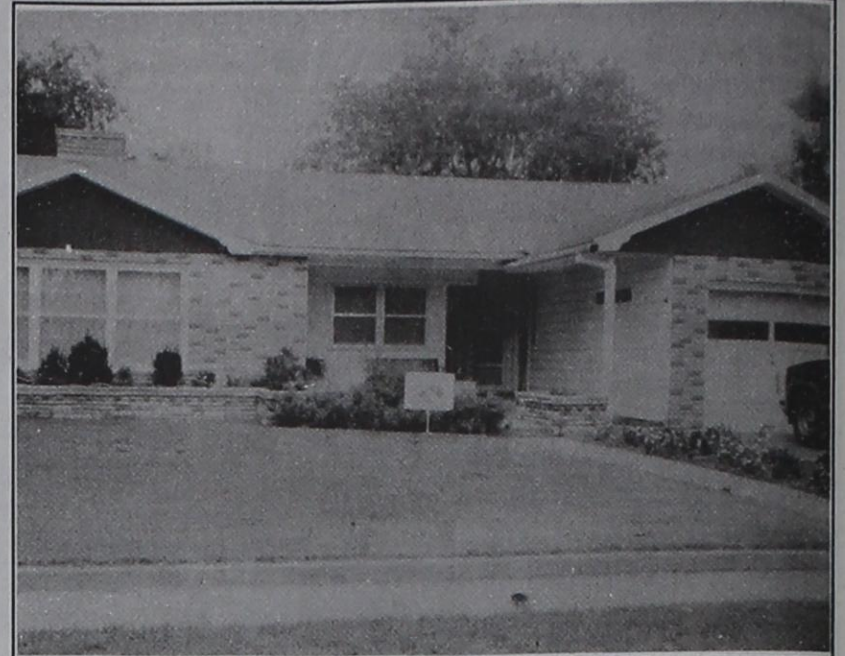

Thompson will be asking neigh-
bors in the area to donate livestock
to be sold at a series of special
auctions during September and
October.

"Every day West Texas Reha-
bilitation Center treats more than
600 of our friends and neighbors;
donating one or more animals is a
good way to help the Rehab Cen-
ter provide this care," said James
Alexander, CRR general chair-
man.

The proceeds from these sales
help WTRC provide out-patient
rehabilitation services, through
facilities in Abilene and San
Angelo, to more than 13,000 chil-
dren and adults with disabilities.

Now in its fortieth year of op-
eration, West Texas Rehabilita-
tion Center has always provided
its services to individuals without
regard for age, race, origin or fi-
nancial circumstances.

Not only is the Cattlemen's
Round-Up for Rehab the Center's
oldest annual fund-raising event,
it captures the neighbor helping
neighbor spirit.

THIS IS A VERY ATTRACTIVE lawn at 231 South 7th. The red fall
amarillas, periwinkles and other flowers offset the neatly trimmed
grass and shrubs. Tince and Cordell Offutt are recipients of the Yard of
the Week honor.

Benjamin News

By Mrs Gladene Green

Doris Golden Dies In Ft. Worth

Word was received here on Sunday of the death of Doris Golden of Fort Worth. Doris was the wife of former Benjamin resident, Bobby D. Golden. Funeral services were held Wednesday at 2 p.m. at the First Baptist Church in Benjamin with burial in the Benjamin Cemetery.

We extend sympathy to Doris' family.

Here And There

Junior high began their football season on Thursday night and ended with a tied ballgame.

Henry Rogers and his son, Wesley, of Haskell were in Scurry, Texas on Labor Day for the funeral of his great-niece.

Willa Cunningham of Electra visited her mom, Ozell Kilgore, and Galen on Labor Day.

Enjoying the last long weekend of the summer here with her family, the Jack Whittens, was Christi Whitten, a student at NW Missouri University in Maryville.

Guy and Donna Spikes and family of Lubbock were Labor Day weekend guests of his parents, Bill and Dorothy.

Mr. and Mrs. Billy Jay Jennings of Markham visited Bud Conner recently.

Spending last weekend with Shirley and Stanton Brown and Shari were Calvin and Thelma Brown of Perryton.

Visiting Lou Leaverton during Labor Day weekend and getting in some dove hunting were Jerry Leaverton and family of Amarillo, Rick Leaverton and family of Denver, Colorado, Nick Leaverton and family of Pismo Beach, California, Nicki Sue Baker and family of Dallas, Roy and Janice Allsup of Archer City, Essie Mae Walters of Pampa, Bert and Judy Leaverton of Knox City, Bill Leaverton of Texas Tech and Lee Leaverton of South Plains College in Levelland.

Kayla Hacker of Knox City was an overnight guest of her grandmother, Mary Bohannon, and great-grandmother, Jonnie Williams, last Tuesday night.

Brett Glenn of Albuquerque, New Mexico, visited his grandmother, Nora Herter, and other relatives and friends Labor Day weekend.

Don and Louise Hertel visited their son, Craig, at Gainesville during the weekend.

David and Dana Golden of Burkburnett visited his grandmother, Lois Golden, during the weekend.

Recent guests of Hazel Stockton were her brother and sister-in-law, Sam and Clara Loper of Lubbock.

Visiting Rex and Maretha Patterson recently were Wanda Holland of Burkburnett and Colleen Patterson of Wichita Falls. They all attended the Vera homecoming during Labor Day weekend. Others from Benjamin attending the homecoming were Bobby and Philomae Roberson, Bill Rutledge, Earlene Meinzer and myself.

Kenneth and Jessie Roberts attended the funeral of his uncle in Clovis, New Mexico one day last week. They visited her brother in Hereford enroute to Clovis.

Coca-Cola Offers Scholarships For High School Seniors

Materials for the 1993-94 Coca-Cola Scholars Program are now available in over 19,000 high schools across the nation.

In this merit-based Program, high school seniors can compete for 50 four-year, \$20,000 scholarships and 100 four-year, \$4,000 scholarships, for study at any accredited U. S. college or university. Selection is based on leadership, achievement and commitment, both inside and outside the classroom.

More information and an application for this unique scholarship may be obtained from the scholarship coordinator at the local high school. The application deadline is in October 31.

CORRECTION

In last week's Knox County Profile on Mildred Bowden, I wrote that the White House was in Virginia . . . well we all know it's in Washington, D.C. Also, one line in the last paragraph accidentally slipped off the layout sheet. It should have read:

In speaking of her amazing flowers and paintings, she paused for a moment and softly said, "I didn't do it by myself. It takes you and God to do these things. I read in the Bible that *it's not he that waterith, it's God that gives the gain.* And I credit God with every stroke I put in these pictures, because I couldn't have done it without Him."

Summer Job Eventful For One Munday Mogul

It was brought to our attention that we have a hero in the senior class at Munday High School.

Jake Jordan, 17 year old son of Leon and Barbara Jordan of Munday, spent last summer working as a stocker at Walmart in Grand Prairie. One day while he was working at the very back of the store, they called over the loud speaker, "Jake up front! Get up front! Hurry, hurry to the front!" He thought he did something wrong!

He rushed to the front, and saw that several other employees had a

JAKE JORDAN

man in his mid 30's sitting down. They had caught him filling a shopping bag with cigarettes and heading out the door. Jake helped them keep an eye on the shoplifter while authorities were called.

At one point during the waiting, the man asked for a cigarette. While the unsuspecting employees were discussing where to get a light, he jumped up and made a run for it down the street. His freedom was short-lived, as his assailants took off after him. In a flash Jake passed the others and, using his talent as a Munday Mogul, tackled the older man. The fugitive's head struck a guard rail, almost knocking him out. *This one didn't get away!*

Walmart manager and personnel were very proud of Jake, and thought it was pretty courageous of him to tackle a grown man. We're proud of you too, Jake!

Birthdays & Anniversaries

Pathways

by Randy White, pastor First Baptist Church

Words spoken offer comfort to the soil. When we are hurting, suffering, or in need of courage, words can go a long way to comfort us.

Words in themselves do nothing to change the situation. After the words are spoken we still have the pain, discouragement, loss, or grief. Things are not any different, but things are better!

Better in that we know someone cares. Better in that we know someone else is at least trying to feel like we fell. Better in that we know there is hope. Better in that we can see a new side.

At a sick bed, I try to speak words of comfort. At a funeral, I try to speak words of comfort. If a person is having a spiritual problem, I try to speak words of comfort. The meaning of these words is really very shallow in the face of the tragedies and problems. However, without fail the Lord can take these words given for comfort and use them to accomplish their intended end.

Do you know someone who would benefit from hearing words of comfort today? You probably feel that your words are too trite in the situation they face, so perhaps you don't speak at all. Please take time out of today to speak to that person. Speak words that God will use to touch their heart and comfort their soul and encourage their mind.

"Lord, may the words of my mouth be comforting to someone else today, I pray. In Jesus Name, Amen."

Here's one way to picture the benefits of Good Cents.

Here's the flip side of the coin.

You probably know Good Cents energy efficiency keeps you comfortable and saves you money on your utility bills. Because Good Cents means you need less energy for heating and cooling. But Good Cents helps the environment, too.

Any way you look at it, it's a smart choice today, that can make a world of difference for tomorrow. Call the Good Cents People at WTU.

WEST TEXAS UTILITIES

GRADY WEAVER, a volunteer fireman of the Gore Volunteer Fire Department, recently attended the 63rd Annual Texas Firemen's Training School on the Texas A&M University campus. Weaver was sponsored by Knox County Farm Bureau and Texas Farm Bureau Insurance Companies by contributing toward the cost of the school. Charles Escobar of Knox City, president of the Knox County Farm Bureau board of directors, is pictured with the volunteer fireman.

Math-a-Thon To Raise Funds For Research

Seventh grade math students in Mrs. Susan Edwards class will be raising money for St. Jude's Children's Research Hospital. Beginning September 20, the students will participate in a nation-wide fund raising Math-A-Thon. Each student will be asking for pledges for the number of math problems they work. They will be able to work up to 200 math problems, which will be done on their own time. "I am glad that our students are participating in this worthwhile project. It goes to show that Munday students care about others. To be willing to work extra math problems, I would say that's a big sacrifice," stated Phil Hall, Munday High School principal. Money raised will go towards research for childhood cancer. Please help these students any way you can.

Old Band Hall Being Cleaned, Items For Sale

With the implementation of a new Head-Start program, Munday ISD must clean out the old band hall. "There is a lot of good forgotten items in the old band hall which might be of interest to the community," stated Phil Hall, high school principal. "We have a large surplus of yearbooks from the years 1974, 1976-1982 and 1984 which we will be selling for \$1.00 each. There are also lots of old trophies. The junior class will be cleaning them up and offering them for sale." If interested, contact Mr. Hall, Mr. Bennett, Mr. Moeller or Mrs. Welch. An auction will be held in October for all the old unused items belonging to the district.

Young Farmers Elect Officers For 1993-94

The Brazos Valley Young Farmers met on Tuesday, September 7, to elect officers for the 1993-94 year. Those elected include: president, Dale Bloxham; vice-president, Leon Sellers; secretary, Mark Reed; treasurer, George Oustad; advisor, Ricky Moeller; and reporter, Paul Weiser. After election of officers, the Young Farmers developed a yearly plan of programs and activities. The first of these will be a cotton defoliating program on October 5 at 8 p.m. in the Brazos Valley Young Farmers building in Munday. Chili will be served at this program. The other programs decided on include: November - wild oat control; December - Christmas party; January - Knox County stock show; February - plan farm equipment sale; March - conduct farm equipment sale; April - estate planning; May - farm safety; June - work night; July - family night at the lake; August - economic development or field trip; and September - election of officers. If interested in joining the Young Farmers please contact any of the newly elected officers or members. New memberships are always welcome at any of these programs. The Brazos Valley Young Farmers meet on the first Tuesday of every month at 8 p.m. in the Brazos Valley Young Farmers building in Munday.

Doris G. Golden To Be Buried In Benjamin Cemetery

Doris G. Golden, 69, died Saturday, September 11, 1993, in her home in Fort Worth. Services will be held Wednesday (today), September 15, at First Baptist Church in Benjamin with Rev. John Gillispie officiating. Burial will be in Benjamin Cemetery under the direction of Smith Funeral Home. Mrs. Golden was born May 20, 1924, in Cleburne. She married Bobby D. Golden October 2, 1968, in Weatherford. She was a Baptist and a homemaker. Survivors include her husband; three daughters, Jan Golden of Azle, and Judy Finstad and Becky Robinson, both of Fort Worth; two brothers, Loyd Bowden and L.H. Bowden, both of Cleburne; a sister, Frankie Baker of Cleburne; 10 grandchildren and 3 great-grandchildren.

Texas Wildlife Association Forecasts Average Hunting

There's good news and bad news about the upcoming 1993-94 fall and winter hunting seasons in Texas. The bad news is that, for most species, the hunting prospects will be about average, give or take a few points. The good news is that an "average" season for Texas hunters would probably give an out-of-state hunter a heart attack. This is because Texans have long been accustomed to an abundance of game and hunting opportunities, to the point that our "average" season would probably be considered "excellent" or even "phenomenal" in many other states. The Texas Wildlife Association is based in San Antonio, but consulted biologists in every region of the state to get a picture of the upcoming seasons. Rainfall, wildlife census counts, breeding ground surveys, browse conditions, offspring survival, landowner management, and other important factors jointly determine whether hunters will find wildlife abundant or sparse afield this season. Texas Wildlife Association president Wallace "Happy" Rogers says, "Many areas of Texas still need some rain, but good rains the first half of the year helped the habitat, and still promise pretty good hunting in most areas. Managing of white-tailed deer is changing, with LAMPS permits in East Texas and the Oak Prairie, and the new Deer Herd Management Permit just approved by the Commission. Landowners and hunters need to be aware of these new regulations." Rogers also commented, "Landowners leasing to hunters may want to investigate Hunting Lease Liability insurance, which protects property owners against claims arising from hunting operations. This insurance has been popular with TWA members who host hunters." Following are predictions for species throughout the state's ecological zones, including season dates and bag limits: MOURNING DOVES - season in the North zone is September 1 through November 9. Bag limit is 12 per day. Statewide prospects - Populations are about 23% above the 20-year average with good breeding conditions. Add this to an expected abundant food supply and you have the makings for an excellent season.

Add this to an expected abundant food supply and you have the makings for an excellent season.

The Trans-Pecos area whitetails continue to experience a decline in numbers, leading to a below average hunting forecast. MULE DEER - Archery season is October 1-31; general season is November 6 through January 2. However, many areas and even individual counties are different. Fourteen counties in South Texas will have a week-longer deer season. Consult the 1993-94 Hunting Guide for the county in which you expect to hunt. Bag limits vary from the norm of four deer with a limit of two bucks, to one buck only, to a maximum of five deer with a limit of three buck in fourteen counties of South Texas. Again, consult the Hunting Guide for your county. A slightly above average season is expected in the Oak Prairie and South Texas areas, and average in the Trinity-Brazos and Piney woods of East Texas. The Central, Cross Timbers, and Edwards Plateau regions should experience an above-average white-tailed season. Although a wetter-than-usual spring gave the deer a good start, the rains stopped in late June. This means that as the fawns are weaned they will be hard-pressed to find sustenance. There is no shortage of deer, with many areas still overpopulated. The Trans-Pecos area whitetails continue to experience a decline in numbers, leading to a below average hunting forecast. FINALLY EIGHTEEN!!

Early one morning in September of '75, We journeyed to Haskell for a real surprise! Expecting only one, we were in for a treat, Two babies instead of one were really kind of neat! Two of a kind, so precious to find, But two of a kind means double trouble! Fussin' and fightin' down thru the years, You've brought us joy along with some tears. You are both so special and make us very proud, So altogether now, we'll say it real loud... HAPPY BIRTHDAY! WE LOVE YOU! Mom, Dad, Granny, Kent, Cindy, Justin & Kalee

By Jane Rowan, County Extension Agent

The Love Of Reading Can Begin At Home

Reading can be taught at schools, but children learn the love of reading at home.

Parents play an important part in teaching their children to love reading. By setting aside 15 minutes a day from their busy schedules to share a reading experience with their child, parents provide a skill that is necessary for success in life -- reading.

Here are some practical techniques for sharing books with children:

- * Set the example. Children learn by watching those around them. If reading is important to you, it will be more important to your child.

- * Explore life together. Creating new experiences for children provides background for reading.

By enhancing the child's observation skills, you build a rich background the child can use when reading. This background will allow reading to become more meaningful.

- * Choose a time and place. Find a special time and place to read to your children.

- * Select appropriate books. Select books based on the child's age and interest. Young children enjoy nursery rhymes, tales about animals, and stories about familiar objects. As your child grows, expand the types of books to include both educational and fun topics. Fairy tales, folklore and stories about real life can be shared. Regardless of how well you read, or the language you speak, share stories. By selecting picture books, stories can be created. Books that

come with a cassette tape can be listened to together.

- * Share books. Sharing a book is more than just reading. Look at the cover together. Talk about the title, make predictions about what might happen, and notice details in the pictures. Read for enjoyment. Both you and your child will enjoy using expressions in your voices to show emotion or change in characters. Talk about how the story relates to your child's life.

- * Extend the reading experience. Attend a play or community event that relates to a book. Visit the library. Establish for the child a library of their own. Find other ways to relate life to reading.

By sharing time and reading with children, a parent can nurture the love of reading.

Expect New Food Labels By May 1, 1994

Consumers concerned about nutritional information of all purchased foods can rest easy. By May, 1994, expect most packaged or processed foods to have new, easy to read food labels. Fresh foods as well will have a form of labeling. The labels can be one of the best tools to help consumers choose a healthful diet that fits with the recommendations of the dietary guidelines. Labeling is regulated by FDA and can help take the guess work out of grocery shopping. Now all your decisions can be informed ones when buying foods.

Deer range in size from the moose, which may be seven feet high at the shoulder, to the kudu of South America, just 12 inches high.

Notice of Effective Tax Rate

1993 Property Tax Rates in Munday ISD

This notice concerns 1993 property tax rates for Munday ISD. It presents information about three tax rates. Last year's tax rate is the actual rate the school district used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the school district can set before it must hold a rollback election. In each case these rates are found by dividing the total amount of taxes and state funds by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$ 30,328.57
Last year's debt taxes	\$ 91,147.70
Last year's total taxes	\$ 121,530.27
Last year's tax base	\$ 32,010,917
Last year's total tax rate	\$ 4000 / \$100

This year's effective tax rate:	
Last year's adjusted taxes (after subtracting taxes on lost property)	\$ 127,707.43
+ This year's adjusted tax base (after subtracting value of new property)	\$ 31,829,838
= This year's effective tax rate	\$ 4012 / \$100
x 1.03 = maximum rate unless the school district publishes notices and holds hearing	\$ 4132 / \$100

This year's rollback tax rate:	
School maintenance and operations component	\$ 390,741
+ This year's tax base	\$ 31,949,618
= This year's local maintenance and operating rate	\$ 1.22 / \$100
+ \$.06 = this year's maximum operating rate	\$ 1.28 / \$100
+ This year's debt rate	\$.40 / \$100
= This year's rollback rate	\$ 1.68 / \$100

MUNDAY ISD

SCHEDULE A: Unencumbered Fund Balances

The following estimated balances will be left in the unit's property tax accounts at the end of the fiscal year. These balances are not encumbered by a corresponding debt obligation.

Type of Property Tax Fund	Balance
Maintenance & Operations	\$1,057,163

SCHEDULE B: 1993 Debt Service

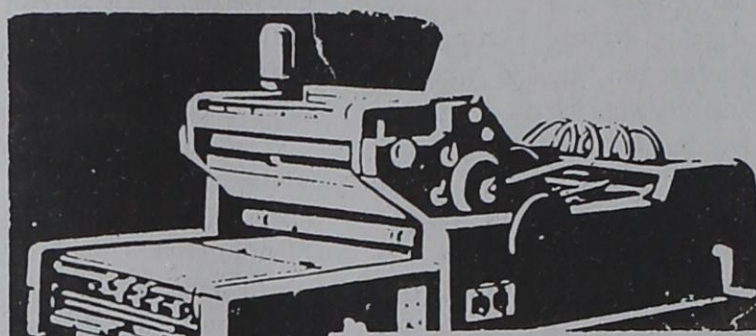

The unit plans to pay the following amounts for long-term debts that are secured by property taxes. These amounts will be paid from property tax revenues (or additional sales tax revenues, if applicable).

Description of Debt	Principal or Contract Payment to be Paid from Property Taxes	Interest to be Paid from Property Taxes	Other Amounts to be Paid	Total Payment
BONDS	\$70,000	\$52,327	\$1,761	\$124,088
Total required for 1993 debt service			\$ 124,088	
- Amount (if any) paid from funds listed in Schedule A			\$ -0-	
- Excess collections last year			\$ -0-	
= Total to be paid from taxes in 1993			\$ 124,088	
+ Amount added in anticipation that the unit will collect only 95.14% of its taxes in 1993			\$ 6,338	
= Total Debt Levy			\$ 130,426	

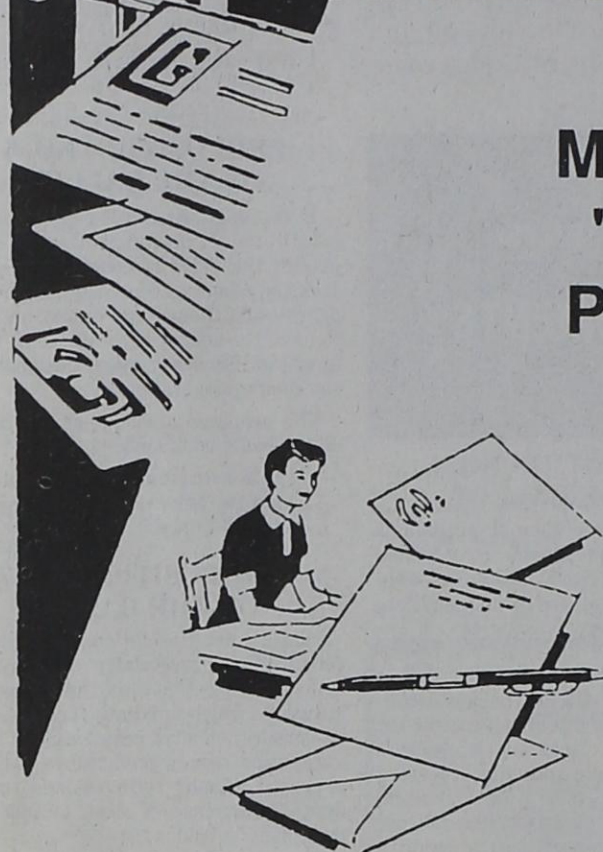

This notice contains a summary of actual effective and rollback tax rate calculations. You can inspect a copy of the full calculations at Knox County Appraisal District, Benjamin, Texas.

You Can Still Work And Get Social Security

Social Security estimates that nearly 140,000 people will file for retirement benefits in September. But many of them will not be 'retirees' in the true sense of the word because they'll keep on working. They also will receive Social Security checks.

If you are 62 years of age or older, you can continue to work and still get all of your Social Security benefits as long as your earnings don't exceed certain limits. If you earn more than the limit, your Social Security check will be reduced.

If you are under age 70 and continue to work, you must contact the Social Security office and give an estimate of earnings for the year if you expect to earn more than the annual limit.

And by April 15, you must let the Social Security office know how much you earned in the previous year if you received some Social Security benefits. You will be sent an annual earnings report form that you must file in addition to your Federal income tax return.

These types of income do not count toward the earnings limits: investment and interest income, Veterans or other government benefits, annuities, capital gains, gifts or inheritances, rental income, income from trust funds, moving expenses, travel expenses, and jury duty pay.

If you have any questions about receiving Social Security benefits while continuing to work, contact your nearest Social Security office. You also may call Social Security's toll-free number, 1-800-772-1213.

Some insects can see infrared light rays and most insects can see ultraviolet light -- both invisible to man.

Results Of Center Pivot Evaluations

This year fifteen center pivot irrigation systems were evaluated in the Seymour Aquifer Project area. The results from these evaluations showed an average application efficiency of 80 percent. The application efficiency compares the amount of water pumped through the system to the amount of water reaching the ground.

The pattern efficiency of the systems tested this year were 67 percent. The pattern efficiency compares the lowest average amount of water on one-fourth of the field to the average amount of water applied to the field.

The system efficiency of the center pivots tested this irrigation season averaged 54 percent. The system efficiency compares the amount of water pumped through the system to the lowest average amount of water applied to one-fourth of the field.

On the systems tested this year, the average gallons per minute was 571 for a quarter-mile system.

Three low energy precision application (LEPA) systems were evaluated this year. The LEPA systems had an application efficiency of 98 percent. These systems were about 20 percent more efficient in getting the irrigation water to the crop. If your system is applying 500 gallons per minute you can probably supply the same amount of water to the crop with 400 gallons per minute by converting the center pivot to LEPA.

For more information on irrigation efficiency testing call the Seymour Aquifer Project office at (817) 864-3334.

Munday School Lunchroom Menu

September 20 - September 24
Breakfast

Monday - Cereal, Toast, Juice, Milk

Tuesday - Cinnamon Toast, Juice, Milk

Wednesday - Toast, Jelly, Juice, Milk

Thursday - Sausage, Blueberry Muffin, Juice, Milk

Wednesday - Pigs in Blanket, Blackeyed Peas, Lettuce, Cake, Milk

Thursday - Chalupas, Corn, Cookies, Peaches, Milk

Friday - Hamburger, Bun, Trim-mings, Potatoes, Fruit, Milk

Most hot springs result from water passing through or near recently formed, hot igneous rock.

Eula Eighth Grader Named Sweetheart Of Riding Club

Mandy Malone was voted 1993 Sweetheart of the Callahan County Riding Club. The parade group has won many first place trophies and awards this year. She serves on the Junior Board of Directors of the club, and is a member of the American Junior Rodeo Association.

Mandy is an eighth grader at Eula Junior High, and has served as president of her class for the second year in a row. She is active in sports, and has been a cheerleader for the past two years. She was inducted into the National Junior Honor Society.

She is a member of Southern Hills Baptist Church of Abilene.

Mandy is the daughter of Edwinia Malone of Eula. She is the granddaughter of Barney and Edna Haynes of Abilene and Eula, and the great-granddaughter of Edward Alexander of Weinert.

President Woodrow Wilson did not go to school until he was 13.

At Your Service Dr. Larry Fitzgerald Minister, Church of Christ

Q: What does the term "saint" mean?

A: There are several terms from the Hebrew Old Testament and the Greek New Testament, which are translated as "saint" in our English Bibles. In the Old Testament, the terms refer to people who love God with an intense steadfast love (Hebrew: *chesed*) or they are holy and separate from people who do not worship God

(Hebrew: *hasid* or *kadosh*). They are people who dedicate their lives to God (Greek: *hagios*) and therefore live lives dedicated to God. In the New Testament, the term refers to all Christians, not to a certain class of Christians (see Ephesians 5:3; Philippians 1:2). Therefore, all Christians are saints . . . who love and worship and are dedicated to God.

The term can also refer to God's messengers - the angels (Daniel 8:13; Jude 14, KJV).

Therefore, it is inappropriate to refer to someone as "Saint Paul" or "Saint Peter" except in the sense that these men were Christians like every other Christian.

If you have a question for this column, write Larry c/o Box 211, Munday, TX 76371.

Butterflies and locusts can fly continuously for well over 100 miles on the food energy stored in their bodies.

Notice of Effective Tax Rate 1993 Property Tax Rates in Goree ISD

This notice concerns 1993 property tax rates for Goree ISD. It presents information about three tax rates. Last year's tax rate is the actual rate the school district used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the school district can set before it must hold a rollback election. In each case these rates are found by dividing the total amount of taxes and state funds by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$ 44,468.33
Last year's debt taxes	\$ -0-
Last year's total taxes	\$ 44,468.33
Last year's tax base	\$ 12,352,315
Last year's total tax rate	\$.36 / \$100
This year's effective tax rate:	
Last year's adjusted taxes (after subtracting taxes on lost property)	\$ 44,181.01
+ This year's adjusted tax base (after subtracting value of new property)	\$ 11,887,078
= This year's effective tax rate	\$.3716 / \$100
x 1.03 = maximum rate unless the school district publishes notices and holds hearing	\$.3827 / \$100
This year's rollback tax rate:	
School maintenance and operations component	\$ 159,754.74
+ This year's tax base	\$ 11,887,078
= This year's local maintenance and operating rate	\$ 1.34 / \$100
+ \$.06 = this year's maximum operating rate	\$ 1.40 / \$100
+ This year's debt rate	\$ -0- / \$100
= This year's rollback rate	\$ 1.40 / \$100

SCHEDULE A: Unencumbered Fund Balances

The following estimated balances will be left in the unit's property tax accounts at the end of the fiscal year. These balances are not encumbered by a corresponding debt obligation.

Type of Property Tax Fund	Balance
Maintenance & Operations	\$575,000

This entity, GOREE ISD, does not have a debt secured by property taxes.

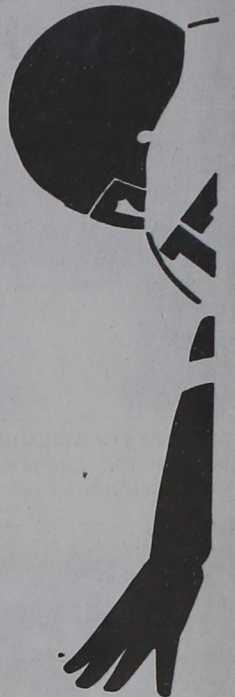

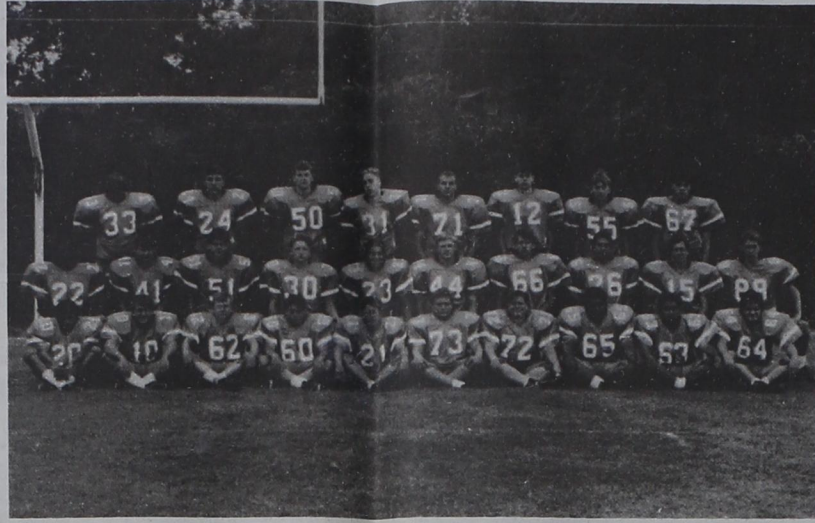

SCHEDULE B: 1993 Debt Service

The unit plans to pay the following amounts for long-term debts that are secured by property taxes. These amounts will be paid from property tax revenues (or additional sales tax revenues, if applicable).

Description of Debt	Principal or Contract Payment to be Paid from Property Taxes	Interest to be Paid from Property Taxes	Other Amounts to be Paid	Total Payment
Total required for 1993 debt service	\$	\$	\$	\$
- Amount (if any) paid from funds listed in Schedule A	\$	\$	\$	\$
- Excess collections last year	\$	\$	\$	\$
= Total to be paid from taxes in 1993	\$	\$	\$	\$
+ Amount added in anticipation that the unit will collect only _____% of its taxes in 1993	\$	\$	\$	\$
= Total Debt Levy	\$	\$	\$	\$

This notice contains a summary of actual effective and rollback tax rate calculations. You can inspect a copy of the full calculations at Knox County Appraisal District, Benjamin, Texas.

"On A Wizer Note"

By Paul Weiser,
Knox County Extension Agent - Agriculture

It's getting close to cotton harvest time here in the Rolling Plains of Texas. This harvest will be a bit more challenging due to EPA's cancellation of arsenic acid's harvest-aid registration.

Currently there are no "one-for-one" replacements for arsenic acid. However, there are some tank mixes which have been found to work very well. These mixes have been studied by researchers in Texas, Arkansas, Georgia, and Mississippi.

Some of these mixes include: Quick Pick and Dropp; Quick Pick and Paraquat; Quick Pick and Def/Folex; Quick Pick and Prep; Drop and Prep; Harvade and Prep; Harvade and Def (this mixture works really well for heavy weed infested fields).

The main point which Texas A&M researchers stress is that all plant parts which may easily be removed during harvest - burrs, leaves, stems, etc... need to be below 12% moisture.

A second concern is whether the chemical will suppress regrowth. Rate of regrowth has a lot to do with available moisture and nitrogen. A relatively mild desiccant may dry out the leaves but will not control regrowth. Often, the destruction of leaf tissue and accelerated boll openings stimulates new growth development if water and nitrogen are adequate.

Here is a four point program, suggested by Texas A&M researchers, for planning 1993 crop termination.

1. Budget for two harvest-aid applications. Use a defoliant or a combination of defoliants to shed

leaves and suppress regrowth.

2. Delay the initial treatment until 70-80% of the bolls are open.

3. Treat only enough acreage to assure steady harvesting.

4. Stripper modifications may be helpful due to greener foliage. Space the stripper rolls as widely as practical, use narrow bats, eliminate all of some of the bats, or using different types of brushes may be worthy of consideration. Some tips from Mississippi include:

- Avoid buying harvest aid chemicals in April or May,
- Select the right product for the individual situation,
- Explore with tank mixes,
- Control weeds,
- Timing of application is critical for high yields and top quality,
- Watch the weather, and
- Look beyond the familiar -- consider new uses for familiar products.

The August/September issue of Cotton Farming Magazine has two articles relating to this topic. Some of the information is from outside of Texas and may not be suitable for the Rolling Plains.

For more information, or if there are any questions, please feel free to contact the Knox County Extension office in Benjamin at 454-2651.

Noah Project To Hold Golf Tournament

The Noah Project North is having a golf tournament in Knox City, Saturday, September 25 at 1:00 p.m. It is a four man scramble, A, B, C, D, and the fee is \$20 per person.

There will be food and prizes. Please call (817) 658-3911 or 658-3313 to register.

The lifespan of insects ranges from a few days or hours for adult mayflies to 50 years or more for some queen termites.

WANDA PHIPPS

Wanda Phipps To Be Honored At Open House

Wanda Phipps, a 37 year veteran of Knox County Agricultural Stabilization and Conservation Service (ASCS), is retiring effective September 30. An open house is planned in the ASCS office on Friday, September 17, from 1 to 5 p.m. in her honor.

Mrs. Phipps began work in September, 1956, following graduation from Benjamin High School. She was planimeter operator for Jesse Gilpin. She has since worked in most all departments of the office including compliance, counter, conservation, production adjustment and automation. Currently she is the technical authority in compliance and production adjustment and is responsible for all automation (computer) activities in the county office.

Wanda has survived three office managers - Jesse T. Gilpin, Jerry May and John Rector.

She is married to Leonard Phipps, retired employee of Oxy Oil Company, presently serving as county commissioner for Precinct 1 in Knox County.

Wanda will be greatly missed by her fellow employees and producers in the county with whom she has worked for so many years.

Rochester Homecoming October 15-16

Make plans now to attend the Rochester homecoming on Friday and Saturday, October 15-16. Activities will begin on Friday at 5 p.m. with a downtown musical, a meal at 6 p.m. followed by a pep rally, bonfire, and a dance.

Registration for Rochester exes begins at 8 a.m. in the school cafeteria. Other activities are planned. Sandwiches, drinks and desserts will be available in the cafeteria at noon, sold by the seniors.

At 1:00 p.m. the Homecoming program will begin. Rochester will play Rule in the homecoming football game at 3:30.

A catered meal will be served after the game, with class parties to follow. A dance at 9 p.m. will conclude the evening.

Birthdays & Anniversaries

- September 15 - Elaine Gully, Gerard Kuchler.
- September 16 - Angie Stone, Barbara Zeissel, Dean Allen Andres II, Jan Wilson, Meagan Kimbrough, Melissa and Michele Berryhill.
- September 17 - Eric Beaty, Linda Jackson.
- September 18 - Brittany Waggoner.
- September 19 - Angie Gass, Brandi Matthews, Chris Meers, Curt Groves, Lori Clem, Pam Reed.
- September 21 - Dorothy Lee Howry, Melton Morgan, Tony Shahan.

Mr. and Mrs. Charles Yeager and Steven Ray Yeager of Vega visited Mr. and Mrs. Leonard Welch and others.

Watch Where You Step, Rattlesnakes Are Out

Snakes have always had a bad reputation. Even though the vast majority of snakes are not poisonous, the ones which are poisonous are limited to pit vipers.

The pit viper includes rattlesnakes, copperheads, and cottonmouth moccasins, the rattlesnake being by far the most common in this area. The diamond back reaches a length of 8 ft. and a weight of 30 lbs. All of the pit vipers are characterized by a pit beneath the eyes on each side of the nostril. Their long, erectile fangs are used to puncture the victim's skin.

Several Knox County residents have seen rattlesnakes in their yards, on the highway and at their farms. With dove season upon us, it is important to watch for these creepy crawlers.

If you or someone you're with is bitten by a poisonous snake, here are some steps to remember:

- Get the victim away from the snake! There is no reason to think the snake won't strike again.
- Apply a wide constricting band approximately 4 to 5 inches above the bite, but not too tight. You should be able to pass your index finger between the constricting band and the skin. Do not release the band once it has been applied.
- If possible, quickly put a splint on the arm or leg as if it were broken. Then keep the bite area below heart level, but do not let it hang completely dependent.
- Do not walk on a bitten leg. Exercise promotes blood flow and you don't want to spread the venom.
- Do not let the victim drink alcohol, since this may aggravate central nervous system depression.
- Transport the victim as soon as possible. Treatment requires administration of specific antivenin which should be given as soon as possible.

If you are more than an hour away from a hospital, a straight 1/4 inch incision should be made through each fang mark with a sterile knife, no more than 1/8

inch deep, and a suction cup applied. Leave the suction in place for at least 30 minutes.

•Get medical treatment as soon as possible, the sooner the better.

Some recommend applying ice to a snakebite in an effort to slow down the absorption of the snake venom. If you use ice, wrap it in a cloth or put something between the ice and the skin to avoid tissue damage.

This information was taken from a medical emergency handbook.

Large-winged butterflies beat their wings about four times per second; houseflies, about 20 times per second; and some midges, about 1,000 times per second.
